HEALTH FACILITIES AND SERVICES REVIEW BOARD
525 WEST JEFFERSON ST, SPRINGFIELD, ILLINOIS 62761 • (217) 782-3516 FAX: (217) 785-4111

BOARD MEETING: July 21, 2026	PROJECT NO: 26-011	PROJECT COST:
FACILITY NAME: Touchette Regional Hospital	CITY: Cahokia Heights	Original: \$0
TYPE OF PROJECT: Substantive - Discontinuation		HSA: XI

DESCRIPTION: The Applicants (Southern Illinois Health Care Foundation, Inc. (d/b/a SIHF Healthcare) and Touchette Regional Hospital, Inc. (d/b/a Touchette Regional Hospital)) are proposing the discontinuation of Touchette Regional Hospital, a 132-bed acute care hospital at 5900 Bond Avenue, Cahokia Heights, Illinois. There is no cost to the discontinuation. The discontinuation will occur within 60 days of the proposed new hospital's licensure.

Information regarding this Application for Permit can be found at this link:

<https://hfsrb.illinois.gov/project.26-011-touchette-regional-hospital--discontinuation.html>

EXECUTIVE SUMMARY

PROJECT DESCRIPTION:

- The Applicants (Southern Illinois Health Care Foundation, Inc. (d/b/a SIHF Healthcare) and Touchette Regional Hospital, Inc. (d/b/a Touchette Regional Hospital)) are proposing the discontinuation of Touchette Regional Hospital, a 132-bed acute care hospital at 5900 Bond Avenue, Cahokia Heights, Illinois. There is no cost to the discontinuation. The discontinuation will occur within 60 days of the proposed new hospital's licensure.

BACKGROUND

- In 2007-2008, Touchette Regional Hospital and Kenneth Hall Regional Hospital in East St. Louis were essentially merged, resulting in the closure of Kenneth Hall Regional Hospital in East St. Louis, Illinois, and the transfer of its medical services to Touchette Regional Hospital in Cahokia Heights, Illinois. Southern Illinois Healthcare Foundation owned both facilities. Kenneth Hall Regional Hospital was facing financial difficulties, losing approximately \$5 million annually due to high volumes of uninsured patients and declining Medicaid reimbursements. The State Board approved discontinuing services at Kenneth Hall, with medical-surgical, intensive care unit (ICU), and outpatient surgery services to be performed at Touchette Regional Hospital (Permit #07-105).
- The Emergency Room and inpatient psychiatric care (AMI) remained active at Kenneth Hall. Facing continued multi-million-dollar annual deficits, Kenneth Hall applied to shut down the remaining services. The State Board approved the closure of the hospital and the establishment of 12 mental health inpatient beds at Touchette Regional Hospital (Permit #11-005).
- Touchette Regional Hospital became the central campus for acute medical care, obstetrics, surgeries, and expanded behavioral health services. The removal of East St. Louis's only hospital created severe healthcare access challenges for low-income residents, forcing them to travel to neighboring municipalities for comprehensive medical care.

PURPOSE:

- Touchette Regional Hospital proposes discontinuing operations at the 5900 Bond Avenue facility and relocating to build a \$231 million replacement hospital in Cahokia Heights, Illinois. The Applicants state that the decision to close the current facility stems from severe structural limitations, patient access issues, and a move toward expanded regional behavioral healthcare. The existing hospital was constructed in 1958 and is more than 65 years old. It requires extensive, costly upgrades that are no longer practical given their structural limits. Three railroad tracks surround the current location. Patients and emergency vehicles frequently face dangerous delays due to blocked train crossings or flash flooding on local roads. The hospital has a limited footprint at its current location, making it impossible to expand to meet the growing healthcare needs of the Metro East community. SIHF Healthcare is replacing the old facility with a highly specialized, 108-bed campus near Interstate 255 and Camp Jackson Road. The new site will feature an optimized emergency department and nearly triple the hospital's behavioral health capacity, increasing from 50 to 96 dedicated mental health beds.

WHY THE PROJECT IS BEFORE THE STATE BOARD:

- The project is before the State Board because it proposes discontinuing a licensed hospital.

PUBLIC COMMENT:

- There was no request for a public hearing, and the State Board received no letters of opposition. Letters of support were received from

- State Representative Amy Elik
- State Senator Erica Harriss
- State Representative Kevin Schmidt
- State Representative Jay C. Hoffman
- Anderson Health
- Mayor of Belleville Jenny Gain Meyer
- Dr. Warren, Superintendent, Belleville District 201
- Brian Gerth, Abbott EMS
- Elbert Jennings, Resident

SUMMARY:

- The Applicants addressed a total of nine criteria and have met them all.

Project #26-011
State Board Staff Report
Touchette Regional Hospital

APPLICATION/CHRONOLOGY/SUMMARY	
Applicants	Southern Illinois Health Care Foundation, Inc. (d/b/a SIHF Healthcare) and Touchette Regional Hospital, Inc. (d/b/a Touchette Regional Hospital)
Facility Name	Touchette Regional Hospital
Location	5900 Bond Avenue, Cahokia Heights, Illinois
Permit Holder	Southern Illinois Health Care Foundation, Inc. (d/b/a SIHF Healthcare) and Touchette Regional Hospital, Inc. (d/b/a Touchette Regional Hospital)
Licensee/Operating Entity	Touchette Regional Hospital, Inc.
Owner of Site	Southern Illinois Health Care Foundation, Inc.
Application Received	March 9, 2026
Can the Applicants Request a Deferral?	Yes

I. Project Description

The Applicants (Southern Illinois Health Care Foundation, Inc. (d/b/a SIHF Healthcare) and Touchette Regional Hospital, Inc. (d/b/a Touchette Regional Hospital)) are proposing the discontinuation of Touchette Regional Hospital, a 132-bed acute care hospital at 5900 Bond Avenue, Cahokia Heights, Illinois. There is no cost to the discontinuation. The discontinuation will occur within 60 days of the proposed new hospital's licensure.

II. Summary of Findings

- A. The State Board Staff finds the project is in conformance with all relevant provisions of Part 1110.
- B. The State Board Staff finds the relevant provisions of Part 1120 do not apply to this project.

III. General Information

The Applicants are the Southern Illinois Health Care Foundation, Inc. (d/b/a SIHF Healthcare) and Touchette Regional Hospital, Inc. (d/b/a Touchette Regional Hospital). Southern Illinois Health Care Foundation, operating as SIHF Healthcare, is one of the largest non-profit Federally Qualified Health Center (FQHC) networks in the United States. Headquartered in Sauget, Illinois, the organization serves more than 100,000 patients annually across central and southwestern Illinois, providing comprehensive medical care regardless of a patient's income or insurance status. SIHF Healthcare operates as an integrated Patient-Centered Medical Home (PCMH),¹ with multiple health care services co-located to ease transportation burdens for patients. SIHF Healthcare manages

¹ A Patient-Centered Medical Home (PCMH) is a team-based model of care delivery designed to provide comprehensive and continuous medical care to patients to obtain maximal health outcomes. Despite its name, a PCMH is not a building, a nursing home, or home health care; it is an approach to organizing primary care.

a network of more than 30 community health centers across 11 counties in Illinois. It also operates specialized programs, such as the Health Care for the Homeless Program, which uses a mobile medical unit to visit shelters and food pantries across St. Clair and Madison Counties. (Source: SIHF Healthcare)

IV. Health Planning Area

Touchette Regional Hospital is in Health Service Area XI and the F-01 Hospital Planning Area. The geographic service area for this project is a 17-mile radius. HSA XI includes Clinton, Monroe, Madison, and St. Clair Counties. The population is estimated to decrease by 1.5% from 2026 to 2031. The 65+ population is expected to be 22.5% of the population in this Health Service Area by 2031.

TABLE ONE					
HSA XI Population ⁽¹⁾					
Population	Clinton	Monroe	Madison	St. Clair

V. Hospital

Touchette Regional Hospital is a 132-bed acute care hospital in Cahokia Heights, Illinois. The Hospital is licensed for 82 medical-surgical beds and 50 acute mental illness beds. Table One shows the 2025 Hospital utilization.

VI. Project Uses and Sources of Funds

There is no cost to this discontinuation.

VII. Background of the Applicant, Purpose of Project, Safety Net Impact Statement

- A. 77 Ill. Adm. Code 1110.110 (a) – Background of the Applicants
- B. 77 Ill. Adm. Code 1110.110 (b) – Purpose of the Project
- C. 77 Ill. Adm. Code 1110.110 (c) – Safety Net Impact Statement

The information requirements contained in this Section apply to all projects except projects that are solely for discontinuation. An applicant shall document the *qualifications, background, character, and financial resources to provide a proper service for the community adequately* and demonstrate that the project promotes the *orderly and economic development of health care facilities in the State of Illinois that avoids unnecessary duplication of facilities or services*. [20 ILCS 3960/2]

A) Background of Applicant – Review Criteria

An applicant must demonstrate that it is fit, willing, and able, and has the qualifications, background, *and character to adequately provide a proper standard of health care service for the community*. [20 ILCS 3960/6] In evaluating the qualifications, background and character of the applicant, HFSRB shall consider whether adverse action has been taken against the applicant, including corporate officers or directors, LLC members, partners, and owners of at least 5% of the proposed health care facility, or against any health care facility owned or operated by the applicant, directly or indirectly, within 3 years preceding the filing of the application. A health care facility is considered "owned or operated" by every person or entity that owns, directly or indirectly, an ownership interest. If any person or entity owns any option to acquire stock, the stock shall be owned by that person or entity (see 77 Ill. Adm. Code 1100 and 1130 for definitions of terms such as "adverse action", "ownership interest," and "principal shareholder").

SIHF maintains its status as a Federally Qualified Health Center (FQHC). This designation is issued by the Health Resources and Services Administration, which continually evaluates and certifies its operations. SIHF has the physical and clinical capacity to manage more than 100,000 active patients annually, with a footprint of over 30 facilities and hundreds of medical providers.

Touchette Regional Hospital is a licensed healthcare provider that currently operates in compliance with Illinois regulations. The Joint Commission accredits the Hospital. The proposed expansion project, supported by approximately \$222 million in state grants, would indicate that Illinois regulators view the Applicants as fit, willing, and able to continue providing care in compliance with Illinois standards.

Leadership:

Larry McCulley is a regional health executive and CEO of SIHF Healthcare (SIHF), a comprehensive, integrated healthcare provider. Mr. McCulley's commitment to advancing dignity and health in healthcare through SIHF's health initiatives reflects his desire to foster a consumer-centric culture that delivers comprehensive services, value-based outcomes, strong leadership, and community engagement. His experience and strategic capacity extends across medical group operations, hospital services, housing, population (public) health, and corporate collaborations. His combined leadership involves serving as the CEO of SIHF Healthcare, Touchette Regional Hospital (TRH), Finis Development, and several affordable and supportive housing developments.

Brad Goacher joined Touchette Regional Hospital in Cahokia Heights as their President in July 2024. Mr. Goacher started his healthcare career in 1996 with Southern IL Healthcare Foundation, the parent company of Touchette Regional, where he served as Accounting Manager. In 2000, he joined BJC Healthcare at Barnes-Jewish Hospital in St. Louis. After several finance positions at BJH and the BJC system office, he joined Alton Memorial Hospital as its Director of Finance in 2005. After eight years as the Director of Finance, Mr. Goacher moved into a VP-Operations role regionally at Alton Memorial and Christian Hospital. After 5 years working at both hospitals, Mr. Goacher was promoted to Chief Operating Officer at Alton Memorial in 2018 and served in that role until his recent transition to Touchette Regional Hospital.

B) Purpose of the Project – Information Requirements

The applicant shall document that the project will provide health services that improve the health care or well-being of the population of the market area to be served. The applicant shall define the planning area, market area, or other area as the applicant deems appropriate.

The purpose of this application for a permit is the approval of the discontinuation of the 132-bed Touchette Regional Hospital, 5900 Bond Avenue, Cahokia Heights, Illinois. This discontinuation is contingent upon the approval, licensure, and opening of the proposed replacement hospital at 1928 Sandy Ridge Road, Cahokia, Illinois.

C) Safety Net Impact Statement – Information Requirements

All health care facilities, except for skilled and intermediate long-term care facilities licensed under the Nursing Home Care Act, shall provide a safety net impact statement, which shall be filed with an application for a substantive project (see Section 1110.40). Safety net services are provided by health care providers or organizations that deliver health care to people with barriers to mainstream health care due to lack of insurance, inability to pay, special needs, ethnic or cultural characteristics, or geographic isolation. [20 ILCS 3960/5.4]

The Applicants provided a safety net statement as required, and it is included at the end of this report.

VIII. Discontinuation

- A. 77 Ill. Adm. Code 1110.290 (a) – Information Requirements
- B. 77 Ill. Adm. Code 1110.290 (b) – Reasons for Discontinuation
- C. 77 Ill. Adm. Code 1110.290 (c) – Impact on Access

These criteria pertain to the discontinuation of categories of service and health care facilities.

A) Information Requirements

The applicant shall provide at least the following information:

- 1) Identification of the categories of service and the number of beds, if any, that are to be discontinued.
- 2) Identification of all other clinical services that are to be discontinued.
- 3) The anticipated date of discontinuation for each identified service or for the entire facility.
- 4) The anticipated use of the physical plant and equipment after discontinuation occurs.
- 5) The anticipated disposition and location of all medical records about the services being discontinued and the length of time the records will be retained.
- 6) For applications involving discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or the Illinois Department of Public Health (IDPH) (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation and that the required information will be submitted no later than 60 days following the date of discontinuation.

Touchette Regional Hospital (TRH) is licensed to operate 82 Medical/Surgical beds and 50 acute mental illness beds. The hospital provides a basic Emergency Department, a surgical suite, a variety of imaging modalities (radiology, fluoroscopy, CT, MRI, ultrasound, mammography, nuclear medicine), a pharmacy, and a laboratory. The Applicants anticipate that the hospital will discontinue within sixty days following the licensure and occupancy of the proposed replacement hospital. The Applicants anticipate that the building will be used for a variety of uses, all of which will be consistent with the purpose and role of Southern Illinois Health Care Foundation (SIHF), including offices for physicians and other health care professionals, low-income and/or subsidized housing, classrooms, meeting areas, and other similar functions. Certain clinical and non-clinical equipment (not yet finalized) will be relocated to the replacement hospital, some will be given away, and some will be discarded, depending on age and usefulness. Medical records will be retained in accordance with all applicable licensure and Joint Commission requirements and standards, either as hard copies or in digital format, at or by the proposed replacement hospital. All the required notifications were provided.

B) Reasons for Discontinuation

The applicant shall document that the discontinuation is justified by providing data that verifies that one or more of the following factors (and other factors, as applicable) exist with respect to each service being discontinued:

- 1) Insufficient volume or demand for the service.
- 2) Lack of sufficient staff to adequately provide the service.
- 3) The facility or the service is not economically feasible, and continuation impairs the facility's financial viability.
- 4) The facility or the service is not in compliance with licensing or certification standards.

The Applicants state that the proposed discontinuation is contingent upon the Applicants' establishing a replacement hospital approximately a nine-minute drive from the existing hospital site. According to the Applicants, the proposed hospital will address a variety of issues common to hospitals of the current hospital's age, including the need for appropriate facilities to increase utilization of hospital outpatient (as opposed to inpatient) services, and an aging building and the associated costs of aging.

C) Impact on Access

The applicant shall determine whether the discontinuation of each service or of the entire facility will adversely affect access to care for residents of the facility's market area. The facility's market area, for purposes of this Section, is the established radii outlined in 77 Ill. Adm. Code 1100.510(d). Factors that indicate an adverse impact upon access to service for the population of the facility's market area include, but are not limited to, the following:

- 1) The service will no longer exist within the established radii outlined in 77 Ill. Adm. Code 1100.510(d) of the applicant facility.
- 2) Discontinuation of the service will result in creating or increasing a shortage of beds or services, as calculated in the Inventory of Health Care Facilities, which is described in 77 Ill. Adm. Code 1100.70 and found on HFSRB's website.
- 3) The provisions of 77 Ill Adm. Code 1100 or other Sections of this Part determine facility need or a shortage of other categories of service..

The Applicants stated that the proposed project, in conjunction with the establishment of a replacement hospital, will have a significant positive impact on access to the services to be provided at the hospital, particularly adolescent psychiatry services. All services currently provided are intended to be delivered by the applicants, either to the proposed replacement hospital or at another facility within the geographic service area. Written requests have been sent to each provider of either Medical/Surgical or acute mental illness services in the GSA.

SAFETY NET IMPACT STATEMENT

The Applicants stated the following:

The Applicants (Southern Illinois Healthcare Foundation, Inc. (SIHF) and Touchette Regional Hospital (TRH) are the definition of safety-net providers.

SIHF is one of the largest Federally Qualified Health Centers (FQHCs) in the state, serving a 33-county area and operating in 32 locations. Over half of the patients treated at TRH are Medicaid recipients. Both SIHF and TRH operate under the simple principle that all patients are to be served, regardless of their ability to pay.

The geographic service area ("GSA") that will most benefit from the establishment of a replacement hospital, along with the services it provides, includes the greater East Saint Louis area, including Cahokia Heights, East Saint Louis, and the surrounding communities and rural areas. Saint Clair County, the center of the GSA, has been designated as a Health Provider Shortage Area ("HPSA") for primary care physicians, dentists, and mental health providers. In the greater East Saint Louis area, 5.56% of the population is uninsured, and 65% rely on "public" insurance as their only coverage.

The proposed project is planned to address medical care and problems that are more prevalent in the region than in the state, including:

- higher rates of multigenerational poverty, unemployment, and violent crime,
- a higher share of the population with less than a high school degree,
- a disproportionately high older population,
- higher unemployment,
- higher rates of adult smoking and obesity
- higher rates of excessive drinking and drinking-related traffic accidents
- higher rates of sexually transmitted diseases
- higher rates of air pollution and drinking water violations
- a lack of access to specialty services

In addition, the premature birth rate in St. Clair County is approximately 32% higher than the State as a whole; its low-birth-weight rate is approximately 37% higher; its cancer prevalence rate is 7.5% higher than the national rate; and its cardiovascular disease rate is approximately 17% higher. Both SIHF and TRH actively participate in a broad range of community education, screening, employment, housing, and other programs focused on improving the region's healthcare. (See pages 54-88 of the Application for Permit)

Radius / HPA = ACS 2020–2024 5-year, area-weighted census-tract interpolation; **Illinois / USA** = exact published ACS aggregates. † Radius/HPA medians are weighted approximations (tract medians can't be re-summed); IL/USA medians are exact. Percentages recomputed from aggregated counts; scope reliability = combined population MOE (90% CI).

Bed Utilization Analysis

Authorized capacity compared to State Health Plan need formulas for the Health Planning Area and Health Service Area.

COUNTY **St. Clair** | HSA **11·Metro East** | HPA **F-01** | RADIUS **17 miles** | DATA YEAR **2024**

HEALTH PLANNING AREA · HPA F-01

Metro East

BED CATEGORY	AUTHORIZED	NEED	GAP	% OF NEED
Med-Surg/Pediatric	978	482	+496	202.9%
Obstetrics	89	44	+45	202.3%
Intensive Care Unit	93	86	+7	108.1%
Total	1,160	612	+548	189.5%

HEALTH SERVICE AREA · HSA 11

Metro East

BED CATEGORY	AUTHORIZED	NEED	GAP	% OF NEED
Rehabilitation	74	33	+41	224.2%
Acute Mental Illness	170	65	+105	261.5%
Total	244	98	+146	249.0%

Statutory radius: Per 77 Ill. Adm. Code 1100, radius follows county classification — 10 miles (Cook, DuPage, Kane, Lake, Will), 17 miles (mid-size), 21 miles (rural). **Gap analysis:** Positive values indicate surplus; parentheses indicate shortage. Need calculated per State Health Plan formulas. **Source:** 2024 Annual Hospital Survey responses submitted to HFSRB.

Surgical Volume Analysis

Combined hospital and ASTC operating-room volume within 17 miles of St. Clair County.
