DESCRIPTION OF PROJECT

1. Project Classification

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- Substantive
- Non-substantive

Part 1120 Applicability or Classification:
[Check one only.]

- Part 1120 Not Applicable
- Category A Project
- Category B Project
- DHS or DVA Project

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

Advocate Health Care Network and Advocate Health and Hospitals Corporation d/b/a Advocate South Suburban Hospital are applying for a Certificate of Need Permit to establish a pediatric category of service and to convert 10 medical-surgical beds to 10 pediatric beds. Advocate South Suburban Hospital (Hospital) is located at 17800 South Kedzie Avenue, Hazel Crest, Illinois 60429; it is located in HPA A-04 and HSA 7.

The proposed pediatric service will be located on the second floor of the hospital on a unit designated as 2 West. Today, 2 West is a 10-room medical-surgical unit with 20 beds. Of these 20 beds, 10 beds will be converted to pediatric beds and the remaining 10 beds will be relocated to medical-surgical units on 3 North and 4 North, thereby increasing the number of semi-private rooms on the 3 North and 4 North units. The 2 West nursing unit will require modest modernization in order to meet high standards of pediatric care.

In addition to 10 pediatric beds, including one isolation bed, the unit will also contain two observation beds, a multipurpose/play room, space for clinical operational assistants, a small procedure room, and other routine clinical spaces as well as non-clinical spaces. The total unit will include 8,975 GSF. Of the total square footage, 89 percent will be clinical.

Advocate Hope Children's Hospital will provide oversight services for the proposed new pediatric unit/service at Advocate South Suburban Hospital. In this way, the Hospital will acquire an established, well-respected model of care including care protocols, and training for pediatric nurses. The inpatient unit will have hospitalist physician coverage. These initiatives will assure the community that Advocate South Suburban Hospital will provide high quality inpatient pediatric care from opening day.

The Hospital participates in Medicaid, the payment source for the majority of pediatric patients. The Advocate charity care policy will also be available to children who receive care at Advocate South Suburban Hospital.

The pediatric project will be completed by April 30, 2012; the second full year of operation will be 2014. Construction and contingency cost for the proposed new pediatric service at Advocate South Suburban Hospital is estimated to be \$1,190,795, of which 53 percent will be clinical. Most of the rest of the construction cost will be for infrastructure work to bring that section of

the Hospital up to current code. Total project cost is estimated to be \$2,031,687. The project will be financed with cash and debt. Advocate Health and Hospitals Corporation bonds are rated by Standard and Poor's as AA. Moody's as Aa2, and Fitch as AA.

The project is classified as substantive pursuant to Section 1110.40 (c) of the Illinois Health Facilities and Services Review Board rules.

November 18, 2010

Mr. Dale Galassie
Acting Chairman
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

I am writing this letter in strong support Advocate South Suburban Hospital's plans to enhance its acute service level and add to its bed compliment in order to add pediatric category services. As the Senator of the 19th District, I applaud this decision to better serve the community's infants and children locally.

Each year, Advocate South Suburban Hospital transfers approximately 160 patients to Advocate Hope Children's Hospital in Oak Lawn, Ill., or other pediatric facilities because it does not offer pediatric services. That is a great burden to the community residents who need to be at their children's bedside during a hospital stay. By enhancing the services at Advocate South Suburban Hospital by adding six to nine beds on a private unit, complete with ambulatory sub-specialty clinics, the children and their families will remain close to their primary support systems to help them through the stressful time.

I understand this step is in conjunction with other plans to expand the hospital's Family Birth Center, and upgrade the nursery from a Level II to a Level II+ to accommodate premature babies who are currently transferred away from home to receive more complex care elsewhere. This Level II+ nursery provides more sophisticated services and state of the art equipment for younger and sicker infants. The facility is also planning to provide more comprehensive emergency and urgent care services for children, enhance its neonatal coverage and provide subspecialty clinics on site. These accommodations serve to better the health of our area residents.

I commend Advocate South Suburban Hospital's ongoing efforts to meet the health care needs of the south suburbs. Pediatric patients have special needs and being close to home is one of the priorities for families with sick children. I urge the members of the Illinois Health Facilities Planning Board to approve the Certificate of Need request for this new category of service, pediatrics.

If you have any questions, please do not hesitate to contact me at anytime.

Sincerely,

A handwritten signature in black ink that reads "Maggie Crotty". The signature is written in a cursive, flowing style.

November 16, 2010

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

I write in support of Advocate South Suburban Hospital's application to expand its pediatric services by adding an inpatient pediatric unit.

Presently, about 160 pediatric patients who require specialized care are transferred to Advocate Hope Children's hospital in Oak Lawn or other facilities. With a pediatric unit, many parents would be able to remain close to their children during their care.

Over the years, Advocate South Suburban Hospital has assessed and responded to the needs of south suburban residents. This proposed pediatric expansion exemplifies its efforts to provide high-quality health care efficiently and effectively.

Thus, I respectfully request that you give their application full consideration consistent with applicable guidelines.

If I can be of further assistance, please do not hesitate to contact me or my Manager of Grants and Special Projects, Ms. Mimi Mesriow, at (708) 798-6000. Thank you in advance for your time and consideration in this matter.

Sincerely,

Jesse L. Jackson, Jr.
Member of Congress

October 12, 2010

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

I write to offer my support for Advocate South Suburban Hospital's request to increase pediatric services. With this expansion, the Hazel Crest hospital will be able to better meet the needs of the youngest patients in Chicago's south suburban region.

In 2009, Advocate South Suburban Hospital delivered nearly 1,500 infants. The hospital has seen a steady growth annually in its Family Birth Center. As these infants grow into toddlers and children, they are in need of a wide array of pediatric services close to home. By adding pediatric services at the hospital, we can avert sending children out of the service area to receive care.

Today, pediatric patients are admitted to adult medical surgical beds at Advocate South Suburban Hospital. With the addition of a small number of inpatient beds, specially designated as pediatrics, parents can rest easier knowing their children are being treated in private rooms on a unit customized to their own special needs. The plan to partner with Advocate Hope Children's Hospital in Oak Lawn, Illinois, will ensure that the highest level of pediatric care will be available to our area residents in a convenient location.

As State Representative of the 30th District of Illinois I know how vital healthcare is to my constituents and it is essential that the local providers grow to meet the needs of the communities that they serve. Since 1946, Advocate South Suburban Hospital has expanded its services and facilities to provide specialized, comprehensive care to residents. This expansion is another example of how the hospital plans to accommodate the changing needs of its communities and patients, starting in their earliest days.

Therefore, I respectfully request that the Health Facilities Planning Board of the Illinois Department of Public Health give Advocate South Suburban Hospital's application full and fair consideration. If you need additional information, please do not hesitate to call me directly at 708-799-7300.

Thank you in advance for your attention.

Sincerely,

A handwritten signature in black ink that reads "William Q. Davis".

December 6, 2010

Mr. Dale Galassie
Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, 2nd Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

Please accept this letter of support on behalf of Advocate South Suburban Hospitals' proposal to greatly enhance their current level of services for children. Advocate South Suburban in is Hazel Crest, one of the communities in my Representative district. Their ambitious plan would add an inpatient pediatrics unit, which would eliminate the practice of admitting children to adult medical-surgical units. In addition, Advocate South Suburban Hospital's plan would add subspecialty clinics and a special care nursery. Both of these additions would further enhance the scope of care available for families, not just in Hazel Crest, but in many surrounding communities in the region.

At present, children who are sicker and need more specialized care have access to another of the Advocate Health Care system hospitals, Advocate Hope Children's Hospital in Oak Lawn. The proposed changes at Advocate South Suburban Hospital would not change that approach; instead it would assure that transfers and admissions to Advocate Hope Children's Hospital would be reserved for those children whose illnesses or injuries require that particular level of care. It is my understanding that children who do not need a transfer would get expert care at their community hospital. This would make it easier for parents to remain close to them during an inpatient stay; an important factor in the child's recovery.

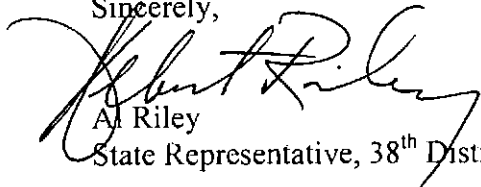

I view Advocate South Suburban Hospital as a vital community institution. As State Representative, I have had personal knowledge of their operations for many years. They are a tremendous resource in my district and in the region as a whole. Many of the projects that Advocate South Suburban has administered in the past give them the unique ability to be able to positively impact the care of children in the south suburban region. As a former health planner and biostatistician, my endorsement does not come lightly.

13

Preliminary census data is showing what many of us already knew. Our region is growing, specifically among the age cohort of people of child bearing age. So, the advocate South Suburban proposal is not only vital, but prescient. It is responsive to the current needs of people in our community, addressing a shortfall in care for our youngest residents.

Again, Advocate South Suburban Hospital's proposed pediatrics expansion reflects a thoughtful response to a demonstrated need. I give my full support to their proposal and trust that their submittal will receive due consideration.

Sincerely,

Al Riley
State Representative, 38th District

17800 South Kedzie Avenue
Hazel Crest, IL 60429-0989
Telephone 708.799.8000

November 16, 2010

Mr. Dale Galassie, Acting Chairman
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

I support Advocate South Suburban Hospital's plans to enhance its acute service level and add to its bed compliment in order to add pediatric category services. As the president of the hospital's medical staff and chairman of emergency medicine, I am well aware of the clinical need for this enhancement of services.

Advocate South Suburban Hospital is a 284-bed acute care facility that serves approximately 42,000 patients annually in its emergency department. Our emergency department is designated as a Level II trauma center and sees more than 12,000 pediatric patients each year. Many of these patients require admission.

Today, pediatric patients are admitted to adult medical surgical beds at Advocate South Suburban Hospital. Approximately 160 pediatric patients who require specialized care are transferred to Advocate Hope Children's Hospital in Oak Lawn, Ill., or other pediatric facilities each year.

Parents need to be at their children's bedside during a hospital stay. By enhancing the services at Advocate South Suburban Hospital, complete with ambulatory sub-specialty clinics, the children and their families can maintain a close proximity to their primary support systems.

By offering general medical services that include caring for primary and secondary acuity diagnoses, such as fever, vomiting, dehydration, asthma, fractures, upper respiratory, gastrointestinal issues, etc., general and orthopedic surgical, and outpatient services, Advocate South Suburban Hospital would be able to provide a comprehensive program for area residents. Add to that the addition of a Level II+ special care nursery, a perinatal clinic, pediatric hospitalists, and nurses who are trained at Advocate Hope Children's Hospital, and the community would benefit from a full continuum of care.

I strongly support Advocate South Suburban Hospital's Certificate of Need request for this new category of service. It is the right thing to do in order to continue to meet the needs of our youngest patients.

Sincerely,

A handwritten signature in black ink, appearing to read "James Richardson".

James Richardson, M.D.
Advocate South Suburban Hospital Medical Staff President/Chairman of Emergency Medicine

Country Club Hills, IL 60478

(708) 798-2616
Fax: (708) 798-7352

November 29, 2010

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

As Mayor of Country Club Hills, IL., I am privileged to live and work in a region with a strong focus on the family. I often have the opportunity to talk to residents who have moved to the south suburbs in search of affordable housing, good schools and proximity to transportation. They also express their desire for good health care, especially with regard to services for their children. I share this concern, and that is why I am now writing in support of Advocate South Suburban Hospital's current proposal to expand its pediatric services.

Over the years, this hospital, located in our backyard, has demonstrated its commitment and responsiveness, bringing specialized, state-of-the-art services to our community. Now, Advocate South Suburban Hospital has again assessed the needs of patients of all ages, and has developed an effective, efficient plan to enhance health care services for our youngest residents – and with good reason. Each year, Advocate South Suburban Hospital, serves approximately 42,000 patients in its emergency department, which is designated as a Level II trauma center. Of these, approximately 12,000 are children, many of whom require admission to the hospital for treatment of their illness or injury.

Because Advocate South Suburban Hospital does not have an inpatient pediatric unit, these your patients are admitted to adult medical surgical beds. In addition, each year, approximately 160 pediatric patients who require specialized care are transferred to Advocate Hope Children's Hospital in Oak Lawn, IL., or other pediatric facilities. By enhancing the services at Advocate South Suburban Hospital, including an inpatient unit and outpatient subspecialty clinics, patients and parents can get the responsive, child-focused care they need in the comfort and convenience of their own community.

I hope you join in my support for Advocate South Suburban Hospital as it plans to continue its longstanding history of providing responsive, outstanding care.

Sincerely,

Mayor Dwight W. Welch
City of Country Club Hills

17800 South Kedzie Avenue
Hazel Crest, IL 60429-0989
Telephone 708.799.8000

November 15, 2010

Mr. Dale Galassie
Acting Chairman
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

As a registered nurse who has worked in our existing pediatric section on 2 West, the idea of both expanding and securing an actual pediatric unit affords many positive attributes and addresses a real need within the community. For the young patient and his/her family, pediatrics at a smaller community hospital such as Advocate South Suburban Hospital, offers a far less intimidating environment. In addition, because our young patients are much more stable than those treated at a larger hospital, such as a tertiary care center, we are able to be far more inclusive with the families of our younger clientele. This allows us a comprehensive wholistic care plan. At the same time, it decreases any stress the parents might feel about having to separate from their sick child. They can stay with the child both day and night.

As a mother of a new baby who was transferred from Advocate South Suburban Hospital to a tertiary care center, I can state unequivocally the stress I felt was greatly enhanced as I learned the philosophy of the unit. That philosophy was separation of parent and child was the norm. A parent wishing to stay with their baby was viewed as a problem and was completely frowned on. I was one of those parents that wished to stay with my daughter. Most parents came after work for a short visit. I found this horrible for these families; empathy was close to the level of nonexistent. Parents seem to just get lost in the shuffle and were nothing more than an annoyance. I am very glad to say that same philosophy is not part of our culture in maternity or pediatrics at Advocate South Suburban Hospital.

In addition, the fact that pediatrics is integrated in our maternal child unit embodies yet another tremendous benefit. Often, the mothers of our younger pediatric patients have delivered here and recognize us when we have been their nurses in labor or in postpartum. They embrace our nursing care and teaching concepts for their child. The relationship is already in existence so they are very comfortable with us.

Many times, our patient's parents struggle with transportation issues. Having to travel to a more distant hospital like Advocate Hope Children's Hospital, is not only stressful, for some it is next

19

to impossible. Obviously, for those patients whose medical needs require traveling to a hospital such as Advocate Hope Children's Hospital, it is unavoidable. However, for those children who can be treated at Advocate South Suburban Hospital, we maternity/pediatric nurses offer quality care in a nurturing environment. We would simply like to overcome our limitations with having only a couple rooms at our disposal on 2 West. An expanded unit would give us the ability to take more children and free up some of the emergency department congestion. A unit for our pediatric patients where they don't just have a room, they have a hallway to walk, a play area, other children that are also recovering from illness to socialize with, a place where parents can equally talk and support each other. This is very much a need and as previously mentioned would be such a benefit to the community.

Sincerely,

A handwritten signature in black ink that reads "Lisa Wright RN". The signature is written in a cursive, flowing style.

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

On behalf of the leadership team at Advocate Hope Children's Hospital, I am writing to express my strong support for Advocate South Suburban Hospital's plan to enhance its pediatric services.

Advocate Hope Children's Hospital in Oak Lawn currently works closely with Advocate South Suburban Hospital in Hazel Crest to ensure that children throughout Chicago's South Side and suburbs have access to outstanding care. As a children's hospital, we provide a full spectrum of specialty pediatric care, and are able to care for children with serious illnesses or injuries. That means children with severe illness and injuries who initially seek care at Advocate South Suburban Hospital will usually be transferred to Hope Children's Hospital. This partnership is effective, allowing us to work with our Advocate colleagues to assure responsive care.

At present, Advocate South Suburban Hospital does not have a designated pediatric unit, which means that children needing inpatient care must be admitted to an adult unit. In addition, more than 150 children with mild or moderate illness are transferred to Hope Children's Hospital, which is not an ideal situation for the families involved. These children would be more appropriately treated at their own community hospital. The enhancement of services that has been proposed would address this situation, creating a pediatric inpatient unit for children with low- to moderate-level illnesses and injuries. Additionally, the plan would add a Special Care Nursery and subspecialty clinics, making it more convenient for south suburban parents to assure their children receive expert care.

Advocate Hope Children's Hospital will continue to work closely with our colleagues at Advocate South Suburban Hospital to ensure the provision of excellent, responsive, family-centered care. I believe the current plan addresses these objectives in the best interests of our community's children.

Sincerely,

A handwritten signature in cursive script that reads "Karen Clark".

ACCESS COMMUNITY
HEALTH
NETWORK

Caring. Committed. Connected.

November 16, 2010

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

I believe that all people, regardless of where they live or what resources they might have, are entitled to excellent health care. That is the guiding principle of the Access Community Health Network (ACCESS), a federally qualified health center that serves people throughout the Chicago area. In particular, we at ACCESS are committed to ensure that our youngest citizens, the children of our metropolitan area, can count on receiving responsive, outstanding care. That is why I am writing to you to voice my support for of Advocate South Suburban Hospital's plans to enhance and expand its care for children.

Located in Hazel Crest, Ill., Advocate South Suburban Hospital is in a region populated by many families with children, and there is currently a need to expand pediatric medical services. Advocate South Suburban Hospital, a 284-bed facility, has distinguished itself over years as a great community resource. However, it lacks a designated pediatric unit, so young patients needing inpatient care must be admitted to adult medical-surgical beds. In addition, approximately 160 pediatric patients who require specialized care are transferred to Advocate Hope Children's Hospital, in Oak Lawn, Ill, or other pediatric facilities in the south suburban area. The hospital's proposed plan includes adding an inpatient pediatric unit, along with subspecialty clinics and a Special Care Nursery. These additions would assure that local families get excellent care closer to home, making it easier for parents to be with their children during their care. Children who are acutely ill would still be transferred to Advocate Hope Children's Hospital, ensuring that they continue to receive the best care possible.

Over the years, Advocate South Suburban Hospital has maintained a sharp focus on the changing needs of its community, expanding its services to assure that residents get the care they need. This proposed pediatric expansion is yet another example of this excellent institution's responsiveness. On behalf of the Access Community Health Network, I ask that you join me in supporting this effort.

Sincerely,

Donna Thompson

November 16, 2010

Mr. Dale Galassic, Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassic:

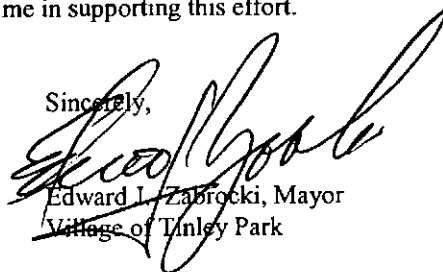

I believe that access to outstanding health care is one of the most important priorities facing us today. As Mayor of Tinley Park, Ill., I often hear from residents that they, too, desire access to good care for people of all ages. That is why I am writing in support of Advocate South Suburban Hospital's plans to enhance and expand its care for children.

There is currently a great need for expanded pediatric services in our area. Advocate South Suburban Hospital, located just a few miles from Tinley Park, is a great community resource. However, because it lacks a designated pediatric unit, young patients needing inpatient care must be admitted to beds in its adult unit. In addition, approximately 200 pediatric patients who require specialized care are transferred to Advocate Hope Children's Hospital, in Oak Lawn, Ill, or to other facilities. With a pediatric unit at Advocate South Suburban Hospital, many of these patients would not require transfer, making it easier for parents to remain close to their children during their care.

As part of this plan, Advocate South Suburban Hospital plans to partner with Advocate Hope Children's Hospital in a way that will assure responsive care. Advocate South Suburban Hospital's expanded pediatric services will focus on the high percentage of low and moderately ill children from local communities. Patients who are sicker and need more advanced care will be transferred to Advocate Hope Children's Hospital. This partnership will alleviate the high census at Advocate Hope Children's Hospital and will help reduce the costs—community hospitals provide pediatric services at a lower cost than children's hospitals, which must be equipped to handle complex cases.

Hospitals in all of our communities must grow and adapt to meet changing needs. Over the years, we are fortunate that Advocate South Suburban Hospital has maintained a sharp focus on these needs, expanding its services to assure that residents get the care they need. The current proposed pediatric expansion is yet another example of this excellent institution's responsiveness. I hope you join me in supporting this effort.

Sincerely,

Edward J. Zabrocki, Mayor
Village of Tinley Park

November 16, 2010

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

As the chair of pediatrics at Advocate Hope Children's Hospital in Oak Lawn, I am committed to the health and well-being of the children in my community. I am proud to lead a team of dedicated professionals who join me in this mission. Whenever I can, I endorse programs and services that will help us ensure access to excellent pediatric care. That is why I am writing to express my support for a plan put forth by my colleagues at Advocate South Suburban Hospital in Hazel Crest.

I believe the proposed enhancement of services will help us assure good care for children throughout Chicago's South Side and suburbs. Specifically, the plan will enable Advocate South Suburban Hospital to better care for children with low or moderate levels of illness in a designated pediatric unit in its hospital. This will eliminate the need to admit children to an adult unit or even transfer them to Advocate Hope Children's Hospital... a distance from Hazel Crest that can put undue burden on parents who want to be by their children's sides during their stay. I have seen how important it is for sick children to have the presence of loved ones while they recover from an illness or injury.

As part of the proposed plan, the sickest of children—those needing specialized pediatric care—will continue to be transferred to Advocate Hope Children's Hospital. Over the years, we have worked closely with Advocate South Suburban Hospital to ensure the provision of excellent care across the full spectrum of conditions. The current plan will allow us to continue this great partnership in a way that is most convenient for the children and their loved ones. This plan makes sense. I hope you join me in supporting it.

Sincerely,

Rabi Sulayman, M.D.
President, Medical Staff
Advocate Hope Children's Hospital

Recipient of the Magnet award for excellence in nursing services by the American Nurses Credentialing Center

November 4, 2010

Mr. Dale Galassie
Acting Chairman
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

I am writing, as the vice president of nursing at Advocate South Suburban Hospital, to voice my strong support of the plan to enhance its acute service level and add to its bed compliment in order to add pediatric category services. In my position, I see the daily need to these expanded services.

Nurses are trained to find the most effective and efficient way to care for their patients. As a nurse, and as an executive overseeing the excellent nursing staff at Advocate South Suburban Hospital, I know that admitting pediatric patients to an adult medical surgical unit is not the ideal way to care for some of our youngest patients.

Pediatrics is a specialty for good reason, and I applaud the plan to have my nurses specially-trained, side-by-side with the nurses at Advocate Hope Children's Hospital in Oak Lawn. For more than a decade, Advocate Hope Children's Hospital has been the primary site where our pediatric patients are transferred when they need specialized care. We know that children heal faster when their loved ones are present. That's why pediatric units feature private rooms where a parent can spend the night next to his/her child. The parents of our pediatric patients would prefer to be at a hospital closer to home, rather than traveling 30, 60 minutes or more to reach their sick child several times a day.

At Advocate South Suburban Hospital, our plan is to offer general medical services that include caring for primary and secondary acuity diagnoses, such as fever, vomiting, dehydration, asthma, fractures, upper respiratory, gastrointestinal issues, etc., general and orthopedic surgical, and outpatient services, We are also adding a Level II+ special care nursery, a perinatal clinic, and pediatric hospitalists.

Please join me in support of Advocate South Suburban Hospital's Certificate of Need request for this new category of service, pediatrics. I appreciate your time and attention to this vital issue.

Sincerely,

Eileen Gillespie

Mr. Dale Galassie, Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

As Mayor of Hazel Crest, Illinois, I have long been proud of one of my town's most important community resources—Advocate South Suburban Hospital. This fine institution has continually demonstrated its commitment to the people of the south suburban region. That is why I am now wiring in support of the hospital's current proposal to expand its pediatric services.

Truly, there is a need to enhance health care services for our youngest residents. Each year, Advocate South Suburban Hospital serves approximately 42,000 patients in its emergency department, which is designated as a Level II trauma center. Of these, approximately 12,000 are children, many of whom require admission to the hospital for treatment of their illness or injury.

Because Advocate South Suburban Hospital does not have an inpatient pediatric unit, these young patients are admitted to adult medical surgical beds. In addition, each year, approximately 160 pediatric patients who require specialized care are transferred to Advocate Hope Children's Hospital in Oak Lawn, Illinois, or other pediatric facilities. By enhancing the services at Advocate South Suburban Hospital, including an inpatient unit and outpatient subspecialty clinics, patients and parents can get the responsive, child-focused care they need in the comfort and convenience of their own community.

Over the years, Advocate South Suburban Hospital's commitment and responsiveness have brought specialized, state-of-the-art services to our community. Now, they have again assessed the needs of patients of all ages, and have developed an effective, efficient plan to address them. I fully support its Certificate of Need request.

Sincerely,

Dr. Robert B. Donaldson

Mayor

November 29, 2010

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

I am writing to explain why we are requesting to increase pediatric services at Advocate South Suburban Hospital. In recent months, we have assessed a need in the south suburban community for expanded pediatric care. To address that need, we have identified a specific opportunity to collaborate with Advocate Christ Medical Center and Advocate Hope Children's Hospital in Oak Lawn.

We have developed a business plan with these hospitals to partner and provide primary and secondary acuity care at Advocate South Suburban Hospital. The need for these services is clear: Advocate South Suburban Hospital's emergency department cares for more than 12,000 pediatric patients each year. Many of these patients require admission and are admitted to adult medical surgical beds. In 2009, the hospital's volume and referral support of pediatric patients justified the need for a pediatric unit.

Because our hospital does not have a dedicated pediatric unit, approximately 160 low and moderately ill patients are transferred every year from Advocate South Suburban Hospital to Advocate Hope Children's Hospital in Oak Lawn, or other pediatric facilities throughout Chicagoland. By offering a pediatric unit at Advocate South Suburban Hospital, parents will be able to remain close to their children during their care.

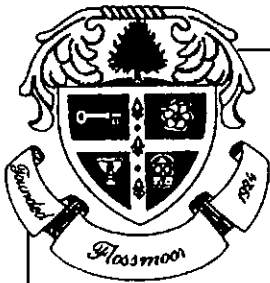

In recent weeks, we have reached out to pediatricians and community leaders in our market. We have received a tremendous amount of support for our plan to offer specialized, comprehensive care to south suburban residents. This expansion is an example of how Advocate South Suburban Hospital plans to accommodate the changing needs of its communities and patients.

Sincerely,

A handwritten signature in black ink that reads "Michael Englehart".

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, IL 62761

Dear Mr. Galassie:

In my work as Mayor of Flossmoor, IL, I am often reminded of the reasons why families choose to live in our community. They come here – and stay here – because of the quality housing, great schools and proximity to Chicago. They also seek access to good health care, and we are lucky to live within miles of several excellent medical resources, including Advocate South Suburban Hospital. Over the years, the hospital's commitment and responsiveness have brought specialized, state-of-the-art services to our community. Now, the hospital has again assessed the needs of patients of all ages and has developed an effective, efficient plan to enhance health care services for our youngest residents. I am writing to express my support for this proposal.

The need for expanded services is clear. Each year, Advocate South Suburban Hospital serves approximately 42,000 patients in its emergency department, which is designated as a Level II trauma center. Of these, approximately 12,000 are children, many of whom require admission to the hospital for treatment of their illness or injury.

Advocate South Suburban Hospital does not currently have an inpatient pediatric unit, so young patients must be admitted to beds in an adult medical surgical unit. In addition, each year, approximately 160 pediatric patients who require specialized care are transferred to Advocate Hope Children's Hospital in Oak Lawn, IL or other pediatric facilities. By enhancing services at Advocate South Suburban Hospital, including an inpatient unit, subspecialty clinics and a special care nursery, patients and parents can get the child-focused care they need in the comfort and convenience of their own community.

My hometown of Flossmoor and the communities that surround us offer families many advantages. I believe excellent access to good health care must always be a foremost concern, and Flossmoor prides itself on the high quality doctors and medical facilities in our community and the surrounding area.

Sincerely,

Paul S. Braun
Mayor

November 15, 2010

Mr. Dale Galassie
Acting Chairman
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

As the manager of the Family Birth Center at Advocate South Suburban Hospital, I appreciate the importance, and recognize the positive impact a dedicated pediatric unit would make for this community. I have worked here for 31 years, initially as a staff RN and now as a manager. I have seen changes in how patients across the lifespan are able to receive care in this community. In the past, pediatric care in this community hospital setting was a "given." This was the hospital of choice for many families in this community. Changes in the healthcare system have made it difficult for non-tertiary hospitals to support pediatric care, but the needs have not disappeared; they have been forced elsewhere.

There have been numerous instances where children from our community needed inpatient care, but were transferred to a hospital 15-30 miles from their homes because we were unable to provide pediatric care due to either room constraints, or unavailability of consistent staffing with qualified pediatric nurses. It is difficult for pediatric nurses to maintain competence and expertise when they have very limited exposure to these patients.

Having a separate unit dedicated to pediatrics would improve the experiences and quality of care that these young patients and their families receive. The current process of placing pediatric patients within an adult medical unit has been proven to be less than desirable for both patients and staff. With a dedicated, separate unit, we would be able to add the expertise and resources that we currently are not able to maintain.

There are a growing number of young families in the south suburban communities who seek care at our neighboring Aunt Martha's clinic. They deliver their babies here. They express a desire to return to this facility when their children require medical care and/or hospitalization. Traveling

27

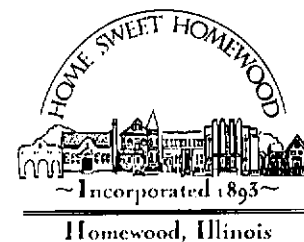

outside of our community to receive adequate care can be a hardship for many of them. They have become familiar with our hospital's campus. We would be doing a disservice to this population if we are unable to continue to care for their young family members when they need it the most.

Sincerely,

Lori Beyer CNM, WHNP-BC, RN-C

Lori Beyer CNM, WHNP-BC, RN-C
Manager, Family Birth Center
Advocate South Suburban Hospital

Village of Homewood

November 16, 2010

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, IL 62761

Dear Mr. Galassie:

In my role as President of the Village of Homewood, Illinois, I often have the opportunity to meet and talk with residents who are raising their families in our south suburban region. When expressing their priorities, access to good health care is at the top of the list. That is why I am writing in support of Advocate South Suburban Hospital's plans to enhance and expand its pediatrics services.

The proposed plan would create a pediatric unit at the hospital, expand outpatient clinics, and create a Level II special care nursery. These additions and changes would greatly expand the scope of pediatric care for children throughout the south suburbs. Approximately 12,000 children seek care in Advocate South Suburban Hospital's emergency department each year. Of these, many require admission to the hospital. Currently, because there is no designated pediatrics unit, these children must be admitted to an adult medical surgical unit. Additionally, about 160 children needing more specialized care must be transferred to Advocate Hope Children's Hospital in Oak Lawn, Illinois. Advocate South Suburban Hospital's proposal will address this situation effectively and efficiently, allowing many more children to get specialized pediatric care close to home and alleviate the high census at Advocate Hope Children's Hospital.

The south suburbs in which I live and work offer families many advantages. I believe excellent access to good health care is a foremost concern. That is why I ask for your support for Advocate South Suburban Hospital's certificate of need request.

November 29, 2010

Mr. Dale Galassie
Acting Chairperson
Illinois Department of Public Health
Health Facilities Planning Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Mr. Galassie:

As chair of the Department of Pediatrics at Advocate South Suburban Hospital, I am writing to voice my strong support for our current plan to expand and enhance pediatric services. Specifically, the hospital has proposed adding an inpatient unit, outpatient subspecialty clinics and a Special Care Nursery. Speaking as a physician who has dedicated my life to the well-being of children, I feel strongly that these changes are necessary for us to provide the kind of responsive care the people in our community need.

There is currently a great need for expanded pediatric services in this area. Advocate South Suburban Hospital, a 284-bed facility, is a great resource. Among its many strengths is its Level II trauma center, which cares for more than 12,000 pediatric patients each year. Many of these children will require admission, but since Advocate South Suburban Hospital lacks a designated pediatric unit, young patients needing inpatient care must be admitted to adult medical-surgical beds. This is not an ideal situation for the children, their parents or the hospital. In addition, approximately 160 pediatric patients who require specialized care are transferred to Advocate Hope Children's Hospital, in Oak Lawn, Ill, or other pediatric facilities in our area.

If our plan is approved, we will be able to provide a comprehensive pediatric program for the people in our area. Children who are moderately ill will be admitted to a pediatric unit at our hospital, which will encourage continuity of care and enable parents to be at their children's bedside during their stay. Children who need more specialized pediatric care will still be transferred to Advocate Hope Children's Hospital. That means that all children in our area can count on us to ensure they receive the appropriate level of care.

I am proud to be a pediatrician at Advocate South Suburban Hospital, which time and again has demonstrated its commitment to meeting the needs of its community. This proposed pediatric expansion is an example of its responsiveness. For the health and well-being of the children we serve, I hope you join me in supporting this effort.

Sincerely,

Bharti Amin, MD

Chair, Department of Pediatrics

October 12, 2010

Mr. Dale Galassie, Chairman
Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, IL 62761

Dear Mr. Galassie,

The purpose of this letter is to express my enthusiasm and support for a pediatric unit at Advocate South Suburban Hospital.

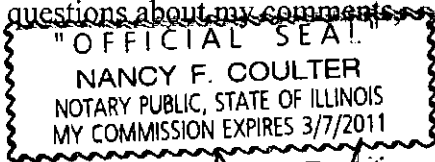

I firmly believe that children should be cared for in the most convenient and appropriate setting—and the literature supports this view. The community hospital setting is close to the support systems for the family and child, and these are essential to help them through the stress associated with illness or injury. Over the past few years, two pediatric units in our planning area have closed; it is refreshing to see South Suburban respond to the community need for pediatric services rather than walk away from it.

Today, more than 160 low and moderately ill children are transferred each year from the Hospital's Emergency Department to other hospitals. This represents only patients referred from the Emergency Department and not others that physicians must refer out of the community from their offices. This referral is contrary to the needs of the children and their families.

The Hospital's plans for the proposed pediatric service focus on access, quality and cost. The proposed new service will meet all high standards of pediatric care. There will be pediatric-trained nurses. Patients will not only have convenient access to inpatient services, they will also have on-campus access to pediatric subspecialists. Because the proposed new pediatric inpatient beds are being developed on an existing patient unit, the modernization costs are minimal and time to opening is only a few months. There will be free parking for patients utilizing the new service.

Again, I am in full support of this project; if you have any questions about my comments, please do not hesitate to call my office.

Sincerely,

Marathon Johnson *MD* *Nancy F. Coulter*

Related Project Costs

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Purchase Price: \$	_____	
Fair Market Value: \$	_____	
The project involves the establishment of a new facility or a new category of service		
	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
If yes, provide the dollar amount of all non-capitalized operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.		
Estimated start-up costs (first 60 days expenses before revenue stream begins): \$ 898,721		

Project Status and Completion Schedules

Indicate the stage of the project's architectural drawings:	
<input type="checkbox"/> None or not applicable	<input type="checkbox"/> Preliminary
<input checked="" type="checkbox"/> Schematics	<input type="checkbox"/> Final Working
Anticipated project completion date (refer to Part 1130.140): <u>April 30, 2012</u>	
Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):	
<input type="checkbox"/> Purchase orders, leases or contracts pertaining to the project have been executed.	
<input type="checkbox"/> Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies	
<input checked="" type="checkbox"/> Project obligation will occur after permit issuance.	
APPEND DOCUMENTATION AS <u>ATTACHMENT-8</u> , IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.	

State Agency Submittals

Are the following submittals up to date as applicable:
<input checked="" type="checkbox"/> Cancer Registry (yes)
<input checked="" type="checkbox"/> APORS
<input checked="" type="checkbox"/> All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted
<input checked="" type="checkbox"/> All reports regarding outstanding permits
Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.

Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
REVIEWABLE							
Medical Surgical							
Intensive Care							
Diagnostic Radiology							
MRI							
Total Clinical							
NON REVIEWABLE							
Administrative							
Parking							
Gift Shop							
Total Non-clinical							
TOTAL							

APPEND DOCUMENTATION AS ATTACHMENT-9, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Facility Bed Capacity and Utilization

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest Calendar Year for which the data are available. Include observation days in the patient day totals for each bed service. Any bed capacity discrepancy from the Inventory will result in the application being deemed incomplete.

FACILITY NAME: Advocate South Suburban Hospital			CITY: Hazel Crest, IL		
REPORTING PERIOD DATES:		From:	12/31/2008	to:	12/31/09
Category of Service	Authorized Beds	Admissions	Patient Days (IP + Obs*)	Bed Changes	Proposed Beds
Medical/Surgical	207	9,633	42,187	-10	197
Obstetrics	16	1,509	3,528	—	16
Pediatrics	—	—	—	+10	10
Intensive Care	20	1,078	5,399	—	20
Comprehensive Physical Rehabilitation	—	—	—	—	—
Acute/Chronic Mental Illness	—	—	—	—	—
Neonatal Intensive Care	—	—	—	—	—
General Long Term Care	41	751	8,567	—	41**
Specialized Long Term Care	—	—	—	—	—
Long Term Acute Care	—	—	—	—	—
Other (identify)	—	—	—	—	—
Total	284	12,971	59,681	—	284

*A formula, showing how the expected observation beds were calculated, is provided in Attachment 15, following Table 3. The experience of other community hospitals' pediatric units in HPA A-04 was the basis of the assumption for observation days in the proposed pediatric unit at Advocate South Suburban Hospital.

** On March 2, 2010, the Hospital was granted Permit #09-056 to discontinue the long term care category of service, including all 41 beds. On October 21, 2010, the Hospital filed a request to abandon that permit. The request to abandon the permit was approved by Chairman Galassie, and that action was reported to the Health Facilities and Services Review Board on December 14, 2010.

CERTIFICATION

The application must be signed by the authorized representative(s) of the applicant entity. The authorized representative(s) are:

- o in the case of a corporation, any two of its officers or members of its Board of Directors;
- o in the case of a limited liability company, any two of its managers or members (or the sole manger or member when two or more managers or members do not exist);
- o in the case of a partnership, two of its general partners (or the sole general partner, when two or more general partners do not exist);
- o in the case of estates and trusts, two of its beneficiaries (or the sole beneficiary when two or more beneficiaries do not exist); and
- o in the case of a sole proprietor, the individual that is the proprietor.

This Application for Permit is filed on the behalf of **Advocate Health and Hospitals Corporation d/b/a Advocate South Suburban Hospital*** in accordance with the requirements and procedures of the Illinois Health Facilities Planning Act. The undersigned certifies that he or she has the authority to execute and file this application for permit on behalf of the applicant entity. The undersigned further certifies that the data and information provided herein, and appended hereto, are complete and correct to the best of his or her knowledge and belief. The undersigned also certifies that the permit application fee required for this application is sent herewith or will be paid upon request.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals as **appropriate**.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Agency Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
 - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
 - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
 - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE

Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::
 - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
 - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
 - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. **A narrative of the rationale that supports the projections must be provided.**

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UNFINISHED OR SHELL SPACE: Not Applicable. There is no shell space in the project.

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF tot be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
 - a. Requirements of governmental or certification agencies; or
 - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
 - a. Historical utilization for the area for the latest five-year period for which data are available; and
 - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

ASSURANCES: Not Applicable. There is no shell space in the project.

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION VII - SERVICE SPECIFIC REVIEW CRITERIA

This Section is applicable to all projects proposing establishment, expansion or modernization of service that are subject to CON review, as provided in the Illinois Health Facilities Planning Act [20 ILCS 3960]. It is comprised of information requirements for each category of service, as well as charts for each service, indicating the review criteria that must be addressed for each action (establishment, expansion and modernization). After identifying the applicable review criteria for each category of service involved, read the criteria and provide the required information, AS APPLICABLE TO THE CRITERIA THAT MUST BE ADDRESSED:

A. Criterion 1110.530 - Medical/Surgical, Obstetric, Pediatric and Intensive Care

1. Applicants proposing to establish, expand and/or modernize Medical/Surgical, Obstetric, Pediatric and/or Intensive Care categories of service must submit the following information:
2. Indicate bed capacity changes by Service: Indicate # of beds changed by action(s):

Category of Service	# Existing Beds	# Proposed Beds
<input checked="" type="checkbox"/> Medical/Surgical	207	197
<input type="checkbox"/> Obstetric		
<input checked="" type="checkbox"/> Pediatric	0	10
<input type="checkbox"/> Intensive Care		

1. READ the applicable review criteria outlined below and **submit the required documentation for the criteria:**

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.530(b)(1) - Planning Area Need – 77 Ill. Adm. Code 1100 (formula calculation)	X		
1110.530(b)(2) - Planning Area Need – Service to Planning Area Residents	X	X	
1110.530(b)(3) - Planning Area Need – Service Demand – Establishment of Category of Service	X		
1110.530(b)(4) - Planning Area Need – Service Demand – Expansion of Existing Category of Service		X	
1110.530(b)(5) - Planning Area Need – Service Accessibility	X		
1110.530(c)(1) - Unnecessary Duplication of Services	X		
1110.530(c)(2) - Maldistribution	X	X	
1110.530(c)(3) - Impact of Project on Other Area Providers	X		
1110.530(d)(1) - Deteriorated Facilities			X
1110.530(d)(2) - Documentation			X
1110.530(d)(3) - Documentation Related to Cited Problems			X
1110.530(d)(4) - Occupancy			X
1110.530(e) - Staffing Availability	X	X	
1110.530(f) - Performance Requirements	X	X	X
1110.530(g) - Assurances	X	X	X
APPEND DOCUMENTATION AS ATTACHMENT-20, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

2.- 1120.120 – Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: Indicate the dollar amount to be provided from the following sources:

	a)	Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to: <ol style="list-style-type: none"> 1) the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and 3. interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
	b)	Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
	4.	Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
	d)	Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including: <ol style="list-style-type: none"> 1) For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated; 2) For revenue bonds, proof of the feasibility of securing the specified amount and interest rate; 3) For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.; 4) For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment; 5. For any option to lease, a copy of the option, including all terms and conditions.
	6.	Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
	7.	Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
	8.	All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
TOTAL FUNDS AVAILABLE		

APPEND DOCUMENTATION AS ATTACHMENT-39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. 1120.130 - Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. All of the projects capital expenditures are completely funded through internal sources
2. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
3. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion. When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT 41, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 – Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE												
Department (list below)	A	B	C		D		E		F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)				
Contingency												
TOTALS												

* Include the percentage (%) of space for circulation

9. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT - 42, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)	Year	Year	Year
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			

Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS ATTACHMENT-43, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care Information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three audited fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care			

APPEND DOCUMENTATION AS ATTACHMENT-44, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

After paginating the entire, completed application, indicate in the chart below, the page numbers for the attachments included as part of the project's application for permit:

INDEX OF ATTACHMENTS		
ATTACHMENT NO.		PAGES
1	Applicant/Co-applicant Identification including Certificate of Good Standing	49-51
2	Site Ownership	52-57
3	Persons with 5 percent or greater interest in the licensee must be identified with the % of ownership.	58-60
4	Organizational Relationships (Organizational Chart) Certificate of Good Standing Etc.	61-63
5	Flood Plain Requirements	64-65
6	Historic Preservation Act Requirements	66-67

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

Organizational Relationships

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

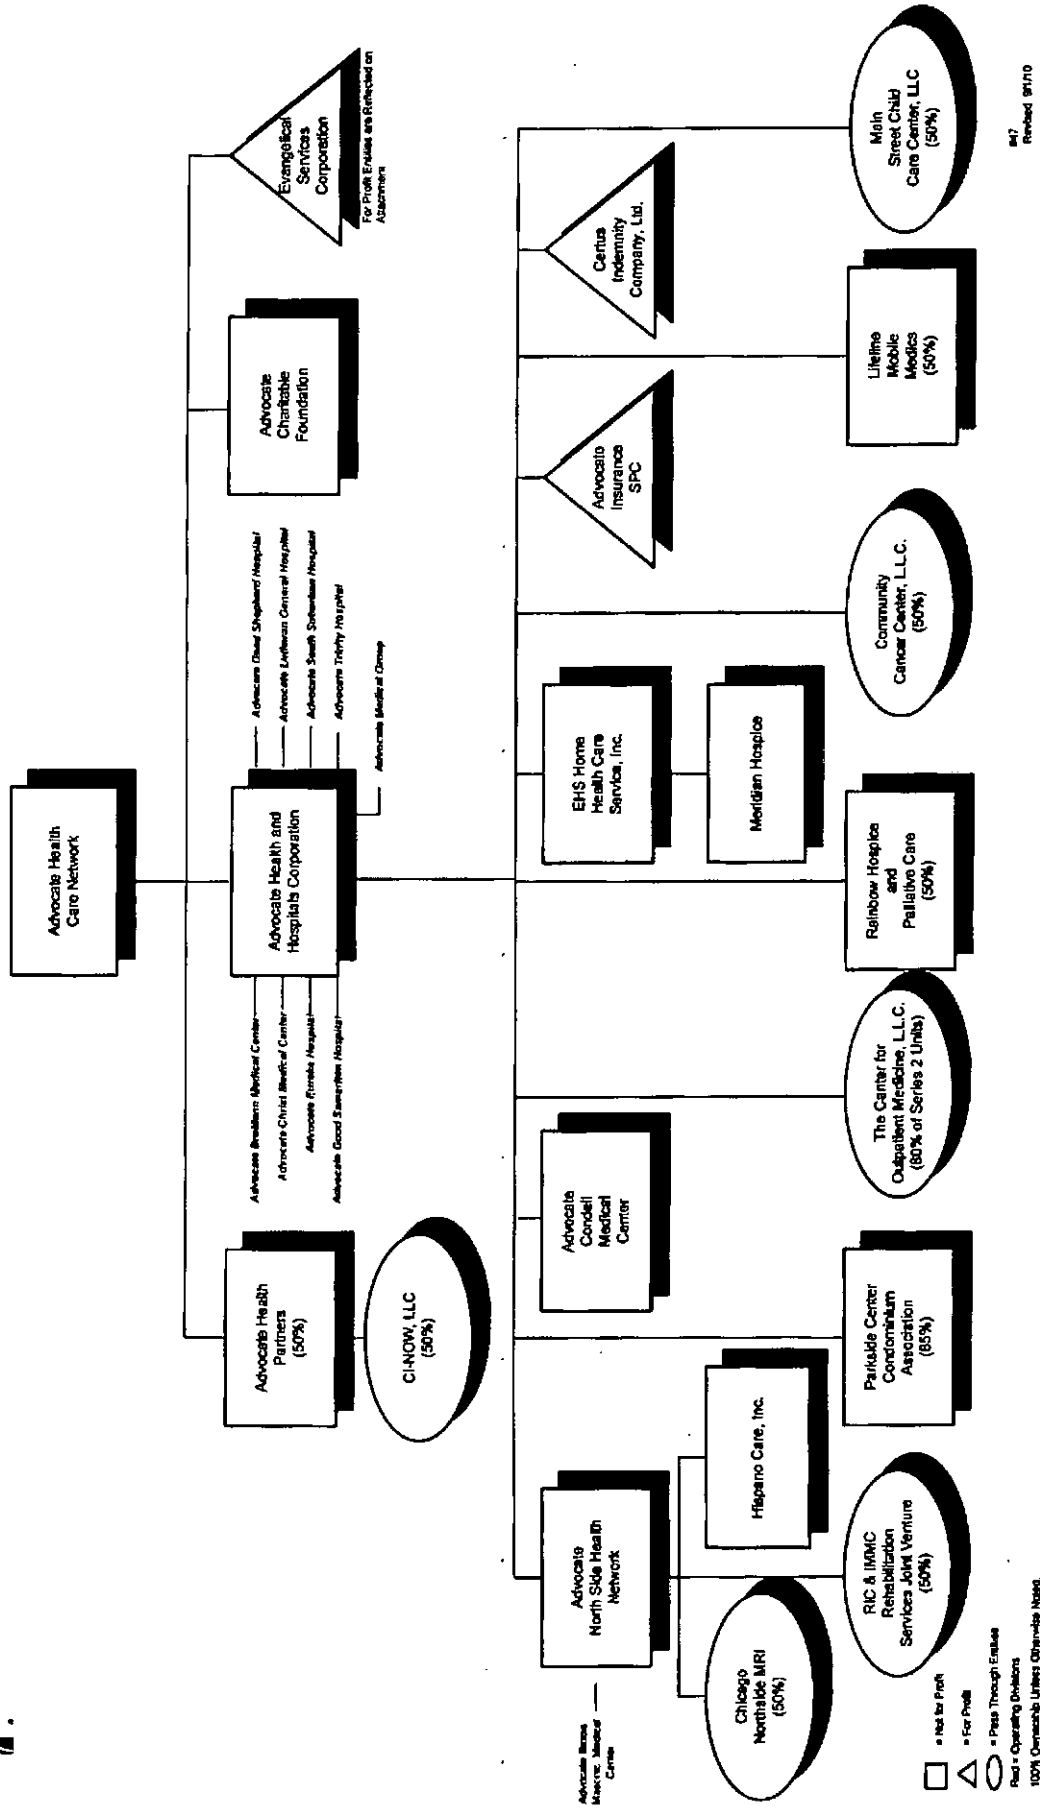

This Section must be completed for all projects

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Attachment 4, Exhibit 1, is an organization chart of Advocate Health Care and shows all of the relevant organizations including Advocate Health Care Network, Advocate Health and Hospitals Corporation and Advocate South Suburban Hospital. Attachment 4, Exhibit 2, is an organization chart showing the leadership of Advocate South Suburban Hospital.

847 Revised 9/1/10

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

Flood Plain Requirements

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS ATTACHMENT -5, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Attachment 5, Exhibit 1, is a map of the proposed location showing any identified flood plain areas.

Advocate Health and Hospitals Corporation d/b/a Advocate South Suburban Hospital attests that the project is not in a flood plain and that the modernization related to the proposed pediatric category of service complies with Flood Plain Rule under Illinois Order # 2005-5.

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

Historic Resources Preservation Act Requirements

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS ATTACHMENT-6, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Attachment 6, Exhibit 1, is a letter from the Historic Resources Preservation Agency that demonstrates that no historic, architectural, or archaeological sites exist within the project area.

Janet Hood
Advocate BroMenn Medical Center
P.O. Box 2850
Bloomington, IL 61702-2850

Dear Ms. Hood:

This letter is to inform you that we have reviewed the information provided concerning the referenced project.

Our review of the records indicates that no historic, architectural or archaeological sites exist within the project area.

Please retain this letter in your files as evidence of compliance with Section 4 of the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420/1 et. seq.). This clearance remains in effect for two years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the Illinois Human Skeletal Remains Protection Act (20 ILCS 3440).

If you have any further questions, please contact me at 217/785-5027.

Sincerely,

Anne E. Haaker

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

1. Health Care Facilities Owned and Operated by Advocate Health and Hospitals Corporation

The licensing, certification and accreditation numbers of each of the organizations owned or operated by Advocate Health and Hospitals Corporation, along with relevant identification numbers are listed below.

Facility	Location	License No.	Joint Commission Accreditation No.
Advocate South Suburban Hospital	17800 S. Kedzie Ave Hazel Crest, IL	1899779	7356

Additional hospitals owned and operated as a part of Advocate Health Care Network:

Facility	Location	License No.	Joint Commission Accreditation No.
Advocate BroMenn Medical Center	1304 Franklin Ave. Normal, IL	1756947	4482*
Advocate Christ Medical Center	4440 W. 95 th St. Oak Lawn, IL	1899693	7397
Advocate Condell Medical Center	801 S. Milwaukee Ave. Libertyville, IL	1756928	7372
Advocate Eureka Hospital	101 S. Major Eureka, IL	1756949	4482*
Advocate Good Samaritan Hospital	3815 Highland Ave. Downers Grove, IL	1899765	7329
Advocate Good Shepherd Hospital	450 W. Highway, #22 Barrington, IL	1899765	5190
Advocate Illinois Masonic Medical Center	836 W. Wellington Chicago, IL	1895997	4068
Advocate Lutheran General Hospital	1775 Dempster Park Ridge, IL	1899780	7405
Advocate Trinity Hospital	2320 E. 93 rd St. Chicago, IL	1927349	7311

*When last reviewed, Advocate BroMenn Medical Center and Advocate Eureka Hospital were surveyed jointly.

Bethany Hospital, formerly known as Advocate Bethany Hospital, is owned by RML. Advocate has an ownership interest in RML, which also owns RML Specialty Hospital.

Advocate Bethany Hospital	3435 W. Van Buren Chicago, IL	1899773	7264
---------------------------	----------------------------------	---------	------

The license for Advocate South Suburban Hospital (Hospital) is included as Attachment 11, Exhibit 1.

The most recent Joint Commission accreditation certificates for the Hospital and for Long-Term Care are included as Attachment 11, Exhibits 2 and 3. The Hospital and Long-Term Care service were surveyed in September 2010. Advocate South Suburban Hospital participates in Medicaid and Medicare.

2. Certified Listing of Any Adverse Action Against Any Facility Owned or Operated by the Applicant

There have been no adverse actions against any facility owned and/or operated by Advocate Health and Hospitals Corporation by any regulatory agency which would affect its ability to operate as a licensed entity during the three years prior to the filing of this application.

Letters attesting to this and permitting access to information are included as Attachment 11, Exhibits 4 and 5.

3. Authorization Permitting HFPB and DPH to Access Necessary Documentation

Advocate Health and Hospitals Corporation and Advocate Health Care Network hereby authorize the Health Facilities and Services Review Board and the Department of Public Health to access information in order to verify any documentation or information submitted in response to the requirements of this subsection, or to obtain any documentation or information which the State Board or Department of Public Health find pertinent to this subsection.

4. Exception for Filing Multiple Certificates of Need in One Year

Not applicable. This is the first certificate of need filed by Advocate South Suburban Hospital in 2010.

Mr. Dale Galassie
Acting Chairman
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, IL 62761

Dear Mr. Galassie:

This letter serves to advise you that no adverse action has been taken against Advocate Health Care Network within the preceding three years of filing this application, as defined in the criteria of this application.

I assure you that representatives of Advocate Health Care Network are fit, willing, and have the necessary qualifications, background and character to continue to provide an excellent standard of care to the communities we serve.

I hereby authorize the State Board and Agency access to information in order to verify any documentation or information submitted in response to the requirements of this subsection or to obtain any documentation or information that the State Board or Agency finds pertinent to this subsection.

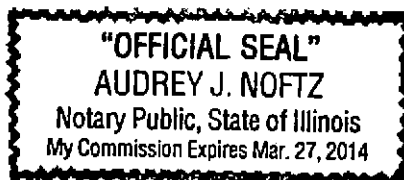

Sincerely,

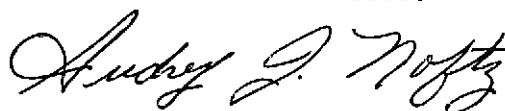

William Santulli
Chief Operating Officer
Officer of Advocate Health Care Network

EXHIBIT 5**

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate**.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Agency Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

Criterion 1110.230 Purpose of the Project

PURPOSE OF THE PROJECT

1. Document that the project will provide health care services that improve the health care or well-being of the market area population served.

Children and their families are very important members of Advocate South Suburban Hospital's (Hospital) community. In its recent assessment of community needs, the Hospital's leadership determined additional services for infants and children to be a high priority. This need was established based on area demographic analyses, requests for pediatricians through the Hospital's physician referral service, the high number of pediatric emergency room visits each year, the transfer of pediatric patients requiring inpatient care, and the discontinuation of and consolidation of pediatric services in the Hospital's planning area.

The proposed addition of a pediatrics category of service is important to improving the health and well-being of the community's children because it will complement the Hospital's busy obstetric and newborn service and will further enhance the continuum of high quality pediatric services at the Hospital.

Today, the Hospital provides a wide range of pediatric services. There are more than 30 pediatricians and pediatric subspecialists on the Hospital's medical staff. The Hospital's Emergency Department treats more than 1,400 pediatric patients each year, and many of the Hospital's ancillary services including laboratory and imaging are equipped to care for children. In addition, the Hospital admits a small number of pediatric patients to adult medical-surgical beds.

In response to the community need for more comprehensive pediatric services, Advocate South Suburban Hospital has developed a plan to address these needs. This plan includes expanding pediatric-related community education services for the community and working closely with the nearby Federally Qualified Health Centers (FQHCs). A Federally Qualified Health Center (FQHC) is a reimbursement designation, referring to several health programs funded under the Health Center Consolidation Act (Section 330 of the Public Health Service Act). Health programs funded include Community Health Centers which serve a variety of Federally designated Medically Underserved Areas/Populations.

Further, the plan includes establishing subspecialty pediatric clinics on the campus, seeking Emergency Department Approved for Pediatrics certification (EDAP), and obtaining a certificate of need permit to add 10 authorized pediatric beds – a significant gap in the continuum of pediatric care in the community.

The proposed pediatric beds will be housed in a unit designed to meet the unique needs of children, their families, and the staff. The unit will have 24 hour/day, 7 day/week hospitalist coverage. This inpatient pediatric service will benefit from oversight from the pediatric leadership at Advocate Hope Children's Hospital. This oversight will include initial staff training and ongoing continuing education as well as provision of protocols, policies, procedures and quality monitoring systems that will ensure a high standard of care from the day the unit opens.

The unit will include all private rooms with either cribs or beds; the rooms will have adequate space for parents to stay around the clock with their sick children. In addition, the unit will include a multipurpose/play room that will be used not only for play but also for rehabilitation services with a child life specialist who will be on the staff. There will also be a dedicated exam and procedure room so these activities need not occur in the patients' rooms. In this way, children will not associate these sometimes unpleasant experiences with their patient room. A security system will be installed to control access to the unit. The cost of modernizing these facilities is modest because the pediatric functions will be developed in an existing patient unit that is already equipped for inpatient care.

By providing a more comprehensive pediatric continuum of care in close proximity to the children's homes and support systems and by assuring a high standard of care, the proposed project will improve the health care and well-being of the children of the greater Hazel Crest community.

2. Define the market area, or planning area or other, per the applicants' definition.

Advocate South Suburban Hospital is located in the Health Planning Area A-04. The Hospital has served the area almost 50 years; it has been on the current site since 1971. Within the planning area, the Hospital defines its primary and secondary service areas as the 34 zip codes shown on Attachment 12, Table 2. Attachment 12, Exhibit 1, is a map of the Hospital's primary and secondary service areas.

The pattern of patient origin from calendar year 2009 is shown as Attachment 12, Exhibit 3. It reveals that 84.6 percent of all patients lived in the Health Planning Area A-04, with most of the remainder residing in other nearby communities. This patient origin demonstrates the close relationship between the Hospital and the local community.

As shown on Attachment 12, Table 1, this area represents a very diverse population. The pattern of race and ethnicity in the Hospital's primary service area reveals more than twice the percentage of African Americans, and it also includes a substantial proportion of Hispanic and Asian population. The U.S. Department of Health and Human Services' Agency for Healthcare Research and Quality has determined that "minority children may be especially vulnerable to many of the inequities that lead to disparities, and they may be unable to adequately safeguard their own health and advocate for themselves". This underscores the need to have high quality pediatric care readily available.

**Attachment 12, Table 1
Summary of Race and Ethnicity**

<u>Race / Ethnicity</u>	<u>2009 admissions at SSH</u>	<u>% of Total</u>	<u>2009 Pop of Primary Service Area</u>	<u>% of Total</u>	<u>Illinois % of Total</u>
White Non-Hispanic	5,050	38.9	374,342	55.3	63.9
Black Non-Hispanic	7,040	54.3	216,060	31.9	14.4

Asian & Pacific Island Non-Hispanic	46	0.4	10,161	1.5	4.3
All Others	416	3.2	10,435	1.5	1.8
Total	12,971	100	677,494	100	100

Source: Demographic data source is Thomson Reuters and Hospital records

3. Identify existing problems or issues that need to be addressed, as applicable, and appropriate for the project.

Advocate South Suburban Hospital identified at least six problems or issues that need to be addressed in order to better meet the needs of children and their families in the greater Hazel Crest community.

A. Lack of Community Awareness about Pediatric Services at the Hospital

The Hospital already provides a wide range of pediatric services; however, the Hospital's commitment to the care of children is not well recognized by the community, local physicians, or agencies. This lack of awareness of the commitment to pediatric care detracts from the Hospital's ability to meet this important community need. The central element that is missing is a pediatric category of service and a dedicated pediatric unit.

B. Area Demographics

Although the most recently available data is from the 2000 U.S. Census, the applicant believes that the demographic information remains valid. This census information suggests that:

- The proportion of children in the local population is higher than the total State of Illinois. A higher proportion of children in the population translates into greater demand for pediatric services.
- The local population has a higher percentage of households with children under the age of six (6) years where all parents are in the workforce. Working parents require easy access to pediatric services.
- Compared with Illinois overall, more children in the greater Hazel Crest community are cared for by grandparents. Grandparents are especially challenged when children in their care need medical services or are hospitalized.

The average income level is also lower than the State. The average income for the State of Illinois in 2008 was \$56,230. In Cook County, the average income was \$54,559.

The U. S. Census Bureau has reported for 2008, 21.5 percent of the population under the age of 18 living in Cook County was living at or below the poverty level. That compares to 16.9 percent for the rest of the State. The US Census Bureau recently published "Income, Poverty, and Health Insurance Coverage in the United States: 2009". The data shows the poverty rate for children under age 18 is higher than any other age range. Children comprise 35.5 percent of the people in poverty but only 24.5 percent of the population. Of related children under the age of 6, in families with a female householder,

54.3 percent were in poverty – four times the rate for children in married-couple families. This underscores the need to provide quality services in a cost effective manner, close to the patients' homes.

The location of two FQHCs in the greater Hazel Crest community is another strong indicator of the demand for pediatric services for low income families in the area.

- An Aunt Martha's Community Health Center is located on the Advocate South Suburban Hospital campus. Aunt Martha's centers are Federally Qualified Health Centers (FQHCs) and serve all patients, but especially Medicaid, All Kids, and uninsured patients (on a sliding scale). In Hazel Crest, Aunt Martha's provides primary care to children, adolescents, and adults; obstetrical care; and dental care. Advocate provides financial assistance to this essential community resource.
- Access Community Health Network (ACCESS) is Chicagoland's largest private primary health care provider to the underserved, operating more than 50 community health centers in underserved, low-income neighborhoods throughout the Chicago region. ACCESS has two FQHCs near the Hospital that also serve the southern suburbs. They are in Blue Island and Chicago Heights; the closest is in Chicago Heights. The Hospital and ACCESS have a strong working relationship to enhance care to their patients.

C. Inability To Care for Pediatric Inpatients

The Hospital's Emergency Department treats more than 1,400 pediatric patients each year. This high volume shows that many young families trust the emergency services at Advocate South Suburban Hospital, but they do not experience the breadth of services that could be available. However, more than 200 of these emergency pediatric patients per year require hospitalization and must be transferred to another facility. This disrupts continuity of care and takes the children and their families out of the community, which for many is a hardship. The transfer of a child to another facility conveys the message that the care for children is not a priority service at Advocate South Suburban Hospital.

Although the Health Facilities and Services Review Board rules allow children to be cared for in medical-surgical beds, the Hospital has tried a "blended unit" and found that it is not desirable for either the children or the adults that occupy medical-surgical beds in the same unit. Furnishings, security, sound management, and care requirements are a few

examples of why mixing children and adults on the same unit is not desirable. The current mixing of adult and pediatric patients at the Hospital is not a long-term solution to excellent inpatient care for children.

The Hospital's pediatricians have demonstrated strong support for the Hospital's plan to apply for a certificate of need permit for a pediatrics category of service. Their support is expressed by their letters indicating their intent to refer patients to the proposed new service.

D. Clinical Quality

The fourth issue relates to quality of care. In their discussions addressing the potential of establishing a pediatrics category of service, the Hospital's clinical and administrative leadership identified the need to assure a high quality of care from the day the new unit would open. The expected modest size of the proposed unit compounded this concern.

E. Support for the Hospital's Robust Obstetrical Program

Births at the Hospital increased 37.5 percent between 2007 and 2009. These infants and their families will soon require pediatric services. This is another reason to offer the full continuum of pediatric services, supported by the oversight of Hope Children's Hospital.

F. Cost

The Hospital's leadership had concerns about potential cost related to providing appropriate facilities to meet the needs of children and families. The prudent use of capital resources is also a high priority.

4. Cite Sources of Information Provided as Documentation

Sources of information for the pediatrics category of service project included Advocate South Suburban Hospital and Advocate Hope Children's Hospital resources. Additionally, information used included State and National demographic reports including the U.S. Census, Illinois Hospital Profiles, studies by architects and engineers, code requirement from the Department of Public Health, MapQuest, technical assistance and the rules of the Health Facilities and Services Review Board, and health care literature related to trends in pediatric care in community hospitals.

5. Detail how the project will address and improve the previously referenced issues as well as the population's health and well-being.

1. Recognized Commitment to Pediatric Care

Any Illinois hospital can treat children in adult medical-surgical beds, just as Advocate South Suburban Hospital does now. The Hospital is proposing to establish a dedicated pediatrics unit to provide the best possible care to all but the sickest children. By establishing this category of service through the certificate of need process, the Hospital is making a tangible commitment to the community, including families, physicians and agencies, that the care of children is a priority at the Hospital now and for the future.

2. Area Demographics

The proposed pediatrics category of service at Advocate South Suburban Hospital will improve access to care for the special population in the greater Hazel Crest community—the high proportion of children, the high proportion of children with working parents or who are cared for by grandparents, and the families with low income. It will also complement the outpatient services provided by the local Federally Qualified Health Centers.

With over 65 percent of the children on Medicaid, there are still uninsured and underinsured children and, like others in need, they will have access to Advocate's generous charity care policy.

3. Inability to Care for Pediatric Inpatients

Most pediatric hospitalizations and observation events do not require tertiary care in a research facility environment. By establishing a pediatrics category of service with 10 beds in the community, the Hospital will have the ability to care for a high proportion of the community's children that require inpatient care. The unit will be a child-friendly setting. Those patients with more acute conditions can be readily transferred to Advocate Hope Children's Hospital or another tertiary center of their family's choice.

The new pediatric service will reduce the number of pediatric patients transferred out of the community for inpatient care. Reduced referrals mean fewer patients will be away from their support systems.

4. Clinical Quality

The proposed pediatric inpatient unit will have oversight by leadership from Advocate Hope Children's Hospital (Hope). Through this Advocate relationship, the modestly-sized unit will benefit from the policies, procedures, and protocols already established and tested at Hope, a renowned regional pediatric hospital providing care throughout south Chicago and southern suburbs. Staff will receive initial and in-service training as part of the Hope relationship. There will be dedicated pediatric nurses with the special skills and expertise in the care of pediatric patients. Hospitalist physicians with additional experience in caring for children will provide round the clock coverage. By partnering with Hope, the Hospital can achieve high quality care for children in the greater Hazel Crest community.

5. Support for the Hospital's Robust Obstetrical Program

The proposed program will enhance continuity of care for the growing number of babies born at Advocate South Suburban Hospital by providing a high standard of pediatric care in the community.

6. Cost

The Hospital's pediatric unit will be developed in an existing patient care. The rooms are already equipped with medical gasses and other typical clinical support spaces. Some functions formerly on the unit will not be needed for the care of children and the space can be reused for pediatric functions. Modernization costs are modest.

The proposed unit will be located on the second floor of the hospital. It will be a dedicated pediatric unit; children will no longer be mixed with adults. This will benefit both the children and adults.

In summary, the proposed project addresses the six issues and problems listed above.

6. Provide goals with quantified and measurable objectives, with specific timeframes to achieving the stated goals, as appropriate.

The overriding goal of the proposed new pediatric category of service at Advocate South Suburban Hospital is to establish a high standard of pediatric inpatient services for children who reside primarily in the greater Hazel Crest community.

The objectives for the project include the following:

Objective 1. To demonstrate a tangible commitment to the community, including families, physicians, and agencies, that the care of children is a priority at the Advocate South Suburban Hospital now and into the future.

The certificate of need application will be filed in December 2010 and is expected to be reviewed at the March 2011 Health Facilities Services and Review Board (HFSRB) meeting. March 2011 would be the earliest date that Objective 1 could be achieved.

Objective 2. To modernize space for a dedicated pediatric unit at the Hospital. As soon as the certificate of need application is approved, the Hospital will initiate modernization of a the patient care area to be used for the pediatric unit so that it will be fully code compliant and meet the needs of children, families, physicians, and staff. Assuming a March 2011 HFSRB approval of the project, the modernization would be completed no later than April 30, 2012.

The cost of the modernization will be modest because existing facilities are being reused. Patient care will begin as soon as the Illinois Department of Public Health approves the unit for occupancy.

Objective 3. To provide a high standard of pediatric care across the pediatric continuum including the proposed new pediatric unit from opening day.

Advocate South Suburban Hospital determined that it could offer a unique community pediatric service by partnering with Advocate Hope Children's Hospital. Hope is the largest children's hospital located in Chicago's south and southwest suburbs. Hope has not only general pediatricians but also pediatric specialists representing more than 30 subspecialties including pediatric neurology, pulmonology, gastroenterology, oncology, cardiology and cardiac surgery. Not only do these subspecialists provide a continuum of

expertise to the practicing general pediatricians, they will also have subspecialty pediatric clinics on the Advocate South Suburban Hospital campus.

Further, Advocate South Suburban Hospital will benefit from a clinical oversight relationship with Hope. Through this partnership, the Hospital will acquire an established, well-respected model of care including care protocols and quality indicators that will be monitored. A pediatric-trained hospitalist will be available in house, around the clock. The nurses that will staff the unit will be trained by Hope staff—both at Hope and at the Hospital. These nurses will participate in ongoing in-service education provided by the Hope staff to assure that they are aware of and proficient in advances in pediatric care.

The establishment of subspecialty pediatric clinics and a clinical oversight relationship with Hope will be ramped up during the modernization of the unit so that as soon as the facility is ready for occupancy (April 2012), the benefits will be fully realized. The clinics and the oversight relationship will continue after the opening of the unit.

Objective 4. To provide support for Advocate South Suburban Hospital's robust obstetrical program.

The new energy that will be infused into the overall pediatric service at the Hospital will provide support for the obstetrical program.

The growth in the obstetrical program is expected to continue, especially because of the close working relationship with the two area Federally Qualified Health Centers. To meet this expected growth, the Hospital plans to enhance neonatal coverage and move from a Level 2 to Level 2+ nursery. Funding for the Level 2+ nursery was obtained from the Federal Stimulus Program. While these obstetrical initiatives are not part of this certificate of need project, they underscore the value placed on caring for infants and children at the Hospital and are a key reason the physicians are so eager and enthusiastic to have a pediatric category of service at the Hospital. The support to the Hospital's obstetrical program will be mirrored in the development of the pediatrics category of service.

The proposed project involves modernization only; there is no new construction. The new pediatric unit will be housed on the second floor of a 1971 building. Mattei-Colin, health care architects, assessed several potential locations for the service and concluded that the second floor location meets the goals of the project. Even so, they found that elements of the infrastructure, especially the electrical and heating/ventilation/air-conditioning (HVAC) systems would require upgrading to meet Illinois Department of Public Health codes. Since the proposed unit was formerly used for inpatient care, the rooms are already equipped with medical gasses and patient toilets. Hence, modernization will be required to adapt the unit to the needs of children and families, to provide for efficient work flow for staff, and to achieve cosmetic improvements as well as the infrastructure upgrades.

The conditions being upgraded are as follows:

1. Medical Gas Systems

The second floor west side of the east/west wing has oxygen and vacuum. Two oxygen and two vacuum valve boxes are located at the west side of the east/west wing at the west side of the wing. These boxes shall be removed and replaced with two valve boxes, each containing an oxygen, medical air, and vacuum valve. An existing medical gas area alarm panel is located at the existing nursing station. The area alarm panel shall be removed and replaced with new, as required to meet current code compliance per National Fire Prevention Act 99. All pediatric rooms require one medical air, oxygen, and vacuum outlet. To serve the new patient rooms, a new branch shall be extended from the existing medical air riser located adjacent to the existing vacuum and oxygen riser.

2. Electrical Systems

The electrical work encompasses a new electrical distribution system to the second floor so that the floor would be separated into code-required normal, critical, and life safety branches to support the renovated areas as per National Electrical Code Article 517. This new distribution would be sized to accommodate the proposed 10 inpatient beds plus two observation beds. The following changes are included in the cost:

- The existing 75kVA normal power transformer will be replaced with a new energy efficient dry-type transformer. The two existing normal power panel boards will be re-connected to the new transformer. (The existing feeders will remain and be re-used).

- A new 100 ampere 208/120 volt, three phase normal power panel will be connected to the new 75kVA transformer located in the wing. The panel board will be used for all the new receptacles in the area of pediatrics.
- A new 480-volt, 125 amp critical branch riser will be extended from the Basement ATS Room to support the renovated second floor. The existing Critical Branch Distribution Panel has adequate distribution space and capacity for a new 125 amp circuit breaker which would be extended to new distribution on the Second Floor. A dry-type 75kVA transformer and panel board will be required to provide 208Y/120-volt power on the floor.
- The existing “general emergency” panels on each floor are connected to the life safety branch transfer switch; therefore, the exiting emergency panel on each floor can remain and will be re-labeled as “life safety”. Existing non-life safety load within the area of work will be removed and reconnected to critical panels as part of the renovation.
- A new equipment branch feeder of approximately 100 amps will be extended from existing distribution in the basement. This branch will support any required mechanical equipment, fire/smoke dampers, and miscellaneous equipment required to be on generators that is not critical to patient care.

No equipment is being replaced.

Market Area

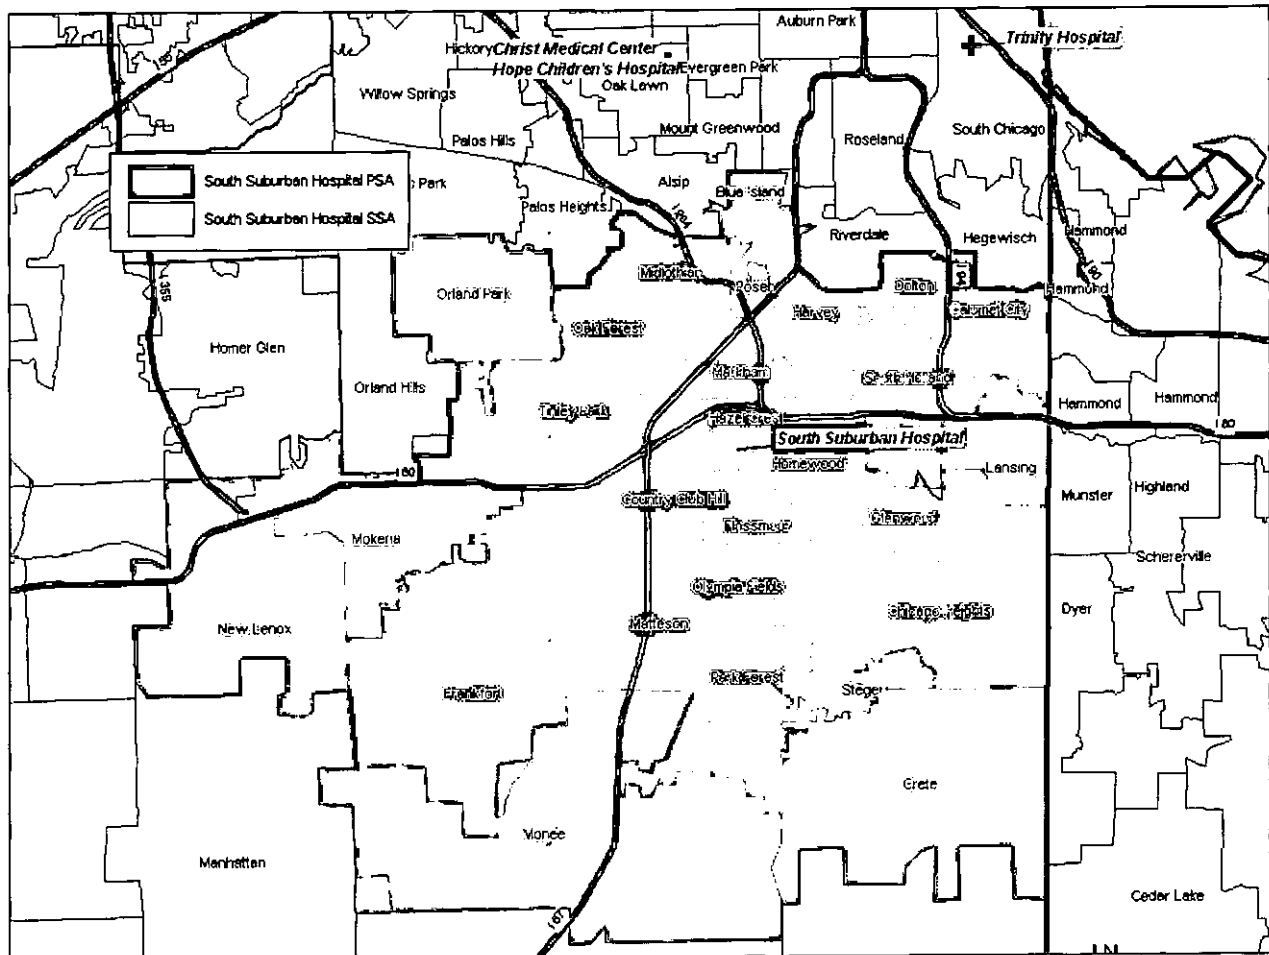

The market area for Advocate South Suburban Hospital has been established for over 10 years. The zip codes and municipalities listed in Attachment 12, Table 2 surrounds the hospital and constitutes the primary and secondary service areas.

**Attachment 12, Table 2
Zip Codes in the South Suburban Hospital
Primary and Secondary Service Area**

60409 Calumet City	60406 Blue Island
60411 Chicago Heights	60411 South Chicago Heights

Patient Origin

On Attachment 12, Exhibit 2 is a patient origin report that shows the pattern of admissions by residence of the patient. The table shows that 84.6 percent come from the Health Planning Area A-04, another 4.2 percent from the primary and secondary service areas that are outside A-04, and the remaining from many communities, including those from South Chicago, and beyond. This demonstrates the fact that Advocate South Suburban's focus is on serving the Planning Area.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

ALTERNATIVES

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
 - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
 - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
 - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
 - 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Alternative	Description	Patient Access	Quality	Cost	Financial Benefit, Short Range	Financial Benefit, Long Range	Conclusion
1.	Expand the use of medical-surgical beds for children.	Possibly more difficult to find the right bed placement for children in a unit with adults.	Lower quality of care, when a number of children are mixed with adults.	\$0	Could accommodate patients with minimal construction costs.	Would not be the service that physicians and families are seeking, so the program likely would not achieve the utilization goals.	Rejected
2.	Develop a pediatrics unit totally independent from Hope Children's Hospital.	Patient access would be improved, with care close to home.	Would not benefit from established model of care and quality oversight from Hope staff.	\$2,700,000	None. Would slow up the implementation process and negatively affect credibility of service.	Would miss all the advantages and efficiencies of sharing expertise and methodology.	Rejected
3	Develop a unit in collaboration with the pediatrics program at Hope Children's Hospital on the fourth floor of the Hospital.	Patient access would be improved, with care close to home.	Improved. Able to quickly adopt systems and treatment methodologies that have been proven.	\$4,100,000	Improved. The advantages of using the Hope patient care system would greatly reduce the implementation time and cost.	Although the system would have greater credibility and be more likely to achieve the target utilization goals, there would be at a higher cost for adapting the infrastructure up to the 4 th floor.	Rejected
3	Develop a unit in collaboration with the pediatrics program at Hope Children's Hospital on the second floor of the Hospital.	Patient access would be improved, with care close to home.	Improved. Able to quickly adopt systems and treatment methodologies that have been proven.	\$2,031,687	Best. The modernization cost would be lower. The advantages of using the Hope patient care system would greatly reduce the implementation time and cost.	The system would have greater credibility and be more likely to achieve the target utilization goals.	✓ Accepted

99 ATTACHMENT 13

Alternative One –Expand the use of medical-surgical beds for pediatric patients

The Hospital considered the option of using more medical-surgical beds for pediatric patients. The patient access may be negatively affected by the problems with placing children on a unit with adults. Furthermore, the process of interspersing children with the adult population would not achieve the quality of care that is desirable. The special staffing needs, room accommodations, unit security, and such are difficult to provide when adult and pediatric patients are blended. Physicians and families are seeking a program that focuses on the unique needs of children as patients.

Cost: \$0

Alternative Two – Develop a stand-alone pediatrics unit

The potential to provide service as a stand-alone unit has been the pattern in hospitals in the past. However, that would forgo the advantages of a collaborative arrangement which is possible through a system of hospitals, such as the one operated by Advocate Health Care. The cost of developing orientation, training, and monitoring would be duplicated unnecessarily. That plan would miss the advantages and efficiencies of taking new treatment modalities that have been developed at Advocate Hope, and implementing them at Advocate South Suburban Hospital.

Cost: \$2,700,000

Alternative Three – Develop a pediatrics unit on the fourth floor, in collaboration with Advocate Hope Children’s Hospital

This alternative was considered as it provides the greater level of expertise in developing the best care for children in a setting close to their home. The advantages of building on Hope’s renowned pediatric medical and surgical programs are valued by the physicians who will refer their patients to Advocate South Suburban Hospital. They are familiar with systems and models for care, making their individual treatment plans more effective. However, the cost of taking infrastructure upgrades to the fourth floor made this option cost prohibitive.

Cost: \$4,100,000

Alternative Four – Develop a pediatrics unit on the second floor, in collaboration with Advocate Hope Children’s Hospital

This alternative was selected as it provides the greater level of expertise in developing the best care for children in a setting close to their home. The advantages of building on Hope’s renowned pediatric programs are valued by the physicians who will refer their patients to Advocate South Suburban Hospital. They are familiar with systems and models for care, making their individual treatment plans more effective. By locating on the second floor, the modernization costs were modest.

Cost: \$2,031,687

3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

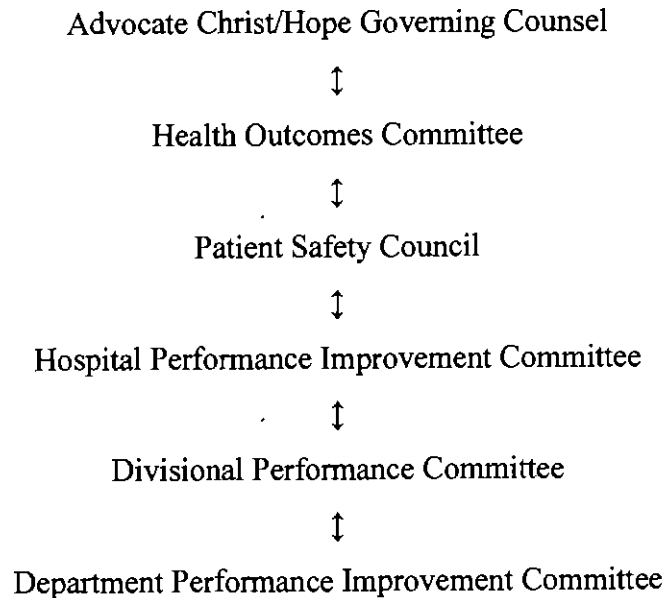

Advocate Health and Hospitals Corporation is committed to performance improvement and engages in a wide range of initiatives to ensure quality at all of its provider sites.

This commitment is very evident at Advocate Christ Medical Center/Advocate Hope Children’s Hospital (Hope). Hope is nationally recognized for its high standards of care. Recently, Hope was nominated and received the very coveted Fire Starter Award from the Quint Studer Group. This award is given to organizations that demonstrate outcomes excellence. Hope is also recognized as a Pediatric Critical Care Center by the Illinois Department of Public Health, and the Emergency Medical Services for Children. This program recognizes hospitals that have the highest level of specialized critical care and emergency care services to meet the unique needs of pediatric patients. This is the highest ranking that a pediatric provider can receive.

The following is an overview of the performance improvement process and a few examples of outcomes at Advocate Hope Children’s Hospital. Hope will initiate this same process at Advocate South Suburban Hospital as part of the oversight role that will provide.

Advocate Christ Medical Center/Advocate Hope Children's Hospital Performance Improvement Overview

There is an established plan reflecting the structure for patient safety and quality at Advocate Christ Medical Center/Advocate Hope Children's Hospital. This plan is reviewed annually and outlines the scope of performance improvement, patient safety programs and key process measures. The reporting structure is shown below. Hope is represented on each level.

Through this process, priorities are established in the following areas:

- Performance Improvement/Patient Safety
- Regulatory
- Magnet Indicators
- Root/Apparent Cause Analysis
- Failure Modes and Effects Analysis (FMEA)
- Key Result Area for the Organization, and
- Department Specific Indicators

The metrics used in the performance improvement process include:

- Establish organizational definitions
 - Measures of success
 - Numerator/denominator
 - Data source

- Establish baselines
- Research best practice, and
- Set target goals and monitor progress

The Health Outcomes Committee's role is to:

- Monitor the effectiveness of performance improvement and patient safety initiatives
- Review reports on the status of performance improvement and patient safety measures conducted throughout the Medical Center, including Hope, and evaluate throughout the year
- Supervise broader regulatory and accreditation compliance issues, monitoring performance against standards, and
- Review lessons learned from sentinel event root cause analysis and FMEA teams.

The Hospital Performance Improvement Committee's role is to:

- Provide overall guidance for the quality structure for both clinical and non clinical departments
- Review/approve division/department performance improvement plans
- Monitor progress of the Root Cause Analysis/Continuous Quality Improvement multidivisional teams, and
- Facilitate continuous compliance with regulatory requirements.

The Divisional Performance Improvement Committee's role is to:

- Review all departmental performance improvement measures/plans quarterly
- Share action planning/best practice with the team, and
- Ensure compliance with regulatory requirements specific to the Division of Pediatrics (Hope).

The role of Department Performance is to:

- Monitor progress with performance improvement measures monthly
- Report results/action plans on the divisional plan, and
- Report performance improvement results at the Unit Council meetings

Examples of Hope's performance plan include:

- Patient satisfaction
- Falls
- Universal protocol

- Documentation
- Catheter-associated blood stream infection in ICUs
- Pain assessment
- Reporting of critical tests
- Skin care

Examples of department-specific indicators include:

- Appropriate abbreviations
- Chemotherapy verification procedure
- High alert medication verification
- Code blue, and
- Patient identification process

2010 Performance Plan/Trending Grid

Performance indicators are monitored at Hope using a very comprehensive grid. The grid below shows the format and examples of more than 80 indicators that are monitored to identify performance improvement opportunities.

Each quarter the Pediatric Division Performance Improvement Committee at Hope meets; the meeting is facilitated by the director and is attended by managers and advanced practice nurses from the departments. Each department has a liaison that also attends the meeting and updates the staff through unit council meetings. The unit council, in collaboration with the manager and the performance improvement liaison, develops a plan for every indicator not meeting target that includes actions that are required to meet target. At the quarterly meetings, all indicator monitoring results are reviewed for each department. Action plans are also reviewed. The performance improvement liaison posts results in the department. Progress and trends are discussed at the following meeting.

Indicator	Current Perform	Goal	1 st Qtr Totals	2 nd Qtr Totals	3 rd Qtr Totals	4 th Qtr Totals	2010 Yearly Totals
Hand Hygiene	New indicator 2010	90%	99%	98%	99%		99%
Blood transfusion record compliance	% 4 th Qtr 2009	>90%	100%	99%	98%		99%
Patient satisfaction with Nursing		75 th %	99%	99%	98%		99%
Critical results reported documented	73%	90%	60%	77%	73%		73%

Source: Hope Children's Hospital

These comparison data are a product of the American Nurses Association's National Database of Nursing Quality Indicators (NDNQI), internal, site and systems benchmarks. Other sources of comparison data include National Association of Children's Hospitals and Related Institutions, and Vermont Oxford.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE

Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::
 - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
 - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
 - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN-NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Criterion 1110.234 a) Size of Project

This project proposes to renovate 7,978 gross square feet (GSF) of clinical space to provide 10 pediatric inpatient beds, located in private rooms. Those beds will be supported by two pediatric observation rooms, a multipurpose/play room, a procedure/treatment room, clean and soiled utility rooms, storage space, and a nurses' station.

The project contains 997 per GSF non-clinical service areas, such as family support, stairs, and electrical/mechanical spaces.

SIZE OF PROJECT

DEPARTMENT/ SERVICE	PROPOSED	STATE STANDARD	DIFFERENCE	MET STANDARD?
PEDIATRICS	7,978 for 10 beds or 799 GSF/BED	500-660 DGSF/BED	139	NO

Source: M & C Architect's Records

The project involves the conversion of existing space and results in a small amount of square footage in excess of the State Agency Standard. The proposed unit will be located in a converted medical-surgical unit and retrofitted to take advantage of the spaces that are currently there. That has reduced the cost of the modernization work significantly. The State's allowance for modernization can be up to \$252 per GSF. At 660 GSF x 10 beds x \$252, the allowable cost is \$1,663,200. By taking advantage of the size and shape of the former unit, the modernization plus contingency of this unit will cost \$79.21/GSF for the clinical space. At 7,978 per GSF of clinical space x \$79.21 per GSF, the actual cost will be \$631,937 which is \$1,031,263 below that allowed.

This relatively small unit with only 10 beds will still need to provide all the support spaces that could serve a 20+ bed unit. Illinois Code Section 250.2630 Existing General Hospital Standards requires the following to be included:

- Charting facilities for nurses and doctors (commonly known as the nurses station)
- Drug distribution station
- Treatment or procedure room with lavatory, work counter, storage and writing space
- Clean holding area for storage and distribution of clean and sterile supplies
- Soiled workroom with waste receptacle, and used linen receptacle
- Storage for equipment such as IV stands

- Space for storage of required emergency equipment such as a crash cart
- Space for nourishment preparation between scheduled meals

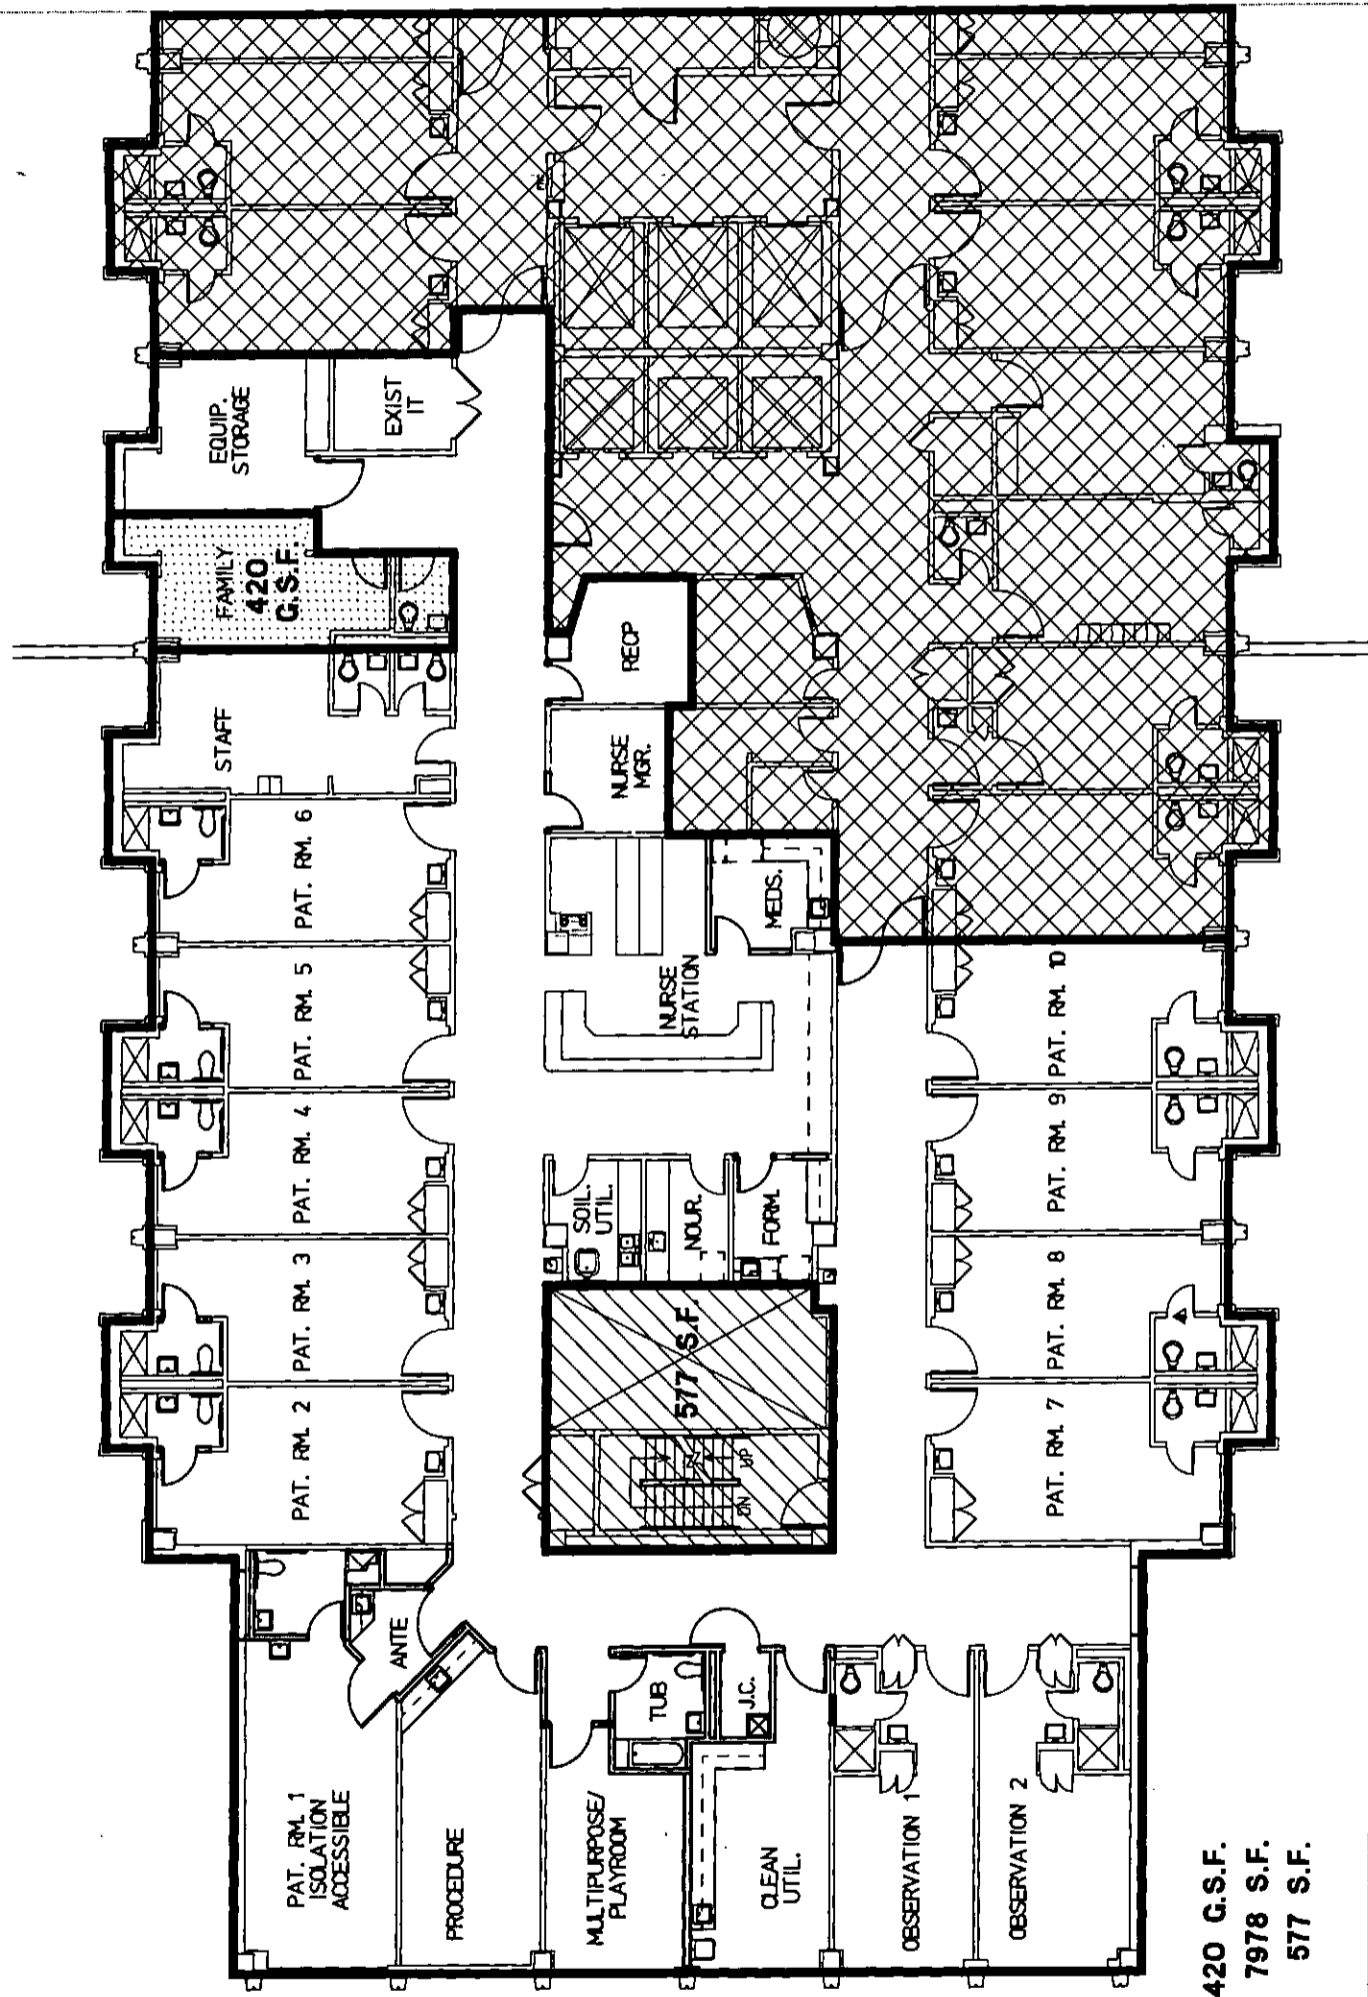

Also required for pediatrics:

- Multipurpose room for dining, educational, and play or other patient care purposes
- Space for storage of infant formula
- Storage closet or cabinets for toys and for educational and recreational equipment
- Storage space for replacement of youth and adult beds to provide flexibility for interchange of patient accommodations

While not required, a bath tub area is best when bathing toddlers, rather than a shower, so has been included in the proposed unit.

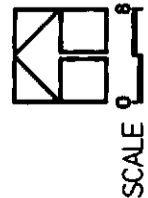

When one takes into consideration that the project will modernize an existing unit at minimal cost and must meet all the licensure requirements that could have supported a much larger unit, the 799 GSF/bed can be justified.

A schematic diagram of the proposed unit is included as Attachment 14, Exhibit 1.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE

Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space

READ THE REVIEW CRITERION and provide the following information:

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. A narrative of the rationale that supports the projections must be provided.

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UTILIZATION

	Dept./ Service	Historical Utilization (patient days) (treatments) etc.	Projected Utilization as patient days	State standard	Beds requested	Met standard?
YEAR 1	Pediatrics	0	3,038	10	10	Yes
YEAR 2	Pediatrics	0	3,377	11	10	Yes

Source: Applicants

Advocate South Suburban Hospital (Hospital) is proposing to establish a pediatrics category of service by converting 10 medical-surgical beds to 10 pediatric beds. The established utilization standard for the addition of pediatric beds is 85 percent occupancy for hospitals with 100 to 199 medical-surgical beds. The Hospital will have 197 medical-surgical beds and therefore must meet the 85 percent occupancy standard.

The HFSRB rules, Section 1110.530 Medical/Surgical, Obstetric, Pediatric and Intensive Care – Review Criteria, b) Planning Area Need. 2) Service to Planning Area Residents speaks to the objective to serve the Planning Area.

Section 1100.530 b) 3) B of the HFSRB rules includes the following:

B) “An applicant proposing to establish a category of service....shall submit

- i) Physician referral letters that attest to the physician’s total number of patients (by zip code of residence) who have received care at existing facilities located in the area during the 12-month period prior to submission of the application;
- ii) An estimated number of patients the physician will refer annually to the applicant’s facility within a 24-month period after project completion. The anticipated number of referrals cannot exceed the physician’s documented historical caseload.
- iii) The physician’s notarized signature, the typed or printed name of the physician, the physician’s office address, and the physician’s specialty;
- iv) Verification by the physician that the patient referrals have not been used to support another pending or approved CON application for the subject services.”

Section 1110.530.b)2)B of the HFSRB rules includes the following.

“Applicants proposing to add beds to an existing category of service shall provide patient origin information for all admissions for the last 12-month period, verifying that at least 50 percent of the admissions were from the area. For all other projects (and this project, by definition is an “other project”), the applicants shall document that at least 50 percent of the projected volume will be from residents of the area.”

Area refers to planning area. Advocate South Suburban Hospital is located in Health Planning Area A-04. A map of the planning area is included on Attachment 15, Exhibit 1.

Using COMPData resources, Advocate South Suburban Hospital searched the admission records for the 2009 hospital admissions by zip code of all pediatric patients who lived in the primary service areas for Advocate South Suburban Hospital and Advocate Christ Medical Center/Hope Children's Hospital. The admissions excluded from the data base were those listed as neonatal, psychiatric, or substance abuse patients, as they were not admissions appropriate for the proposed pediatrics unit. Only the admissions to Advocate South Suburban Hospital and Advocate Hope Children's Hospital were considered as potential candidates for a proposed unit.

Those admissions were linked with the local pediatrician who was the attending physician for that admission. Representatives of the Hospital then met with the physicians and asked them how many of their admissions they would consider admitting to the proposed new pediatrics category of service at the Hospital. Physician referral letters included not only their expected referrals but also the other information required by the rules are included in Appendix A. A summary of these referrals is also included in Appendix A.

These letters pledge 1,156 pediatric annual admissions to the Hospital from Planning Area A-04 and another 231 from nearby communities for a total of 1,387 admissions.

**Attachment 15, Table 1
Number of Physician Referrals to Proposed Pediatric Unit at South Suburban Hospital**

Referrals from Planning Area A-04			Referrals from Communities Surrounding A-04	Total Referrals
From Advocate South Suburban's 24-Zip Code Primary Service Area	From All Other Zip Codes in Planning Area A-04	Total From Planning Area A-04		
520	636	1,156	231	1,387

Source: Physician Referrals

Next, the Hospital estimated projected average length of stay (ALOS) by calculating the ALOS at other HPA A-04 community hospital pediatrics units. Utilization at Advocate Hope Children's Hospital (Hope) was not included in the length of stay determination because Hope has a higher acuity patient mix than a community hospital; including Hope's average length of stay would distort an expected length of stay at Advocate South Suburban Hospital.

**Attachment 15, Table 2
Average Length of Stay at HPA A-04 Community Pediatrics Units, 2009**

Hospital	Admissions	Inpatient Days	Average Length of Stay (Days)
Ingalls Memorial Hospital	290	739	2.5
St. James Hospital and Health Center, Chicago Heights	618	1,407	2.3
Palos Community Hospital	359	798	2.2
Little Company of Mary Hospital	352	901	2.5
Metro South Medical Center	67	154	2.3
Total	1,686	3,999	2.4

Source: IDPH Hospital Profiles, 2009

As noted in the above Attachment 15, Table 2, the average length of stay of community hospitals in HPA A-04 was 2.4 days in 2009. Advocate South Suburban Hospital assumed that patients in the proposed pediatrics unit would have the same length of stay.

Based on Planning Area A-04 expected referrals from the physicians, a 2.4 day average length of stay, the Hospital determined that nine (9) beds could be justified.

$$1,156 \text{ admissions} \times 2.4 \text{ ALOS} = 2,775 \text{ days} \div 365 \text{ days per year} =$$

$$7.6 \text{ average daily census}$$

$$7.6 \text{ average daily census} \div 85 \text{ percent occupancy} = 8.9 \text{ beds}$$

In addition to inpatient days, the Hospital also expects to care for pediatric observation patients on the unit. To determine an expected number of observation days, the Hospital again reviewed the experience of the other health planning area community pediatric units.

**Attachment 15, Table 3
Observation Days as a Percentage of Total Inpatient Days in HPA A-04, 2009**

Hospital	Total Inpatient Days	Observation Days	Observation Days as a Percentage of Inpatient Days
Ingalls Memorial Hospital	739	76	10.3
St. James Hospital & Health Center, Chicago Heights	1,407	127	9.0
Palos Community Hospital	798	292	36.5
Little Company of Mary Hospital	901	323	35.8
Metro South Medical Center	154	50	32.5
Total	3,999	868	21.7

Source: IDPH Hospital Profiles, 2009

As noted in Attachment 15, Table 3, the average percentage of observation days was 21.7 percent in Planning Area A-04 community hospitals in 2009. Using 21.7 percent of days, Advocate South Suburban Hospital could expect approximately 602 observation days.

$$2,775 \text{ inpatient days} \times 21.7 \text{ percent} = 602 \text{ observation days}$$

Projected patient days were then calculated using physician referrals, area average length of stay, and average of observation days as a percentage of inpatient days.

The convention used for determining bed occupancy in Hospital Profiles is as follows:

$$\text{Projected inpatient days} + \text{observation days} = \text{total days}$$

$$2,775 \text{ inpatient days} + 602 \text{ projected observation days} = 3,377 \text{ total days}$$

$$\text{Total days} \div \text{admissions} = \text{average length of stay}$$

$$3,377 \text{ projected total days} \div 1,156 \text{ admissions} = 2.9 \text{ days average length of stay}$$

[Note: This is consistent with Planning Area A-04 calculated inpatient and observation days average length of stay.]

$$\text{Total days} \div 365 \text{ days} = \text{average daily census}$$

$$3,377 \text{ projected total days} \div 365 = 9.3 \text{ average daily census}$$

$$\text{Average daily census} \div \text{State Agency target occupancy} = \text{projected beds}$$

$$9.3 \div 85 \text{ percent occupancy} = 10.9 \text{ beds} = 11 \text{ beds}$$

Although the calculations suggest the need for 11 beds, because of the limitations of the available space on the 2 West nursing unit, the Hospital leadership believes that it would be prudent to seek approval for only 10 authorized beds and expect to achieve 85 percent occupancy. This would result in an average daily census of 8.5 patients.

$$10 \text{ beds} \times 85 \text{ percent occupancy} = 8.5 \text{ average daily census}$$

In times of high census, typically in January, February, and March, as well as during down time due to maintenance, the observation beds could be used temporarily to accommodate patients.

These projections:

- Do not account for the 231 patients who lived beyond Planning Area A-04 in the physician referral letters.
- Do not include a factor for peak census demands including seasonal illness such as RSV virus.
- Do not include a factor for current referrals from the Hospital's Emergency Department. Approximately 215 patients each year are referred from the Emergency Department. Some of these may be accounted for in the physician referral letters.
- Do not include a factor for pediatric patients that are currently cared for at the Hospital in medical-surgical beds. Note: The AHQ instructions for reporting medical-surgical admissions in the 0 to 14 age group include "not normal newborn." The clinical leadership at the Hospital does not contemplate caring for "not normal newborns" in the pediatric unit; they will continue to be cared for in the newborn nursery. All other 0 to 14 pediatric admissions will be housed on the pediatrics unit. Some of these may be accounted for in the physician referral letters.
- Do not account for the planned recruitment of pediatricians and family practitioners who also care for children. Currently, there are two new pediatricians and four new family practice physicians who have applied for privileges.
- Do not account for the potential impact of National Health Reform which could increase the access to hospital care for many children in the Hospital's planning area. The new laws will address access to covered services, age-appropriate benefits in a medical home, and health insurance coverage for all children in the United States. It will preserve the Children's Health Insurance Program with funding through 2015 and provide an increase in federal funding commitment to states through 2019.
- Do not add a factor for the recent 37.5 percent growth in the Hospital's obstetrical service. This obstetrical growth has introduced more young families to the Hospital's services and could further increase the utilization in coming years. The literature

suggests that women choose the hospital in which they will deliver their child and then return to that provider for other services (such as pediatric services) if they believe that they will receive high quality care. Oversight of the Hospital's proposed pediatric program will assure that high quality of care.

- Do not include a factor for the modest pediatric population growth in the Hospital's service area. See Attachment 15, Table 4.

Attachment 15, Table 4

2010 Population	2015 Population	2010-2015 Variance
142,373	145,052	2,679

Source: Thomson Reuters

- Do not account for potential utilization by adolescents ages 15 to 17.

For these reasons, these projections may be conservative.

SECTION VII - SERVICE SPECIFIC REVIEW CRITERIA

This Section is applicable to all projects proposing establishment, expansion or modernization of categories of service that are subject to CON review, as provided in the Illinois Health Facilities Planning Act [20 ILCS 3960]. It is comprised of information requirements for each category of service, as well as charts for each service, indicating the review criteria that must be addressed for each action (establishment, expansion and modernization). After identifying the applicable review criteria for each category of service involved, read the criteria and provide the required information, AS APPLICABLE TO THE CRITERIA THAT MUST BE ADDRESSED:

A. Criterion 1110.530 - Medical/Surgical, Obstetric, Pediatric and Intensive Care

- 3. Applicants proposing to establish, expand and/or modernize Medical/Surgical, Obstetric, Pediatric and/or Intensive Care categories of service must submit the following information:
- 4. Indicate bed capacity changes by Service: Indicate # of beds changed by action(s):

Category of Service	# Existing Beds	# Proposed Beds
<input checked="" type="checkbox"/> Medical/Surgical	207	197
<input type="checkbox"/> Obstetric		
<input checked="" type="checkbox"/> Pediatric	0	10
<input type="checkbox"/> Intensive Care		

- 3. READ the applicable review criteria outlined below and **submit the required documentation for the criteria:**

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.530(b)(1) - Planning Area Need - 77 Ill. Adm. Code 1100 (formula calculation)	X		
1110.530(b)(2) - Planning Area Need - Service to Planning Area Residents	X	X	
1110.530(b)(3) - Planning Area Need - Service Demand - Establishment of Category of Service	X		
1110.530(b)(4) - Planning Area Need - Service Demand - Expansion of Existing Category of Service		X	
1110.530(b)(5) - Planning Area Need - Service Accessibility	X		
1110.530(c)(1) - Unnecessary Duplication of Services	X		
1110.530(c)(2) - Mal-distribution	X	X	
1110.530(c)(3) - Impact of Project on Other Area Providers	X		
1110.530(d)(1) - Deteriorated Facilities			X

3. READ the applicable review criteria outlined below and **submit the required documentation for the criteria:**

Planning Area Need

Introduction

The latest update to the 2008 Bed Inventory is the Addendum to Inventory of Health Care Facilities of the Illinois Department of Public Health (IDPH) dated November 23, 2010. This update adjusts planning area bed need based on permits granted by the Health Facilities Planning and Services Review Board (HFSRB, the Board) through October 2010 and actions taken by the Board, especially the reductions to authorized beds made by the HFPSRB on April 2009 and October 2010. This Inventory reports an excess of 503 medical-surgical and pediatric beds in Planning Area A-04, the planning area in which Advocate South Suburban Hospital (Hospital), is located. The IDPH Inventory does not distinguish between adult medical-surgical bed need and pediatric bed need.

Advocate South Suburban Hospital (Hospital) is seeking approval to establish a 10-bed pediatrics category of service.

Recent Changes to Planning Area A-04 and State Pediatric Bed Inventory

Planning Area A-04 has undergone several adjustments to the pediatric bed inventory since 2008. In September 2008, HFSRB granted St. James Hospital and Health Center in Olympia Fields a permit to discontinue its 18-bed pediatric unit; in their application, the applicant noted that pediatric care would be provided through its medical-surgical beds. The other St. James Hospital in Chicago Heights, located about 5 miles from the applicant, indicated its willingness to accept pediatric patients without conditions, limitation or discrimination.

Adventist LaGrange Memorial Hospital in LaGrange was granted a permit to discontinue its 8-bed pediatric unit in April 2009. The applicant noted that pediatric care could be accommodated at Adventist Hinsdale Hospital located in Hinsdale approximately 2.2 miles from the applicant's facility.

In March 2009, MetroSouth Medical Center (formerly owned by St. Francis Hospital of Blue Island) was granted a permit to discontinue its 6-bed pediatric category of service. The applicants noted that "it is no longer practical for the applicants to continue to maintain

clinical staff” because “the community has chosen to discontinue using the hospital’s pediatric service.” MetroSouth provided pediatric transfer agreements to two other facilities.

In April 2009, the Planning Board reduced 17 pediatric beds at Little Company of Mary Hospital and 2 pediatric beds at Palos Community Hospital for a reduction of an additional 19 pediatric beds in the planning area.

Hence, in Planning Area A-04 alone, three pediatric units were discontinued; in one of these, the volume was incorporated in a sister hospital; and in another the volume was shifted to adult medical-surgical beds. In total, 51 pediatric beds were removed from the Inventory in the planning area.

This trend toward discontinuation of community-based pediatric beds and services is apparent across the State. There have been 516 pediatric beds removed from the State inventory since 2008. That includes 350 removed by Board action in April 2009 and October 2010. Of particular significance were the 166 pediatric beds removed by hospital actions, which included eight pediatric services that were totally discontinued.

Several Hospitals Elect to Continue to Provide Pediatric Services to their Local Communities

In contrast, five of Planning Area A-04 facilities have chosen to continue to provide pediatric services in their communities. These include:

- Advocate Hope Children’s Hospital, Oak Lawn
- Ingalls Memorial Hospital, Harvey
- Little Company of Mary Hospital, Evergreen Park
- Palos Community Hospital, Palos Heights , and
- St. James Hospital and Health Center, Chicago Heights

These facilities should be commended for keeping pediatric services in their communities.

Since the State does not publish a bed excess or deficit for pediatric beds alone (only in combination with adult medical-surgical beds), the applicants first reviewed the utilization of the pediatric services remaining in Planning Area A-04 to determine if current utilization reflected an excess or a deficit of pediatric beds. All of these hospitals have at least 200 medical-surgical beds; therefore their target occupancy is 90 percent. They must achieve 90 percent occupancy

for a permit to modernize the beds. The following table displays 2009 utilization of the pediatric providers in the planning area.

Utilization of Pediatric Services in Planning Area A-04

**Attachment 20, Table 1
Utilization of Pediatric Services in Planning Area A-04**

Hospital	Pediatric & Observation Days	Pediatric ADC	Peak Census	Number of Beds		Percent Target Pediatric Occupancy	Actual
				Medical Surgical	Pediatric		
Advocate Christ Medical Center	14,332	39.3	45	378	45	90.0	87.3
Ingalls Memorial Hospital	815	2.2	6	359	49	90.0	4.6
Little Company of Mary Hospital	1,224	3.4	10	208	20	90.0	16.8
Palos Community Hospital	1,090	3.0	9	306	15	90.0	19.9
St. James Hospital and Health Center, Chicago Hts.	1,534	4.2	10	230	10	90.0	42.0

Source: Hospital Profiles, 2009

From this simplistic overview of pediatric activity in Planning Area A-04 (Attachment 20, Table 1), there is no readily apparent pediatric bed deficit in the area.

However, as shown on Attachment 20, Table 2, none of the planning area hospitals would have been able to accommodate peak census if bed need were determined solely on 85 percent (the target occupancy for Advocate South Suburban Hospital) or 90 percent (the target occupancy for all of the other pediatric providers in the planning area). In fact, at most of the facilities, the number of beds needed to meet peak census exceed the available beds by a number equal to or greater than the available beds.

**Attachment 20, Table 2
Bed Need at 85.0 and 90.0 Percent Occupancy vs. Peak Occupancy**

Hospital	ADC	Bed Need at 90 %	Bed Need at 85 %	Peak Census	Difference between Bed Need at 90 Percent and Peak Census
Advocate Christ Medical Center	39.3	44	47	45	(1)
Ingalls Memorial Hospital	2.2	3	3	6	(3)
Little Company of Mary Hospital	3.4	4	4	10	(6)
Palos Community Hospital	3.0	4	4	9	(5)
St. James Hospital and Health Center, Chicago Hts.	4.2	5	5	10	(5)

Source: 2009 Hospital Profiles Provided the Average Daily Census

This analysis suggests that both 85 percent and 90 percent State Agency target occupancies may be too high, especially with small units. As noted under the response to Performance Requirements (this attachment), the State Agency rules require a minimum size of four beds in an MSA; therefore many pediatric units are small.

Use of Medical-Surgical Beds for Pediatric Patients

The State Agency's rules suggest that pediatric beds are interchangeable with medical-surgical beds. Further, the rules permit a hospital with authorized pediatric beds or a pediatric census that exceeds pediatric bed availability to admit pediatric patients (infants under the age of one year to teenagers up to the age of 14) to adult medical-surgical beds. Advocate South Suburban Hospital has used adult medical-surgical beds for pediatric patients and found the practice to be very unsatisfactory because it detracts from the care of both the children and the adults. Issues of mixing pediatric and adult patients relate to unique/special staffing needs, patient room accommodations, unit security, sound management, and patient care requirements.

Target Pediatric Occupancy Used by Other Certificate Of Need States

Although Illinois State Agency rules require using 85 percent to 90 percent occupancy to justify the need establishing or modernizing pediatric beds, this high occupancy is very different than the guidelines used by the certificate of need agencies in other states. Attachment 20, Table 3 shows pediatric target occupancy used in five other CON states.

**Attachment 20, Table 3
Target Utilization in Other States' Certificate of Need Programs**

State	Target Occupancy for Pediatric Services
Washington	55 percent for services with 1 through 49 beds
Michigan	50 percent for pediatric units with fewer than 50 beds
Alaska	65 percent for hospitals with 100 or more medical-surgical beds
Maryland	50 percent for pediatric units with an ADC of 0 to 6 65 percent for pediatric units with an ADC of 7 to 24 70 percent with an ADC of 25 to 49 beds
Kentucky	75 percent occupancy for a facility with 201 or more beds

Source: Websites for Other States

In each of these examples the target occupancy for pediatric services is substantially less than the Illinois target of 85 percent to 90 percent.

If the more conservative Maryland target occupancies were applied to Planning Area A-04 hospitals, the following pediatric beds could be justified.

**Attachment 20, Table 4
Pediatric Beds Justified Using Maryland Target Occupancy Rates**

Hospital	ADC	Bed Need at Illinois Target Occupancy 90 Percent	Bed Need at Maryland Target Occupancy	Peak Census
Advocate Christ Medical Center	39.3	44	57 beds @ 70 percent	45
Ingalls Memorial Hospital	2.2	3	5 beds @ 50 percent	6
Little Company of Mary Hospital	3.4	4	7 beds @ 50 percent	10
Palos Community Hospital	3.0	4	6 beds @ 50 percent	9
St. James Hospital and Health Center, Chicago Hts.	4.2	5	9 beds @ 50 percent	10

Source: 2009 Hospital Profiles Provided the Average Daily Census

When the Maryland pediatric bed target occupancies are applied to average daily census at the Planning Area A-04 pediatric units, peak occupancy and the need for excess beds for maintenance and other downtime is not fully addressed; even so, the alternative Maryland occupancy rates appear to be reasonable.

Rationale for Lower Pediatric Occupancy Rates

In order to understand why other states have adopted lower target occupancy rates than Illinois, the applicants first tested the implications of using 85 percent and 90 percent occupancy rates and next researched the health care literature to determine the consequences of operating at high occupancies.

Implications of Using High Occupancy Rates

Advocate South Suburban Hospital anticipates that the State Agency's target occupancy of 85 percent will be met. However, the Hospital also anticipates that operational inefficiencies will be experienced at this very high occupancy level.

$$10 \text{ beds} \times 365 \text{ days per year} = 3,650 \text{ total available bed days}$$

$$3,650 \text{ available bed days} \times 85 \text{ percent occupancy} = 3,103 \text{ days required to meet 85 percent target occupancy}$$

$$3,650 \text{ available days} - 3,103 \text{ days required to meet target occupancy} = 547 \text{ unfilled bed days per year}$$

Although this calculation suggests that there would always be at least one pediatric bed available at the Hospital, in reality, that is not the case. Large daily and seasonal fluctuations are a reality when operating a pediatric unit. Census is typically higher on weekdays, and especially on Tuesday, and peak occupancies tend to occur between January and March (corresponding to

peak activity of pediatric viral illnesses) and again between October and December. Further, extra beds are always needed to allow for maintenance and renovation. Because of daily and seasonal variations and allowance for maintenance and renovation, a 10-bed pediatric unit operating at an average of 85 percent occupancy will experience some days with over 100 percent occupancy.

Consequences of Operating at High Occupancy

Research reported in the health care literature shows that operating pediatric units at high occupancy has a negative impact on patient safety and quality of care. The following briefly describes some of these negative impacts.

1. Under normal conditions, from 50 to 70 percent of pediatric admissions arrive through a hospital's emergency department. High bed occupancy creates significant obstacles to efficient emergency department care. This causes crowding in the Emergency Department and has negative consequences for the pediatric patients:
 - If inpatient beds are not available, wait times for patients who are to be admitted in the Emergency Department are prolonged. Patients are then boarded in the Emergency Department until a bed becomes available; this is a potential threat to patient safety. (Physicians do not modify their referral or admission decisions based on bed availability.)
 - Time-critical inpatient care is delayed.
 - Hallway bed utilization may occur; this is also undesirable because of loss of patient privacy, compromise of patient dignity, and potential delivery of suboptimal care
 - Patients to be discharged from the emergency department (rather than admitted) experience longer wait times. Emergency department resources are focused on the most acutely ill patients or those being boarded until they are admitted; in turn, lower acuity patients have longer wait times for initial evaluation, in addition to longer times of care and disposition once evaluated.

- There are higher turn away rates or transfers that delay care and take patients out of the community and their essential support systems.
 - More patients leaving without being seen; this is also a patient safety issue because these patients often have urgent medical needs
2. It is crucial that a hospital be able to maintain its emergency department functions in a mass-casualty or infectious epidemic situation. Therefore, a hospital must be able to accommodate new inpatients in beds and not board them in the department.

After September 11, 2001, New York State planners used a target surge capacity formula developed by the National Disaster Medical System to determine the readiness of New York hospitals to function in future disaster situations. For this analysis, surge capacity was defined as the difference between 60 percent occupancy (typical occupancy of the State's pediatric beds) and 95 percent occupancy which was determined to be the maximum capacity of any unit.

This study determined that even with 35 percent surge capacity, there was a significant mismatch between projected demand and the existing resources for children. Based on this finding, the State concluded that any incident involving a large number of children would overwhelm inpatient resources.

3. High occupancy is associated with longer inpatient length of stay and more cost, especially for patients with less complicated conditions.
4. High occupancy of inpatient beds exacerbates the incidence of *Staphylococcus aureus* (MSRA) and other health care acquired infections. High occupancy contributes to a vicious cycle, where the occurrence of infections makes it more difficult to implement effective infection control strategies, leading to subsequent breakdown of infection control and further incidence of infections. Increased infection rates lead to longer lengths of hospital stay and added cost of providing health care.
5. High occupancy increases the risk of death for adult inpatients. No literature was found that researched a link between high occupancy and death for pediatric patients.

Hence, extremely high target occupancies lead to highly stressed pediatric resources and unwelcome side effects.

This summary was abstracted from the following documents:

- Hillier, D.F. and others. The effect of hospital bed occupancy or throughput in the pediatric emergency department. *Annals of Emergency Medicine*. 53(6): 767-776, June 2009.
- Foster, A.J. et al. The effect of hospital occupancy on emergency department length of stay and patient disposition. *Academic Emergency Medicine*. 10(2): 127-133, Feb. 2003.
- Kanter, R.K., and Moran, J.R. Hospital emergency surge capacity: an empire New York statewide study. *Annals of Emergency Medicine*. 50(3):314-319, Sept. 200.
- Clements, A., and others. Overcrowding and understaffing in modern health care systems: key determinants in methicillin-resistant *Staphylococcus aureus* transmission. *The Lancet*. 8(7): 427-434, July 2008.
- High hospital occupancy linked to higher death rates for patients. *Medical News Today*. Mar. 19, 2010.
- Lorch, S.A. and others. Impact of admission-day crowding on the length of stay of pediatric hospitalizations. *Pediatrics*. 121(4):e718-3730, Apr. 2008.

In summary, when the State's very high occupancy targets are applied to the average daily census at Planning Area A-04 pediatric providers, none could accommodate peak demand. In fact, allowable beds would be only half the number of beds needed to accommodate peak census, suggesting that the 85 percent to 90 percent occupancy rate may be an unrealistic target.

The State's rules attempt to compensate for the limitations of the high target occupancy by assuming that medical-surgical beds and pediatric beds are interchangeable and that pediatric patients can be adequately cared for on adult medical-surgical units. For the last several years, Advocate South Suburban Hospital has admitted a limited number pediatric patients to adult units and found that the practice detracted from both the adult and the pediatric care; issues relate to unique/special staffing needs, patient room accommodations, unit security, sound management, and other patient care requirements.

Other States with certificate of need rules use much lower target occupancies for pediatric/small units. When these lower occupancy rates are applied to the pediatric services in Planning Area A-04, the calculated bed need would increase and would better accommodate peak census under most situations and allow for maintenance and other downtime.

High occupancy rates do not account for large daily and seasonal swings in pediatric utilization. At high occupancy, a small unit would operate at over 100 percent of authorized capacity on some days. The consequence of this high occupancy and the inability to admit pediatric patients has a substantial negative impact on patient safety and quality of care.

Because high occupancy (typically described as more than 60 percent for community pediatric units) detracts from patient safety and quality patient care, the number of beds in most of the hospitals in Planning Area A-04 is appropriate to address the needs of the area's children and the new 10-bed pediatric service at Advocate South Suburban Hospital is necessary to serve the population of the greater Hazel Crest community.

Criterion b) 2) Planning Area Need - Service to Planning Area Residents

Pediatrics is the only category of service included in this project.

The primary purpose of this project is to provide necessary pediatric services at Advocate South Suburban Hospital (Hospital) to the children and families that reside in Planning Area A-04, and especially in the greater Hazel Crest community. Need for the proposed new pediatric service is based on physician referral letters; these letters identify 1,156 admissions from Planning Area A-04, or enough to justify 10 beds.

The proposed new service will offer an option to area residents to receive care closer to their homes. In addition to proximity, the proposed service brings a new delivery care model to the greater Hazel Crest community. This model is a collaborative partnership with Advocate Hope Children's Hospital and will bring all the benefits of their years of experience and a team of professionals who are leaders in the field, while delivering care in a personal manner in a hospital that local families have used over the years. This new service and the advanced model of care brings high quality pediatric inpatient care closer to the homes of working families and the patients of the Federally Qualified Health Centers (FQHCs) that serve the greater Hazel Crest community.

The applicants are not proposing to add beds to an existing category of service.

In Attachment 15, the applicants documented that 100 percent of the admissions used to justify the need for the project are from Planning Area A-04.

Criterion 1110.530 b) 3) Planning Area Need – Service Demand – Establishment of a Category of Service

Advocate South Suburban Hospital is proposing only one new category of service, pediatrics.

The Hospital referred 434 pediatric patients in the two years beginning June 1, 2008 and ending May 31, 2010. These referrals were made by the Hospital’s Emergency Department physicians. These physicians’ include the specialties of Emergency Medicine, Family Medicine, and Pediatrics. The details of these referrals, including an encounter number unique to that visit, the patient origin by zip code, the name and specialty of the referring physician, and the name of the recipient hospital, are in the Appendix B.

The origin of these patients included zip codes in the Health Planning Area A-04 shown in Attachment 20, Table 5.

**Attachment 20, Table 5
Zip Codes in HPA A-04 Where Transferred
Emergency Department Patients Lived**

Zip	Cities Included in Zip Code
60406	Blue Island
60409	Calumet City
60411	Sauk Village, Lynwood, South Chicago Heights, Ford Heights
60419	Dolton
60422	Flossmoor, Homewood
60423	Frankfort
60425	Glenwood
60426	Markham, Harvey
60428	Markham-2, Harvey-2
60429	Hazel Crest
60430	Homewood-2

Source: Hospital Records

The payor type for the pediatric transfers from the Emergency Department is shown in Attachment 20, Table 6. Since 50 to 70 percent of admissions will be through the Emergency Department, a high percentage of Medicaid patients will also be cared for on the proposed pediatric unit.

Attachment 20, Table 6
South Suburban Hospital
Emergency Department Transfers of
Pediatrics by Payor Type

	#	%
Advocate Health Care	4	1%
Blue Cross	1	0%
Commercial	4	1%
HMO/PPO	112	26%
Medicaid	299	69%
PHO	4	1%
Self pay	10	2%
Total	434	100%

Source: Hospital Records

A) Projected Referrals

Appendix A contains referral letters from 49 physicians. In these letters, the physicians indicated that they expect to refer 1,156 inpatients to the proposed pediatric category of service at Advocate South Suburban Hospital from Planning Area A-04; they have also pledged an additional 231 admissions from beyond the planning area. Each physician's referral volume is supported by a profile of his historical caseload by zip code. Each letter contains the physician's notarized signature; name either typed or printed, specialty, and office address. Each letter also includes verification that the physician's referrals

have not been used to support another pending or approved CON application for the subject services.

B) Projected Service Demand – Based on Rapid Population Growth

Not applicable. The demand for the proposed pediatric category of service at Advocate South Suburban Hospital is not based on rapid population growth. Further, the application requires the applicant to respond to either b) 3) B or C. The applicant has chosen to respond to b) 3) B, Projected Referrals.

Criterion b) 4) Expansion of an Existing Category of Service

Not applicable. The proposed project does not involve the expansion of an existing category of service.

Criterion 1110.530 b) 5) Service Accessibility

With the establishment of a pediatric category of service, Advocate South Suburban Hospital (Hospital) will be able to complete a comprehensive continuum of pediatric care for all but the sickest or most severely injured children in the greater Hazel Crest community. This continuum includes services already in place including primary care physicians, emergency care, and diagnostic testing. The only essential element of care that is missing is inpatient care. The Hospital proposes to provide the majority of inpatient care needed to the community and will continue to refer the small proportion of children requiring high acuity care to Advocate Hope Children's Hospital or another tertiary provider of the family's choice. By providing a high proportion of local pediatric inpatient care in the community hospital setting, the cost of providing care will be less. Margie Manning wrote in the *St. Louis Business Journal*, "Community hospitals can provide pediatric services at a lower cost than specialty children's hospitals, which must be equipped to handle highly complex cases. ...services at suburban hospitals cost about 33 to 50 percent less than identical services would cost at Cardinal Glennon Children's Hospital." Cardinal Glennon Children's Hospital is a tertiary level pediatric facility. The proposed services will be located in a community with special needs. For example, the Hazel Crest community is a very diverse community. The U.S. Department of Health and Human Services' Agency for Healthcare Research and Quality has determined that "minority children may be especially vulnerable to many of the inequities that lead to disparities, and they

may be unable to adequately safeguard their own health and advocate for themselves". This reinforces the need to have high quality pediatric care accessible.

The evidence of low income can be shown in the children who have been cared for in the Hospital's Emergency Department. In the two-years from June 2008 through May 2010, 69 percent of those pediatric patients were Medicaid recipients.

Further, the community is characterized by a higher percentage of families where all parents are in the workforce, and a higher percentage of children are cared for by grandparents. The U.S. Census of 2000 noted that of the households in the Hazel Crest area with grandchildren under 18 years old, in 45.2 percent of those homes the grandparent is responsible for the grandchildren. These characteristics all reinforce the need for a full continuum of pediatric services in the community.

Advocate South Suburban Hospital is served by public transportation; for many residents of the community, public transportation is the only means of access to health care services. For some members of the community, obtaining transportation to distant facilities is a hardship.

Further, the Hospital will continue to work with two local FQHCs in the community, one of which is located on Hospital's campus. The presence of FQHCs in the community is an indicator of the special needs of the community.

In addition, the proposed pediatric category of service will bring a new collaborative model of pediatric inpatient care that is not available in the other area community hospitals. By virtue of the relationship with Advocate Hope Children's Hospital, a well-developed program of quality care will be provided in a patient-friendly setting close to the patients' homes from the day the new service opens.

In summary, Advocate South Suburban Hospital serves a unique population characterized by diversity and qualifying for FQHCs. The proposed pediatric category of service is being developed to address the special needs of this community for high quality, accessible pediatric services close to their homes.

Criterion 1110.530 c) 1) Unnecessary Duplication/Mal-distribution

Attachment 20, Table 7, identifies all the zip codes located within an estimated 30 minutes normal travel time of Advocate South Suburban Hospital as well as the 2009 population for each zip code. Almost one million people live within approximately 30 minutes travel time of the Hospital. It is a very densely populated urban area and serves residents of Illinois and Indiana.

**Attachment 20, Table 7

Source: MapQuest, See Appendix C for original MapQuest printouts.

The applicant shall document that the project will not result in mal-distribution of services. Mal-distribution exists when the identified area (within the planning area) has an excess supply of facilities, beds and services characterized by such factors as, but not limited to:

- A) The ratio of beds to population exceeds one and one-half times the State average;
- B) Historical utilization (for the latest 12-month period prior to submission of the application) for existing facilities and services that is below the occupancy standard established pursuant to 77 Ill. Adm. Code 1100; or
- C) Insufficient population to provide the volume or caseload necessary to utilize the services proposed by the project at or above occupancy standards.

The applicant is responding to 2) A). As shown below the ratio of beds to population does not exceed one and one-half times the State average.

Ratio of Beds to Population

The State average of pediatrics beds to the population has been:

1,670 pediatric CON beds per the 2009 Illinois Hospitals Data Summary
 12,910,409 population of Illinois as of July 2009 per the US Census Bureau
 Therefore, the State ratio is 0.00013 beds per person.

Within the 30 minute drive radius, the pediatrics beds to the population are:

119 pediatric CON beds per the 2009 Illinois Hospitals Data Summary
 921,362 population as of 2009 per the US Census Bureau.
 Therefore, the Area ratio is 0.00013, the same as the State.

**Attachment 20, Table 9
 Ratio of Beds to Population**

Area	Pediatrics Beds	Population	Beds/Person
30 min radius			
Ingalls	49		
St. James	10		
Palos Community	15		
Christ/Hope	45		
Total	119	921,362	.00013
With 4 Indiana zip codes included	119	988,679	.00012
State	1670	12,910,409	.00013

Source: 2009 Hospital Profiles and Claritas, Thomson Reuters

In summary, the ratio of beds to population is not greater than 1.5 times the State ratio.

Criterion 1110.530 c) 3) Impact on Other Area Providers

The most recent data in Hospital Profiles, 2009, indicates that none of the area pediatric beds are operating at or above the occupancy standards specified in 77 Ill. Adm. Code 1100. As noted earlier in this attachment, it is extremely difficult to operate at the State Agency occupancy target of 90 percent without risking a negative effect on patient safety and quality of care.

Even so, as noted in the physician referral letters, all of the patients pledged to the proposed new unit are from Planning Area A-04, from within the Advocate network of service.

Criterion 1110.530 d) Category of Service Modernization

Not applicable. This project does not involve the modernization of an existing category of bed service.

Criterion 1110.530 e) Staffing Availability

The relevant clinical and professional staffing needs for the proposed project were considered. The proposed pediatric unit is expected to be staffed using Registered Nurses as the primary care providers. Additional support for patient care will be provided using certified nursing assistants, clerical staff, and a child life specialist. The Human Resources Division with Advocate Health Care is confident that the licensure and Joint Commission staffing requirements can be met.

Staffing for the pediatric unit will be evaluated every four hours and adjusted based on patient volume and acuity. It is expected that a minimum of two RN's will be assigned to the pediatric unit at all times. The nursing staff assigned to this unit will have specific training in the care of pediatric patients which will include developmental milestones and understanding the needs of children along the age continuum as well as competence in designated clinical and technical skills.

Nursing staff members who wish to work on the pediatric unit and do not meet the defined competencies will be assigned to participate in the orientation, education, and training programs offered at Advocate Hope Children's Hospital. These programs are competency focused and will include classroom as well as clinical experiences. The education and training for pediatric nursing staff will be an ongoing partnership between Advocate South Suburban Hospital and Advocate Hope Children's Hospital. It is intended to ensure that all staff remains competent in the care of children from infants to adolescents.

Recruitment of nursing staff is expected to take approximately six to eight weeks. The candidate pool for these positions includes nurses with pediatric experience as well as new graduates and nurses with experience in other clinical settings. Current nursing staff in good standing will be eligible and considered for transfer into these positions. All staff, regardless of experience, must meet the competency requirements prior to caring for pediatric patients. A qualified child life specialist will also be recruited.

The unit is expected to be staffed with physicians functioning as hospitalists. They will function within the oversight of Advocate Hope Children's Hospital, to assure they have the current skills and competencies required to care for pediatric patients. The proposed project will draw on the supply of Advocate Medical Group for hospitalists, as needed to augment the hospitalists' staff.

Criterion 1110.530(f) - Performance Requirements

Performance Requirement - Bed Capacity Minimum

The proposed 10-bed unit will exceed the minimum size of four beds within an MSA.

Criterion 1110.530(g) - Assurances

Assurances Regarding Target Occupancies

The signed statement is included which attests to the understanding that the applicant will achieve the occupancy standard.

 Advocate South Suburban Hospital

17800 South Kedzie Avenue || Hazel Crest, IL 60429 || T 708.799.8000 || advocatehealth.com

December 15, 2010

Mr. Dale Galassie
Chairman
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, 2nd Floor
Springfield, Illinois 62761

Re: Advocate South Suburban Hospital—Pediatric Category of Service
Statement of Assurance

Dear Chairman Galassie:

This letter provides the Statement of Assurance in connection with our application for a permit to establish a pediatric category of service.

We are providing the following Statement of Assurance pursuant to Section 1110.530 g) of the Board's rules. We hereby state that it is our understanding, based upon information available to us at this time, that by the second year of operation after project completion, Advocate South Suburban Hospital reasonably expects to operate 10 pediatric beds at 85 percent occupancy, which is the occupancy specified in 77 Ill. Adm. Code 1100.520 6) c).

Very truly yours,

Michael Englehart
President

138

ATTACHMENT 20

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

VIII. - 1120.120 - Availability of Funds **This section is not applicable. Advocate Health and Hospitals Corporation bonds have been rated by Standard and Poor's as AA. Moody's as Aa2, and Fitch as AA which qualifies the applicants for the waiver.**

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: Indicate the dollar amount to be provided from the following sources:

_____	a) Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to: <ol style="list-style-type: none"> 1) the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and 2) interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion
_____	b) Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
_____	c) Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
_____	d) Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including: <ol style="list-style-type: none"> 1) For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated; 2) For revenue bonds, proof of the feasibility of securing the specified amount and interest rate; 3) For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.; 4) For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment; 5) For any option to lease, a copy of the option, including all terms and conditions.
_____	e) Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
_____	f) Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
_____	g) All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
_____	TOTAL FUNDS AVAILABLE

APPEND DOCUMENTATION AS ATTACHMENT-39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

November 25, 2009

Mr. Dominic J. Nakis
Senior Vice President – Chief Financial Officer
Advocate Health Care Network
2025 Windsor Drive
Oak Brook, IL 60521-0222

Dear Mr. Nakis:

We wish to inform you that Moody's Investors Service has assigned Aa2 ratings to Advocate Health Care Network's Series 2010A,B,C,&D fixed rate bonds to be issued by the Illinois Finance Authority. The rating outlook remains stable. At this time, we are upgrading the ratings on the outstanding debt to Aa2 and Aa2/VMIG1 from Aa3 and Aa3/VMIG1.

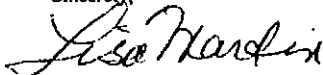

Moody's will monitor these ratings and reserves the right, at its sole discretion, to revise or withdraw these ratings at any time.

The ratings as well as any other revisions or withdrawals thereof will be publicly disseminated by Moody's through the normal print and electronic media and in response to verbal requests to Moody's rating desk.

In order for us to maintain the currency of our rating, we request that you provide ongoing disclosure, including annual and quarterly financial and statistical information.

Should you have any questions regarding the above, please do not hesitate to contact me.

Sincerely,

Lisa Martin
Senior Vice President

Affirmed

Rationale

Standard & Poor's Ratings Services assigned its 'AA' long-term rating to the Illinois Health Facilities Authority's \$237.525 million series 2009A-D hospital revenue and refunding bonds issued on behalf of Advocate Health Care Network (AHCN). Also, Standard & Poor's affirmed its 'AA' long-term ratings and, where applicable, 'AA/A-1+' ratings on various series of bonds issued by the authority on behalf of AHCN.

The long-term rating on AHCN reflects its strength as Chicago's largest health system, with total operating revenue of \$3.7 billion in 2008 and a balance sheet with \$4.9 billion of total assets, including \$2 billion of unrestricted liquid assets. Total long-term debt in 2008 was \$964 million. This includes debt classified on the audited financial statements as current liability subject to short-term remarketing agreements, which Standard & Poor's treats as long-term debt for the purpose of our debt-related ratios.

The 'AA' long-term ratings further reflect AHCN's:

- Leading 15% market share through the first six months of 2009 and an admissions total that has increased 7.7% to 116,986 in the first nine months of the year in part due to the acquisition of Advocate Condell Medical Center in Dec. 2008;
- Position as Chicago's largest and most successfully integrated health delivery system, with approximately 3,400 licensed beds and more than 5,200 physicians on the active staff of its hospitals, of which 3,400 are affiliated with Advocate Health Partners, a managed-care contracting affiliate of AHCN;
- Good financial profile, with a 3.4% operating margin for the nine months ended Sept. 30, 2009;
- Solid 6.1x pro forma debt service coverage ratio for the first nine months of 2009; and
- Adequate 33% pro forma long-term debt leverage and liquidity of 199 days' cash on hand (181% cash to pro forma debt) as of Sept. 30, 2009.

AHCN's challenges include very strong competition and incorporating another acquisition into its fold. Advocate has agreed to a merger with BroMenn Health System (A-), located in Normal, Ill. The new debt issuance will be used to refund \$55 million of BroMenn debt and to fund a bed tower project for BroMenn as well as some capital for Advocate. Also, Advocate is advance refunding \$121 million series 2008B bonds with the issuance.

The short-term 'A-1 +' rating assigned to the series 2003A and C bonds reflects the credit strength inherent in the 'AA' long-term rating on AHCN and the sufficiency of AHCN's unrestricted assets in providing liquidity support for

2

Standard & Poor's. All rights reserved. No reprint or dissemination without S&P's permission. See Terms of Use/Disclaimer on the last page.

12/02/2009

the series 2003A and C bonds, which were issued as multimodal bonds with initial put periods occurring in January, March, and July of each year.

Standard & Poor's Fund Ratings and Evaluations Group assesses the liquidity of AHCN's unrestricted investment portfolio to determine the adequacy and availability of these funds to guarantee the timely purchase of the series 2003A and C bonds tendered in the event of a failed remarketing. Standard & Poor's monitors the liquidity and sufficiency of AHCN's investment portfolio on a monthly basis.

AHCN's total operating revenue rose 8.3% to \$2.9 billion for the nine months ended Sept. 30, 2009, compared with the year-earlier period. The strong revenue growth is generally due to the addition of Condell Health Network. Advocate posted an operating margin of 3.4% for the first nine months of 2009, compared with 2.4% in the year-earlier period. Management has focused on expenses and has seen some savings in labor and pension cost. Also, the monies that it receives from the Illinois Provider Tax program were increased. For the nine-month period, AHCN had pro forma maximum annual debt service coverage of 6.1x, which is solid for the rating.

We consider AHCN's balance sheet adequate for the rating. At Sept. 30, 2009, pro forma leverage was 32.9%, cash to pro forma debt was 181%, and liquidity was 199 days.

AHCN entered into multiple floating- to fixed-rate swap agreements that effectively converted the \$226.35 million series 2005 variable-rate auction bonds to fixed rates of 3.19% or 3.2%. AHCN did the same in September 2007, effectively converting the \$348.3 million series 2007B1-3 variable-rate auction bonds to a fixed rate of 3.6%. In April, AHCN refunded all of the series 2005 and 2007 auction-rate securities, totaling \$623.2 million, and rolled forward the swaps in place for those issues to cover the corresponding series 2008 bond issues.

Standard & Poor's issued AHCN a Debt Derivative Profile (DDP) overall score of '1.5' on a four-point scale, with '1' representing the lowest risk. The overall score of '1.5' reflects our belief that these swaps carry very low risk of creating any financial loss due to collateralization or early termination from credit or economic reasons.

Outlook

The stable outlook reflects AHCN's market leadership, extensive physician network, and solid financial profile. Any consideration of a higher rating would be tied to the realization of stronger patient volumes on a year-over-year basis and a marked improvement in liquidity, alongside minimization of additional debt issuance so that leverage remains below 30%. If patient volumes come under pressure because of increased competition, profitability declines, decreased liquidity, or substantially increased debt leverage, we could lower the rating.

Bromenn Health System Merger

BroMenn, located in Normal, Ill., operates a 224-staffed-bed hospital and maintains a leading market share. It also operates a 25-bed critical-access hospital in Eureka, Ill. BroMenn's preliminary net patient service revenue for the fiscal year ended June 30, 2009, was \$209.6 million, and total assets were \$287.9 million. BroMenn would represent 6.1% of the combined AHCN's net patient service revenue and 5.7% of total assets.

BroMenn comprises BroMenn Regional Medical Center (BRMC), Eureka Community Hospital, BroMenn Physician Management Corp., BroMenn Provider Network, and BroMenn Foundation (BF). BRMC and ECH's combined

www.standardandpoors.com/ratingsdirect

Standard & Poor's. All rights reserved. No reprint or dissemination without S&P's permission. See Terms of Use/Disclaimer on the last page.

3

operations are referred to as BroMenn Hospitals (the Hospitals). BPMC employs 47 physicians, seven nurse practitioners, and three physician assistants across 15 care sites.

The merger of BroMenn is expected to offer benefits to AHCN through accretive operating cash flow margins, administrative synergies, and entrance into the competitive central Illinois market. Most notable are BroMenn's unaudited 2009 fiscal year-end (June) operating margin of 5.5%, 183 days' cash on hand, and dominant share of the Bloomington-Normal market.

BroMenn would give AHCN an immediate foothold in the competitive central Illinois market. The Bloomington-Normal metropolitan area is ideally situated amid four other sizable markets in central Illinois. Peoria, Ill., is approximately 40 miles to the northwest and has a population of 114,000. Champaign-Urbana is 50 miles to the southeast and has a total population of 195,000. Springfield, the capital of Illinois, is 50 miles to the southwest and has a population of 116,000. Decatur is 40 miles south and has a population of 82,000. Including Bloomington-Normal, these five metropolitan areas have eleven major hospitals serving a population of 630,000.

Two hospitals exist within the Bloomington-Normal primary service area: BRMC and OSF St. Joseph Medical Center (OSF St. Joseph). OSF St. Joseph operates 157-staffed beds and is a Level II trauma center.

Within the primary service area, BRMC maintains a commanding 47% market share, compared with 29% for OSF St. Joseph. Eight hospitals split the remaining 24%.

IX. 1120.130 - Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver This section is not applicable. Advocate Health and Hospitals Corporation bonds have been rated by Standard and Poor's as AA, Moodys as Aa2, and Fitch as AA which qualifies the applicants for the waiver.

The applicant is not required to submit financial viability ratios if:

4. All of the projects capital expenditures are completely funded through internal sources
5. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
6. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS ATTACHMENT- 40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. 1120.130 - Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding
This section is not applicable. Advocate Health and Hospitals Corporation bonds have been rated by Standard and Poor's as AA, Moodys as Aa2, and Fitch as AA which qualifies the applicants for the waiver.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion. When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT 41, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements This section is not applicable. Advocate Health and Hospitals Corporation bonds have been rated by Standard and Poor's as AA, Moodys as Aa2, and Fitch as AA which qualifies the applicants for the waiver.

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE											
Department (list below)	A	B	C		D		E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)			
Contingency											
TOTALS											
* Include the percentage (%) of space for circulation											

Cost and Gross Square Feet By Service

	Cost/Square Foot		Gross Sq ft.		Gross Sq ft.		Const.\$	Mod. \$	Total Cost
	New	Mod	New	Circ.	Mod.	Circ.	A x C	B x E	G + H
CLINICAL (Reviewable)									
Pediatric Unit					7,978			\$ 559,197	\$ 559,197
Subtotal		\$ 70.09			7,978			\$ 559,197	\$ 559,197
Contingency for Pediatric Unit								\$ 72,778	\$ 72,778
Clinical Total		\$ 79.21			7,978			\$ 631,975	\$ 631,975
NON CLINICAL (Non Reviewable)									
Family Support		\$ 70.07			420			\$ 29,431	\$ 29,431
Circulation						577			
Contingency for Family Support								\$ 3,843	\$ 3,843
Non-clinical Subtotal		\$ 33.37			420	577		\$ 33,274	\$ 33,274
Subtotal		\$ 74.12			8398	577		\$ 665,249	\$ 665,249
Infrastructure								\$ 464,850	\$ 464,850
Contingency for Infrastructure								\$ 60,696	\$ 60,696
Subtotal								\$ 525,546	\$ 525,546
Non-clinical Total		NA			420	577		\$ 558,820	\$ 558,820
Total		\$ 132.68*			8,398	577		\$ 1,190,795	\$ 1,190,795

*Includes infrastructure with no designated square footage.

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

F. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT - 42, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

See Attachment 42, Exhibit 1 for the Statement of Conditions of Debt. See Attachment 42, Exhibit 2, for the Projected Operating Costs and the Total Effect of the Project on Capital Costs.

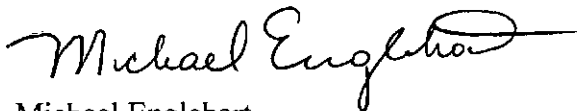

December 3, 2010

Mr. Dale Galassie
Chairman
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, IL 62761

Dear Mr. Galassie:

This letter is to attest to the fact that the selected form of debt financing for the proposed Advocate South Suburban Hospital Pediatrics project will be at the lowest net cost available or if a more costly form of financing is selected, that form is more advantageous due to such terms as prepayment privileges, no required mortgage, access to addition debt, term financing costs, and other factors.

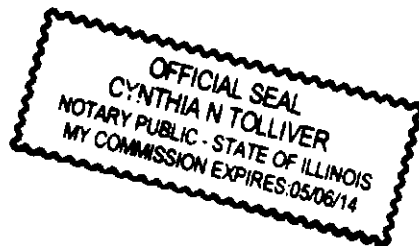

Sincerely,

Michael Englehart
President

Subscribed and sworn before me this 3 day of December, 2010

Cynthia N. Tolliver

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

XI. Safety Net Impact Statement

Through a wide variety of outreach initiatives to the greater Hazel Crest-Markham community, Advocate South Suburban Hospital (Hospital) provides safety net services that improve the health and well being of the area residents. In this way, the Hospital's focus extends far beyond its physical walls and into the diverse neighborhoods that comprise the Hospital's community.

The following is a brief overview of safety net initiatives provided by the Hospital.

- **Aunt Martha's Community Health Center**

Advocate South Suburban Hospital (Hospital) is a provider site for an Aunt Martha's Community Health Center (Center). The Center provides primary care, including care for children and adolescents, OB/GYN, and dental care to community residents. The Center's services are available to all residents regardless of insurance coverage; the Center accepts Medicaid, Medicare, and All Kids; the Center also serves the uninsured through special arrangements. To accommodate the special needs of its local patients, Aunt Martha's is open Monday through Friday from 8:30 AM to 6:30 PM, Saturday from 10:00 AM to 4:00 PM, and Sunday from 9:00 AM to 1:00 PM.

Approximately two-thirds of the patients to the Aunt Martha's location on the Hospital's campus are from the four zip code areas closest to the Hospital—Hazel Crest, Markham, Country Club Hills, and Chicago Heights.

The Hospital partners with Aunt Martha's to ensure that continuity of care is available to patients. This is done by assuring that preventive and routine care are available; with early intervention, more costly care can often be avoided. In addition, the Hospital contributes financially to the Center.

- **Access Community Health Network**

ACCESS is Chicagoland's largest private primary health care provider to the underserved, operating more than 50 community health centers in underserved, low-income neighborhoods throughout the Chicago region. ACCESS has two Federally Qualified Health Centers (FQHCs) near the Hospital that also serve the southern suburbs. The Centers are in Blue Island and Chicago Heights; the closest is in Chicago Heights. The Hospital and ACCESS have a strong working relationship to enhance care to ACCESS patients.

- Advocate South Suburban Hospital Outreach Services

As unique community needs are identified, Advocate South Suburban Hospital has responded with services, such as Level II Trauma and behavior health services.

The Hospital has identified and responds continually to other needs such as health screenings, community education, immunization programs, and school-based health care:

- Health Screenings

The Hospital provides free screening for the community, including cholesterol, blood pressure, glucose and prostate cancer screenings. Screenings are provided at the Hazel Crest Park District, Senior Catholic Charities, Waterford Estates, and Victory Center. Regular health screenings and early detection are important to successful treatment.

The Hospital hosts “An Affair of the Heart,” an event that features health screenings related to cardiovascular disease—blood pressure, cholesterol lipid profiles, glucose, and a BMI assessment.

- Diabetes Education

The demographics of the Hospital’s service area indicate a high incidence of diabetes in the population. In addition to free glucose screenings, the Hospital offers free diabetes education classes to help diabetics and their families manage their disease.

- Immunization Programs

- Services to Local Schools

Advocate South Suburban Hospital partners with several local elementary and high schools to provide health education, screenings, and lectures for students, parents, and staff.

Advocate South Suburban Hospital Contributes to Community Not-For-Profit Organizations

- Monetary Support

The Hospital provides monetary support to community partners including The Cancer Support Center, Crisis Center for South Suburbia, United Way of South/Southwest Chicago, Glenwood School for Boys and Girls, the Rich Township Pantry, South Suburban Family Shelter, South Suburban PADS, the American Diabetes Association, Avon Walk for Breast Cancer, and Habitat for Humanity.

- The Hospital contributes equipment, supplies, and meeting space for community organizations.
- Training of Health Professionals

Advocate South Suburban Hospital is involved in the education of students pursuing health care professions in the following fields; nursing, radiology, physical therapy, pharmacy, laboratory, and respiratory therapy. The Hospital partners with Moraine Valley Community College, Prairie State College, Joliet Junior College, St. Xavier University, South Suburban College, and the University of Illinois, College of Pharmacy.

The Hospital's provision of charity care and other uncompensated care, volunteer services, and language assistance services complement the above brief summary of the extensive safety net initiatives provided by Advocate South Suburban Hospital.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three audited fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

ATTORNEY GENERAL

RE: Status of Advocate Health & Hospitals Corporation CO # 01058290

Dear Registrant:

This letter is pursuant to your request that the Attorney General confirm the status of Advocate Health & Hospitals Corporation under the Charitable Organization Laws.

This organization is currently registered with the Attorney General's Charitable Trusts and Solicitations Bureau as CO# 01058290. It is current in the filing of its financial reports, having filed its report for the period ended December 31, 2008, and has received an extension of time until November 15, 2010 to file its financial report for the period ended December 31, 2009. Please let us know if you require further information.

Sincerely,

A handwritten signature in cursive script that reads "Catherine Reilly".

Catherine Reilly, Compliance Officer
Office of the Illinois Attorney General
Charitable Trust Bureau

ATTACHMENT 44

SUMMARY OF ADVOCATE HEALTH CARE'S CHARITY CARE POLICY¹

It is the policy of Advocate Health Care to provide financial assistance to patients in need. Advocate hospitals will extend medically necessary services free-of-charge, or at a reduced amount, to an individual who is eligible under the following criteria. This summary applies to patients of Advocate Hospitals (i) who have no private health insurance or public health coverage (such as Medicare, Medicaid or other government programs) or (ii) whose co-payments and deductibles equal or exceed \$5,000 in a calendar year.

Charity Care decisions are based on the family's "gross income," which means gross earnings reportable to the federal government. An uninsured patient whose family's gross income does not exceed six times the Federal Poverty Level ("FPL") may qualify for Charity Care. The FPL varies with the size of the family and is updated annually. For example, as of January 23, 2009, an uninsured family of four may be eligible for Charity Care if its household income is less than \$132,300 per year. You may also be granted Charity Care if your family income is higher than six times FPL if you can show extenuating financial circumstances (such as large outstanding medical bills).

The following table will be used to make the Charity Care determinations:

Multiple of FPL	0 - 2	2 - 3	3 - 4	4 - 6 <small>(Uninsured Illinois residents with a balance > \$300)</small>
Expected Payment	\$0	Hospital's Cost of Services Provided	Hospital's Cost of Services Provided	135% of the Hospital's Cost of Services
Maximum Expected Payment	\$0	5% of Family Income	10% of Family Income	25% of Family Income

To qualify for Charity Care, you must complete the attached application form and mail or deliver it to the Advocate Hospital where you were treated. All communications with the patient or family members will be handled in strict confidence and in a compassionate manner. The application requires you to certify your family's current monthly income, and provide proof in the form of W-2 forms, tax return or pay stubs if available. If you cannot provide such documents, the determination will be based on your certification of your family's income. It is your responsibility to cooperate with Advocate by filling out the application and providing the requested information if possible, and also by helping Advocate seek payment from health insurers or the government if such payment might be available. While your application for Charity Care is pending, Advocate will not try to collect the bills for which you are seeking assistance.

If you apply for Charity Care, the Advocate Hospital will notify you whether your application has been approved or denied. If you disagree with Advocate's decision, you may appeal the decision to the Ombudsperson within 45 days. The Ombudsperson is Kathleen Hobbins and can be reached at (630) 575-3446. You may also contact the Ombudsperson if you have questions about the Charity Care process, or you may contact the Advocate Hospital's financial counselors at 708-213-3375.

Return your completed application and documents to the hospital at the following address:

Advocate South Suburban Hospital
ATTN: Business Office / Financial Counselor
17800 Kedzie Avenue
Hazel Crest, IL 60429

¹ This is a summary created pursuant to a settlement agreement in *Cristiani v. Advocate Health Care* and applies only to patients covered by that agreement. If there are any differences between this summary and the settlement agreement, the terms of the settlement agreement control. This summary does not guarantee or grant any third party or person any rights, claims, benefits or privileges beyond those that may exist under the *Cristiani* settlement. This summary does not constitute an offer to any particular patient and creates no contractual rights or obligations.

Appendix A

Physician Referrals

Physician Referral Process

Appendix A includes all the letters from physicians stating their intention to refer patients to Advocate South Suburban Hospital's proposed pediatric unit. Each physician's referral letter is supported by that physician's activity profile.

The physician's profile shows all patients living in the primary service areas for Advocate Christ/Hope Children's Hospital or Advocate South Suburban Hospital and who were admitted to those hospitals during the 12 months between April 1, 2009 and March 31, 2010. That time period was the most recent 12 months of data available through COMPdata at the time the process of preparing this application began.

Patients who were admitted to other hospitals were excluded, and patients who were classified as neonatal, psychiatric or substance abuse were also excluded as they are not expected to be admitted to the proposed new pediatric unit.

The Health Insurance Portability and Accountability Action (HIPAA) rules now restrict access to the actual patient identifier number. So, in order to demonstrate the fact that each record was unique to one admission, Microsoft Excel was used to assign a number to each admission. Those numbers are shown on the profiles as the Patient ID.

The primary service area for Advocate South Suburban Hospital is completely inside the Health Planning Area A-04. The majority of the Advocate Christ/Hope Children's Hospital service area is also within the A-04 boundaries with a few exceptions. While they only represented 17 percent of the admissions, they were not considered in the tally of patient referrals to support the target utilization.

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patlent ZIP	Total
Akhter, Javeed	Christ	60409 Calumet City	1
		60411 Chicago Heights	10
		60422 Flossmoor	1
		60452 Oak Forest	1
	Christ Total		13
Akhter, Javeed Total			13

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 13

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Akhter, Javeed	Christ	60620 Auburn Park	1
		60638 Clearing	1
		60643 Morgan Park	1
	Christ Total		3
Akhter, Javeed Total			3

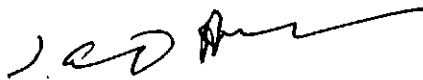

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 3

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

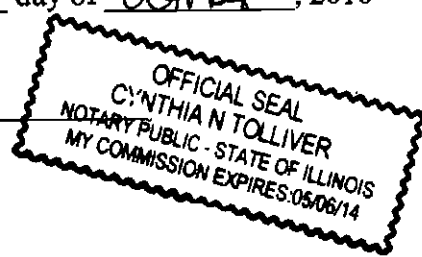

Akhter, Javeed

APPENDIX A
 PHYSICIAN REFERRALS

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10.6.10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Canner, Jason Andrew	Christ	60411 Chicago Heights	4
		60423 Frankfort	1
		60426 Harvey	2
		60461 Olympia Fields	1
		60473 South Holland	2
		60487 Tinley Park	2
		Christ Total	12
Canner, Jason Andrew Total		12	

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 12

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Canner, Jason Andrew	Christ	60406 Blue Island	1
		60415 Chicago Ridge	2
		60453 Oak Lawn	1
		60455 Bridgeview	1
		60457 Hickory Hills	1
		60459 Burbank	3
		60467 Orland Hills	1
		60620 Auburn Park	1
		60628 Roseland	1
		60629 Chicago Lawn	1
		60632 Elsdon	1
		60638 Clearing	2
	Christ Total		16
Canner, Jason Andrew Total			16

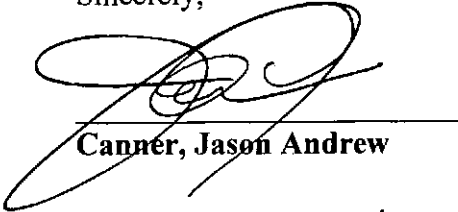

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 0

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Canner, Jason Andrew

Specialty Hem/Onc.

Address 4440 W. 95th Street, OAK LAWN, IL 60130

192-a APPENDIX A PHYSICIAN REFERRALS

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10/13/10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total	
Cifuentes, Enrique G.	Christ	60411 Chicago Heights	3	
		60419 Dolton	1	
		60426 Harvey	3	
		60428 Markham	1	
		60429 Hazel Crest	2	
		60443 Matteson	1	
		60466 Park Forest	1	
		60471 Richton Park	1	
		60477 Tinley Park	3	
		60478 Country Club Hill	1	
		60487 Tinley Park	1	
		Christ Total		18
		Cifuentes, Enrique G. Total		18

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 18

I have also seen and admitted the following patients residing in the Christ/Hope

Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Cifuentes, Enrique G.	Christ	60406 Blue Island	1
		60415 Chicago Ridge	2
		60448 Mokena	1
		60453 Oak Lawn	2
		60458 Justice	3
		60465 Palos Hills	1
		60469 Posen	1
		60617 South Chicago	2
		60619 Grand Crossing	2
		60620 Auburn Park	2
		60621 Englewood	1
		60628 Roseland	1
		60629 Chicago Lawn	7
		60632 Elsdon	1
		60636 Ogden Park	1
		60638 Clearing	1
		60643 Morgan Park	2
		60652 Ashburn	1

		60649 South Shore	1
	Christ Total		38
Cifuentes, Enrique G. Total			38

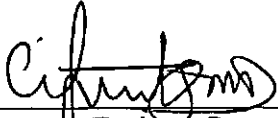

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 38

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Cifuentes, Enrique G.

APPENDIX A
 PHYSICIAN REFERRALS

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10-19-10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Connell, Lynette C.	Christ	60409 Calumet City	2
		60411 Chicago Heights	4
		60419 Dolton	5
		60423 Frankfort	4
		60425 Glenwood	1
		60426 Harvey	9
		60428 Markham	4
		60429 Hazel Crest	3
		60443 Matteson	4
		60445 Midlothian	3
		60452 Oak Forest	3
		60466 Park Forest	3
		60471 Richton Park	4
		60473 South Holland	5
		60478 Country Club Hill	5
Christ Total		59	

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients for the primary service area:

Annual Referrals from South Suburban Hospital Service Area 59

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

Connell, Lynette C.	Christ	60406 Blue Island	7
		60415 Chicago Ridge	3
		60438 Lansing	3
		60441 Lockport	3
		60453 Oak Lawn	4
		60456 Hometown	1
		60457 Hickory Hills	1
		60459 Burbank	1
		60462 Orland Park	2
		60472 Robbins	1
		60482 Worth	1
		60491 Homer Glen	1
		60617 South Chicago	11
		60619 Grand Crossing	2
		60620 Auburn Park	6
		60621 Englewood	3
		60628 Roseland	8
		60629 Chicago Lawn	8
		60633 Hegewisch	3
		60636 Ogden Park	1
		60638 Clearing	2
		60643 Morgan Park	5
		60652 Ashburn	8
		60655 Mount Greenwood	1
		60803 Alsip	1
		60805 Evergreen Park	2
		60827 Riverdale	9
		60649 South Shore	1
	Christ Total		99

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 99

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

L. Connell

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10/12/10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Delach, Anthony Clifford	Christ	60445 Midlothian	2
		60452 Oak Forest	1
		60477 Tinley Park	1
	Christ Total		4
Delach, Anthony Clifford Total			4

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area ~~6~~ 4

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Delach, Anthony Clifford	Christ	60462 Orland Park	1
		60629 Chicago Lawn	1
	Christ Total		2
Delach, Anthony Clifford Total			2

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area ~~100~~ 2

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Delach Anthony Clifford

Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Du Mais, Brian	Christ	60430 Homewood	6
		60445 Midlothian	2
		60452 Oak Forest	1
		60477 Tinley Park	6
		Christ Total	15
Du Mais, Brian Total			15

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 15

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Du Mais, Brian	Christ	60441 Lockport	1
		60458 Justice	1
		60462 Orland Park	1
		60463 Palos Heights	1
		60491 Homer Glen	2
		60655 Mount Greenwood	3
	Christ Total		9
Du Mais, Brian Total			9

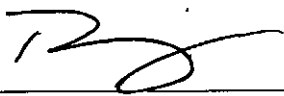

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 3

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Du Mais, Brian

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 9-23-10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Dyer, Heather L.	Christ	60409 Calumet City	2
		60411 Chicago Heights	4
		60419 Dolton	3
		60422 Flossmoor	3
		60426 Harvey	4
		60428 Markham	2
		60429 Hazel Crest	4
		60443 Matteson	1
		60452 Oak Forest	2
		60466 Park Forest	2
		60471 Richton Park	1
		60473 South Holland	1
		60477 Tinley Park	4
		60478 Country Club Hill	3
			Christ Total
Dyer, Heather L. Total			36

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 30

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSP	Patient ZIP	Total
Dyer, Heather L.	Christ	60438 Lansing	2
		60451 New Lenox	1
		60453 Oak Lawn	5
		60458 Justice	2
		60459 Burbank	2
		60462 Orland Park	3
		60465 Palos Hills	1
		60467 Orland Hills	2
		60469 Posen	2
		60472 Robbins	2
		60482 Worth	1
		60491 Homer Glen	1
		60617 South Chicago	8
		60619 Grand Crossing	2
		60620 Auburn Park	6
		60621 Englewood	2
		60628 Roseland	6
		60629 Chicago Lawn	1
		60632 Elsdon	1
		60633 Hegewisch	1
		60643 Morgan Park	5
		60652 Ashburn	1
		60655 Mount Greenwood	3
		60803 Alsip	2
		60805 Evergreen Park	1
		60827 Riverdale	4
	Christ Total		67
Dyer, Heather L. Total			67

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 10

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Heather L. Dyer

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Galley, Brett R.	Christ	60411 Chicago Heights	1
	Christ Total		1
Galley, Brett R. Total			1

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 1

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Galley, Brett R.	Christ	60448 Mokena	1
		60628 Roseland	1
		60643 Morgan Park	1
	Christ Total		3
Galley, Brett R. Total			3

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 2

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Galley, Brett R.

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10/14/10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Germino, Kevin P.	Christ	60423 Frankfort	5
		60430 Homewood	1
		60445 Midlothian	2
		60477 Tinley Park	7
		60487 Tinley Park	1
		Christ Total	
Germino, Kevin P. Total			16

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 16

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Germino, Kevin P.	Christ	60438 Lansing	1
		60441 Lockport	1
		60448 Mokena	2
		60451 New Lenox	3
		60462 Orland Park	5
		60463 Palos Heights	1
		60482 Worth	1
		60491 Homer Glen	2
		60629 Chicago Lawn	1
	Christ Total		17
Germino, Kevin P. Total			17

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 17

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Germino, Kevin P.

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date Oct. 13, 2010

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Hernandez, Gonzalo G.	Christ	60409 Calumet City	1
	Christ Total		1
Hernandez, Gonzalo G. Total			1

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 1

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Hernandez, Gonzalo G.	Christ	60652 Ashburn	1
	Christ Total		1
Hernandez, Gonzalo G. Total			1

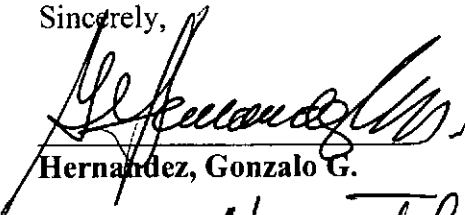

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 3 /

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Hernandez, Gonzalo G.

Advocate South Suburban Hospital Pediatrics CON Project'
Physician Referral Letter

Date 10/13/10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Massih, Lyna	Christ	60423 Frankfort	1
		60452 Oak Forest	1
		60487 Tinley Park	1
	Christ Total		3
Massih, Lyna Total			3

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 3

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Massih, Lyna	Christ	60453 Oak Lawn	2
		60462 Orland Park	1
		60652 Ashburn	1
		60655 Mount Greenwood	1
		60805 Evergreen Park	3
	Christ Total		8
Massih, Lyna Total			8

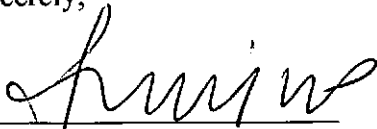

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 8

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Massih Lyna

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10/6/10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Miller, Kenneth	Christ	60409 Calumet City	1
	Christ Total		1
Miller, Kenneth Total			1

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area /

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Miller, Kenneth	Christ	60803 Alsip	1
	Christ Total		1
Miller, Kenneth Total			1

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 1

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

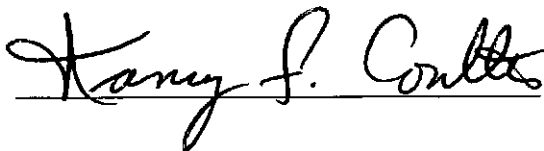

Miller, Kenneth

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Reis, Megan Kathleen	Christ	60477 Tinley Park	1
	Christ Total		1
Reis, Megan Kathleen Total			1

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 10 /

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Reis, Megan Kathleen	Christ	60441 Lockport	1
		60655 Mount Greenwood	1
	Christ Total		2
Reis, Megan Kathleen Total			2

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 5

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Megan K Reis

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area ~~12~~

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

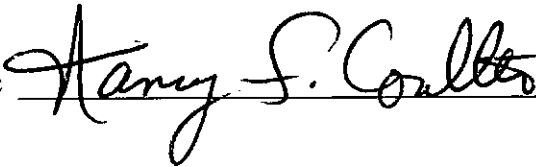

Sawlani, Omprakash D.

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10/21/10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Spann, Ananya T.	Christ	60423 Frankfort	2
		60452 Oak Forest	2
		60477 Tinley Park	4
		60487 Tinley Park	1
	Christ Total		9
Spann, Ananya T. Total		9	

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 9

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Spann, Ananya T.	Christ	60438 Lansing	4
		60441 Lockport	1
		60451 New Lenox	2
		60456 Hometown	1
		60462 Orland Park	1
		60491 Homer Glen	1
		60655 Mount Greenwood	1
		Christ Total	
Spann, Ananya T. Total		11	

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area //

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Anany T. Spann, MD

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10/13/10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Suan, Evan B.	Christ	60426 Harvey	1
		60452 Oak Forest	1
		60466 Park Forest	1
		60477 Tinley Park	1
		Christ Total	4
	South Suburban	60426 Harvey	1
		60429 Hazel Crest	1
		60478 Country Club Hill	1
		South Suburban Total	3
Suan, Evan B. Total			7

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 7

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Suan, Evan B.	Christ	60406 Blue Island	2
		60456 Hometown	1
		60462 Orland Park	1
		60465 Palos Hills	1
		60619 Grand Crossing	1
	Christ Total		6
Suan, Evan B. Total			6

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

E B Suan
Suan, Evan B.

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at
Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Swenson, Erik Andrew	South Suburban	60478 Country Club Hill	1
	South Suburban Total		1
Swenson, Erik Andrew Total			1

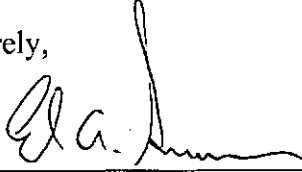

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 1

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Swenson, Erik Andrew

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 10/12/10

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Williams, Keith G.	South Suburban	60409 Calumet City	1
		60423 Frankfort	1
		60426 Harvey	2
		60428 Markham	2
		60429 Hazel Crest	1
		60430 Homewood	1
		60443 Matteson	2
		60487 Tinley Park	2
		South Suburban Total	
Williams, Keith G. Total		12	

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 12

I have also seen and admitted the following patients residing in the Christ/Hope Children's Hospital primary service area:

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
----------------	----------	-------------	-------

Williams, Keith G.	South Suburban	60619 Grand Crossing	1
	South Suburban Total		1
Williams, Keith G. Total			1

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients residing outside the primary service area.

Annual Referrals from outside the South Suburban Service Area 1

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

Keith G. Williams MD

Advocate South Suburban Hospital Pediatrics CON Project
Physician Referral Letter

Date 11/9/2010

Mr. Dale Galassie, Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Re: Expected Referral Volume to Proposed New Pediatric Category of Service at
Advocate South Suburban Hospital

Dear Mr. Galassie:

I am writing in support of the addition of the Pediatrics category of service at Advocate South Suburban Hospital. In the 12 months from April 1, 2009 to March 31, 2010, I saw patients from the Advocate South Suburban Hospital established service area, specifically residents from the zip codes listed below, and admitted them to Christ/Hope Children's Hospital or to Advocate South Suburban Hospital.

PHYSICIAN NAME	HOSPNAME	Patient ZIP	Total
Zaidi, Shahla F.	South Suburban	60452 Oak Forest	1
		60478 Country Club Hill	1
	South Suburban Total		2
Zaidi, Shahla F. Total			2

I estimate that I will refer annually to the proposed Advocate South Suburban Hospital pediatrics unit within the 24 months after the project is completed the following patients from the primary service area:

Annual Referrals from South Suburban Hospital Service Area 2

The information in this letter is true and correct to the best of my knowledge. The patient referrals submitted in this letter have not been used to support any other pending or approved CON application for pediatric services.

I wholeheartedly support the establishment of a pediatric category of service at Advocate South Suburban Hospital. It will be an important service to the community and especially to my patients who live in the Advocate South Suburban Hospital established service area.

Sincerely,

S. Zaidi

Zaidi, Shahla F.

Specialty F.P.

Address 3330 W. 177th St. Hazel Crest - Ill 60429

Subscribed and sworn before me on the 2nd day of November, 2010

Notary Public Cynthia N. Tolliver

Official Seal
