RE: Alteration Notification
Project #14-006
Northwestern Medicine Lake Forest Hospital
Replacement Facility Construction Project

Dear Ms. Olson:

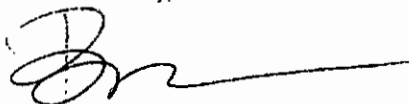

Northwestern Medicine Lake Forest Hospital (CDH) would like to notify you of a change of address for the Replacement Facility project (CON #14-006) from 660 N. Westmoreland Road to 1000 N. Westmoreland Road, Lake Forest. As stated in the original CON application in Attachment-14 on page 71, the site for the project remains as:

The NLFH project is generally situated north of the current hospital building on the Lake Forest campus, located north of 660 N. Westmoreland Road in the City of Lake Forest – Lake County, Illinois. Geographically, the project area is found in the southwest ¼ of Section 29 and southeast ¼ of Section 30 of T44N, R12E, east of the Third Principle Meridian. The central portion of the project site is located at approximately 42.257333° North Latitude and -87.865648° West Longitude.

The address for the Replacement Facility was originally planned to be the same address as the current facility (660 N. Westmoreland Road). However, during the wayfinding/sign procurement process and after discussions with City of Lake Forest officials, it became apparent that given the Replacement Facility's location on campus in relation to the existing buildings, a duplicate and out of sequence address would be confusing for patients, visitors, the community, and emergency responders. Therefore, the new address for the Lake Forest Hospital Replacement Facility will be 1000 N. Westmoreland Road, Lake Forest.

There are no other changes to the project's scope, size or cost. If you have any questions/comments, please feel to contact me at (312) 926-8650.

Sincerely,

Bridget S. Orth
Director, Regulatory Planning
