Registered Agent Name

Registered Agent Street Address

Registered Agent City, State and Zip Code

Registered Agent Telephone Number

## FACILITY STAFFING

Please report the number of Full-Time Equivalent (FTE) staff employed directly by your facility during the first pay period of December, 2023. DO NOT REPORT NUMBER OF HOURS WORKED. A Full-Time Equivalent of a staff member's employment is calculated by dividing the number of hours that person worked by the typical hours worked by a full-time staff member in that position. For example, if a staff member worked 16 hours in the pay period, and a full-time employee would typically work 40 hours, that staff person accounted for 0.4 Full-Time Equivalent (FTE).

Due to the wide range of services provided in long-term care facilities, we have included 2 aggregated employment categories: Other Healthcare Personnel, for health-related staff not listed separately, and Other Non-Health Personnel, for staff not directly involved in the provision of health care to patients.

Please indicate the typical number of hours in a work week for a full-time employee:

## FACILITY ADMISSIONS AND DISCHARGES DURING CALENDAR YEAR 2021

Please report the number of initial admissions to and final discharges from your facility during Calendar Year 2023.

**Count only new admissions to and permanent discharges from the facility.** Short-term discharges for Acute or Sub-Acute hospital care, or temporary releases to visit friends or relatives for patients expected to return to the facility are not to be counted as discharges and re-admissions. If a person has been discharged from care, but later in the year is re-admitted, please count both the discharge and the re-admission. The calculated number in the yellow box must equal the totals in the yellow boxes on the following pages.

Indicate the number of patients in your facility on January 1, 2023	
Indicate the number of initial admissions to your facility during 2023	
Indicate the number of permanent discharges from your facility during 2023	
This number should be the number of patients in your facility on December 31, 2023

### Authorized Electronic Monitoring

Effective January 1, 2016, the Authorized Electronic Monitoring in Long-Term Care Facilities Act (210 ILCS 32/), Public Act 99-0430, set forth conditions and processes whereby a long-term care resident could request authorized electronic monitoring of his/her living quarters. As part of this Act, each long-term care facility covered by the Act must annually report to the Illinois Department of Public Health the number of requests the facility has received for electronic monitoring.

In order to reduce the number of separate data requests, the Office of Health Care Regulation of the Illinois Department of Public Health has requested that this reporting be incorporated into the HFSRB Annual Long-Term Care (LTC) Facility Questionnaire.

Please note that this information will not be used in the Certificate of Need process. Should you have any questions regarding the Authorized Electronic Monitoring Act, please contact the IDPH Office of Health Care Regulation at 217/782-5180.

Thank you.
