Historic Resources Preservation Act Requirements Not Applicable. Existing Facility

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS ATTACHMENT-6, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- ☒ Substantive
☐ Non-substantive

Part 1120 Applicability or Classification:
[Check one only.]

- ☐ Part 1120 Not Applicable
☒ Category A Project (No project cost)
☐ Category B Project
☐ DHS or DVA Project

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does NOT have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

OSF Healthcare System, Peoria, Illinois D/B/A St. Mary Medical Center (SMMC), Galesburg, Illinois proposes to discontinue its Cardiac Catheterization Category of service at SMMC. Upon discontinuation approval, the approximate 1,048 dgsf catheterization laboratory will be reassigned to non-clinical space.

There is no cost to this proposed project and the associated catheterization laboratory medical equipment will be declared surplus and sold in a bid process.

The proposed project is classified as substantive because it proposes to discontinue a State Agency designated "category of service".

As described herein, there will be no adverse impact on access in that SMMC is, as are many hospitals in the region, served by HeartCare Midwest, a regional cardiovascular provider.

In addition, the required impact letters provided herein indicate there is market capacity to accept patient referrals upon discontinuation approval.

SMMC is located at 3333 N. Seminary Street Galesburg, Illinois.

(See attached support letters)

March 14, 2013

Richard Kowalski, CEO
OSF St. Mary Medical Center
3333 N. Seminary Street
Galesburg, IL 61401

Dear Dick:

I am writing this letter to support the discontinuation and closure of the Cardiac Catheterization Laboratory at OSF St. Mary Medical Center. The cath lab opened in 2004, provided just over 100 catheterizations at its peak utilization, and had no utilization in 2012.

As you are aware, OSF St. Mary Medical Center (SMMC) is served by HeartCare Midwest which is the largest cardiovascular provider group in Western Illinois. Their staff is comprised of more than 40 cardiologists, cardiothoracic and vascular surgeons, along with advanced practitioners. HeartCare Midwest physicians are on approximately 20 area hospital staffs. This group serves OSF St. Mary Medical Center using a regional practice model which does not require cath lab services be maintained at SMMC.

Currently, cardiac catheterization referrals are being handled by HealthCare Midwest physicians primarily by their staff at OSF St. Francis Medical Center, Peoria. The local and regional access to quality comprehensive cardiovascular care services is excellent, and our patients are being well served.

If you feel you need any additional information, please feel free to contact me at your convenience.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Meeker".

CEO, Cardiovascular Service Line
OSF HealthCare System

Re: Discontinuation of Cardiac Catheterization Lab Services at OSF St. Mary Medical Center, Galesburg, IL

I am writing to recommend that we discontinue cardiac catheterization services at OSF St. Mary Medical Center. This recommendation has arisen out of lengthy discussions with the leadership of both OSF St. Mary Medical Center including physician leadership as well as among the cardiology providers.

This recommendation arises because of a precipitous decline in procedures performed at St. Mary's over recent years. This mirrors a national trend in declining volumes of diagnostic cardiac catheterization. The decline is due in part to better noninvasive diagnostic testing to identify those patients who are most likely to need advanced intervention such as coronary stenting or perhaps are candidates for cardiac surgery. Patients are being referred to centers (most commonly in Peoria less than one hour by car to the east) that are able to do these more advanced interventional procedures with a sufficient volume of procedures to insure the highest quality. The catheterization labs in Peoria are also backed up by immediate cardiac surgery if needed as well as being operative 24/7/365. This level of care located nearby is felt to be the most optimal for our patients living in the Galesburg service area who may need these services.

The decline in volume locally in Galesburg would raise a concern about maintaining competency on the part of the staff as well as a concern about maintaining a sufficient volume to insure quality. As you are aware the purpose of this lab was never to provide advanced coronary intervention and was not staffed to provide 24/7/365 coverage that could provide intervention to those patients who would present with acute heart attack. Currently patients presenting with acute myocardial infarction (Heart Attack) at any time are able to be promptly referred (generally by helicopter transport) to Peoria primarily. There they can have prompt reperfusion to limit the size of heart injury. This referral and transfer process has been very efficient and includes the ability to identify patients with heart attack in the field with the robust use of pre hospital 12 Lead ECGs by local EMS services. This has greatly reduced the time needed to treat these patients.

Given the lack of utilization of this facility at present and because of the concerns about maintenance of skills it would be our strong recommendation to discontinue this service at OSF St. Mary Medical Center in Galesburg.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation			
Off Site Work			
New Construction Contracts			
Modernization Contracts			
Contingencies			
Architectural/Engineering Fees			
Consulting and Other Fees			
Movable or Other Equipment (not in construction contracts)			
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment			
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)			
TOTAL USES OF FUNDS	\$ 0	\$ 0	\$ 0
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities			
Pledges			
Gifts and Bequests			
Bond Issues (project related)			
Mortgages			
Leases (fair market value)			
Governmental Appropriations			
Grants			
Other Funds and Sources			
TOTAL SOURCES OF FUNDS	\$ 0	\$ 0	\$ 0
NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

Related Project Costs

(OSF)

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project ☐ Yes ☒ No
Purchase Price: \$ _____
Fair Market Value: \$ _____

The project involves the establishment of a new facility or a new category of service
☐ Yes ☒ No

If yes, provide the dollar amount of all **non-capitalized** operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.

Estimated start-up costs and operating deficit cost is \$ _____.

Project Status and Completion Schedules

Indicate the stage of the project's architectural drawings:

☒ None or not applicable ☐ Preliminary
☐ Schematics ☐ Final Working

Anticipated project completion date (refer to Part 1130.140): _____

Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140): **Not applicable. There is no project cost.**

- ☐ Purchase orders, leases or contracts pertaining to the project have been executed.
☐ Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies
☐ Project obligation will occur after permit issuance.

APPEND DOCUMENTATION AS ATTACHMENT-8, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

State Agency Submittals - OSF Healthcare System

Are the following submittals up to date as applicable:

- ☒ Cancer Registry
☒ APORS
☒ All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted
☒ All reports regarding outstanding permits **(There are no outstanding permits)**
Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.

Related Project Costs

(SMMC)

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project ☐ Yes ☒ No
Purchase Price: \$ _____
Fair Market Value: \$ _____

The project involves the establishment of a new facility or a new category of service
☐ Yes ☒ No

If yes, provide the dollar amount of all **non-capitalized** operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.

Estimated start-up costs and operating deficit cost is \$ _____.

Project Status and Completion Schedules

Indicate the stage of the project's architectural drawings:

☒ None or not applicable ☐ Preliminary

CERTIFICATION

The application must be signed by the authorized representative(s) of the applicant entity. The authorized representative(s) are:

- in the case of a corporation, any two of its officers or members of its Board of Directors;
- in the case of a limited liability company, any two of its managers or members (or the sole manager or member when two or more managers or members do not exist);
- in the case of a partnership, two of its general partners (or the sole general partner, when two or more general partners do not exist);
- in the case of estates and trusts, two of its beneficiaries (or the sole beneficiary when two or more beneficiaries do not exist); and
- in the case of a sole proprietor, the individual that is the proprietor.

This Application for Permit is filed on the behalf of OSF Healthcare System dba St. Mary Medical Center of Galesburg *

in accordance with the requirements and procedures of the Illinois Health Facilities Planning Act. The undersigned certifies that he or she has the authority to execute and file this application for permit on behalf of the applicant entity. The undersigned further certifies that the data and information provided herein, and appended hereto, are complete and correct to the best of his or her knowledge and belief. The undersigned also certifies that the permit application fee required for this application is sent herewith or will be paid upon request.

SECTION II. DISCONTINUATION

This Section is applicable to any project that involves discontinuation of a health care facility or a category of service. **NOTE:** If the project is solely for discontinuation and if there is no project cost, the remaining Sections of the application are not applicable.

Criterion 1110.130 - Discontinuation

READ THE REVIEW CRITERION and provide the following information:

GENERAL INFORMATION REQUIREMENTS

1. Identify the categories of service and the number of beds, if any that is to be discontinued.
2. Identify all of the other clinical services that are to be discontinued.
3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.
4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.
5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued, and the length of time the records will be maintained.
6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 60 days following the date of discontinuation.

REASONS FOR DISCONTINUATION

The applicant shall state the reasons for discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

IMPACT ON ACCESS

1. Document that the discontinuation of each service or of the entire facility will not have an adverse effect upon access to care for residents of the facility's market area.
2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.
3. Provide copies of impact statements received from other resources or health care facilities located within 45 minutes travel time, that indicate the extent to which the applicant's workload will be absorbed without conditions, limitations or discrimination.

APPEND DOCUMENTATION AS ATTACHMENT-10, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

VIII. - 1120.120 - Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: **Indicate the dollar amount to be provided from the following sources:**

_____	a) Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to:
	1) the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and
	2) interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
_____	b) Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
_____	c) Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
_____	d) Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including:
	1) For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated;
	2) For revenue bonds, proof of the feasibility of securing the specified amount and interest rate;
	3) For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.;
	4) For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment;
	5) For any option to lease, a copy of the option, including all terms and conditions.
_____	e) Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
_____	f) Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
_____	g) All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
	TOTAL FUNDS AVAILABLE

APPEND DOCUMENTATION AS ATTACHMENT-39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. 1120.130 - Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. All of the projects capital expenditures are completely funded through internal sources
2. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
3. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which **audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion.** When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT 41, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility**This section is applicable to all projects subject to Part 1120.****A. Reasonableness of Financing Arrangements**

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
Contingency									
TOTALS									
* Include the percentage (%) of space for circulation									

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT -42, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for **ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS**:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)	Year	Year	Year
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			

Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS ATTACHMENT-43, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care

Richard S. Kowalski, FACHE
President and CEO
O.S.F. St. Mary Medical Center
3333 North Seminary Street
Galesburg, IL 61401

Joint Commission ID #: 7349
Program: Hospital Accreditation
Accreditation Activity: Measure of Success
Accreditation Activity Completed: 09/28/2011

Dear Mr. Kowalski:

The Joint Commission would like to thank your organization for participating in the accreditation process. This process is designed to help your organization continuously provide safe, high-quality care, treatment, and services by identifying opportunities for improvement in your processes and helping you follow through on and implement these improvements. We encourage you to use the accreditation process as a continuous standards compliance and operational improvement tool.

The Joint Commission is granting your organization an accreditation decision of Accredited for all services surveyed under the applicable manual(s) noted below:

- Comprehensive Accreditation Manual for Hospitals

This accreditation cycle is effective beginning February 12, 2011. The Joint Commission reserves the right to shorten or lengthen the duration of the cycle; however, the certificate and cycle are customarily valid for up to 36 months.

Please visit [Quality Check®](#) on The Joint Commission web site for updated information related to your accreditation decision.

We encourage you to share this accreditation decision with your organization's appropriate staff, leadership, and governing body. You may also want to inform the Centers for Medicare and Medicaid Services (CMS), state or regional regulatory services, and the public you serve of your organization's accreditation decision.

Please be assured that The Joint Commission will keep the report confidential, except as required by law. To ensure that The Joint Commission's information about your organization is always accurate and current, our policy requires that you inform us of any changes in the name or ownership of your organization or the health care services you provide.

Sincerely,

Ann Scott Blouin, RN, Ph.D.
Executive Vice President
Accreditation and Certification Operations

has been Accredited by

The Joint Commission

Which has surveyed this organization and found it to meet the requirements for the
Hospital Accreditation Program

February 12, 2011

Accreditation is customarily valid for up to 36 months.

Isabel V. Hoverman, MD, MACP
Chair, Board of Commissioners

Organization ID #7349
Print/Reprint Date: 5/25/11

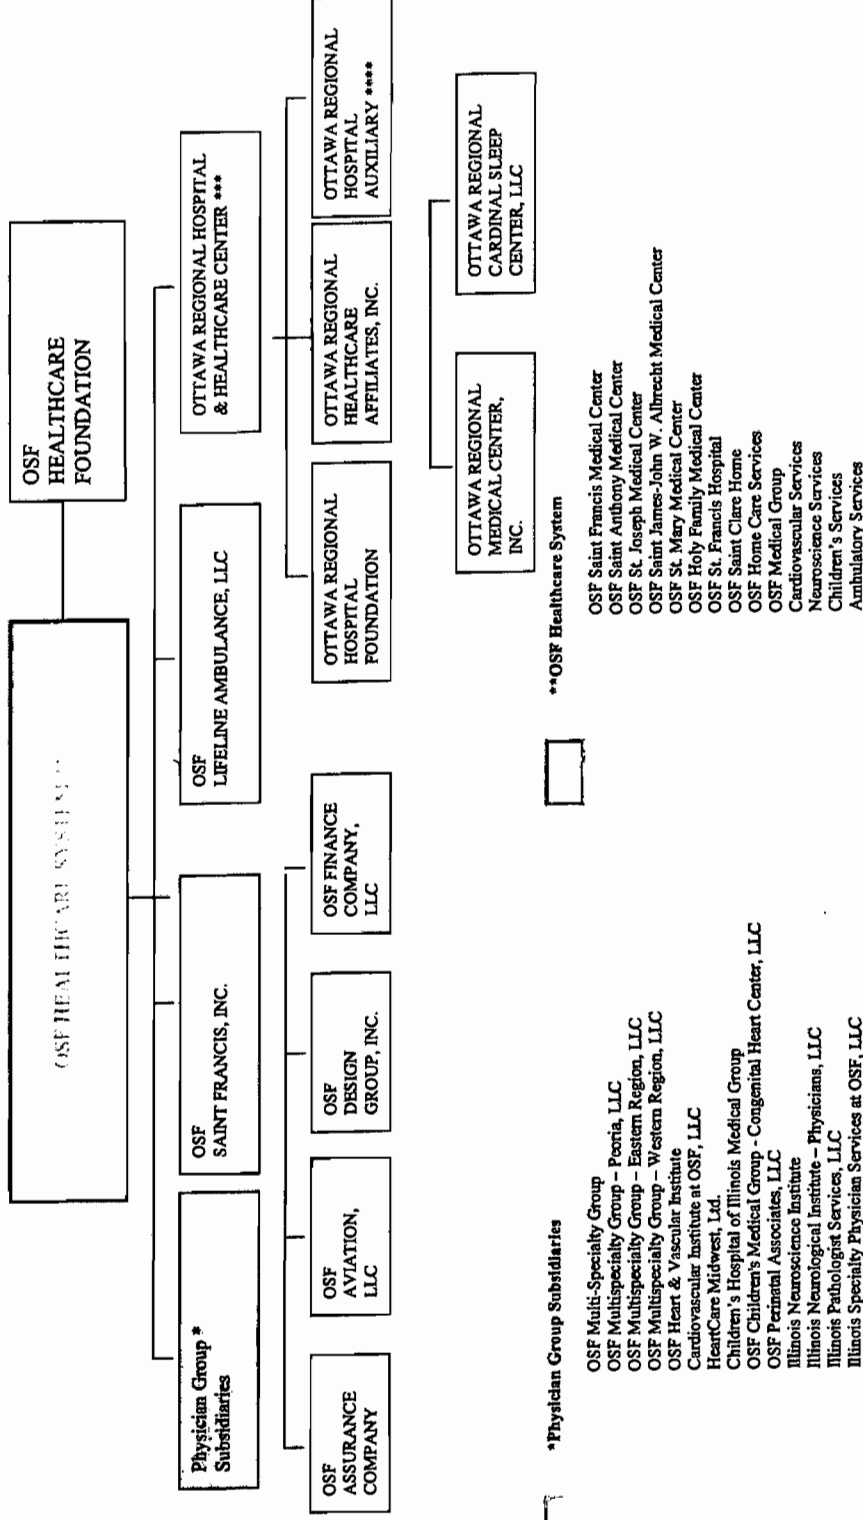

Mark R. Chassin, MD, FACP, MPP, MPH
President

The Joint Commission is an independent, not-for-profit, national body that oversees the safety and quality of health care and other services provided in accredited organizations. Information about accredited organizations may be provided directly to The Joint Commission at 1-800-994-6610. Information regarding accreditation and the accreditation performance of individual organizations can be obtained through The Joint Commission's web site at www.jointcommission.org.

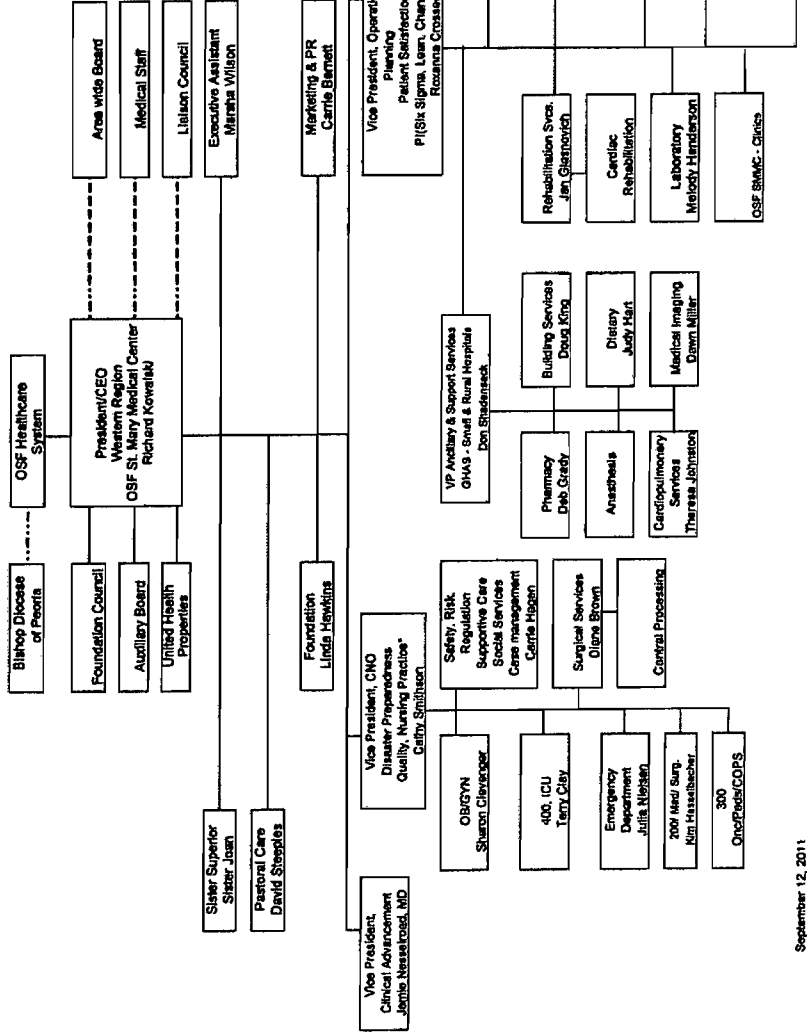

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

**OSF HEALTHCARE SYSTEM AND RELATED CORPORATIONS
CORPORATE STRUCTURE**

*** The Ottawa entities will have post-affiliation names that have not yet been determined.
 **** The establishment of the Auxiliary as a post-affiliation subsidiary of ORHHC is dependent upon the adoption by the Auxiliary of proposed amended and restated articles and bylaws making ORHHC the sole corporate member of the Auxiliary.

September 12, 2011
Updated Org Chart

Flood Plain Requirements

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

Not Applicable. No construction is involved. Existing Facility

Historic Resources Preservation Act Requirements

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

Not Applicable. No construction is involved. Existing Facility

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation			
Off Site Work			
New Construction Contracts			
Modernization Contracts			
Contingencies			
Architectural/Engineering Fees			
Consulting and Other Fees			
Movable or Other Equipment (not in construction contracts)			
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment			
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)			
TOTAL USES OF FUNDS	\$ 0	\$ 0	\$ 0
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities			
Pledges			
Gifts and Bequests			
Bond Issues (project related)			
Mortgages			
Leases (fair market value)			
Governmental Appropriations			
Grants			
Other Funds and Sources			
TOTAL SOURCES OF FUNDS	\$ 0	\$ 0	\$ 0

There is no cost associated with the proposed Cardiac Catheterization Category of Service discontinuation.

Project Status and Completion Schedules

Indicate the stage of the project's architectural drawings:

☒ None or not applicable

☐ Preliminary

☐ Schematics

☐ Final Working

Anticipated project completion date (refer to Part 1130.140): _____

Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140): **Not applicable. There is no project cost.**

- ☐ Purchase orders, leases or contracts pertaining to the project have been executed.
- ☐ Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies
- ☐ Project obligation will occur after permit issuance.

Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
REVIEWABLE							
Medical Surgical							
LTC							
Diagnostic Radiology							
MRI							
Total Clinical							
NON REVIEWABLE							
Administrative							
Parking							
Gift Shop							
Total Non-clinical							
TOTAL							

.Not applicable. No modernization costs.

SECTION II. DISCONTINUATION

This Section is applicable to any project that involves discontinuation of a health care facility or a category of service. **NOTE:** If the project is solely for discontinuation and if there is no project cost, the remaining Sections of the application are not applicable.

Criterion 1110.130 - Discontinuation

READ THE REVIEW CRITERION and provide the following information:

GENERAL INFORMATION REQUIREMENTS

1. Identify the categories of service and the number of beds, if any that is to be discontinued.
2. Identify all of the other clinical services that are to be discontinued.
3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.
4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.
5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued, and the length of time the records will be maintained.
6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 60 days following the date of discontinuation.

REASONS FOR DISCONTINUATION

The applicant shall state the reasons for discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

IMPACT ON ACCESS

1. Document that the discontinuation of each service or of the entire facility will not have an adverse effect upon access to care for residents of the facility's market area.
2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.
3. Provide copies of impact statements received from other resources or health care facilities located within 45 minutes travel time, that indicate the extent to which the applicant's workload will be absorbed without conditions, limitations or discrimination.

General Information

Category of Service

OSF Healthcare System (OSF) D/B/A OSF St. Mary Medical Center (SMMC) proposes to discontinue its State Agency designated cardiac catheterization category of service at SMMC, Galesburg, Illinois.

No other category of service or clinical service areas will be discontinued in conjunction with this proposed project when permitted by the State Agency.

Date of Discontinuation / Closure Plan

The respective category of service will be officially discontinued within 30 days of receiving a permit to do so from the Illinois Health Facilities and Services Review Board (State Agency). There is no current utilization so no closure plan is necessary.

Physical Plant / Equipment

Currently the cardiac catheterization laboratory occupies approximately 1,048 dgsf.

The associated cath lab medical equipment will be declared surplus and sold in a bid process when discontinuation is approved.

The vacant laboratory will be re-assigned for non-clinical use and, it is anticipated, a future modernization program will convert the area into a chapel.

Medical Records

Any and all related medical records will be retained by SMMC consistent with all licensure and related compliance / regulatory requirements. Record retention will be consistent with current System and Hospital policy.

Staff Impact

When in operation, the catheterization laboratory was staffed by individuals from SMMC's surgery department. The applicable cross-trained staff's primary responsibility is within the surgical department; hence, there will be no impact on staff in that all will be retained post discontinuation.

Reason for Discontinuation

SMMC's cardiac catheterization program began operation in 2004. At its peak, in CY 2006 and CY 2007, the cardiac catheterization laboratory performed 106 procedures annually (see Attachment 10, Exhibit 10.0). Since that time, its utilization has progressively decreased and there were no procedures performed in CY 2012.

The cardiac catheterization laboratory utilization has decreased due largely to the fact that the region is served by HeartCare Midwest physician specialists. This physician organization is the largest cardiovascular provider group in western Illinois and provides access to cardiovascular care on a regional basis. Attachment 10, Exhibit 10.1 provides information on the group and the hospitals they serve. SMMC does not anticipate any changes in patient management or referrals due to the proposed discontinuation; hence, there is no change or adverse impact on access.

Impact on Access

Forty-five minute drive-times from SMMC were mapped (Attachment 10, Exhibit 10.2). Within this drive-time, there are no other providers identified with a State Agency designated cardiac catheterization category of service. Thus, to be conservative, a 55-minute drive time was mapped (Attachment 10, Exhibit 10.3) and the various hospitals within this drive time were identified. Attachment 10, Exhibit 10.4 summarizes these thirteen (13) hospitals. There are two (2) hospitals within a 45-minute drive time; an additional 10 hospitals within a 45 to 55 minute drive time; and one additional facility within a 62 minute drive time. Thus, according to State Agency requirements, impact letters were distributed to these thirteen (13) regional hospital providers to ensure access not be adversely affected. Attachment 10, Exhibits 10.5 and 10.6 profile the respective hospitals, their respective distance, travel time, and impact letter contacts.

Within the 55-minute drive-time, five (5) hospitals were identified as having cardiac catheterization facilities. These hospitals and their respective capacity are profiled in Attachment 10, Exhibit 10.7. These specific providers have a total of 15 Cardiac Catheterization laboratories which provided 13,608 procedures in 2011. Based on State Agency guidelines, the total capacity in these facilities is 22,500 procedures with a net available capacity of 8,892 procedures. Thus, there is capacity within a 55 minute drive time from SMMC to accommodate cardiac catheterization referrals. There is no anticipated adverse impact on access to care for residents in the region with the proposed discontinuation in that the current care model is regional and will not be affected.

Impact Letters

By the rules, an applicant must:

“Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility; and
Provide copies of impact statements received from other resources or health care facilities located within 45 minutes travel time, that indicate the extent to which the applicants workload will be absorbed without conditions, limitations, or discrimination.”

Unfortunately, SMMC sent out the required impact letters without using certified mail with a return receipt requested. In a technical assistance request to the State Agency (Attachment 10, Exhibit 10.8) SMMC was advised the impact letters did not have to be resent and an attestation letter would suffice.

Attachment 10, Exhibit 10.9 provides our attestation letter regarding the impact letter distribution.

Attachment 10, Exhibit 10.10 provides copies of the thirteen (13) impact letters which were sent to the respective hospitals.

Attachment 10, Exhibit 10.11 contains the six (6) responses received to the impact letters. Two (2) of these letters, one each from McDonough District Hospital, Macomb, Illinois and Graham Hospital, Canton, Illinois, indicate they do not provide cardiac catheterization services. The remaining four (4) providers indicate they have additional capacity and are willing to accept cardiac catheterization referrals as summarized below.

<u>Facility</u>	<u>Location</u>	<u>Additional Capacity</u> (cases)	<u>Without Restriction</u>
Genesis	Silvis	750	Not Stated
Proctor Hospital	Peoria	520	Yes
Methodist	Peoria	Yes	Yes
Trinity	Rock Island	Yes	Not Stated

Based on these impact letter responses, there is no anticipated adverse impact on care or access to the respective category of service.

Welcome to HeartCare Midwest

M. Fayaz Malik, MD
Chief Medical Officer
HeartCare Midwest

Welcome! If you have recently been referred to a HeartCare Midwest physician, we're happy to be able to serve you. Let me tell you a little about us. We are the largest, most advanced and experienced cardiovascular group in the heart of Illinois. At HeartCare Midwest we provide the best in clinical practices and technology, and we do so with our patients' best interests at heart. Rest assured, we will treat you with the greatest respect for your personal needs. Our compassionate, caring physicians and professional staff will provide information, education and treatment for your heart or vascular condition. Our goal is always to bring you into full recovery and to help you lead a productive and healthy life.

We understand that you may feel anxious about your visit to a heart or vascular specialist. That's why we take the time to fully prepare for your visit and to understand your personal needs. Once you are referred to HeartCare Midwest, we'll share information needed for your first appointment. Throughout your treatment, we'll keep you informed about your condition and progress. We take the time with all our patients to answer questions about heart and vascular disease. We welcome your questions and we encourage you and your family members to learn about your condition and actively participate in your care.

HeartCare Midwest has been involved in more than 120 clinical trials and is affiliated with the University of Illinois College of Medicine in Peoria. These research and teaching affiliations allow us to stay on the cutting edge of heart and vascular health. As a result, our patients benefit from the latest in procedures and technology to treat cardiovascular disease.

You can reach us toll-free at 1-800-352-4410 or locally at 309-691-4410. You may also reach us by using our "Contact" form [here](#).

We are privileged to serve you. Thank you for placing your trust in us.

Hospitals We Serve

Because we have physicians on staff at nearly 20 area hospitals, HeartCare Midwest is able to provide cardiovascular services to patients throughout Central Illinois. We maintain strong working relationships with the medical communities in every hospital we serve. This provides our patient a seamless transition from primary physicians and community hospitals into HeartCare Midwest. Our referral process and new patient information guide patients through the transition to HeartCare Midwest. For more complete information about our practice locations and regional clinics offered in your community, [click here](#).

HeartCare Midwest Practice Locations

If you are experiencing a medical emergency, you should call 911 immediately.

HeartCare Midwest has a number of practice locations to serve you. These include our HeartCare Midwest Offices in four cities across Central Illinois as well as a number of full-service Regional Clinics in our partnering hospitals across the region.

HeartCare Midwest is part of OSF HealthCare, an integrated health care network serving communities in central and northern Illinois and the peninsula of Michigan.

In addition to services by HeartCare Midwest, OSF HealthCare provides cardiovascular services in northern Illinois through Rockford Cardiovascular Associates.

Whether you choose one of our office locations, or a full-service regional clinic in your home community, you can be assured you'll receive the same level of personalized care and attention.

Need an appointment? Schedule an appointment at any of our service locations by calling Central Scheduling at 309-691-4410 or 1-800-352-4410.

HeartCare Midwest - Regional Clinics

We provide cardiovascular services at regional clinics throughout central Illinois. We are pleased to work closely with local physicians and hospitals to enhance the cardiovascular services for these communities. Clinics are housed within the local hospitals, and HeartCare Midwest physicians travel to these locations on scheduled days. During clinic days, physicians may also be requested to see hospitalized patients for consultation. Appointments are scheduled for all these sites through Centralized Scheduling at 309-691-4410.

This is a detailed black and white map of the Peoria, Illinois area. The map shows major highways, including Interstate 74 (I-74) running north-south and Interstate 55 (I-55) running east-west. Numerous cities and towns are labeled, such as Peoria, Bloomington, Moline, Rock Island, and Danvers. The Illinois River is depicted flowing through the region. The map also shows various counties, including Peoria, Tazewell, Woodford, and Adams. A scale bar at the bottom indicates distances in miles, with markings for 0, 20, and 40 miles. The map is oriented with North at the top.

Subject: SMMC Cath Lab Discontinuation CON

Good Morning Mike,

We are assisting Saint Mary's Medical Center in developing a CON Permit Application to discontinue their Cardiac Catheterization Category of Service.

Although we discussed with them the State Agency rule that the respective impact letters needed to be sent out with distribution dates and return receipt requested, they were mailed without using the required process. I have attached the letters and responses to date.

My question is..."Does St Mary's need to redo the impact letters following the State Agency process or, can the attached impact letters and response letters suffice if the Hospital were to attest to the fact the letters were distributed as indicated and responses were received as noted?"

As always, thanks for your assistance.

Ed

Re: Impact Letters
Cardiac Catheterization Category of Service
Proposed Discontinuation

Dear Ms. Avery,

St. Mary Medical Center (SMMC) is filing this Certificate of Need Permit Application to discontinue the Cardiac Catheterization Laboratory Category of Service at the Hospital.

In accordance with Section 1110.130, amended rules, effective February 6, 2009, any Certificate of Need permit application submitted for discontinuation requires the applicant to contact all "existing or approved" providers with similar services located within a 45-minute normal travel time of the applicant facility at least 30 days prior to filing an application.

The rules note that the impact letters should be sent out via certified mail, return receipt requested. While we sent out the impact letters within the required timeframe, the letters were sent out via regular mail.

In a follow-up technical assistance communication with Mr. Mike Constantino, Supervisor, Project Review, he indicated we did not have to resend the impact letters but could attest to our compliance with HFSRB rules by this letter.

As documented in our Cardiac Catheterization Category of Service Discontinuation CON Permit Application, we identified thirteen (13) hospitals to receive impact letters. These letters were mailed over the period March 5, 2013 through March 19, 2013. To date, we have received six (6) responses to our impact letter. The responses indicate there is sufficient cardiac catheterization laboratory capacity in the region to assume referrals from St. Mary's Medical Center. Hence, our proposed cath lab discontinuation will not have an impact on access.

This letter attests to the fact that St. Mary Medical Center requested impact letters from the identified hospitals and received responses as documented in our CON Permit Application.

Sincerely,

Richard S. Kowolski, CEO, FACHE
OSF St. Mary Medical Center

Re: Proposed Discontinuation
Cardiac Catheterization Laboratory Category of Service
St. Mary Medical Center (SMMC)

Dear Patty:

St. Mary Medical Center (SMMC) intends to file a Certificate of Need Permit Application to discontinue the Cardiac Catheterization Laboratory Category of Service at the Hospital.

In accordance with Section 1110.130, amended rules, effective February 6, 2009, any certificate of need permit application submitted for discontinuation requires the applicant contact all "existing or approved" providers with similar services located within a 45-minute normal travel time of the applicant facility at least 30 days prior to filing an application.

By State Agency rules, there are no health care facilities providing similar services within a 45-minute drive time from St. Mary Medical Center. However, there are facilities providing similar services within a 55-minute drive time. Therefore, to be conservative, we are contacting you to determine any potential discontinuation impact.

We have determined your facility is located within this area and are providing this notice of our intent to discontinue the cardiac catheterization category of service at the Hospital. Our anticipated date of discontinuation, pending approval, is August 19, 2013, assuming IHFSRB action at their August 13, 2013 meeting.

3333 North Seminary Street, Galesburg, Illinois 61401 Phone (309) 344-3141 Fax (309) 344-9494 www.osfstmary.org
The Sisters of the Third Order of St. Francis

We invite you to share with us any impact this action may have on your facility. Our cardiac catheterization laboratory utilization for the latest 48 month period is as follows:

Year	Adult Caths
2009	48
2010	23
2011	5
2012	0

We greatly appreciate your written response notifying us within 15 days of receiving this letter, whether your facility has available capacity to assume additional cardiac catheterization patients "without restrictions, conditions, limitations, or discrimination." If you are able to assume additional patients under these requirements, please provide the estimated number of the additional patients your facility could accept.

Please send your response to H. Curt Lipe, Vice President/Chief Financial Officer, OSF St. Mary Medical Center, 3333 N. Seminary, Galesburg, IL 61401. You may also want to send a copy directly to Ms. Courtney R. Avery, Administrator, Health Facilities and Services Review Board, Illinois Department of Public Health, 525 West Jefferson, 2nd Floor, Springfield, IL 62761.

If you have any questions about our plans or how we can work together to serve the region, please do hesitate to contact me at (309) 344-3161, ext. 1151 or via e-mail at richard.kowalski@osfhealthcare.org

Sincerely,

Richard S. Kowalski, CEO, FACHE

Re: Proposed Discontinuation
Cardiac Catheterization Laboratory Category of Service
St. Mary Medical Center (SMMC)

Dear Mr. Rogalski:

St. Mary Medical Center (SMMC) intends to file a Certificate of Need Permit Application to discontinue the Cardiac Catheterization Laboratory Category of Service at the Hospital.

In accordance with Section 1110.130, amended rules, effective February 6, 2009, any certificate of need permit application submitted for discontinuation requires the applicant contact all "existing or approved" providers with similar services located within a 45-minute normal travel time of the applicant facility at least 30 days prior to filing an application.

By State Agency rules, there are no health care facilities providing similar services within a 45-minute drive time from St. Mary Medical Center. However, there are facilities providing similar services within a 55-minute drive time. Therefore, to be conservative, we are contacting you to determine any potential discontinuation impact.

We have determined your facility is located within this area and are providing this notice of our intent to discontinue the cardiac catheterization category of service at the Hospital. Our anticipated date of discontinuation, pending approval, is August 19, 2013, assuming IHFSRB action at their August 13, 2013 meeting.

3333 North Seminary Street, Galzburg, Illinois 61401 Phone (309) 344-3161 Fax (309) 344-9494 www.osfstmary.org
The Sisters of the Third Order of St. Francis

We invite you to share with us any impact this action may have on your facility. Our cardiac catheterization laboratory utilization for the latest 48 month period is as follows:

Year	Adult Caths
2009	48
2010	23
2011	5
2012	0

We greatly appreciate your written response notifying us within 15 days of receiving this letter, whether your facility has available capacity to assume additional cardiac catheterization patients "without restrictions, conditions, limitations, or discrimination." If you are able to assume additional patients under these requirements, please provide the estimated number of the additional patients your facility could accept.

Please send your response to H. Curt Lipe, Vice President/Chief Financial Officer, OSF St. Mary Medical Center, 3333 N. Seminary, Galesburg, IL 61401. You may also want to send a copy directly to Ms. Courtney R. Avery, Administrator, Health Facilities and Services Review Board, Illinois Department of Public Health, 525 West Jefferson, 2nd Floor, Springfield, IL 62761.

If you have any questions about our plans or how we can work together to serve the region, please do hesitate to contact me at (309) 344-3161, ext. 1151 or via e-mail at richard.kowalski@osfhealthcare.org

Sincerely,

Richard S. Kowalski, CEO, FACHE

Re: Intent to discontinue the cardiac catheterization category

Dear Mr. Lipe,

Thank you for sharing your intention to file a CON application to discontinue cardiac catheterizations at St. Mary Medical Center. Trinity Medical Center Rock Island has three cardiac catheterization laboratories, and on March 26th, received approval from the IHFSRB to add a fourth lab as part of our expansion project. Although our three labs have high volumes, we would have no problem accepting patients from your hospital or community in the volumes you indicate in your letter.

If there is anything else we can do to support your application, please let me know.

Sincerely,

Richard A. Seidler
President and CEO

Cardiac Catheterization Laboratory Category of Service

St. Mary Medical Center (SMMC)

Dear Curt,

I am writing in response to your letter dated 3/19/13 in regards to the service referenced above and our ability to treat any patients needing said Cardiac Catheterization services.

McDonough District Hospital (MDH) does not provide Cardiac Catheterization services at this time and therefore we would not be able to see and/or treat the types of patients that would be impacted by the proposed change of services.

If you have any additional questions please contact me at kdboyd@mdh.org or 309-836-1675.

Sincerely,

Kenny Boyd, President/CEO

Moody's Outlook POS

Opinion

NEW YORK, August 15, 2012 –Moody's Investors Service has assigned an A3 rating to OSF Healthcare System's (OSF) \$164 million of Series 2012 fixed rate bonds. The rating outlook is positive. At this time, we are affirming the A3 rating on OSF's outstanding debt (see RATED DEBT section) and revising the outlook to positive from stable.

SUMMARY RATINGS RATIONALE

The A3 rating is based on OSF's large, multi-site system and expanding presence in several distinct healthcare markets in northern and central Illinois, leading market positions in the largest markets, adequate and improved operating performance, and conservative investment allocation. OSF's challenges include higher-than-average leverage relative to the rating category, economic challenges in several regions, competition in most markets, and delays in state Medicaid payments which is suppressing unrestricted investments.

The outlook revision to positive from stable reflects stable or notable growth in market share in the three largest markets and a second year of improved operating margins as the system begins to see the benefits of recently completed facility and information systems strategies. The outlook reflects our expectation that operating cashflow will continue to improve, margins will be sustained, and unrestricted investments will grow to levels more commensurate with a higher rating level, as capital spending is anticipated to moderate and the system will receive late Medicaid payments.

STRENGTHS

*Large, multi-site system with nearly \$2 billion in operating revenue and expanding presence in several distinct healthcare markets in northern and central Illinois; physician alignment strategies and facilities investments are driving notable market share gains or stability in the three largest markets

*Distinct leading and growing market position in the primary service area (PSA) in and around the City of Peoria, the site of OSF's flagship, Saint Francis Medical Center, and largest market (representing 52% OSF's total operating revenues in fiscal year 2011)

*Second year of improved operating margins and reversal of operating losses with average 2% and 10% operating and operating cashflow margins in fiscal year 2011 and through nine months of fiscal year 2012

Long Term Rating

A/Stable

New

Rationale

Standard & Poor's Ratings Services assigned its 'A' long-term rating to the Illinois Finance Authority's \$181.265 million series 2012A fixed-rate bonds.

At the same time, Standard & Poor's affirmed the following ratings:

- 'A' long-term rating on the IFA's \$59.455 million series 2004 bonds, \$116.795 million series 2007A bonds, \$123.475 million series 2009A and \$162.91 million series 2010A fixed-rate bonds,
- 'A' underlying rating (SPUR) on the IFA's \$280.945 million series 2007E, 2007F, 2007G, 2009B, 2009C and 2009D bonds,
- 'AAA/A-1+' rating on the IFA's series 2007G and 2009C bonds.
- 'AAA/A-1' rating on the IFA's series 2009B and 2009D bonds.

All bonds have been issued on behalf of OSF Healthcare System (OSF). The outlook is stable.

The ratings on the series 2007G, 2009B, 2009C, and 2009D bonds are based on the application of our joint criteria, whereby the long-term component of the rating is based on the 'A' SPUR on OSF and the letters of credit (LOC) provided by various banks. The ratings are based on our joint criteria with medium correlation for the series 2009B bonds and low correlation for the series 2007G, 2009C, and 2009D bonds. Each series has the benefit of a separate LOC; PNC Bank, Wells Fargo Bank N.A., and JPMorgan Chase Bank issued LOCs to back the series 2009B, 2009C, and 2009D bonds, respectively. The series 2007G bonds are backed by a Wells Fargo N.A. LOC. The obligation of OSF, as well as the banks' obligations established by the LOCs, to make debt service payments support the joint ratings. The short-term component of the ratings is based solely on the bank ratings.

The 'A' rating reflects our view of the completion of the Milestone capital project, through which OSF was able to maintain its balance sheet as anticipated while improving its operations.

The 'A' rating further reflects our assessment of OSF's:

- Improved operations resulting from the strength of the new facility in the Peoria market;
- Dominant business position in the Peoria market, where its flagship, Saint Francis Medical Center, is located, and generally good position in the markets despite challenges that include competition and a weak economic environment;
- Breadth of facilities and services, enhanced by its systemwide strategic priorities focused on specific business line development, growth in ambulatory care, and enhanced physician alignment; and

IX. 1120.130 - Financial Viability Not Applicable – No Project cost and OSF is A-Rated

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. All of the projects capital expenditures are completely funded through internal sources
2. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
3. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. 1120.130 - Financial Viability Not Applicable – No Project cost and OSF is A-Rated

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which **audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion.** When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT 41, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility**Not Applicable. No Project cost****This section is applicable to all projects subject to Part 1120.****A. Reasonableness of Financing Arrangements**

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
Contingency									
TOTALS									
* Include the percentage (%) of space for circulation									

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT -42, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Not Applicable. No Project cost

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)			
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

XI. Safety Net Impact Statement

1. Discontinuation will have no material impact on essential safety net services in that there was no current utilization in 2012 and the service is currently provided on a regional basis.
2. In that there is no current utilization and the service is provided on a regional basis, we have no knowledge regarding cross-subsidization of safety net services.
3. Based on the current regional cardiovascular care delivery model and the associated cardiac catheterization impact letters, we do not anticipate discontinuation will have an adverse effect on the safety net providers in our community or region.

St. Mary Medical Center

Safety Net Information per PA 96-0031				
CHARITY CARE				
Charity (# of patients)	Year 2009	Year 2010	Year 2011	Year 2012

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year 2009	Year 2010	Year 2011
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care			

Charity Care for St. Mary Medical Center

CHARITY CARE				
	Year 2009	Year 2010	Year 2011	Year 2012
Net Patient Revenue	\$84,935,931	\$86,671,841	\$91,915,207	\$82,798,237
Amount of Charity Care (charges)	\$12,635,196	\$12,149,097	\$16,801,122	\$27,274,877
Cost of Charity Care	\$3,032,685	\$3,469,604	\$3,017,736	\$4,959,113

Charity Care for OSF Healthcare System

	2009	2010	2011	2012
Net Patient Revenue	\$1,486,121,000	\$1,508,491,000	\$1,656,229,000	\$1,683,282,000
Amount of Charity Care (charges)	\$141,863,976	\$174,194,707	\$217,660,680	\$277,682,281
Cost of Charity Care	\$38,154,397	\$44,025,516	\$49,753,168	\$58,680,113
Charity Care as percent of total net patient revenue	2.6%	2.9%	3.0%	3.48%
