NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size. The **community map repository** should be consulted for possible updated or additional flood hazard information.

To obtain more detailed information in areas where **Base Flood Elevations (BFEs)** and/or **floodways** have been determined, users are encouraged to consult the Flood Profiles and Floodway Data and/or Summary of Stillwater Elevations tables contained within the Flood Insurance Study (FIS) report that accompanies this FIRM. Users should be aware that BFEs shown on the FIRM represent rounded whole-foot elevations. These BFEs are intended for flood insurance rating purposes only and should not be used as the sole source of flood elevation information. Accordingly, flood elevation data presented in the FIS report should be utilized in conjunction with the FIRM for purposes of construction and/or flood plain management.

Coastal Base Flood Elevations shown on this map apply only landward of 0.0' North American Vertical Datum of 1988 (NAVD 88). Users of this FIRM should be aware that coastal flood elevations are also provided in the Summary of Stillwater Elevations table in the Flood Insurance Study report for this jurisdiction. Elevations shown in the Summary of Stillwater Elevations table should be used for construction and/or flood plain management purposes when they are higher than the elevations shown on this FIRM.

Boundaries of the **floodways** were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the National Flood Insurance Program. Floodway widths and other pertinent floodway data are provided in the Flood Insurance Study report for this jurisdiction.

In the State of Illinois, any portion of a stream or watercourse that lies within the **floodway fringe** of a studied (AE) stream may have a state regulated floodway. The FIRM may not depict these state regulated floodways.

Floodways restricted by anthropogenic features such as bridges and culverts are drawn to reflect natural conditions and may not agree with the model computed widths listed in the Floodway Data table in the Flood Insurance Study report.

Multiple **topographic sources** may have been used in the delineation of Special Flood Hazard Areas. See Flood Insurance Study report for details on source resolution and geographic extent.

Certain areas not in Special Flood Hazard Areas may be protected by **flood control structures**. Refer to Section 2.4 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

Dear Mr. Rogal:

The Illinois Historic Preservation Agency is required by the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420, as amended, 17 IAC 4180) to review all state funded, permitted or licensed undertakings for their effect on cultural resources. Pursuant to this, we have received information regarding the referenced project for our comment.

Our staff has reviewed the specifications under the state law and assessed the impact of the project as submitted by your office. We have determined, based on the available information, that no significant historic, architectural or archaeological resources are located within the proposed project area.

According to the information you have provided concerning your proposed project, apparently there is no federal involvement in your project. However, please note that the state law is less restrictive than the federal cultural resource laws concerning archaeology. If your project will use federal loans or grants, need federal agency permits, use federal property, or involve assistance from a federal agency, then your project must be reviewed under the National Historic Preservation Act of 1966, as amended. Please notify us immediately if such is the case.

This clearance remains in effect for two (2) years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the IL Human Skeletal Remains Protection Act (20 ILCS 3440).

Please retain this letter in your files as evidence of compliance with the Illinois State Agency Historic Resources Preservation Act.

Sincerely,

Anne E. Haaker

REASONS FOR DISCONTINUATION

The existing facility is a multi-level former convent. It is at least 70 years old. It does not have sprinklers. Federal regulations mandating sprinklers will become effective in 2013 making it necessary to close the facility.

The building is not handicapped accessible. It has many steep stairs making it difficult for individuals with mobility challenges.

The building was converted from a convent in 1984t. As a result there are number of areas that are not desirable. Those include:

- Narrow bedrooms with very little space for personal belongings
- Dormitory style bathrooms that provide no privacy
- Outdated fixtures and appliances requiring frequent repair
- A basement laundry facility that is inaccessible to some residents
- Multiple maintenance issues due to the age of the building

Pictures of the facility follow this page.

DISCONTINUATION

IMPACT ON ACCESS

1. The Summit facility is being replaced by a facility of the same size in Countryside. According to Mapquest, the distance is less than 4.5 miles with a drive time of 9 minutes. The discontinuation will not have an adverse effect upon access to care.
2. A written request for an impact statement was sent to facilities within a 45-minute travel time. A list of those facilities and copies of the letters and certified mail return cards follow this page.
3. Copies of impact statements received are included in this section.

Dear Sir or Madam:

Helping Hand Center operates residential facilities and provides services for individuals with developmental disabilities in south suburban Cook County. Our facility at 7434 61st Place, Summit, Illinois, is over 70 years old and will be required to close in 2013 because it does not meet current IDPH requirements.

Helping Hand intends to apply for a Certificate of Need to build a 16-bed replacement facility at 9618 W. 58th Street, Countryside, Illinois, where the facility in which our day programs are offered is located. The individuals living in the Summit facility will move to the new facility when it is completed, and the Summit facility will be closed. Day programs will be provided by Helping Hand Center at 9649 W. 55th Street, Countryside, Illinois.

The rules of the Illinois Health Facilities and Services Review Board require us to inform you of the proposed discontinuation of the Summit facility and request an impact statement from you. The facility provided care to 16 persons in the last 24 months. The anticipated closing date of the facility is December 31, 21013. Illinois Health Facilities and Services Review Board rules require requesting that you provide a written response within 15 days of receipt of this letter indicating whether you have or will have available capacity to accommodate all or a portion of these patients and whether any restrictions or limitations preclude providing service to residents of the applicant's market area.

RE: Replacement ICF/DD 16 and Under Facility

Dear Sir or Madam:

Helping Hand Center operates residential facilities and provides services for individuals with developmental disabilities in south suburban Cook County. Our facility at 7434 61st Place, Summit, Illinois, is over 70 years old and will be required to close in 2013 because it does not meet current IDPH requirements.

Helping Hand intends to apply for a Certificate of Need to build a 16-bed replacement facility at 9618 W. 58th Street, Countryside, Illinois, where the facility in which our day programs are offered is located. The individuals living in the Summit facility will move to the new facility when it is completed, and the Summit facility will be closed. Day programs will be provided by Helping Hand Center at 9649 W. 55th Street, Countryside, Illinois.

The rules of the Illinois Health Facilities and Services Review Board require us to inform you of the proposed discontinuation of the Summit facility and request an impact statement from you. The facility provided care to 16 persons in the last 24 months. The anticipated closing date of the facility is December 31, 2013. Illinois Health Facilities and Services Review Board rules require requesting that you provide a written response within 15 days of receipt of this letter indicating whether you have or will have available capacity to accommodate all or a portion of these patients and whether any restrictions or limitations preclude providing service to residents of the applicant's market area.

If you have any questions, please contact Ira Rogal, our consultant. Thank you for your help.

Very truly yours,

Ira Rogal

Our facility at 7434 61st Place, Summit, Illinois, is over 70 years old and will be required to close in 2013 because it does not meet current IDPH requirements.

Helping Hand intends to apply for a Certificate of Need to build a 16-bed replacement facility at 9618 W. 58th Street, Countryside, Illinois, where the facility in which our day programs are offered is located. The individuals living in the Summit facility will move to the new facility when it is completed, and the Summit facility will be closed. Day programs will be provided by Helping Hand Center at 9649 W. 55th Street, Countryside, Illinois.

The rules of the Illinois Health Facilities and Services Review Board require us to inform you of the proposed discontinuation of the Summit facility and request an impact statement from you. The facility provided care to 16 persons in the last 24 months. The anticipated closing date of the facility is December 31, 21013. Illinois Health Facilities and Services Review Board rules require requesting that you provide a written response within 15 days of receipt of this letter indicating whether you have or will have available capacity to accommodate all or a portion of these patients and whether any restrictions or limitations preclude providing service to residents of the applicant's market area.

If you have any questions, please contact Ira Rogal, our consultant. Thank you for your help.

Very truly yours,

Ira Rogal

Dear Mr. Rogal,

The Iona Glos Specialized Living Center (SLC) is a 100 bed licensed intermediate care facility for adults with developmental disabilities.

At the present time, the SLC is at capacity and has been since it's opening in 1980. With the on-set of Ligas implementation in Illinois, it is difficult to predict whether we will have available capacity to accommodate all or a portion of the people you support in 2013.

If you should have any questions, please feel free to contact me at (630) 543-2440 ext. 116.

PURPOSE OF THE PROJECT

1. The project will provide health services that improve the health care or well being of the market area population to be served.

This project will improve the health care or well being of the population being served by moving the 16 residents of a very old and outdated ICF/DD to a brand new facility. The new facility will be an improvement over virtually every aspect of the existing facility. There will be improved privacy, better bathrooms, a better kitchen and eating area, a more convenient laundry and better lighting. It will be handicapped accessible and sprinkled making it safer for the residents.

2. Define the planning area or market area.

The market area is a 30-minute drive time from Helping Hand Center.

3. Identify existing problems that need to be addressed.

The existing facility is obsolete. It is not handicapped accessible, does not have sprinklers and in general does not meet the needs and expectations of residents and their families. Pictures of the facility are included in the Discontinuation attachments.

4. Cite the sources of the information provided as documentation.

The applicant Helping Hand Center provided information on the existing and proposed facilities.

5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.

The project will improve the well being of the residents in the existing facility. More detail is provided in section one above. It will also improve the well being of area residents by providing an updated facility for persons who will need these services in future years.

6. Provide goals.

The goal of this project is to provide a better home to the residents of the current facility. That goal will be achieved when the new facility opens and the residents move in.

ATTACHMENT 12

ALTERNATIVES TO THE PROJECT

Applicants considered the following alternatives.

A. Proposing a project of greater or lesser scope.

The facility is an n ICF/DD 16 and under. A larger facility or multiple facilities were not considered because applicants do not have the financial resources to build a larger facility. Building a facility with 30 beds would be approximately twice the cost of this project.

A smaller facility could be built. That alternative was rejected because the facility being replaced has 16 residents. Building a smaller facility would require Helping Hand to attempt to relocate one or more residents to be placed in another facility. However there is a need for more than 2000 additional ICF/DD beds in the Planning Area.

It may not be possible for Helping Hand to place their residents in another facility. Moving residents would be disruptive to the residents and their families. It is not in the best interest of the residents.

Reducing the number of beds at the facility would reduce the costs. The reduction is not entirely proportionate. Site preparation costs, site survey and consulting costs would not be reduced proportionally. Additionally the cost per resident would increase because some of the staffing costs are not variable with the number of residents.

Reducing the size of the facility to 8 beds would reduce the project cost by approximately one-half.

B. Pursuing a joint venture

A joint venture to build a facility of the same size would cost approximately the same amount.

In a joint venture the other party would provide services, staffing or financing for the project and participate in its management. This project involves replacing an outdated facility with a new one. Programs and staff will not change. The staff at the current facility will be moving to the new facility ensuring continuity of care for the residents. Helping Hand Center has the closest day programs to the location of the new facility. It will continue to offer programs and services to the residents of the facility.

There is no benefit to the residents or cost savings from a joint venture.

- C. Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project.

The current residents of the facility have been determined to be in need of a residential placement. The planning area has a need of over 2000 additional ICF/DD beds. There are not other health care facilities that can serve the needs of the residents of the existing facility.

Since there are no other health care resources in the planning area that can serve the population there would be no savings.

- D. Reasons why the chosen alternative was selected.

This is a replacement project. The current facility is outdated. Federal regulations mandating sprinklers will become effective in 2013 making it necessary to close the current facility.

Applicants are committed to the individuals they serve. The proposed project is designed to improve their living conditions while continuing all existing staff, programs and services. The alternative chosen is to build the replacement facility at a location closer to Helping Hand Center.

SIZE OF PROJECT

This is a 16-bed ICF/DD in 8,000 square feet. It is under the State standard for size.

The new building is being designed to meet the needs of current and future residents and staff. Spaces will be designed promoting resident empowerment in daily activities.

There will be private bedrooms and appropriate shared spaces. While not included in the building size, the lot is of sufficient size to allow secure outdoor areas for resident use and enjoyment.

Dear Mary Beth,

This letter is written in support of a new building in Countryside to house the residents of the current St. Blase facility ICF in Summit.

I am writing this letter in support of your new proposal for a group home in Countryside. Helping Hand has always prided themselves in providing all its clients with the utmost in service, care and respect. Attempting to convert the Summit facility into a place that is fully accessible and instituting the required repairs would be a major cost prohibitive undertaking which would be nearly impossible to achieve with residents living there.

It would be fabulous to have a brand new ICF that would be easily accessible for wheelchairs and other physical challenges our residents will continue to face. Also, its proximity to the Helping Hand headquarters, would, no doubt, provide an added bonus to SERVICING THE CLIENTS; which is the primary mission of Helping Hand.

The New Facility would provide a more homelike atmosphere and would integrate beautifully with the neighborhood. I see this as an opportunity to offer a completely accessible, safe and spacious environment that would greatly improve the quality of their lives.

Since I own some Multi apartment buildings in Countryside (9709 & 9717 Lorraine Dr.) which is right down the street, we would welcome you as our neighbor.

Very truly yours,

Countryside, IL 60525

Dear Ms. Hepp:

Please accept this letter of support for Helping Hand Rehabilitation Center's plan to build a new facility to replace your existing Intermediate Care Facility (ICFDD). Suburban Access, Inc. works closely and collaboratively with Helping Hand in support of people with developmental disabilities. As a linkage, referral and monitoring agency, Suburban Access is very familiar with the services provided by Helping Hand.

It is our understanding that this new building would afford wheelchair accessibility to its residents and also will be sprinkler equipped. These features not only add to a level of safety not currently available but will also allow you to better meet the needs of people with mobility impairments, a condition which grows in prevalence as your residents age. Additionally, this facility will provide a modern and comfortable home setting allowing residents the privacy of their own bedrooms.

Helping Hand Rehabilitation Center has been working hard to meet the needs of their residents and program participants while also addressing the needs of the surrounding communities. You have history of providing exceptional support residentially and vocationally. We are pleased to endorse your endeavor to provide the best possible care to those you serve. We hope that your project is favorably reviewed. The need for this change is clear.

Sincerely,

Deb Stanley

Dear Mrs. Hepp:

This letter is written in support of a new building in Countryside to house the residents of the current St. Blase ICF in Summit.

Our daughter, Leslie, is a resident of St. Blase, and I am the president of the Helping Hand Family Association. My husband, daughter, and I have all been beneficiaries of the quality services provided by Helping Hand for over 30 years; and are extremely grateful for the excellent programming and Leslie's home at St. Blase. However, we have been aware for some time that the St. Blase building is badly in need of repairs and is not handicapped-accessible. Our daughter is not physically limited at this time and is capable of climbing the required flights of stairs; but we are concerned that, as she ages, this will change for her as well as the other residents. The age and condition of the St. Blase building would make repairs and accessibility upgrades extremely cost-prohibitive. In addition, the residents' bedrooms are very small, and require creative use of space to accommodate minimal furniture and personal possessions.

It would be wonderful to have a new ICF that would be easily accessible for wheelchairs and other physical challenges, as aging residents do have mobility impairments and need medications that call for the level of care that an ICF provides. We also feel that a sprinkler system is of utmost importance for added safety, and that would be provided in the new building.

The new facility would provide a more congenial, homelike atmosphere and would integrate beautifully into the neighborhood. We see this as an excellent opportunity to maintain the current capacity for residents – with no gain or loss of beds; and to offer a completely accessible, safe and spacious environment that would greatly improve the quality of their lives.

We fully support your intention to build this new ICF, and thank you most sincerely for everything Helping Hand has done for our daughter. As a former special education teacher myself for nearly 20 years as well as a regular volunteer for Helping Hand Center since my retirement, I fully recognize that Helping Hand is an agency with the highest level of care, concern and services for disabled individuals.

The City of Countryside and Helping Hand have always had a positive working relationship, the residents are truly a part of the Countryside community; attending community events, as well as shopping and working in our retail establishments. The City envisions nothing but positive outcomes that this group home will bring to the City of Countryside.

Lyons Township Mental Health Commission

January 20, 2012

Mary Beth Hepp, Executive Director
Helping Hand Rehabilitation Center
9649 W. 55th Street
Countryside, IL 60525

Dear Ms. Hepp:

The Lyons Township Mental Health Commission is pleased to offer its support of Helping Hand Rehabilitation Center's request for a Certificate of Need for a new residence to replace the St. Blaise Intermediate Care Facility in Summit.

Under Illinois Statute, the Mental Health Commission is mandated to plan, fund and monitor community-based services for the developmentally disabled. As a major funder of Helping Hand, we recognize that the St. Blaise facility is badly in need of repair and that even if remodeled, would still not be fully handicap accessible. As useful as it has been, we feel that the current facility no longer meets required standards or needs of its clients.

A new ICF would have improved life-safety components, would be fully wheel chair accessible, and would offer both a more home-like setting and be fully integrated into the neighborhood. I also understand that the residents in question are aging to the point that mobility may be impaired requiring more medical involvement. A new ICF with the same capacity would be better able to address all of these issues.

The Mental Health Commission remains committed to quality residential care for all disabled residents of the township. We look forward to offering whatever assistance we can in this endeavor and fully support your request for a Certificate of Need.

RE: Replacement ICF/DD 16 and Under Facility

Dear Sir or Madam:

Helping Hand Center operates residential facilities and provides services for individuals with developmental disabilities in south suburban Cook County. Our facility at 7434 61st Place, Summit, Illinois, is over 70 years old and will be required to close in 2013 because it does not meet current IDPH requirements.

Helping Hand intends to apply for a Certificate of Need to build a 16-bed replacement facility at 9618 W. 58th Street, Countryside, Illinois, near where the facility in which our day programs are offered is located. The individuals living in the Summit facility will move to the new facility when it is completed, and the Summit facility will be closed. Day programs will be provided by Helping Hand Center at 9649 W. 55th Street, Countryside, Illinois.

The rules of the Illinois Health Facilities and Services Review Board require us to inform you of the proposed project and request comments regarding the impact on your program.

We ask that you provide a response. If you have any questions, please contact Ira Rogal, our consultant. Thank you for your help.

To Whom It May Concern:

Thank you for the information about the Countryside replacement facility proposed by Helping Hand Center. UCPGC views a 16 bed facility for a DD CILA as neither a best practice nor a cost effective model for DD residential facility. We would recommend downsizing to multiple smaller facilities. However, we do not oppose Helping Hand Center's action. **Their building will not impact our programs.**

Department of Human Services
401 South Clinton, Floor 7
Chicago, Illinois 60607

January 25, 2012

Dear Secretary Stadler:

Helping Hand operates residential facilities and services for individuals with developmental disabilities in south suburban Cook County. Our current ICF in Summit is over 70 years old, and will be required to close in 2013 because it does not meet current IDPH requirements.

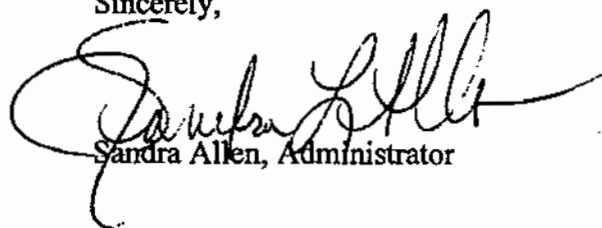

Helping Hand intends to apply for a Certificate of Need to build a 16-bed replacement facility in Countryside where the facility in which our day programs are offered is located. The individuals living in the Summit facility will move to the new facility when it is completed.

The rules of the Illinois Health Facilities and Services Review Board require us to ask you to determine the project's consistency with the long-range goals and objectives of the Department and request the identification of individuals in need of service. The Board's rule provides as follows:

"The Department's responses should address, on both a statewide and a planning area basis, whether the proposed project meets the Department's planning objectives regarding the size, type and number of beds proposed, whether the project conforms or does not conform to each Department's plan, and how the project assists or hinders each Department in achieving its planning objectives."

We ask that you provide a response. If you have any questions, please contact our consultant, at (708) 482-4820 or e-mail her at the following:

Sincerely,

Sandra Allen, Administrator

These financial statements are the responsibility of Helping Hand Center's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2010 AND 2009**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Activities

Helping Hand Center (Helping Hand) is an Illinois nonprofit corporation. Its mission is to assist persons with disabilities to achieve their highest level of independence through quality programs and services.

During the year ended June 30, 2010, Helping Hand made a noncash contribution to the Helping Hand Foundation of \$5,870,375 which consisted of land and buildings (\$12,199,695), net of associated debt and related accounts (\$6,329,320). The transaction was recorded at fair value. Helping Hand leases the land and buildings from Helping Hand Foundation under long-term operating leases.

During the year ended June 30, 2010, Helping Hand changed its name from Helping Hand Rehabilitation Center.

B. Basis of Accounting

The financial statements of Helping Hand have been prepared on the accrual basis in conformity with U.S. generally accepted accounting principles.

C. Cash Equivalents

For purposes of the statement of cash flows, Helping Hand considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents. Helping Hand's investments in money market funds and restricted cash balances are not considered cash equivalents for statement of cash flows purposes.

Helping Hand maintains its cash balances at several banks located in the Chicago, Illinois area. The bank account balances, at times, exceed federally insured limits. Helping Hand has not experienced any losses on such accounts.

D. Accounts Receivable

Accounts receivable are reported at their outstanding balance reduced by the allowance for doubtful accounts, if any.

The allowance for doubtful accounts is increased by charges to income and decreased by chargeoffs (net of recoveries). Management's periodic evaluation of the adequacy of the allowance is based on Helping Hand's past collection experience, known and inherent risks of the governmental agencies and customers comprising Helping Hand's accounts receivable balance, adverse situations that may affect the governmental agency's and customer's ability to pay, and current economic conditions. Accounts receivable are charged off when management deems the accounts receivable balance to be uncollectible.

The allowance for doubtful accounts at June 30, 2010 and 2009 was \$45,000 and \$30,000, respectively.

**HELPING HAND CENTER
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2010 AND 2009**

E. Property and Equipment

Property and equipment are capitalized at cost. It is Helping Hand's policy to capitalize expenditures for these items in excess of \$500. Lesser amounts are expensed. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are expensed as incurred.

F. Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Investment income and gains restricted by a donor are reported as increases in unrestricted net assets if the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized.

G. Accrued Vacation Liability

Vacation days earned by employees are accrued at their current rate of pay. Employees begin earning two weeks of vacation on their anniversary date of employment each year. One additional day is earned each year on their anniversary date up to three weeks of vacation per year with an additional week earned after fifteen years of employment. Program directors receive three weeks of vacation in their first year and earn an additional day each year on their anniversary date up to four weeks of vacation.

H. Income Taxes

Helping Hand operates as a not-for-profit organization and has received exempt status under Section 501(c)(3) of the Internal Revenue Code.

I. Basis of Revenue Recognition

Program contract and grant revenues are recognized as income in the contract period in which services are provided.

J. Public Support and Revenue

Grants and other contributions of cash and other assets are reported as temporarily restricted support if they are received with donor stipulations that limit the use of the donated cash and assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Restricted contributions whose restrictions are met in the same reporting period they are received are shown as unrestricted support.

**HELPING HAND CENTER
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2010 AND 2009**

Donations of noncash assets are recorded at their fair values in the period received. Donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Unconditional promises to give are recognized as contribution support and receivables in the period in which the promise is received. Conditional promises to give are recognized as contribution support and receivables when the conditions are substantially met.

A number of volunteers have donated their services to the programs of Helping Hand. No amounts have been recognized for these donated services in the statement of activities because the criteria for recognition under Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 958-605-25, *Not-For-Profit Entities Revenue Recognition* have not been satisfied.

K. Functional Expenses - Allocation of Costs

Expenses are charged to each program based on direct expenditures incurred. Any program expenditures not directly chargeable to a specific program are charged to the programs, depending on the type of expense, and are based on full-time equivalents of personnel, hours of service by program area, or occupancy percentages.

L. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that Helping Hand has the ability to access.

Level 2

Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010.

Money market funds and mutual funds: Valued at the net asset value (NAV) of shares held by Helping Hand at year end.

HELPING HAND CENTER
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2010 AND 2009

Certificates of deposit and other: Valued using management's assumptions about the assumptions market participants would utilize in pricing the asset.

Obligation under interest rate swap: Inputs used to value the interest rate swap include valuation techniques which convert future amounts to a single present amount based on current market expectations about the future amounts (including present value techniques and option pricing models).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Helping Hand believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, Helping Hand's assets and liabilities at fair value as of June 30, 2010 and 2009:

NOTE 8. INTEREST RATE SWAP AGREEMENTS

Helping Hand entered into two interest rate swap agreements during the year ended June 30, 2009 to hedge the cash flow variability caused by changes in interest rates on its variable rate revenue bond. The notional principal amounts of the swap agreements are \$3,000,000 and \$1,000,000. The total outstanding balance as of December 31, 2009 of \$236,324 was transferred to Helping Hand Foundation. Helping Hand remains a guarantor of these agreements.

U.S. generally accepted accounting principles require derivative instruments, such as interest rate swap agreements, to be recognized at fair value as either assets or liabilities in the statement of financial position. Accordingly, the value of the swap agreements at June 30, 2009 of \$210,406 is reported as a liability in the statement of financial position. The decrease in value of interest rate swaps is reported in the statement of activities as a separate component of changes in net assets of \$25,918 and \$210,406 for the years ended June 30, 2010 and 2009, respectively.

Interest expense on the underlying debt totaled \$112,625 and \$255,171 for the years ended June 30, 2010 and 2009, respectively. Included in this amount is \$63,964 and \$83,281 of additional interest required to be paid under the swap agreements for the years ended June 30, 2010 and 2009, respectively.

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2009 AND 2008**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Activities

Helping Hand Rehabilitation Center (Helping Hand) is an Illinois nonprofit corporation. Its mission is to assist persons with disabilities to achieve their highest level of independence through quality programs and services.

B. Basis of Accounting

The financial statements of Helping Hand have been prepared on the accrual basis in conformity with U.S. generally accepted accounting principles.

C. Cash Equivalents

For purposes of the statement of cash flows, Helping Hand considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents. Helping Hand's investments in money market funds and restricted cash balances are not considered cash equivalents for statement of cash flows purposes.

Helping Hand maintains its cash balances at several banks located in the Chicago, Illinois area. The bank account balances, at times, exceed federally insured limits. Helping Hand has not experienced any losses on such accounts.

D. Accounts Receivable

Accounts receivable are reported at their outstanding balance reduced by the allowance for doubtful accounts, if any.

The allowance for doubtful accounts is increased by charges to income and decreased by chargeoffs (net of recoveries). Management's periodic evaluation of the adequacy of the allowance is based on Helping Hand's past collection experience, known and inherent risks of the governmental agencies and customers comprising Helping Hand's accounts receivable balance, adverse situations that may affect the governmental agency's and customer's ability to pay, and current economic conditions. Accounts receivable are charged off when management deems the accounts receivable balance to be uncollectible.

The allowance for doubtful accounts at June 30, 2009 and 2008 was \$30,000.

E. Property and Equipment

Property and equipment are capitalized at cost. It is Helping Hand's policy to capitalize expenditures for these items in excess of \$500. Lesser amounts are expensed. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are expensed as incurred.

**HELPING HAND REHABILITATION CENTER
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2009 AND 2008**

F. Investments

Investments are comprised mainly of money market funds, certificates of deposit and mutual funds and are carried at fair value.

G. Amortization of Deferred Loan Costs

Deferred loan costs are being amortized over twenty-five years, which corresponds with the maturity of the bonds payable, using the straight-line method.

H. Accrued Vacation Liability

Vacation days earned by employees are accrued at their current rate of pay. Employees begin earning two weeks of vacation on their anniversary date of employment each year. One additional day is earned each year on their anniversary date up to three weeks of vacation per year with an additional week earned after fifteen years of employment. Program directors receive three weeks of vacation in their first year and earn an additional day each year on their anniversary date up to four weeks of vacation.

I. Income Taxes

Helping Hand operates as a not-for-profit organization and has received exempt status under Section 501(c)(3) of the Internal Revenue Code.

J. Basis of Revenue Recognition

Program contract and grant revenues are recognized as income in the contract period in which services are provided.

K. Public Support and Revenue

Grants and other contributions of cash and other assets are reported as temporarily restricted support if they are received with donor stipulations that limit the use of the donated cash and assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Restricted contributions whose restrictions are met in the same reporting period they are received are shown as unrestricted support.

Donations of noncash assets are recorded at their fair values in the period received. Donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

HELPING HAND REHABILITATION CENTER
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2009 AND 2008

Unconditional promises to give are recognized as contribution support and receivables in the period in which the promise is received. Conditional promises to give are recognized as contribution support and receivables when the conditions are substantially met.

A number of volunteers have donated their services to the programs of Helping Hand. No amounts have been recognized for these donated services in the statement of activities because the criteria for recognition under SFAS No. 116 have not been satisfied.

L. Functional Expenses - Allocation of Costs

Expenses are charged to each program based on direct expenditures incurred. Any program expenditures not directly chargeable to a specific program are charged to the programs, depending on the type of expense, and are based on full-time equivalents of personnel, hours of service by program area, or occupancy percentages.

M. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. RESTRICTED CASH

Cash at June 30, 2009 and 2008 was restricted as follows:

	<u>2009</u>	<u>2008</u>

NOTE 3. FAIR VALUE MEASUREMENTS

Helping Hand has determined the fair value of certain assets and liabilities through application of SFAS No. 157, *Fair Value Measurements*.

The following table presents Helping Hand's fair value hierarchy for certain assets and liabilities measured at fair value on a recurring basis at June 30, 2009:

	<u>Fair Value</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
Assets:			
Investments	<u>\$ 1,067,809</u>	<u>\$ 1,067,809</u>	<u>\$ -</u>
Liabilities:			
Obligation under interest rate swap agreements	<u>\$ 210,406</u>	<u>\$ -</u>	<u>\$ 210,406</u>

Financial assets and liabilities valued using Level 1 inputs are based on unadjusted quoted market prices within active markets for identical assets or liabilities. Financial assets and liabilities valued using Level 2 inputs are based primarily on quoted prices for similar assets or liabilities in active or inactive markets. Financial assets using level 3 inputs were primarily valued using management's assumptions about the assumptions market participants would utilize in pricing the asset. Financial liabilities using level 3 inputs were primarily valued using pricing models, discounted cash flow methodologies, or similar techniques. Valuation techniques utilized to determine fair value are consistently applied.

The following table presents a reconciliation of Helping Hand's Level 3 liabilities measured at fair value on a recurring basis:

	<u>Obligation under Interest Rate Swap Agreements</u>
Balance at July 1, 2008	\$ -
Total gains or losses (realized and unrealized) included in change in net assets	(210,406)
Purchases, sales, issuances, settlements, (net)	<u>-</u>
Balance at June 30, 2009	<u>\$ (210,406)</u>
The amount of total gains or losses for the year ended June 30, 2009 included in change in net assets attributable to the change in unrealized gains or losses relating to liabilities outstanding at year end	<u>\$ (210,406)</u>

NOTE 8. INTEREST RATE SWAP AGREEMENTS

Helping Hand entered into two interest rate swap agreements during the year ended June 30, 2009 to hedge the cash flow variability caused by changes in interest rates on its variable rate revenue bond. The differential interest required to be paid or that will be received under the agreements is accrued consistent with the terms of the agreements and is recognized in interest expense as accrued. Terms of the swap agreements require the differential interest to be paid or received monthly.

U.S. generally accepted accounting principles require derivative instruments, such as interest rate swap agreements, to be recognized at fair value as either assets or liabilities in the statement of financial position. Accordingly, the negative value of the swap agreements at June 30, 2009 of \$(210,406) is reported as a liability in the statement of financial position. This reflects a \$210,406 increase in the liability (i.e., decrease in value of the swaps) since the swap agreements were entered into. The decrease in value is reported in the statement of activities as a separate component of changes in net assets. Value has been measured based on estimates of the amounts needed to settle the agreements as calculated by the counterparty to the swap agreements. Such calculations were based on changes in market conditions and/or assumptions underlying valuation models.

The notional principal amounts of the swap agreements are \$3,000,000 and \$1,000,000. Interest expense on the underlying debt totaled \$255,171 for the year ended June 30, 2009. Included in this amount is \$83,281 of additional interest required to be paid under the swap agreements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2011 AND 2010**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Activities

Helping Hand Foundation and subsidiary (collectively referred to as "Foundation") are Illinois nonprofit corporations. They were established to assist Helping Hand Center in providing "service for life" to individuals with disabilities by assuring the agency's long-term financial stability through fund raising and financial stewardship.

The Foundation leases land and buildings to Helping Hand Center under long-term operating leases. Helping Hand Center has an economic interest in the Foundation but does not have any control.

During the year ended June 30, 2010, the Foundation received a noncash contribution from Helping Hand Center of \$5,870,375, which consisted of land and buildings (\$12,199,695), net of associated debt and related accounts (\$6,329,320). The transaction was recorded at fair value.

B. Principles of Consolidation

The accompanying financial statements present the consolidated financial position, activities, and cash flows of Helping Hand Foundation and its wholly owned subsidiary, Helping Hand Foundation Real Estate Holding Company, Inc. Significant intra-entity transactions and balances have been eliminated in consolidation.

C. Basis of Accounting

The financial statements of the Foundation have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

D. Cash Equivalents

For purposes of the statement of cash flows, the Foundation considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents. Restricted cash balances are not considered cash equivalents for statement of cash flow purposes. At June 30, 2011 and 2010, the Foundation had cash of \$137,083 and \$115,000, respectively, restricted in accordance with the bond agreement.

The Foundation maintains its cash balances at banks located in the Chicago, Illinois area. The bank account balances, at times, may exceed federally insured limits. The Foundation has not experienced any losses on such accounts.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2011 AND 2010**

E. Property

Purchased property is capitalized at cost. It is the Foundation's policy to capitalize expenditures for these items in excess of \$500. Lesser amounts are expensed. Donations of property are recorded as contributions at their estimated fair value. The Foundation's buildings are depreciated using the straight-line method over their estimated useful lives. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are expensed as incurred.

F. Amortization of Deferred Loan Costs

Deferred loan costs are being amortized over the term of the related bonds using the straight-line method.

G. Income Taxes

Helping Hand Foundation operates as a not-for-profit organization and has received exempt status under Section 501(c)(3) of the Internal Revenue Code.

Helping Hand Foundation Real Estate Holding Company, Inc. operates as a not-for-profit organization and has received exempt status under Section 501(c)(2) of the Internal Revenue Code.

The federal Exempt Organization Business Income Tax Return (Form 990) of each entity is subject to examination by the Internal Revenue Service, generally for three years after the date it was filed.

H. Contributions

Contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support depending on the existence and nature of any donor restrictions.

Donations of property are reported as unrestricted contributions unless the donor has restricted the donated asset to a specific purpose.

I. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

J. Reclassifications

Certain amounts as previously reported for the year ended June 30, 2010 have been reclassified to conform to the June 30, 2011 presentation.

K. Management's Date of Review

Management has evaluated subsequent events through January 12, 2012, which is the date the financial statements were available to be issued.

NOTE 4. INTEREST RATE SWAP AGREEMENTS

Helping Hand Center entered into two interest rate swap agreements during the year ended June 30, 2009 to hedge the cash flow variability caused by changes in interest rates of its variable rate revenue bonds. The notional principal amounts of the swap agreements are \$3,000,000 and \$1,000,000. On December 31, 2009, the swap agreements were assumed by the Foundation. The differential interest required to be paid or that will be received under the agreements is accrued consistent with the terms of the agreements. Terms of the swap agreements require the differential interest to be paid or received monthly.

Accounting principles generally accepted in the United States of America require derivative instruments, such as interest rate swap agreements, to be recognized at fair value as either assets or liabilities in the statement of financial position. Accordingly, the value of the swap agreements at June 30, 2011 and 2010 of \$286,781 and \$310,941, respectively, is reported as a liability in the statement of financial position. The change in the value of the interest rate swaps for the years ended June 30, 2011 and 2010 of \$(24,160) and \$74,617, respectively, is reported in the statement of activities as a separate component of changes in net assets. Value has been measured based on estimates of the amounts needed to settle the agreements as calculated by the counterparty to the swap agreements. Such calculations were based on changes in market conditions and/or assumptions underlying valuation models.

Interest expense on the underlying debt for the years ended June 30, 2011 and 2010 totaled \$26,694 and \$13,237, respectively. Additional interest required to be paid under the interest rate swap agreements for the years ended June 30, 2011 and 2010 was \$129,476 and \$64,291, respectively.

NOTE 5. FAIR VALUE MEASUREMENTS

The fair value of the interest rate swap agreements measured on a recurring basis using significant unobservable inputs (Level 3) at June 30, 2011 and 2010 was a liability of \$286,781 and \$310,941, respectively.

Level 3 inputs used by management to value the interest rate swaps include valuation techniques that convert future amounts to a single present amount based on current market expectations about the future amounts (including present value techniques and option pricing models). There were no changes in the valuation techniques during the current year.

Realized and unrealized gains (losses) included in the change in net assets for the years ended June 30, 2011 and 2010 are included in the change in fair value of interest rate swaps in the statement of activities.

NOTE 6. RENTAL INCOME FROM HELPING HAND CENTER

The Foundation leases its land and buildings to Helping Hand Center under several operating leases that expire in December, 2014, except for two which are on a month to month basis. Total rental income under these leases for the years ended June 30, 2011 and 2010 was \$1,257,116 and \$613,156, respectively.

Future minimum rental payments to be received under the long-term operating leases in years ending June 30 are as follows:

NOTE 4. INTEREST RATE SWAP AGREEMENTS

Helping Hand Center entered into two interest rate swap agreements during the year ended June 30, 2009 to hedge the cash flow variability caused by changes in interest rates on its variable rate revenue bond. On December 31, 2009, the swap agreements were assumed by the Foundation. The differential interest required to be paid or that will be received under the agreements is accrued consistent with the terms of the agreements. Terms of the swap agreements require the differential interest to be paid or received monthly.

U.S. generally accepted accounting principles require derivative instruments, such as interest rate swap agreements, to be recognized at fair value as either assets or liabilities in the statement of financial position. Accordingly, the negative value of the swap agreements at June 30, 2010 of \$(310,941) is reported as a liability in the statement of financial position. This reflects a \$74,617 increase in the liability (i.e., decrease in value of the swaps) since the swap agreements were entered into by the Foundation. The decrease in value is reported in the statement of activities as a separate component of changes in net assets. Value has been measured based on estimates of the amounts needed to settle the agreements as calculated by the counterparty to the swap agreements. Such calculations were based on changes in market conditions and/or assumptions underlying valuation models.

The notional principal amounts of the swap agreements are \$3,000,000 and \$1,000,000. Interest expense on the underlying debt totaled \$13,237 for the year ended June 30, 2010. Additional interest of \$64,291 was required to be paid under the swap agreements.

NOTE 5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

226

**HELPING HAND FOUNDATION AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2010**

Level 2

Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for liabilities measured at fair value. There have been no changes in the methodologies used at June 30, 2010.

Obligation under interest rate swaps: Inputs used to value the interest rate swaps include valuation techniques which convert future amounts to a single present amount based on current market expectations about the future amounts (including present value techniques and option pricing models).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Foundation's liability at fair value as of June 30, 2010.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Liabilities:

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2011 AND 2010**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Activities

Helping Hand Center is an Illinois nonprofit corporation. Its mission is to assist persons with disabilities to achieve their highest level of independence through quality programs and services.

During the year ended June 30, 2010, Helping Hand Center made a noncash contribution to the Helping Hand Foundation of \$5,870,375 which consisted of land and buildings (\$12,199,695), net of associated debt and related accounts (\$6,329,320). The transaction was recorded at fair value. Helping Hand Center leases the land and buildings from Helping Hand Foundation under long-term operating leases.

B. Basis of Accounting

The financial statements of Helping Hand Center have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

C. Cash Equivalents

For purposes of the statement of cash flows, Helping Hand Center considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents. Helping Hand Center's investments in money market funds and restricted cash balances are not considered cash equivalents for statement of cash flows purposes.

Helping Hand Center maintains its cash balances at several banks located in the Chicago, Illinois area. The bank account balances, at times, exceed federally insured limits. Helping Hand Center has not experienced any losses on such accounts.

D. Accounts Receivable

Accounts receivable are reported at their outstanding balance reduced by the allowance for doubtful accounts, if any.

The allowance for doubtful accounts is increased by charges to income and decreased by chargeoffs (net of recoveries). Management's periodic evaluation of the adequacy of the allowance is based on Helping Hand Center's past collection experience, known and inherent risks of the governmental agencies and customers comprising Helping Hand Center's accounts receivable balance, adverse situations that may affect the governmental agency's and customer's ability to pay, and current economic conditions. Accounts receivable are charged off when management deems the accounts receivable balance to be uncollectible.

The allowance for doubtful accounts at June 30, 2011 and 2010 was \$45,000.

**HELPING HAND CENTER
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2011 AND 2010**

E. Property and Equipment

Property and equipment are capitalized at cost. It is Helping Hand Center's policy to capitalize expenditures for these items in excess of \$500. Lesser amounts are expensed. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are expensed as incurred.

F. Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Investment income and gains restricted by a donor are reported as increases in unrestricted net assets if the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized.

G. Accrued Vacation Liability

Vacation days earned by employees are accrued at their current rate of pay. Employees begin earning two weeks of vacation on their anniversary date of employment each year. One additional day is earned each year on their anniversary date up to three weeks of vacation per year with an additional week earned after fifteen years of employment. Program directors receive three weeks of vacation in their first year and earn an additional day each year on their anniversary date up to four weeks of vacation.

H. Income Taxes

Helping Hand Center operates as a not-for-profit organization and has received exempt status under Section 501(c)(3) of the Internal Revenue Code.

The income tax returns of Helping Hand Center are subject to examination by the IRS, generally for three years after the date they were filed.

I. Basis of Revenue Recognition

Program contract and grant revenues are recognized as income in the contract period in which services are provided.

J. Public Support and Revenue

Grants and other contributions of cash and other assets are reported as temporarily restricted support if they are received with donor stipulations that limit the use of the donated cash and assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Restricted contributions whose restrictions are met in the same reporting period they are received are shown as unrestricted support.

**HELPING HAND CENTER
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2011 AND 2010**

Donations of noncash assets are recorded at their fair values in the period received. Donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Unconditional promises to give are recognized as contribution support and receivables in the period in which the promise is received. Conditional promises to give are recognized as contribution support and receivables when the conditions are substantially met.

A number of volunteers have donated their services to the programs of Helping Hand Center. No amounts have been recognized for these donated services in the statement of activities because the criteria for recognition under Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 958-605-25, *Not-For-Profit Entities Revenue Recognition* have not been satisfied.

K. Functional Expenses - Allocation of Costs

Expenses are charged to each program based on direct expenditures incurred. Any program expenditures not directly chargeable to a specific program are charged to the programs, depending on the type of expense, and are based on full-time equivalents of personnel, hours of service by program area, or occupancy percentages.

L. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

M. Reclassifications

Certain amounts as previously reported for the prior year have been reclassified to conform with the current year's presentation.

NOTE 2. RESTRICTED CASH

Cash at June 30, 2011 and 2010 was restricted as follows:

	<u>2011</u>	<u>2010</u>

All assets and liabilities have been valued using a market approach, except for Level 3 assets. Level 3 assets and liabilities are valued using the income approach. Fair values for assets and liabilities in Level 2 are calculated using quoted market prices for similar assets and liabilities in markets that are not active. Fair values for assets and liabilities in Level 3 are calculated using assumptions about discounted cash flow and other present value techniques. There were no changes in the valuation techniques during the current year.

NOTE 5. LINE OF CREDIT

Helping Hand Center had a \$750,000 line of credit agreement with a bank that expired on March 1, 2011. Interest was payable monthly at the bank's LIBOR rate plus 3%. The LIBOR rate at June 30, 2010 was 0.35%. The line was collateralized by substantially all of the assets of Helping Hand Center and was subject to certain restrictive covenants with which Helping Hand Center had complied. The outstanding balance due at June 30, 2010 was \$200,000.

NOTE 6. LONG-TERM DEBT

YEARS ENDED JUNE 30, 2011 AND 2010**

NOTE 7. INTEREST RATE SWAP AGREEMENTS

Helping Hand Center entered into two interest rate swap agreements during the year ended June 30, 2009 to hedge the cash flow variability caused by changes in interest rates on its variable rate revenue bond. The notional principal amounts of the swap agreements are \$3,000,000 and \$1,000,000. The total outstanding balance was transferred to Helping Hand Foundation during the year ended June 30, 2010. Helping Hand Center remains a guarantor of these agreements.

Accounting principles generally accepted in the United States of America require derivative instruments, such as interest rate swap agreements, to be recognized at fair value as either assets or liabilities in the statement of financial position. The decrease in value of interest rate swaps is reported in the statement of activities as a separate component of changes in net assets. For the year ended June 30, 2010, the decrease in value of interest rate swaps included in the statement of activities prior to the transfer to Helping Hand Foundation was \$25,918.

Interest expense on the underlying debt totaled \$112,625 for the year ended June 30, 2010. Included in this amount is \$63,964 of additional interest required to be paid under the swap agreements for the year ended June 30, 2010.

NOTE 8. TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets at June 30, 2011 and 2010 are available for program related services.

Helping Hand Center is obligated under an operating lease from an unrelated party for a building that is used for program activities. Annual payments of \$5,000 are required. The lease expires in November, 2028.
