RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing in **opposition** to Vista Health System's proposal for a new hospital in Lake County. As an area physician and surgeon, my patients are my number one priority. I am concerned that a new hospital in Lake County is not in their best interests, as it will duplicate existing services, result in an unnecessary increase in patient transfers, and jeopardize quality of care to patients in the area.

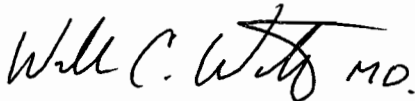

No question, healthcare is trending away from inpatient care. Procedures that once required an overnight stay can now be done on an outpatient basis. Ambulatory care centers are the way of the future – particularly in areas like Lake County that already have an excess of inpatient beds.

It is also important to note that Vista's proposed hospital offers only limited services and would not meet specialty care needs, in particular trauma. For many high-level health services, patients would have to transfer to another regional facility like Advocate Condell Medical Center in Libertyville. This proposed facility will result in an increase in unnecessary patient transfers and affect potential outcomes. As you may know, time is of the essence in regards to trauma patients and their care.

No one will argue that access to care is critical. However, in time-sensitive medical situations, all county residents are already within 15 minutes of emergency departments. Among those emergency departments is Vista's current Freestanding Emergency Center in Lindenhurst. Plain and simple, Lake County residents are already well-served when it comes to healthcare.

It is with my patients in mind that I oppose this project. Not only does it fail to bring new resources to the community, it jeopardizes the high-quality care that residents of Lake County currently enjoy.

Respectfully,

William C Watson, MD
Medical Director of Trauma
Advocate Condell Medical Center
The Surgeons of Lake County
Libertyville, IL.

November 17, 2012

Mr. Dale Galassie
Chairman
Illinois Health Facilities and Services Review Board
525 West Jefferson, 2nd Floor
Springfield, Illinois 62761

Dear Mr. Galassie,

We are residents of Lake County (Lake Zurich), and recently became aware of the proposal for a new hospital in Lindenhurst. We are **opposed** to this hospital, and would appreciate your vote to deny it.

This hospital will cost \$131 million and duplicate services with the other existing hospitals in the area, adding to health care costs for residents and employers in Lake County. Health care reform will likely **reduce** the need for inpatient capacity as more patients are treated in cost effective outpatient settings. So why would we approve another hospital at this time?

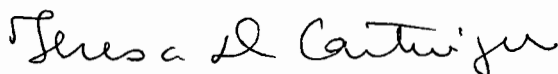

We would be much more open to it if patients had to travel long distances for care, but they don't. Lake County has six full-service hospitals now, and most people around Lindenhurst are only 15 miles away or so from other hospitals in the County. There are also freestanding emergency centers, ambulatory surgery centers and medical office buildings in Lindenhurst and Gurnee, among other areas, now.

Building another hospital that duplicates services will only "steal" volume from other existing hospitals, reducing the quality of care where minimum volumes are necessary to maintain quality programs, and making it harder to sustain them financially after greatly reduced revenues.

Finally, even if the Board were to agree to another hospital, we are opposed to Vista receiving the approval. Vista is part of a for profit system which means that profits are not retained in the community, but earned by its corporate owner. They do not have the obligation to provide charity care like not-for-profit hospitals. Further, Vista does not have a quality reputation, and we think it's a mistake to allow them to expand their footprint in Lake County.

We ask that you deny this request to preserve cost effective, quality health care in Lake County.

Sincerely,

David & Teresa Cartwright
744 Edelweiss Dr.
Lake Zurich, IL 60047

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

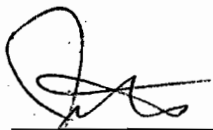

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

Signature: Barbara Kuczak

Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.
