DESCRIPTION OF PROJECT

1. Project Classification

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- Substantive
 Non-substantive

Part 1120 Applicability or Classification: [Check one only.]

- Part 1120 Not Applicable
 Category A Project
 Category B Project
 DHS or DVA Project

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

The proposed project is limited to a change of ownership of St. Elizabeth's Hospital, a 108-bed community hospital located in Chicago, Illinois. The proposed change of ownership is a result of the impending merger of the Resurrection and Provena systems through a common "super parent" corporation that will become the parent entity of Resurrection Health Care Corporation (the current Resurrection system parent) and Provena Health (the current Provena system parent).

It is the expectation of the applicants that, for a minimum of two years following the change of ownership, all programs and services currently provided by St. Elizabeth's Hospital will continue to be provided, and consistent with IHFSRB requirements, access to the hospital's services will not be diminished. The licensee will continue to be St. Elizabeth's Hospital.

The proposed project, consistent with Section 1110.40.a, is classified as being "non-substantive" as a result of the scope of the project being limited to a change of ownership.

Please refer to the "Project Overview" for a summary of the transaction.

Subject: APORS Reporting - Provena St. Mary's Hospital and Provena Mercy Medical Center

Dear Jayne –

Thank you for working with me and staff at the local Provena ministries to assist us in improving our Adverse Pregnancy Outcome Reporting System (APORS) results. To summarize our conversation, the APORS reporting level at Provena St. Mary's Hospital is 77 and at Provena Mercy Medical Center is 75%. Given that each ministry's reporting level is only slightly below target and that each ministry is making a good faith effort to improve its reporting process such that they achieve target going forward, you will be recommending to Illinois Health Facilities and Services Review Board staff that review of any future certificate of need applications by Provena Health/Provena Hospitals be allowed to proceed, and that APORS reporting will not be a matter impacting project completeness.

Please respond back to confirm that you agree with this, and that I have accurately summarized our call. Thanks again – and I look forward to working with you and staff at the Provena ministries to ensure that we meet our targets in the future.

Sincerely,

Kevin

Subject: RE: APORS Reporting - Provena St. Mary's Hospital and Provena Mercy Medical Center

Dear Kevin,

I am glad that you and the staff at Provena St. Mary's and Provena Mercy Medical Center are working to improve the timeliness of APORS (Adverse Pregnancy Outcome Reporting System). As I am sure you know, timely reporting is important because it helps assure that children achieve their full potential through the early case-management services provided to APORS cases.

As we discussed, since their current reporting timeliness is close to the compliance level, provided each ministry continues to make a good faith effort to improve its reporting process, I will be recommending to Illinois Health Facilities and Services Review Board staff that review of any future certificate of need applications by Provena Health/Provena Hospitals be allowed to proceed, and that APORS reporting will not be a matter impacting project completeness.

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.

To Whom It May Concern:

In accordance with Review Criterion 1.110.230.b, Background of the Applicant, we are submitting this letter assuring the Illinois Health Facilities and Services Review Board (IHFSRB) that:

1. Over the past three years, there have been a total of five adverse actions involving a Resurrection hospital (each addressing Medicare Conditions of Participation). Two such actions relate to Our Lady of the Resurrection Medical Center (OLR), and three such actions relate to Saint Joseph Hospital (SJH). All five actions were initiated in 2009. Three of the five actions were fully resolved in 2009 to the satisfaction of CMS and IDPH, through plans of correction: (a) SJH was cited twice (in an initial and follow up survey) with certain deficiencies in conducting and documenting rounds on its psychiatry unit; and (b) OLR was cited with deficiencies in medical staff training and competencies in certain intubation procedures. The remaining two actions, each of which involves life safety code issues related to the age of the physical plant of OLR and SJH, are scheduled for plan of correction completion by March 31, 2011 and December 31, 2011 respectively.
2. Resurrection Health Care Corporation authorizes the State Board and State Agency access to information to verify documentation or information submitted in response to the requirements of Review Criterion 1.110.230.b or to obtain any documentation or information which the State Board or State Agency finds pertinent to this application.

ATTACHMENT 11

PURPOSE OF THE PROJECT

The project addressed in this application is limited to a change of ownership as defined in the IHFSRB's rules, and does not propose any change to the services provided, including the number of beds provided at St. Elizabeth's Hospital. The facility will continue to operate as a general, acute care hospital. The hospital corporation will not change, and no change in the facility's IDPH license will be required.

The proposed change of ownership will result from the planned merger of the Provena and Resurrection systems, through the establishment of a not-for-profit, charitable "super parent" entity. This super parent will provide unified corporate oversight and system governance by serving as the corporate parent of Resurrection Health Care Corporation and Provena Health, each of which is the current parent entity of the Resurrection and Provena systems, respectively. The proposed merger—and the resultant deemed changes of ownership of the systems' facilities—will position Resurrection and Provena to strengthen access to Catholic health care, improve their long-term financial viability, enhance clinical capabilities, improve employee and medical staff satisfaction through a shared culture and integrated leadership, and position the unified system for innovation and adaptation under health care reform.

The table below identifies the hospital's inpatient origin for the 12-month period ending September 30, 2010; identifying each ZIP Code area that contributed a minimum of 1.0% of the hospital's admissions during that period.

ZIP Code	Community	Admissions	%	Cumulative %
60647	Chicago-Logan Square	3,307	13.5%	13.5%
60622	Chicago-Wicker Park	2,762	11.2%	24.7%
60639	Chicago-Cragin	2,228	9.1%	33.8%
60651	Chicago-Humboldt Park	2,188	8.9%	42.7%

60624	Chicago-Garfield Park	855	3.5%	49.7%
60641	Chicago-Irving park	843	3.4%	53.1%
60644	Chicago-Austin	786	3.2%	56.3%
60623	Chicago-Lawndale	606	2.5%	58.8%
60612	Chicago-Medical Dist,	589	2.4%	61.2%
60634	Chicago-Uptown	430	1.8%	62.9%
60640	Chicago-Pilsen	424	1.7%	64.7%
60608	Chicago	403	1.6%	66.3%
60620	Chicago	355	1.4%	67.8%
60629	Chicago	325	1.3%	69.1%
60649	Chicago	311	1.3%	70.3%
60625	Chicago-Albany Park	310	1.3%	71.6%
60626	Chicago-Rogers Park	275	1.1%	72.7%
other ZIP Code areas contributing <1%		<u>6,702</u>	<u>27.3%</u>	100.0%
		24,570	100.0%	

As can be noted from the table above, eighteen ZIP Code areas accounted for nearly 73% of the hospital's admissions. This analysis clearly demonstrates that St. Elizabeth's Hospital provides services primarily to area residents.

The measurable goals resulting from the consolidating of the systems will be continually high patient satisfaction reports, strong utilization levels, and improved access to capital to ensure that the hospital's physical plant is well maintained and that

needed equipment can be acquired. These goals will each be measurable within two years.

ALTERNATIVES

Section 1110.230(c) requests that an applicant document that the proposed project is the most effective or least costly alternative for meeting the health care needs of the population to be served.

This project is limited to a change of ownership resulting from the proposed merger of the Provena and Resurrection systems. As described elsewhere in this application, this is being implemented through the formation of a “super parent” entity that will create unified system oversight. This super parent structure will create a change in control, and under IHFSRB rules, a change of ownership of thirteen (13) hospitals, one (1) ambulatory surgical treatment center (ASTC), and one (1) end stage renal disease (ESRD) facility.

In order to best respond to Section 1110.230(c) given the nature of the project, technical assistance direction was sought from State Agency staff on February 22, 2010. Through the technical assistance process, the applicants were advised by State Agency staff that it would be appropriate to explain why this proposed system merger was the only alternative considered.

As explained in the Project Overview, Resurrection and Provena are committed to advancing the shared mission of the existing health systems in a manner that improves long-term financial viability, clinical integration and administrative efficiencies. For these two not-for-profit Catholic health systems, the merger of the systems is uniquely well-suited to meeting these mission, service delivery, and efficiency goals.

In very different circumstances, health systems might give serious consideration to an asset sale/acquisition in exchange for cash considerations, or to a corporate reorganization in which one party acquires and controls the other. Here, however, Provena and Resurrection have determined, through a process of discernment that involved both existing systems and the five (5) religious sponsors, that the systems should come together in a merger of equals transaction through a super parent structure, which will align corporate oversight, provide unified governance equally to entities currently in both systems, and avert the need for asset sale/acquisition. The System Merger Agreement has been submitted with this application.

IMPACT STATEMENT

The proposed change of ownership will have a significant positive broad-based and health care delivery impact on the communities historically served by St. Elizabeth's Hospital. Consistent with IHFSRB rules, this impact statement covers the two-year period following the proposed change of ownership.

Reason for the Transaction

Through both discernment and due diligence processes, Resurrection Health Care Corporation ("Resurrection") and its sponsoring congregations have concluded that its hospitals can better serve their patients and their communities if the Resurrection system were to merge with that of Provena Health ("Provena"). By doing so, Resurrection anticipates that it will be able to improve its administrative efficiencies and enhance its clinical integration efforts, consistent with its mission.

Anticipated Changes to the Number of Beds or Services Currently Offered

No changes are anticipated either to the number of beds (108) or to the scope of services currently provided at St. Elizabeth's Hospital.

The current and proposed bed complement, consistent with St. Elizabeth's Hospital's 2009 IDPH Hospital Profile are:

- 40 medical/surgical beds
- 28 long term
- 40 acute mental illness

Among the other clinical services currently offered and proposed to continue to be provided are: surgery, clinical laboratory, pharmacy, diagnostic imaging, GI lab, emergency department, outpatient clinics, and physical, occupational, and speech therapy.

Operating Entity

Upon the change of ownership, the operating entity/licensee will remain St. Elizabeth's Hospital.

Additions or Reductions in Staff

No changes in clinical or non-system administrative staffing, aside from those routine changes typical of hospitals, are anticipated during the first two years following the proposed change of ownership. The applicants fully intend to offer all current hospital employees positions at compensation levels and employee benefits equivalent to their current position, compensation and benefits.

Cost/Benefit Analysis of the Transaction

1. Cost

The costs associated with the transaction are limited to those identified in Section I and discussed in ATTACHMENT 7, those being an apportionment of the transactional costs, categorized as "Consulting and Other Fees". As required by the IHFSRB's rules,

the value of the hospital is included in the project cost identified in Section I of this application document. However, that identified component of the “project cost” does not result in an expenditure by any applicant.

2. Benefit

The applicants believe that the community will benefit greatly from the change of ownership, primarily through the combined system’s ability to operate more efficiently, improve clinical integration, and enhanced access to capital.

In 2009, the hospital admitted approximately 6,100 patients, provided approximately 25,500 outpatient visits, and treated nearly 4,300 patients in its emergency department.

It is the expectation of the applicants that, for a minimum of two years following the change of ownership, all programs and services currently provided by St. Elizabeth’s Hospital will continue to be provided, and consistent with IHFSRB requirements, access to the hospital’s services will not be diminished. Assessments related to potential program expansion will commence shortly after the change of ownership/merger occurs.

Each of the hospitals included in the system merger will provide both charity care and services to Medicaid recipients. According to IDPH data, during 2009 the admission of Medicaid recipients to Resurrection hospitals ranged between 8.6% and 65.2%, and for Provena hospitals ranged between 11.0% and 27.3%. The primary variable in these

percentages is the geographic location of the individual hospitals. Over 20% of the patients admitted to five (5) of the thirteen (13) Resurrection and Provena hospitals in 2009 were Medicaid recipients.

Finally, with over 200 employees (FTEs), St. Elizabeth's Hospital is a major area employer, and, as noted above, no changes in clinical or non-system administrative staffing, aside from those routine changes typical of hospitals, are anticipated during the first two years following the proposed change of ownership.

ACCESS

Access to the facilities addressed in the merger will not become more restrictive as a result of the merger; and letters affirming such from the Chief Executive Officers of Provena Health and Resurrection Health Care Corporation are attached.

Both Provena and Resurrection currently operate with system-wide charity care policies. Attached is the hospital's Non-Discrimination in Patient Care policy, and Resurrection's Financial Assistance/Charity Care and Uninsured Patient Discount Programs policy, which applies across all of its hospitals. Provena and Resurrection intend to develop a new, consolidated charity care policy for the combined system hospitals, generally taking the best elements of each of the existing system policies. Provena and Resurrection representatives have offered to the Illinois Attorney General's office that this new charity care policy will be shared in draft form with the Attorney General's office, so that the Attorney general's office can provide input into the policy. That policy, as of the filing of this application, is being developed, and will be provided to State Agency staff when complete. Resurrection and Provena have committed to the State Agency to provide this policy to the State Agency prior to appearing before the State Board.

St. Elizabeth's Hopsital will, as is the case now, operate without any restrictive admissions policies, related to race, ethnic background, religion, payment source, or any

PURPOSE

Finance Policies are intended to provide guidelines to promote responsible stewardship and allocation of resources.

PURPOSE

This policy establishes guidelines for the development and application of financial assistance and uninsured patient discount programs, by Resurrection Health Care system (RHC) hospitals. Such programs will be designed to assist individuals in financial need and other medically underserved individuals or groups to obtain appropriate medical care and advice, and thereby improve the health of those in the communities served by RHC hospitals.

PROCESSES

1. Definitions

- 1.1 Federal Poverty Level means the level of household income at or below which individuals within a household are determined to be living in poverty, based on the Federal Poverty Guidelines as annually determined by the U.S. Department of Health and Human Services.
- 1.2 Financial Assistance/Charity Care means providing a discount of up to 100% of the charges associated with a patient's hospital care, or a discounted fee schedule, based on financial need.

- 1.3 Financial Assistance Programs means all programs set forth herein to provide assistance to those in financial need including financial assistance/charity care, uninsured patient discounts, and medical indigence discounts and payment caps.
- 1.4 Financial need means documented lack of sufficient financial resources to pay the applicable charge for medical care. Financial need may be evidenced by low household income and asset levels, or high levels of medical debt in relation to household income (medical indigence). Financial need determinations also take into consideration other relevant circumstances, such as employment status or health status of patient or other household members, which may affect a patient's ability to pay. The existence of financial need must be demonstrated by information provided by or on behalf of the patient, and/or other objective data available to the hospital. RHC hospitals may use asset or debt information to assist in making a determination regarding financial need, when income data is unavailable or inconclusive, or reported income is not supported by objective data.
- 1.5 Illinois Resident or Cook County Resident means a person who lives in Illinois (or Cook County as applicable) and intends to remain living in Illinois (or Cook County) indefinitely. Relocation to Illinois or Cook County for the sole purposes of receiving health care benefits does not satisfy the residency requirement.
- 1.6 Illinois Uninsured Patient Discount Act means the hospital uninsured patient discount act, as passed by the Illinois General Assembly in 2008, effective as of April 1, 2009, and as amended from time to time.

1.7 Medically Necessary Hospital Services means:

- 1.7.1 Except to the extent necessary to determine services subject to the Illinois Underinsured Patient Discount, for purposes of this policy "Medically Necessary Hospital Services" means those hospital services required for the treatment or management of a medical injury, illness, disease or symptom that, if otherwise left untreated, as determined by an independent treating physician or other physician consulted by an RHC Hospital would pose a threat to the patient's ongoing health status, and that would be (a) covered by guidelines for Medicare coverage if the patient were a Medicare beneficiary with the same clinical presentation as the Uninsured Patient; or (b) a discretionary, limited resource program for which the potential for unlimited free care would threaten the hospital's ability to provide such program at all (such as substance and chemical abuse treatment, continuing care for certain chronic diseases, chemotherapy and HIV drugs, other than when provided in connection with other Medically Necessary Hospital Services).
- 1.7.2 Examples of services that are not Medically Necessary Hospital Services include, but are not limited to: (1) cosmetic health services; including elective cosmetic surgery (exclusive of plastic surgery designed to correct disfigurement caused by injury, illness, or congenital defect or deformity); (2) services that are experimental or part of a clinical research program; (3) elective goods or services that are not necessary to treat an illness or injury; (4) private and/or non-RHC medical or physician professional fees; and (5) services and/or treatments not provided at an RHC Hospital; (6) pharmaceuticals or medical equipment, except to the extent required in connection with other medically necessary inpatient or outpatient care being received by a hospital patient; and (7) procedures or services for which the hospital provides a discounted "flat rate" pricing package.

Non-retirement household liquid assets will not include a patient's equity in his or her primary residence or assets held in qualified retirement plan or other similar retirement savings account for which there would be a tax penalty for early withdrawal of savings.
- 1.9 RHC Hospital means a hospital that is part of the not-for-profit, Catholic-sponsored health care system known as "Resurrection Health Care".
- 1.10 RHC Hospital Service Area means, for all hospitals, Cook County and with respect to each individual RHC hospital those portions of any adjacent counties that are within such hospital's defined service area or core community, based on the zip code of a predominant portion of the hospital's patient population.
- 1.11 Uninsured Patient means an individual who is or was a patient of an RHC hospital and at the time of service is or was not (a) covered under a policy of health insurance or (b) not a beneficiary under a public or private health insurance, health benefit, or other health coverage program, including Medicare, Medicaid, TriCare, SCHIP and All-Kids, high deductible health insurance plans, workers' compensation, accident liability insurance, or other third party liability plan.

3. Financial Assistance/Charity Care and other Financial Assistance Programs

- 3.1 Discount for Low-Income Uninsured Patients. Financial Assistance/Charity Care discounts or discounted fee schedules will be available for Medically Necessary Hospital Services provided to Uninsured Patients who are unable to pay all or part of the otherwise applicable charge for their care due to financial need, as documented in accordance with this Policy. Patients demonstrating financial need based on household income at or below one hundred percent (100%) of the Federal Poverty Level, combined with a general lack of liquid assets, will receive a one hundred percent (100%) discount on Medically Necessary Hospital Services. Patients generally lacking liquid assets who have household income between one hundred percent (100%) and up to four hundred percent (400%) of the Federal Poverty Level will receive a sliding-scale discount for such hospital care, at levels approved by the RHC Executive Leadership Team.
- 3.2 Payment Caps Under Illinois Uninsured Patient Discount Act. To the extent required by the Illinois Uninsured Patient Discount Act, and subject to other eligibility standards and exclusions as set forth by such law including standards based on asset level, Uninsured Patients who are Illinois residents having household income of up to six hundred percent (600%) of the Federal Poverty Level shall not be required to pay to an RHC hospital more than twenty five percent (25%) of such patient's family gross income within a twelve (12) month period.
- 3.3 Other Payment Caps. An Uninsured Patient who is eligible for Financial Assistance/Charity Care at an RHC Hospital pursuant to the criteria set forth in Section 5.1 or 5.3 below shall be eligible for a payment cap based on RHC's

charitable commitment to catastrophic medical expenses assistance based on medical indigence, as follows:

- 3.3.1 For an eligible Uninsured Patient who demonstrates that s/he has a household income of four hundred percent (400%) or less of the Federal Poverty Level, such patient's payment obligation within any 12-month period will be limited to the higher of: (a) ten percent (10%) of the patient's annual gross household income; or (b) ten percent (10%) of the patient's Non-Retirement Household Liquid Assets.
- 3.3.2 For an eligible Uninsured Patient who demonstrates that s/he has a household income over four hundred percent (400%) of the Federal Poverty Level, or less, such patient's payment obligation within any 12-month period will be limited to the higher of: (a) fifteen percent (15%) of annual gross household income; or (b) fifteen percent (15%) of the patient's Non-Retirement Household Liquid Assets.
- 3.4 Financial Assistance/Charity Care for Insured Patients. Subject to insurance and governmental program restrictions (which may limit the ability to grant a discount on co-pays or deductibles, versus discounts on co-insurance), insured individuals, federal program beneficiaries and other individuals who are not automatically eligible for Financial Assistance/Charity Care hereunder but who demonstrate medical indigence or other financial need, may receive a Financial Assistance/Charity Care discount in similar or different amounts as are available to Uninsured Patients under this policy, as determined appropriate under the circumstances by RHC Patient Financial Services.

4. Discounts for Uninsured, Medically Indigent Patients. Uninsured Patients whose household income is greater than four hundred percent (400%) of the Federal Poverty Level or who do not meet the automatic eligibility criteria set forth in Section 5 below, will nevertheless be eligible to receive a financial assistance/charity care discount based on a determination of medical indigence, by virtue of having medical bills from an RHC hospital in an amount equal to or greater than fifteen percent (15%) of their household income and available assets. Such Financial Assistance/Charity Care discount for uninsured higher income but medically indigent patients shall be one that is reasonable in relation to the individual patient's household financial circumstances and the health status of the patient and other family members.
5. Eligibility for Financial Assistance Programs
- 5.1 Automatic Eligibility: Cook County and Adjacent County Residents and Patients Needing Emergency Medical Care. In order to best serve the needs of the low-income and medically underserved members of their respective communities, RHC hospitals' Financial Assistance/Charity Care and other Financial Assistance Programs (other than the RHC uninsured discount, which will be available to all patients irrespective of residence) will be automatically available to all residents (regardless of citizenship or immigration status) of Cook County and those portions of any adjacent counties that are within a hospital's service area, subject to a determination of financial need or other eligibility requirements. In addition, all RHC hospitals will provide financial assistance/charity care discounts to eligible patients in connection with hospital emergency department and other medical services necessary to diagnose, treat or stabilize an emergency medical condition.

- 5.2 Patient Responsibilities. RHC hospitals may condition receipt of charitable assistance under any Financial Assistance Program on a patient acting reasonably and in good faith, by providing the hospital, within 30 days after the hospital's request, with all reasonably-requested financial and other relevant information and documentation needed to determine the patient's eligibility for assistance, including cooperating with the hospital's financial counselors in applying for coverage under governmental programs, such as Medicaid, accident coverage, crime victims funds, and other public programs that may be available to pay for health care services provided to the patient. In addition, an RHC hospital may, in its discretion, choose not to provide Financial Assistance/Charity Care discounts to voluntarily uninsured individuals who with other household members are at least 50% owners of the business in which they work, if such business had gross receipts in the prior tax year of an amount that is greater than \$200,000.
- 5.3 Discretionary Extension of Financial Assistance. Each RHC hospital is authorized to extend the availability of its Financial Assistance Programs to residents of other Illinois counties, other U.S. states or foreign countries, including travelers or out-of-town visitors, based on reasonable, standardized criteria applicable to all patients of such hospital.
- 5.4 Conditions of Discretionary Financial Assistance Program Participation. For individuals other than those who are automatically eligible to participate in an RHC Financial Assistance Program as set forth in Section 5.1 above, RHC hospitals may, as they determine appropriate, condition the receipt of such financial assistance on disclosure by the patient's immediate relatives, host family or sponsoring organization of their financial information, sufficient to demonstrate ability or inability to pay or contribute to the costs of care for their relative or hosted guest. The hospital may further condition any discretionary grant of financial assistance on a contribution toward the costs of the patient's

care and/or a guarantee of payment by such relatives, hosts or others (as applicable), in the event the patient fails to qualify for coverage through governmental or private insurance and the patient fails to pay the amounts for which s/he is responsible. The hospital may also take into consideration the availability of other options for the proposed patient to receive medical care.

6. Uninsured Patient Discounts

- 6.1 Charitable Need for Uninsured Patient Discount. RHC believes that a substantial portion of uninsured individuals who seek hospital care are uninsured involuntarily, due to financial need, and further, that because of their uninsured status and inability to pay, many uninsured individuals delay or refrain from seeking needed medical care. RHC also believes, based on the experience of its hospitals in asking patients to apply for Financial Assistance/Charity Care discounts, that due to privacy and other concerns many uninsured individuals with financial need will not provide sufficient information to enable RHC hospitals to verify the existence of financial need.
- 6.2 RHC Charitable Uninsured Patient Discount. Therefore, as part of their charitable commitment to the poor and underserved, RHC hospitals will provide a discount on hospital charges to all Uninsured Patients, irrespective of residency, location or any other criteria, equal to 25% of the hospital charge for which the Uninsured Patient is responsible. If an Uninsured Patient also qualifies for a discount under the hospital's Financial Assistance/Charity Care standards, the amount of such discount will be applied to the patient's charge after application of the uninsured discount. Such RHC uninsured patient discount will not apply to any patient who qualifies for a discount under the Illinois Uninsured Patient Discount Act.

- 6.3 Discount Under Illinois Uninsured Patient Discount Act. To the extent required by law, RHC hospitals shall provide an alternative form of discount to uninsured Illinois residents with gross family income of up to 600% of the Federal Poverty Level, and the 25% uninsured discount methodology set forth above shall not apply to any portion of such patients' bill.
- 6.4 Eligibility for Additional Financial Assistance. Patients receiving a discount based on uninsured status, whether under the RHC Charitable Uninsured Discount or pursuant to the Illinois Uninsured Patient Act, shall be eligible for an additional financial assistance described in this policy, pursuant to the eligibility standards set forth herein.
7. Hospital Responsibilities for Communicating Availability of Financial Assistance/Charity Care and Other Charitable Assistance Programs
- 7.1 Communicating Availability of Financial Assistance/Charity Care Discounts. Each RHC hospital will maintain effective methods of communicating the availability of Financial Assistance/Charity Care discounts to all patients, in multiple appropriate media and in multiple appropriate languages. The mechanisms that the Hospital will use to communicate the availability of Financial Assistance/Charity Care will include, but are not limited to the following:
- 7.1.1 Signage. Signs shall be conspicuously posted in the admission, registration and other appropriate areas of the hospital stating that patients may be eligible for Financial Assistance/Charity Care discounts, and describing how to obtain more information, including identification of appropriate hospital representatives by title. Such signs shall be prepared

in English, Spanish, and any other language that is the primary language of at least 5% of the patients served by the hospital annually.

- 7.1.2 Provision of Financial Assistance Materials to Uninsured Patients. RHC hospitals will provide a summary of its Financial Assistance Programs and a Financial Assistance application to all persons receiving hospital care that it identifies as Uninsured Patients at the time of in-person registration, admission, or such later time at which the patient is first identified as an Uninsured Patient. For patients presenting in the Emergency Department, all RHC hospitals will provide such Financial Assistance materials at such time and in such manner as is consistent with their obligations under EMTALA to assess and stabilize the patient before making inquiry of the patient's ability to pay.
- 7.1.3 Brochures. Brochures, information sheets and/or similar forms of written communication regarding the hospital's Financial Assistance/Charity Care policy shall be maintained in appropriate areas of the hospital (e.g., the Emergency Department, organized registration areas, and the Business Office) stating in at least English, Spanish and Polish, that the hospital offers Financial Assistance/Charity Care discounts, and describing how to obtain more information.
- 7.1.4 Website. Each RHC's section of the Resurrection Health Care website must include: a notice in a prominent place that financial assistance is available at the hospital; a description of the financial assistance application process; and a copy of the RHC hospital financial assistance application form.

7.1.5 Billing Notices. Each RHC hospital shall include a note on or with the Hospital bill and/or statement regarding the hospital's Financial Assistance/Charity Care program, and how the patient may apply for consideration under this program.

7.1.6 Financial Counselors. Each RHC hospital shall have one or more financial counselors whose contact information is listed or provided with other information concerning the hospital's Financial Assistance/Charity Care discount program, who are available to discuss eligibility and other questions concerning the program, and to provide assistance with applications.

8. Communication with Patients Regarding Eligibility Determination for Financial Assistance/Charity Care.

8.1 Notification of Determination. When an RHC hospital has made a determination that a patient's bill will be discounted or adjusted in whole or in part based on a determination of financial need, the hospital will notify the patient of such eligibility determination, and that there will be no further collection action taken on the discounted portion of the patient's bill.

8.2 Changes in Patient Financials Circumstances. Adverse changes on the patient's financial circumstances may result in an increase in any Financial Assistance/Charity Care discount provided by the hospital. Under no condition, however, would adverse or other changes in a patient's financial circumstances affect the hospital's continuation of any ongoing treatment during an episode of care.

9. Application of Financial Assistance/Charity Care Determination to Past-Due Bills.
When a patient has been granted a discount on his or her bill under the hospital's Financial Assistance/Charity Care program, the hospital will automatically apply a similar discount or adjustment to all other outstanding patient bills. The hospital will advise the patient of such adjustment of prior accounts, and that the hospital will forego any further attempted to collect the amounts written off on such accounts.
10. Updating Prior Financial Need Determinations
- 10.1 Effective Time of Financial Assistance Qualification Determination. A determination of a patient's household income in connection with the patient's qualification for any form of Financial Assistance under this Policy will remain in effect the patient's entire episode of care, provided that if an episode of care continues for more than thirty (30) days, the hospital may request the patient to re-verify or supplement household income information or other eligibility information as the hospital reasonably deems appropriate, including cooperating with the hospital financial counselor to re-evaluate the patient's potential eligibility for coverage under Medicaid or other governmental programs and for the hospital's Financial Assistance/Charity Care program.
- 10.2 Re-Verification Within Six Months. When a patient (or the member of the household of a patient) who has received a determination of financial need under an RHC hospital's Financial Assistance/Charity Care program subsequently receives or applies for care from the same or any other RHC hospital more than 30 days but less than 6 months later, the hospital shall request appropriate information necessary to update the patient's or prospective patient's Financial Assistance/Charity Care application and re-verify the prior financial need determination. Hospital Financial Counselors will work with the patient to make the updating process as convenient as possible while assuring accuracy of

information. The hospital shall consider the patient's (or prospective patient's) eligibility for Financial Assistance/Charity Care based on current income and assets, and other objective information obtained by the hospital relating to financial need, such as credit reports, new W-2s, tax returns or other data.

- 10.3 New Application Requirements. If more than six (6) months has expired since a patient's Financial Assistance eligibility determination, the patient must submit a new Financial Assistance application.
11. Financial Assistance/Charity Care Determinations Required Prior to Non-Emergency Services. RHC hospitals will make all reasonable efforts to expedite the evaluation of patients for eligibility for coverage under governmental programs and otherwise for Financial Assistance/Charity Care. Such evaluations must generally be made by an RHC hospital prior to provision of non-emergency hospital services. Persons who have come to a RHC hospital emergency department seeking care for a potential emergency medical condition will first receive a medical screening exam conducted in compliance with the Emergency Medical Treatment and Active Labor Act, as amended (EMTALA) and all care needed to stabilize any emergency medical condition, prior to an evaluation for coverage eligibility under governmental programs or Financial Assistance/Charity Care.
12. Staff Training and Understanding of Hospital Financial Assistance/Charity Care Program
- 12.1 General Program Knowledge. Hospital staff who regularly interact with patients, including all staff in each hospital's Patient Financial Services, Patient Access and Registration departments will understand the hospital's Financial Assistance/Charity Care discount program, and be able to either accurately answer questions or direct questions regarding such programs to financial counselors or other contact persons.

No RHC hospital will engage in or direct collections activity with respect to any discounts on health care charges provided as a result of a determination of eligibility under the hospital's Financial Assistance/Charity Care program, unless it is later determined that the patient omitted relevant information relating to actual income or available assets, or provided false information regarding financial need or other eligibility

- 13.3 Use of Reasonable Legal Processes to Enforce Patient Debt. Reasonable legal process, including the garnishment of wages, may be taken by any RHC Hospital to collect any patient debt remaining after any adjustment or discount for Financial Assistance/Charity Care, uninsured status or other reason, under the following circumstances:

13.3.1 For Uninsured Patients:

- The hospital has given the patient the opportunity to assess the accuracy of the hospital's bill;
- The hospital has given the Uninsured Patient the opportunity to apply for Financial Assistance/Charity Care and/or (a) a reasonable payment plan, or (b) a discount for which the patient is eligible pursuant to the Illinois Patient Uninsured Discount Act;
- The hospital has given the Uninsured Patient at least 60 days after discharge or receipt of services to apply for Financial Assistance/Charity Care;
- If the patient has indicated, and the hospital is able to verify, that the patient is unable to pay the full amount due in one payment, the hospital has offered the patient a reasonable payment plan;
- If the hospital and patient have entered into a reasonable payment plan, the patient has failed to make payments when due; and
- There is objective evidence that the patient's household income and/or assets are sufficient to meet his or her financial obligation to the hospital.

13.3.2 For Insured Patients:

- The hospital has provided the patient the opportunity, for at least 30 days after the date of the initial bill, to request a reasonable payment plan for the portion of the bill for which the patient is responsible;
- If the patient requests a reasonable payment plan, and fails to agree to a plan within 30 days after such request; and
- If the hospital and patient have entered into a reasonable payment plan, the patient has failed to make payments when due.

13.4 Residential Liens. No RHC hospital will place a lien on the primary residence of a patient who has been determined to be eligible for Financial Assistance/Charity Care, for payment of the patient's undiscounted balance due. Further, consistent with long-standing RHC policy, in no case will any RHC provider execute a lien by forcing the sale or foreclosure of the primary residence of any patient to pay for any outstanding medical bill.

13.5 No Use of Body Attachments. In accordance with long-standing practice, no RHC hospital will use body attachment to require any person, whether receiving Financial Assistance/Charity Care discounts or not, to appear in court.

13.6 Collection Agency Referrals. RHC hospitals will ensure that all collection agencies used to collect patient bills promptly refer any patient who indicates financial need, or otherwise appears to qualify for Financial Assistance/Charity Care discounts, to a financial counselor to determine if the patient is eligible for such a charitable discount.

HEALTH CARE SYSTEM

The proposed change of ownership will not restrict the use of other area facilities, nor will it have an impact on other area providers. For purposes of this section, health care system refers to the combined Resurrection and Provena systems.

Impact of the Proposed Transaction on Other Area Providers

Following the change of ownership, St. Elizabeth's Hospital will continue to operate with an "open" Medical Staff model, meaning that qualified physicians both can apply for admitting privileges at the hospital, and admit patients to the hospital on a voluntary basis—the physicians will not be required to admit only to St. Elizabeth's Hospital. In addition, the hospital's Emergency Department will maintain its current designated level, that being "comprehensive". As a result, ambulance and paramedic transport patterns will not be altered because of the change of ownership. Last, because the admissions policies of the hospital will not be changed to become more restrictive (please see ATTACHMENT 19B), patients will not be "deflected" from St. Elizabeth's Hospital to other area facilities as a result of the change of ownership.

Other Facilities Within the Acquiring Co-Applicants' Health Care System

Upon the completion of the merger, twelve other hospitals will be in the new Health Care System. All of those hospitals, with the exception of Holy Family Medical

Center, which operates as a Long-Term Acute Care Hospital (LTACH), operate as general acute care hospitals. The table below identifies the distance and driving time (MapQuest, unadjusted) from St. Elizabeth's Hospital to each of the other hospitals in the Health Care System.

Consistent with a technical assistance conference held with IHFSRB Staff on February 14, 2011, historical utilization of the other facilities in the Health Care System is provided in the form of 2009 IDPH *Profiles* for those individual facilities, and those documents are attached.

Referral Agreements

Copies of St. Elizabeth's Hospital's current referral agreements related to IDPH "categories of service" not provided directly by the hospital are attached. It is the intent

of the applicants to retain all of St. Elizabeth's Hospital's referral agreements, and each provider with which a referral agreement exists will be notified of the change of ownership. Each of the existing referral agreements will continue in their current form until those agreements are revised and/or supplemented, if and as necessary. That revision process is anticipated to take 6-12 months from the date of the change of ownership.

The table below identifies the driving time and distance between St. Elizabeth's Hospital and each hospital with which SEH maintains a referral agreement.

Referral Site	Service	Miles*	Minutes*
Children's Memorial Hospital 2300 Children's Plaza Chicago	pediatrics	3.4	11

Duplication of Services

As certified in this application, the applicants fully intend to retain St. Elizabeth's Hospital's clinical programmatic complement for a minimum of two years. An initial evaluation of the clinical services provided by St. Elizabeth's Hospital would suggest that the hospital provides few, if any, clinical services not typically provided by general acute care hospitals. In addition, and as can be seen from the proximity data provided in the

table above, the hospitals in the Health Care System do not have service areas that overlap.

Availability of Services to the Community

The proposed merger will, because of the strength of the newly-created system, allow for the development of important operations-based services that are not currently available. Examples of these new programs, which will benefit the community, and particularly the patient community are an electronic medical records (EMR) vehicle anticipated to be implemented system-wide, enhanced physician practice-hospital integration, more efficient equipment planning, replacement and procurement systems, and expanded material management programs; all of which will benefit the community through the resultant efficiencies in the delivery of patient care services.

In addition, St. Elizabeth's Hospital is a primary provider of both hospital- and community-based health care programs in its community, and it is the intent of the applicants to provide a very similar community-based program complement, understanding that in the case of all hospitals, the complement of community programs is not static, and that from time-to-time programs are added or eliminated.

Regarding Actual Cost of Services Provided to Charity Care Inpatients and Outpatients, Provena calculated using the 2009 IRS 990 Schedule H instructions to determine the cost to charge ratio. This methodology was used because the 2009 Medicare Cost Report was not available. The AHQ was due.

* Note: According to project #09-033, approved on 10/13/09, facility discontinued 15 bed OB category of service. The data shown is prior to its discontinuation. Actual Cost of Services Provided to Charity Care Inpatients and Outpatients was calculated using the 2009 IRS 990 Schedule H instructions to determine the cost to charge ratio. This methodology was used because the 2009 Medicare Cost Report was not available for the 2009 period.

* Note: According to Board action on 4/22/09, Board reduced 4 ICU beds overall voluntarily. New CON count for the facility is 182 beds. Actual Cost of Services Provided to Charity Care Inpatients and Outpatients (Part II, Question 3 on page 14) was calculated using the 2009 IRS 990 Schedule H instructions to determine the cost to charge ratio. This methodology was used because the 2009 Medicare Cost Report was not available until 4/30/09.

**TRANSFER AGREEMENT
BY AND BETWEEN
CHILDREN'S MEMORIAL HOSPITAL AND**

THIS TRANSFER AGREEMENT (this "Agreement") is entered into as of the first day of August, 2004, by and between Children's Memorial Hospital, an Illinois non-profit corporation ("Receiving Hospital") and Saints Mary and Elizabeth Medical Center, an Illinois not for profit corporation ("Transferring Facility") (each a "Party" and collectively "Parties").

WHEREAS, Transferring Facility owns and operates a general acute care hospital;

WHEREAS, Receiving Hospital owns and operates a general acute hospital and ancillary facilities specializing in pediatric care;

WHEREAS, Transferring Facility receives from time to time patients who are need of specialized services not available at Transferring Facility;

WHEREAS, the Parties are legally separate organizations and are not related in any way to one another through common ownership or control; and

WHEREAS, the Parties desire to establish a transfer arrangement in order to assure continuity of care for patients and to ensure accessibility of services to patients.

NOW, THEREFORE, for and in consideration of the terms, conditions, covenants, agreements and obligations contained herein, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, it is hereby mutually agreed by the Parties as follows:

ARTICLE I.

Patient Transfers

1.1. Acceptance of Patients. Upon recommendation of an attending physician and pursuant to the provisions of this Agreement, Receiving Hospital agrees to admit a patient as promptly as possible, provided customary admission requirements are met, State and Federal laws and regulations are met, and Receiving Hospital has the capacity to treat the patient. Notice of the transfer shall be given by Transferring Facility as far in advance as possible. Receiving Hospital shall give prompt confirmation of whether it can provide health care appropriate to the patient's medical needs. Receiving Hospital agrees to exercise its best efforts to provide for prompt admission of transferred patients and, to the extent reasonably possible under the circumstances, give preference to patients requiring transfer from Transferring Facility.

1.2. Appropriate Transfer. It shall be Transferring Facility's responsibility to arrange for appropriate and safe transportation and to arrange for the care of the patient during a transfer. The Transferring Facility shall ensure that the transfer is an "appropriate transfer" under the Emergency Medical Treatment and Active Labor Act, as may be amended ("EMTALA"), and is carried out in accordance with all applicable laws and regulations. The Transferring Facility

shall provide in advance sufficient information to permit a determination as to whether the Receiving Hospital can provide the necessary patient care. The patient's medical record shall contain a physician's order transferring the patient. When reasonably possible, a physician from the Transferring Facility shall communicate directly with a physician from the Receiving Hospital before the patient is transferred.

1.3. Transfer Log. The Transferring Facility shall keep an accurate and current log of all patients transferred to the Receiving Hospital and the disposition of such patient transfers.

1.4. Admission to the Receiving Hospital from Transferring Facility. When a patient's need for admission to a center specialized in pediatric care is determined by his/her attending physician, Receiving Hospital shall admit the patient in accordance with the provisions of this Agreement as follows:

(a) Patients determined to be emergent by the attending physician shall be admitted, subject to bed, space, qualified personnel and equipment availability, provided that all usual conditions of admission to Receiving Hospital are met.

(b) All other patients shall be admitted according to the established routine of Receiving Hospital.

1.5. Standard of Performance. Each Party shall, in performing its obligations under this Agreement, provide patient care services in accordance with the same standards as services provided under similar circumstances to all other patients of such Party, and as required by federal and state laws and Medicare/Medicaid certification standards. Each Party shall maintain all legally required certifications and licenses from all applicable governmental and accrediting bodies, and shall maintain full eligibility for participation in Medicare and Medicaid. Receiving Hospital shall maintain accreditation by the Joint Commission on Accreditation of Healthcare Organizations ("JCAHO").

1.6. Billing and Collections. Each Party shall be entitled to bill patients, payors, managed care plans and any other third party responsible for paying a patient's bill, for services rendered to patients by such Party and its employees, agents and representatives, and neither Party will have any liability to the other Party for such charges. Each Party shall be solely responsible for all matters pertaining to its billing and collection of such charges. The Parties shall reasonably cooperate with each other in the preparation and completion of all necessary forms and documentation and the determination of insurance coverage and managed care requirements for each transferred patient. Each Party shall have the sole final responsibility for all forms, documentation, and insurance verification.

1.7. Personal Effects. Personal effects of any transferred patient shall be delivered to the transfer team or admissions department of the Receiving Hospital. Personal effects include money, jewelry, personal papers and articles for personal hygiene.

ARTICLE II.

Medical Records

Subject to applicable confidentiality requirements, the Parties shall exchange all information which may be necessary or useful in the care and treatment of the transferred patient or which may be relevant in determining whether such patient can be adequately cared for by the other Party. All such information shall be provided by the Transferring Facility in advance, where possible, and in any event, at the time of the transfer. The Transferring Facility shall send a copy of all patient medical records that are available at the time of transfer to the Receiving Hospital. Other records shall be sent as soon as practicable after the transfer. The patient's medical record shall contain evidence that the patient was transferred promptly, safely and in accordance with all applicable laws and regulations. Each Party shall and shall cause its employees and agents to protect the confidentiality of all patient information (including, but not limited to, medical records, electronic data, radiology films, laboratory blocks, slides and billing information), and comply with all applicable state and federal laws and regulations protecting the confidentiality of patients' records, including the Health Insurance Portability and Accountability Act of 1996 and the corresponding Standards for Privacy of Individually Identifiable Health Information regulations.

ARTICLE III.

Term and Termination

3.1. Term. This Agreement shall be effective as of the day and year written above and shall remain in effect until terminated as provided herein.

3.2. Termination. This Agreement may be terminated as follows:

(a) Termination by Mutual Consent. The Parties may terminate this Agreement at any time by mutual written consent, and such termination shall be effective upon the date stated in the consent.

(b) Termination Without Cause. Either Party may terminate this Agreement, without cause, upon thirty (30) days prior written notice.

(c) Termination for Cause. A Party shall have the right to immediately terminate this Agreement for cause upon the happening of any of the following:

(i) If such Party determines that the continuation of this Agreement would endanger patient care.

(ii) Violation by the other Party of any material provision of this Agreement, provided such violation continues for a period of fifteen (15) days after receipt of written notice by the other Party specifying such violation with particularity.

(iii) A general assignment by the other Party for the benefit of creditors; the institution by or against the other Party, as debtor, of proceedings of any nature under any law of the United States or any state, whether now existing or currently enacted or amended, for the relief of debtors, provided that in the event such proceedings are instituted against the other Party remain unstayed or undismissed for thirty (30) days; the liquidation of the other Party for any reason; or the appointment of a receiver to take charge of the other Party's affairs, provided such appointment remains undischarged for thirty (30) days. Such termination of the provisions of this Agreement shall not affect obligations which accrued prior to the effective date of such termination.

(iv) Exclusion of either Party from participation in the Medicare or Medicaid programs or conviction of either Party of a felony.

(v) Either Party's loss or suspension of any certification, license, accreditation (including JCAHO or other accreditation as applicable), or other approval necessary to render patient care services.

ARTICLE IV.

Non-Exclusive Relationship

This Agreement shall be non-exclusive. Either Party shall be free to enter into any other similar arrangement at any time and nothing in this Agreement shall be construed as limiting the right of either Party to affiliate or contract with any other hospital, nursing home, home health agency, school or other entity on either a limited or general basis while this Agreement is in effect. Neither Party shall use the other Party's name or marks in any promotional or advertising material without first obtaining the written consent of the other Party.

ARTICLE V.

Certification and Insurance

5.1. Licenses, Permits, and Certification. Each Party represents to the other that it and all of its employees, agents and representatives possess and shall maintain in valid and current status during the term of this Agreement all required licenses, permits and certifications enabling such Party to provide the services set forth in this Agreement.

5.2. Insurance. Both Parties shall, at their own cost and expense, obtain and maintain in force during the term of this Agreement appropriate levels of general and professional liability insurance coverage, in accordance with good business practice for acute-care hospitals in the Chicagoland area. Such insurance shall be provided by insurance company(ies) acceptable to Parties and licensed to conduct business in the State of Illinois or by a self-insurance program. Verification of insurance shall be in the possession of both Parties at all times while this Agreement is in effect. the event the form of insurance is claims made, both Parties warrant and represent that they will purchase appropriate tail coverage for claims, demands, or actions reported in future years for acts of omissions during the term of this Agreement. In the event of insufficient coverage as defined in this Section, or lapse of coverage, the non-breaching Party reserves the right to immediately and unilaterally terminate this Agreement.

5.3. Notification of Claims. Each Party shall notify the other in writing, by certified mail, of any action or suit filed and shall give prompt notice of any claim made against either by any person or entity which may result in litigation related in any way to this Agreement.

ARTICLE VI.

Indemnification

Each Party shall indemnify and hold harmless the other Party from and against any and all manner of claims, demands, causes of action, liabilities, damages, costs, and expenses (including costs and reasonable attorney's fees) arising from or incident to the performance of such indemnifying Party's duties hereunder, except for negligent or willful acts or omissions of the other Party. Notwithstanding anything to the contrary, a Party's obligations with respect to indemnification for acts described in this article shall not apply to the extent that such application would nullify any existing insurance coverage of such Party or as to that portion of any claim of loss in which insurer is obligated to defend or satisfy.

ARTICLE VII.

Compliance With Laws

At all times, both Parties shall comply with all federal, state and local laws, rules and regulations now in effect or later adopted relating to the services to be provided hereunder and that may be applicable to the Parties including, but not limited to, laws, rules and regulations regarding confidentiality, disclosure and retention of patient records, such as the regulations promulgated under the Health Insurance Portability and Accountability Act of 1996. A Party shall promptly notify the other Party if it receives notice of any actual or alleged infraction, violation, default or breach of the same. Neither Transferring Facility or Receiving Hospital, nor any employee, officer, director or agent thereof, is an "excluded person" under the Medicare rules and regulations.

As of the date hereof and throughout the term of this Agreement: (a) Transferring Facility represents, warrants and covenants to Receiving Hospital that Transferring Hospital is licensed to operate a general acute care hospital in Illinois and is a participating facility in Medicare and Medicaid; and (b) Receiving Hospital represents, warrants and covenants to Transferring Facility that Receiving Hospital is licensed to operate a general acute hospital and ancillary facilities specializing in pediatric care and to participate in Medicare and Medicaid.

A Party may refer or transfer patients to any facility based on the professional judgment of the treating physician and the individual needs and wishes of the patients.

8.2. Relationship of the Parties. The Parties expressly acknowledge that in performing their respective obligations under this Agreement, they are each acting as independent contractors. Transferring Facility and Hospital are not and shall not be considered joint venturers or partners, and nothing herein shall be construed to authorize either Party to act as general agent for the other. No waiver of any provision shall be construed as a waiver of any other provision or any subsequent waiver of the same provision.

8.12. Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all such counterparts together shall constitute one and the same instrument.

Each Party shall maintain all legally required certifications and licenses from all applicable governmental and accrediting bodies, and shall maintain full eligibility for participation in Medicare and Medicaid.
- 1.6 **Billing and Collections.** Each Party shall be entitled to bill patients, payors, managed care plans and any other third party responsible for paying a patient's bill, for services rendered to patients by such Party and its employees, agents and representatives, and neither Party will have any liability to the other Party for such charges. Each Party shall be solely responsible for all matters pertaining to its billing and collection of such charges. If SMEMC proposes an amendment to this Agreement in order to comply with applicable law or accreditation standards, and such amendment is unacceptable to Hospital, Hospital may choose to terminate this Agreement immediately upon notice at any time thereafter.

(f) **Termination within the First Year.** If termination occurs during the first year of the Agreement, the parties acknowledge and agree that they may be prevented from entering into a new contract with each other with respect to the same or similar subject matter hereof within one (1) year of terminating this Agreement.

(g) **Termination Due to Failure to Agree on Fees.** SMEMC shall have the right to immediately terminate this Agreement if the parties fail to mutually agree that the fees schedule for Services furnished by Hospital and Physicians pursuant to Section 5.1(d) are consistent with the prevailing rates in the community.

6.3 **Effects of Termination.**

Upon termination of this Agreement, as herein above provided, neither party shall have any further obligation hereunder except for (i) obligations accruing prior to the date of termination and (ii) obligations, promises or covenants contained herein which are expressly made to extend beyond the Term of this Agreement.

VII. **Miscellaneous**

7.1 **Medical Records/Cooperation with Litigation.**

The Hospital shall cause all Physicians providing Services at SMON to comply with medical records policies and procedures of SMEMC including completion of such medical records in a timely and legible fashion. It is understood that all medical records are the property of SMEMC. SMEMC agrees that it shall preserve and maintain all such records, reports and documents in accordance with the requirements of law and SMEMC policies and practices, but at least for the period encompassed by the applicable Statute of Limitations. In the event the County, System,

Hospital or any Hospital Physician is named a party defendant in any lawsuit, SMEMC shall to the extent permitted by and in accordance with any requirements of applicable privacy and confidentiality laws, provide such party with a full copy of the patient's medical records. Consistent with the requirements of applicable law pertaining to patient confidentiality SMEMC shall provide the Hospital with reasonable access to the medical records pertaining to patients who receive Services hereunder for purposes of peer review, utilization review, quality assurance and risk management and shall provide the Hospital with copies of such records related to its performance under this Agreement as may be reasonably requested.

7.2 Medicare Access.

Both parties shall retain and make available upon request, for a period of four (4) years after furnishing Services pursuant to this Agreement, the contract, books, documents and records which are necessary to certify the nature and extent of the costs of such services if requested by the Secretary of Health and Human Services or the Comptroller General of the United States or any of their duly authorized representatives. If either party carries out any of its duties under the Agreement through a subcontract with a related organization involving a value of cost of \$10,000.00 or more over a 12 month period, that party will cause such subcontract to contain a clause to the effect that, until the expiration of four years after the furnishing of any service pursuant to said subcontract, the related organization will make available upon request of the Secretary of Health and Human Services or the Comptroller General of the United States or any of their duly authorized representatives, copies of said subcontract and any books, documents, records and other data of said related organization that are necessary to certify the nature and extent of such costs. This paragraph relating to the retention and production of documents is included because of possible application of Section 1861(v)(1)(I) of the Social Security Act to this Agreement. All terms not otherwise defined above shall have the meanings provided in said regulations.

7.3 No Referrals Requirement.

The parties agree that nothing contained in this Agreement shall require any party to refer or admit patients to, or order any goods or services from the other party. Hospital's Physicians shall be free to join the medical staffs of other hospitals, and shall be entitled to refer patients to such hospitals.

7.4 Conformance with SMEMC Compliance Plan.

Hospital has received the Resurrection Health Care Corporation Compliance Program, attached hereto as Exhibit E, and agrees to abide by same. Hospital and its Physicians acknowledge SMEMC's commitment to compliance with all federal and state laws and regulations, and agree to comply with all applicable federal and state laws, regulations and regulatory Agency Rules.

7.5 Federal Program Provider Status.

Hospital certifies that neither it nor any Physicians have been excluded from participation in Medicare/Medicaid or any other federal or state funded health care program. In addition,

Hospital agrees to promptly notify SMEMC in the event of an investigation of Hospital or any Physician's participation in a federal or state health care program by federal, state or local officials. Should Hospital become suspended, debarred or excluded from participation in Medicare, Medicaid or any other federal or state funded health care program, this Agreement shall immediately terminate as of the date of such suspension, debarment or exclusion in accordance with Section 6.2(c). Additionally, should any Physician become suspended, debarred or excluded from participation in Medicare, Medicaid or any other federal or state health care program, Hospital shall remove such Physician from the performance of Services hereunder, in accordance with Section 1.2(b).

7.6 Proprietary Information Confidentiality.

In providing Services under this Agreement, Hospital and SMEMC acknowledge that certain information that each shall acquire is of a confidential and proprietary nature ("**Confidential Information**"). SMEMC and Hospital shall (and Hospital shall ensure that Physicians shall) exercise care and protection with respect to the other Party's Confidential Information and not directly or indirectly disclose, copy, distribute, republish or allow any third party to have access to any Confidential Information. The Parties may disclose Confidential Information if so required by law (including court order or subpoena), provided that the non-disclosing Party may require the disclosing Party to request the appropriate court or governmental body to seal the record that contains such Confidential Information. Each Party shall notify the other Party of any requirement that it disclose the other Party's Confidential Information by operation of law, regulation or other legal process, and shall cooperate fully to protect the Confidential Information. The Parties acknowledge and agree that any breach of the terms of this Section will result in irreparable harm to the other Party, such that the non-disclosing Party cannot be reasonably or adequately compensated in damages for such breach and shall therefore be entitled, in addition to any other remedies that may be available to it, to seek any and all equitable remedies including, without limitation, injunctive relief to prevent such breach and to secure the enforcement thereof.

7.7 Relationship of the Parties.

(a.) It is expressly acknowledged by the parties hereto that the County, its System and Hospital and SMEMC are independent contractors and that nothing in this Agreement is intended nor shall be construed to create an employer/employee relationship, principal/agent relationship or a joint venture relationship between SMEMC and the County, System and Hospital and any of SMEMC's employees and contractors or between SMEMC and County, System and Hospital employees and contractors, including Physicians. The Physicians are at all time acting and performing independently practicing their professions and SMEMC shall neither have nor exercise any control or direction over the methods or techniques by which Physicians treat or care for a particular patient, provided always that the Services are performed in a manner consistent with SMEMC policies, the legal and accreditation standards governing such Services and the provision of this Agreement.

(b.) The County and not SMEMC shall be solely responsible for the payment of compensation to Physicians providing Services pursuant to this Agreement. Physicians shall not be entitled to any of the employment benefits offered by SMEMC to its own employees.

(c.) The County shall be responsible for withholding of all required taxes and Social Security obligations with respect to those Hospital Physicians who are providing Services in accordance with this Agreement and shall indemnify SMEMC against liability (including reasonable legal fees and costs) incurred as a result of County's failure to withhold income tax and Social Security payments or County's failure to pay required income tax and Social Security obligations related to such personnel. SMEMC shall be responsible for withholding of all required taxes and Social Security obligations with regard to SMEMC employees and agrees to indemnify the County for any liability (including reasonable legal fees and costs) incurred as a result of SMEMC's failure to withhold income tax and Social Security payment or Center's failure to pay required income tax and Social Security obligations related to such personnel.

7.8 Non-Waiver.

The failure of either party to exercise any right, power or option given it hereunder, or to insist upon strict compliance with the terms hereof by the other party, shall not constitute a waiver of the terms and conditions of the Agreement with respect to any other or subsequent breach hereof, nor a waiver by such party of its rights at any time thereafter to require exact and strict compliance with all of the terms of the Agreement.

7.9 Entire Agreement.

This instrument, together with all attachments and exhibits hereto, contains the entire agreement between the parties, and no representations, inducements, promise or agreements, oral or otherwise, not set forth herein, shall be of any force and effect.

7.10 Successors.

This agreement shall be binding upon and inure to the benefits of the parties and their respective legal representatives, successors and assigns.

7.11 Assignment; Amendment.

The Agreement may not be assigned without the prior written consent of the other party. This Agreement may be amended only upon signed written agreement of the parties hereto; provided, however, that the Hospital (without County and/or System written agreement) may by itself agree in writing to amendments relative to implementation of this Agreement, provided that such amendments do not reduce the amount payable to the County.

7.12 Notices.

7.13 Governing Law.

The Agreement shall be subject to and governed by the laws of the State of Illinois. The parties agree that jurisdiction and venue shall lie with the Circuit Court of Cook County, Illinois.

7.14 Severability.

If any portion of this agreement shall be, for any reason, deemed to be invalid or unenforceable by any court having jurisdiction, then, in such event, it is the intention of the parties hereto that the remaining portion of this Agreement shall nevertheless be valid, enforceable and carried into effect unless to do so would clearly violate the present legal and valid intentions of the parties hereto.

Project Overview

Resurrection Health Care Corporation ("Resurrection") and Provena Health ("Provena") propose a merging of the two systems that will better position the combined system's hospitals, long-term care facilities, outpatient centers and other programs and facilities to continue to serve the patients and communities that have traditionally looked to those facilities and programs for care. As explained below and throughout the application, this system merger is intended to preserve access to Catholic health care; improve financial viability; improve patient, employee, and medical staff satisfaction through a shared culture and integrated leadership; and position the combined system for innovation and adaptation under health care reform.

This Project Overview supplements the Narrative Description provided in Section I.3. of the individual Certificate of Need applications filed to address the change of ownership of each of the thirteen (13) hospitals, one (1) ambulatory surgical treatment center (ASTC) and one (1) end stage renal dialysis (ESRD) facility currently owned or controlled by either Provena or Resurrection; and highlights the overall features of the proposed system merger.

Provena's hospitals are located primarily in the communities to the west of Chicago and in central Illinois, and Resurrection's hospitals are located in Chicago and communities to the north of Chicago. None of either system's hospital service areas overlap with those of any hospitals in the other system. Therefore, the proposed merger will not result in duplicative clinical services in any geographic area.

The proposed transaction would affect thirteen (13) hospitals, twenty-eight (28) long-term care facilities, one (1) ASTC, one (1) ESRD facility, an expanding health science university, six (6) home health agencies, and approximately fifty-eight (58) other freestanding outpatient sites. Resurrection is the sole member of seven (7) of the hospitals and Provena is the sole member of six (6) of the hospitals. The ASTC is a joint venture in which Resurrection has "control" pursuant to the IHFSRB definition, and the ESRD is a joint venture in which Provena has such "control".

About Provena Health

Provena Health is a health care system that was established in 1997 through the merging of the health care services of the Franciscan Sisters of the Sacred Heart, the Sisters of Mercy of the Americas—Chicago Regional Community (now West Midwest Community), and the Servants of the Holy Heart of Mary. These three congregations of religious women are now the sponsors of Provena Health. The primary reason for the formation of Provena Health was to strengthen the Catholic health ministry in Illinois, which at the time of formation was a major goal of the late Joseph Cardinal Bernardin, Archbishop of Chicago.

Today, Provena Health operates six acute care hospitals, twelve long-term care facilities, four senior residential facilities and a variety of freestanding outpatient facilities and programs.

About The Resurrection Health Care System

The Resurrection Health Care System grew from a single hospital, now known as Resurrection Medical Center, established by the Sisters of the Resurrection in northwest Chicago in the early 1950s. A second hospital, Our Lady of the Resurrection, was added in 1988. During the period from late 1997 through 2001, six more hospitals joined the Resurrection system. During the same period, eight Chicago area licensed long-term care facilities, three retirement communities, a home care agency, an ambulatory surgery center, and numerous freestanding outpatient facilities became part of Resurrection Health Care System. The Resurrection system is co-sponsored by two congregations of Catholic religious women, the Sisters of the Resurrection and the Sisters of the Holy Family of Nazareth.

In 2010, following a thorough discernment process, and in response to an immediate need to address financial concerns, Resurrection Health Care Corporation divested itself of two hospitals; Westlake Hospital and West Suburban Medical Center (IHFSRB Permits 10-013 and 10-014) to ensure that the two hospitals would be able to continue to serve their communities.

Decision to Merge and Goals of the Merger

In late 2010, Provena and Resurrection leadership began discussions to explore the potential benefits of a system merger. In addition to their clear mission compatibility, the two systems share many similar priorities related to clinical integration, administrative efficiencies and strategic vision. While their respective facilities are geographically proximate, their markets do not overlap, providing opportunities to strengthen all facilities through operational efficiencies and enhanced clinical collaborations.

This system merger decision was made in the larger context of a rapidly changing health care delivery environment. Across the nation, hospitals and other health care providers are addressing health care reform through various forms of integration and consolidation. These actions are thought necessary to achieve improved quality of care, efficiency of service delivery, and patient, medical staff, and employee satisfaction—all critical components of future success.

For Catholic-sponsored health care providers, including Resurrection and Provena, these adaptations to health care reform must be consistent with the mission and values inherent in the religious sponsorship of health care providers. This particular merger would afford Provena and Resurrection the opportunity to achieve essential systemic enhancements in a mission-compatible manner.

The Provena and Resurrection systems have, since 2008, been equal partners in Alverno Clinical Laboratories, LLC, which provides clinical pathology services to each of Resurrection's and Provena's thirteen hospitals, as well as a variety of other facilities.

Structure of the Transaction and Commitments

Through the proposed transaction, the Resurrection and Provena systems will merge through a common, not-for-profit, charitable "super parent" corporation that will become the parent entity of Resurrection Health Care Corporation (the current Resurrection system parent) and Provena Health (the current Provena system parent). Both of the current parent entities will continue to exist and operate, and will continue to serve as the direct parents of their respective subsidiary entities. It is the applicants' expectation that, for a minimum of two years, no Resurrection or Provena hospital or hospitals will be eliminated or restructured in the course of the system merger, and no health care facilities will require new or modified health facilities licenses as a result of the system merger. A chart depicting this proposed merged structure is attached as Exhibit A. The executed System Merger Agreement submitted with this application, provides detail regarding the means by which the super parent will exercise unified corporate oversight for the combined system.

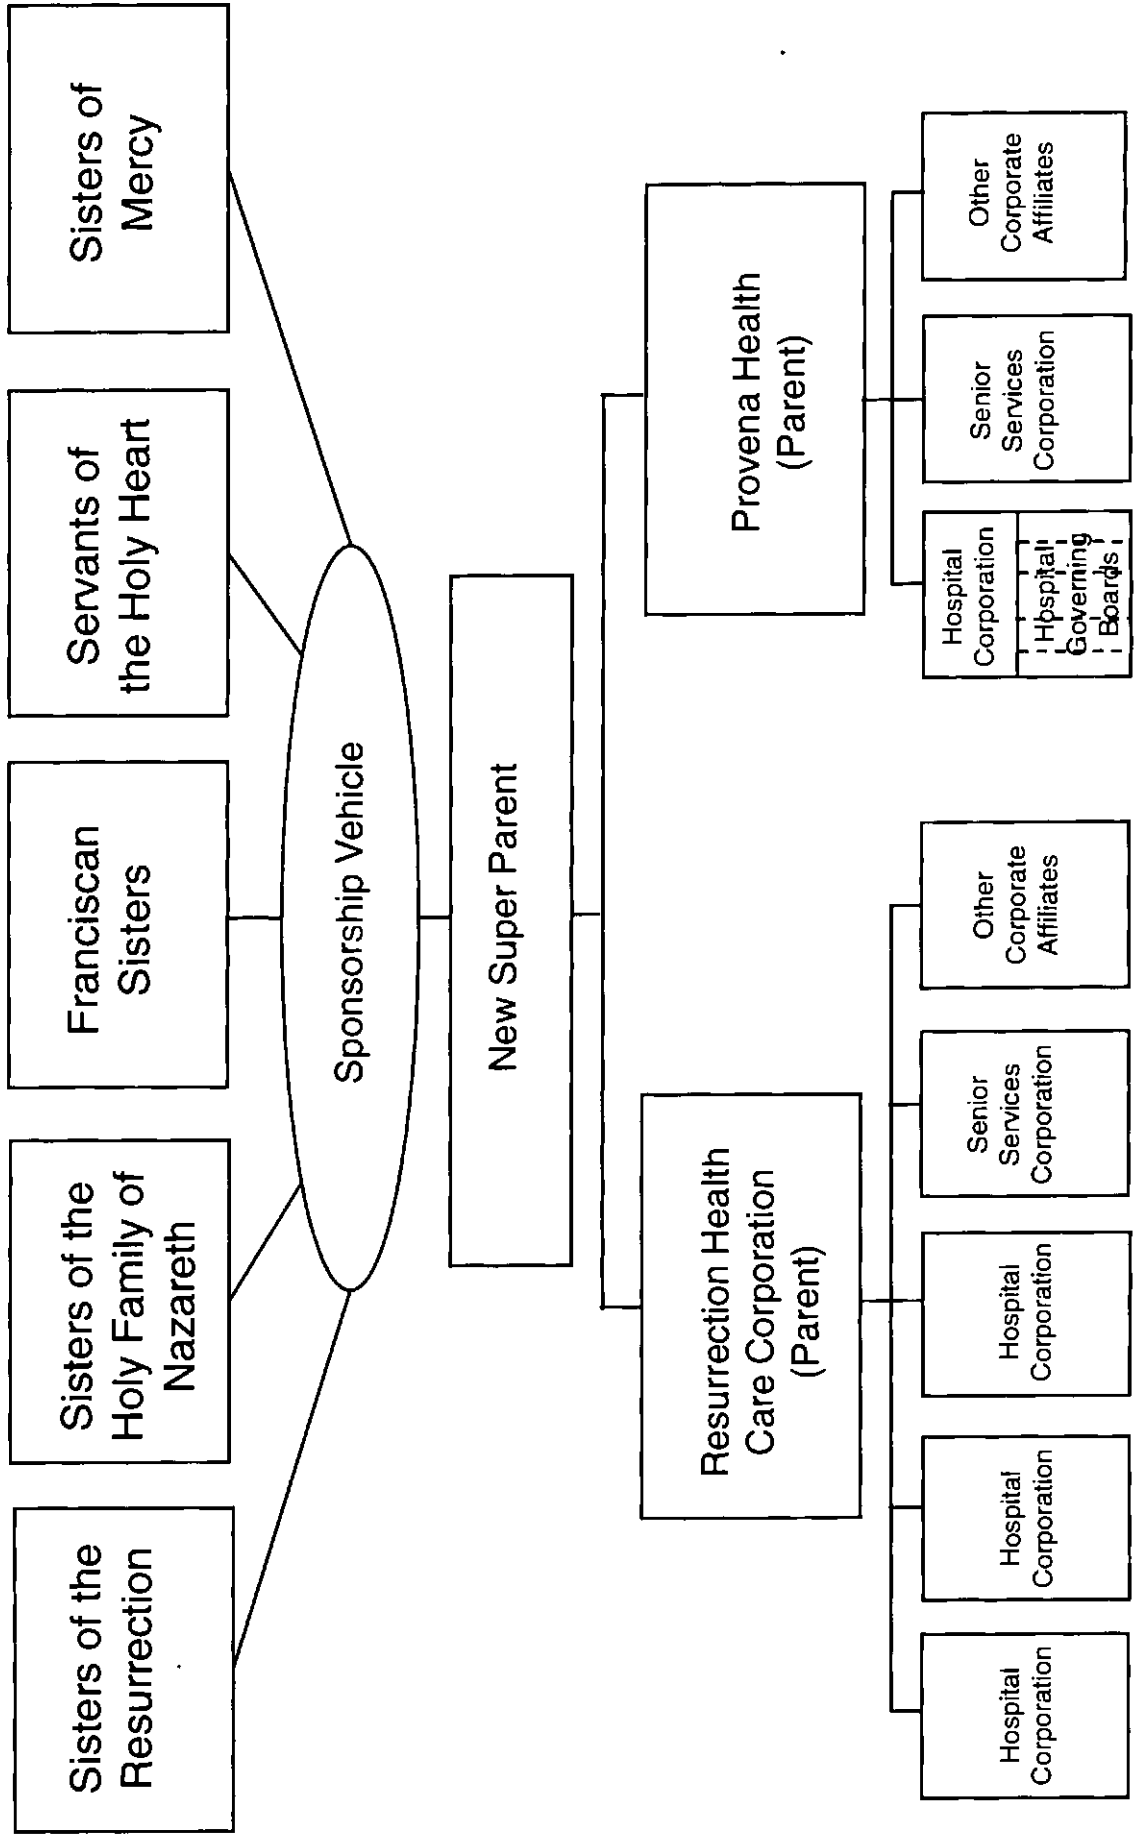

A co-applicant in each Certificate of Need application is Cana Lakes Health Care, which is an existing Illinois not-for-profit corporation. The Cana Lakes corporation will be reconstituted to serve as the super parent entity, through amendment of its corporate documents to reflect unified governance and corporate oversight. The Bylaws of the Super Parent will detail the composition of the Board of Directors; reserve powers of the five (5) religious sponsors; and other governance matters typically addressed in such documents. These Bylaws will be substantially in the form of an exhibit to the System Merger Agreement.

The licensees of the individual hospitals, long-term care facilities and the ASTC will not change. All of Resurrection's clinical programs and all of Provena's clinical programs will be included in the new structure.

The health care facilities and services will continue to operate as Catholic facilities, consistent with the care principles of the Ethical and Religious Directives for Catholic Health Care Services. It is the expectation of the applicants that all major clinical programs will be maintained for a minimum of two years, and each hospital will operate with non-discrimination and charity care policies that are no more restrictive than those currently in place.

The proposed transaction, while meeting the IHFSRB's definition of a "change of ownership" as the result of a new "super parent" entity, is a system merger through a straight forward corporate reorganization, without any payment to Resurrection by Provena, or to Provena by Resurrection. The only true costs associated with the transaction are those costs associated with the transaction itself. The merger is being entered into following thorough due diligence processes completed by both Provena and Resurrection, as well as independent analyses commissioned by Resurrection and by Provena.

Dear Ms. Avery,

Resurrection Health Care Corporation and Provena Health have proposed a merging of the two systems that will better position the combined system's hospitals, long-term care facilities, outpatient centers and other programs and facilities to continue to serve the patients and communities that have traditionally looked to them for care. This system merger is intended to improve the financial viability of both entities as well as enhance patient, employee and medical staff satisfaction. Through a shared culture and integrated leadership, this merger would also position the combined system for innovation and adaptation under health care reform.

The proposed merger will position Resurrection and Provena to strengthen and improve access to Catholic health care in Illinois. This has long been an area of great interest and concern for me, and I am grateful for the willingness of two of our state's premier Catholic providers to collaborate in order to meet the current challenges in health care. As they do now, the combined systems will operate without any restrictive admissions policies related to race, ethnic background, religion, payment source, or any other factor. The new system will continue to admit Medicare and Medicaid recipients and to care for those patients in need of charity care.

This proposed merger has my full support and I can assure you that both Resurrection Health Care and Provena Health are working together collegially and in the best interests of their communities to strengthen and improve access to high quality, highly accountable Catholic health care in the State of Illinois.

Sincerely yours,

Francis Cardinal George, O.M.I.
Archbishop of Chicago

RE: Merger of Provena Health and Resurrection Health Care Corporation

Dear Ms. Avery:

We represent the five communities of women religious who seek the approval of the Illinois Health Facilities and Services Review Board to form a new Catholic health system to serve the citizens of Illinois through a merger of Provena Health and Resurrection Health Care Corporation.

As individual health systems, Provena Health and Resurrection Health Care have long provided compassionate healing to those in need. In keeping with the true spirit of the Sisters who came before us, ours have been ministries deeply focused on quality care for all, regardless of one's ability to pay.

Now, as we anticipate Health Reform and the sweeping changes that will transform the delivery of care as we have come to know it, we are keenly aware that the key to sustaining and growing our person-centered Mission lies in the strength of enduring partnerships we forge today.

By coming together, our two health systems would create the single largest Catholic healthcare network in the State, spanning 12 hospitals, 28 long-term care and senior residential facilities, more than 50 primary and specialty care clinics and six home health agencies, all serving adjacent, non-conflicting markets. A combined Provena Health and Resurrection Health Care would also represent one of the State's largest health systems, with locations throughout Chicago, the suburbs of Des Plaines, Evanston, Aurora, Elgin, Joliet and Kankakee, and Rockford, Urbana, Danville, and Avilla, Indiana, providing services for patients and residents across the continuum through nearly 100 sites of care.

Rooted in the tradition of Catholic healthcare, the new system would be distinguished by an ability to deliver quality care across the continuum from a broad and complementary base of leading edge locations and physician networks. From a foundation steeped in a shared heritage and set of values, the new system would give rise to an enormous potential to truly improve the wellbeing of generations of Illinoisans to come.

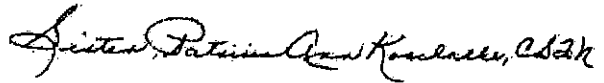

With a dedicated and talented combined team of nearly 5,000 physicians, supported by over 22,000 employees, the new system will play an important role in the economic vitality of the communities in which we serve. Above all, our partnership will remain true to the hallmarks of our Catholic identity: promoting and protecting the dignity of every individual from conception to death, caring for the poor and vulnerable and properly stewarding our precious people and financial resources.

A combined Provena Health and Resurrection Health Care will strengthen and expand access to an exceptional tradition of quality care and service millions of Illinois residents have come to know and depend upon for more than a century. On behalf of the women religious whose communities are sponsoring the proposal before you, we request your approval.

Gratefully,

Sister Mary Elizabeth Imler, OSF
