ILLINOIS HEALTH FACILITIES AND SERVICES REVIEW BOARD  
APPLICATION FOR PERMIT

RECEIVED

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

OCT 25 2011

This Section must be completed for all projects.

Facility/Project Identification

HEALTH FACILITIES &  
SERVICES REVIEW BOARD

Facility Name: Lake Park Dialysis			
Street Address: 43 <sup>rd</sup> & South Cottage Grove			
City and Zip Code: Chicago, IL 60653			
County: Cook	Health Service Area	006	Health Planning Area:

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name: Total Renal Care, Inc.	
Address: 1551 Wewatta Street, Denver, CO 80202	
Name of Registered Agent: Illinois Corporation Service Company	
Name of Chief Executive Officer: Kent Thiry	
CEO Address: 1551 Wewatta Street, Denver, CO 80202	
Telephone Number: (303) 405-2100	

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/> Non-profit Corporation	<input type="checkbox"/> Partnership
<input checked="" type="checkbox"/> For-profit Corporation	<input type="checkbox"/> Governmental
<input type="checkbox"/> Limited Liability Company	<input type="checkbox"/> Sole Proprietorship
	<input type="checkbox"/> Other

- Corporations and limited liability companies must provide an **Illinois certificate of good standing.**
- Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

**APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

Primary Contact

[Person to receive all correspondence or inquiries during the review period]

Name: Kara Friedman
Title: Attorney
Company Name: Polsinelli Shughart PC
Address: 161 North Clark Street, Suite 4200, Chicago, Illinois 60601
Telephone Number: 312-873-3639
E-mail Address: kfriedman@polsinelli.com
Fax Number:

Additional Contact

[Person who is also authorized to discuss the application for permit]

Name: Kelly Ladd
Title: Regional Operations Director
Company Name: DaVita Inc.
Address: 2659 N. Milwaukee Ave., 2 <sup>nd</sup> Floor, Chicago, Illinois 60647

APPEND DOCUMENTATION AS ATTACHMENT-3, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**Organizational Relationships**

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**Flood Plain Requirements**

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at [www.FEMA.gov](http://www.FEMA.gov) or [www.illinoisfloodmaps.org](http://www.illinoisfloodmaps.org). **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS ATTACHMENT-5, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**Historic Resources Preservation Act Requirements**

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS ATTACHMENT-6, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**DESCRIPTION OF PROJECT****1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

<p>Part 1110 Classification:</p> <p><input checked="" type="checkbox"/> Substantive</p> <p><input type="checkbox"/> Non-substantive</p>	<p>Part 1120 Applicability or Classification: [Check one only.]</p> <p><input type="checkbox"/> Part 1120 Not Applicable</p> <p><input type="checkbox"/> Category A Project</p> <p><input checked="" type="checkbox"/> Category B Project</p> <p><input type="checkbox"/> DHS or DVA Project</p>
---	--

## 2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

DaVita Inc. and Total Renal Care, Inc. (the "Applicants") seek authority from the Illinois Health Facilities and Services Review Board (the "Board") to discontinue its existing 20-station dialysis facility located at 1531 E. Hyde Park Blvd., Chicago, Illinois 60615 and to establish a 32-station dialysis facility at 43<sup>rd</sup> & South Cottage Grove, Chicago, Illinois (the "Replacement Facility"). The proposed dialysis facility will include approximately 12,125 gross square feet.

This project has been classified as substantive because it involves the establishment of a health care facility.

**Project Costs and Sources of Funds**

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation			
Off Site Work			
New Construction Contracts	\$1,577,188		\$1,577,188
Modernization Contracts			
Contingencies	\$189,262		\$189,262
Architectural/Engineering Fees	\$98,957		\$98,957
Consulting and Other Fees	\$74,500		\$74,500
Movable or Other Equipment (not in construction contracts)	\$912,685		\$912,685
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment	\$2,694,057		\$2,694,057
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)			
<b>TOTAL USES OF FUNDS</b>	<b>\$5,546,649</b>		<b>\$5,546,649</b>
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities	\$2,852,592		\$2,852,592
Pledges			
Gifts and Bequests			
Bond Issues (project related)			
Mortgages			
Leases (fair market value)	\$2,694,057		\$2,694,057
Governmental Appropriations			
Grants			
Other Funds and Sources			
<b>TOTAL SOURCES OF FUNDS</b>	<b>\$5,546,649</b>		<b>\$5,546,649</b>
<b>NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.</b>			

**Related Project Costs**

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

<p>Land acquisition is related to project      <input type="checkbox"/> Yes      <input checked="" type="checkbox"/> No</p> <p>Purchase Price: \$ _____</p> <p>Fair Market Value: \$ _____</p>
<p>The project involves the establishment of a new facility or a new category of service  <input checked="" type="checkbox"/> Yes      <input type="checkbox"/> No</p> <p>If yes, provide the dollar amount of all <b>non-capitalized</b> operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.</p> <p>Estimated start-up costs and operating deficit cost is \$ <u>0</u> _____.</p>

**Project Status and Completion Schedules**

<p>Indicate the stage of the project's architectural drawings:</p> <p><input type="checkbox"/> None or not applicable      <input checked="" type="checkbox"/> Preliminary</p> <p><input type="checkbox"/> Schematics      <input type="checkbox"/> Final Working</p>
<p>Anticipated project completion date (refer to Part 1130.140): December 31, 2013</p>
<p>Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):</p> <p><input type="checkbox"/> Purchase orders, leases or contracts pertaining to the project have been executed.</p> <p><input type="checkbox"/> Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies</p> <p><input checked="" type="checkbox"/> Project obligation will occur after permit issuance.</p>
<p>APPEND DOCUMENTATION AS <u>ATTACHMENT-8</u>, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.</p>

**State Agency Submittals**

<p>Are the following submittals up to date as applicable:</p> <p><input type="checkbox"/> Cancer Registry <b>NOT APPLICABLE</b></p> <p><input type="checkbox"/> APORS <b>NOT APPLICABLE</b></p> <p><input checked="" type="checkbox"/> All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted</p> <p><input checked="" type="checkbox"/> All reports regarding outstanding permits</p> <p><b>Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.</b></p>
--

**Cost Space Requirements**

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
<b>REVIEWABLE</b>							
Medical Surgical							
Intensive Care							
Diagnostic Radiology							
MRI							
Total Clinical							
<b>NON REVIEWABLE</b>							
Administrative							
Parking							
Gift Shop							
Total Non-clinical							
<b>TOTAL</b>							

**APPEND DOCUMENTATION AS ATTACHMENT-9, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**Facility Bed Capacity and Utilization**

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest **Calendar Year for which the data are available**. **Include observation days in the patient day totals for each bed service**. Any bed capacity discrepancy from the Inventory will result in the application being deemed **incomplete**.

<b>FACILITY NAME:</b>		<b>CITY:</b>			
<b>REPORTING PERIOD DATES:</b>		<b>From:</b>	<b>to:</b>

**CERTIFICATION**

The application must be signed by the authorized representative(s) of the applicant entity. The authorized representative(s) are:

- o in the case of a corporation, any two of its officers or members of its Board of Directors;
- o in the case of a limited liability company, any two of its managers or members (or the sole manager or member when two or more managers or members do not exist);
- o in the case of a partnership, two of its general partners (or the sole general partner, when two or more general partners do not exist);
- o in the case of estates and trusts, two of its beneficiaries (or the sole beneficiary when two or more beneficiaries do not exist); and
- o in the case of a sole proprietor, the individual that is the proprietor.

This Application for Permit is filed on the behalf of DaVita Inc. \*  
 in accordance with the requirements and procedures of the Illinois Health Facilities Planning Act. The undersigned certifies that he or she has the authority to execute and file this application for permit on behalf of the applicant entity. The undersigned further certifies that the data and information provided herein, and appended hereto, are complete and correct to the best of his or her knowledge and belief. The undersigned also certifies that the permit application fee required for this application is sent herewith or will be paid upon request.

**SECTION II. DISCONTINUATION**

This Section is applicable to any project that involves discontinuation of a health care facility or a category of service. **NOTE:** If the project is solely for discontinuation and if there is no project cost, the remaining Sections of the application are not applicable.

**Criterion 1110.130 - Discontinuation**

READ THE REVIEW CRITERION and provide the following information:

**GENERAL INFORMATION REQUIREMENTS**

1. Identify the categories of service and the number of beds, if any that is to be discontinued.
2. Identify all of the other clinical services that are to be discontinued.
3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.
4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.
5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued, and the length of time the records will be maintained.
6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 60 days following the date of discontinuation.

**REASONS FOR DISCONTINUATION**

The applicant shall state the reasons for discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

**IMPACT ON ACCESS**

1. Document that the discontinuation of each service or of the entire facility will not have an adverse effect upon access to care for residents of the facility's market area.
2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.
3. Provide copies of impact statements received from other resources or health care facilities located within 45 minutes travel time, that indicate the extent to which the applicant's workload will be absorbed without conditions, limitations or discrimination.

**APPEND DOCUMENTATION AS ATTACHMENT-10, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

### SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

#### Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

##### BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

**APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.**

##### PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate**.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

**NOTE: Information regarding the "Purpose of the Project" will be included in the State Agency Report.**

**APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.**

**ALTERNATIVES**

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
  - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
  - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
  - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

**APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE**

**Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space**

READ THE REVIEW CRITERION and provide the following information:

**SIZE OF PROJECT:**

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::
  - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
  - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
  - c. The project involves the conversion of existing space that results in excess square footage.

**Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.**

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**PROJECT SERVICES UTILIZATION:**

**This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.**

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. **A narrative of the rationale that supports the projections must be provided.**

**A table must be provided in the following format with Attachment 15.**

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**UNFINISHED OR SHELL SPACE:**

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF to be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
  - a. Requirements of governmental or certification agencies; or
  - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
  - a. Historical utilization for the area for the latest five-year period for which data are available; and
  - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**ASSURANCES:**

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**G. Criterion 1110.1430 - In-Center Hemodialysis**

1. Applicants proposing to establish, expand and/or modernize In-Center Hemodialysis must submit the following information:
2. Indicate station capacity changes by Service: Indicate # of stations changed by action(s):

Category of Service	# Existing Stations	# Proposed Stations
<input checked="" type="checkbox"/> In-Center Hemodialysis	20	32

3. READ the applicable review criteria outlined below and **submit the required documentation for the criteria:**

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.1430(b)(1) - Planning Area Need - 77 Ill. Adm. Code 1100 (formula calculation)	X		
1110.1430(b)(2) - Planning Area Need - Service to Planning Area Residents	X	X	
1110.1430(b)(3) - Planning Area Need - Service Demand - Establishment of Category of Service	X		
1110.1430(b)(4) - Planning Area Need - Service Demand - Expansion of Existing Category of Service		X	
1110.1430(b)(5) - Planning Area Need - Service Accessibility	X		
1110.1430(c)(1) - Unnecessary Duplication of Services	X		
1110.1430(c)(2) - Maldistribution	X		
1110.1430(c)(3) - Impact of Project on Other Area Providers	X		
1110.1430(d)(1) - Deteriorated Facilities			X
1110.1430(d)(2) - Documentation			X
1110.1430(d)(3) - Documentation Related to Cited Problems			X
1110.1430(e) - Staffing Availability	X	X	
1110.1430(f) - Support Services	X	X	X
1110.1430(g) - Minimum Number of Stations	X		
1110.1430(h) - Continuity of Care	X		
1110.1430(j) - Assurances	X	X	X
<b>APPEND DOCUMENTATION AS ATTACHMENT-26, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.</b>			

4. Projects for relocation of a facility from one location in a planning area to another in the same planning area must address the requirements listed in subsection (a)(1) for the "Establishment of Services or Facilities", as well as the requirements in Section 1110.130 - "Discontinuation" and subsection 1110.1430(i) - "Relocation of Facilities".

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

**VIII. - 1120.120 - Availability of Funds**

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: Indicate the dollar amount to be provided from the following sources:

\$2,852,592	a)	Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to:
	1)	the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and
	2)	interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
_____	b)	Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
_____	c)	Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
\$2,694,057	d)	Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including:
	1)	For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated;
	2)	For revenue bonds, proof of the feasibility of securing the specified amount and interest rate;
	3)	For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.;
	4)	For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment;
	5)	For any option to lease, a copy of the option, including all terms and conditions.
_____	e)	Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
_____	f)	Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
_____	g)	All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
\$5,546,649	<b>TOTAL FUNDS AVAILABLE</b>	

**APPEND DOCUMENTATION AS ATTACHMENT-39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**IX. 1120.130 - Financial Viability**

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

**Financial Viability Waiver**

The applicant is not required to submit financial viability ratios if:

1. All of the projects capital expenditures are completely funded through internal sources
2. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
3. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

**APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which **audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion.** When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
<b>Enter Historical and/or Projected Years:</b>				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

**APPEND DOCUMENTATION AS ATTACHMENT 41, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**X. 1120.140 - Economic Feasibility**

This section is applicable to all projects subject to Part 1120.

**A. Reasonableness of Financing Arrangements**

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
  - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
  - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

**B. Conditions of Debt Financing**

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

**C. Reasonableness of Project and Related Costs**

Read the criterion and provide the following:

- 1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
Contingency									
TOTALS									

\* Include the percentage (%) of space for circulation

**D. Projected Operating Costs**

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

**E. Total Effect of the Project on Capital Costs**

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

**APPEND DOCUMENTATION AS ATTACHMENT 42, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**XI. Safety Net Impact Statement**

**SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:**

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

**Safety Net Impact Statements shall also include all of the following:**

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

**A table in the following format must be provided as part of Attachment 43.**

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
<b>Total</b>			
Charity (cost in dollars)	Year	Year	Year
Inpatient			
Outpatient			
<b>Total</b>			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
<b>Total</b>			

Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS ATTACHMENT-43, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**XII. Charity Care Information**

Charity Care information **MUST** be furnished for ALL projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care must be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care

CON - Demolition and New Construction to Establish a 32-Station Dialysis Facility  
NE Corner 43rd St. and Cottage Grove Ave.  
IHPA Log #015092811

October 13, 2011

Anne Cooper  
Polsinelli Shughart  
161 N. Clark St., Suite 4200  
Chicago, IL 60601

Dear Ms. Cooper:

This letter is to inform you that we have reviewed the information provided concerning the referenced project.

Our review of the records indicates that no historic, architectural or archaeological sites exist within the project area.

Please retain this letter in your files as evidence of compliance with Section 4 of the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420/1 et. seq.). This clearance remains in effect for two years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the Illinois Human Skeletal Remains Protection Act (20 ILCS 3440).

If you have any further questions, please contact me at 217/785-5027.

Sincerely,

*Anne E. Haaker*

**Section II, Discontinuation**  
**Criterion 1110.130(a), General**

1. The Applicant seeks authority from the Health Facilities and Services Review Board (the "Board") to discontinue Lake Park Dialysis' 20-station facility located at 1531 E. Hyde Park Blvd., Chicago, Illinois, 60615 (the "Existing Facility"). As documented at Attachment – 10A, the lease for the Existing Facility with University of Chicago will expire on September 30, 2012.
2. No other clinical services will be discontinued as a result of this project.
3. Anticipated Discontinuation Date: September 30, 2012
4. The Applicants lease space for the Existing Facility from Trust No. 20960, held by the American National Bank. As a result, the Applicants will have no control over the use of the space after discontinuation of the Existing Facility.
5. All medical records will be transferred to the Replacement Facility.
6. This project is a relocation of the Existing Facility and not a discontinuation in its entirety. Therefore, this criterion does not apply.

Project: Village Center

**TENANT ESTOPPEL CERTIFICATE**

**Tenant:** The University of Chicago Hospitals

**Landlord:** Village Center, beneficiary under a Trust Agreement with LaSalle Bank National Association, as successor trustee to American National Bank and Trust Company of Chicago, under Trust Number 20960

**LEASE dated:** May 1, 1992

**Amendments dated:** None

**Options:** Option 1 (exercised) - 5 Years - October 1, 2002 - September 30, 2007  
Option 2 - 5 Years - October 1, 2007 - September 30, 2012 ←

**Premises:** 1531 E. Hyde Park Blvd. - 8,085 s.f. ←

**Monthly fixed rent:** \$12,966.54

**CAM Pass Through:** 12.29% of total CAM expenses in excess of base year 1991

**Real Estate Pass Through:** 12.29% of total real estate tax expense in excess of base year 1991

**Lease Term:** Commenced October 1, 1992 and will expire on September 30, 2007

As of the date hereof, the undersigned Tenant under the above-referenced Lease, certifies to 1525 HP, LLC, a Indiana limited liability company, its successors and assigns ("Purchaser") and PROTECTIVE LIFE INSURANCE COMPANY, its successors and/or assigns ("*Lender*") as follows with respect to the Lease:

1. The Lease is the only lease affecting said premises and has not been amended, modified, changed, altered or supplemented, except as shown above. The above information is true and correct.
2. The Lease is in full force and effect and that there are no defaults thereunder or any conditions which with only the passage of time or giving of notice or both would become a default under the terms of said Lease.
3. The fixed monthly rent shown above has been paid through September 2005.
4. No rents have been prepaid except as provided by said Lease, but in no event have rents been paid more than thirty (30) days in advance and that there are no offsets or credits against future accruing rents.
5. Tenant is open and operating and in full and complete possession of the premises demised pursuant to the terms of said Lease. The demised premises, including all improvements, common areas and parking

**Section II, Discontinuation****Criterion 1110.130(b), Reasons for Discontinuation**

The Existing Facility is not large enough to serve the needs of current and future patients. It consistently operates over 100% utilization. This requires operation of a fourth shift. Operating four shifts per day is suboptimal for many reasons, particularly in the City of Chicago where there is a need for 136 dialysis stations. When a fourth shift is operated, the dialysis facility operates nearly around the clock with staff opening the facility around 5:00 a.m. and closing it around midnight. Not only is staffing a fourth shift difficult for clinic personnel, it is also problematic for the patients themselves who are chronically ill and usually elderly. Patients, many of whom rely on assistive devices, such as canes and walkers, are faced with additional safety hazards when arriving and departing the facility in the dark. Few if any quasi-public transportation providers are available at the late hour of the fourth shift. Further, the City of Chicago has a higher crime rate than other parts of the State and both staff and patients are vulnerable to being crime victims outside the facility during evening and night treatments. Some of these hazards cannot be avoided in the summer but patients feel more secure when coming and going during the day. Additionally, a fourth shift increases operating costs by adding additional staffing and facility maintenance costs. Furthermore, the Existing Facility is dilapidated, the lease is ending, and it will be demolished by the owner after the lease terminates. Relocation of the Existing Facility will ensure that patients receive access to modern, high quality dialysis treatment primarily during the day.

**Section II, Discontinuation**  
**Criterion 1110.130(c), Impact on Access**

1. The discontinuation of the Current Site will not negatively impact access to care. To the contrary, it will improve access to life sustaining dialysis to residents of Chicago's south side. The Applicants propose to discontinue the existing 20-station dialysis facility and establish a 32-station dialysis facility. The Replacement Facility will be located at East 43rd Street & South Cottage Grove Avenue, Chicago, IL 60653 approximately 1.8 miles, or 5 minutes, from the Existing Facility. As documented throughout this application, there is an identified need for 136 additional stations in HSA 6 and the relocation and expansion of Lake Park Dialysis will assist in meeting this need.
2. Documentation of the Applicant's request for an impact statement, which was sent to all in-center hemodialysis facilities within 45 minutes normal travel time on February 7, 2011 is attached at Attachment – 10B. A list of facilities located within 45 minutes normal travel time is attached at Attachment – 10C. See Appendices – 1 and 2 for documentation that DaVita sent requests for an impact statement to all in-center hemodialysis facilities within 45 minutes travel time.
3. The Applicants did not receive any impact statements regarding the discontinuation.

SAMPLE LETER

February 7, 2011

Via Fed Ex Mail

Facility Manager  
Mt. Sinai Hosp Med Ctr Renal  
2700 W. 15th Street  
Chicago, Illinois 60608

Dear Facility Manager:

DaVita Inc. and Total Renal Care Inc. are in the process of developing a Certificate of Need (CON) application to discontinue Lake Park Dialysis, the 20-station dialysis facility located at 1531 Hyde Park Boulevard in Chicago. In conjunction with the facility's discontinuation we propose establishing a new, 32-station dialysis facility 5 minutes from the current site. The new Lake Park Dialysis would be located at 5038 S. King Drive in Chicago, IL (60615.) The proposed site is only 1.65 miles west of the existing facility. Please understand that we are still negotiating the lease terms and the address may change. However, we will relocate the facility within a mile or two of its existing site.

The estimated date for the discontinuation and establishment is December 2012.

Over the last two years the facility has served 121 in-center hemodialysis patients. We expect all current patients to transfer to the new facility. We do not expect our plans to have any adverse impact upon access to care for patients in the area or on other providers.

The rules of the Illinois Health Facilities and Services Review Board require us to inform you of these plans and ask you for an impact statement on your facility. Your response must be submitted to us with 15 days of receipt of this letter. You are not required to respond. However, no response will constitute an assumption on our part that the discontinuation will not have an adverse impact on your facility.

Thank you for consideration of this matter. If you have any questions or concerns please contact me or our consultant, Delia Wozniak who may be reached at 773/279-0458.

Sincerely,

Kelly B. Ladd  
Regional Operations  
DaVita Inc.

**After printing this label:**

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

**Warning:** Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on [fedex.com](http://fedex.com). FedEx will not be responsible for claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

**Section III, Project Purpose, Background and Alternatives – Information Requirements**  
**Criterion 1110.230, Project Purpose, Background and Alternatives**

Background of the Applicant

The Applicants are fit, willing and able, and have the qualifications, background and character to adequately provide a proper standard of health care services for the community. DaVita is a leading provider of dialysis services in the United States and is committed to innovation, improving clinical outcomes, compassionate care, education and empowering patients, and community outreach. A copy of DaVita's 2010 Community Care report, much of which is outlined below, details DaVita's commitment to quality, patient centric focus and community outreach, was previously submitted on July 11, 2011 as part of Applicants' applications for Proj. Nos. 11-027 to 11-036. The proposed project involves the discontinuation of Lake Park Dialysis' existing 20-station dialysis facility and the establishment of a 32-station Replacement Facility located at East 43rd Street & South Cottage Grove Avenue, Chicago, Illinois.

DaVita has taken on many initiatives to improve the lives of patients suffering from chronic kidney disease ("CKD") and end stage renal disease ("ESRD"). These programs include the EMPOWER, IMPACT, CathAway, and transplant assistance programs. Information on the EMPOWER, IMPACT and CathAway programs are attached at Attachment – 11A.

There are over 26 million patients with CKD and that number is expected to rise. Current data reveals two troubling trends, which help explain the growing need for dialysis services:

- The prevalence of identified CKD stages 1 to 4 has increased from 10% to 13.1% between 1988 and 2004<sup>1</sup>
- Increasing prevalence in the diagnosis of diabetes and hypertension, the two major causes of CKD

Additionally, DaVita's EMPOWER program helps to improve intervention and education for pre-ESRD patients. Approximately 65% of CKD Medicare patients have never been evaluated by a nephrologist.<sup>2</sup> Timely CKD care is imperative for patient morbidity and mortality. Adverse outcomes of CKD can often be prevented or delayed through early detection and treatment. Several studies have shown that early detection, intervention and care of CKD may result in improved patient outcomes and reduce ESRD:

- Reduced GFR is an independent risk factor for morbidity and mortality,
- A reduction in the rate of decline in kidney function upon nephrologists referrals has been associated with prolonged survival of CKD patients,
- Late referral to a nephrologist has been correlated with lower survival during the first 90 days of dialysis, and
- Timely referral of CKD patients to a multidisciplinary clinical team may improve outcomes and reduce cost.

A care plan for patients with CKD includes strategies to slow the loss of kidney function, manage comorbidities, and prevent or treat cardiovascular disease and other complications of CKD, as well as ease the transition to kidney replacement therapy. Through the EMPOWER program, DaVita offers educational services to CKD patients that can help patients reduce, delay, and prevent adverse outcomes of untreated CKD. DaVita's EMPOWER program encourages CKD patients to take control of their health and make informed decisions about their dialysis care.

---

<sup>1</sup> US Renal Data System, USRDS 2007 Annual Data Report: Atlas of Chronic Kidney Disease and End-Stage Renal Disease in the United States, Bethesda, MD: National Institutes of Health, National Institute of Diabetes and Digestive and Kidney Diseases; 2007.

<sup>2</sup> Id.

DaVita's IMPACT program seeks to reduce patient mortality rates during the first 90-days of dialysis through patient intake, education and management, and reporting. In fact, since piloting in October 2007, the program has not only shown to reduce mortality rates by 8 percent but has also resulted in improved patient outcomes.

DaVita's CathAway program seeks to reduce the number of patients with central venous catheters ("CVC"). Instead patients receive arteriovenous fistula ("AV fistula") placement. AV fistulas have superior patency, lower complication rates, improved adequacy, lower cost to the healthcare system, and decreased risk of patient mortality compared to CVCs. In July 2003, the Centers for Medicare and Medicaid Services, the End Stage Renal Disease Networks and key providers jointly recommended adoption of a National Vascular Access Improvement Initiative ("NVAII") to increase the appropriate use of AV fistulas for hemodialysis. The CathAway program is designed to comply with NVAII through patient education outlining the benefits for AV fistula placement and support through vessel mapping, fistula surgery and maturation, first cannulation and catheter removal. DaVita is an industry leader in the rate of fistula use and had the lowest day-90 catheter rates among large dialysis providers in 2010.

DaVita's transplant referral and tracking program ensures every dialysis patient is informed of transplant as a modality option and promotes access to transplantation for every patient who is interested and eligible for transplant. The social worker or designee obtains transplant center guidelines and criteria for selection of appropriate candidates and assists transplant candidates with factors that may affect their eligibility, such as severe obesity, adherence to prescribed medicine or therapy, and social/emotional/financial factors related to post-transplant functioning.

In an effort to better serve all kidney patients, DaVita believes in requiring that all providers measure outcomes in the same way and report them in a timely and accurate basis or be subject to penalty. There are four key measures that are the most common indicators of quality care for dialysis providers - dialysis adequacy, fistula use rate, nutrition and bone and mineral metabolism. Adherence to these standard measures has been directly linked to 15-20% fewer hospitalizations. On each of these measures, DaVita has demonstrated superior clinical outcomes, which directly translated into 7% reduction in hospitalizations among DaVita patients, the monetary result of which is \$509 million in savings to the health care system and the American taxpayer in 2010.

DaVita is also committed to sustainability and reducing its carbon footprint. In fact, it is the only kidney care company recognized by the Environmental Protection Agency for its sustainability initiatives. In 2010, DaVita opened the first LEED-certified dialysis center in the U.S. Furthermore, it saves approximately 8.5 million pounds of medical waste through dialyzer reuse and it also diverts 95% of its waste through composting and recycling programs. It has also undertaken a number of similar initiatives at its offices and is seeking LEED Gold certification for its corporate headquarters.

DaVita consistently raises awareness to community needs and makes cash contributions to organizations aimed at improving access to kidney care. In 2010, DaVita donated more than \$2 million to kidney disease- awareness organizations such as the Kidney TRUST, the National Kidney Foundation, the American Kidney Fund, and several other organizations. Its own employees, or members of the "DaVita Village," assisted in these initiatives by raising more than \$3.4 million through Tour DaVita and DaVita Kidney Awareness Run/Walks.

DaVita does not limit its community engagement to the U.S. alone. It founded Bridge of Life, a 501(c)(3) nonprofit organization that operates on donations to bring care to those for whom it is out of reach. In addition to contributing Dialysis equipment to DaVita Medical Missions, Bridge of Life has accomplished 18 Missions since 2006, with more than 75 participating teammates spending more than 650 days abroad. It provided these desperately needed services in Cameroon, India, Ecuador, Guatemala, and the Philippines, and trained many health care professionals there as well.

Neither the Centers for Medicare and Medicaid Services or the Illinois Department of Public Health has taken any adverse action involving civil monetary penalties or restriction or termination of participation in the Medicare or Medicaid programs against any of the applicants, or against any Illinois health care

facilities owned or operated by the Applicants, directly or indirectly, within three years preceding the filing of this application.

1. Health care facilities owned or operated by the Applicants:

A list of health care facilities owned or operated by the Applicants in Illinois is attached at Attachment – 11B.

Dialysis facilities are currently not subject to State Licensure in Illinois.

2. Certification that no adverse action has been taken against either of the Applicants or against any health care facilities owned or operated by the Applicants in Illinois within three years preceding the filing of this application is attached at Attachment – 11C.
3. An authorization permitting the Illinois Health Facilities and Services Review Board ("HFSRB") and the Illinois Department of Public Health ("IDPH") access to any documents necessary to verify information submitted, including, but not limited to: official records of IDPH or other State agencies; and the records of nationally recognized accreditation organizations is attached at Attachment – 11C.

Dear Physician Partners:

IMPACT™ is an initiative focused on reducing incident patient mortality. The program provides a comprehensive onboarding process for incident patients, with program materials centered on four key clinical indicators—access, albumin, anemia, and adequacy.

**Medical Directors: How can you support IMPACT in your facilities?**

- Customize the new Standard Admission Order template into facility-specific orders. Drive use of the standard order with your attending physicians
- Review your facility IMPACT scorecard at your monthly QIFMM meeting
- Talk about IMPACT regularly with your attending physicians

**Attending Physicians: How can you support IMPACT in your facilities?**

- Use the IMPACT scorecard to assess incident patients
- Educate teammates about the risk incident patients face and how IMPACT can help

**How was IMPACT developed? What are the initial results?**

From October 2007 to April 2009, IMPACT was piloted in DaVita® centers. Early results, presented at the National Kidney Foundation's Spring Clinical Meeting in Nashville, TN this April, showed an 8% reduction in annualized mortality. In addition to lower mortality, IMPACT patients showed improvements in fistula placement rates and serum albumin levels. The results are so impressive that we are implementing this program throughout the Village.

**Your support of this effort is crucial.**

If you have not seen the IMPACT order template and scorecard by the end of June, or if you have additional questions about the program, email [impact@davita.com](mailto:impact@davita.com). Together we can give our incident patients the quality and length of life they deserve.

Sincerely,

Dennis Kogod  
Chief Operating Officer

Allen R. Nissenson, MD, FACP  
Chief Medical Officer

FOR IMMEDIATE RELEASE

## DaVita's IMPACT Program Reduces Mortality for New Dialysis Patients

*Study Shows New Patient Care Model Significantly Improves Patient Outcomes*

El Segundo, Calif., (March, 29, 2009) – DaVita Inc., a leading provider of kidney care services for those diagnosed with chronic kidney disease (CKD), today released the findings of a study revealing DaVita's IMPACT™ (Incident Management of Patients, Actions Centered on Treatment) pilot program can significantly reduce mortality rates for new dialysis patients. The study presented at the National Kidney Foundation's Spring Clinical Meeting in Nashville, TN details how the IMPACT patient care model educates and manages dialysis patients within the first 90 days of treatment, when they are most unstable and are at highest risk. In addition to lower mortality rates, patient outcomes improved - confirming the health of this vulnerable patient population is better supported under DaVita's *Relentless Pursuit of Quality*™ care.

The pilot program was implemented with 606 patients completing the IMPACT program over a 12 month period in 44 DaVita centers around the nation. IMPACT focuses on patient education and important clinical outcomes - such as the measurement of adequate dialysis, access placement, anemia, and albumin levels - monitoring the patient's overall health in the first 90 days on dialysis. Data reflects a reduction in annualized mortality rates by eight percent for IMPACT patients compared with non-IMPACT patients in the DaVita network. Given that DaVita has roughly 28,000 new patients starting dialysis every year, this reduction affects a significant number of lives.

In addition, a higher number of IMPACT patients versus non-IMPACT patients had an arteriovenous fistula (AVF) in place. Research shows that fistulas - the surgical connection of an artery to a vein - last longer and are associated with lower rates of infection, hospitalization and death compared to all other access choices.

Allen R. Nissenson, MD, Chief Medical Officer at DaVita says, "The IMPACT program is about quality patient care starting in the first 90 days and extending beyond. Improved outcomes in new dialysis patients translates to better long term results and healthier patients overall."

Researchers applaud the IMPACT program's inclusion of all patients starting dialysis, regardless of their cognitive ability or health status. Enrolling all patients at this early stage in their treatment allows them to better understand their disease and care needs while healthcare providers work to improve their outcomes. Through this program, DaVita mandates reporting on this particular population to better track and manage patients through their incident period.

Dennis Kogod, Chief Operating Officer of DaVita says, "We are thrilled by the promising results IMPACT has had on our new dialysis patients. DaVita continues to be the leader in the kidney care community, and we look forward to rolling out this program to all facilities later this year, to improve the health of all new dialysis patients."

## Incident Management of Hemodialysis Patients: Managing the First 90 Days

John Robertson<sup>1</sup>, Pooja Goell<sup>1</sup>, Grace Chen<sup>1</sup>, Ronald Levine<sup>1</sup>, Debbie Benner<sup>1</sup>, and Amy Burdan<sup>1</sup>  
<sup>1</sup>DaVita Inc., El Segundo, CA, USA

IMPACT (Incident Management of Patients, Actions Centered on Treatment) is a program to reduce mortality and morbidity in new patients during the first 3 months of dialysis, when these patients are most vulnerable. IMPACT was designed to standardize the onboarding process of incident patients from their 0 to 90-day period. We report on an observational (non-randomized), un-blinded study of 606 incident patients evaluated over 12 months (Oct77-Oct08) at 44 US DaVita facilities.

The study focused on 4 key predictive indicators associated with lower mortality and morbidity —anemia, albumin, adequacy and access (4As). IMPACT consisted of:

- (1) Structured New Patient Intake Process with a standardized admission order, referral fax, and an intake checklist;
- (2) 90-day Patient Education Program with an education manual and tracking checklist;
- (3) Tools for 90-day Patient Management Pathway including QOL; and
- (4) Data Monitoring Reports.

Data as of July, 2008 is reported. Patients in the IMPACT group were 60.6 ± 15.1 years old (mean±3SD), 42.8% Caucasian, 61% male with 25% having a fistula. Results showed a reduction in 90-day mortality almost 2 percentage points lower (6.14% vs. 7.98%;  $p < 0.10$ ) among IMPACT versus nonIMPACT patients. Changes among the 4As showed higher albumin levels from 3.5 to 3.6 g/dL (note that some IMPACT patients were on protein supplementation during this period) and patients achieving fistula access during their first 90-days was 25% vs. 21.4%, IMPACT and nonIMPACT, respectively ( $p \leq 0.05$ ). However, only 20.6% of IMPACT patients achieved Hct targets ( $33 \leq 3xHb \leq 36$ ) vs. 23.4% for controls ( $p < 0.10$ ); some IMPACT patients may still have  $>36$ -level Hcts. Mean calculated Kt/V was 1.54 for IMPACT patients vs. 1.58 for nonIMPACT patients ( $p \leq 0.05$ ).

IMPACT is a first step toward a comprehensive approach to reduce mortality of incident patients. We believe this focus may help us to better manage CKD as a continuum of care. Long-term mortality measures will help determine if this process really impacts patients in the intended way, resulting in longer lives and better outcomes.

# IMPACT Tools

Here's how the IMPACT program will help the team record data, educate patients and monitor their progress in your facilities.

- 1 Standard Order Template, a two-page form with drop-down menus that can be customized into a center-specific template
- 2 Intake Checklist to gather registration and clinical data prior to admission
- 3 Patient Announcement to alert teammates about new incident patients
- 4 Patient Education Book and Flip Chart to teach patients about dialysis
- 5 Tracking Checklist for the team to monitor progress over the first 90 days
- 6 IMPACT Scorecard to track monthly center summary and patient level detail for four clinical indicators: access, albumin, adequacy, anemia

**3**

*Attention, teammates!*  
A new IMPACT patient is about to step up to the plate.

Let's become their biggest fans. Let's coach and encourage them. And let's cheer them along every step of their first 90 days.

April 30, 2009

Dear Physicians:

As your partner, DaVita® and OCMO are committed to helping you achieve unprecedented clinical outcomes with your patients. As part of OCMO's Relentless Pursuit of Quality™, DaVita will be launching our top two clinical initiatives; IMPACT and CathAway™, at our annual 2009 Nationwide Meeting. Your facility administrators will be orienting you on both programs upon their return from the meeting in early May.

**IMPACT:** The goal of IMPACT is to reduce incident patient mortality. IMPACT stands for Incident Management of Patients Actions Centered on Treatment. The program focuses on three components: patient intake, education and management and reporting. IMPACT has been piloting since October 2007 and has demonstrated a reduction in mortality. The study recently presented at the National Kidney Foundation's Spring Clinical Meeting in Nashville, TN. In addition to lower mortality rates, patient outcomes improved - confirming this vulnerable patient population is healthier under DaVita's relentless pursuit of quality care.

**CathAway:** Higher catheter use is associated with increased infection, morbidity, mortality and hospitalizations <sup>(1) (2)</sup>. The 7-step Cathaway Program supports reducing the number of patients with central venous catheters (CVCs). The program begins with patient education outlining the benefits of fistula placement. The remaining steps support the patient through vessel mapping, fistula surgery and maturation, first cannulation and catheter removal. For general information about the CathAway program, see the November 2008 issue of QUEST, DaVita's Nephrology Journal.

Here is how you can support both initiatives in your facilities:

- **Assess incident patients regularly in their first 90 days:** Discuss patients individually and regularly. Use the IMPACT scorecard to prompt these discussions.
- **Adopt "Facility Specific Orders":** Create new facility specific orders using the form that will be provided to you.
- **Minimize the "catheter-removal" cycle time:** Review each of your catheter patients with your facility teammates and identify obstacles causing delays in catheter removal. Work with the team and patients to develop action plans for catheter removal.
- **Plan fistula and graft placements:** Start AV placement plans early by scheduling vessel mapping and surgery evaluation appointments for Stage 4 CKD patients. Schedule fistula placement surgery for those patients where ESRD is imminent in the next 3-6 months.

DaVita.

**Launch Kits:**

In May, Launch Kits containing materials and tools to support both initiatives will be arriving at your facilities. IMPACT kits will include a physician introduction to the program, step by step implementation plan and a full set of educational resources. FAs and Vascular Access Leaders will begin training on a new tool to help identify root-causes for catheter removal delays.

Your support of these efforts is crucial. As always, I welcome your feedback, questions and ideas. Together with you, our physician partners, we will drive catheter use to all-time lows and help give our incident patients the quality and length of life they deserve.

Sincerely,

Allen R. Nissenson, MD, FACP  
Chief Medical Officer, DaVita

- (1) Dialysis Outcomes and Practice Patterns Study (DOPPS): 2 yrs/7 Countries / 10,000 pts.
- (2) Pastan et al: Vascular access and increased risk of death among hemodialysis patients.

# Knowledge is power.

EMPOWER® is an educational program by DaVita®. The program includes a series of free community based classes for patients with chronic kidney disease (CKD). These classes encourage you to take control of your kidney disease and prepare for dialysis by making healthy choices about your kidney care

## Taking Control Of Kidney Disease

Learn how to slow the progression of kidney disease.

- Kidney disease and related conditions
- Behavior modification
- Dietary guidelines
- Common medications
- Insurance choices
- Ways to cope with CKD
- Questions to ask your health care team

## Making Healthy Choices

Learn how to prepare for dialysis.

- Kidney disease and related conditions
- Behavior modification
- Dietary guidelines
- Common medications
- Treatments that allow you to stay active and continue to work
- Insurance choices
- Ways to cope with CKD
- Questions to ask your health care team

## Treatment Choices

An in-depth look at all of your treatment choices.

- Kidney disease and related conditions
- Treatments that allow you to stay active and continue to work
- Insurance choices
- Ways to cope with CKD
- Questions to ask your health care team

To register for a class, call 1-888-MyKidney (695-4363).

EMPOWER®

Dale Galassie  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

Dear Chairman Galassie:

I hereby certify under penalty of perjury as provided in § 1-109 of the Illinois Code of Civil Procedure, 735 ILCS 5/1-109 that no adverse action has been taken against any facility owned or operated by DaVita Inc. or Total Renal Care, Inc. during the three years prior to filing this application.

Additionally, pursuant to 77 Ill. Admin. Code § 1110.230(a)(3)(C), I hereby authorize the Health Facilities and Services Review Board ("HFSRB") and the Illinois Department of Public Health ("IDPH") access to any documents necessary to verify information submitted as part of this application for permit. I further authorize HFSRB and IDPH to obtain any additional information or documents from other government agencies which HFSRB or IDPH deem pertinent to process this application for permit.

Sincerely,

Luis Borgen  
Chief Financial Officer  
DaVita Inc.  
Total Renal Care, Inc.

Attachment – 11C

**Section III, Project Purpose, Background and Alternatives – Information Requirements**  
**Criterion 1110.230(b), Project Purpose, Background and Alternatives**

Purpose of the Project

1. The Applicants propose to discontinue the Existing Facility located at 1531 E. Hyde Park Blvd., Chicago, IL 60615 and establish a replacement facility at East 43rd Street & South Cottage Grove Avenue, Chicago, IL 60653 (the "Replacement Facility") and to meet the growing need for dialysis services in the City of Chicago. There is currently a need for 136 dialysis stations in the Chicago HSA. The Existing Facility is insufficient to meet demand. For several years, the facility has operated at or above 100% utilization. As of September 30, 2011, it is operating at 105%. There is insufficient space at the Existing Facility to expand the capacity required to meet patient demand. Furthermore, the lease for the Existing Facility with University of Chicago will expire on September 30, 2012. As such, Lake Park Dialysis must relocate to the Replacement Facility and add 12 stations. The proposed location is just 1.8 miles from the Existing Facility, so the facility will continue to serve its current patients and meet rising demand in its geographic service area ("GSA"). The additional stations at the new site will reduce the need for additional stations in Chicago from 136 to 124.

The Replacement Facility is needed to serve the growing demand for dialysis services in the Lake Park Dialysis neighborhood. In 2010, utilization at the Existing Facility was 106.7%, and has remained steady. In fact, average utilization for 2011 year-to-date is 103%. This requires operation of a fourth shift, resulting in patients receiving treatment well past midnight, which is suboptimal and sometimes dangerous for patients and staff. This is the case for other local facilities as well. In fact, 9 area facilities are operating above 90 percent utilization and 4 are operating above 100% utilization. These facilities are likely operating four shifts in order to meet demand. Thus, the addition of 12 dialysis stations will make treatment times more convenient for patients without negatively impacting utilization at other facilities, as discussed in more detail below. The Lake Park Dialysis chronically ill patient population is largely comprised of low-income, disabled, and vulnerable individuals that require access to care DaVita provides at Lake Park.

Currently, the Existing Facility serves 126 ESRD patients. Dr. Bharathi Reddy, the primary referring physician for Lake Park Dialysis, anticipates all 126 current patients will transfer to the Replacement Facility. Dr. Reddy also identifies 57 Stage 4 and Stage 5 CKD patients that would likely be referred to the Replacement Facility. See Attachment – 12A Based upon a 35% attrition rate due to patient death, transplant, or return of function, it is projected that 37 of the patients will require dialysis within the next 12 to 18 months. Thus, the approximately 163 patients will be referred to the Replacement Facility within 12 to 18 months. This represents an 85% utilization rate, which exceeds the State's 80% standard.

Furthermore, utilization of existing facilities to accommodate growing need for dialysis is not feasible. As shown in Attachment – 12B, there are currently 49 existing or approved dialysis facilities within 30 minutes normal travel time of the Replacement Facility and utilization of existing facilities as reported to The Renal Network (the "Renal Network Utilization Data") for the quarter ending June 30, 2011 is 76%, just 4% below the Board's 80% utilization standard. Additionally, when excluding facilities not in operation for one quarter or more, average utilization in the service area is 80%.

It is essential the Applicants obtain approval for a new location in order to continue providing necessary dialysis services to Lake Park Dialysis' patients. The community surrounding Lake Park Dialysis is largely comprised of low-income, disabled, and vulnerable individuals that require access to care DaVita provides at Lake Park Dialysis. Although there are other facilities in the area, they will not be able to easily accommodate Lake Park patients due to high utilization.

2. A map of the market area for the proposed facility is attached at Attachment – 12C. The market area encompasses a 16 mile radius around the proposed facility. The boundaries of the market area are as follows:

- North approximately 30 minutes normal travel time to Morton Grove
- Northeast approximately 9 minutes normal travel time to Navy Pier
- East approximately 2 minutes normal travel time to Lakeshore Drive
- Southeast approximately 30 minutes normal travel time to East Chicago
- South approximately 30 minutes normal travel time to South Holland
- Southwest approximately 30 minutes normal travel time to Palos Hills
- West approximately 30 minutes normal travel time to Oakbrook
- Northwest approximately 30 minutes normal travel time to O'Hare International Airport

3. While this is the minimum size of a GSA, most of the patients reside within the immediate vicinity of the Existing and Replacement Facilities. A large percentage of the area is African American (approximately 32%) or Hispanics (approximately 30%). African Americans are at an increased risk of ESRD compared to the general population due to the higher prevalence of diabetes and hypertension, the two leading causes of CKD and ESRD, in the African American community. In fact, the ESRD incident rate among African Americans is 3.6 times greater than whites. This, coupled with the aging population, utilization is expected to increase.

The current patient utilization along with the pre-ESRD patients identified by Dr. Bharathi Reddy confirms this. 126 patients will continue treatment at the Replacement Facility, and Dr. Reddy is currently treating 57 Stage 4 and Stage 5 CKD patients. Assuming a 35% attrition rate due to death, transplant, return of function, and relocation, approximately 37 patients of the current Stage 4 and Stage 5 CKD patients will initiate in-center hemodialysis at the Replacement Facility. This represents a utilization of 85% by the second year following project completion. This will contribute to the need identified in the HFSRB Inventory.

The proposed facility will be located in Chicago. As shown in the physician referral letter attached at Attachment – 12A, the majority of pre-ESRD patients projected to utilize the proposed facility reside in Lake Park Dialysis' service area.

#### 4. Source Information

The Renal Network, Utilization Data for the Quarter Ending June 30, 2011.

U.S. Census Bureau, American FactFinder, Fact Sheet, *available at* [http://factfinder.census.gov/home/saff/main.html?\\_lang=en](http://factfinder.census.gov/home/saff/main.html?_lang=en) (last visited Aug. 22, 2011).

U.S. Renal Data System, USRDS 2010 Annual Data Report: Atlas of Chronic Kidney Disease and End-Stage Renal Disease in the United States, National Institutes of Health, National Institute of Diabetes and Digestive and Kidney Diseases, Bethesda, MD, 2010 *available at* <http://www.usrds.org/atlas.htm> (last visited Aug. 22, 2011).

U.S. Renal Data System, USRDS 2007 Annual Data Report: Atlas of Chronic Kidney Disease and End-Stage Renal Disease in the United States, National Institutes of Health, National Institute of Diabetes and Digestive and Kidney Diseases, Bethesda, MD, 2007 *available at* [http://www.usrds.org/adr\\_2007.htm](http://www.usrds.org/adr_2007.htm) (last visited Aug. 22, 2011).

5. As stated, the Existing Facility is currently operating at approximately 105% utilization, which requires the facility to operate a 4<sup>th</sup> shift with the last patient leaving well after 10 p.m. The proposed project, which includes the addition of 12 stations, will increase needed area dialysis capacity and allow patients to obtain treatment at more optimal times. Additionally, the increase in capacity will enable DaVita to more effectively meet projected increases in demand set forth above.

6. The Applicants anticipate the proposed facility will have quality outcomes comparable to other DaVita facilities.

Additionally, in an effort to better serve all kidney patients, DaVita believes in requiring all providers measure outcomes in the same way and report them in a timely and accurate basis or be subject to penalty. There are four key measures that are the most common indicators of quality care for dialysis providers - dialysis adequacy, fistula use rate, nutrition and bone and mineral metabolism. Adherence to these standard measures has been directly linked to 15-20% fewer hospitalizations. On each of these measures, DaVita has demonstrated superior clinical outcomes, which directly translated into 7% reduction in hospitalizations among DaVita patients, the monetary result of which was \$509M in hospitalization savings to the health care system and the American taxpayer in 2010.

October 20, 2011

Dale Galassie  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

Dear Chairman Galassie:

We are pleased to support the relocation and expansion of Lake Park Dialysis. The new 32-station chronic renal dialysis facility, to be located at East 43rd Street & South Cottage Grove Avenue, Chicago, IL 60653, will afford us the space we need to provide our patients with the highest level of care. The proposed addition of twelve (12) stations would assist us in serving our large patient population without the need for a late 4<sup>th</sup> shift.

We are excited about the enhancement in patient care the new facility will offer. Since 2007 we have served between 114 and 128 patients at Lake Park Dialysis resulting in utilization as high as 107% at the existing 20-station facility. As of September 30<sup>th</sup>, we referred 30 new patients to the facility in 2011 alone. Please refer to our practice's historical caseload attached hereto.

Due to the large number of patients our practice serves, we fully support the plan to relocate and expand Lake Park Dialysis. We have discussed the project with our patients. When the facility opens at the end of next year we anticipate referring 163 patients to the new facility, including 126 current Lake Park Dialysis patients who wish to transfer to the new facility.

Furthermore, our practice is currently treating 57 Stage 4 and Stage 5 chronic kidney disease patients whose condition is advancing to end stage renal disease (ESRD). Based upon a conservative 35% attrition rate due to patient death, transplant, or return of function, it is projected that 30 of the patients will require dialysis within the next 12 to 18 months. Thus, we expect to refer a total of 163 patients to the new facility. Lists of historical patient referrals and pre-ESRD patients are attached hereto.

These patient referrals have not been used to support another pending or approved certificate of need application.

The information in this letter is true and correct to the best of my knowledge.

I support the proposed relocation and expansion of Lake Park Dialysis.

Sincerely,

*V. Bharathi*

**Section III, Project Purpose, Background and Alternatives – Information Requirements**  
**Criterion 1110.230(c), Project Purpose, Background and Alternatives**

Alternatives

The Applicants explored several options prior to determining to relocate and expand Lake Park Dialysis. After exploring the options below in detail, the Applicants determined to relocate and expand its capacity in order to meet rising demand. A review of each of the options considered and the reasons they were rejected follows.

Do Nothing

This is not a viable option. As stated in Attachment – 12, the Existing Facility is insufficient to meet demand. For several years, the facility has operated at or above 100% utilization and is currently operating at 105%. This requires the operation of a fourth shift. Operating four shifts per day is not feasible for many reasons. When a fourth shift is operated, the dialysis facility operates nearly around the clock with staff opening the facility around 5:00 a.m. and closing it around midnight. Not only is staffing a fourth shift difficult for clinic personnel, it is also suboptimal for the patients themselves who are chronically ill and usually elderly. Patients, many of whom rely on assistive devices, such as canes and walkers, are faced with additional safety hazards when arriving and departing the facility in the dark. Some of these hazards cannot be avoided in the winter but patients feel more secure when coming and going at night. Additionally, a fourth shift increases operating costs by adding additional staffing and utilities costs. Relocation of the Existing Facility will ensure that patients receive access to modern, high quality dialysis treatment. Additionally, there is insufficient space to permit the expansion of capacity required to meet patient demand and the lease with the University of Chicago expires on September 30, 2012. Thus, this is not an option.

There is no capital cost with this alternative, however, if the project is delayed, the Applicants will be subject to penalties and costs relating to holding over in the space after lease termination.

Utilize Existing Facilities

Utilization of existing facilities to accommodate growing need for dialysis is not feasible. Utilization of existing facilities within Lake Park Dialysis' service area is 76%, just 4% below the Board's 80% utilization standard. The Applicants acknowledge the Renal Network Utilization Data excludes 4 dialysis facilities approved by the Board that have not commenced operations (FMC Chatham, FMC West Willow, FMC South Deering, and Grand Crossing Dialysis). Importantly, these facilities will serve distinct patient populations.

In fact, Dr. Bharathi Reddy is unrelated to either of the primary nephrologists for the four non-operational facilities. Accordingly, there is no overlap of patients between Lake Park Dialysis and the other facilities currently under construction. Moreover, the referring physicians for the four facilities anticipate they will refer a sufficient number of patients to each facility that all non-operational facilities will be operating at or above the Board's 80% utilization standard by the second year after project completion. Therefore, the non-operational facilities are not a viable option for Lake Park Dialysis patients.

Additionally, when excluding facilities not in operation for one quarter or more, average utilization in the service area is 80%. The Renal Network Utilization Data also takes into account 3 facilities, FMC – Midway, West Lawn Dialysis, and RCG – Uptown, all of which have only been in operation for one quarter. The referring physicians for the four facilities anticipate they will refer a sufficient number of patients to each facility that all non-operational facilities will be operating at or above the Board's 80% utilization standard by the second year after project completion. As such, the utilization within the service area will meet or exceed the State's 80% standard within 12 to 18 months

It is essential the Applicants obtain approval for a new location in order to continue providing necessary dialysis services to Lake Park Dialysis' patients. The community surrounding Lake Park Dialysis is largely comprised of low-income, disabled, and vulnerable individuals that require access to care DaVita provides at Lake Park Dialysis. Although there are other facilities in the area, they will not be able to easily accommodate Lake Park patients due to high utilization. Thus, this is not an option.

There is no cost with this alternative.

Relocate and Expand Lake Park Dialysis

DaVita determined that the most effective and efficient way to serve its patients and address the need for more stations in HSA 6 is to relocate and expand the existing facility. The proposed site for the Replacement Facility is just located just 1.8 miles from the current site, and will adequately serve Lake Park Dialysis' current and projected patient-base. Thus, the Applicants selected this option.

The cost associated with this option is \$5,546,649

Table 1110.230(c)				
Alternatives to Proposed Project				
Cost Benefit Analysis				
Alternative	Community Need	Access	Capital Cost	Status
Do Nothing	Not Met	Decreased	\$0	Reject
Utilize Existing Facilities	Not Met	Decreased	\$0	Reject
Establish New Facility	Met	Increased	\$5,546,649	Accept

**Section IV, Project Scope, Utilization, and Unfinished/Shell Space**  
**Criterion 1110.234(a), Size of the Project**

The Applicants propose to relocate an existing dialysis facility. Pursuant to Section 1110, Appendix B of the HFSRB's rules, the State standard is 450-650 gross square feet per dialysis station for a total of 14,400 to 20,800 gross square feet for 32 dialysis stations. The total gross square footage of the proposed dialysis facility is 12,125 gross square feet. Accordingly, the proposed facility meets the State standard.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE	DIFFERENCE	MET
		STANDARD		STANDARD?
ESRD	12,125	14,400-20,800	2,275	Below State Standard

**Section IV, Project Scope, Utilization, and Unfinished/Shell Space**  
**Criterion 1110.234(b), Project Services Utilization**

By the second year of operation, the proposed facility's annual utilization shall exceed HFSRB's utilization standard of 80%. Pursuant to Section 1100.1430 of the HFSRB's rules, facilities providing in-center hemodialysis should operate their dialysis stations at or above an annual utilization rate of 80%, assuming three patient shifts per day per dialysis station, operating six days per week.

Dr. Reddy projects that she will refer 163 patients. 126 patients currently receive treatment at the Existing Facility and will continue treatment at the Replacement Facility. Dr. Reddy is also currently treating 57 Stage 4 and Stage 5 CKD patients. Assuming a 35% attrition rate due to death, transplant, return of function, and relocation, approximately 37 of the current Stage 4 and Stage 5 CKD patients will initiate in-center hemodialysis at the Replacement Facility. This represents a utilization of 85% by the second year following project completion.

<b>Table 1110.234(b)</b>					
<b>Utilization</b>					
	<b>Dept./ Service</b>	<b>Historical Utilization (Treatments)</b>	<b>Projected Utilization</b>	<b>State Standard</b>	<b>Met Standard?</b>
<b>2009</b>	ESRD	17,712	N/A	14,976	Yes
<b>2010</b>	ESRD	18,275	N/A	14,976	Yes
<b>2011 (Annualized)</b>	ESRD	17,637	N/A	14,976	Yes
<b>2012</b>	ESRD	N/A	25,428	23,962	Yes
<b>2013</b>	ESRD	N/A	25,428	23,962	Yes

**Section IV, Project Scope, Utilization, and Unfinished/Shell Space**  
**Criterion 1110.234(c), Unfinished or Shell Space**

This project will not include unfinished space designed to meet an anticipated future demand for service. Accordingly, this criterion is not applicable.

**Section IV, Project Scope, Utilization, and Unfinished/Shell Space**  
**Criterion 1110.234(d), Assurances**

This project will not include unfinished space designed to meet an anticipated future demand for service. Accordingly, this criterion is not applicable.

**Section VII, Service Specific Review Criteria  
In-Center Hemodialysis  
Criterion 1110.1430(b), Planning Area Need**

1. Planning Area Need

The Applicants propose to discontinue its existing 20-station dialysis facility located at 1531 E. Hyde Park Blvd., Chicago, Illinois, 60615 and establish a new 32-station dialysis facility at East 43rd Street & South Cottage Grove Avenue, Chicago, IL 60653. The Existing Facility does not have sufficient capacity to meet demand. For several years, the facility operated at or above 100% utilization and is currently operating at 105%. This requires the operation of a late-evening fourth shift, which continues to nearly midnight. Operating four shifts per day is not feasible for many reasons. When a fourth shift is operated, the dialysis facility operates nearly around the clock with staff opening the facility around 5:00 a.m. and closing it around midnight. Not only is staffing a fourth shift difficult for clinic personnel, it is also suboptimal for the patients themselves who are chronically ill and usually elderly. Patients, many of whom rely on assistive devices, such as canes and walkers, are faced with additional safety hazards when arriving and departing the facility in the dark. Some of these hazards cannot be avoided in the winter but patients feel more secure when coming and going during the day. Additionally, physicians typically press the facility to accommodate their sickest and most frail patients during the earlier and second shifts. Having 32 stations will accommodate 128 patients during the day time shifts. Relocation of the Existing Facility will ensure that patients receive access to modern, high quality dialysis treatment.

Additionally, there is insufficient space to permit the expansion of capacity required to meet patient demand. In fact, the building is dilapidated and the owner plans to demolish after the lease expires. As such, Lake Park Dialysis must relocate to the Replacement Facility and add 12 stations. The proposed location is just 1.8 miles from the Existing Facility, so the facility will continue to serve its current patients and meet rising demand in its GSA. Thus, the Applicants are seeking approval for the proposed site, which is necessary to continue providing essential dialysis care to Lake Park Dialysis' patients.

Additionally, Dr. Reddy, the primary referring physician, is treating 57 Stage 4 and 6 Stage 5 CKD patients, 37 of whom will likely initiate dialysis within the next 12 to 18 months. See Attachment – 26A. Based upon the latest inventory data, there is a need for 136 dialysis stations in HSA 6, the service area where the proposed facility will be located. The addition of 12 stations at the Replacement Facility will alleviate the current high utilization at the Existing Facility as well as the need in HSA 6.

2. Service to Planning Area Residents

The primary purpose is to ensure the residents of south side of Chicago have access to life sustaining dialysis. As evidenced in the physician referral letter attached at Attachment – 26A, 124 of 126 current patients live in the service area. Additionally, 45 of 57 pre-ESRD patients live in the service area.

<b>Table 1110.1430(b)(3)(B) Projected Referrals by Physician &amp; Zip Code</b>

60653	1
60901	1
Total	57

3. Service Demand – Establishment of In-Center Hemodialysis Service

Lake Park Dialysis' current utilization is 105%, and the facility has been operating over 100% capacity for over three years. Attached at Attachment – 26A is the physician referral letter from Dr. Reddy documenting her historical and projected referrals.

4. Service Demand – Expansion of In-Center Hemodialysis Service

Lake Park Dialysis' current utilization is 105%, and the facility has been operating over 100% capacity for over three years. As shown in the referral letter at Attachment – 26A, Dr. Reddy projects that she will refer a total of 163 patients to the facility. 126 are current Lake Park Dialysis patients and another 37 pre-ESRD patients would need dialysis within the next 24 months. This results in an 84% utilization rate by the end of the second year of operation.

5. Service Accessibility

As set forth throughout this application, the proposed relocation is needed to maintain access to life-sustaining dialysis for residents of Chicago. The relocation is necessary to provide essential care to Lake Park patients, as the Existing Facility has insufficient space to meet demand. Lake Park Dialysis is operating at 105% utilization and the average utilization of existing facilities in the GSA is 76%. Moreover, HFSRB currently identifies a need for 136 dialysis stations in HSA 6. As such, the expanded Replacement Facility will better accommodate current and future demand for dialysis services and ensure dialysis services are accessible to residents of Chicago's south side.

October 20, 2011

Dale Galassie  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

Dear Chairman Galassie:

We are pleased to support the relocation and expansion of Lake Park Dialysis. The new 32-station chronic renal dialysis facility, to be located at East 43rd Street & South Cottage Grove Avenue, Chicago, IL 60653, will afford us the space we need to provide our patients with the highest level of care. The proposed addition of twelve (12) stations would assist us in serving our large patient population without the need for a late 4<sup>th</sup> shift.

We are excited about the enhancement in patient care the new facility will offer. Since 2007 we have served between 114 and 128 patients at Lake Park Dialysis resulting in utilization as high as 107% at the existing 20-station facility. As of September 30<sup>th</sup>, we referred 30 new patients to the facility in 2011 alone. Please refer to our practice's historical caseload attached hereto.

Due to the large number of patients our practice serves, we fully support the plan to relocate and expand Lake Park Dialysis. We have discussed the project with our patients. When the facility opens at the end of next year we anticipate referring 163 patients to the new facility, including 126 current Lake Park Dialysis patients who wish to transfer to the new facility.

Furthermore, our practice is currently treating 57 Stage 4 and Stage 5 chronic kidney disease patients whose condition is advancing to end stage renal disease (ESRD). Based upon a conservative 35% attrition rate (due to patient death, transplant, or return of function), it is projected that 30 of the patients will require dialysis within the next 12 to 18 months. Thus, we expect to refer a total of 163 patients to the new facility. Lists of historical patient referrals and pre-ESRD patients are attached hereto.

134600.3

Attachment - 26A

These patient referrals have not been used to support another pending or approved certificate of need application.

The information in this letter is true and correct to the best of my knowledge.

I support the proposed relocation and expansion of Lake Park Dialysis.

Sincerely,

*V. Bharathi*

Bharathi V. Reddy, M.D.  
Nephrologist

Subscribed and sworn to me  
This 21 day of October, 2011

Notary Public *Cathy A Zorba*

- b. A list of existing and approved dialysis facilities located within 30 minutes normal travel time of the proposed dialysis facility is provided at Attachment – 26C.

2. Maldistribution of Services

The proposed dialysis facility will not result in a maldistribution of services. A maldistribution exists when an identified area has an excess supply of facilities, stations, and services characterized by such factors as, but not limited to: (1) ratio of stations to population exceeds one and one-half times the State Average; (2) historical utilization for existing facilities and services is below the State Board's utilization standard; or (3) insufficient population to provide the volume or caseload necessary to utilize the services proposed by the project at or above utilization standards. As discussed more fully below, the ratio of stations to population in the geographic service area is 139% of the State average, the average utilization of dialysis facilities within the GSA is 76%, and sufficient population exists to achieve target utilization. Accordingly, the proposed dialysis facility will not result in a maldistribution of services.

- a. Ratio of Stations to Population

As shown in Table 1110.1430(c)(2)(A), the ratio of stations to population is 139% of the State Average.

Table 1110.1430(c)(2)(A)				
Ratio of Stations to Population				
	Population	Dialysis Stations	Stations to Population	Standard Met?
Geographic Service Area	3,732,317	1,513	1:2,467	Yes
State	12,830,632	3,742	1:3,429	

- b. Historic Utilization of Existing Facilities

For over 3 years, the Existing Facility has operated in excess of 100% utilization and there is a need for 136 dialysis stations in the City of Chicago. Additionally, the average utilization in the service area is 76%. Accordingly, there is sufficient patient population to justify the need for the Replacement Facility. There will be no maldistribution of services. Additional stations

are necessary to adequately meet rising demand and a need of 136 additional dialysis stations, as identified by the HFSRB Inventory.

c. Sufficient Population to Achieve Target Utilization

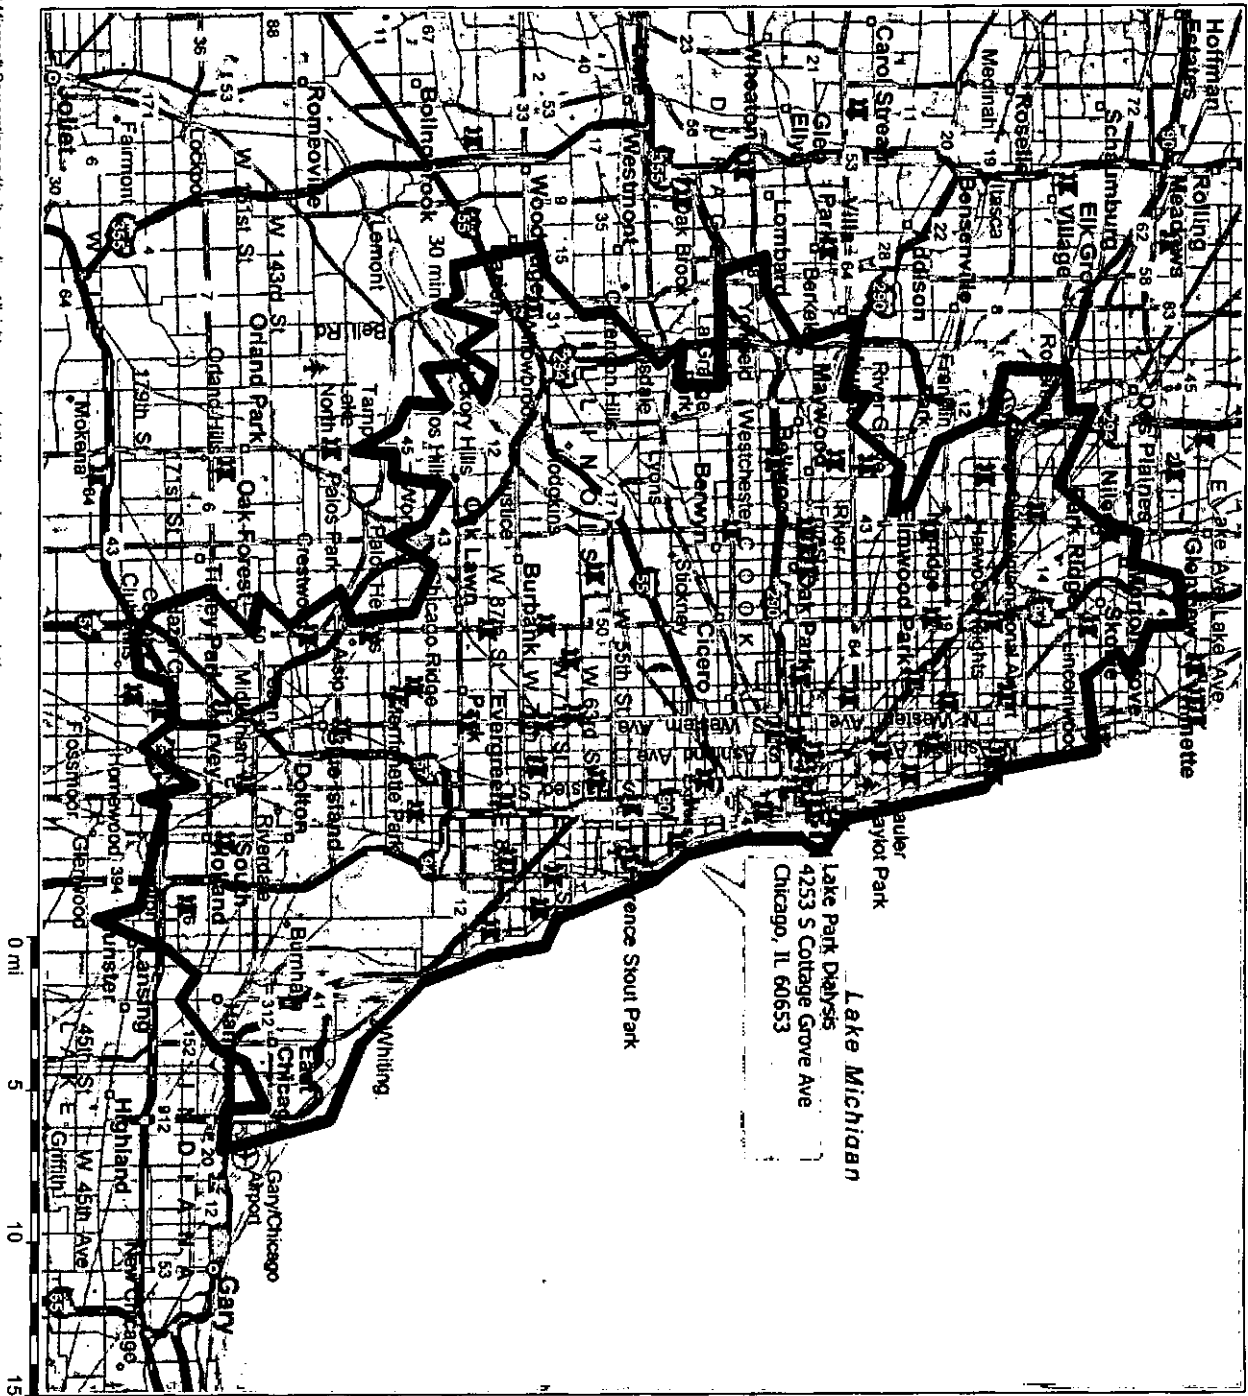

The Applicants propose to discontinue their existing 20-station facility and establish a 32-station facility. The Existing Facility currently treats 126 patients. To achieve the State Board's 80% utilization standard within the first two years after project completion, the Applicants would need 28 patient referrals. As stated in Attachment – 26A, Dr. Reddy anticipates referring 37 patients within 12 to 18 months of project completion.

Accordingly, there is sufficient population to achieve target occupancy.

3. Impact to Other Providers

- a. The proposed dialysis facility will not have an adverse impact on existing facilities in the proposed geographic service area. All of the identified patients will either be transfers from the Existing Facility or referrals of pre-ESRD patients. No patients will be transferred from other existing dialysis facilities.
- b. The proposed dialysis facility will not lower the utilization of other area providers that are operating below the occupancy standards.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(e), Staffing**

1. The proposed facility will be staffed in accordance with all State and Medicare staffing requirements.
  - a. Medical Director: Bharathi V. Reddy, M.D. will serve as the Medical Director for the proposed facility. A copy of Dr. Reddy's curriculum vitae is attached at Attachment – 26D.
  - b. As discussed throughout this application, the Applicants seek authority to discontinue their existing 20-station dialysis facility and establish a 32-station dialysis facility. The Existing Facility is Medicare certified and fully staffed with a medical director, administrator, registered nurses, patient care technicians, social worker, and registered dietitian. Upon discontinuation of the Existing Facility, all current staff will be transferred to the Replacement Facility.
2. All staff will be training under the direction of the proposed facility's Governing Body, utilizing DaVita's comprehensive training program. DaVita's training program meets all State and Medicare requirements. The training program includes introduction to the dialysis machine, components of the hemodialysis system, infection control, anticoagulation, patient assessment/data collection, vascular access, kidney failure, documentation, complications of dialysis, laboratory draws, and miscellaneous testing devices used. In addition, it includes in-depth theory on the structure and function of the kidneys; including, homeostasis, renal failure, ARF/CRF, uremia, osteodystrophy and anemia, principles of dialysis; components of hemodialysis system; water treatment; dialyzer reprocessing; hemodialysis treatment; fluid management; nutrition; laboratory; adequacy; pharmacology; patient education, and service excellence. A summary of the training program is attached at Attachment – 26E.
3. As set forth in the letter from Luis Borgen, Chief Financial Officer of DaVita and Total Renal Care, Inc., attached at Attachment 26-F, the Replacement Facility will maintain an open medical staff.

## Curriculum Vitae

Bharathi V. Reddy, M.D.

---

### Personal Information

Date of Birth: May 7, 1971  
Citizenship: United States

**Home Address:** 4906 S. Cornell Avenue  
Chicago, IL 60615  
Telephone: (773) 684 -8693

**Office Address:** The University of Chicago  
Section of Nephrology  
5841 S. Maryland Ave., Suite S532, MC 5100  
Chicago, IL 60637  
Telephone: (773) 702-6344  
Fax: (773) 702-5818  
Email: breddy@medicine.bsd.uchicago.edu

### EDUCATION AND TRAINING

University of Chicago Fellowship in Nephrology, July 2000 - June 2002	Chicago, IL
Wayne State University Residency in Internal Medicine, July 1997 - June 2000	Detroit, MI
University of Health Sciences Bachelor of Medicine and Bachelor in Surgery, 1988 - 1994	Hyderabad, India

### EXPERIENCE

The University of Chicago Hospitals <i>Assistant Professor of Medicine, July 2004-present</i>	Chicago, IL
The University of Chicago Hospitals <i>Instructor of Medicine, 2002-2004</i>	Chicago, IL
The University of Chicago Hospitals <i>Fellow in Nephrology, 2000-2002</i>	Chicago, IL
Detroit Medical Center - Wayne State University <i>Resident in Internal Medicine, 1997 - 2000</i>	Detroit, MI
Sumana Hospital <i>General Practitioner, 1995</i>	Hyderabad, India
Gandhi Hospital India <i>Intern, 1994</i>	Hyderabad,

## **HOSPITAL ADMINISTRATION**

2003-2005 Director of Nephrology Clinic (Physician Directed Practice)  
July 2006-Present Medical Director, Lake Park Dialysis center

## **CERTIFICATION**

United States Medical Licensing Exam, Part I August 1996; Part II September 1996  
Board Certified in Internal Medicine - August 2000  
Board certified in Nephrology – November 2002

## **LICENSES**

Licensure: Michigan # 4301070718 (1999-2000; inactive); Illinois: # 036-102693 (2000-Present)

## **OTHER EXPERIENCE AND PROFESSIONAL MEMBERSHIPS**

American Society of Nephrology  
Renal Physicians Association  
National Kidney Foundation

## **COMMUNITY ACTIVITIES**

Conducted health awareness education among the inner city population. Participated in the Vaccination program for children – Hyderabad, India (1989)

## **CLINICAL ACTIVITIES**

Renal clinic (2 half-days/week),  
Outpatient hemodialysis (6 shifts, approximately 125 patients)  
Inpatient nephrology consult service and dialysis service (One and half months/year)  
Inpatient general medicine attending (Half month/year)  
In 2007-2008 academic year, I am scheduled to do consult and dialysis service (2 months), Transplant service (One month) and inpatient general medicine (Half month)

## **EDUCATIONAL ACTIVITIES**

Instructor, Nephrology Core Curriculum – Hemodialysis anticoagulation strategies lecture (2002-2005),  
Renal disorders in pregnancy, Cystic diseases of the kidney (2006-present)  
Instructor, Nephrology clinic (For fellows, residents and students)  
Instructor, Outpatient dialysis unit (For renal fellows)  
Instructor, Clinical Pathophysiology and Therapeutics course - Interstitial Nephritis work shop (2003),  
Nephrotic Syndrome work shop (2004), Assessment of Renal Function work shop (2005).  
Tubulointerstitial Renal Diseases (Scheduled to give in 2008)  
Nephrology Journal Club  
Resident and student teaching during general medicine service  
Resident, student and nephrology fellow teaching during nephrology consult service  
Involved with organizing clinical nephrology conferences- Identifying good clinical nephrology cases and guiding nephrology fellows for their presentations during that conference.

## **INVITED PRESENTATIONS**

“Overview of Acute and Chronic Renal Failure: Etiology, Complications and Management”. Invited presentation at the Clinical Nutrition Update 2005 Symposium at The University of Chicago Hospitals, September 23, 2005

"Hypertension in Chronic Hemodialysis Patients". Medical grand rounds, University of Chicago Hospitals, Chicago, IL

"PKD overview". Invited presentation at Polycystic Kidney Disease/Chicago Chapter Fall Seminar, October 6, 2007

"Autosomal Dominant Polycystic Kidney Disease: Light at the end of the tunnel"? Invited presentation at Nizam's Institute of Medical Sciences, Hyderabad, India, December 10, 2007

**Research Grants Awarded:**

"Dialysis, Outcomes and Practice Patterns Study". Arbor research. June 2007. PI: Bharathi Reddy

**RESEARCH EXPERIENCE**

**Co-Investigator Protocols**

Correction of Hemoglobin & Outcomes In Renal Insufficiency. PI: Patrick Murray, M.D (completed)

Pharmacokinetic-Pharmacodynamic Study of Argatroban Infusion in Hospitalized Patients Undergoing Intermittent Hemodialysis or Continuous Hemofiltration. PI: Patrick Murray, M.D. (Completed)

Effect of Cimetidine on Creatinine Clearance and Urine Stone Risk Factors. PI: Fredric Coe, M.D. (completed)

Pharmacokinetics and Pharmacodynamics of Argatroban Injection in End-Stage Renal Disease (ESRD) Patients Undergoing Hemodialysis. PI: Patrick Murray, M.D (Completed)

A Prospective Study of Patients Receiving Argatroban For Anticoagulation During Hemodialysis. PI: Patrick Murray, M.D (completed)

Hemodialysis in Patients Receiving Argatroban for Anticoagulation. PI: Patrick Murray, M.D (completed)

Effect of Nasal Mupirocin on the Incidence of Staphylococcus Aureus Bacteremia in Hemodialysis Patients with Dialysis Catheters. PI: Mary Hammes, D.O. (completed)

Phase 2 randomized, double blind, placebo controlled study of the effect of Anti C5 antibody on the reduction of proteinuria in patients with Idiopathic Membranous Glomerulopathy. PI: Richard Quigg, M.D. (Completed)

## PROGRAM DESCRIPTION

---

### Introduction to Program

The Hemodialysis Education and Training Program is grounded in DaVita's Core Values. These core values include a commitment to providing *service excellence*, promoting *integrity*, practicing a *team* approach, systematically striving for *continuous improvement*, practicing *accountability*, and experiencing *fulfillment* and *fun*.

The Hemodialysis Education and Training Program is designed to provide the new teammate with the necessary theoretical background and clinical skills necessary to function as a competent hemodialysis patient care provider.

DaVita hires both non-experienced and experienced teammates.

A **non-experienced teammate** is defined as:

- A newly hired patient care teammate without prior dialysis experience.
- A rehired patient care teammate who left prior to completing the initial training.

An **experienced teammate** is defined as:

- A newly hired patient care teammate with prior dialysis experience as evidenced by successful completion of a competency exam.
- A rehired patient care teammate who left and can show proof of completing their initial training.

The curriculum of the Hemodialysis Education and Training Program is modeled after the American Nephrology Nurses Association Core Curriculum for Nephrology Nursing and the Board of Nephrology Examiners Nursing and Technology guidelines.

The program incorporates the policies, procedures, and guidelines of DaVita Inc.

The new teammate will be provided with a "StarTracker". The "StarTracker" is a tool that will help guide the training process while tracking progress. The facility administrator and preceptor will review the Star Tracker to plan and organize the training and professional development of the new teammate. The Star Tracker will guide the new teammate through the initial phase of training and then through the remainder of their first year with DaVita, thus increasing their knowledge of all aspects of dialysis. It is designed to be used in conjunction with the "My Learning Plan Workbooks."

### Program Description

- The education program for the newly hired patient care provider teammate **without prior dialysis experience** is composed of at least (1) 120 hours didactic instruction and (2) 280 hours clinical practicum, unless otherwise specified by individual state regulations.

The **didactic phase** consists of instruction including but not limited to lectures, readings, self-study materials, on-line learning activities, specifically designed hemodialysis

workbooks for the teammate, demonstrations and observations. This education may be coordinated by the Clinical Services Specialist (CSS), the administrator, or the preceptor. This training includes introduction to the dialysis machine, components of the hemodialysis system, dialysis delivery system, principles of hemodialysis, infection control, anticoagulation, patient assessment/data collection, vascular access, kidney failure, documentation, complications of dialysis, laboratory draws, and miscellaneous testing devices used, introduction to DaVita Policies and Procedures, and introduction to the Amgen Core Curriculum.

The **didactic phase** also includes classroom training with the Clinical Services Specialist, which covers more in-depth theory on structure and functions of the kidneys. This includes homeostasis, renal failure ARF/CRF, uremia, osteodystrophy and anemia, principles of dialysis, components of the hemodialysis system, water treatment, dialyzer reprocessing, hemodialysis treatment (which includes machine troubleshooting and patient complications), documentation, complication case studies, heparinization and anticoagulation, vascular access (which includes vascular access workshop), patient assessment (including workshop), fluid management with calculation workshop, nutrition, laboratory, adequacy, pharmacology, patient teaching/adult learning, service excellence (which includes professionalism, ethics and communications).

A final comprehensive examination score of  $\geq 80\%$  must be obtained to successfully complete this portion of the didactic phase. If a score of less than 80% is attained, the teammate will receive additional appropriate remediation and a second exam will be given.

Also included in the **didactic phase** is additional classroom training covering Health and Safety Training, DaVita Virtual Training Program (which includes 21 hours of computer training classes), One For All orientation training, HIPAA training, LMS mandatory water classes, emergency procedures specific to facility, location of disaster supplies, and orientation to the unit.

Included in the **didactic phase** for nurses is additional classroom training. The didactic phase includes:

- The role of the dialysis nurse in the facility
- Pharmacology for nurses
- Outcomes management
- Patient assessment for the dialysis nurse.

The **clinical practicum phase** consists of supervised clinical instruction provided by the facility preceptor, a registered nurse, or the clinical services specialist (CSS). During this phase the teammate will demonstrate a progression of skills required to perform the hemodialysis procedures in a safe and effective manner. A *Procedural Skills Inventory Checklist* will be completed to the satisfaction of the preceptor and the administrator.

The clinical hemodialysis workbooks will also be utilized for this training and must be completed to the satisfaction of the preceptor and the administrator.

Those teammates who will be responsible for the Water Treatment System within the facility are required to complete the Mandatory LMS Educational Water courses and the corresponding skills checklists.

Both the didactic phase and/or the clinical practicum phase of a specific skill set will be successfully completed prior to the new teammate receiving an independent assignment for that specific skill set. The new teammate is expected to attend all training sessions and complete all assignments and workbooks.

- The education program for the newly hired patient care provider teammate **with previous dialysis experience** is individually tailored based on the identified learning needs. The initial orientation to the *Health Prevention and Safety Training* will be successfully completed prior to the new teammate working/receiving training in the clinical area. The *Procedural Skills Inventory Checklist* including verification of review of applicable policies and procedures will be completed by the preceptor, a registered nurse, and/or the clinical services specialist (CSS) and the new teammate upon demonstration of an acceptable skill-level. The new teammate will also utilize the hemodialysis training workbook and progress at their own pace. This workbook should be completed within a timely manner as to also demonstrate acceptable skill-level.

The *Initial Competency Exam* will be completed; a score of  $\geq 80\%$  or higher is required prior to the new teammate receiving an independent patient-care assignment. If the new teammate receives a score of less than 80%, this teammate will receive theory instruction pertaining to the area of deficiency and a second competency exam will then be given. If the new teammate receives a score of less than 80% on the second exam, this teammate will be evaluated by the administrator, preceptor, and educator to determine if completion of formal training is appropriate.

- Following completion of the training, a *Verification of Competency* form will be completed (see forms TR1-06-05, TR1-06-06). In addition to the above, further training and/or certification will be incorporated as applicable by state law.

The goal of the program is for the trainee to successfully meet all training requirements. Failure to meet this goal is cause for dismissal from the training program and subsequent termination by the facility.

### **Process of Program Evaluation**

The Hemodialysis Education Program utilizes various evaluation tools to verify program effectiveness and completeness. Key evaluation tools include the, DaVita Prep Class Evaluation (TR1-06-08), the New Teammate Satisfaction Survey on the LMS and random surveys of facility administrators to determine satisfaction of the training program. To assure continuous

Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

**Re: Certification of Support Services**

Dear Chairman Galassie:

I hereby certify under penalty of perjury as provided in § 1-109 of the Illinois Code of Civil Procedure, 735 ILCS 5/1-109 and pursuant to 77 Ill. Admin. Code § 1110.1430(f) that Lake Park Dialysis will maintain an open medical staff.

I also certify the following with regard to needed support services:

- DaVita participates in a dialysis data system;
- Lake Park Dialysis will have available all needed support services consisting of clinical laboratory service, blood bank, nutrition, rehabilitation, psychiatric services, and social services; and
- Patients will have access to training for self-care dialysis, self-care instruction, home and home-assisted dialysis, and home training, which will be provided either at Lake Park Dialysis or through a signed, written agreement for these services with another facility.

Sincerely,

Luis Borgen  
Chief Financial Officer  
DaVita Inc.  
Total Renal Care, Inc.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(f), Support Services**

Attached at Attachment – 26F is a letter from Luis Borgen, Chief Financial Officer of DaVita and Total Renal Care, Inc. attesting that the proposed facility will participate in a dialysis data system, will make support services available to patients, and will provide training for self-care dialysis, self-care instruction, home and home-assisted dialysis, and home training.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(g), Minimum Number of Stations**

The proposed dialysis facility will be located in the Chicago-Joliet-Naperville metropolitan statistical area ("MSA"). A dialysis facility located within an MSA must have a minimum of eight dialysis stations. The Applicants propose to establish a 32-station dialysis facility. Accordingly, this criterion is met.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(h), Continuity of Care**

Included at Attachment – 26G are materials relating to the availability of transplantation and associated tissue typing services to the Applicants' patients at the University of Chicago Medical Center. Further, a letter agreement from University of Chicago Medical Center agreeing to accept the Applicants' ESRD patients for inpatient care and other hospital services at University of Chicago Medical Center when needed is included.

**EXECUTION VERSION**

**PATIENT TRANSFER AGREEMENT**

This **PATIENT TRANSFER AGREEMENT** (the "Agreement") is made as of the 1st day of August, 2010 (the "Effective Date"), by and between **University of Chicago Medical Center** (hereinafter "Hospital") and **Total Renal Care, Inc.**, a wholly owned corporation and subsidiary of DaVita Inc. ("Company").

**RECITALS**

**WHEREAS**, the parties hereto desire to enter into this Agreement governing the transfer of patients between Hospital and the following free-standing dialysis clinics owned and operated by Company:

**Lake Park Dialysis #5578**  
**1531 E. Hyde Park Boulevard**  
**Chicago, Illinois 60615-3039**

**Stony Island Dialysis # 5579**  
**8725 S. Stony Island**  
**Chicago, Illinois 60617-2709**

**Woodlawn Dialysis #5580**  
**1164 E. 55<sup>th</sup> Street**  
**Chicago, Illinois 60615**

**WHEREAS**, the parties hereto desire to enter into this Agreement in order to specify the rights and duties of each of the parties and to specify the procedure for ensuring the timely transfer of patients between the facilities;

**WHEREAS**, the parties wish to facilitate the continuity of care and the timely transfer of patients and records between the facilities; and

**WHEREAS**, only a patient's attending physician (not Company or the Hospital) can refer such patient to Company for dialysis treatments.

**NOW THEREFORE**, in consideration of the premises herein contained and for other good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, the parties agree as follows:

**I. JOINT RESPONSIBILITIES.** In accordance with Company's policies and procedures and upon the recommendation of the patient's attending physician that such a transfer is medically appropriate, a patient of Company may be transferred to Hospital as long as Hospital has bed availability, staff availability, is able to provide the services requested by Company, including on-call specialty physician availability, and the transfer is consistent with current patient transfer laws. In such cases, Hospital and Company agree to exercise their best efforts to provide for prompt admission of the patient. All transfers between the facilities shall be made in accordance with applicable federal and state laws and regulations, including but not limited to, the

Emergency Medical Treatment and Active Labor Act, the standards of the Joint Commission and any other applicable accrediting bodies, and policies and procedures of the facilities. Hospital and Company further acknowledge and agree that neither the decision to transfer a patient nor the decision to not accept a request to transfer a patient shall be predicated upon arbitrary, capricious or unreasonable discrimination or based upon the patient's inability to pay for services rendered by either facility.

**2. HOSPITAL OBLIGATIONS.** In accordance with the policies and procedures as hereinafter provided and the criteria set forth in Section 1, and upon the recommendation of an attending physician, a patient of Company may be transferred to Hospital.

(a) Hospital agrees to exercise its best efforts to ensure the prompt admission of patients as necessary, provided that Hospital has the capacity to treat the patient and all usual conditions of admission are met. In doing so, Hospital agrees to accept and treat patients in emergency situations requiring transfer of a patient from Company to Hospital.

(b) Hospital shall designate an individual to coordinate with Company in order to establish acceptable and efficient transfer guidelines.

**3. COMPANY OBLIGATIONS.**

(a) Upon transfer of a patient to Hospital pursuant to the criteria set forth in Section 1, Company agrees:

- i. That it shall transfer patients to Hospital for medical treatment only where such transfer has been determined to be medically appropriate;
- ii. That transfer record forms shall be completed in detail and signed by the physician or nurse in charge at Company and must accompany the patient to the receiving institution;
- iii. That it shall obtain the informed consent for the transfer to Hospital from the patient, if medically possible, or from the legal guardian, legal representative or other surrogate decision maker of a patient who is determined to be unable to give informed consent to transfer;
- iv. To notify Hospital as far in advance as possible of the impending transfer;
- v. That it shall transfer any needed personal effects of the patient, and information relating to the same, and shall be responsible therefore until signed for by a representative of Hospital;
- vi. That it shall, to the extent possible, stabilize patients prior to transfer and initiate treatment to insure that the transfer will not, within reasonable medical probability, result in harm to the patient or jeopardize survival. The parties recognize that the responsibility to arrange for transfer to Hospital rests with Company in emergency situation. Should a patient require transfer to Hospital

upon request of patient's attending physician in a non-emergency situation, the patient, or the patient through a relative or guardian, shall be responsible for transportation. Hospital's responsibility for the patient's care shall begin when the patient is admitted to Hospital;

vii. Original medical records kept by each of the parties shall remain the property of that institution; and

viii. That transfer procedures shall be made known to the patient care personnel of each of the parties.

(b) Company agrees to transmit with each patient at the time of transfer, or in case of an emergency, as promptly as possible thereafter, an abstract of pertinent medical and other records necessary to continue the patient's treatment without interruption and to provide identifying and other information, to include:

- i. contact information for the referring physician;
- ii. name of physician(s) at Hospital contacted with regard to the patient (and to whom the patient is to be transferred);
- iii. medical, nursing and other care plans;
- iv. current medical and lab findings;
- v. diagnosis;
- vi. rehabilitation potential;
- vii. discharge summary;
- viii. a brief summary of the course of treatment followed at Company;
- ix. medications administered;
- x. known allergies;
- xi. nursing and dietary information;
- xii. ambulating status;
- xiii. advanced medical directives; and
- xiv. pertinent administrative, third party billing and social information.

(c) Company agrees to readmit to its facilities patients who have been transferred to Hospital for medical care as clinic capacity allows. Hospital agrees to keep the administrator or designee of Company advised of the condition of the patients that will affect the anticipated date of transfer back to Company and to provide as much notice of the transfer date as possible. Company shall assign readmission priority for its patients who have been treated at Hospital and who are ready to transfer back to Company.

4. **NON-DISCRIMINATION.** The parties hereby acknowledge that nothing in this Agreement shall be construed to permit discrimination by either party in the transfer process set forth herein based on race, color, national origin, handicap, religion, age, sex or any characteristic protected by Illinois state laws, Title VI of the Civil Rights Act of 1964, as amended or any other applicable state or federal laws. Further, Section 504 of the Rehabilitation Act of 1973 and the American with Disabilities Act require that no otherwise qualified individual with a handicap shall, solely by reason of the handicap be excluded from participation in, or denied the benefits of, or be subjected to discrimination in a facility certified under the Medicare or Medicaid programs.

5. **BILLING, PAYMENT, AND FEES.** Hospital and Company each shall be responsible for billing the appropriate payor for the services it provides, respectively, hereunder. Company shall not act as guarantor for any charges incurred while the patient is a patient in Hospital. Hospital and Company agree and certify that this Agreement is not intended to generate referrals for services or supplies for which payment maybe made in whole or in part under any federal health care program. Hospital and Company will comply with statutes, rules, and regulations as promulgated by federal and state regulatory agencies or legislative authorities having jurisdiction over the parties.

6. **HIPAA.** Hospital and Company agree to comply with the provisions of the Health Insurance Portability and Accountability Act of 1996 and its implementing privacy and security regulations at 45 C.F.R. Parts 160 and 164 promulgated by the United States Department of Health and Human Services, as amended by the federal Health Information Technology for Economic and Clinical Health Act and its implementing regulations (collectively, "HIPAA"). Hospital and Company acknowledge and agree that from time to time, HIPAA may require modification to this Agreement for compliance purposes. Hospital and Company further acknowledge and agree to comply with requests by the other party hereto related to HIPAA.

7. **STATUS AS INDEPENDENT CONTRACTORS.** The parties acknowledge and agree that their relationship is solely that of independent contractors. Governing bodies of Hospital and Company shall have exclusive control of the policies, management, assets, and affairs of their respective facilities. Nothing in this Agreement shall be construed as limiting the right of either to affiliate or contract with any other Hospital or facility on either a limited or general basis while this Agreement is in effect. Neither party shall use the name of the other in any promotional or advertising material unless review and approval of the intended use shall be obtained from the party whose name is to be used and its legal counsel.

8. **INSURANCE.** Each party shall secure and maintain, or cause to be secured and maintained during the term of this Agreement, comprehensive general liability, property damage, and workers compensation insurance in amounts generally acceptable in the industry, and professional liability insurance providing minimum limits of liability of \$1,000,000 per occurrence and \$3,000,000 in aggregate. Each party shall deliver to the other party certificate(s) of insurance evidencing such insurance coverage upon execution of this Agreement, and annually thereafter upon the request of the other party. Each party shall provide the other party with not less than thirty (30) days prior written notice of any change in or cancellation of any of such insurance policies. Said insurance shall survive the termination of this Agreement.

## 9. INDEMNIFICATION.

(a) Hospital Indemnity. Hospital hereby agrees to defend, indemnify and hold harmless Company and its shareholders, affiliates, officers, directors, employees, and agents for, from and against any claim, loss, liability, cost and expense (including, without limitation, costs of investigation and reasonable attorney's fees), directly or indirectly relating to, resulting from or arising out of any action or failure to act arising out of this Agreement by Hospital and its staff regardless of whether or not it is caused in part by Company or its officers, directors, agents, representatives, employees, successors and assigns. This indemnification provision shall not be effective as to any loss attributable exclusively to the negligence or willful act or omission of Company.

(b) Company Indemnity. Company hereby agrees to defend, indemnify and hold harmless Hospital and its shareholders, affiliates, officers, directors, employees, and agents for, from and against any claim, loss, liability, cost and expense (including, without limitation, costs of investigation and reasonable attorney's fees), directly or indirectly relating to, resulting from or arising out of any action or failure to act arising out of this Agreement by Company and its staff regardless of whether or not it is caused in part by Hospital or its officers, directors, agents, representatives, employees, successors and assigns. This indemnification provision shall not be effective as to any loss attributable exclusively to the negligence or willful act or omission of Hospital.

(c) Survival. The indemnification obligations of the parties shall continue in full force and effect notwithstanding the expiration or termination of this Agreement with respect to any such expenses, costs, damages, claims and liabilities which arise out of or are attributable to the performance of this Agreement prior to its expiration or termination.

**10. DISPUTE RESOLUTION.** Any dispute which may arise under this Agreement shall first be discussed directly with representatives of the departments of the parties that are directly involved. If the dispute cannot be resolved at this level, it shall be referred to administrative representatives of the parties for discussion and resolution.

(a) Informal Resolution. Should any dispute between the parties arise under this Agreement, written notice of such dispute shall be delivered from one party to the other party and thereafter, the parties, through appropriate representatives, shall first meet and attempt to resolve the dispute in face-to-face negotiations. This meeting shall occur within thirty (30) days of the date on which the written notice of such dispute is received by the other party.

(b) Resolution Through Mediation. If no resolution is reached through informal resolution, pursuant to Section 8(a) above, the parties shall, within forty-five (45) days of the first meeting referred to in Section 8(a) above, attempt to settle the dispute by formal mediation. If the parties cannot otherwise agree upon a mediator and the place of the mediation within such forty-five (45) day period, the American Arbitration Association ("AAA") in the state of Illinois shall administer the mediation. Such mediation shall occur no later than ninety (90) days after the dispute arises. All findings of fact and results of such mediation shall be in written form

prepared by such mediator and provided to each party to such mediation. In the event that the parties are unable to resolve the dispute through formal mediation pursuant to this Section 8(b), the parties shall be entitled to seek any and all available legal remedies.

**11. TERM AND TERMINATION.** This Agreement shall be effective for an initial period of one (1) year from the Effective Date and shall continue in effect indefinitely after such initial term, except that either party may terminate by giving at least sixty (60) days notice in writing to the other party of its intention to terminate this Agreement. If this Agreement is terminated for any reason within one (1) year of the Effective Date of this Agreement, then the parties hereto shall not enter into a similar agreement with each other for the services covered hereunder before the first anniversary of the Effective Date. Termination shall be effective at the expiration of the sixty (60) day notice period. However, if either party shall have its license to operate its facility revoked by the State or become ineligible as a provider of service under Medicare or Medicaid laws, this Agreement shall automatically terminate on the date such revocation or ineligibility becomes effective.

**12. AMENDMENT.** This Agreement may be modified or amended from time to time by mutual written agreement of the parties, signed by authorized representatives thereof, and any such modification or amendment shall be attached to and become part of this Agreement. No oral agreement or modification shall be binding unless reduced to writing and signed by both parties.

**13. ENFORCEABILITY/SEVERABILITY.** The provisions of this Agreement are severable. The invalidity or unenforceability of any term or provisions hereto in any jurisdiction shall in no way affect the validity or enforceability of any other terms or provisions in that jurisdiction, or of this entire Agreement in any other jurisdiction.

**14. EXCLUDED PROVIDER.** Each party represents that neither that party nor any entity owning or controlling that party has ever been excluded from any federal health care program including the Medicare/Medicaid program or from any state health care program. Each party further represents that it is eligible for Medicare/Medicaid participation. Each party agrees to disclose immediately any material federal, state, or local sanctions of any kind, imposed subsequent to the date of this Agreement, or any investigation which commences subsequent to the date of this Agreement, that would materially adversely impact Company's ability to perform its obligations hereunder.

**15. NOTICES.** All notices, requests, and other communications to any party hereto shall be in writing and shall be addressed to the receiving party's address set forth below or to any other address as a party may designate by notice hereunder, and shall either be (a) delivered by hand, (b) sent by recognized overnight courier, or (c) by certified mail, return receipt requested, postage prepaid.

All notices, requests, and other communication hereunder shall be deemed effective (a) if by hand, at the time of the delivery thereof to the receiving party at the address of such party set forth above, (b) if sent by overnight courier, on the next business day following the day such notice is delivered to the courier service, or (c) if sent by certified mail, five (5) business days following the day such mailing is made.

**14. ASSIGNMENT.** This Agreement shall not be assigned in whole or in part by either party hereto without the express written consent of the other party, except that either party may assign this Agreement to one of its affiliates or subsidiaries without the consent of the other party.

15. **COUNTERPARTS.** This Agreement may be executed simultaneously in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Copies of signatures sent by facsimile shall be deemed to be originals.

16. **WAIVER.** The failure of any party to insist in any one or more instances upon performance of any terms or conditions of this Agreement shall not be construed as a waiver of future performance of any such term, covenant, or condition, and the obligations of such party with respect thereto shall continue in full force and effect.

17. **GOVERNING LAW.** The laws of the state of Illinois shall govern this Agreement.

18. **HEADINGS.** The headings appearing in this Agreement are for convenience and reference only, and are not intended to, and shall not, define or limit the scope of the provisions to which they relate.

19. **ENTIRE AGREEMENT.** This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes any and all other agreements, either oral or written, between the parties (including, without limitation, any prior agreement between Hospital and Company or any of its subsidiaries or affiliates) with respect to the subject matter hereof.

20. **APPROVAL BY DAVITA INC. ("DAVITA") AS TO FORM.** The parties acknowledge and agree that this Agreement shall take effect and be legally binding upon the parties only upon full execution hereof by the parties and upon approval by DaVita Inc. as to the form hereof.

**KIDNEY TRANSPLANT AFFILIATION AGREEMENT**

This **KIDNEY TRANSPLANT AFFILIATION AGREEMENT** ("Agreement") is effective as of the 1st day of August, 2010 ("Effective Date") by and between **University of Chicago Medical Center** ("Hospital") and **Total Renal Care, Inc.**, a corporation and subsidiary of DaVita Inc. ("Company") (referred to individually as "Party" and collectively as "Parties").

**RECITALS:**

**WHEREAS**, Hospital is a Medicare-approved renal transplantation center, and is located at **5841 South Maryland Avenue, Chicago, Illinois 60637-1670**;

**WHEREAS**, Company owns and operates the free-standing renal dialysis facilities known as **Lake Park Dialysis** located at **1531 E. Hyde Park Boulevard, Chicago, Illinois 60615-3039**; and **Stony Island Dialysis** located at **8725 S. Stony Island, Chicago, Illinois 60617-2709**; and **Woodlawn Dialysis** **1164 E. 55<sup>th</sup> Street, Chicago, Illinois 60615**; and

**WHEREAS**, only an attending physician (but not Company) is able to refer patients to Hospital for transplantation services; and

**WHEREAS**, both Hospital and Company desire to improve the treatment of patients by (a) providing continuity of care and treatment appropriate to the needs of the patients in Hospital and at Company by utilizing the knowledge and resources of both facilities in a coordinated and cooperative manner to improve the health care of patients; (b) facilitating the timely transfer of patients and medical and other information necessary or useful in the care and treatment of such patients; and (c) providing means to expeditiously evaluate the patients of Company for renal transplantation and to provide renal transplants to those patients found eligible for renal transplantation;

**NOW, THEREFORE**, in consideration of the premises listed above, the Parties hereby covenant and agree as follows:

**1. HOSPITAL OBLIGATIONS.**

- (a) Hospital shall perform an initial evaluation, and shall periodically re-evaluate, each patient referred to Hospital by attending physician to determine whether such patient is eligible for renal transplantation, including, but not limited to, cadaveric and living donor renal transplantation ("Eligible Patient").
- (b) Hospital shall maintain Eligible Patients on any and all transplant lists affiliated with Hospital.
- (c) Hospital shall promptly notify in writing the Eligible Patient, Eligible Patient's attending physician and Company of the addition of the Eligible patient to the transplant waiting

list, the inability to list the patient for transplant, the need for further testing to determine transplant candidacy, and/or a transplant surgery.

- (d) Hospital shall perform and arrange for all products and services with respect to the kidney transplantations including, but not limited to, tissue typing and matching, surgical transplant capability, kidney perfusion or other storage devices, immunology services, available surgeons qualified by skill or training in the transplantation of kidneys, available physicians skilled in the management of post-transplant patients, back-up dialysis services, consultative services, laboratory services, and treatment capabilities for dialysis-related complications. Hospital will also provide for chronic maintenance when necessary.
- (e) Hospital shall make all arrangements with respect to transplants and tests and provide for chronic maintenance services when necessary.
- (f) Hospital will be responsible for effecting the transfer of the Eligible Patient for transplantation which transfers shall be supervised by a member of medical staff of Company and member of medical staff of Hospital, including arranging for appropriate and safe transportation and care of the patient during the transfer in accordance with applicable Federal and State laws and regulations; provided, however, that nothing in this Section shall be construed as obligating Hospital to arrange for the transportation of the Eligible Patient to Hospital on a regular basis including, without limitation, for scheduled appointments or procedures.

## 2. COMPANY OBLIGATIONS.

- (a) Company shall provide chronic maintenance hemodialysis for its patients awaiting transplants when necessary.
- (b) Company shall be responsible for obtaining and submitting monthly blood samples to Hospital and/or Gift of Hope for patients awaiting transplants, as directed by Eligible Patient's transplant team.
- (c) Company will send with each Eligible Patient at the time of transfer, or in the case of emergency, as promptly as possible, the completed transfer and referral forms mutually agreed upon to provide the medical and administrative information necessary to determine the appropriateness of the placement and to enable continuing care to the Eligible Patient at Hospital. The transfer and referral forms will include such information as current medical findings, diagnosis, a brief summary of the course of treatment followed in Company, nursing and dietary information, psychosocial evaluations, compliance history, ambulation status, as appropriate, pertinent administrative and social information, and any other patient information required by Federal, State or local laws.
- (d) Company will be responsible for the transfer or other appropriate disposition of the Eligible Patients' personal effects, particularly money and valuables, and information related to these items.

**3. BILLING.**

Charges for services performed by either Hospital or Company shall be collected by the party rendering the services, directly from patient, third-party payor or other sources. No compensation shall be exchanged by and between the parties for services provided under this Agreement.

**4. TERM.**

The term of this Agreement shall commence on the Effective Date and shall continue for one (1) year, unless sooner terminated as provided below (the "Initial Term"). This Agreement shall be automatically renewed for successive one (1) year terms ("Renewal Term") after the end of the Initial Term, unless sooner terminated as provided below (the "Initial Term" and any "Renewal Term" are collectively known as the "Term").

**5. TERMINATION.** This Agreement may be terminated as follows:

(a) Without Cause. Either Party may terminate this Agreement at any time without cause by providing at least sixty (60) days prior written notice to the other Party.

(b) Immediate Termination. Company may immediately terminate this Agreement upon the occurrence of any of the following events: (i) the imposition of any sanction against Hospital under federal or state fraud and abuse laws or any other federal or state laws relating to Hospital's participation in the Medicare or state Medicaid programs; (ii) appointment of a receiver for Hospital's assets, an assignment by Hospital for the benefit of its creditors or any relief taken or suffered by Hospital under any bankruptcy or insolvency act; or (iii) Hospital has its Medicare-certification voluntarily or involuntarily revoked.

(c) Mutual Agreement. The Parties may terminate this Agreement by mutual written agreement at any time.

**6. INSURANCE.**

Each Party shall secure and maintain, or cause to be secured and maintained during the Term of this Agreement, comprehensive general liability, property damage, and workers compensation insurance in amounts generally acceptable in the industry, and professional liability insurance providing minimum limits of liability of \$1,000,000 per occurrence and \$3,000,000 in aggregate. A Party shall deliver to the other Party certificate(s) of insurance evidencing such insurance coverage upon execution of this Agreement, and annually thereafter upon the request of the other party. A Party shall provide the other Party with not less than thirty (30) days prior written notice of any change in or cancellation of any of such insurance policies. Said insurance shall survive the termination of this Agreement.

**7. MISCELLANEOUS.**

(a) Excluded Persons. Each Party warrants to the other party that neither it nor any of its directors, officers or owners, and to the best of its knowledge, its employees and agents, have been debarred, suspended, declared ineligible, or excluded from Medicare, Medicaid or any other plan or program that provides health benefits, whether directly through insurance or otherwise, which is funded directly, in whole or in part, by the United States Government or any State health care program. This shall be an ongoing representation and warranty during the Term of this Agreement and each party shall immediately notify the other party of any change in the status of the representations and warranty set forth in this subsection.

(b) Access to Books and Records. The Parties agree to make books and records available and to require any subcontractor to make books and records available, upon request of the Secretary of the U.S. Department of Health and Human Services or the Comptroller General of the United States for up to four (4) years following the furnishing of services under this Agreement pursuant to Section 1861(v)(1)(I) of the Social Security Act.

#### 8. COMPLIANCE WITH LAWS.

Hospital and Company agree and certify that this Agreement is not intended to generate referrals for services or supplies for which payment maybe made in whole or in part under any federal health care program. Hospital and Company will comply with statutes, rules, and regulations as promulgated by federal and state regulatory agencies or legislative authorities having jurisdiction over the parties.

#### 9. INDEMNIFICATION.

(a) Hospital Indemnity. Hospital hereby agrees to defend, indemnify and hold harmless Company and its shareholders, affiliates, officers, directors, employees, and agents for, from and against any claim, loss, liability, cost and expense (including, without limitation, costs of investigation and reasonable attorney's fees), directly or indirectly relating to, resulting from or arising out of any action or failure to act arising out of this Agreement by Hospital and its staff regardless of whether or not it is caused in part by Company or its officers, directors, agents, representatives, employees, successors and assigns. This indemnification provision shall not be effective as to any loss attributable exclusively to the negligence or willful act or omission of Company.

(b) Company Indemnity. Company hereby agrees to defend, indemnify and hold harmless Hospital and its shareholders, affiliates, officers, directors, employees, and agents for, from and against any claim, loss, liability, cost and expense (including, without limitation, costs of investigation and reasonable attorney's fees), directly or indirectly relating to, resulting from or arising out of any action or failure to act arising out of this Agreement by Company and its staff regardless of whether or not it is caused in part by Hospital or its officers, directors, agents, representatives, employees, successors and assigns. This indemnification provision shall not be effective as to any loss attributable exclusively to the negligence or willful act or omission of Hospital.

(c) Survival. The indemnification obligations of the parties shall continue in full force and effect notwithstanding the expiration or termination of this Agreement with respect to any such expenses, costs, damages, claims and liabilities which arise out of or are attributable to the performance of this Agreement prior to its expiration or termination.

**10. NOTICES.**

All notices, requests, and other communications to any party hereto shall be in writing and shall be addressed to the receiving party's address set forth below or to any other address as a party may designate by notice hereunder, and shall either be (a) delivered by hand, (b) sent by recognized overnight courier, or (c) by certified mail, return receipt requested, postage prepaid.

If to Company:

Attention: General Counsel

If to Hospital: University of Chicago Medical Center  
5841 South Maryland Avenue  
Chicago, Illinois 60637-1670  
Attention: Administrator

All notices, requests, and other communication hereunder shall be deemed effective (a) if by hand, at the time of the delivery thereof to the receiving party at the address of such party set forth above, (b) if sent by overnight courier, on the next business day following the day such notice is delivered to the courier service, or (c) if sent by certified mail, five (5) business days following the day such mailing is made.

**11. DISPUTE RESOLUTION.**

(a) Informal Resolution. Should any dispute between the parties arise under this Agreement, written notice of such dispute shall be delivered from one party to the other party and thereafter, the parties, through appropriate representatives, shall first meet and attempt to resolve the dispute in face-to-face negotiations. This meeting shall occur within thirty (30) days of the date on which the written notice of such dispute is received by the other party.

(b) Resolution Through Mediation. If no resolution is reached through informal resolution, pursuant to Section 11(a) above, the parties shall, within forty-five (45) days of the first meeting referred to in Section 11(a) above, attempt to settle the dispute by formal mediation. If the parties cannot otherwise agree upon a mediator and the place of the mediation within such forty-five (45) day period, the American Arbitration Association ("AAA") in the state of Illinois shall administer the mediation. Such mediation shall occur no later than ninety (90) days after the dispute arises. All findings of fact and results of such mediation shall be in written form prepared by such mediator and provided to each party to such mediation. In the event that the parties are unable to resolve the dispute through formal mediation pursuant to this Section 11(b), the parties shall be entitled to seek any and all available legal remedies.

**12. ASSIGNMENT.**

This Agreement shall not be assigned in whole or in part by either party hereto without the express written consent of the other party, except that Company may assign this Agreement to one of its affiliates or subsidiaries without the consent of Hospital.

**13. ENTIRE AGREEMENT.**

This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes any and all other agreements, either oral or written, between the parties (including, without limitation, any prior agreement between Hospital and Company or any of its subsidiaries or affiliates) with respect to the subject matter hereof. This Agreement may be amended only in writing and only if executed by both parties.

**14. COUNTERPARTS.**

This Agreement may be executed simultaneously in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Copies of signatures sent by facsimile shall be deemed to be originals.

**15. NON-DISCRIMINATION.**

All services provided by Hospital hereunder shall be in compliance with all federal and state laws prohibiting discrimination on the basis of race, color religion, sex national origin, handicap, or veteran status.

**16. WAIVER.**

The failure of any party to insist in any one or more instances upon performance of any terms or conditions of this Agreement shall not be construed as a waiver of future performance of any such term, covenant, or condition, and the obligations of such party with respect thereto shall continue in full force and effect.

**17. GOVERNING LAW.**

This Agreement shall be governed by the laws of the state of Illinois.

**18. ENFORCEABILITY/SEVERABILITY.**

The provisions of this Agreement are severable. The invalidity or unenforceability of any term or provisions hereto in any jurisdiction shall in no way affect the validity or enforceability of any other terms or provisions in that jurisdiction, or of this entire Agreement in any other jurisdiction.

**19. HEADINGS.**

The headings appearing in this Agreement are for convenience and reference only, and are not intended to, and shall not, define or limit the scope of the provisions to which they relate.

**20. RELATIONSHIP OF THE PARTIES.**

Nothing in this Agreement shall be construed as limiting the right of Company to establish an affiliation with any other transplant hospital. None of the provisions of this Agreement are intended to create, nor shall be deemed or construed to create, any relationship between the parties hereto other than that of independent entities contracting with each other hereunder solely for the purpose of effecting the provisions of this Agreement. Neither this Agreement nor the fulfillment of any of the obligations of Hospital or Company hereunder shall be deemed to create any partnership, joint venture, legal association, or other operating relationship between the parties other than as independent contractors.

**21. JOINT PREPARATION.**

Each party to this Agreement (a) has participated in the preparation of this Agreement; (b) has read and understands this Agreement; and (c) has been represented by counsel of its own choice in the negotiation and preparation of this Agreement. Each party represents that this Agreement is executed voluntarily and should not be construed against any party hereto solely because it drafted all or a portion hereof.

**22. HIPAA.**

Each of the parties hereto agrees to comply with the provisions of the Health Insurance Portability and Accountability Act of 1996 and its implementing privacy and security regulations at 45 C.F.R. Parts 160 and 164 promulgated by the United States Department of Health and Human Services, as amended by the federal Health Information Technology for Economic and Clinical Health Act and its implementing regulations ("HIPAA"). The parties agree that from time to time, HIPAA may require modification of this Agreement for Compliance purposes and each party agrees to comply with the requests of the other related to such compliance with HIPAA.

**23. APPROVAL BY DAVITA INC. ("DAVITA") AS TO FORM.** The parties acknowledge and agree that this Agreement shall take effect and be legally binding upon the parties only upon full execution hereof by the parties and upon approval by DaVita Inc. as to the form hereof.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(i), Relocation of Facilities**

As set forth throughout this application, the Existing Facility has operated above 100% utilization for over three years. This requires the operation of a fourth shift. Operating four shifts per day is not feasible for many reasons. When a fourth shift is operated, the dialysis facility operates nearly around the clock with staff opening the facility around 5:00 a.m. and closing it around midnight. Not only is staffing a fourth shift difficult for clinic personnel, it is also suboptimal for the patients themselves who are chronically ill and usually elderly. Patients, many of whom rely on assistive devices, such as canes and walkers, are faced with additional safety hazards when arriving and departing the facility in the dark. Some of these hazards cannot be avoided in the winter but patients feel more secure when coming and going at night. Additionally, a fourth shift increases operating costs by adding additional staffing and utilities costs. Relocation of the Existing Facility will ensure that patients receive access to modern, high quality dialysis treatment.

Additionally, the Existing Facility has insufficient space to expand capacity in response to patient demand and the lease for the Existing Facility expires on September 30, 2012. As such, the proposed Replacement Facility is needed to ensure residents of Chicago's south side maintain access to life sustaining dialysis facilities.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(j), Assurances**

Attached at Attachment – 26H is a letter from Luis Borgen, Chief Financial Officer of DaVita and Total Renal Care, Inc. certifying that the proposed facility will achieve target utilization by the second year of operation

October 10, 2011

Dale Galassie  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

**Re: In-Center Hemodialysis Assurances**

Dear Chairman Galassie:

Pursuant to 77 Ill. Admin. Code § 1110.1430(j), I hereby certify the following:

- By the second year after project completion, Lake Park Dialysis will achieve and maintain 80% target utilization as specified in 77 Ill. Admin. Code; and
- Hemodialysis outcome measures will be achieved and maintained as follows:
  - $\geq 85\%$  of hemodialysis patient population achieves urea reduction ratio (URR)  $\geq 65\%$  and
  - $\geq 85\%$  of hemodialysis patient population achieves Kt/V Daugirdas II .1.2

Sincerely,

Luis Borgen  
Chief Financial Officer  
DaVita Inc.  
Total Renal Care, Inc.

Subscribed and sworn to me

Attachment – 26H

**Section VIII, Financial Feasibility**  
**Criterion 1120.120 Availability of Funds**

The project will be funded entirely with cash and cash equivalents, and a lease from Glazier Corporation. A copy of DaVita's 2010 10-K Statement evidencing sufficient internal resources to fund the project was previously submitted with the applications for Project Nos. 11-027 through 11-036.

**Section IX, Financial Feasibility**  
**Criterion 1120.130 – Financial Viability Waiver**

The project will be funded entirely with cash. A copy of DaVita's 2010 10-K Statement evidencing sufficient internal resources to fund the project was previously submitted with the applications for Project Nos. 11-027 through 11-036.

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.140(a), Reasonableness of Financing Arrangements**

Attached at Attachment – 42A is a letter from Luis Borgen, Chief Financial Officer of DaVita and Total Renal Care, Inc. attesting that the total estimated project costs will be funded entirely with cash.

1551 Wewatta Street  
Denver, CO 80202

October 10, 2011

Dale Galassie  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

**Re: Reasonableness of Financing Arrangements**

Dear Chairman Galassie:

I hereby certify under penalty of perjury as provided in § 1-109 of the Illinois Code of Civil Procedure, 735 ILCS 5/1-109 and pursuant to 77 Ill. Admin. Code § 1120.140(a) that the total estimated project costs and related costs will be funded in total with cash and cash equivalents.

Sincerely,

Luis Borgen  
Chief Financial Officer  
DaVita Inc.  
Total Renal Care, Inc.

Subscribed and sworn to me

Attachment – 42A

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.140(b), Conditions of Debt Financing**

This project will be funded in total with cash and cash equivalents. Accordingly, this criterion is not applicable.

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.310(c), Reasonableness of Project and Related Costs**

1. The Cost and Gross Square Feet by Department is provided in the table below.

Table 1120.310(c)									
COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New Circ.*		Gross Sq. Ft. Mod. Circ.*		Const. \$ (A x C)	Mod. \$ (B x E)	
ESRD	\$130.08		12,125						\$1,577,188
Contingency	\$15.61		12,125						\$189,262
TOTALS	\$145.69		12,125						\$1,766,450

\* Include the percentage (%) of space for circulation

2. As shown in Table 1120.310(c) below, the project costs are below the State Standard.

Table 1120.310(c)			
	Proposed Project	State Standard	Above/Below State Standard
New Construction Costs	\$1,577,188	\$207 per gross square foot x 12,125 gross square feet = \$2,509,875	Below State Standard
Contingencies	\$189,262	10 - 15% of New Construction Costs = 10 - 15% x \$1,577,188 = \$157,719 - \$236,578.20	Meets State Standard
Architectural/Engineering Fees	\$98,957	6.53 - 9.81% x (Construction Costs + Contingencies) = 6.53 - 9.81% x (\$1,577,188 + \$189,262) = 6.53 - 9.81% x \$1,766,450 = \$115,349 - \$173,288	Below State Standard
Consulting and Other Fees	\$74,500	No State Standard	No State Standard
Moveable Equipment	\$912,685	\$39,945 per station \$39,945 x 32 = \$1,278,240	Below State Standard

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.310(d), Projected Operating Costs**

Operating Expenses: \$\$2,017,047

Treatments: 22,724

Operating Expense per Treatment: \$88.76

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.310(e), Total Effect of Project on Capital Costs**

Capital Costs: \$193,057

Treatments: 22,724

Capital Costs per Treatment: \$8.50

**Section XI, Safety Net Impact Statement**

1. This criterion is required for all substantive and discontinuation projects. DaVita Inc. and its affiliates are safety net providers of dialysis services to residents of the State of Illinois. DaVita is a leading provider of dialysis services in the United States and is committed to innovation, improving clinical outcomes, compassionate care, education and empowering patients, and community outreach. A copy of DaVita's 2010 Community Care report, which details DaVita's commitment to quality, patient centric focus and community outreach, was previously submitted on July 11, 2011 as part of Applicants' applications for Proj. Nos. 11-027 to 11-036. DaVita has taken on many initiatives to improve the lives of patients suffering from CKD and ESRD. These programs include the EMPOWER, IMPACT, CathAway, and transplant assistance programs. Furthermore, DaVita is an industry leader in the rate of fistula use and had the lowest day-90 catheter rates among large dialysis providers in 2010. Its commitment to improving clinical outcomes directly translated into 7% reduction in hospitalizations among DaVita patients, the monetary result of which is \$509 million in savings to the health care system and the American taxpayer in 2010.

DaVita accepts and dialyzes patients with renal failure needing a regular course of dialysis without regard to race, color, national origin, gender, sexual orientation, age, religion, disability or ability to pay. Because of the life sustaining nature of dialysis, federal government guidelines define renal failure as a condition that qualifies an individual for Medicare benefits eligibility regardless of their age and subject to having met certain minimum eligibility requirements including having earned the necessary number of work credits. Indigent ESRD patients who are not eligible for Medicare and who are not covered by commercial insurance are eligible for Medicaid benefits. If there are gaps in coverage under these programs during coordination of benefits periods or prior to having qualified for program benefits, grants are available to these patients from both the American Kidney Foundation and the National Kidney Foundation. If none of these reimbursement mechanisms are available for a period of dialysis, financially needy patients may qualify for assistance from DaVita in the form of free care. DaVita submits the following information regarding the amount of charity and Medicaid care provided over the most recent three years.

<b>Safety Net Information per PA 96-0031</b>			
<b>CHARITY CARE</b>			
<b>Charity (# of patients)</b>	<b>2008</b>	<b>2009</b>	<b>2010</b>
Inpatient			
Outpatient	52	66	96
<b>Total</b>	<b>52</b>	<b>66</b>	<b>96</b>
<b>Charity (cost in dollars)</b>			
Inpatient			
Outpatient	\$321,510	\$597,263	\$957,867
<b>Total</b>	<b>\$321,510</b>	<b>\$597,263</b>	<b>\$957,867</b>
<b>MEDICAID</b>			
<b>Medicaid (# of patients)</b>	<b>2008</b>	<b>2009</b>	<b>2010</b>
Inpatient			
Outpatient	443	445	563
<b>Total</b>	<b>443</b>	<b>445</b>	<b>563</b>
<b>Medicaid (revenue)</b>			
Inpatient			
Outpatient	\$8,695,341	\$8,820,052	\$10,447,021
<b>Total</b>	<b>\$8,695,341</b>	<b>\$8,820,052</b>	<b>\$10,447,021</b>

2. The proposed project will not impact the ability of other health care providers or health care systems to cross-subsidize safety net services. As shown in Table 1110.1430(b), average utilization at existing dialysis facilities within 30 minutes normal travel time of the Replacement Facility is currently 76%. Additionally, when excluding facilities not in operation for one quarter or more, average utilization in the service area is 80%. The Renal Network Utilization Data also takes into account 3 facilities, FMC – Midway, West Lawn Dialysis, and RCG – Uptown, all of which have only been in operation for one quarter. The referring physicians for the four facilities anticipate they will refer a sufficient number of patients to each facility that all non-operational facilities will be operating at or above the Board's 80% utilization standard by the second year after project completion. As such, the utilization within the service area will meet or exceed the State's 80% standard within 12 to 18 months. Thus, the proposed facility is necessary to allow existing facilities to operate at their optimum capacity while at the same time accommodating the growing demand for dialysis services. Accordingly, the proposed dialysis facility will not impact other general health care providers' ability to cross-subsidize safety net services.
  
3. The proposed project is for the relocation of Lake Park Dialysis and the addition of 12 stations at its new location located 1.8 miles from its current location. Patients currently treated at Lake Park will receive treatment at the new facility. As such, the discontinuation of service at the current location will not negatively impact the safety net.

**Section XII, Charity Care Information**

The table below provides charity care information for all dialysis facilities located in the State of Illinois that are owned or operated by the Applicants.

<b>CHARITY CARE</b>			
	<b>2008</b>	<b>2009</b>	<b>2010</b>
<b>Net Patient Revenue</b>	<b>\$138,964,396</b>	<b>\$149,370,292</b>	<b>\$161,884,078</b>
Amount of Charity Care (charges)	\$297,508	\$575,803	\$957,867
Cost of Charity Care	\$297,508	\$575,803	\$957,867

**Appendix 1 – Time & Distance Determination: Discontinuation**

Attached as Appendix J is the list of all existing facilities within 45 minutes normal travel time from the Existing Facility as determined by MapQuest.

**After printing this label:**

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

**Warning:** Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.
