Springfield, IL 62761

RE: Project 11-016  
ARA McHenry Dialysis Center

Dear Mr. Constantino:

Please accept this letter and its attachments in response to your request for additional patient origin data in support of the above-referenced projects.

A great amount of time has been spent by ARA and Elgin Clinic personnel attempting to retrieve the requested historical data. Because the Elgin Clinic implemented its first electronic records system this year, only this year's ZIP Code-specific data was attainable in a reliable fashion. That data, which identifies the ZIP Code of residence for each Elgin Clinic patient receiving dialysis during the first six months of 2011, by dialysis facility, provides the requested data, albeit not for earlier years. As you are aware, prospective ("pre-ESRD") ZIP Code-specific patient origin has been provided to the State Agency (please see July 18, 2011 letter).

In addition, and to supplement the patient origin data discussed above, ARA has developed patient origin analyses for the requested time periods for each of its two existing facilities, located in South Barrington and Crystal Lake. This information is being provided because approximately two-thirds of the Elgin Clinic's dialysis patients have historically been referred to these facilities.

Thank you for the opportunity to provide this information.

Sincerely,

Jacob M. Axel
