**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

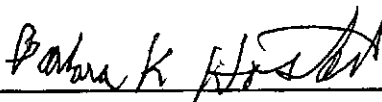

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Name:

Barbara Hostert

As a cancer survivor that lives in Lockport, IL , I feel that we need an excellent cancer center locally because the need is here in Will County. When you are sick and need treatments it is very difficult to drive into Chicago to get your treatments, therefore, I feel that this is an excellent area in need of a State of the Art Cancer Center.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)**

Dear Mr. Constantino:

I am the Section Chief of Hematology/Oncology at the University of Chicago. I have been teaching and practicing hematology/oncology for 29 years, including 26 years at the University of Chicago Medical Center. I am writing to you today to express my support for the proposed University of Chicago Cancer Center at Silver Cross Hospital in New Lenox.

As a practicing oncologist, I understand the difficulty and anxiety that a cancer diagnosis brings to patients and their families. That stress can be mitigated by the opportunity to receive care close to home in a familiar setting. National organizations, 2 of which I have led, espouse the rapid dissemination of clinical research into community-based settings. During 2008-2009 I served as president of the American Society of Clinical Oncology (ASCO), the national professional organization for oncologists. I also served as chair of Cancer and Leukemia Group B (CALGB), an NCI-sponsored clinical trials group, for over a decade. This large national cooperative comprises a network of 30 university medical centers, over 200 community hospitals and medical groups, and 3,000 physicians who collaborate in clinical research studies aimed at reducing the mortality from cancer, relating the biological characteristics of cancer to clinical outcomes, and developing new strategies for early detection and prevention of cancer. I am delighted that the University of Chicago Medical Center and Silver Cross Hospital joined forces to offer the most advanced cancer care in Will County.

The proposed Cancer Center will have two primary services most often required by cancer patients, an infusion/chemotherapy facility and radiation therapy. The center will have one of the newest and best technologies available in the area for treating cancer – the Varian TrueBEAM linear accelerator. This piece of equipment offers the best utility of existing linear accelerators, but with current state of the art Image Guided Radiotherapy (IGRT) capabilities. Not only is this the most innovative and effective radiotherapy available – it is also the safest. In addition, we expect to offer a wide range of clinical trials including many developed by the physician scientists at the University of Chicago. In addition, patients will have access to trials through national cancer cooperative groups (RTOG, CALGB, ACOSOG, COG, GOG, University of Chicago Phase II Consortium), many of which we lead.

The University of Chicago hematologists/oncologists look forward to working with our colleagues at Silver Cross Hospital to determine the best treatment options for patients

in the Silver Cross community. I know that cancer patients and their families will benefit greatly from enhanced coordination of care and improved communication among the many physicians and other clinical professionals relied upon by cancer patients.

I ask that the Illinois Health Facilities and Services Review Board approve this project. These critical services are needed in the Will County area. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard L. Schilsky". The signature is written in a cursive, flowing style.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project #10-049)**

Dear Mr. Constantino:

As a practicing oncologist and interim dean and chief executive officer of the University of Chicago Medical Center, I write to express my enthusiastic support for the proposed University of Chicago Cancer Center at Silver Cross Hospital in New Lenox.

We are delighted with the opportunity to work side-by-side with Silver Cross Hospital and its excellent physician community to offer the highest quality cancer care and support in Will County. At the University of Chicago Medical Center alone, we provide treatment and consultation services to approximately 1400 patients annually from the Silver Cross service area. There are many other patients from the area who travel to other academic medical centers throughout the Chicago metropolitan area. Such travel can entail a 4 hour-round trip in difficult traffic. A cancer diagnosis is worrisome enough without the additional anxiety about logistics and transportation. With the construction of the new center, advanced treatment protocols that are currently only available at the University of Chicago would be offered at the Silver Cross Hospital campus.

The proposed Cancer Center will offer two primary treatment modalities – an infusion/chemotherapy and radiation therapy. This facility will have one of the newest and best technologies available in the area for treating cancer – the Varian TrueBEAM linear accelerator. This piece of equipment offers the best utility of existing linear accelerators, but with current state of the art Image Guided Radiotherapy (IGRT) capabilities. Not only is this the most innovative and effective radiotherapy available– it is also the safest. Our ability to put 5 PhD's and 4 dosimetrists and dedicate 100 hours of physics resources to a complex case should not be overlooked. The Silver Cross facility will tap into our extensive physics support as well as be integrated into our rigorous peer and quality review processes. In fact, treatment plans are routinely reviewed by physicians not involved in the case to insure quality of care.

The University of Chicago Medical Center looks forward to offering patients the opportunity to enroll in clinical trials close to home. We offer the largest number and range of clinical trial protocols in the Chicago metropolitan area. Trials include those developed by the physician scientists at the University of Chicago and/or offered through national cooperative cancer research consortia (RTOG, CALGB, ACOSOG, COG, GOG, University of Chicago Phase II Consortium), many of which we lead. We expect many of these trials will be available for patients at the Silver Cross campus.

My faculty physician colleagues and I look forward to collaborating with Silver Cross physicians, patients, and their families to determine the best course of treatment based on each patient's unique situation. I ask that the Illinois Health Facilities and Services Review Board approve this project. These services will greatly benefit Will County patients and their families. Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script, appearing to read "Everett E. Vokes".

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

As the chairman of the Department of Radiation and Cellular Oncology, I am writing to you today to express my support for the proposed University of Chicago Cancer Center at Silver Cross Hospital in New Lenox. The new center would provide residents of the southwest suburbs with access to the latest treatment techniques, many pioneered at the University of Chicago Medical Center, close to home.

The proposed Cancer Center will have two primary services – an infusion / chemotherapy service and a radiation oncology service. This facility will have one of the newest and best technologies available in the area for treating cancer – the Varian TrueBEAM linear accelerator. This piece of equipment offers the best utility of existing linear accelerators, but with current state of the art Image Guided Radiotherapy (IGRT) capabilities. In addition to offering the safest and most innovative technology, with our team of physicians, medical physicists, dosimetrists, and other technical and clinical personnel we will bring a level of precision and expertise that Silver Cross Hospital or another standalone center would find difficult to establish on their own.

I am proud of the collaborative relationships we have developed at numerous locations in the metropolitan area and we look forward to working with physician colleagues at Silver Cross Hospital to determine the best treatment options for patients in Will County. We will be able to deploy some of the more novel treatments that have been developed at UCMC – such as prone breast IGRT, concurrent chemotherapy and hyperfractionated stereotactic body radiotherapy (SBRT) – at the proposed Cancer Center in New Lenox.

Mr. Michael Constantino

Page 2 of 2

I ask that the Illinois Health Facilities and Services Review Board approve this project. These critical services will enhance the treatment. Thank you for your consideration.

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am the medical director for radiation oncology services at the University of Chicago Medical Center where I have been practicing for 25 years. I am also a professor in the Department of Radiation and Cellular Oncology at the University of Chicago and Board-Certified in radiation oncology. I am writing to you today to express my support for the proposed University of Chicago Cancer Center at Silver Cross Hospital in New Lenox.

The proposed Cancer Center will have two primary services – an infusion / chemotherapy service and a radiation oncology service. As a long-time resident of the suburban southwest Chicago area, I am particularly thrilled that UCMC and Silver Cross Hospital were able to join forces in this venture. Many patients come to the University of Chicago from the southwest suburbs looking for the “Forefront of Medicine”. They are willing to travel every day for 35 radiation treatments to get the high quality care provided by the University of Chicago Medical Center. Patients in the southwest suburbs will now have access to the very latest treatment techniques that have been developed at UCMC closer to their homes.

Patients will have access to high quality care with proven outcomes. We have published the results of our cancer treatment in the medical literature for almost every site and stage of disease. We are one

Mr. Michael Constantino

Page 2 of 2

of two NCI National Comprehensive Cancer Centers in Illinois. Few oncology centers can make that claim. I look forward to bringing this to the community.

This facility will have one of the newest and best technologies available in the area for treating cancer – the Varian TrueBEAM linear accelerator. This piece of equipment offers the best utility of existing linear accelerators, but with current state of the art Image Guided Radiotherapy (IGRT) capabilities. Not only is this the most innovative and effective radiotherapy available– it is also the safest. We will be able to deploy some of the more novel treatments that have been developed at UCMC – such as prone breast IGRT, concurrent chemotherapy and hyperfractionated stereotactic body radiotherapy (SBRT) – at the proposed Cancer Center in New Lenox. Also, we will be able to provide high quality physics support for treatment planning of difficult cases with our full staff of PhD physicists and medical dosimetrists. Only an academic center has the staffing to bring this level of support.

I look forward to collaborating face-to-face with my colleagues at Silver Cross Hospital to determine the best courses of treatment for our patients. I know that cancer patients and their families will benefit greatly from enhanced coordination of care and improved communication among the many physicians and other clinical professionals relied upon by cancer patients.

I ask that the Illinois Health Facilities and Services Review Board approve this project. These critical services are needed in this area. Thank you for your consideration.

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Cook County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come. As a Cancer survivor I would enjoy the confidence that University of Chicago would bring to Silver Cross. The science and clinical studies U of C would combine with the personalized care I have come to depend on from Silver Cross.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Sheila Madjecki

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. My husband was diagnosed with Malignant Epithelial Mesothelioma in March 2008. We travelled to the University of Chicago 1 to 2 times per week for almost 2 years participating in clinical trials--the only treatments available for this dreadful cancer. The travel time was 1-1/2 to 2-1/2 hours each way depending on weather and traffic conditions. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Re: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project #10-049)

Dear Mr. Constantino:

Six years ago I was diagnosed with cancer on my tongue and throat. My local surgeon proposed major surgery on my face to remove the cancer.

Before having the procedure, I got a second opinion at the University of Chicago Hospital. I found this disfiguring surgery was not necessary.

The medical team determined that the use of chemo therapy, radiation and a minor surgery was needed. A year later I was cancer free.

Without treatment by this medical team at the University of Chicago my outcome would have been very different.

That year meant daily trips into Hyde Park with my wife driving because of my poor health. During the three weeks I was an inpatient, my wife made the trip alone. As residents in Batavia, IL driving back and forth compounded the stress we were already experiencing.

I hope you will approve the new University of Chicago Cancer Center in New Lenox. Having the expertise of the University of Chicago in the suburbs would have made our life so much easier during this difficult time.

Sincerely Yours,

  
Ron Gilkerson

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New  
Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely, *Cheryl Lukas*

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)

Dear Mr. Constantino:

I am writing to you on behalf of my board members to voice our overwhelming support for The University of Chicago Cancer Center at Silver Cross Hospital in New Lenox. Local residents who are suffering with cancer – along with their families and friends who support them throughout their diagnosis and treatment – will benefit greatly from the proposed facility.

One of the goals of the Silver Cross Healthy Community Commission is to create a stronger, healthier future for local residents. There are over 25,000 residents in Homer Glen. The proposed Cancer Center will bring additional services to area residents – through community outreach for cancer awareness, prevention and screenings and support groups along with information about the latest cancer research and treatment.

We are excited about the partnership between The University of Chicago Medical Center and Silver Cross Hospital. We are particularly proud of our affiliation with nationally-recognized hospital and Chamber member Silver Cross Hospital – a 100 Top Hospital award winner for the last six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care that is available in our community.

We are asking the Illinois Health Facilities and Services Review Board to approve The University of Chicago Cancer Center at Silver Cross Hospital. As community leaders, we know that the commitment both institutions are making to improving cancer care will benefit area residents for generations to come.

Thank you for your consideration.

Sincerely,

*Rosella Trotter*

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I write to you as both a resident of Will County and as Pastor of Mt. Zion Baptist Church. Mt. Zion is a historic institution within the African American community of Joliet. While our congregation is comprised of a diverse group of residents within both Joliet and Will County, our congregation is comprised predominantly of residents of the eastern portion of the City of Joliet. As such, many of our congregants and their families have been served by Silver Cross Hospital. I write in support of the proposed Cancer Center on the new Silver Cross Hospital campus. There is little question that the expertise of the University of Chicago will be of great benefit to residents of Joliet.

It is an unfortunate reality that a tremendous number of families in my congregation, and in this community, whose lives are indelibly touched by an encounter with cancer. I have witnessed first hand the difficulty and hardship these families go through as they seek medical treatment and care for loved ones. I have watched as families have gone to great lengths and distances in an effort to find the best possible care. I know that a cancer facility, with the level of quality care possible through this partnership between Silver Cross and the University of Chicago, would make a demonstrative difference to this community. These two institutions will expand access, improve coordination and enhance the overall quality of cancer care for a community much in need of these services.

The expertise of the University of Chicago is well known, as is that of Silver Cross Hospital. However, my confidence in this partnership is anchored in my first hand experience of the care and commitment Silver Cross has to the residents of this community. This institution has proven, with great consistency, to be committed to impacting and improving the quality of medical care available to all citizens of this community.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

Pastor David G. Latimore

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)**

Dear Mr. Constantino:

We are residents of Will County and are writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. Two of our three deceased parents died of cancer, so that horrible disease is constantly on our minds. In addition a very dear friend of our family from Homer Glen (Will County) is dying of cancer. For adequate care he had to arrange transportation to downtown Chicago for treatment before his recent confinement to the Joliet Hospice.

New Lenox and the new Silver Cross facility are strategically located not only to serve Will County, but the entire western, southwestern and southern Chicago suburban area and surrounding communities. Such resources will benefit area patients, and their families and care-givers, for years to come.

It is our hope, and subject of our prayers, that the proposed Cancer Center will be approved for the Silver Cross campus. We thank you and the board for consideration of this extremely worthwhile endeavor.

Sincerely,

  
James A. Campbell

**Comments/Questions:**

I support a Cancer Care Center at Silver Cross Hospital.

I have a friend who lives in the Joliet/Plainfield area who currently drives more than an hour to receive diagnostic treatment for her daughter. The time travel has forced her to take extra time off work -- time she may need later.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely, *Sandra Zavala*

Lenox (Project # 10-049)**

Dear Mr. Constantino:

Good day. I am in favor of having a cancer facility affiliated with UCMC here at the new Silver Cross location in 2012. Both hospitals have fantastic reputations and with the growing need for good cancer treatment close to home, the opening of this facility has come at the perfect time. Thank you for getting it done for our south suburban communities.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely, *Jeraldine O'Brien*

525 West Jefferson Street, 2<sup>nd</sup> Floor  
Springfield, IL 62761

Re: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino,

I am writing on behalf of the 11<sup>th</sup> Congressional District of Illinois to express my support for the University of Chicago Cancer Center at Silver Cross Hospital in New Lenox, Illinois.

Bringing the expertise of the University of Chicago to the district will provide great benefits for patients suffering from cancer and to their loved ones who support them throughout their treatment process. Additionally, the proposed center will bring community outreach for cancer awareness, prevention and screenings and support groups.

The efforts of both institutions to improve cancer care will benefit those in the community for generations to come. Silver Cross Hospital has been nationally recognized as a 100 Top Hospital award winner for six consecutive years. The University of Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News and World Report Survey. Combined, these two institutions will certainly improve cancer care in the community.

I support the University of Chicago Cancer Center at Silver Cross Hospital and believe it will be beneficial to the entire 11<sup>th</sup> District and the State of Illinois. I know you will give full consideration based on the merits of the application. If I can be of further assistance, please do not hesitate to contact me or my staff at (815) 726-4998.

Sincerely,

Debbie Halvorson  
Member of Congress

Just had a guard die from cancer. He had to go to hospice to take him back and forth to Chicago. He could not drive that far for treatment. He was a senior citizen. A local center would have made his life much easier.

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I am writing to state my support for The University of Chicago Cancer Center at Silver Cross Hospital's New Lenox campus. I am in a very unique position relative to this project, and offer my support from two different perspectives – as both the President and CEO of the Joliet Region Chamber of Commerce and Industry and as a long-standing member of Silver Cross Hospital's Board of Directors.

I have served as President and CEO of the Joliet Region Chamber of Commerce for fifteen years. During that time I have seen our business community face many challenges and we have weathered both good times and bad times. I know from experience how important it is to promote business growth, economic development and prosperity in our community. This is especially true in times like these when economic conditions are most challenging. Our Chamber Board of Directors and I support continued investment in our community like that proposed by Silver Cross Hospital and The University of Chicago Medical Center. Silver Cross' new hospital campus is one of our area's largest building projects at this time and we know that its continued development will attract future investments by other businesses.

I have also been a member of Silver Cross Hospital's Board of Directors for 23 years, and have served on numerous Board subcommittees during my tenure. I know firsthand how much time went into planning and implementing this project. The Board undertook a very thorough process to evaluate the capital dollars that would be required to do a Cancer Center the right way. We also took time to find the right academic medical center

Michael Constantino  
Page Two

partner – one that has the right expertise and set of credentials, and one that will deliver the highest quality of care and make the right commitment to our community region.

On behalf of both the Joliet Region Chamber of Commerce and Industry and the Silver Cross Hospital Boards of Directors, I am requesting the Illinois Health Facilities and Service Review Board to approve the University of Chicago Cancer Center at the new Silver Cross Hospital campus. Doing so will not only expand needed health care service for our patients and area residents, but will also help continue to attract future economic development throughout the greater Joliet region.

Sincerely,

A handwritten signature in cursive script that reads "Russ Slinkard". The signature is written in black ink and is positioned above the typed name.

Re: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino,

I am writing on behalf of the 11<sup>th</sup> Congressional District of Illinois to express my support for the University of Chicago Cancer Center at Silver Cross Hospital in New Lenox, Illinois.

Bringing the expertise of the University of Chicago to the district will provide great benefits for patients suffering from cancer and to their loved ones who support them throughout their treatment process. Additionally, the proposed center will bring community outreach for cancer awareness, prevention and screenings and support groups.

The efforts of both institutions to improve cancer care will benefit those in the community for generations to come. Silver Cross Hospital has been nationally recognized as a 100 Top Hospital award winner for six consecutive years. The University of Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News and World Report Survey. Combined, these two institutions will certainly improve cancer care in the community.

I support the University of Chicago Cancer Center at Silver Cross Hospital and believe it will be beneficial to the entire 11<sup>th</sup> District and the State of Illinois. I know you will give full consideration based on the merits of the application. If I can be of further assistance, please do not hesitate to contact me or my staff at (815) 726-4998.

Sincerely,

Debbie Halvorson  
Member of Congress

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I am a resident of city and have been a patient at Silver Cross Hospital for 30 years. I am writing to you in support of the proposed Cancer Center at Silver Cross Hospital's campus in New Lenox. I am thrilled to learn that The University of Chicago Medical Center's cancer services will be available in this community.

You see, 18 years ago my older sister was diagnose with cancer. She had just turn 30 in August and less than a month later she was having some medical issues. It took two weeks to find out that she had cancer.

After being diagnosed with cancer, the doctors at Silver Cross where working to treat her. Because we wanted to give my sister the best chance to a long life with her family, we decided that it was time to go somewhere else for a second opinion. We chose to go to the Mayo Clinic in Minnesota. My cousin Chela, a nurse at Silver Cross, and I pack our bags, put her in the back of the car and left for Minnesota. The only problem is that I was the only one who could be with her at the clinic.

During the four weeks she was there, I spent part of the week, during her critical days, with her at the hospital. I then drove back home when she was stable and sometimes went directly to my work place to work for 12 or 16 hours. Every time I had to come back to work, she was alone at the hospital with no one by her side. In those days there were no cell phones but we had answering machines. So if my sister got worse, she would call me at work or leave a message at home that she was being moved to intensive care. I would then drove back to Minnesota as early as I could to be with her again but the trip would take 5 hours to get there. Unfortunately, there was nothing that could be done with my sister and we brought her back to Silver Cross where she passed away a few days later.

It is because of this that I'm asking the Review Board to please approve this project. The University of Chicago Medical Center will provide a number of outpatient services in New Lenox – educational programs/resources, support groups, information about the newest cancer treatments and access to more clinical trials than any other metropolitan Chicago area hospital. The University of Chicago Medical Center is regarded as a leader in cancer care and will bring their expertise right in this community. The University of Chicago Medical Center will have a number of cancer specialists available for me and my family without having to travel outside of our area. Instead of spending hours on the road, we can spend that time by the side of our loved ones.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Manuela Botello

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

2<sup>ND</sup> VICE PRESIDENT  
Ms. Regina White

Dear Mr. Constantino:

SECRETARY  
Ms. Sabrina White

As a resident of Will County and President of the Joliet Chapter of National Hook-Up of Black Women (NHBW), Inc, I am writing in support of the proposed Cancer Center on the Silver Cross Hospital replacement campus. NHBW has an on-going National mandate to provide cancer awareness workshops and programs to the communities we serve. NHBW programs include providing workshops on the benefits of breast self examinations (and how), obtaining pap smears, mammograms, and prostate screening. With grant money provided free mammogram vouchers to the community. Also, we initiated a program in the Churches to provide prostate screening and awareness to minority men.

TREASURER  
Ms. Marilyn Dixon

Bringing the expertise of the University of Chicago to our local community will be of great benefit to patients suffering from cancer and to their friends and families who support them through treatment. The partnership assures that our region will have access to the best cancer care available. The University of Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News & World Report survey. Silver Cross Hospital is a nationally recognized 100 Top Hospital award winner for six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care. Additionally, the proposed Center will enhance NHBW's current community outreach for cancer awareness, prevention and screenings and support groups. Silver Cross and University of Chicago Medical Centers are making a significant investment to bring the best care to the community – both in the facilities and the state-of-the-art equipment for cancer patients. The commitment of both institutions to improving cancer care will benefit residents for generations to come.

Re: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project #10-049)

Dear Mr. Constantino:

On behalf of the Village of New Lenox, I am writing in strong support of the proposed Cancer Center on the Silver Cross Hospital replacement campus in our community. Silver Cross Hospital has been a key partner in promoting health and well being in the New Lenox community for many, many years and we look forward to the hospital continuing to build on their commitment to this community. We are very excited about Silver Cross Hospital joining forces with the University of Chicago Medical Center (UCMC) to expand their cancer program in this area.

Having cancer experts from UCMC available in New Lenox means that cancer patients will no longer be required to travel long distances for treatment at downtown Chicago facilities. They will be able to get that same level of care right here and much closer to home. We all know how much this could mean to patients and their families – especially in terms of balancing extensive and taxing cancer treatments with the demands of child care, quality time with family and career obligations. In addition to the safest and most accurate radiation therapy available, cancer patients will be offered cancer support groups and the possibility of enrolling in new clinical trials.

All of us on the Village Board have been eagerly watching the new Silver Cross Hospital become a reality – it has been fascinating seeing the new structure take shape. We look forward to the day it opens and know that it will continue to fuel future investment and economic development in our community. Silver Cross Hospital's announcement of their partnership with the University of Chicago Medical Center and the expansion of their services into our community has been very well received.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

Trustee Annette Bowden

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

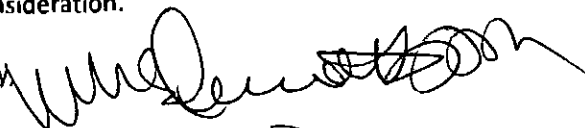

I am a Board-Certified physician on the Medical Staff at Silver Cross Hospital. I support the proposed Cancer Center at Silver Cross Hospital.

As a primary care physician in practice years, I have treated some of the same patients for many, many years. Through my longest-standing patients, I have learned that sometimes any delay in getting treatment can seem like a lifetime – particularly when facing such a life-altering diagnosis that cancer can bring. Coordinating care and treatment far from home is always difficult. Appointments need to be scheduled with different specialists, lengthy and painful treatments have to be endured, and travel to distant facilities needs to be coordinated – all while managing family, career and social obligations. But, having cancer specialists and resources from UCMC available right here in New Lenox will help these patients tremendously. The burdens of coordinating care and travelling far for treatment will be lessened tremendously – allowing patients to focus on the more important things.

I know my patients and their families will benefit greatly from the vast array of cancer resources that UCMC will provide – such as educational programs, support groups and information about the latest clinical trials and treatment options. I look forward to being able to refer my patients to the “best of the best” in cancer treatment right here.

I urge the Illinois Health Facilities and Services Review Board to approve this project. Thank you for your consideration.

Sincerely,

But, having cancer specialists and resources from UCMC available right here in New Lenox will help these patients tremendously. The burdens of coordinating care and travelling far for treatment will be lessened tremendously – allowing patients to focus on the more important things.

I know my patients and their families will benefit greatly from the vast array of cancer resources that UCMC will provide – such as educational programs, support groups and information about the latest clinical trials and treatment options. I look forward to being able to refer my patients to the “best of the best” in cancer treatment right here.

I urge the Illinois Health Facilities and Services Review Board to approve this project. Thank you for your consideration.

Sincerely,

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I am a Board-Certified physician on the Medical Staff at Silver Cross Hospital. I support the proposed Cancer Center at Silver Cross Hospital.

As a primary care physician in practice years, I have treated some of the same patients for many, many years. Through my longest-standing patients, I have learned that sometimes any delay in getting treatment can seem like a lifetime – particularly when facing such a life-altering diagnosis that cancer can bring. Coordinating care and treatment far from home is always difficult. Appointments need to be scheduled with different specialists, lengthy and painful treatments have to be endured, and travel to distant facilities needs to be coordinated – all while managing family, career and social obligations. But, having cancer specialists and resources from UCMC available right here in New Lenox will help these patients tremendously. The burdens of coordinating care and travelling far for treatment will be lessened tremendously – allowing patients to focus on the more important things.

I know my patients and their families will benefit greatly from the vast array of cancer resources that UCMC will provide – such as educational programs, support groups and information about the latest clinical trials and treatment options. I look forward to being able to refer my patients to the “best of the best” in cancer treatment right here.

I urge the Illinois Health Facilities and Services Review Board to approve this project. Thank you for your consideration.

Sincerely,

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I am a Board-Certified surgeon on the Medical Staff at Silver Cross Hospital. I am writing to voice my support for the proposed University of Chicago Cancer Center at the hospital's new campus.

In my years of experience, the coordination of care for cancer patients is sometimes very difficult – especially for post-surgery care and more complex surgical procedures. Unfortunately, many area cancer patients have to travel long distances for visits with cancer specialists or cancer treatment because they are only available downtown Chicago. But, with the proposed Cancer Center project, oncology specialists and outpatient cancer services offered through The University of Chicago Medical Center will now be available on the same campus with other Silver Cross Hospital services. Cancer patients will no longer have to travel so far from home for their care and they can continue to be treated in more familiar surroundings.

On a more personal note, I am looking forward to bridging the physical distance with my University of Chicago Medical Center physician colleagues. Consulting with UCMC oncologists and other cancer specialists face-to-face will improve our delivery of care and outcomes for our patients. We will be able to provide more seamless hand-offs between physician specialists and cancer services – simply because they will all be located on the same campus.

I encourage the Illinois Health Facilities and Services Review Board to approve this project. It will go a long way to improving care for residents of this community. Thank you for your time and consideration.

Sincerely

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I am writing to you today to offer my overwhelming support for The University of Chicago Cancer Center at Silver Cross Hospital in New Lenox. I am writing to you as a board-certified internal medicine physician on staff at Silver Cross Hospital for 38 years, as a member and past Chairman of Silver Cross Hospital's Board of Directors and as the husband of a cancer survivor.

I was a member of Silver Cross Hospital's Board of Directors when the decision was made to work with the University of Chicago Medical Center on a joint cancer center project. I know first-hand how much time and effort was dedicated to the selection process. Care was taken by our Board to ensure that our academic medical center partner had the right clinical credentials and was committed to delivering only the highest standards of care in cancer treatment. The University of Chicago cancer program is extremely well-respected – in both professional and public circles – and fulfills all of the qualities required by our Board. We are very excited about bringing their program to our community.

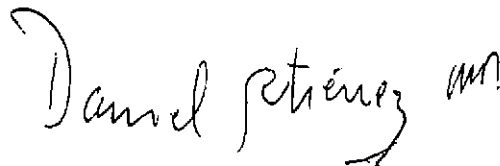

In my nearly four decades of practice in internal medicine in the Joliet area, I have had many patients diagnosed with cancer who were referred to specialists or for cancer treatments that were only available at academic medical centers downtown Chicago. It has always bothered me that these patients had to travel such long distances for cancer care – at perhaps the one time in their life when we should do everything we can to make it easier for them, not harder. Dealing with a life-altering diagnosis like cancer is difficult enough.

Michael Constantino  
Page Two  
September 8, 2010

On a more personal note, I know what a toll a cancer diagnosis and its treatment can have. My wife was diagnosed with cancer and I witnessed firsthand the stress that travelling downtown Chicago had on her. As her primary caregiver, I was responsible for getting her to her treatments and waiting long hours in unfamiliar surroundings. I know what a difference it would have meant to us if we could have obtained the same level of care offered at the University of Chicago in our own community.

I hope that the Facilities Review Board approves this project. I know what it would have meant to me and my wife during our time of need; I know what it would have meant to my patients facing the same predicament and I know what it will mean to future cancer patients that are living in this area.

Sincerely,

A handwritten signature in black ink that reads "Daniel Gutierrez" followed by a stylized flourish or initials.

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

As a resident of Will County, we are writing in support of the proposed Cancer Center on the Silver Cross Hospital replacement campus. We are lifelong residents and local educators – and my family members have been patients at Silver Cross many times.

We think it is wonderful that Silver Cross is doing so much to bring national expertise to our local community. When our son was born, he had to be airlifted to a Chicago hospital and was separated from his mother at birth. A traumatic experience for us. Today, he could have been treated right here in the same hospital where his mom was recovering from childbirth. Since then, our son, our other children and other relatives have repeatedly been sent to Chicago to get treatment. Having lived here our whole lives, we am so happy that our family can now continue to be served by the wonderful, caring people at Silver – a hospital that has improved tremendously over the years and is now a Top 100 hospital.

We love the people and the care at Silver – now we can also get the experts from places like University of Chicago – truly amazing! We know my grandchildren will never have to be flown far away from their family to get the treatment they need to save their lives. And we are happy we won't have to be separated from our family to get treatment as we grow older.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

  
Stephen G. Morrisette

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I am writing to express my overwhelming support for The University of Chicago Cancer Center at Silver Cross Hospital in New Lenox. Will County residents who are suffering with cancer – along with their families and friends who support them throughout their diagnosis and treatment – will benefit greatly from the proposed facility.

Will County continues to be one of the fastest growing areas in Illinois. In fact, it is estimated that by 2014, we will have more than 750,000 residents—many age 65 and older. Today, one of the leading causes of death in Will County is cancer—a disease affecting primarily older people. Yet 70 percent of cancer patients are leaving the area for care. Bringing one of the best cancer programs in the nation to the new Silver Cross Hospital campus, seated in the heart of our county, would save these patients long and often times frequent commutes to unfamiliar locations.

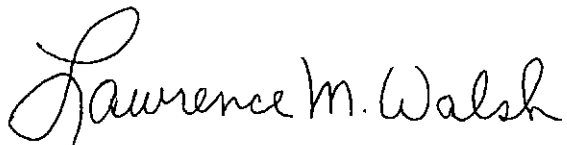

The University of Chicago Medical Center is highly regarded and, according to the *U.S. News & World Report*, is consistently ranked as one of the best cancer hospitals in the nation. Silver Cross Hospital has been recognized a “100 Top Hospital” award winner for the last six consecutive years and is one of the leading providers of healthcare in the area. Combined, these two hospitals will expand access, improve coordination, and enhance the overall quality of cancer care that is available in our county. Silver Cross and the University of Chicago Medical Center

are making significant investments in facilities and equipment to bring the best cancer care to Will County.

Furthermore, the construction of the \$21 million, 20,000 sq. ft. Cancer Center would help to stimulate our local economy by creating hundreds of construction and healthcare jobs. With the current Silver Cross replacement hospital more than halfway completed, many local families have already greatly benefited from the jobs that have already been created.

Therefore, I strongly urge you to approve Silver Cross and the University of Chicago Medical Center's Certificate of Need application to build a cancer center in New Lenox. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Lawrence M. Walsh". The signature is written in dark ink and is positioned above the typed name and title.

Re: The University of Chicago Cancer Care Center at Silver Cross Hospital – New Lenox (Project # 10-049)

Dear Mr. Constantino:

As a resident of Will County and State Representative of the 86<sup>th</sup> District, I am writing in support of the proposed Cancer Center on the Silver Cross replacement campus. Bringing the expertise of the University of Chicago to our local community will be of great benefit to patients suffering from cancer and to their friends and families who support them through treatment. The partnership assures that our region will have access to the best cancer care available. The University of Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News & World Report survey. Silver Cross Hospital is a nationally recognized 100 Top Hospital award winner for six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care.

The proposed Center will bring additional benefits including community outreach for cancer awareness, prevention and screenings and support groups. Silver Cross and the University of Chicago Medical Centers are making a significant investment to bring the best care to the community – both in the facilities and the state-of-the-art equipment for cancer patients. The commitment of both institutions to improving cancer care will benefit residents for generations to come.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross Hospital.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink that reads "Jack McGuire".

Re: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project #10-049)

Dear Mr. Constantino:

On behalf of the Village of New Lenox, I am writing in strong support of the proposed Cancer Center on the Silver Cross Hospital replacement campus in our community. Silver Cross Hospital has been a key partner in promoting health and well being in the New Lenox community for many, many years and we look forward to the hospital continuing to build on their commitment to this community. We are very excited about Silver Cross Hospital joining forces with the University of Chicago Medical Center (UCMC) to expand their cancer program in this area.

Having cancer experts from UCMC available in New Lenox means that cancer patients will no longer be required to travel long distances for treatment at downtown Chicago facilities. They will be able to get that same level of care right here and much closer to home. We all know how much this could mean to patients and their families – especially in terms of balancing extensive and taxing cancer treatments with the demands of child care, quality time with family and career obligations. Time spent on the more important things in a cancer patient's life is a critical asset that we just cannot ignore.

All of us on the Village Board have been eagerly watching the new Silver Cross Hospital become a reality – it has been fascinating seeing the new structure take shape. We look forward to the day it opens and know that it will continue to fuel future investment and economic development in our community. Silver Cross Hospital's announcement of their partnership with the University of Chicago Medical Center and the expansion of their services into our community has been very well received. While we know that cancer patients will directly benefit from the proposed Cancer Center, we know that it will also have more far reaching benefits, not only for the area immediately surrounding the new facility, but to our local community and the broader region as well.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

  
Timothy A. Baldermann  
Mayor

Dear Mr. Constantino,

I am writing this Letter of Support on the behalf of the proposed University of Chicago Medical Center Cancer that is intended for construction on the Silver Cross Hospital replacement campus in New Lenox. Silver Cross Hospital has invested time and monies in order to provide essential health care services for many decades in the New Lenox Area. Their future commitment is strengthened by the partnership that Silver Cross has recently made with UCMC to expand cancer treatment services to health care patients in New Lenox.

The addition of the cancer treatment center on the Silver Cross Hospital Campus will eliminate the inconvenience that local patients encounter when they are forced to travel long distances into Chicago to receive treatment. With the opportunity to receive specialized cancer treatment on the Silver Cross Campus, cancer patients will be enabled to focus on healing.

Silver Cross Hospital will open their new replacement hospital facility in New Lenox in Winter 2010. The partnership with University of Chicago Medical Center will benefit patients from a broad area around our community. The availability of essential health care services is a vital benefit that will allow for future growth and development of the necessary services both in the health care arena and other ancillary activity as well.

I strongly urge you to approve the request for the University of Chicago Cancer Center to locate on the Silver Cross Hospital Camus in New Lenox. Thank you for your consideration of this matter.

Sincerely,

Randall G. Lowman

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I am a resident of city and have been a patient at Silver Cross Hospital for 30 years. I am writing to you in support of the proposed Cancer Center at Silver Cross Hospital's campus in New Lenox. I am thrilled to learn that The University of Chicago Medical Center's cancer services will be available in this community.

You see, 18 years ago my older sister was diagnose with cancer. She had just turn 30 in August and less than a month later she was having some medical issues. It took two weeks to find out that she had cancer.

After being diagnosed with cancer, the doctors at Silver Cross where working to treat her. Because we wanted to give my sister the best chance to a long life with her family, we decided that it was time to go somewhere else for a second opinion. We chose to go to the Mayo Clinic in Minnesota. My cousin Chela, a nurse at Silver Cross, and I pack our bags, put her in the back of the car and left for Minnesota. The only problem is that I was the only one who could be with her at the clinic.

During the four weeks she was there, I spent part of the week, during her critical days, with her at the hospital. I then drove back home when she was stable and sometimes went directly to my work place to work for 12 or 16 hours. Every time I had to come back to work, she was alone at the hospital with no one by her side. In those days there were no cell phones but we had answering machines. So if my sister got worse, she would call me at work or leave a message at home that she was being moved to intensive care. I would then drove back to Minnesota as early as I could to be with her again but the trip would take 5 hours to get there. Unfortunately, there was nothing that could be done with my sister and we brought her back to Silver Cross where she passed away a few days later.

It is because of this that I'm asking the Review Board to please approve this project. The University of Chicago Medical Center will provide a number of outpatient services in New Lenox – educational programs/resources, support groups, information about the newest cancer treatments and access to more clinical trials than any other metropolitan Chicago area hospital. The University of Chicago Medical Center is regarded as a leader in cancer care and will bring their expertise right in this community. The University of Chicago Medical Center will have a number of cancer specialists available for me and my family without having to travel outside of our area. Instead of spending hours on the road, we can spend that time by the side of our loved ones.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Manuela Botello  
3005 Bloomfield Dr.  
Joliet, IL 60436

Springfield, IL 62761

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

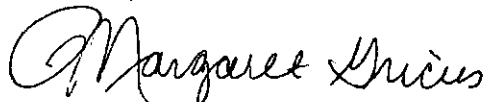

Dear Mr. Constantino:

**What would you do and where would you go to be treated if you were one of the 1,529,560 estimated new cases of cancer in the United States in 2010?** Six years ago, when I was diagnosed with an advanced stage of breast cancer I had that very difficult decision to make. As a registered nurse I knew how to use my resources and began to investigate. I decided, with assistance and support from my family, that I wanted to be involved in a clinical trial that would possibly help me, but just as important to me was to be able to contribute to the science that may change the statistics that 1 out of every 8 women will develop breast cancer.

In order to achieve my goal I decided to seek treatment at a university hospital downtown Chicago. While I don't regret that decision, it would have been so much less stressful to not have to travel downtown for my care, which added hours on to an already challenging treatment plan. I am full support of the proposed Cancer Center on the Silver Cross Hospital replacement campus. Bringing the expertise of the University of Chicago to our local community will be of great benefit to patients suffering from cancer, like myself, and to their friends and families who support them through treatment. The partnership assures that our region will have access to the best cancer care available. The University of in Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News & World Report survey. Silver Cross Hospital is a nationally recognized 100 Top Hospital award winner for six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

Margaret Gricus

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

As a prostate cancer survivor, I am writing in support of the proposed Cancer Center on the Silver Cross Hospital replacement campus. Bringing the expertise of the University of Chicago to our local community will be of great benefit to patients suffering from cancer and to their friends and families who support them through treatment. The partnership assures that our region will have access to the best cancer care available. The University of Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News & World Report survey. Silver Cross Hospital is a nationally recognized 100 Top Hospital award winner for six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care.

12 years ago, I was diagnosed with a very high grade of prostate cancer. At the time, I was a physician in the U.S. Air Force stationed in Langley Air Force Base in Virginia. I was treated immediately because I was in the right place at the right time. I was included in a study group placed on hormonal suppression and irradiation. After the completion of the one year therapy, there was no sign whatsoever of the disease inside of me.

It would be best for people with cancer to be able to go to a center which is closer to their place of residence. I didn't have to travel very far to get the opinions who I believed were the experts in the field. I had no hesitation to submit myself to the best treatment available at that time. It helped me psychologically because I trusted them as opposed to a facility that I wasn't familiar with in a farther location.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,  
Francisco S. Hernandez, M.D.

 Springfield, IL 62761  
 RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
 (Project # 10-049)

Dear Mr. Constantino:

I write to you as both a resident of Will County and as Pastor of Mt. Zion Baptist Church. Mt. Zion is a historic institution within the African American community of Joliet. While our congregation is comprised of a diverse group of residents within both Joliet and Will County, our congregation is comprised predominantly of residents of the eastern portion of the City of Joliet. As such, many of our congregants and their families have been served by Silver Cross Hospital. I write in support of the proposed Cancer Center on the new Silver Cross Hospital campus. There is little question that the expertise of the University of Chicago will be of great benefit to residents of Joliet.

It is an unfortunate reality that a tremendous number of families in my congregation, and in this community, whose lives are indelibly touched by an encounter with cancer. I have witnessed first hand the difficulty and hardship these families go through as they seek medical treatment and care for loved ones. I have watched as families have gone to great lengths and distances in an effort to find the best possible care. I know that a cancer facility, with the level of quality care possible through this partnership between Silver Cross and the University of Chicago, would make a demonstrative difference to this community. These two institutions will expand access, improve coordination and enhance the overall quality of cancer care for a community much in need of these services.

The expertise of the University of Chicago is well known, as is that of Silver Cross Hospital. However, my confidence in this partnership is anchored in my first hand experience of the care and commitment Silver Cross has to the residents of this community. This institution has proven, with great consistency, to be committed to impacting and improving the quality of medical care available to all citizens of this community.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

Pastor David G. Latimore

Re: University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project #10-049)

Dear Mr. Constantino:

I am a resident of Lemont, Illinois and have been a patient at Silver Cross Hospital for 25 years or more. In the past few years I have experienced a real change in this hospital. It seems to be in the "big time" for specialized care and can compete with the top hospitals in the country. I am writing to you in support of the proposed Cancer Center at Silver Cross Hospital's campus in New Lenox. I am really excited to learn that The University of Chicago Medical Center's cancer services will be available in this community.

My daughter was diagnosed with Osteo Sarcoma (Bone cancer) in May of 1994. She was just 14 years old and about to graduate from 8<sup>th</sup> grade. We needed a place that we could put the life of our only child in their hands. We found the University of Chicago and with the capable surgeon, Dr. Michael Simon head of Orthopedics and Dr. Nachman Pediatric Oncology we have our beautiful 31 year old alive and well today.

It was a long, hard struggle for us physically, mentally and financially. She had rounds of Chemo all summer and in September had her left leg amputated. After surgery there were further rounds of Chemo and numerous trips to Wyley's Children's Hospital at the U of C. The long trip from Lemont to downtown Chicago was always filled with anxiety, stress, and additional costs of gas, food, and parking each time. We would have to take turns missing work because of the long days of treatment and the time in commuting. Our little girl was exhausted from the endless hours of chemo, Doctors and long days. It would have been a God send to have a place closer to home with the excellent care received at the University of Chicago.

My husband, daughter and I have all been through Cancer. We know that having this wonderful addition to the new hospital would benefit this community for years to come.

Thank you,

A handwritten signature in cursive script that reads "Bettye Curry". The signature is written in black ink and is positioned above the printed name.

Re: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project Number 10-049)

Dear Mr. Constantino:

Thank you for this opportunity to voice my strong support of the proposed Cancer Center on the Silver Cross Hospital Campus in New Lenox. My family and I are pleased to learn about the University of Chicago Medical Center's plans to team with Silver Cross Hospital to expand their cancer program in New Lenox.

The University of Chicago Medical Center is ranked as one of the best cancer hospitals by U.S. News and World Reports. In addition the National Cancer Institute has designated the University of Chicago Medical Center as a Comprehensive Cancer Center, there being only two in the entire state of Illinois.

Currently many of our residents who have been stricken with cancer must leave the community for cancer care. If the proposed cancer center is approved it will mean that area residents will no longer need to travel over thirty miles to downtown Chicago for cancer treatments; they will be able to get that same level of care right here much closer to home.

My neighbors, family and I all deserve the services proposed in the new cancer center. In addition to the safest and most accurate radiation therapy available, cancer patients will be offered cancer support groups and the possibility of enrolling in new clinical trials.

In conclusion, thank you once again for this opportunity to voice my strong support of the proposed University of Chicago Cancer Center on the Silver Cross Hospital Campus.

Sincerely

Carol Hennessy  
2740 Foxwood Dr

Springfield, Illinois 62761

Dear Mr. Constantino,

Several years ago my husband Don Gould was treated for prostate cancer at the University of Chicago. Thanks to Dr. Charles Brendler, & the expertise of the staff, he made an excellent recovery and is cancer free and enjoying his retirement.

I'm writing because I would like to urge you to vote to approve the proposed University of Chicago Silver Cross Cancer Center in New Lenox, Illinois.

As you may know, Will County is one of the fastest growing counties in the state, & I believe there is a need to expand healthcare services, particularly in the field of cancer considering our burgeoning population.

Your consideration of this most important matter, will be greatly appreciated.

Sincerely,

Jan Gould

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
Project # 10-049

August 20, 2010

Dear Mr. Constantino:

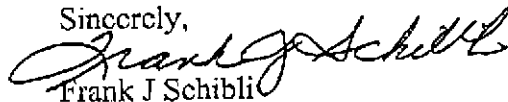

I am a resident of New Lenox in Will County and I am writing in support of the proposed University of Chicago – Silver Cross Center in New Lenox. I personally understand the need to expand access to healthcare services especially in the area of cancer care.

My brother was a physician in Mercer County, Pennsylvania that suffered from cancer for over 10 years and eventually died this past November. His chemotherapy sessions every three weeks were administered at the University of Pittsburgh in Pittsburgh, PA. He also participated in numerous cancer drug studies. The distance from his home to the University of Pittsburgh is the same distance as New Lenox, IL is to the University of Chicago in the Hyde Park neighborhood in Chicago.

I had great concern over him driving that distance for treatment by himself. I also worried about my parents driving him when he was not strong enough to do so. His life and my family's life would have been much easier had those services been available closer to home.

I'm sure you have been close to someone that has gone through this terrible disease and you know how vicious, ugly and relentless cancer is. Closer access to oncology services is now a possibility for other families in my own neighborhood. And I want that.

Sincerely,

Frank J Schibli

Mr. Michael Constantino  
Supervisor, Project Review Section  
Illinois Health Facilities and Services Review Board  
525 W. Jefferson St., 2<sup>nd</sup> floor  
Springfield, IL 62761

Dear Mr. Constantino:

I have lived in Joliet all of my life, and have been blessed to be an Oncology nurse in the area for 16 years. I am currently employed at Silver Cross Hospital working in the Infusion Center where patients can conveniently receive cancer treatments. I am also a certified Breast Health Specialist, an honor only 300 nurses across the U.S. carry.

Through my years of assisting in the care of cancer patients, I have listened to many patients voice their concern of not having a university hospital closer so they could go to for a second opinion or treatment.

I have been a witness to patients who have to fight rush hour traffic in the mornings to see their oncologist, get treatments, and then turn around to fight rush hour traffic home—all while suffering the side effects of chemotherapy. This task requires not only the patient's time, but family members who have to take a day off of work to drive their loved one for treatment. If the patient has children, there is additional stress to the families coping with a loved one battling cancer.

This scenario unfortunately is all too familiar for many families. By teaming up with the University of Chicago Medical Center we can offer better patient care closer to home. Along with Imaged Guided Radiation Therapy, a team of oncologists/hematologists, and infusion treatment, we can have access to protocols that we do not have to drive to the city to obtain.

As a chemotherapy nurse and certified breast health specialist, I support this partnership with the University of Chicago to bring cancer care closer to home.

Sincerely,

Neda Zelahovitis

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New  
Lenox (Project # 10-049)**

Dear Mr. Constantino:

A world class cancer treatment center in the southwest suburbs would be a phenomenal asset. I drove my mother 45 minutes each way to receive her daily radiation treatment after her diagnosis with breast cancer. My aunt, who recently passed away from ovarian cancer, would have loved this place! She received chemo almost continuously for 5+ years and we had to travel 40+ minutes each way to her treatment. These may not sound like far trips to most people, but try doing it when you are in excruciating pain, hooked up to IV's, and /or are physically ill from the treatment. Imagine traveling 45 minutes having to think about radiation entering your body and laying perfectly still with tears coming out of your eyes. A more convenient location would be a blessing to our community.

September 9, 2010

Dear Mr. Constantino,

I am a resident of South Cook County and I am writing in support of the proposed University of Chicago - Silver Cross Cancer Center in New Lenox. I personally understand the vital need to expand healthcare services in this area since my family has been touched by cancer.

During the past few years, my Uncle Tony suffered from sinus cancer and had to undergo many weekly radiation treatments, office visits, tests, surgeries, follow-up exams, etc. Since my Aunt doesn't drive, my Dad drove my Uncle to every visit to Loyola University Medical Center in Maywood. The hour plus drive was exhausting for my Uncle as well as my Dad, who were both in their seventies and often drove in stressful rush hour traffic through rain and snow storms, and at nighttime.

Cancer is such an emotionally and physically draining illness that puts such a heavy burden on patients and their families' lives. We desperately need the University of Chicago's cancer research knowledge and exceptional care closer to home, so patients and their families can seek quality care by traveling less and eliminating some of the caregiving stress that occurs when suburban residents need to travel to the Chicago academic medical institutions.

This area would greatly benefit by having the expertise of a world-renown institution as the University of Chicago. Please approve the plan to open the facility on Silver Cross Hospital's New Lenox campus and help current and future cancer patients in South Cook and Will Counties.

Sincerely,

Karen Helman

September 9, 2010

Tracy Simons  
Director, Community Relations/Marketing  
Silver Cross Hospital  
1200 Maple Rd.  
Joliet, IL 60432

Dear Tracy,

Being unfamiliar with the regulatory process associated with opening a hospital or clinic, I was very surprised that anyone could take exception with a leading, nationally known research hospital joining forces with a recognized community hospital to provide cancer care in the New Lenox community.

I thank the medical and support staff, their expertise, and the facilities at The University of Chicago Hospital for curing my wife's breast cancer over 10 years ago. When she was diagnosed, her personal physician recommended that she contact the specialists at the University of Chicago in order to evaluate and implement the post-surgical care.

While there is no doubt that she benefitted greatly from their care, the long, daily commute from New Lenox to Chicago for the radiation treatments, was a real drain from both a mental and physical perspective.

In fact, my brother-in-law who is a southwest suburban resident is now contemplating a course of treatment for prostate cancer. After evaluating his choices, he selected the cancer specialists at the U. of C. to help him choose the best course of treatment. One of the factors in his decision to choose surgery vs. radiation is the daily commute to the city if he selects the radiation alternative.

In summary, I would voice a very strong opinion in favor of the proposed cancer center. It would be a significant addition to the quality of life for both cancer patients and their families who live in the region.

Sincerely,

*Patrick Casey* (via email)

Dear Mr. Constantion:

Our Agency is a multi purpose senior center that serves the older adults of the Will County and surrounding areas. In a years time we provided services to over 50,000 different individuals.

Many of our clients deal with chronic illnesses, heart disease and cancer. The Cancer Center proposed by Silver Cross Hospital and the University of Chicago Medical Center would be a great benefit for the seniors in Will County. Many currently travel into Chicago for treatment.

We are in support of Silver Cross's application to build a Cancer Center in the area.

Sincerely,

Patricia Hensley  
Executive Director

**RE: The University of Chicago Cancer Center at Silver Cross  
Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am the Chair of the Silver Cross Healthy Community Commission and I am writing you on behalf of my fellow commission members to voice our overwhelming support for The University of Chicago Cancer Center at Silver Cross Hospital in New Lenox. Area residents who are suffering with cancer – along with their families and friends who support them throughout their diagnosis and treatment – will benefit greatly from the proposed facility.

One of the goals of the Silver Cross Healthy Community Commission is to create a stronger, healthier future for residents of Joliet's east side. As such, we are very concerned about expanding healthcare services in our community. The proposed Cancer Center will bring additional services to area residents – through community outreach for cancer awareness, prevention and screenings and support groups along with information about the latest cancer research and treatment.

We are very excited about the partnership between The University of Chicago Medical Center and Silver Cross Hospital – which will give residents in this area access to the best cancer care available. The cancer program at The University of Chicago Medical Center is highly regarded and, according to the U.S. News & World Report, is consistently ranked as one of the best in the nation. We are particularly proud of our affiliation with a nationally-recognized hospital like Silver Cross Hospital – a 100 Top Hospital award winner for the last six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care that is available in our community. Silver Cross Hospital and The University of Chicago Medical Center are making significant investments to bring the best cancer care to this community – both in facilities and the state-of-the-art equipment for cancer patients.

Michael Constantino

August 23, 2010

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

As a resident of Will County Executive Director of the Forest Park Community Center, I am writing in support of the proposed Cancer Center on the Silver Cross Hospital replacement campus. Bringing the expertise of the University of Chicago to our local community will be of great benefit to patients suffering from cancer and to their friends and families who support them through treatment. The partnership assures that our region will have access to the best cancer care available. The University of Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News & World Report survey. Silver Cross Hospital is a nationally recognized 100 Top Hospital award winner for six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care. The

Forest Park Community Center (FPCC) was established in 1994 as a 501 (c)(3) tax exempt community organization utilized as a vehicle for the empowerment of residents in the area by achieving a common goal for the improvement of safety, health, housing, education and welfare of the residents in the Forest Park community.

The Forest Park community is located in an at risk, low income area and through the efforts of FPCC the negative image that once represented the area once known as "The Hill" has been transformed into a positive and peaceful community through its mission to enhance the quality of life through needed programs and services for a diverse community.

The proposed Cancer Center will bring additional benefits including community outreach for cancer awareness, prevention and screenings and support groups. Silver Cross and University of Chicago Medical Centers are making a significant investment to bring the best care to the community – both in the facilities and the state-of-the-art equipment for cancer patients. The commitment of both institutions to improving cancer care will benefit residents for generations to come.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Tony Ray", written over a horizontal line.

Re: The University of Chicago Cancer Center at Silver Cross  
Hospital-New Lenox (Project #10-049)

Dear Mr. Constantino:

As the Executive Director of the Spanish Community Center I would like to express my support of the proposed University of Chicago-Silver Cross Hospital partnership to create a Cancer Center in New Lenox. Expanding access to healthcare, especially quality and specialty healthcare, for area residents is one of our goals. The knowledge and patient care the University of Chicago Medical Center would add to our community would be tremendous.

Will County, along with New Lenox and Joliet, are some of the fastest growing areas in Illinois. These and other communities need the expertise this Cancer Center would offer.

You know the population numbers, cancer victims, and where they get treated. I know Silver Cross Hospital's high level of corporate citizenship responsibility and the University of Chicago Medical Center's reputation as a high quality healthcare provider. The vision for future of healthcare delivery should be based upon partnership models as proposed in this project. To me it is not only a win-win for the two medical facilities, it is also a win for our area residents.

Please approve the Cancer Center in New Lenox.

Sincerely,

Andrew L. Mihelich  
Executive Director

Silver Cross Hospital is a nationally recognized 100 Top Hospital award winner for six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care.

We have experienced students in our school district who have had different forms of cancer that had to travel long distances to Chicago-area hospitals or out-of-state hospitals for cancer treatment and/or for appointments with cancer specialists. This created financial and emotional burdens on our school families that had other children in our district to care for.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

Michael W. Sass, Ed. D.  
Superintendent

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)

Dear Mr. Constantino:

On behalf of the Board of Directors of the New Lenox Chamber of Commerce, I am writing in support of the proposed Cancer Center on the Silver Cross Hospital replacement campus.

Bringing the expertise of the University of Chicago to our local community will be of great benefit to our members—especially those businesses with employees and customers suffering from cancer. Having the best treatment care available right here in our community will be a tremendous help to patients and to their friends and families who support them through treatment. In addition, the close proximity of the Cancer Center will dramatically decrease lost work time for individuals who otherwise would have to leave the community for lifesaving cancer treatments and therapies. Having a state-of-the-art cancer Center nearby will help already struggling businesses in our community.

Silver Cross Hospital has been a valuable and active member of the Chamber for many years. They have provided leadership at every level of the organization including the Board of Directors and has supported the Chamber's numerous activities. We have been watching the construction of the replacement hospital in anticipation of the opening in early 2012. Now, with the addition of a state-of-the-art cancer center, we are excited about the possibility of even more jobs in our community and new revenue that will ultimately strengthen our local economy.

We are confident that the partnership between the University of Chicago Medical Center and Silver Cross Hospital will give our members, their families and patrons convenient access to the best cancer treatment while enhancing the overall quality of healthcare in our region.

Therefore, we strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Tracy Simons".

New Lenox (Project # 10-049)

Dear Mr. Constantino:

On behalf of the 11,000+ students in Joliet Public Schools District 86, I am writing this letter in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. This nearby Cancer Center would be a great comfort to our families and our 1,350 employees to know that if this type of care is needed, the Cancer Center would be nearby.

The University of Chicago – Silver Cross Cancer Center in New Lenox would be a tremendous asset to our area. Please support this project. Thank you for your consideration.

Sincerely,

Phyllis M. Wilson, Ph.D.

Re: The University of Chicago Cancer Center at Silver Cross Hospital-New Lenox (Project #10-049)

Dear Mr. Constantino:

I am a resident of Will County and a member of the Silver Cross Foundation Board. I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

This service area is growing and aging rapidly with an estimated 900,000 plus people by 2014 and a 28% increase in those over age 65 – the age group typically afflicted by cancer. What better place for University of Chicago Cancer Center to partner with than Silver Cross Hospital, a six-time consecutive winner of the 100 Top Hospital National Award with the highest patient satisfaction scores in Will County.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Dear Mr. Constantino,

As a resident of Will County and the Fire Chief of the New Lenox Fire Protection District, I would like to ask for your support of the Combined Cancer Center between the University of Chicago and Silver Cross Hospital in New Lenox, Illinois. As you are aware there is a great need to expand access to health care services especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our area will benefit patients for many years to come.

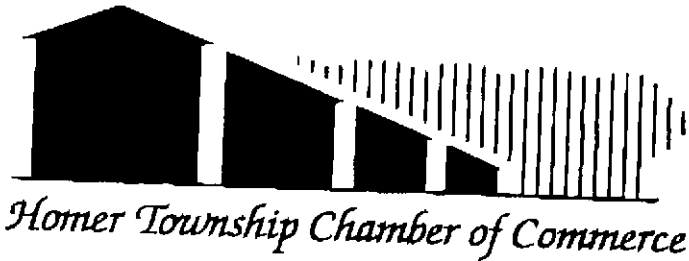

I would like to thank you for all your considerations, and hope that you would look favorably on the Cancer Center being developed in New Lenox.

Respectfully,

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)

Dear Mr. Constantino:

I am writing to you on behalf of my board members to voice our overwhelming support for The University of Chicago Cancer Center at Silver Cross Hospital in New Lenox. Local residents who are suffering with cancer – along with their families and friends who support them throughout their diagnosis and treatment – will benefit greatly from the proposed facility.

One of the goals of the Silver Cross Healthy Community Commission is to create a stronger, healthier future for local residents. There are over 25,000 residents in Homer Glen. The proposed Cancer Center will bring additional services to area residents – through community outreach for cancer awareness, prevention and screenings and support groups along with information about the latest cancer research and treatment.

We are excited about the partnership between The University of Chicago Medical Center and Silver Cross Hospital. We are particularly proud of our affiliation with nationally-recognized hospital and Chamber member Silver Cross Hospital – a 100 Top Hospital award winner for the last six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care that is available in our community.

We are asking the Illinois Health Facilities and Services Review Board to approve The University of Chicago Cancer Center at Silver Cross Hospital. As community leaders, we know that the commitment both institutions are making to improving cancer care will benefit area residents for generations to come.

Thank you for your consideration.

Sincerely,

Rosella Trotter, Executive Director  
Homer Township Chamber of Commerce

Dear Mr. Constantino:

I have learned that there is going to be an alliance between Silver Cross Hospital and University of Chicago for oncological services in the Joliet area. In my opinion it is a much needed and excellent idea since there has been quite a bit of outmigration for these services from the Joliet area.

Since Silver Cross Hospital is building a state-of-the-art hospital these services will be poised to take off for the benefit of the community. I fully endorse this alliance and wish it great success.

Sincerely,

Dear Mr. Constantino:

I am a Board-certified radiologist in practice on the Medical Staff at Silver Cross Hospital. I am writing in support of the proposed University of Chicago Cancer Center at Silver Cross Hospital.

The University of Chicago Medical Center has one of the most well-respected cancer programs in the nation. Personally, I look forward to being able to confer with cancer specialists from such an elite program as UCMC's. I know cancer patients in this area will benefit greatly from having access to more clinical trials and being able to participate in them much closer to home.

I urge the Illinois Health Facilities and Services Review Board to approve this project. These critical services are needed in this area. Thank you for your consideration.

Sincerely,

The University of Chicago Medical Center has one of the most well-respected cancer programs in the nation. Personally, I look forward to being able to confer with cancer specialists from such an elite program as UCMC's. I know cancer patients in this area will benefit greatly from having access to more clinical trials and being able to participate in them much closer to home.

I urge the Illinois Health Facilities and Services Review Board to approve this project. These critical services are needed in this area. Thank you for your consideration.

Sincerely,

  
DARIUS Koblinski

To Whom It May Concern:

I am a resident of Will County and was diagnosed with ovarian cancer in 2000. The doctor that treated me was part of the Silver Cross group. However, he referred me to Rush Presbyterian Women's Cancer Center in Chicago as he said they had the programs and services I needed to make me well. To make a long story short, I was treated at Rush having chemotherapy as well as radiation therapy daily for 27 days. I drove to and from Chicago during those long winter months for the necessary treatments.

I certainly would have welcomed a cancer center here in Will County. I will bet that my doctor would have also preferred me to have my treatments locally. Because there was a lack of those particular services, Rush was my best option.

I am glad to report that as of today I am cancer free. However, during those gloomy days, not only did I have to live with the unknown of how this cancer was going to treat me, I also had to endure the drive back and forth to Chicago in the traffic and during snowstorms while feeling quite ill.

I am confident I am one of hundreds of Silver Cross patients that did these trips for treatment.

I am confident every one of those patients feel the way I do and would have preferred to stay closer to home.

I hope our community thinks long and hard about the benefits this type of center would provide not only for the patient but their family members as well. It is a long time in the waiting.

Thank you for giving me the opportunity to tell my story.

A concerned Will County Resident

*(on another subject I would like to comment on the services Silver Cross does provide. Getting in and out of the outpatient department (x-rays, blood draws, mammograms, etc.); nobody provides better, quicker, quality service than Silver Cross. I constantly let everyone know what a superb job your staff does at the hospital. Kudos to you all.)*

**RE: The University of Chicago Cancer Center at Silver Cross Hospital -- New Lenox  
(Project # 10-049)**

Dear Mr. Constantino:

We are residents of Will County and are writing in support of the proposed University of Chicago -- Silver Cross Cancer Center in New Lenox. Two of our three deceased parents died of cancer, so that horrible disease is constantly on our minds. In addition a very dear friend of our family from Homer Glen (Will County) is dying of cancer. For adequate care he had to arrange transportation to downtown Chicago for treatment before his recent confinement to the Joliet Hospice.

New Lenox and the new Silver Cross facility are strategically located not only to serve Will County, but the entire western, southwestern and southern Chicago suburban area and surrounding communities. Such resources will benefit area patients, and their families and care-givers, for years to come.

It is our hope, and subject of our prayers, that the proposed Cancer Center will be approved for the Silver Cross campus. We thank you and the board for consideration of this extremely worthwhile endeavor.

Sincerely,

James A. Campbell

**RE: The University of Chicago Cancer Center at Silver Cross Hospital –  
New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of <sup>BRUNDY</sup> Will County and am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely, *Terrie Whybark*

HEALTH FACILITIES &  
SERVICES REVIEW BOARD

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

The way you *should* be treated.

Aug. 25, 2010

Dear *I Matter* Member:

Did you know that there are approximately 4,800 Will County residents diagnosed with cancer every year? This is an increase of 42% over the past 7 years. Unfortunately, 70% of areas residents leave our community for cancer care.

**So, Silver Cross Hospital and University of Chicago Medical Center (UCMC) have partnered to bring cancer care close to home—right here in Will County!**

If you are not familiar with UCMC, they are already treating 1,400 patients from our area today. UCMC is ranked as one of the best cancer hospitals in the *US News & World Report* and they offer the most clinical trials in the metropolitan Chicago area. In addition, UCMC is one of only 40 (2 in IL) designated by the National Cancer Institute as a Comprehensive Cancer Center.

Silver Cross, together with UCMC, recently submitted a Certificate of Need application to the Illinois Health Facilities & Services Planning Board to build a **CANCER CENTER** on the Silver Cross Replacement Hospital campus at I-355 and Route 6 in New Lenox.

The two-story 20,000 sq. foot building will be constructed next to the current medical office building that is already home to the Silver Cross Center for Women's Health. Pending State approval, the Cancer Center will open in 2012. Services would include:

- Radiation oncology (state-of-the-art linear accelerator with Image Guided Radiation Therapy)
- Medical oncology, chemotherapy and infusion
- Cancer support groups, prevention and screenings
- Coordination of care
- Clinical trials

**Here is where Silver Cross could use your help!**

If you agree that having a world-renowned Cancer Center nearby is good for our community, please

- **Write a Letter of Support.** This can be in your own words or you are welcome to sign the enclosed letter and mail or fax it by Sept. 15, 2010 to:  
Silver Cross Hospital  
Community Relations Dept.  
1200 Maple Rd.  
Joliet, IL 60432  
(815) 740-3561 (fax)
- **Attend a Public Hearing on Friday, Sept. 10** at 10 a.m. in the New Lenox Village Hall Community Room. We would like to pack the room with supporters. If you would like to speak at the hearing to share how having a Cancer Center in our community could or would have benefited you or your family, please contact me at (815) 740-7119 or [tsimons@silvercross.org](mailto:tsimons@silvercross.org).

Thank you for choosing Silver Cross Hospital!

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

*Could not have said it better.  
Thank you.*

My husband, Rich died in 2003 from Bladder Cancer. Traveling to Northwestern, while not impossible, was very difficult for his care. Near the end of life we accepted a lesser standard of care due in some parts to the difficulty of travel. If you would like to know more, I have provided my phone number below and would be happy to speak to you.

In 1985 my mother was diagnosed with "Pancreatic Cancer" and had to travel to Carl Clinic - a long drive when you're sick - If Silver Cross had a "cancer center", it would've been so much easier on her, and the family. Our family always respected the medical staff, and still do for the care and treatment we've received at Silver Cross Hospital.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

*Will County needs this facility. My mother passed away from cancer and having a facility near by would have meant so much. Please help those that are suffering now - approve the center in New Lenox. Thank you.*

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New  
Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

When my mother who lived in Franklin Park was going for treatment, we only had to travel 4 miles to Gottlieb Hospital in Melrose Park...and that was a huge hurdle on some days! Being able to receive treatment nearby is one of the greatest benefits for the patient, the family and caregivers.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New  
Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

I have been a RN 39 years. 35 years have been working in the community health setting. I have met many patients that feel that all medical + hospital care is the same. Many are fearful of accessing care in Chicago. It would be most beneficial if the expert care and up to date facilities were available in our community! The thought of this is very exciting!

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New  
Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am in support for the cancer center to be included in the Will County Silver Cross Hospital. Will county Residents and residents nearby need the center for care. We are the leading county of development and the people need this center by them in order to alleviate 1 hour trips into Chicago.

Thanks for hearing my thoughts.

Dawn Tomczak  
Will County Resident

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New  
Lenox (Project # 10-049)**

Dear Mr. Constantino:

What good news to learn of the University of Chicago Cancer Center at Silver Cross coming to our community! My family and I agree that we are truly in need of this facility in our area. Our towns have been continually denied the right for new hospitals in the area and we really do not have any that we can really trust. When it comes to cancer, you don't have time to run around the country for opinions. Up to this time it has been very difficult for people in need.

Please do not deny us!

Sincerely,

Cheryl Frale

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Dear Mr. Constantino:

I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I am in healthcare – not an employee of Silver Cross Hospital, and still support the plans of this hospital to further meet the needs of its patients, community and constituents to provide cost effective, accessible cancer treatment as can be provided through Silver Cross and their proposed cancer center.

The partnership between the University of Chicago and the hospital will be invaluable to the community, their current patients and those will need cancer services in the years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

I welcome the new cancer center that is to be part of the new Silver Cross Hospital. My father died from cancer, and we traveled to Loyola everyday for treatment. At the time 355 was not completed so it was time consuming and difficult to get there. My dad lived in New Lenox so it would have been a lot closer and more convenient for all of us. This will be a great addition to Silver Cross. I just wish it could have come sooner for my father. I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

My neighbor recently passed from prostate cancer. He delayed getting a diagnosis because he hated to have to travel to see his doctor, who was in Oak Lawn. Since he had recently moved to New Lenox, I think he would have possibly caught his cancer in time if he had the option to get treatment closer to home.

I hope that you will approve the Cancer Center in New Lenox.  
Thank you for your consideration.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital –  
New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

HEALTH FACILITIES &  
SERVICES REVIEW BOARD

Dear Ms. Hall,

In 2004 I was diagnosed with prostate cancer. I was advised to go to the University of Chicago because they had the best doctors and the newest equipment available. I needed 42 external beam radiation treatments and felt that driving to Chicago 42 times was something I would not be able to do because of the potential side effects of the treatments. My only option was to go to a cancer center in Joliet. I found the one I choose did not have the latest equipment and the doctors were not as experienced as the doctors at the University of Chicago but I felt I had no choice. My treatments were ineffective and the cancer returned within a year. I've been in the battle ever since.

I urge you to allow Silver Cross Hospital and the University of Chicago to place a cancer center at the new Silver Cross Hospital in New Lenox so others will not have to suffer as I have. I firmly believe that if there was such a facility near Joliet in 2004 I would have been cured.

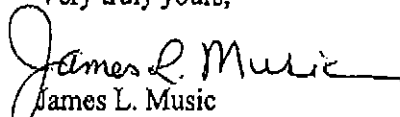

Dr. Pundaleeka, who is leading the opposition to the new cancer center, seems to be more interested in the financial problems it may cause his cancer center than the benefits to cancer stricken patients in the area.

I'm a 69 year old man who suffers daily as the results of the Chemo injections I receive to fight the cancer. This did not have to happen.

I have a 6 year old grandson who I am desperate to see grow to a fine young man but the odds are against me.

Please help others receive the best treatment available by approving the University of Chicago Cancer Center at the new Silver Cross Hospital.

Very truly yours,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of PLAINFIELD, IL and am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital –  
New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New  
Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely, Ida Turner

To whom

I am writing to let  
you know that I support  
the center for Career  
Career is strong in my family  
and as an ad all things should  
be done to help all people  
that ~~live~~ live in the community  
it is hard enough to share  
this but to have to travel far  
is very hard for most people  
Thank you for your help

I sent the  
other paper  
without my  
letter

Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

I am not a resident of Will County but use Silver Cross hospital for all my medical services. I taught school at Mazon-Vernon-Kinsman schools for 35 years – watched many former students attacked by cancer – a closer cancer center would have made it much better for the person affected and family.

Sincerely, and friends care for them.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

**RE: The University of Chicago Cancer Center at Silver Cross Hospital –  
New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Karen Hall, Hearing Officer  
Illinois Health Facilities Planning Board  
525 W. Jefferson Street  
Springfield, IL 62761

Dear Ms. Hall:

According to my local newspaper, the *Herald News*, there is a proposed University of Chicago Cancer Center at Silver Cross Hospital that would be near the new Silver Cross Hospital in New Lenox. The hospital has a completion date of February 2012. I support the building of this cancer facility.

I have had multiple myeloma since 1996, and I have been treated by Dr. Todd Zimmerman at the University of Chicago. I have received chemotherapy at Joliet Oncology Hematology Associates and radiation at Provena St. Joseph Medical Center under Dr. Zimmerman's direction. The cooperation has been good. Since 2004 I have been in remission, however in 2010 the multiple myeloma relapsed.

Riding in a car exacerbates the pain associated with multiple myeloma, and I understand other cancerous tumors can be shook-up during car rides also. During the first years of multiple myeloma, I needed to limit my travel time to one hour because the pain caused by car rides would increase during the subsequent nights and days.

The oncologists in Joliet do not treat multiple myeloma frequently enough to know what the disease does to the body and what the latest and best treatments are. Everyone I know in the Joliet area who has this disease goes to major cancer treatment centers that are out of state or in the Chicago area since Chicago has some good university medical school clinics. Joliet doctors are not adequate.

I think having the University of Chicago coordinate a cancer center with Silver Cross Hospital is a good idea for it would give the people access to good medical care for rare cancers and it would alleviate days of pain that are caused by riding on rough surfaces in a car that does not absorb shocks well. Plus it would reduce the time, usually hours, that a patient would spend for a day's treatment: often the chemotherapy takes four hours of infusion time. Add to that waiting and preparation times plus travel time, and the whole day of eight hours is consumed by the treatment. Less travel time would shorten that considerably.

Please take my comments into consideration when ruling on this case. Thank you.

Yours truly,

Karen Marie DeNardo

HEALTH FACILITIES &  
SERVICES REVIEW BOARD

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

We are members of Silver Cross Hospital's Medical Executive Committee and we are writing in support of the proposed University of Chicago Cancer Center at the hospital's new campus. The medical community has long regarded the cancer program at The University of Chicago Medical Center as the best – not only in this region but in the nation as well. The prospect of having such a well-regarded cancer program available directly in this community is great news.

Our combined years in practice gives us a very unique perspective of the health care needs of residents in this area. As physicians, one of the most frustrating issues is accepting the fact that sometimes our patients have to travel long distances in order to get the best treatment available. But, with cancer – travelling long distances for treatment adds an undue amount of strain and expense on patients – at perhaps the most vulnerable time in their life. The University of Chicago Cancer Center at Silver Cross Hospital will provide our patients access to the most recognized experts in cancer treatment and the broadest range of clinical trials in the nation – right here in our community.

As medical staff members, we look forward to interacting face-to-face with our UCMC medical colleagues on the latest cancer treatment developments. Having cancer experts available on the hospital's campus in New Lenox will greatly improve our ability to guide and coordinate care for our patients.

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

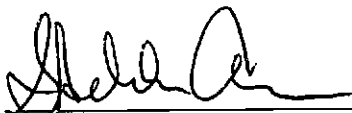

We are writing to you today to offer our support and that of our group for the proposed University of Chicago Cancer Center at Silver Cross Hospital. We are a group of seven physicians – all of whom are Board-certified in anesthesiology.

As anesthesiologists – we often hear about patients that have to seek care for their cancer at distant academic medical centers. The University of Chicago cancer program – perhaps the most well-respected academic medical center program around – has the largest number of clinical trials available in the Chicagoland area. With the proposed Cancer Center in New Lenox, patients would be able to access those same clinical trials right here.

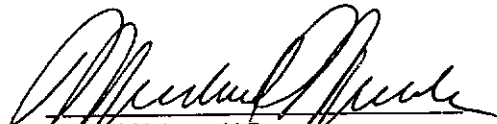

We support the partnership of Silver Cross Hospital and the University of Chicago Medical Center to provide cancer services in New Lenox. We know how important it is for patients to have choices on where to get their care.

Thank you for your consideration.

Sincerely,

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

I am writing this letter to express my support of the proposed Cancer Center on the Silver Cross Hospital replacement campus. Bringing the expertise of the University of Chicago to our local community will be of great benefit to patients suffering from cancer and to their friends and families who support them through treatment. The partnership assures that our region will have access to the best cancer care available. The University of Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News & World Report survey. Silver Cross Hospital is a nationally recognized 100 Top Hospital award winner for six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care.

Silver Cross Hospital and the University of Chicago Medical Center are making a significant investment to bring the best care to the community – both in the facilities and the state-of-the-art equipment for cancer patients. The commitment of both institutions to improving cancer care will benefit residents for generations to come.

I strongly support the University of Chicago Cancer Center at Silver Cross Hospital. Thank you for your time and consideration.

Respectfully,

  
A.J. Wilhelmi  
State Senator – 43<sup>rd</sup> District

RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox  
(Project # 10-049)

Dear Mr. Constantino:

As a resident of Will County and President and CEO of United Way of Will County, I am writing in support of the proposed Cancer Center on the Silver Cross Hospital replacement campus. Bringing the expertise of the University of Chicago to our local community will be of great benefit to patients suffering from cancer and to their friends and families who support them through treatment. The partnership assures that our region will continue to have access to the best cancer care available.

The University of Chicago Medical Center is designated by the National Cancer Institute as an official Comprehensive Cancer Center and is ranked among the top cancer hospitals in the U.S. News & World Report survey. Silver Cross Hospital is a nationally recognized 100 Top Hospital award winner for six consecutive years. Combined, these two institutions will expand access, improve coordination and enhance the overall quality of cancer care.

The proposed Center will bring additional benefits including community outreach for cancer awareness, prevention and screenings and support groups. Silver Cross and University of Chicago Medical Centers are making a significant investment to bring the best care to the community – both in the facilities and the state-of-the-art equipment for cancer patients. The commitment of both institutions to improving cancer care will benefit residents for generations to come.

I strongly urge you to approve the University of Chicago Cancer Center at Silver Cross. Thank you for your consideration.

Sincerely,

Michael D. Hennessy  
President & CEO

**RE: The University of Chicago Cancer Center at Silver Cross Hospital – New Lenox (Project # 10-049)**

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

Dear Mr. Constantino:

I am a resident of Will County and I am writing in support of the proposed University of Chicago – Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.

Sincerely,

_____	

Sincerely,

I am a resident of Will County and I am writing in support of the proposed University of Chicago - Silver Cross Cancer Center in New Lenox. I understand the great need to expand access to healthcare services, especially as it pertains to cancer. Bringing the expertise of the University of Chicago to our community will benefit patients for years to come.

I hope that you will approve the Cancer Center in New Lenox. Thank you for your consideration.
