**RECEIVED**

JUN 03 2011

HEALTH FACILITIES &  
SERVICES REVIEW BOARD

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

  
AH

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

*James Malone

Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

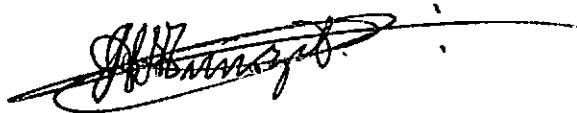

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Buffalo Grove IL

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

*Raymond D. Berry*  
*Arlington Hts,*

Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

NAME Tim McCann

ADDRESS 234 HICKORY DR. CRYSTAL LAKE  
60014

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Sincerely,

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

Sincerely,

Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Rosa York

Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

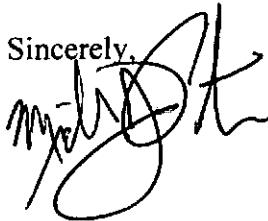

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Arlington Heights, IL

Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

*Christine Clarke*

Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

Arlington Heights

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Sincerely,

Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

  
MUNDELEIN, IL

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Sincerely,

- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Sincerely,

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

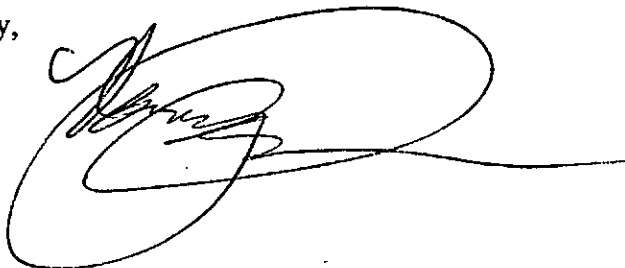

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths

Dawn Oppermann  
Arlington Heights Business

Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

NAME

M. Queller

ADDRESS

Arlington Heights

Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

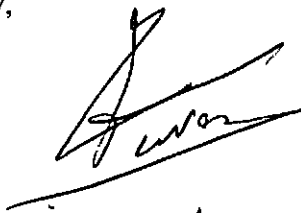

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

NAME

Scott Aermes

ADDRESS

306 N. Derbyshire Ave

Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

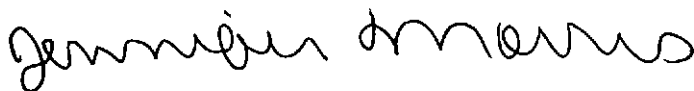

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jennifer Morris".

*Arlington Heights IL 60004*

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

NAME

Todd A. Hill

ADDRESS

Arlington Heights

Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, Second Floor  
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

**Top Quality Care and Expertise**

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Illinois Health Facilities and Services Review Board

Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

**Holistic Approach in a Wellness Center Setting**

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

**Healing our Residents and Helping our Economy**

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Ray", written in a cursive style.

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.
