Re: Oak Forest Hospital Letters of Opposition

Ms. Avery,

The National Nurses Organizing Committee has been asked by members of the community to present to the Review Board the included Letters of Opposition. Included are two copies of each testimony as requested.

The citizens signatory to the Letters of Opposition are not in support of the closure of the Oak Forest facility because the Cook County Health and Hospital System do not have a concrete plan to implement their Strategic Plan as articulate to the Facilities board at our last meeting. This was presented at the 4/18 hearing as well.

We look forward to hearing the decision of the board on May 10, 2011. If you have any questions or concerns regarding any of the testimony enclosed or the Nurses' presentation, please don't hesitate to contact me at 312-286-4477.

Sincerely,

Leslie Curtis
Midwest Director
National Nurses Organizing Committee

Dear Mr. Constantino

My name is Louise Wint and I am writing regarding the closure of Oak Forest Hospital. One can see racism raging in every form in the closing of Oak Forest Hospital. The proposal to close this important facility is a total injustice to humanity of our society. The poor verses the wealthy minority verses the Cook County Health and Hospital Board. We are the voice for the poor, black and underserved. We cannot and will not allow the CCHHS Board to take our tax dollars that should be used to provide hospital care. The CCHHS is proposing to close our community hospital while they divert those same dollars into high salaries for administrators.

I am asking that you do not allow the CCHHS to close my hospital that I rely on to get my basic hospital services. The lost of this hospital will be devastated to me personal and to my neighbors who rely on this hospital.

Sincerely,

Louise Wint

Springfield, IL 62761

Dear Mr. Constantino

I am concerned about the closing of Oak Forest. I am concerned about the patients that require extended stays and have had excellent recovery during their time in the facility. My experience at other hospitals has been patients without insurance are denied quality health care and dumped. People that do not have access to health care or that do not have primary care physicians are blocked from receiving follow up care. Therefore when we leave other facilities we have no follow up care. This is not the case with Oak Forest. We are assigned a primary care physician despite the fact that we do not have insurance. This hospital provides care for those who have no other place to go. I am concerned that I will lose this resource. Many of the surrounding hospitals have not and will not, in my experience, take care of patients like my self and those like me without insurance.

Every day there are stories about people who have reached their maximum care allowed under their insurance and are left without a health care safety net. I believe this is called underinsured. They pay their premiums and still find them selves turning to Oak Forest to continue their recovery.

There is a need for inpatient beds in this community staffed with qualified competent nurses at the bedside to care for me and those in my community like me. I am also concerned about how I or someone like me will get transportation to the other CCHHS facilities. There is no transportation in the community surrounding Oak Forest pass nine pm at night. There is no way we can get to other facilities. My mother was a patient at Oak Forest for years. While she has been turned away from other facilities, she has never been turned away from Oak Forest. She also used the long term care when she needed rehabilitation. There is no hospital in the Southland that will provide the time and quality care that is currently available at Oak Forest.

Please consider the community when making this decision of closing our beloved community hospital. It is the only option many of the members of the Southside community have to receive good quality extended health care.

Sincerely,

Camille Shavers

Dear Mr. Constantino

I am speaking in opposition of the closure of Oak Forest Hospital. I am a patient at the hospital and I have been hospitalized a total of thirty times since 2007; many of which were in ICU. I am what the staff affectionately calls "a frequent flyer". I suffer from several medical conditions: Congestive heart failure: A-Fib, COPD, Chronic Asthma, Sick Sinus Syndrome, Sleep Apnea, and numerous allergies. I am on a pacemaker as well as oxygen and I utilize a walker to get around.

In December 2010, I was transferred to Stroger after coming into Oak Forest Emergency Room suffering from shortness of breath. I was sent to Stroger because of lack of Telemetry beds at Oak Forest. To my knowledge, there are 8 beds in ICU and 8 in J-21. At one time there were many more Telemetry beds in J-11 which have been closed. If these beds were still available, I, along with the other four patients who were transferred that night, would have been admitted into the hospital. I was sent to Stroger in an ambulance with advanced life support and a nurse. I later received a bill for \$1,200 for the trip to Stroger. My concern is the number of patients that are being transferred to Stroger that otherwise could be admitted to Oak Forest into the Telemetry Unit if it were open. I have been a patient at Ingalls Hospital also. My experience at that facility is they stabilize you and then refer you back to Oak Forest. Ingalls is one of the local hospitals that the County is trying to partner with to take care of Oak Forest patients. However, it is painfully obvious that Ingalls doesn't want patients like myself-patients without insurance and/or chronic health conditions. Currently, the wait to see a primary care physician at Oak Forest is 6-8 weeks. If the County cuts services at Oak Forest, this wait is bound to increase greatly.

I implore to vote against the closure of Oak Forest Hospital.

Sincerely,

Sandy Keim

Written testimony to the Illinois Health Facilities & Services Review Board 4/18/2011

Carol O'Neil
2973 S. Lyman St. Apt 2F
Chicago, IL 60608

Reasons why inpatient services and the ER at Oak Forest Hospital should not be closed 5/20/2011.

1. For 3 years, as a Dietitian in Patient Meal Services, I observed how well the Hospital Staff cared for Complex Long Term Care patients (on and off ventilators) who have complex medical needs. Many have thrived and lived for over 20 years with a decent quality of life. Today eleven of these patients remain. If comparable care can not be found (and thus far it hasn't), then they should remain well cared for at Oak Forest Hospital. They have entrusted their lives to the County and County must be held to uphold that trust.
2. If County patients don't have anywhere comparable to go for inpatient Rehab services, then don't close the inpatient Rehab unit.
3. There does not appear to be a detailed plan by CCBHS which assigns frequently hospitalized Oak Forest Hospital patients to receive comparable, continuity of care once Oak Forest Hospital closes. Until that is done, then the inpatient acute care unit should remain open.
4. The steps need to be ordered. First, get the Primary and Specialty Care clinics up and running at the Oak Forest ROC. Increase the number of Primary Care Providers at the ROC. Then start assigning current ER patients to primary care physicians with less time to wait for new appointments. Have local access to specialty clinics. Have a system set up for Medication refills. Once this is set up efficiently, there may or may not be less need for the ER. Note the statistics before taking drastic actions. Have something better in place to replace what we have now.

Until the primary care provider medical home system is set up, then don't shut down the safety net for the South Suburbs. I would ask the state to request the staffing plan for the ROC. Ask if there will be programs for preventive care such as group diabetes classes, physical and occupational therapy, bereavement support and chronic disease support groups, women's health clinics. Will there be ancillary staff such as dietitians, physical, occupational, speech therapists and assistants, social workers? If there are colonoscopies being done, will there be adequate staff to sterilize the equipment? Will there be enough primary care providers so that patients can have access to medical care for maintenance prescriptions without having to run out between appointments and have to go to area ER's because they are sick? Once that is set up smoothly, then I don't think there would be as much backlash. Seeing is believing.

From: Bro. ERNEST L. MACK 3rd

Address: 1649 Hilltop Ave

Chicago ILL 60641

Re: Closure of services at Oak Forest Hospital

In my opinion the Oak Forest Hospital should remain open
because it provides much needed services to individuals
that not able to afford services elsewhere. They are a very
needed facility for the underprivileged. I feel this facility
is not only needed, but it is a lifeline a lot of recipients
have.

Thank you,

Ernest L. Mack

**WRITTEN TESTIMONY REGARDING THE
CLOSURE OF SERVICES AT OAK FOREST HOSPITAL**

April 15, 2011

To: Illinois Health Facilities Board

From: Carl L Purmer 1417 Emerald, Chicago ILL. 60641
Address:

Re: Closure of services at Oak Forest Hospital

I have much wrong with me
oak forest hospital served me
and saved my life after I was
turned away from another hospital
because I had no insurance.

Thank you, Carl L Purmer

**WRITTEN TESTIMONY REGARDING THE
CLOSURE OF SERVICES AT OAK FOREST HOSPITAL**

April 15, 2011

To: Illinois Health Facilities Board

From: Bro. ERNEST L. Mack 3rd

Address: 1619 Hilltop Ave
Chicago ILL 60641

Re: Closure of services at Oak Forest Hospital

In my opinion the Oak Forest Hospital should remain open
because it provides much needed services to individuals
that not able to afford services elsewhere. They are a very
needed facility for the underprivileged. I feel this facility
is not only needed, but it is a lifeline a lot of recipients
have.

Thank you,

Ernest L. Mack

**WRITTEN TESTIMONY REGARDING THE
CLOSURE OF SERVICES AT OAK FOREST HOSPITAL**

April 15, 2011

To: Illinois Health Facilities Board

From:

Address:

Re: Closure of services at Oak Forest Hospital

Provide Services to people that
can't afford medical attention that
really are in dire need of attention,
We must provide for each other just like
Good provides for us!

~~Thank you,~~

**WRITTEN TESTIMONY REGARDING THE
CLOSURE OF SERVICES AT OAK FOREST HOSPITAL**

April 15, 2011

To: Illinois Health Facilities Board.

From: *Nathan Ricky Griffin*
Address: *520 JENNIFER DR. CHICAGO, IL 60641*

Re: Closure of services at Oak Forest Hospital

We AS HUMAN BEINGS GOT TO HAVE SHOULD
HAVE A PLACE TO HAVE MEDICAL PURPOSES BEINGS
THAT ALL OF US DON'T HAVE FINANCIAL COST.
PLEASE DO US RIGHT, KEEP IT LIVE

Thank you,

Thank you
Nathan Ricky Griffin

**WRITTEN TESTIMONY REGARDING THE
CLOSURE OF SERVICES AT OAK FOREST HOSPITAL**

April 15, 2011

To: Illinois Health Facilities Board

From: Joseph Luptak

Address: 414 W. 14th St. Chicago Heights IL 60471

Re: Closure of services at Oak Forest Hospital

To whom it may concern you should
keep the facilities open because there are so
many people that need medical assistance that
can't afford to pay for there visits, medicine, x-rays,
and much more health issue that the hospital provides.

Thank you,

Joseph Luptak

Petition Supporting Oak Forest Hospital

We the undersigned demand that Oak Forest Public Hospital remain open so that south suburban and southern Chicago residents continue receiving access to the emergency room service, intensive Care, heart and cardiovascular unit, ventilation unit access, and long-term care rehabilitation. We do not want to see the vital hospital care that has saved thousands of lives turned into an outpatient clinic.

Petition Supporting Oak Forest Hospital

We the undersigned demand that Oak Forest Public Hospital remain open so that south suburban and southern Chicago residents continue receiving access to the emergency room service, Intensive Care, heart and cardiovascular unit, ventilation unit access, and long-term care rehabilitation. We do not want to see the vital hospital care that has saved thousands of lives turned into an outpatient clinic.

Re: Oak Forest Hospital Petitions

Ms. Avery,

The National Nurses Organizing Committee has been asked by members of the community to present to the Review Board the following petitions. Included are two copies of each testimony as requested.

The citizens signatory to the petitions are not in support of the closure of the Oak Forest facility because the Cook County Health and Hospital System do not have a concrete plan to implement their Strategic Plan as articulate to the Facilities board at our last meeting. This was presented at the 4/18 hearing as well.

We look forward to hearing the decision of the board on May 10, 2011. If you have any questions or concerns regarding any of the testimony enclosed or the Nurses' presentation, please don't hesitate to contact me at 312-285-4477.

Sincerely,

Leslie Curtis
Midwest Director
National Nurses Organizing Committee

Petition Supporting Oak Forest Hospital

We the undersigned demand that Oak Forest Public Hospital remain open so that south suburban and southern Chicago residents continue receiving access to the emergency room service, Intensive Care, heart and cardiovascular unit, ventilation unit access, and long-term care rehabilitation. We do not want to see the vital hospital care that has saved thousands of lives turned into an outpatient clinic.

Dear Mr. Constantino

My name is Louise Wint and I am writing regarding the closure of Oak Forest Hospital. One can see racism raging in every form in the closing of Oak Forest Hospital. The proposal to close this important facility is a total injustice to humanity of our society. The poor verses the wealthy minority verses the Cook County Health and Hospital Board. We are the voice for the poor, black and underserved. We cannot and will not allow the CCHHS Board to take our tax dollars that should be used to provide hospital care. The CCHHS is proposing to close our community hospital while they divert those same dollars into high salaries for administrators.

I am asking that you do not allow the CCHHS to close my hospital that I rely on to get my basic hospital services. The lost of this hospital will be devastated to me personal and to my neighbors who rely on this hospital.

Sincerely,

Louise Wint

Springfield, IL 62761

Dear Mr. Constantino

I am concerned about the closing of Oak Forest. I am concerned about the patients that require extended stays and have had excellent recovery during their time in the facility. My experience at other hospitals has been patients without insurance are denied quality health care and dumped. People that do not have access to health care or that do not have primary care physicians are blocked from receiving follow up care. Therefore when we leave other facilities we have no follow up care. This is not the case with Oak Forest. We are assigned a primary care physician despite the fact that we do not have insurance. This hospital provides care for those who have no other place to go. I am concerned that I will lose this resource. Many of the surrounding hospitals have not and will not, in my experience, take care of patients like my self and those like me without insurance.

Every day there are stories about people who have reached their maximum care allowed under their insurance and are left without a health care safety net. I believe this is called underinsured. They pay their premiums and still find them selves turning to Oak Forest to continue their recovery.

There is a need for inpatient beds in this community staffed with qualified competent nurses at the bedside to care for me and those in my community like me. I am also concerned about how I or someone like me will get transportation to the other CCHHS facilities. There is no transportation in the community surrounding Oak Forest pass nine pm at night. There is no way we can get to other facilities. My mother was a patient at Oak Forest for years. While she has been turned away from other facilities, she has never been turned away from Oak Forest. She also used the long term care when she needed rehabilitation. There is no hospital in the Southland that will provide the time and quality care that is currently available at Oak Forest.

Please consider the community when making this decision of closing our beloved community hospital. It is the only option many of the members of the Southside community have to receive good quality extended health care.

Sincerely,

Camille Shavers

Re: Closure of services at Oak Forest Hospital

In my opinion the Oak Forest Hospital should remain open
because it provides much needed services to individuals
that not able to afford services elsewhere. They are a very
needed facility for the underprivileged. I feel this facility
is not only needed, but it is a lifeline a lot of recipients
have.

Thank you,

Ernest L. Mack
