Re: Permit #10-090 – Centegra Hospital - Huntley

Dear Ms. Streng:

We have received your letter dated June 2, 2016 informing the State Board of the change in Permit #10-090. Based upon your letter the proposed change will install additional floor support, will provide for medical gas, HVAC ductwork, low voltage cabling and electrical conduit extensions for future tie-ins, and the installation of a window frame in the existing cath lab control room at a cost of approximately \$377,810. There is no increase in the total permit amount or the gross square footage of the project as approved by the State Board. Your letter has been included in the Permit file. No further action is required for this change as it applies to the Illinois Health Facilities Planning Act.

Please note when an additional cardiac cath lab is planned a certificate of need for that expansion will be required. [77 IAC 1110.1330]

Thank you for your compliance with the requirements of the Illinois Health Facilities Planning Act.

Should you have any questions or concerns please contact Mike Constantino or George Roate of my staff at Mike.Constantino@illinois.gov or George.Roate@illinois.gov or 217.782.3516.

Sincerely,

A handwritten signature in black ink that reads "Kathy Olson".

Kathy Olson, Board Chair
Illinois Health Facilities and Services Review Board
