# Petition Supporting Oak Forest Hospital

We the undersigned demand that Oak Forest Public Hospital remain open so that south suburban and southern Chicago residents continue receiving access to the emergency room service, Intensive Care, heart and cardiovascular unit, ventilation unit access, and long-term care rehabilitation. We do not want to see the vital hospital care that has saved thousands of lives turned into an outpatient clinic.

# Petition Supporting Oak Forest Hospital

We the undersigned demand that Oak Forest Public Hospital remain open so that south suburban and southern Chicago residents continue receiving access to the emergency room service, Intensive Care, heart and cardiovascular unit, ventilation unit access, and long-term care rehabilitation. We do not want to see the vital hospital care that has saved thousands of lives turned into an outpatient clinic.

To; Illinois Health Facilities & Services Review Board

The Illinois State Health Facilities & Services Review Board should hire an independent auditor to verify where the tax payer's dollars have been spent.

The Cook County President and Board members are attempting to cover up poor management, miss-use of tax-payer's dollars and State law violations.

Illinois State laws require the Cook County President and Cook County Board members to manage the tax payer's Cook County Health and Hospital System for the people's best interest.

The Cook County President and Cook County Board members have stated, that they will sue the Illinois State (we the people), if they cannot have their way (to close the people's Oak Forest Hospital). I say let them bring their law sue, so that we the people of Illinois can prove the Cook County President and Cook County Board members poor management of taxpayer's dollars, and possibly lies and theft!

We the people by Illinois State Law are granted these rights to fight for our rights to keep our Oak Forest Hospital open, and the Illinois State Health Facilities & Services Review Board is require to protect the people and sometimes that includes charging criminal indictments and suspension or terminating those responsible for this problem.

Randy Ruff
