The permit holder is responsible for complying with the following requirements in order to maintain a valid permit. Failure to comply with the requirements may result in expiration of the permit or in State Board action to revoke the permit.

1. **OBLIGATION-PART 1130.720**

The project must be obligated by the Project Obligation Date, unless the permit holder obtains an "Extension of the Obligation Period" as provided in 77 Ill. Adm. Code 1130.730. Obligation is to be reported as part of the first annual progress report for permits requiring obligation within 12 months after issuance. For major construction projects which require obligation within 18 months after permit issuance, obligation must be reported as part of the second annual progress report. If project completion is required prior to the respective annual progress report referenced above, obligation must be reported as part of the notice of project completion. The reporting of obligation must reference a date certain when at least 33% of total funds assigned to project cost were expended or committed to be expended by signed contracts or other legal means.

An annual progress report must be submitted to the State Board every 12-month from the permit issuance date until such time as the project is completed.

Each permit holder shall notify IHFSRB within 30 days following the project completion date and provide supporting documentation within 90 days following the completion date and must contain the information required by Section 1130.770. **Please note the Illinois Department of Public Health will not license the proposed facility until all of the Board's permit and post permit requirements have been completed.**

Sincerely,

Courtney Avery, Administrator
