RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of a new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and many medical office buildings. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide the same level of services as Advocate Condell Medical Center in Libertyville. Diluting the numbers of patients, would hurt other hospitals' abilities to provide excellent healthcare for Lake County as they do today.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to **deny** it.

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

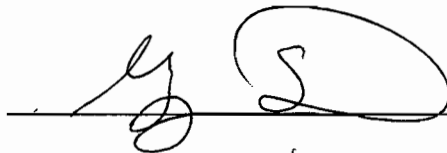

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

Signature:

Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. This is appropriate because over the past 10-29 years healthcare has shifted from an inpatient to an outpatient system.

Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars. This is at a time when the federal and state governments are looking for ways to slash healthcare costs. Now is not a time to increase the healthcare costs in our area.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it. Thank you for your consideration of the points in this letter.

Dear Mr. Galassie,

I am writing to **oppose** the new Lindenhurst hospital proposed by Vista Health System. As someone who is concerned with preserving healthcare quality in Lake County, I believe that it is clear that a new hospital here would jeopardize vital services and programs, harming the existing infrastructure at the expense of new and unneeded project.

Right now, Lake County has six full-service hospitals. The county is also home to Freestanding Emergency Centers, ambulatory surgery centers and medical office buildings, where physicians see patients close to their homes every day. This is a well-served region—with just enough patients to sustain the major hospitals. Adding another full-service hospital represents an unnecessary and irresponsible expenditure of healthcare dollars.

Further, the proposed project wouldn't provide anywhere near the same level of services as Advocate Condell Medical Center in Libertyville. But it would take away patients, which would hurt other hospitals' abilities to provide excellent healthcare for Lake County.

I oppose this project for the citizens of Lake County. We must preserve the critical services and programs that communities deserve. A new and unneeded hospital would upset a fundamental balance, and I ask you to deny it.

Sincerely,

RE: Letter of Opposition, Project # 12-081, Vista Medical Center – Lindenhurst

Dear Mr. Galassie,

I am writing in **opposition** to Vista Health System's proposal for a new hospital in Lake County. As an area physician, my patients are my number one priority. I am concerned that a new hospital in Lake County is not in their best interests, as it will duplicate existing services, result in an unnecessary increase in patient transfers, and jeopardize quality of care to patients in the area.

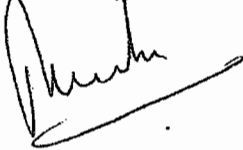

No question, healthcare is trending away from inpatient care. Procedures that once required an overnight stay can now be done on an outpatient basis. Ambulatory care centers are the way of the future – particularly in areas like Lake County that already have an excess of inpatient beds.

It is also important to note that Vista's proposed hospital offers only limited services and would not meet specialty care needs. For many high-level health services, patients would have to transfer to another regional facility like Advocate Condell Medical Center in Libertyville. This proposed facility will result in an increase in unnecessary patient transfers.

No one will argue that access to care is critical. However, in time-sensitive medical situations, all county residents are already within 15 minutes of emergency departments. Among those emergency departments is Vista's current Freestanding Emergency Center in Lindenhurst. Plain and simple, Lake County residents are already well-served when it comes to healthcare.

It is with my patients in mind that I oppose this project. Not only does it fail to bring new resources to the community, it jeopardizes the high-quality care that residents of Lake County currently enjoy.

Sincerely,

A handwritten signature in black ink, appearing to read 'Pramila Kasturi', with a long horizontal flourish extending to the right.
