

14-024

ILLINOIS HEALTH FACILITIES AND SERVICES REVIEW BOARD  
APPLICATION FOR PERMIT

ORIGINAL  
RECEIVED

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

This Section must be completed for all projects.

JUN 05 2014

Facility/Project Identification

HEALTH FACILITIES &  
SERVICES REVIEW BOARD

Facility Name: Stony Creek Dialysis		
Street Address: 5433 West 95 <sup>th</sup> Street		
City and Zip Code: Oak Lawn, Illinois 60453		
County: Cook	Health Service Area: 07	Health Planning Area: 07

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name: DaVita HealthCare Partners Inc.	
Address: 2000 16 <sup>th</sup> Street, Denver, CO 80202	
Name of Registered Agent: Illinois Corporation Service Company	
Name of Chief Executive Officer: Kent Thiry	
CEO Address: 2000 16 <sup>th</sup> Street, Denver, CO 80202	
Telephone Number: (303) 405-2100	

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/> Non-profit Corporation	<input type="checkbox"/> Partnership	
<input checked="" type="checkbox"/> For-profit Corporation	<input type="checkbox"/> Governmental	
<input type="checkbox"/> Limited Liability Company	<input type="checkbox"/> Sole Proprietorship	<input type="checkbox"/> Other

- o Corporations and limited liability companies must provide an **Illinois certificate of good standing**.
- o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

<b>APPEND DOCUMENTATION AS ATTACHMENT-3, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.</b>

**Organizational Relationships**

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

<b>APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.</b>
---

**Flood Plain Requirements**

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at [www.FEMA.gov](http://www.FEMA.gov) or [www.illinoisfloodmaps.org](http://www.illinoisfloodmaps.org). **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS **ATTACHMENT -5**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**Historic Resources Preservation Act Requirements**

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS **ATTACHMENT-6**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**DESCRIPTION OF PROJECT****1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- Substantive  
 Non-substantive

## 2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

Based on operational limitations at the current site, DaVita HealthCare Partners Inc. and Renal Life Link, Inc. (the "Applicants") seek authority from the Illinois Health Facilities and Services Review Board (the "Board") to discontinue their existing 12-station dialysis facility at 9155 South Cicero Avenue, Oak Lawn, Illinois 60453 and establish a 12-station dialysis facility at 5433 West 95<sup>th</sup> Street, Oak Lawn, Illinois 60453 (the "Replacement Facility"). The proposed dialysis facility will include approximately 7,733 gross square feet.

This project has been classified as substantive because it involves the establishment of a health care facility.

**Project Costs and Sources of Funds**

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation	\$65,000		\$65,000
Off Site Work			
New Construction Contracts			
Modernization Contracts	\$1,237,280		\$1,237,280
Contingencies	\$140,000		\$140,000
Architectural/Engineering Fees	\$138,464		\$138,464
Consulting and Other Fees	\$78,000		\$78,000
Movable or Other Equipment (not in construction contracts)	\$475,012		\$475,012
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment	\$1,040,502		\$1,040,502
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)			
<b>TOTAL USES OF FUNDS</b>	<b>\$3,174,258</b>		<b>\$3,174,258</b>
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities	\$2,133,756		\$2,133,756
Pledges			
Gifts and Bequests			
Bond Issues (project related)			
Mortgages			
Leases (fair market value)	\$1,040,502		\$1,040,502
Governmental Appropriations			
Grants			
Other Funds and Sources			
<b>TOTAL SOURCES OF FUNDS</b>	<b>\$3,174,258</b>		<b>\$3,174,258</b>
<b>NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.</b>			

**Related Project Costs**

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Purchase Price: \$	_____	
Fair Market Value: \$	_____	
The project involves the establishment of a new facility or a new category of service		
	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
If yes, provide the dollar amount of all <b>non-capitalized</b> operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.		
Estimated start-up costs and operating deficit cost is \$ <u>0</u> _____.		

**Project Status and Completion Schedules**

<b>For facilities in which prior permits have been issued please provide the permit numbers.</b>	
Indicate the stage of the project's architectural drawings:	
<input type="checkbox"/> None or not applicable	<input type="checkbox"/> Preliminary
<input checked="" type="checkbox"/> Schematics	<input type="checkbox"/> Final Working
Anticipated project completion date (refer to Part 1130.140): February 29, 2016	
Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):	
<input type="checkbox"/> Purchase orders, leases or contracts pertaining to the project have been executed.	
<input type="checkbox"/> Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies	
<input checked="" type="checkbox"/> Project obligation will occur after permit issuance.	
<b>APPEND DOCUMENTATION AS ATTACHMENT-8, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.</b>	

**State Agency Submittals**

Are the following submittals up to date as applicable:
<input type="checkbox"/> Cancer Registry
<input type="checkbox"/> APORS
<input checked="" type="checkbox"/> All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted
<input checked="" type="checkbox"/> All reports regarding outstanding permits
<b>Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.</b>

### Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
<b>REVIEWABLE</b>							
Medical Surgical							
Intensive Care							
Diagnostic Radiology							
MRI							
Total Clinical							
<b>NON REVIEWABLE</b>							
Administrative							
Parking							
Gift Shop							
Total Non-clinical							
<b>TOTAL</b>							
APPEND DOCUMENTATION AS ATTACHMENT-9, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.							

**Facility Bed Capacity and Utilization**

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest **Calendar Year for which the data are available**. Include **observation days in the patient day totals for each bed service**. Any bed capacity discrepancy from the Inventory will result in the application being deemed **incomplete**.

<b>FACILITY NAME:</b>		<b>CITY:</b>			
<b>REPORTING PERIOD DATES:</b>		<b>From:</b>	<b>to:</b>		
<b>Category of Service</b>	<b>Authorized Beds</b>	<b>Admissions</b>	<b>Patient Days</b>	<b>Bed Changes</b>	<b>Proposed Beds</b>

General Long Term Care					
Specialized Long Term Care					
Long Term Acute Care					
Other ((identify)					
<b>TOTALS:</b>					

**CERTIFICATION**

The application must be signed by the authorized representative(s) of the applicant entity. The authorized representative(s) are:

- o in the case of a corporation, any two of its officers or members of its Board of Directors;
- o in the case of a limited liability company, any two of its managers or members (or the sole manager or member when two or more managers or members do not exist);
- o in the case of a partnership, two of its general partners (or the sole general partner, when two or more general partners do not exist);
- o in the case of estates and trusts, two of its beneficiaries (or the sole beneficiary when two or more beneficiaries do not exist); and
- o in the case of a sole proprietor, the individual that is the proprietor.

This Application for Permit is filed on the behalf of DaVita HealthCare Partners Inc \* in accordance with the requirements and procedures of the Illinois Health Facilities Planning Act. The undersigned certifies that he or she has the authority to execute and file this application for permit on behalf of the applicant entity. The undersigned further certifies that the data and information provided herein, and appended hereto, are complete and correct to the best of his or her knowledge and belief. The undersigned also certifies that the permit application fee required for this application is sent herewith or will be paid upon request.

**SECTION II. DISCONTINUATION**

This Section is applicable to any project that involves discontinuation of a health care facility or a category of service. **NOTE:** If the project is solely for discontinuation and if there is no project cost, the remaining Sections of the application are not applicable.

**Criterion 1110.130 - Discontinuation**

READ THE REVIEW CRITERION and provide the following information:

**GENERAL INFORMATION REQUIREMENTS**

1. Identify the categories of service and the number of beds, if any that is to be discontinued.
2. Identify all of the other clinical services that are to be discontinued.
3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.
4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.
5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued, and the length of time the records will be maintained.
6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 60 days following the date of discontinuation.

**REASONS FOR DISCONTINUATION**

The applicant shall state the reasons for discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

**IMPACT ON ACCESS**

1. Document that the discontinuation of each service or of the entire facility will not have an adverse effect upon access to care for residents of the facility's market area.
2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.
3. Provide copies of impact statements received from other resources or health care facilities located within 45 minutes travel time, that indicate the extent to which the applicant's workload will be absorbed without conditions, limitations or discrimination.

**APPEND DOCUMENTATION AS ATTACHMENT-10, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

### SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

#### Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

##### BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

**APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.**

##### PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate.**

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

**NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.**

**APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.**

**ALTERNATIVES**

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
  - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
  - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
  - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

**APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE**

**Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space**

READ THE REVIEW CRITERION and provide the following information:

**SIZE OF PROJECT:**

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::
  - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
  - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
  - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14. IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**PROJECT SERVICES UTILIZATION:**

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. A narrative of the rationale that supports the projections must be provided.

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15. IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**UNFINISHED OR SHELL SPACE:**

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF to be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
  - a. Requirements of governmental or certification agencies; or
  - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
  - a. Historical utilization for the area for the latest five-year period for which data are available; and
  - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**ASSURANCES:**

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

**G. Criterion 1110.1430 - In-Center Hemodialysis**

1. Applicants proposing to establish, expand and/or modernize In-Center Hemodialysis must submit the following information:
2. Indicate station capacity changes by Service: Indicate # of stations changed by action(s):

Category of Service	# Existing Stations	# Proposed Stations
<input checked="" type="checkbox"/> In-Center Hemodialysis	12	12

3. READ the applicable review criteria outlined below and submit the required documentation for the criteria:

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.1430(b)(1) - Planning Area Need - 77 Ill. Adm. Code 1100 (formula calculation)	X		
1110.1430(b)(2) - Planning Area Need - Service to Planning Area Residents	X	X	
1110.1430(b)(3) - Planning Area Need - Service Demand - Establishment of Category of Service	X

**APPEND DOCUMENTATION AS ATTACHMENT-26, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

4. Projects for relocation of a facility from one location in a planning area to another in the same planning area must address the requirements listed in subsection (a)(1) for the "Establishment of Services or Facilities", as well as the requirements in Section 1110.130 - "Discontinuation" and subsection 1110.1430(i) - "Relocation of Facilities".

**APPEND DOCUMENTATION AS ATTACHMENT-36, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**IX. 1120.130 - Financial Viability**

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

**Financial Viability Waiver**

The applicant is not required to submit financial viability ratios if:

1. "A" Bond rating or better
2. All of the projects capital expenditures are completely funded through internal sources
3. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
4. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

**APPEND DOCUMENTATION AS ATTACHMENT-37, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion. When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

**APPEND DOCUMENTATION AS ATTACHMENT 38, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**X. 1120.140 - Economic Feasibility**

**This section is applicable to all projects subject to Part 1120.**

**A. Reasonableness of Financing Arrangements**

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
  - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
  - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

**B. Conditions of Debt Financing**

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

**C. Reasonableness of Project and Related Costs**

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
Contingency									
TOTALS									

\* Include the percentage (%) of space for circulation

**D. Projected Operating Costs**

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

**E. Total Effect of the Project on Capital Costs**

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

**APPEND DOCUMENTATION AS ATTACHMENT -39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**XI. Safety Net Impact Statement**

**SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:**

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

**Safety Net Impact Statements shall also include all of the following:**

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

**A table in the following format must be provided as part of Attachment 43.**

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
<b>Total</b>			
Charity (cost in dollars)	Year	Year	Year
Inpatient			
Outpatient			
<b>Total</b>			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			

Total			
Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

**APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

**XII. Charity Care Information**

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care			

**APPEND DOCUMENTATION AS ATTACHMENT-41, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**

Oak Brook, IL 60523

**RE: Request for Proposal  
5433 West 95<sup>th</sup> Street  
Oak Lawn, IL 60453**

Dear Lynne:

USI Real Estate Brokerage Services Inc. has been exclusively authorized by Total Renal Care, Inc - a subsidiary of DaVita Inc. to assist in securing a lease requirement. DaVita Inc. is a Fortune 500 company with approximately 2,000 locations across the US and revenues of approximately \$7 billion.

We have been surveying the Oak Lawn market area to identify all of the alternative business and operational needs. Of the properties reviewed, your site has been identified as meeting the necessary requirements. We are requesting that you provide a written response to lease request that you deliver your response no later than **February 17, 2014**. Please provide the following terms:

Please provide 2012 and 2013 year end financials for the leasing entity or if it is going to be a holding company the corporate guarantor.

SP EB

**PREMISES:** 5433 West 95<sup>th</sup> Street, Oak Lawn, IL 60453

legal description will be provided by Landlord.

**TENANT:** "Total Renal Care, Inc. or related entity to be named"

EHB Leasing, Inc., as agent for the owner

EB SP

**LANDLORD:** ~~Rodeo Drive Management Company Inc.~~

Existing space is 7733 sf. Tenant shall have the right to measure the Premises during lease negotiations.

**SPACE REQUIREMENTS:**

**PRIMARY TERM:** Ten (10) years

**BASE RENT:** \$18.00 psf triple net with 2.75% annual increases throughout the initial term & option terms.

**ADDITIONAL EXPENSES:** Please provide an estimated annual cost per square foot for any and all additional operating expenses for which the Tenant will be responsible for paying including Taxes, Insurance and CAM. Taxes \$5.90 psf, CAM & INS tenant pays direct.

Please provide Tenant's pro rata share percentage of operating expenses.

Please indicate what, if any, utility costs Tenant will be responsible for paying that are not included in operating expenses or Base Rent.

*Tenant shall pay all utilities direct to utility providers.*

**LANDLORD'S MAINTENANCE:**

Landlord, at its sole cost and expense, shall be responsible for the structural and capitalized items (per GAAP standards) for the Property.

**POSSESSION AND RENT COMMENCEMENT:**

Landlord shall deliver Possession of the Premises to the Tenant upon mutual lease execution & all contingencies waived. Rent Commencement shall be Nine (9) months from Possession.

**LEASE FORM:**

Tenant's standard lease form.

**USE:**

The Use is for a Dialysis Clinic, medical offices or other lawfully permitted use.

*Zoning is C-2. Medical use is permitted under current zoning.*

**PARKING:**

*Please indicate the number and location of parking spaces to be allocated to the Tenant, number of general handicap stalls, total reserved stalls, if there is a patient drop off area, and if the drop off area is covered.*

*30 parking stalls & additional on street parking.*

**BASE BUILDING:**

Landlord shall deliver the building in "as is" condition with the following delivered to the perimeter of the building for use by the Tenant.

- A 2" dedicated water meter and line. Any permit or tap fees to increase the size of the existing water line will be paid for by Landlord.
- A 4" sewer line to a municipal sewer system;
- Minimum 400 amp, 120/208 volt 3 phase, 4 wire electrical service if gas is delivered to building;
- Minimum 600 amp electrical service if gas is not provided to Premises;
- Gas service, at a minimum, will be rated to have 6" of water column pressure and supply 800,000-BTU's;
- Any single pane window systems will be replaced by Landlord with code compliant, energy efficient thermal pane windows with thermally broken aluminum frames. Broken, missing and/or damaged glass or frames will be replaced by Landlord. Landlord shall allow Tenant, at Tenant's discretion, to tint the existing windows (per manufactures recommendations) per Tenant's tenant improvement design.
- The roof shall be properly sloped for drainage and flashed for proper water shed. Landlord to provide minimum of R30 roof insulation at roof deck. If the R30 value is not met, Landlord will increase R-Value by having installed additional insulation to meet GAHJ requirements to the underside of the roof structure/deck. Any new penetrations made during buildout will be at the Tenant's cost. Landlord shall grant Tenant the right to conceal or remove existing skylights (if any) as deemed appropriate by Tenant and its Consultants.

2

**TENANT IMPROVEMENTS:**

None.

**OPTION TO RENEW:**

Three (3), five (5) year options to renew the lease. 2.75% annual increases.

**RIGHT OF FIRST OPPORTUNITY ON ADJACENT SPACE:**

Tenant shall have the on-going right of first opportunity on any adjacent space that may become available during the initial term of the lease and any extension thereof, under the same terms and conditions of Tenant's existing lease. N/A

**FAILURE TO DELIVER PREMISES:**

If Landlord has not delivered the premises to Tenant with all base building items substantially completed by ninety (90) days from lease execution & all contingencies been waived, Tenant may elect to a or b) elect to receive two days of rent abatement for every day of delay beyond the ninety (90) day delivery period

**HOLDING OVER:**

Tenant shall be obligated to pay 110% for the then current rate.

**TENANT SIGNAGE:**

Tenant shall have the right to install building, monument and pylon signage at the Premises, subject to compliance with all applicable laws and regulations. Landlord, at Landlord's expense, will furnish Tenant with any standard building directory signage.

**BUILDING HOURS:**

Tenant requires building hours of 24 hours a day, 7 days a week.

*Please indicate building hours for HVAC and utility services. 24/7*

**SUBLEASE/ASSIGNMENT:**

Tenant will have the right at any time to sublease or assign its interest in this Lease to any majority owned subsidiaries or related entities of DaVita, Inc. without the consent of the Landlord, or to unrelated entities with Landlord's reasonable approval.

**ROOF RIGHTS:**

Tenant shall have the right to place a satellite dish on the roof, subject to a fee, to be reviewed by the landlord's engineer

while remaining liable under the lease.

ETS additional

SP

**NON COMPETE:**

Landlord agrees not to lease space to another dialysis provider within a five (5) mile radius of Premises.

**HVAC:**

*Please provide general description of HVAC systems (i.e. ground units, tonnage, age). 4 (5) ton rooftop units (approx. 5 years old).*

**DELIVERIES:**

*Please indicate manner of deliveries to the Premises (i.e. dock-high door in rear, shared) single door in rear.*

**OTHER CONCESSIONS:**

None.

**GOVERNMENTAL COMPLIANCE:**

Landlord shall represent and warrant to Tenant that Landlord, at Landlord's sole expense, will cause the Premises, common areas, the building and parking facilities to be in full compliance with any governmental laws, ordinances, regulations or orders relating to, but not limited to, compliance with the Americans with Disabilities Act (ADA), and environmental conditions relating to the existence of asbestos and/or other hazardous materials, or soil and ground

SP

The triple net property is being leased "AS IS". Tenant will be responsible for compliance with all laws, ordinances, regulations, etc as part of its build out of the premises.

CER

EB (SP)

water conditions, and shall indemnify and hold Tenant harmless from any claims, liabilities and cost arising from environmental conditions not caused by Tenant(s).

Tenant CON Obligation: Landlord and Tenant understand and agree that the establishment of any chronic outpatient dialysis facility in the State of Illinois is subject to the requirements of the Illinois Health Facilities Planning Act, 20 ILCS 3960/1 et seq. and, thus, the Tenant cannot establish a dialysis facility on the Premises or execute a binding real estate lease in connection therewith unless Tenant obtains a Certificate of Need (CON) permit from the Illinois Health Facilities and Services Review Board (HFSRB). Based on the length of the HFSRB review process, Tenant does not expect to receive a CON permit prior to July 15, 2014. In light of the foregoing facts, the parties agree that they shall promptly proceed with due diligence to negotiate the terms of a definitive lease agreement and execute such agreement prior to approval of the CON permit provided, however, the lease shall not be binding on either party prior to approval of the CON permit and the lease agreement shall contain a contingency clause indicating that the lease agreement is not effective prior to CON permit approval. Assuming CON approval is granted, the effective date of the lease agreement shall be the first day of the calendar month following CON permit approval. In the event that the HFSRB does not award Tenant a CON permit to establish a dialysis center on the Premises by July 15, 2014 neither party shall have any further obligation to the other party with regard to the negotiations, lease, or Premises contemplated by this Letter of Intent.

**BROKERAGE FEE:**

Landlord recognizes as the Tenant's sole representatives USI Real Estate Brokerage Services Inc. and shall pay a brokerage fee equal to \$ 1.00 per square foot per year of lease per separate commission agreement. Tenant shall retain the right to offset rent for failure to pay the brokerage fee.

**PLANS:**

Please provide copies of site and construction plans or drawings. Plans are on the website: [www.chre.com/5433w95](http://www.chre.com/5433w95)

Please submit your response to this Request for Proposal via e-mail to:

John Steffens

E-mail: [john.steffens@jci.com](mailto:john.steffens@jci.com)

Commission shall be due and owing upon waiver of all contingencies

*Jesse White*

SECRETARY OF STATE

**Section I, Identification, General Information, and Certification**  
**Organizational Relationships**

The organizational chart for DaVita HealthCare Partners Inc. and Renal Life Link, Inc. is attached at Attachment – 4.

# Stony Creek Dialysis Organizational Chart

**Section I, Identification, General Information, and Certification**  
**Flood Plain Requirements**

The site of the proposed dialysis facility complies with the requirements of Illinois Executive Order #2005-5. The proposed dialysis facility will be located at 5433 West 95<sup>th</sup> Street, Oak Lawn, IL 60453. As shown on the National Flood Insurance Program FIRM map attached at Attachment – 5, the site of the proposed dialysis facility site is located outside of a flood plain.

CON - Establish a 16-Station Dialysis Facility

5433 W. 95th St.

IHPA Log #005032014

April 3, 2014

Timothy Tincknell

DaVita Healthcare Partners, Inc.

1333 N. Kingsbury St., Suite 305

Chicago, IL 60642

Dear Mr. Tincknell:

This letter is to inform you that we have reviewed the information provided concerning the referenced project.

Our review of the records indicates that no historic, architectural or archaeological sites exist within the project area.

Please retain this letter in your files as evidence of compliance with Section 4 of the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420/1 et. seq.). This clearance remains in effect for two years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the Illinois Human Skeletal Remains Protection Act (20 ILCS 3440).

If you have any further questions, please contact me at 217/785-5027.

Sincerely,

Anne E. Haaker

Deputy State Historic

Preservation Officer

**Section II, Discontinuation**  
**Criterion 1110.130(a), General**

1. The Applicants seek authority from the Health Facilities and Services Review Board (the "Board") to discontinue its existing 12-station dialysis facility at 9155 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility") and establish a 12-station dialysis facility at 5433 West 95<sup>th</sup> Street, Oak Lawn, Illinois 60453 (the "Replacement Facility"). The Replacement Facility will be approximately 1.29 miles, or 3 and one half minutes, from the Existing Facility.
2. No other clinical services will be discontinued as a result of this project.
3. Anticipated Discontinuation Date: **February 29, 2016**
4. The Applicants lease space for the Existing Facility from Ali Kutom, as Trustee of Trust Number 16701. As a result, the Applicants will have no control over the use of the space after discontinuation of the Existing Facility.
5. All medical records will be transferred to the Replacement Facility.
6. This project is a relocation of the Existing Facility and not a discontinuation in its entirety. Therefore, this criterion does not apply.

## **Section II, Discontinuation**

### **Criterion 1110.130(b), Reasons for Discontinuation**

The Existing Facility is suboptimal for patients and staff, and in need of repair. Multiple physical plant upgrades are needed to plumbing, HVAC, and flooring. The patients do not have access to a clean sink on the treatment floor and need to rely on the use of alcohol wipes to clean their vascular access site. The RN station is too small to adequately prep medications. The water treatment room is outdated and in need of a complete overhaul.

Further, the Existing Facility shares a parking lot with an MRI clinic, a pregnancy counseling center, and a physician's office. A limited number of handicapped parking spaces (2) are frequently unavailable for patients. Additionally, these handicapped spaces are centrally located in parking lot and not proximately located to the dialysis unit. Accordingly, when handicapped are available, patients must walk and excessive distances from their cars to the dialysis facility, which poses additional safety risks. These patients are often elderly, suffer multiple co-morbidities and/or rely on assistive devices. While some safety risks cannot be avoided during winter or periods of inclement weather, these risks can be minimized to reducing the length patients must walk from their cars to the dialysis center.

The configuration of the parking lot also prohibits larger patient transport vehicles (vans) from dropping patients off and picking them up at the entrance to the dialysis unit. The drivers of these vehicles often are ticketed by the Oak Lawn police for parking on Cicero Avenue, while they escort patients to and from treatment. There is also no delivery zone for drivers that deliver supplies to the facility. Drivers either park near the front door of the facility, blocking the entrance / exit to the parking lot and creating an even greater issue during times of emergency, or they end up parking ½ block away and make multiple trips to cart in deliveries from the street.

Additionally, the design and size of the Existing Facility creates operational and logistical inefficiencies. The Existing Facility houses 12 dialysis stations in approximately 4,000 GSF, or 333.3 GSF per station, which is below the Board's minimum standard for in-center hemodialysis stations. As a result, the space is inadequate to store medical supplies, office supplies, and biohazard waste. The facility has no dedicated conference room. The lobby/patient seating area is too small by DaVita standards to appropriately accommodate patients in a 12-station dialysis unit. The mechanical room and the computer/server room for all of the neighboring medical businesses are housed inside the Existing Facility. There is no way to access the server/computer room without going through the treatment floor, creating a potential infection control concern. Additionally, the patient treatment floor configuration prohibits the viewing of all patients from the nursing station, resulting in an overall concern for patient safety based on inadequate sight-lines. This issue is discussed further in the Purpose of the Project narrative.

The site of the Replacement Facility is in a stand-alone building, approximately 1.29 miles away, with its own parking lot. Patient safety will be enhanced, as the larger patient transport vehicles will be able to get closer to the building during drop off and pick up. Patients who drive will have more overall access to parking spaces and handicapped spaces. The increased size of the Replacement Facility will allow for a conference room, adequate hazardous waste area and restroom facilities, an enhanced water treatment room, proper storage for all medical and office supplies, and sightlines to all patients on the treatment floor from the nursing station. Thus, the Applicants must relocate to a modern facility with enhanced accommodations and improved utilities to better provide for current and future ESRD patient needs.

**Section II, Discontinuation**  
**Criterion 1110.130(c), Impact on Access**

1. The relocation of the Existing Facility will not negatively impact access to care. To the contrary, it will improve access to life sustaining dialysis to DaVita's ESRD patient population by making it more accessible to patients and their families throughout the Oak Lawn metropolitan area. All existing patients are expected to transfer to the Replacement Facility. The Applicants seek authority from the Board to discontinue its existing 12-station dialysis facility at 9155 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility") and establish a 12-station dialysis facility at 5433 West 95<sup>th</sup> Street, Oak Lawn, Illinois 60453 (the "Replacement Facility"). The Replacement Facility will be approximately 1.29 miles, or 3 and one half minutes, from the Existing Facility.
2. Documentation of the Applicant's request for an impact statement, which was sent to all in-center hemodialysis facilities within 45 minutes normal travel time of the Existing Facility, is attached hereto. A list of facilities located within 45 minutes normal travel time is attached at Attachment – 10. See Appendices – 1 and 2 for documentation that DaVita sent requests for an impact statement to all in-center hemodialysis facilities within 45 minutes travel time.
3. To date, the Applicants have not received any impact statements regarding this project.

**Section III, Project Purpose, Background and Alternatives – Information Requirements**  
**Criterion 1110.230, Project Purpose, Background and Alternatives**

**Background of the Applicant**

The Applicants are fit, willing and able, and have the qualifications, background and character to adequately provide a proper standard of health care services for the community. The proposed project involves the discontinuation of Stony Creek Dialysis's existing facility and the establishment of a 12-station Replacement Facility located at 5433 West 95<sup>th</sup> Street, Oak Lawn, Illinois 60453 to better serve ESRD patients residing in and around Oak Lawn.

DaVita HealthCare Partners Inc is a leading provider of dialysis services in the United States and is committed to innovation, improving clinical outcomes, compassionate care, education and empowering patients, and community outreach. A copy of DaVita's 2013 Community Care report, some of which is outlined below, details DaVita's commitment to quality, patient centric focus and community outreach is attached at Attachment – 11A.

DaVita has taken on many initiatives to improve the lives of patients suffering from chronic kidney disease ("CKD") and end stage renal disease ("ESRD"). These programs include the Kidney Smart, IMPACT, CathAway, and transplant assistance programs. Information on the Kidney Smart, IMPACT and CathAway programs, in addition to six press releases: "DaVita HealthCare Partners Celebrates Milestones of 2013," "DaVita's Approach to Integrated Care Nationally Recognized," "DaVita's Teammate-Focused Culture Gains National and Local Awards," "FORTUNE Magazine Names DaVita Among Most Admired Companies for Ninth Consecutive Year," "DaVita Gives \$1.2 Million to Nonprofits Across the US," "DaVita Delivers First-of-its-Kind Dialysis Treatment in the U.S.," and "DaVita Receives National Award for Outstanding Efforts in Immunizations" were previously submitted as part of the Applicants' application for Proj. No. 14-016. The most recent press release: "DaVita Receives National Award for Outstanding Efforts in Immunizations" is attached at Attachment – 11B.

There are over 26 million patients with CKD and that number is expected to rise. Current data reveals troubling trends, which help explain the growing need for dialysis services:

- Between 1988-1994 and 2005-2010, the overall prevalence estimate for CKD rose from 12.3 to 14.0 percent. The largest relative increase, from 25.4 to 40.8 percent, was seen in those with cardiovascular disease.<sup>1</sup>
- Many studies have shown that diabetes, hypertension, cardiovascular disease, higher body mass index, and advancing age are associated with the increasing prevalence of CKD.<sup>2</sup>
- Nearly six times the number of new patients began treatment for ESRD in 2011 (approximately 116,000) versus 1980 (approximately 20,000).<sup>3</sup>
- Nearly eleven times more patients are now being treated for ESRD than in 1980 (approximately 615,000 versus approximately 60,000).<sup>4</sup>
- U.S. patients newly diagnosed with ESRD were 1 in 2,800 in 2011 versus 1 in 11,000 in 1980.<sup>5</sup>
- U.S. patients treated for ESRD were 1 in 526 in 2011 versus 1 in 3,400 in 1980.<sup>6</sup>
- Increasing prevalence in the diagnosis of diabetes and hypertension, the two major causes of CKD; 44% of new ESRD cases have a primary diagnosis of diabetes; 28% have a primary diagnosis of hypertension.<sup>7</sup>

<sup>1</sup> US Renal Data System, USRDS 2013 Annual Data Report: Atlas of Chronic Kidney Disease and End-Stage Renal Disease in the United States, National Institutes of Health, National Institute of Diabetes and Digestive and Kidney Diseases, Bethesda, MD, 44 (2013).

<sup>2</sup> Id. at 46

<sup>3</sup> Id. at 158

<sup>4</sup> Id.

<sup>5</sup> Id. at 160

<sup>6</sup> Id.

- Nephrology care prior to ESRD continues to be a concern. Since the 2005 introduction of the new Medical Evidence form (2728), with fields addressing pre-ESRD care, there has been little progress made in this area (pre-ESRD data, however, should be interpreted with caution because of the potential for misreporting). Forty-two percent of new ESRD patients in 2011, for example, had not seen a nephrologist prior to beginning therapy. And among these patients, 51 percent of those on hemodialysis began therapy with a catheter, compared to 19 percent of those who had received a year or more of nephrology care. Among those with a year or more of pre-ESRD nephrologist care, 30 percent began therapy with a fistula – five times higher than the rate among non-referred patients.<sup>8</sup>

Additionally, DaVita's Kidney Smart program helps to improve intervention and education for pre-ESRD patients. Approximately 65-75% of CKD Medicare patients have never been evaluated by a nephrologist.<sup>9</sup> Timely CKD care is imperative for patient morbidity and mortality. Adverse outcomes of CKD can often be prevented or delayed through early detection and treatment. Several studies have shown that early detection, intervention and care of CKD may result in improved patient outcomes and reduce ESRD:

- Reduced GFR is an independent risk factor for morbidity and mortality,
- A reduction in the rate of decline in kidney function upon nephrologists referrals has been associated with prolonged survival of CKD patients,
- Late referral to a nephrologist has been correlated with lower survival during the first 90 days of dialysis, and
- Timely referral of CKD patients to a multidisciplinary clinical team may improve outcomes and reduce cost.

A care plan for patients with CKD includes strategies to slow the loss of kidney function, manage comorbidities, and prevent or treat cardiovascular disease and other complications of CKD, as well as ease the transition to kidney replacement therapy. Through the Kidney Smart program, DaVita offers educational services to CKD patients that can help patients reduce, delay, and prevent adverse outcomes of untreated CKD. DaVita's Kidney Smart program encourages CKD patients to take control of their health and make informed decisions about their dialysis care.

To extend DaVita's CKD education and awareness programs to the Spanish-speaking population, DaVita launched its Spanish-language website (DaVita.com/Espanol) in November 2011. Similar to DaVita's English-language website, DaVita.com/Espanol provides easy-to-access information for Spanish-speaking kidney care patients and their families, including educational information on kidney disease, treatment options, and recipes.

DaVita's IMPACT program seeks to reduce patient mortality rates during the first 90-days of dialysis through patient intake, education and management, and reporting. In fact, since piloting in October 2007, the program has not only shown to reduce mortality rates by 8 percent but has also resulted in improved patient outcomes.

DaVita's CathAway program seeks to reduce the number of patients with central venous catheters ("CVC"). Instead patients receive arteriovenous fistula ("AV fistula") placement. AV fistulas have superior patency, lower complication rates, improved adequacy, lower cost to the healthcare system, and decreased risk of patient mortality compared to CVCs. In July 2003, the Centers for Medicare and Medicaid Services, the End Stage Renal Disease Networks and key providers jointly recommended

<sup>7</sup> Id at 161

<sup>8</sup> Id. at 216-217

<sup>9</sup> US Renal Data System, *USRDS 2011 Annual Data Report: Atlas of Chronic Kidney Disease and End-Stage Renal Disease in the United States*, Bethesda, MD: National Institutes of Health, National Institute of Diabetes and Digestive and Kidney Diseases; 2011.

adoption of a National Vascular Access Improvement Initiative ("NVAII") to increase the appropriate use of AV fistulas for hemodialysis. The CathAway program is designed to comply with NVAII through patient education outlining the benefits for AV fistula placement and support through vessel mapping, fistula surgery and maturation, first cannulation and catheter removal. Since the inception of the program, DaVita has achieved a 45 percent reduction in the number of "Day 90+" catheter patients. As of November 2013, DaVita's catheter use rate is at an all-time low with 13 percent of patients dialyzing at DaVita for 90 days or more with a catheter in place. DaVita is an industry leader in the rate of fistula use and has the lowest day-90 catheter rates among large dialysis providers.

DaVita was recognized at the National Adult and Influenza Immunization Summit (NAIIS) as the national winner in the "Healthcare Personnel Campaign" category of the 2014 Immunization Excellence Awards. In 2013, DaVita was the first large dialysis provider to implement a comprehensive teammate vaccination order, requiring all teammates who work in or whose jobs require frequent visits to dialysis centers to either be vaccinated against influenza or wear surgical masks in patient-care areas. As of March 15, DaVita achieved 100 percent compliance with its teammate immunization-or-mask directive, with more than 86 percent of teammates choosing vaccination. As of the same date, 92.2 percent of patients were vaccinated for the flu, marking the fourth consecutive year that DaVita's patient vaccination rates exceeded the U.S. Department of Health and Human Services Healthy People 2020 recommendations.

In an effort to improve patient outcomes and experience during dialysis, on May 13, 2014, DaVita announced the first delivery of hemodiafiltration in the United States. It is delivering hemodiafiltration treatments to select patients at its North Colorado Springs Clinic as part of a six-month trial program. Hemodiafiltration incorporates the standard hemodialysis process but adds an extra step to remove even larger toxin particles. It is commonly practiced in Europe but until recently there was no FDA approved device for use in the U.S. Over the next six months, DaVita clinical experts will determine whether there are improved outcomes of dialysis treatment and patient quality of life compared to hemodialysis.

For more than a decade, DaVita has been investing and growing its integrated kidney care capabilities, and on May 5, 2014, DaVita's approach to integrated care was recognized with two Dorland Health "Case in Point" Platinum Awards for its Pathways Care Management and VillageHealth Integrated Care Management programs. The Dorland Health awards recognize the most successful and innovative case-management programs working to improve health care across the continuum.

Through Patient Pathways, DaVita partners with hospitals to provide faster, more accurate ESRD patient placement to reduce the length of hospital inpatient stays and readmissions. Importantly, Patient Pathways is not an intake program. An unbiased onsite liaison, who specializes in ESRD patient care, meets with both newly diagnosed and existing ESRD patients to assess their current ESRD care and provide information about insurance, treatment modalities, outpatient care, financial obligations before discharge, and grants available to ESRD patients. Patients choose a provider/center that best meets their needs for insurance, preferred nephrologists, transportation, modality and treatment schedule.

DaVita currently partners with over 350 hospitals nationwide through Patient Pathways. Patient Pathways has demonstrated benefits to hospitals, patients, physicians and dialysis centers. Since its creation in 2007, Patient Pathways has impacted over 130,000 patients. In 2012 alone, the Patient Pathways program reduced renal-related readmission rates by more than 73 percent and saved partnering hospitals a total of 40,800 bed days and 18,500 acute dialysis treatments. Combined, these efficiencies reduced the country's 2012 health care costs by more than \$50 million. . Moreover, patients are better educated and arrive at the dialysis center more prepared and less stressed. They have a better understanding of their insurance coverage and are more engaged and satisfied with their choice of dialysis facility. As a result, patients have higher attendance rates, are more compliant with their dialysis care, and have fewer avoidable readmissions.

Since 1996, Village Health has innovated to become the country's largest renal National Committee for Quality Assurance accredited disease management program. VillageHealth's Integrated Care Management ("ICM") services partners with patients, providers and care team members to focus on the

root causes of unnecessary hospitalizations such as unplanned dialysis starts, infection, fluid overload and medication management.

VillageHealth ICM services for payers and ACOs provide CKD and ESRD population health management delivered by a team of dedicated and highly skilled nurses who support patients both in the field and on the phone. Nurses use VillageHealth's industry-leading renal decision support and risk stratification software to manage a patient's coordinated needs. Improved clinical outcomes and reduced hospital readmission rates have contributed to improved quality of life for patients. VillageHealth ICM has delivered up to a 15 percent reduction in non-dialysis medical costs for ESRD patients. Applied to DaVita's managed ESRD population, this represents an annual savings of more than \$30 million.

DaVita's transplant referral and tracking program ensures every dialysis patient is informed of transplant as a modality option and promotes access to transplantation for every patient who is interested and eligible for transplant. The social worker or designee obtains transplant center guidelines and criteria for selection of appropriate candidates and assists transplant candidates with factors that may affect their eligibility, such as severe obesity, adherence to prescribed medicine or therapy, and social/emotional/financial factors related to post-transplant functioning.

In an effort to better serve all kidney patients, DaVita believes in requiring that all providers measure outcomes in the same way and report them in a timely and accurate basis or be subject to penalty. There are four key measures that are the most common indicators of quality care for dialysis providers - dialysis adequacy, fistula use rate, nutrition and bone and mineral metabolism. Adherence to these standard measures has been directly linked to 15-20% fewer hospitalizations. On each of these measures, DaVita has demonstrated superior clinical outcomes, which directly translated into 7% reduction in hospitalizations among DaVita patients. DaVita has improved clinical outcomes each year since 2000, generating an estimated \$204M in net savings to the American healthcare system in 2013.

DaVita Rx, the first and largest licensed, full-service U.S. renal pharmacy, focuses on the unique needs of dialysis patients. Since 2005, DaVita Rx has been helping improve outcomes by delivering medications to dialysis centers or to patients' homes, making it easier for patients to keep up with their drug regimens. As of 2012, DaVita Rx patients have an 82% adherence rate, compared to those who use chain pharmacies and have a 32% adherence rate, and those who use independent pharmacies and have a 36% adherence rate. In addition, better adherence may lead to fewer hospitalizations for patients using DaVita Rx versus those patients not on this service. Hospitalizations (per member per 1000) was 1.4 for Non-DaVita Rx patients versus 1.0 for DaVita Rx patients in 2012.

DaVita has been repeatedly recognized for its commitment to its employees (or teammates), particularly its more than 1,700 teammates who are reservists, members of the National Guard, military veterans, and military spouses. In June 2013, DaVita received the prestigious Secretary of Defense Employer Support Freedom Award. Presented annually by the Employer Support of the Guard and Reserve ("ESGR"), an arm of the Department of Defense, the Freedom Award recognizes employers for outstanding support of employees who serve in the Guard and Reserve. It is the highest military-friendly award presented by the U.S. government. Nearly 3,000 employers were nominated for a Freedom Award in 2013. An awards committee composed of senior Department of Defense officials, business leaders and prior honorees selected just 15 companies to receive the 2013 Freedom Award. DaVita also received the 2013 award for Best Military Recruiting Program from ERE Media and was recognized this year with Top 100 Military Friendly Employer and 2013 Top 100 Military Friendly Spouse Employer awards from GI Jobs, a Most Valuable Employers award from CivilianJobs.com and a "Best for Vets" award from Military Times EDGE.

In April 2014, DaVita received three major national and local awards for its focus on its teammates: WorldBlu Most Democratic Workplaces, Top Workplaces Colorado and LearningElite Silver. For the seventh consecutive year, DaVita appeared on WorldBlu's list of most democratic work places. WorldBlu surveys organizations' teammates to determine the level of democracy practiced. For the third consecutive year, WorkplaceDynamics also recognized DaVita as one of the top workplaces in Colorado, based on employee input. DaVita was named a Silver LearningElite organization for 2014 by *Chief Learning Officer* magazine for creating and implementing exemplary teammate development practices

that deliver measurable business value. DaVita ranked No. 29 in a record breaking field of more than 200 companies. Finally, DaVita has been recognized as a one of *Fortune*® Magazine's Most Admired Companies in 2014. DaVita ranked first overall among health care facilities and was the second highest-rated company in Colorado.

DaVita is also committed to sustainability and reducing its carbon footprint. In fact, it is the only kidney care company recognized by the Environmental Protection Agency for its sustainability initiatives. In 2010, DaVita opened the first LEED-certified dialysis center in the U.S. Furthermore, it annually saves approximately 8 million pounds of medical waste through dialyzer reuse and it also diverts more than 85% of its waste through composting and recycling programs. It has also undertaken a number of similar initiatives at its offices and is seeking LEED Gold certification for its corporate headquarters. In addition, DaVita was also recognized as an "EPA Green Power Partner" by the U.S. Environmental Protection Agency.

DaVita consistently raises awareness of community needs and makes cash contributions to organizations aimed at improving access to kidney care. DaVita provides significant funding to kidney disease-awareness organizations such as the Kidney TRUST, the National Kidney Foundation, the American Kidney Fund, and several other organizations. Its own employees, or members of the "DaVita Village," assisted in these initiatives and have raised approximately \$5 million, thus far, through the annual Tour DaVita bicycle ride, with \$1 million coming in 2013 alone. The Kidney Rock 5K Run/Walk raised an estimated \$1 million for Bridge of Life – DaVita Medical Missions in 2011 and 2012, combined. DaVita continued its "DaVita Way of Giving" program in 2013 with teammates at clinics across DaVita's 43-state footprint selecting more than 1100 charities from Ronald McDonald House to small community-support entities in their local areas, to receive approximately \$1.2 million in contributions.

DaVita does not limit its community engagement to the U.S. alone. It founded Bridge of Life, a 501(c)(3) nonprofit organization that operates on donations to bring care to those for whom it is out of reach. In 2013, nearly 50 volunteers from Bridge of Life- DaVita Medical Missions™ worked to complete 15 missions in 11 countries, during which volunteers and partners helped to install or repair 77 dialysis machines and train more than 50 kidney care professionals, bringing treatment and quality care to an addition 420 people around the world.

1. Neither the Centers for Medicare and Medicaid Services nor the Illinois Department of Public Health has taken any adverse action involving civil monetary penalties or restriction or termination of participation in the Medicare or Medicaid programs against any of the applicants, or against any Illinois health care facilities owned or operated by the Applicants, directly or indirectly, within three years preceding the filing of this application.

A list of health care facilities owned or operated by the Applicants in Illinois is attached at Attachment – 11C.

Dialysis facilities are currently not subject to State Licensure in Illinois.

2. Certification that no adverse action has been taken against either of the Applicants or against any health care facilities owned or operated by the Applicants in Illinois within three years preceding the filing of this application is attached at Attachment – 11D.
3. An authorization permitting the Illinois Health Facilities and Services Review Board ("HFSRB") and the Illinois Department of Public Health ("IDPH") access to any documents necessary to verify information submitted, including, but not limited to: official records of IDPH or other State agencies; and the records of nationally recognized accreditation organizations is attached at Attachment – 11D.

*bringing quality to life<sup>™</sup>*

## A COMMUNITY FIRST, A COMPANY SECOND

At DaVita Kidney Care, we do dialysis, but we are not about dialysis. We are about the lives of our patients, teammates (employees) and partners, and the communities in which we operate around the globe.

We believe that if we create a thriving, sustainable community for our teammates, they in turn will create a special clinical and caring community for our patients and their families, and be inspired to help others. We call this vision for corporate social responsibility (CSR) our Trilogy of Care: Caring for Our Patients, Caring for Each Other and Caring for Our World. This trilogy is at the heart of our industry-leading clinical outcomes, our goodwill initiatives and our environmental commitment.

## ABOUT CHRONIC KIDNEY DISEASE (CKD)

Chronic kidney disease (CKD), a silent epidemic, affects 1 in 10 U.S. adults<sup>1</sup>, many of whom are unaware of the condition until it progresses to kidney failure, or end stage renal disease (ESRD). More than 600,000 people in the U.S. have ESRD and require a transplant or dialysis to survive<sup>2</sup>.

Anyone can be affected by ESRD, but African Americans, Hispanic Americans and Native Americans are affected disproportionately. Diabetes and hypertension are the two leading causes of CKD, which is recognized as a major public-health problem that reduces the quality and length of life<sup>3</sup>.

Our integrated and individualized approach to kidney care offers patients choice, comfort and convenience to help them continue to lead the lives they knew before dialysis.

# CARING FOR OUR PATIENTS

Innovating Care, Improving Lives

DaVita's vision To Build the Greatest Healthcare Community the World Has Ever Seen means continuously evolving the way we treat our more than 163,000 kidney care patients. Through our integrated, personalized approach to care that focuses on innovation, education and empowerment, we are improving our patients' health, healthcare experience and quality of life. Some of our initiatives to set a new standard for kidney care are highlighted here.

**IMPACT™.** DaVita's IMPACT care management program improves outcomes and reduces mortality rates by focusing on the first 90 days of dialysis, when patients are at highest risk for serious and potentially fatal complications. The program has helped improve DaVita's overall gross mortality rate, which has fallen by 28 percent over the last 13 years.

**CathAway™.** DaVita's CathAway program helps transition patients from central venous catheters (CVCs) to arteriovenous fistulas, reducing the risk of hospitalization from infections and blood clots. Since 2000, our fistula adoption rate has improved by 102 percent, and CVC use was at an all-time low of 13 percent at the end of 2013. DaVita received the Renal Physicians Association's 2013 Patient Safety Improvement Award for adherence to access monitoring and surveillance procedures, which resulted in reducing fistula and graft thromboses, the leading cause of reversion to infection-prone catheters.

## Meet Bennye V. ★

Bennye refused to accept that her kidneys were failing until she met the caring teammates at her DaVita dialysis facility in California. She could see that the teammates who made up her dialysis support team cared not only about her health but about her quality of life. That personal connection inspired Bennye to treat dialysis as "her job," laying out her clothes the night before her treatment days. She quickly started to thrive and credits DaVita for changing her life.

**Vaccinations.** DaVita's pneumococcal pneumonia and influenza vaccination initiatives lead the industry and help foster a safe environment for our patients and clinical teams. In 2013, DaVita vaccinated 92 percent of patients for each. Since undertaking the initiative, patient flu vaccinations have improved by 4.1 percent, teammate flu vaccinations by 43.5 percent and patient pneumonia vaccinations by 26.9 percent.

**Lifeline Vascular Access.** Lifeline Vascular Access, the nation's largest network of outpatient vascular access centers for patients with end stage renal disease (ESRD), has performed more than 750,000 procedures, and in 2013 achieved an overall success rate of 98.6 percent.

**VillageHealth.** One of the nation's leading integrated kidney care management organizations, VillageHealth now touches more than 20,000 lives a month. The integrated care management results are most visible in VillageHealth's ESRD special needs plan (SNP) program, where it has achieved:

- :: 30 percent fewer hospital readmissions compared to the Medicare benchmark.<sup>1</sup>
- :: 15 percent lower year-one mortality rate over a three-year period.<sup>2</sup>
- :: 15 percent lower non-dialysis costs for ESRD care.<sup>3</sup>

**DaVita Rx.** As the first and largest renal pharmacy, DaVita Rx focuses on improving patients' ability to access and stay adherent to their medications. Studies suggest that patients that use DaVita Rx spend 14 percent fewer days in the hospital each year and are 21 percent more likely to live longer than patients that use a different pharmacy.<sup>4</sup>

**Dedication to Working Patients.** Studies have proven that when patients continue working after they go on dialysis, they generally experience a lower rate of depression<sup>5</sup>, have fewer hospitalizations<sup>6</sup> and score higher on general health and vitality tests.<sup>7</sup> DaVita provides flexible treatment shifts and a variety of home-treatment options to accommodate working patients as well as information to help patients make the right choice for them.

**Compliance.** Our compliance program is essential to ensure ethical business practices. By maintaining an environment of integrity through our robust compliance program, DaVita is able to provide quality care to our patients and be the employer of choice to our teammates. In 2013, DaVita earned the Health Ethics Trust's Best Practice Award for our compliance training program.

## KIDNEY HEALTH TOOLS

DaVita provides some of the most-comprehensive kidney disease education tools available to help patients take control of their health and make better choices to enrich their lives. Millions of people visit **DaVita.com** for free information on kidney disease.

**myDaVita.com.** myDaVita.com allows people to connect with a social support community and share their experiences on any of their online devices.

**DaVita Diet Helper.** The most robust diet-planning tool for kidney care patients, DaVita Diet Helper lets users access 1,000-plus kidney-friendly recipes for pre-planned daily menus, create their own meals and recipes, save their favorites and track their nutrition levels with ease.

**Kidney Smart.** DaVita aims to empower people diagnosed with chronic kidney disease who have not yet started dialysis to make healthy choices and slow the progression of their disease. Kidney Smart offers early- and late-stage CKD patients and their caregivers no-cost, instructor-led classes in neighborhoods across the country—or via interactive online courses at KidneySmart.org.

**DaVita Health Portal.** The DaVita Health Portal lets DaVita patients track their health by accessing, printing and sharing their lab values, nutrition reports and more online.

# CARING FOR EACH OTHER

## Together, We're Stronger

Whether by training teammates for leadership, offering ways for new parents to spend more time with their little ones, helping teammates make healthy choices, funding scholarships for their children or being a safety net in times of crisis, DaVita invests in creating a thriving, healthy and supportive culture throughout our "Village."

**Encouraging Inclusion.** We believe that having a diverse and inclusive workforce helps us to deliver on our mission of being the provider, partner and employer of choice in the communities that we serve. We strive to create an environment for our patients and teammates that embraces gender and racial equality, as well as the full spectrum of cultural backgrounds and beliefs.

**Developing Leaders.** In 2013, more than 9,700 teammates benefited from the various award-winning curricula offered through DaVita University. Additionally, nearly 5,000 teammates from every level of the company attended a DaVita Academy, an immersive two-day introduction to DaVita culture and to leadership practices they can use with their teams and in their personal lives.

To date, 627 DaVita teammates have grown within the company through the Redwoods Leadership Development Program. The three Redwoods curricula provide scholarships, on-the-job and classroom learning, mentorship, a leadership practicum or opportunities to work cross-functionally.

### Dave Richardson

**Dave Richardson, divisional vice president,** began his journey in 2001 as a patient care technician. Dave knew from the beginning that a path for growth at DaVita was available to him. He says, "All the resources are there, you have to take ownership and respond to the coaching you have been given." Dave used the tuition reimbursement program to earn his MBA and has taken multiple DaVita University programs offered during his development. Dave credits DaVita for the incredible opportunities he has been given and is proud of the accomplishments of the DaVita Village in the past 14 years.

Attachment - 11A

**The DaVita Village Network (DVN)** gives teammates the opportunity to help each other during times of crisis, such as a natural disaster, accident or illness. Teammates can make payroll contributions, which DaVita provides funding to match up to \$250,000 per year.

DaVita teammates' children and grandchildren who excel in leadership, community service and academics can earn scholarships of \$1,000 to \$3,000 from the **DaVita Children's Foundation (DCF)** and the **KT Family Foundation (KTF)**, respectively. The KTF, funded by Chairman and CEO Kent Thiry and his wife, Denise O'Leary, and the DCF together have awarded more than \$1.6 million to 807 students since inception in 2001.

In 2012, DaVita launched the **Woody Brittain Scholarship** to honor a past DaVita board member. Woody had a lifetime of success in the business world and donated many hours to community service. Three African-American high school seniors each year receive this scholarship and these students will receive exposure to DaVita's culture and mentor opportunities through college.

**DaVita's Little Star Gift** of \$2,500 helps new DaVita birth and adoptive parents provide essentials for their little ones.

More than **24,000 teammates** and **6,500 spouses** and domestic partners participated in DaVita's Village Vitality program in 2013. Dedicated to creating and

sustaining a culture of health awareness and improvement among teammates, our **Village Vitality program** offers teammates multiple tools for making healthy choices, such as free biometric screenings, stress-management and tobacco-cessation programs, and the six-week **Match the Mayor** exercise competition with Chairman and CEO Kent Thiry.

In the spirit of producing most what we honor most, DaVita presents the **We Are Well Award** and the opportunity to earn free health insurance to teammates who have made the commitment to achieving their health goals.

## SUPPORT FOR OUR TROOPS

DaVita honors our more than 1,800 teammates who have served in the United States Armed Forces by extending healthcare coverage and life insurance during new deployments lasting 30-plus days and contributing up to \$5,000 per year to each deployed teammate.

In 2013, DaVita was recognized with 11 military awards, including the Freedom Award, the Department of Defense's highest military-friendly employer award. DaVita is the first kidney care provider to earn this distinction.

# CARING FOR OUR WORLD

## Improving Lives, Sustainably

It is our duty to give back to the neighborhoods in which we operate through environmental, philanthropic and educational means. We work hard to raise awareness about kidney disease, to bring treatment to people who need it most and to be good neighbors in communities around the world.

**Extending Access to Dialysis.** Bridge of Life—DaVita Medical Missions brings kidney care, education and hope to underserved global communities. In 2013, the organization completed 15 medical missions in 11 countries, which will bring treatment to more than 420 dialysis patients around the world. In the last six years, Bridge of Life has provided an estimated 147,000 treatments to more than 1,400 patients.

**Raising Awareness of a Silent Disease.** The Kidney TRUST provides rapid screening to identify signs of kidney impairment. Since 2007, more than 40,000 people have received screenings—12 percent of whom showed evidence of kidney disease. In 2013, The Kidney TRUST partnered with the National Alliance for Hispanic Health and the Congressional Black Caucus to provide free screening for almost 3,000 people.

**Philanthropy.** Through the DaVita Way of Giving, teammates at our 2,000-plus clinics were invited to give to charities in their communities. In 2013, they chose more than 760 local nonprofit organizations such as food banks, shelters and disaster relief organizations to receive \$1.2 million through the 2013 campaign.

Meet

SUSTAINABILITY

DaVita Kidney Care also made cash contributions totaling more than \$1.362 million to kidney disease-awareness organizations and provided financial support to 117 nonprofit organizations in our hometown of Denver, Colorado.

**Community Service.** Chairman and CEO Kent Thiry and his wife, Denise O’Leary, created the KT Community Foundation in 2006 to help support hands-on community service projects benefiting 501(c)(3) charities. In 2013, the KT Community Foundation awarded its 100th grant, and to date has funded a total of \$312,000 toward teammate-led projects.

In 2013, DaVita Kidney Care teammates and their family and friends participated in 369 Village Service Days, volunteering 15,913 hours to community service.

**Tour DaVita.** Tour DaVita is an annual 250-mile bicycle ride to raise awareness about kidney disease. Since it started in 2007, Tour DaVita participants have collectively ridden 533,000 miles and raised more than \$5 million in the fight against kidney disease.

**Home-State Engagement.** DaVita has partnered with dozens of organizations to launch community-enrichment initiatives in our home state. After devastating floods hit Colorado in 2013, more than 50 DaVita teammates and Village Service Partners flew out from across the country to help with relief efforts.

**In 2013, more than 900,000 pounds of sharps container plastic diverted from the landfill by purchasing containers with recycled content.**

**\$5M raised to fight kidney disease since 2007 through the annual 250-mile Tour DaVita bicycle ride.**

**\$1.2M donated to more than 760 organizations nationwide through the DaVita Way of Giving in 2013.**

At DaVita, we aggressively pursue ways to reduce our environmental footprint without compromising patient care. In 2010, we established environmental goals to achieve by the end of 2015:

GOAL	PROGRESS
1. Reduce energy consumption by 15 percent per treatment.	DaVita has reduced energy consumption by 14 percent per treatment since 2010 in targeted pilot areas through the installation of energy management systems (EMS). Due to the success of this program, we are rolling out EMS installation in every facility across the Village.
2. Reduce water consumption by 10 percent per treatment.	DaVita has driven a 14 percent reduction in water usage, projecting a savings of 350 million gallons of water per year from operational changes. We are pursuing additional water-conservation measures in 2014 and beyond.
3. Reduce office paper consumption by 20 percent.	DaVita has made significant progress in reducing paper consumption through initiatives such as transitioning our policies and procedures manuals to a digital format and implementing print-to-PDF capabilities.
4. Increase teammate awareness/education by implementing one new sustainability program a year.	On average, DaVita has developed three new education programs per year for teammates since 2010, including cell phone and toner recycling and empowering 800 “green champions” at DaVita centers and business offices across the country to engage with our sustainability programs at a local/clinical level.
5. Environmentally preferable procurement.	DaVita has increased environmentally preferable procurement through partnerships with vendors and purchases environmentally friendly products when available. <ul style="list-style-type: none"> <li>• Approximately 450 facilities recycle solid waste, diverting 7.8 million pounds from landfills in 2013.</li> <li>• By recycling/refurbishing parts from end-of-life dialysis machines, 147,000 pounds were diverted from landfills in 2013.</li> </ul>

*“By their nature, dialysis operations use a large amount of resources. We aim to reduce our environmental footprint while continuously improving the care provided to dialysis patients each day.”*

—Kent Thiry, Chairman and CEO of DaVita HealthCare Partners Inc.

# LOOKING AHEAD

Every new year presents new opportunities to move closer to achieving our goals of improving quality of life for our patients, supporting our teammates and partners and helping improve the communities in which we live.

67

**Caring for Our Patients.** Building on our foundation of continuously improved patient outcomes, DaVita recently launched several new clinical initiatives to improve fluid, infection and medication management. These initiatives take the fundamentals of kidney care to the next level and focus on the complex factors that affect patients' quality of life. This year, DaVita will be working with our physician partners and teammates to roll out these initiatives across the Village.

Attachment - 11A

**Caring for Each Other.** Among our ongoing efforts to promote healthy and balanced lifestyles, DaVita University has launched new programs aimed at achieving life alignment and balance.

The new Thriving After Military Service program honors and supports our teammates who have served or are currently serving in the military. Camp Courage is a way to provide support for our teammates who are battling or have survived cancer. We are always finding new ways to build management and leadership skills through programs like the DaVita University webinars and Leadership Essentials.

**Caring for Our World.** In 2014, DaVita will bring two prominent kidney care non-profit organizations, Bridge of Life and The Kidney TRUST, under one umbrella called DaVita Village Trust. The new entity aspires to improve community health, wellness and vitality by providing chronic kidney disease education, prevention and treatment. In its first year, DaVita Village Trust plans to complete 18 international medical missions that will expand access to quality dialysis treatment for more than 330 new patients around the world. Additionally, DaVita Village Trust aims to provide free rapid-screenings for more than 12,000 people in at-risk and underserved communities.

## 2013 HIGHLIGHTS

### Caring for Our Patients

- DaVita Kidney Care has improved clinical outcomes each year since 2000, generating an estimated \$204M in net savings to the American healthcare system in 2013.
- By the end of 2013, DaVita had improved patient use of fistulas, the preferred method of vascular access, by 102 percent since 2002.
- An independent study showed that dialysis patients using DaVita Rx as their pharmacy are 21 percent more likely to live longer and experience 14 percent fewer days in the hospital than patients who do not use DaVita Rx<sup>1</sup>.

### Caring for Each Other

- DaVita was recognized for the 10th consecutive year as the No. 1 national healthcare services provider for employee training programs on Training Magazine's Top 125 list.
- For its fourth consecutive year since moving to the state, DaVita was voted among the Best Companies to Work For Colorado, ranking No. 5 in the large company category.
- Starting in 2012, more than 4,500 teammates organized 7,300 letters, care packages and Veterans Day celebrations to honor military veteran patients and teammates serving overseas.

### Caring for Our World

- By the end of 2013, Bridge of Life—DaVita Medical Missions™ installed or repaired 257 dialysis machines to enable 1,400-plus people to receive life-saving care in underserved communities around the world.
- DaVita Kidney Care had a record-breaking year for volunteerism. DaVita volunteers helped complete 369 community service events around the country, dedicating more than 15,900 hours through Village Service Days.
- Through DaVita Way of Giving, DaVita donated \$1.2M to 760 nonprofits across the country.

## DaVita Receives National Award for Outstanding Efforts in Immunizations

DaVita recognized for groundbreaking teammate immunization program

DENVER, May 14, 2014 /PRNewswire-USNewswire/ -- DaVita Kidney Care, a division of DaVita HealthCare Partners Inc. (NYSE: DVA) and a leading provider of kidney care services, was recognized at the National Adult and Influenza Immunization Summit (NAIS) as the national winner in the "Healthcare Personnel Campaign" category of the 2014 Immunization Excellence Awards.

The awards will be presented today during the annual NAIS program in Atlanta, Georgia. The awards recognize individuals and companies that have made outstanding progress in their communities toward improving vaccination rates.

In 2013, DaVita was the first large dialysis provider to implement a comprehensive teammate vaccination order, requiring all teammates who work in or whose jobs require frequent visits to dialysis centers to either be vaccinated against influenza or wear surgical masks in patient-care areas.

"Dialysis patients have chronically-suppressed immune systems and, as a result, are particularly vulnerable to many preventable diseases. They often have a longer, more serious course of illness from the flu and a higher risk of complications," said Allen R. Nissenson, MD, DaVita's chief medical officer. "DaVita's teammate vaccination initiative was an important step in reducing preventable disease outbreaks, reducing unnecessary hospitalizations and increasing our patients'—and our teammates'—quality of life."

As of March 15, DaVita achieved 100 percent compliance with its teammate immunization-or-mask directive, with more than 86 percent of teammates choosing vaccination. As of the same date, 92.2 percent of patients were vaccinated for the flu, marking the fourth consecutive year that DaVita's patient vaccination rates exceeded the U.S. Department of Health and Human Services Healthy People 2020 recommendations.

DaVita's Vaccination Task Force comprises infection surveillance and management specialists, as well as representatives from the Office of the Chief Medical Officer and several other teams. The task force established a dedicated team of Vaccination Communicators and empowered trained Vaccination Advocates to discuss immunization risks and benefits with patients and teammates. DaVita also authorized an extensive, multi-phase communication campaign that helped ensure teammates were informed and engaged in the vaccination effort.

### About DaVita Kidney Care

DaVita Kidney Care is a division of DaVita HealthCare Partners Inc., a Fortune 500® company that, through its operating divisions, provides a variety of health care services to patient populations throughout the United States and abroad. A leading provider of dialysis services in the United States, DaVita Kidney Care treats patients with chronic kidney failure and end stage renal disease. DaVita Kidney Care strives to improve patients' quality of life by innovating clinical care, and by offering integrated treatment plans, personalized care teams and convenient health-management services. As of March 31, 2014, DaVita Kidney Care operated or provided administrative services at 2,098 outpatient dialysis centers located in the United States serving approximately 165,000 patients. The company also operated 75 outpatient dialysis centers located in 10 countries outside the United States. DaVita Kidney Care supports numerous programs dedicated to creating positive, sustainable change in communities around the world. The company's leadership development initiatives and social responsibility efforts have been recognized by Fortune, Modern Healthcare, Newsweek and WorldBlu. Kathryn Olson  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

Dear Chairwoman Olson:

I hereby certify under penalty of perjury as provided in § 1-109 of the Illinois Code of Civil Procedure, 735 ILCS 5/1-109 that no adverse action as defined in 77 IAC 1130.140 has been taken against any in-center dialysis facility owned or operated by DaVita HealthCare Partners Inc. or Renal Life Link, Inc. in the State of Illinois during the three year period prior to filing this application.

Additionally, pursuant to 77 Ill. Admin. Code § 1110.230(a)(3)(C), I hereby authorize the Health Facilities and Services Review Board ("HFSRB") and the Illinois Department of Public Health ("IDPH") access to any documents necessary to verify information submitted as part of this application for permit. I further authorize HFSRB and IDPH to obtain any additional information or documents from other government agencies which HFSRB or IDPH deem pertinent to process this application for permit.

Sincerely,

  
Arturo Sida  
Assistant Corporate Secretary  
DaVita HealthCare Partners Inc.

State of California  
County of Los Angeles

On March 28, 2014 before me, Kimberly Ann K. Burgo, Notary Public, personally appeared \*\*\* Arturo Sida \*\*\* who proved to me on the basis of satisfactory evidence to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same in his authorized capacity, and that by his signature on the instrument the person, or the entity upon behalf of which the person acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

Signature

**Section III, Project Purpose, Background and Alternatives – Information Requirements**  
**Criterion 1110.230(b), Project Purpose, Background and Alternatives**

Purpose of the Project

1. The Applicants propose to relocate the Existing Facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 1.29 miles, or 3 and one half minutes to 5433 West 95<sup>th</sup> Street, Oak Lawn, Illinois 60453 (the "Replacement Facility").

The Existing Facility is suboptimal for both patients and staff. As the Applicant does not own the building, it has determined that it will be better able to serve the needs of its patients if the service is relocated to a modern facility. While the Existing Facility shares a small parking lot with other medical businesses and shares a common wall with one, the mechanical room and the server / computer room for all of the businesses are housed within the Existing Facility. There is no way to access the server / computer room without going through the treatment floor, creating a potential infection control concern. The Existing Facility has physical plant issues pertaining to plumbing, HVAC, and flooring. The site of the Replacement Facility was selected due to its proximity to the Existing Facility, the necessary space it provides for current and future expansion needs, as well as the parking availability for patients, staff, and vendors. The proposed Replacement Facility will create numerous operational and logistical efficiencies.

The Existing Facility has suboptimal sight-lines for monitoring of patients. Work station design for patient and staff visibility is fundamental in the design of any environment where caregivers must work as a team with groups of immobilized patients. Properly designed work stations and clinical areas allow clinicians to be aware of patients' conditions, their presence, their actions and their needs. Similarly, patients are able to communicate efficiently with staff to get their attention to report problems and to request assistance. This is fundamental in care delivery relative to safety, efficiency and flexibility in the care environment. Obstructed sight lines can be a significant issue in dialysis because of vascular access issues that occur during dialysis and blood loss risks relating to needles potentially dislodging. Also, obstructed sight lines pose increased safety risks because patients are often sleeping and may be unaware if their needle dislodges and are unable to leave their chairs without assistance when dialysis is being administered. Thus, the Applicants must relocate to a modern facility, with enhanced accommodations and improved utilities, to improve access and better provide for the needs of the area's ESRD patients and their families.

The Replacement Facility is needed to serve the growing demand for dialysis services in the area. Currently, the Existing Facility serves 65 in-center ESRD patients. James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 65 current patients will transfer to the Replacement Facility. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 90 patients will receive treatment at the Replacement Facility within 24 months of project completion. The existing facility's 65 current patients represents a 90.3% utilization rate, which already exceeds the State's 80% standard. With the expected growth in patient volume, the Existing Facility must relocate in order to have the capacity to expand in subsequent years. The Replacement Facility will be plumbed to be able to accommodate up to 16 stations. This will allow for a future census capacity of 96 in-center ESRD patients.

As shown in Attachment – 12A, including the Existing Facility for Stony Creek Dialysis, there are currently 52 existing or approved dialysis facilities within 30 minutes normal travel time of the proposed location of the Replacement Facility. As collected and reported by the Staff of the IHFSRB, the ESRD utilization for existing and approved facilities for the quarter ended March 31, 2014 is 70.94%. Importantly, the utilization of existing and approved clinics within 20 minutes normal travel time of the proposed site is 78.69% or approximately 1% below the State Board's utilization standard.

2. A map of the market area for the proposed facility is attached at Attachment – 12B. The market area encompasses an approximate 15 mile radius around the proposed facility. The boundaries of the market area are as follows:

- North approximately 30 minutes normal travel time to Cicero, Illinois.
- Northeast approximately 30 minutes normal travel time to Washington Park, Illinois.
- East approximately 30 minutes normal travel time to Lake Michigan.
- Southeast approximately 30 minutes normal travel time to Dolton, Illinois.
- South approximately 30 minutes normal travel time to Country Club Hills, Illinois.
- Southwest approximately 30 minutes normal travel time to Lemont, Illinois.
- West approximately 30 minutes normal travel time to Bolingbrook, Illinois.
- Northwest approximately 30 minutes normal travel time to Villa Park, Illinois.

4. As stated above, the Existing Facility is suboptimal for both patients and staff. As the Applicant does not own the building, it has determined that it will be better able to serve the needs of its patients if the service is relocated to a modern facility. While the Existing Facility shares a small parking lot with other medical businesses and shares a common wall with one, the mechanical room and the server / computer room for all of the businesses are housed within the Existing Facility. There is no way to access the server / computer room without going through the treatment floor, creating a potential infection control concern. The Existing Facility has physical plant issues pertaining to plumbing, HVAC, and flooring. The site of the Replacement Facility was selected due to its proximity to the Existing Facility, the necessary space it provides for current and future expansion needs, as well as the parking availability for patients, staff, and vendors. The proposed relocation facility will create numerous operational and logistical efficiencies. Thus, the Applicants must relocate to a modern facility, with enhanced accommodations and improved utilities, to improve access and better provide for the needs of the area's ESRD patients and their families.
5. The Applicants anticipate the proposed facility will have quality outcomes comparable to other DaVita facilities. Additionally, in an effort to better serve all kidney patients, DaVita believes in requiring all providers measure outcomes in the same way and report them in a timely and accurate basis or be subject to penalty. There are four key measures that are the most common indicators of quality care for dialysis providers - dialysis adequacy, fistula use rate, nutrition and bone and mineral metabolism. Adherence to these standard measures has been directly linked to 15-20% fewer hospitalizations. On each of these measures, DaVita has demonstrated superior clinical outcomes, which directly

translated into 7% reduction in hospitalizations among DaVita patients. DaVita has improved clinical outcomes each year since 2000, generating an estimated \$204M in net savings to the American healthcare system in 2013.

79

Attachment - 12B

**Section III, Project Purpose, Background and Alternatives – Information Requirements**  
**Criterion 1110.230(c), Project Purpose, Background and Alternatives**

Alternatives

The Applicants explored several options prior to determining to relocate Stony Creek Dialysis. After exploring the options below in detail, the Applicants determined to relocate the Existing Facility in order to create operational efficiencies. A review of each of the options considered and the reasons they were rejected follows.

Do Nothing

The Existing Facility is suboptimal for patients and staff, and in need of repair. Multiple physical plant upgrades are needed to plumbing, HVAC, and flooring. The patients do not have access to a clean sink on the treatment floor and need to rely on the use of alcohol wipes to clean their vascular access site. The RN station is too small to adequately prep medications. The water treatment room is outdated and in need of a complete overhaul. As the Existing Facility shares a parking lot with an MRI clinic, a pregnancy counseling center, and a physician's office, the limited number of allowable handicapped parking spaces (2) are frequently unavailable. These handicapped spaces centrally located in parking lot and not directly in front of the dialysis unit. The configuration of the parking lot prohibits the larger patient transport vehicles (vans) from dropping patients off and picking them up by the entrance to the building. The drivers of these vehicles often get ticketed by the Oak Lawn police for parking on Cicero Avenue, while they escort patients to and from treatment. There is also no delivery zone for drivers that deliver supplies to the facility. Drivers either park near the front door of the facility, blocking the entrance / exit to the parking lot and creating an even greater issue during times of emergency, or they end up parking ½ block away and make multiple trips to cart in deliveries from the street. Additionally, the design and size of the Existing Facility creates operational and logistical inefficiencies.

There is no capital cost with this alternative.

Renovate the Existing Facility

As the Applicants do not own the building, it has determined that it will be better able to serve the needs of its patients if the service is relocated to a modern facility. The Existing Facility houses 12 dialysis stations in approximately 4,000 GSF, or 333.3 GSF per station, which is below the Board standard for in-center hemodialysis stations. As a result, the space is inadequate to store medical supplies, office supplies, and biohazard waste. The facility also has no dedicated conference room. The lobby / patient seating area is too small by DaVita standards to appropriately accommodate patients in a 12-station dialysis unit. Additionally, the patient treatment floor configuration prohibits the viewing of all patients from the nursing station, resulting in an overall concern for patient safety based on inadequate sight-lines.

The Applicants considered renovating the Existing Facility. However, many of the issues identified cannot be addressed through renovation. The Existing Facility is landlocked and cannot accommodate future growth or expansion. Thus, the Applicants decided to relocate to a modern facility with an updated functional design and space to expand, to address the growing need for dialysis services in the community, to better address its patients' needs and improve access to a broader patient-base.

Utilize Existing Facilities

The Replacement Facility is needed to serve the growing demand for dialysis services in the area. Currently, the Existing Facility serves 65 in-center ESRD patients. James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 65 current patients will transfer to the Replacement

Facility. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix – 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. As shown in Attachment – 12A, including the Existing Facility, there are currently 52 existing or approved dialysis facilities within 30 minutes normal travel time of the proposed location of the Replacement Facility. Importantly, the utilization of existing and approved clinics within 20 minutes normal travel time of the proposed site is 78.69% or approximately 1% below the State Board's utilization standard. Accordingly, there is insufficient capacity to accommodate all of Dr. Rydel's projected patients. With the expected growth in patient volume, the Existing Facility must relocate in order to have the capacity to expand in subsequent years. The Replacement Facility will be plumbed to accommodate up to 16 stations, which will allow for a future census capacity of 96 in-center ESRD patients.

There is no capital cost with the alternative of utilizing Existing Facilities. However, the Existing Facilities, in their present state, will not be able to accommodate the project growth in ESRD patients over the next 24 months.

#### Relocate Stony Creek Dialysis

DaVita determined that the most effective and efficient way to serve its patients and address the dialysis needs of HSA 7 is to relocate the existing facility. The proposed site for the Replacement Facility is located 1.29 miles from the current site, and will adequately serve Stony Creek Dialysis's current and projected patient-base.

Thus, the Applicants selected this option.

The cost associated with this option is **\$3,174,258**.

**Section IV, Project Scope, Utilization, and Unfinished/Shell Space  
Criterion 1110.234(a), Size of the Project**

The Applicants propose to relocate an existing dialysis facility. Pursuant to Section 1110, Appendix B of the HFSRB's rules, the State standard allows for a maximum of 4,320 to 6,240 gross square feet for 12 dialysis stations. The total gross square footage of the proposed dialysis facility is 7,733 gross square feet. The Replacement Facility exceeds the State standard by 1,493 GSF (approximately 124 GSF per station). However, the Replacement Facility is being plumbed for 16-stations in anticipation of projected need for dialysis in the area.

<b>Table 1110.234(a) SIZE OF PROJECT</b>				
<b>DEPARTMENT/SERVICE</b>	<b>PROPOSED BGSF/DGSF</b>	<b>STATE STANDARD</b>	<b>DIFFERENCE</b>	<b>MET STANDARD?</b>
<b>ESRD</b>	<b>7,733 GSF</b>	<b>6,240 GSF</b>	<b>1,493</b>	<b>EXCEEDS</b>

**Section IV, Project Scope, Utilization, and Unfinished/Shell Space**  
**Criterion 1110.234(b), Project Services Utilization**

By the second year of operation, the proposed facility's annual utilization will meet HFSRB's utilization standard of 80%. Pursuant to Section 1100.1430 of the HFSRB's rules, facilities providing in-center hemodialysis should operate their dialysis stations at or above an annual utilization rate of 80%, assuming three patient shifts per day per dialysis station, operating six days per week.

James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 65 current patients will transfer to the Replacement Facility. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix – 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 90 patients will receive treatment at the Replacement Facility within 24 months of project completion.

	<b>Dept./ Service</b>	<b>Historical Utilization (Treatments)</b>	<b>Projected Utilization</b>	<b>State Standard</b>	<b>Met Standard?</b>
<b>2011</b>	ESRD	9,907	N/A	8,986	Yes
<b>2012</b>	ESRD	10,268	N/A	8,986	Yes
<b>2013</b>	ESRD	10,108	N/A	8,986	Yes
<b>2014 Projected</b>	ESRD	N/A	9,892	8,986	Yes
<b>2015 Projected</b>	ESRD	N/A	<b>10,048</b>	8,986	Yes
<b>2016 Projected</b>	ESRD	N/A	<b>10,240</b>	8,986	Yes

**Section IV, Project Scope, Utilization, and Unfinished/Shell Space**  
**Criterion 1110.234(c), Unfinished or Shell Space**

This project will not include unfinished space designed to meet an anticipated future demand for service. Accordingly, this criterion is not applicable.

**Section IV, Project Scope, Utilization, and Unfinished/Shell Space**  
**Criterion 1110.234(d), Assurances**

This project will not include unfinished space designed to meet an anticipated future demand for service. Accordingly, this criterion is not applicable.

**Section VII, Service Specific Review Criteria  
In-Center Hemodialysis  
Criterion 1110.1430(b), Planning Area Need**

1. Planning Area Need

The Applicants propose to relocate its existing 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 1.29 miles, or 3 and one half minutes to 5433 West 95<sup>th</sup> Street, Oak Lawn, Illinois 60453. The Existing Facility is suboptimal for both patients and staff. There is a poorly functioning HVAC system, in addition to plumbing and flooring issues, creating safety concerns for patients, visitors, and staff. Additionally, the design and size of the Existing Facility creates operational and logistical inefficiencies and does not comply with DaVita's internal physical plant standards in terms of unobstructed sight lines to patients. The mechanical room and the server / computer room for at least three other medical businesses are housed within the walls of the Existing Facility creating potential patient privacy and infection control concerns. The parking lot is too congested for the number of medical facilities and the two handicapped spaces are not in front of the Existing Facility. The proposed relocation site will contain its own stand-alone building, housing only the utilities and services necessary to run Stony Creek Dialysis, in addition to having its own parking lot.

The site of the Replacement Facility is in a stand-alone building, approximately 1.29 miles away, with its own parking lot. Patient safety will be enhanced, as the larger patient transport vehicles will be able to get closer to the building during drop off and pick up. Patients who drive will have more overall access to parking spaces and handicapped spaces. The increased size of the relocation site will allow for a conference room, adequate hazardous waste area and restroom facilities, an enhanced water treatment room, proper storage for all medical and office supplies, and sightlines to all treating patients from the nursing station. Thus, the Applicants must relocate to a modern facility with enhanced accommodations and improved utilities to better provide for current and future ESRD patient needs and improve access.

James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 65 current patients will transfer to the Replacement Facility. See Appendix – 3. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix – 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 90 patients will receive treatment at the Replacement Facility within 24 months of project completion.

The relocation of Stony Creek Dialysis is necessary to meet the dialysis needs of these patients, and will allow for safer and more optimal treatment times for patients. See Appendix – 3.

2. Service to Planning Area Residents

The primary purpose is to ensure that the ESRD patient population of the greater Oak Lawn area has access to life sustaining dialysis. As evidenced in the physician referral letter attached at Appendix – 3, all 65 current patients are expected to transfer to the proposed facility and all 39 of his Stage 4 and 5 pre-ESRD patients live within 20 minutes of the proposed facility.

3. Service Demand – Establishment of In-Center Hemodialysis Service

James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 65 current patients will transfer to the Replacement Facility. See Appendix – 3. Furthermore, Dr. Purcell is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix – 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within

the next 12 to 24 months. Thus, approximately 90 patients will receive treatment at the Replacement Facility within 24 months of project completion.

4. Service Accessibility

As set forth throughout this application, the proposed relocation is needed to maintain access to life-sustaining dialysis for patients in the greater Oak Lawn area. The relocation is necessary to provide essential care to ESRD patients in the Oak Lawn community, as the Existing Facility is in need of repair and cannot adequately serve the patient needs. The Replacement Facility will better accommodate current and future demand for dialysis services and ensure dialysis services are accessible to residents of Oak Lawn.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(c), Unnecessary Duplication/Maldistribution**

1. Unnecessary Duplication

- a. The proposed dialysis facility will be located at 5433 West 95<sup>th</sup> Street, Oak Lawn, Illinois 60453. A map of the Stony Creek Dialysis market area is attached at Attachment – 26A. A list of all zip codes located, in total or in part, within 30 minutes normal travel time of the site of the proposed dialysis facility as well as 2010 census figures for each zip code is provided in Table 1110.1430(c)(1)(A) below.

<b>Table 1110.1430(c)(1)(A)</b>

- b. A list of existing and approved dialysis facilities located within 30 minutes normal travel time of the proposed dialysis facility is provided at Attachment – 26B.

2. Maldistribution of Services

The proposed dialysis facility will not result in a maldistribution of services. A maldistribution exists when an identified area has an excess supply of facilities, stations, and services characterized by such factors as, but not limited to: (1) ratio of stations to population exceeds one and one-half times the State Average; (2) historical utilization for existing facilities and services is below the State Board's utilization standard; or (3) insufficient population to provide the volume or caseload necessary to utilize the services proposed by the project at or above utilization standards. As discussed more fully below, the ratio of stations to population in the geographic service area is 136.1% of the State average, and the average utilization of existing dialysis facilities within the GSA is 70.94%. Importantly, average 3/31/2014 utilization of facilities within 20 minutes of the proposed relocation site was 78.69%. Sufficient population exists to achieve target utilization. Accordingly, the proposed dialysis facility will not result in a maldistribution of services.

a. Ratio of Stations to Population

As shown in Table 1110.1430(c)(2)(A), the ratio of stations to population is 136.1% of the State Average.

<b>Table 1110.1430(c)(2)(A)</b>				
<b>Ratio of Stations to Population</b>				
	<b>Population</b>	<b>Dialysis Stations</b>	<b>Stations to Population</b>	<b>Standard Met?</b>
Geographic Service Area	2,409,264	1,049	1:2,297	Yes
State	12,830,632	4,105	1:3,126	

b. Historic Utilization of Existing Facilities

As recently as April 30, 2014, the Existing Facility operated at 90.3% utilization. Following relocation to a more accessible modern space, Dr. Rydel anticipates that he will refer approximately 25 of the current pre-ESRD patients to the Replacement Facility within the first 12 to 24 months of project completion. As a result, the facility will continue to maintain target utilization within 24 months following project completion. Accordingly, there is sufficient patient population to justify the need for the Replacement Facility. There will be no maldistribution of services.

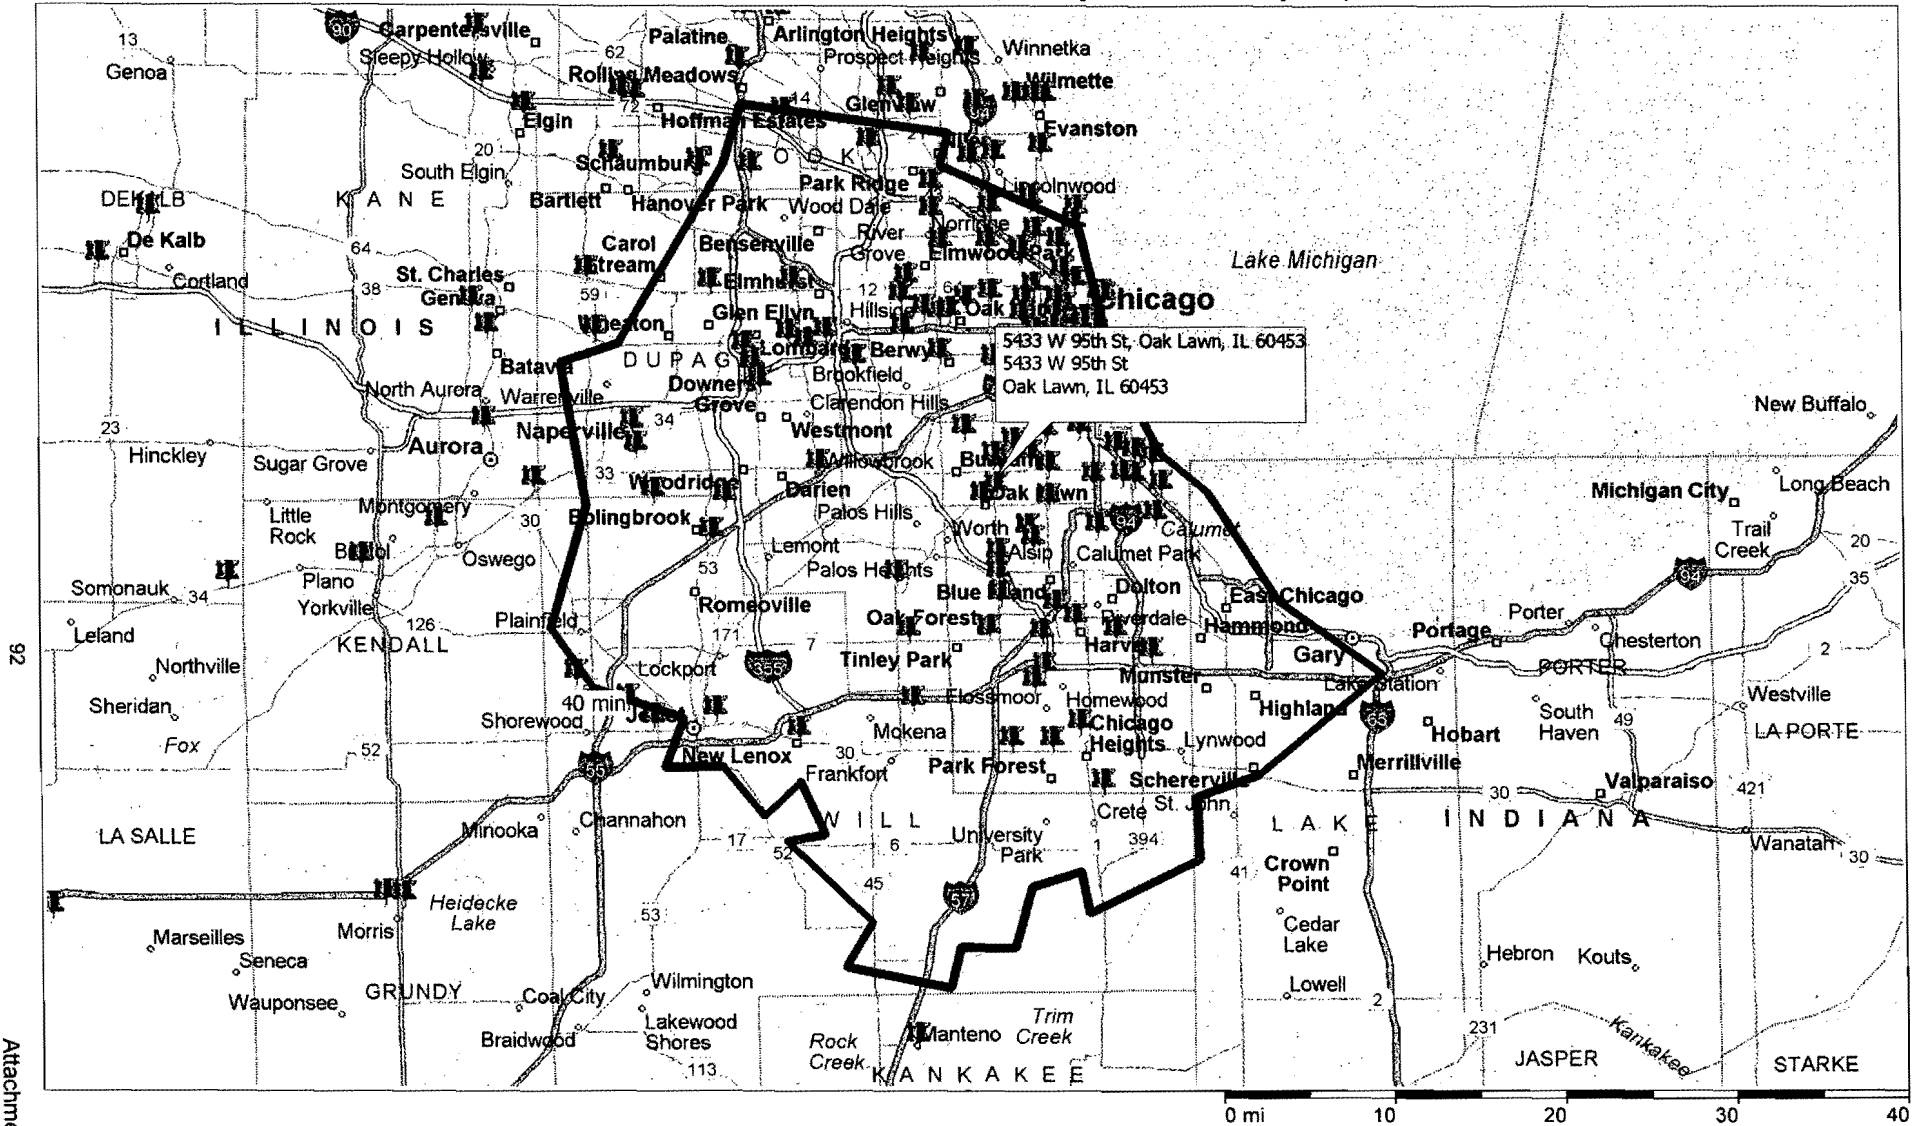

c. Sufficient Population to Achieve Target Utilization

The Applicants propose to discontinue their existing 12-station facility and establish a 12-station facility. The Existing Facility treated 65 patients, as of April 30, 2014. To achieve the State Board's 80% utilization standard for a 12-station facility, within the first two years after project completion, the Applicants would not need any additional patient referrals. (The Existing Facility already exceeds 80% utilization.) As stated in Appendix – 3, conservatively, Dr. Rydel anticipates referring 25 of the current pre-ESRD patients within 12 to 24 months of project completion. As the future referrals to Stony Creek Dialysis grow, the proposed dialysis facility will expand to accommodate the additional patients. Accordingly, there is sufficient population to achieve target occupancy.

3. Impact to Other Providers

- a. The proposed dialysis facility will not have an adverse impact on existing facilities in the proposed geographic service area. All of the identified patients will either be transfers from the Existing Facility or referrals of pre-ESRD patients. No patients will be transferred from other existing dialysis facilities.
- b. The proposed dialysis facility will not lower the utilization of other area providers that are operating below the occupancy standards.

# 5433 W 95th St, Oak Lawn, IL 60453 (Stony Creek Dialysis) 45 Min GSA

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(e), Staffing**

1. The proposed facility will be staffed in accordance with all State and Medicare staffing requirements.
  - a. Medical Director: James J. Rydel, M.D. will serve as the Medical Director for the proposed facility. A copy of Dr. Rydel's curriculum vitae is attached at Attachment – 26C.
  - b. As discussed throughout this application, the Applicants seek authority to discontinue their existing 12-station dialysis facility and establish and relocate to a 12-station dialysis facility. The Existing Facility is Medicare certified and fully staffed with a medical director, administrator, registered nurses, patient care technicians, social worker, and registered dietitian. Upon discontinuation of the Existing Facility, all current staff will be transferred to the Replacement Facility.
2. All staff will be trained under the direction of the facility's Governing Body, utilizing DaVita's comprehensive training program. DaVita's training program meets all State and Medicare requirements. The training program includes introduction to the dialysis machine, components of the hemodialysis system, infection control, anticoagulation, patient assessment/data collection, vascular access, kidney failure, documentation, complications of dialysis, laboratory draws, and miscellaneous testing devices used. In addition, it includes in-depth theory on the structure and function of the kidneys; including homeostasis, renal failure, ARF/CRF, uremia, osteodystrophy and anemia, principles of dialysis; components of hemodialysis system; water treatment; dialyzer reprocessing; hemodialysis treatment; fluid management; nutrition; laboratory; adequacy; pharmacology; patient education, and service excellence. A summary of the training program is attached at Attachment – 26D.
3. As set forth in the letter from Arturo Sida, Assistant Corporate Secretary of DaVita HealthCare Partners Inc., attached at Attachment – 26E, the Replacement Facility will maintain an open medical staff.

## PROGRAM DESCRIPTION

---

### Introduction to Program

The Hemodialysis Education and Training Program is grounded in DaVita's Core Values. These core values include a commitment to providing *service excellence*, promoting *integrity*, practicing a *team* approach, systematically striving for *continuous improvement*, practicing *accountability*, and experiencing *fulfillment* and *fun*.

The Hemodialysis Education and Training Program is designed to provide the new teammate with the necessary theoretical background and clinical skills necessary to function as a competent hemodialysis patient care provider.

DaVita hires both non-experienced and experienced teammates.

A **non-experienced teammate** is defined as:

- A newly hired patient care teammate without prior dialysis experience.
- A rehired patient care teammate who left prior to completing the initial training.

An **experienced teammate** is defined as:

- A newly hired patient care teammate with prior dialysis experience as evidenced by successful completion of a competency exam.
- A rehired patient care teammate who left and can show proof of completing their initial training.

The curriculum of the Hemodialysis Education and Training Program is modeled after the American Nephrology Nurses Association Core Curriculum for Nephrology Nursing and the Board of Nephrology Examiners Nursing and Technology guidelines.

The program incorporates the policies, procedures, and guidelines of DaVita Inc.

The new teammate will be provided with a "StarTracker". The "StarTracker" is a tool that will help guide the training process while tracking progress. The facility administrator and preceptor will review the Star Tracker to plan and organize the training and professional development of the new teammate. The Star Tracker will guide the new teammate through the initial phase of training and then through the remainder of their first year with DaVita, thus increasing their knowledge of all aspects of dialysis. It is designed to be used in conjunction with the "My Learning Plan Workbooks."

### Program Description

- The education program for the newly hired patient care provider teammate **without prior dialysis experience** is composed of at least (1) 120 hours didactic instruction and (2) 280 hours clinical practicum, unless otherwise specified by individual state regulations.

The **didactic phase** consists of instruction including but not limited to lectures, readings, self-study materials, on-line learning activities, specifically designed hemodialysis

workbooks for the teammate, demonstrations and observations. This education may be coordinated by the Clinical Services Specialist (CSS), the administrator, or the preceptor. This training includes introduction to the dialysis machine, components of the hemodialysis system, dialysis delivery system, principles of hemodialysis, infection control, anticoagulation, medications, patient assessment/data collection, vascular access, kidney failure, documentation, complications of dialysis, laboratory draws, and miscellaneous testing devices used, introduction to DaVita Policies and Procedures, and introduction to the Amgen Core Curriculum.

The **didactic phase** also includes classroom training with the Clinical Services Specialist, which covers more in-depth theory on structure and functions of the kidneys. This includes ARF/CRF, uremia, osteodystrophy and anemia, principles of dialysis, components of the hemodialysis system, water treatment, dialyzer reprocessing, hemodialysis treatment (which includes machine troubleshooting and patient complications), documentation, complication case studies, heparinization and anticoagulation, vascular access (which includes vascular access workshop), patient assessment (including workshop), fluid management with calculation workshop, nutrition, laboratory, adequacy, pharmacology, patient teaching/adult learning, service excellence (which includes professionalism, ethics and communications), role of the Social Worker and conflict resolution. Additional topics are included as per specific state regulations.

A final comprehensive examination score of  $\geq 80\%$  (unless state requires a higher score) must be obtained to successfully complete this portion of the didactic phase. If a score of less than 80% is attained, the teammate will receive additional appropriate remediation and a second exam will be given.

Also included in the **didactic phase** is additional classroom training covering Health and Safety Training, Systems/applications training on LMS, One For All orientation training in the facility or classroom, LMS Compliance training, LMS Diversity training, LMS mandatory water classes, emergency procedures specific to facility, location of disaster supplies, and orientation to the unit.

Included in the **didactic phase** for nurses is additional classroom training. The didactic phase includes:

- The role of the dialysis nurse
- Critical thinking
- Hepatitis review
- Vascular access assessment
- Pharmacology for nurses
- Outcomes management
- CKD MBD
- Anemia
- Adequacy of dialysis

- Lab results
- Village initiatives
- Fluid management
- Developing plan of care
- Survey readiness
- Patient assessment

The **clinical practicum phase** consists of supervised clinical instruction provided by the facility preceptor, a registered nurse, or the clinical services specialist (CSS). During this phase the teammate will demonstrate a progression of skills required to perform the hemodialysis procedures in a safe and effective manner. A *Procedural Skills Inventory Checklist* will be completed to the satisfaction of the preceptor and the administrator. The clinical hemodialysis workbooks will also be utilized for this training and must be completed to the satisfaction of the preceptor and the administrator.

Those teammates who will be responsible for the Water Treatment System within the facility are required to complete the Mandatory LMS Educational Water courses and the corresponding skills checklists.

Both the didactic phase and/or the clinical practicum phase will be successfully completed prior to the new teammate receiving an independent assignment. The new teammate is expected to attend all training sessions and complete all assignments and workbooks.

- The education program for the newly hired patient care provider teammate **with previous dialysis experience** is individually tailored based on the identified learning needs. The initial orientation to the *Health Prevention and Safety Training* will be successfully completed prior to the new teammate working/receiving training in the clinical area. The *Procedural Skills Inventory Checklist* including verification of review of applicable policies and procedures will be completed by the preceptor, a registered nurse, and/or the clinical services specialist (CSS) and the new teammate upon demonstration of an acceptable skill-level. The new teammate will also utilize the hemodialysis training workbook and progress at their own pace. This workbook should be completed within a timely manner as to also demonstrate acceptable skill-level.

The *Initial Competency Exam* will be completed; a score of  $\geq 80\%$  or higher is required prior to the new teammate receiving an independent patient-care assignment. If the new teammate receives a score of less than 80%, this teammate will receive theory instruction pertaining to the area of deficiency and a second competency exam will then be given. If the new teammate receives a score of less than 80% on the second exam, this teammate will be evaluated by the administrator, preceptor, and educator to determine if completion of formal training is appropriate.

Following completion of the training, a *Verification of Competency* form will be completed (see forms TR1-06-05, TR1-06-06). In addition to the above, further training and/or certification will be incorporated as applicable by state law.

Page 3 of 29

TR1-01-02

The goal of the program is for the trainee to successfully meet all training requirements. Failure to meet this goal is cause for dismissal from the training program and subsequent termination by the facility.

**Process of Program Evaluation**

The Hemodialysis Education Program utilizes various evaluation tools to verify program effectiveness and completeness. Key evaluation tools include the, DaVita Prep Class Evaluation (TR1-06-08), the New Teammate Satisfaction Survey on the LMS and random surveys of facility administrators to determine satisfaction of the training program. To assure continuous improvement within the education program, evaluation data is reviewed for trends, and program content is enhanced when applicable to meet specific needs.

**Program Content**

The programs content for the new patient care provider teammate without previous dialysis experience incorporates content related to the following areas.

**I. DaVita 101/DaVita Way**

**A. Behavioral objectives**

1. State our mission
3. Describe our six core values
4. Describe the DaVita Way
5. List the team members in their local village

**B. Content outline**

1. DaVita Village and additional services
2. Our mission
3. Our core values
  - a. Service excellence
  - b. Integrity
  - c. Team
  - d. Continuous improvement
  - e. Accountability
  - f. Fulfillment
  - g. Fun
4. DaVita Way of Communication
  - a. Our language
  - b. VillageWeb
  - c. DaVita Village Voice
  - d. Computer systems
5. Teammate resources
6. One For All
  - a. Process review

**II. Treatment Modalities**

**A. Behavioral objectives**

1. Name four treatment options for patients with renal failure

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(f), Support Services**

Attached at Attachment – 26E is a letter from Arturo Sida, Assistant Corporate Secretary of DaVita HealthCare Partners Inc. attesting that the proposed facility will participate in a dialysis data system, will make support services available to patients, and will provide training for self-care dialysis, self-care instruction, home and home-assisted dialysis, and home training.

Kathryn Olson  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761  
**Re: Certification of Support Services**

Dear Chairwoman Olson:

I hereby certify under penalty of perjury as provided in § 1-109 of the Illinois Code of Civil Procedure, 735 ILCS 5/1-109 and pursuant to 77 Ill. Admin. Code § 1110.1430(f) that Stony Creek Dialysis will maintain an open medical staff.

I also certify the following with regard to needed support services:

- DaVita utilizes an dialysis electronic data system;
- Stony Creek Dialysis will have available all needed support services required by CMS which may consist of clinical laboratory services, blood bank, nutrition, rehabilitation, psychiatric services, and social services; and
- Patients, either directly or through other area DaVita facilities, will have access to training for self-care dialysis, self-care instruction, and home hemodialysis and peritoneal dialysis.

Sincerely,

  
Arturo Sida  
Assistant Corporate Secretary  
DaVita HealthCare Partners Inc.

State of California  
County of Los Angeles

On March 28, 2014 before me, Kimberly Ann K. Burgo, Notary Public, personally appeared \*\*\* Arturo Sida \*\*\* who proved to me on the basis of satisfactory evidence to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same in his authorized capacity, and that by his signature on the instrument the person, or the entity upon behalf of which the person acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

Signature

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(g), Minimum Number of Stations**

The proposed dialysis facility will be located in the Chicago-Joliet-Naperville metropolitan statistical area ("MSA"). A dialysis facility located within an MSA must have a minimum of eight dialysis stations. The Applicants propose to establish a 12-station dialysis facility. Accordingly, this criterion is met.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(h), Continuity of Care**

DaVita HealthCare Partners Inc. has an agreement with Advocate Health and Hospitals Corporation d/b/a Advocate Christ Medical Center to provide inpatient care and other hospital services. Attached at Attachment – 26F is a copy of the service agreement with this area hospital.

**TRANSFER AGREEMENT  
BETWEEN  
ADVOCATE HEALTH AND HOSPITALS CORPORATION  
d/b/a ADVOCATE CHRIST MEDICAL CENTER  
AND  
STONY CREEK DIALYSIS CENTER**

---

This Agreement is made and effective as of the 19th day of June, 2006, between Advocate Health and Hospitals Corporation d/b/a Advocate Christ Medical Center, an Illinois not-for-profit corporation ("MEDICAL CENTER"), and Stony Creek Dialysis Center, DaVita, Inc., a for-profit corporation ("FACILITY").

**WHEREAS**, both parties to this agreement desire to assure continuity of care and treatment appropriate to the needs of each patient in the MEDICAL CENTER and the FACILITY, and to use the skills, resources, and physical plant for patient care at both the acute and post-acute stages of illness.

**NOW, THEREFORE, IN CONSIDERATION** of the mutual advantage occurring to the parties hereto, the MEDICAL CENTER and FACILITY hereby covenant and agree with each other as follows:

1. **Autonomy.** The Board of Directors of the MEDICAL CENTER and the Board of Directors of the FACILITY shall continue to have exclusive control of the management, assets and affairs of their institutions, and neither party by virtue of this Agreement shall assume any liability for any debts or obligations which have been or which may be incurred by the other party to this Agreement.
2. **Transfer of Patients.** Whenever the attending physician of any patient confined in the MEDICAL CENTER or in the FACILITY shall determine that a transfer of such patient from one of these institutions to the other is medically appropriate, the parties shall take whatever steps may be necessary to effect such a transfer in their admissions policies to patients requiring such transfer, subject to availability of bed space, and provided that all the usual conditions for admission are met. Each party shall give notice to the other party, as far in advance as possible, of responsibility of the institution and attending physician initiating transfer to arrange for appropriate and safe transportation. Further, it shall be their responsibility for arranging for the care of the patient during transfer. These responsibilities will cease when the patient has been physically admitted at the designation designated.
3. **Medical Center Admissions Priority.** In establishing its preference in admission policies for patients subject to transfer from the FACILITY in accordance with Article II, the MEDICAL CENTER shall be guided by its usual admission requirements.

In accordance with criteria for admission:

- A. Patients declared as emergencies by their attending physicians shall be admitted to the MEDICAL CENTER without delay, unless the MEDICAL CENTER is on emergency bypass and has notified applicable agencies of such.
- B. Patients not strictly emergent, but requiring early admission to the MEDICAL CENTER shall be placed on the MEDICAL CENTER's urgent list.
- C. Elective cases shall be booked for future admission to the MEDICAL CENTER, according to the established routine of the MEDICAL CENTER.

4. Facility Admissions Priority. In establishing its preference in admission policies for patients subject to transfer from the MEDICAL CENTER in accordance with Article II, the FACILITY shall be guided by the following plan:

- A. To admit the patient from the MEDICAL CENTER as promptly as possible, provided general admission requirements established by the institution are met.
- B. To give priority to re-admission of patients transferred from the FACILITY to the MEDICAL CENTER.
- C. To accommodate weekend admissions, provided general admission requirements of the FACILITY are met

5. Interchange of Information. The parties shall interchange all pertinent medical records and other information which may be necessary or useful in the care and treatment of patients transferred between the parties or which may be relevant to determining whether such parties can be adequately cared for otherwise than in either the MEDICAL CENTER or FACILITY. All such information shall be provided by the transferring institution in advance, where possible, and in any event at the time of the transfer, and shall be recorded on a referral form which shall be mutually agreed upon by the parties.

6. Transfer of Personal Effects. Procedures for effecting the transfer of patients and their personal effects and valuables shall be developed and adhered to by both parties. These procedures will include, but are not limited to, the provision of information concerning such valuables, money, and personal effects transferred with the patient so that a receipt may be given and received for same. The patient's personal effects will ordinarily be transferred with the patient. The transferring institution will assume responsibility for those personal effects transferred with the patient.

7. Final Financial Arrangements. Charges for services performed by either party for patients transferred from the other party pursuant to this Agreement shall be collected by the party rendering such services directly from the patient, third party payors or from other sources normally billed. Neither party shall have any liability to the other for such charges, except to the extent that such liability would exist separate and apart from the Agreement. Nor shall either party receiving a transferred patient be responsible for collecting any previously outstanding account receivable due the other party from such patient.

8. Insurance. Each party shall maintain professional and public liability insurance coverage in the amount of One Million Dollars (\$1,000,000.000) per occurrence or claim made with respect to the actions of its employees and agents connected with or arising out of services provided under this Agreement.

9. Independent Contractor. Nothing contained in this Agreement shall constitute or be construed to create a partnership, joint venture, employment, or agency relationship between the parties and/or their respective successors and assigns, it being mutually understood and agreed that the parties shall provide the services and fulfill the obligations hereunder as independent contractors. Further, it is mutually understood and agreed that nothing in this Agreement shall in any way affect the independent operation of either the MEDICAL CENTER or the FACILITY. The governing body of the MEDICAL CENTER and the FACILITY shall have exclusive control of the management, assets, and affairs at their respective institutions. No party by virtue of this Agreement shall assume any liability for any debts or obligations of a financial or legal nature incurred by the other, and neither institution shall look to the other to pay for service rendered to a patient transferred by virtue of this Agreement.

10. Nondiscrimination. The parties agree to comply with Title VI of the Civil Rights Act of 1964, all requirements imposed by regulations issued pursuant to that title, section 504 of the Rehabilitation Act of 1973, and all related regulations, to insure that neither party shall discriminate against any recipient of services hereunder on the basis of race, color, sex, creed, national origin, age or handicap, under any program or activity receiving Federal financial assistance.

11. Term and Termination. This Agreement shall commence on June 19, 2006, and shall automatically be renewed annually for one year periods unless terminated according to this Section 10. This Agreement may be terminated by either party at any time upon the giving of at least sixty (60) day's prior written notice. Notwithstanding any notice which may have been given, however, this Agreement shall be automatically terminated whenever either party shall have its license to operate revoked, suspended or non-renewed.

12. Notices. All notices required to be served under this Agreement may be served on any of the parties hereto personally or may be served by sending a letter duly addressed by registered or certified mail. Notices to be served on the MEDICAL CENTER shall be served at or mailed to: Advocate Christ Medical Center, attention President, at 4440 West 95<sup>th</sup> Street, Oak Lawn, Illinois 60453 with a copy to Chief Legal Officer, Advocate Health and Hospitals Corporation at 2025 Windsor Drive, Oak Brook, Illinois 60521. Notices to be served on FACILITY shall be

served at or mailed to: Stony Creek Dialysis Center, attention Facility Administrator, at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453, unless otherwise instructed.

13. Advertising and Publicity. Neither party shall use the name of the other party in any promotional or advertising material unless review and approval of those intended use shall be first be obtained from the party whose name is to be used.

14. Nonexclusive Clause. Nothing in this Agreement shall be construed as limiting the right of either party to affiliate or contract with any other MEDICAL CENTER or FACILITY, or either a limited or general basis, while this Agreement is in effect.

15. Amendment. This Agreement may be amended, modified, or supplemented by agreement of both parties, but no such modification, amendment, or supplement shall be binding on either party unless and until the same is attached hereto in writing and signed by authorized officials of both parties.

16. Governing Law. All questions concerning the validity or construction of this Agreement shall be determined in accordance with the laws of Illinois.

||| **IN WITNESS WHEREOF**, this Agreement has been executed by the MEDICAL CENTER and the FACILITY on the date first written above.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(i), Relocation of Facilities**

The Existing Facility is suboptimal for patients and staff, and in need of repair. Multiple physical plant upgrades are needed to plumbing, HVAC, and flooring. The patients do not have access to a clean sink on the treatment floor and need to rely on the use of alcohol wipes to clean their vascular access site. The RN station is too small to adequately prep medications. The water treatment room is outdated and in need of a complete overhaul.

Further, the Existing Facility shares a parking lot with an MRI clinic, a pregnancy counseling center, and a physician's office. A limited number of handicapped parking spaces (2) are frequently unavailable for patients. Additionally, these handicapped spaces are centrally located in parking lot and not proximately located to the dialysis unit. Accordingly, when handicapped are available, patients must walk and excessive distances from their cars to the dialysis facility, which poses additional safety risks. These patients are often elderly, suffer multiple co-morbidities and/or rely on assistive devices. While some safety risks cannot be avoided during winter or periods of inclement weather, these risks can be minimized to reducing the length patients must walk from their cars to the dialysis center.

The configuration of the parking lot also prohibits larger patient transport vehicles (vans) from dropping patients off and picking them up at the entrance to the dialysis unit. The drivers of these vehicles often are ticketed by the Oak Lawn police for parking on Cicero Avenue, while they escort patients to and from treatment. There is also no delivery zone for drivers that deliver supplies to the facility. Drivers either park near the front door of the facility, blocking the entrance / exit to the parking lot and creating an even greater issue during times of emergency, or they end up parking ½ block away and make multiple trips to cart in deliveries from the street.

Additionally, the design and size of the Existing Facility creates operational and logistical inefficiencies. The Existing Facility houses 12 dialysis stations in approximately 4,000 GSF, or 333.3 GSF per station, which is below the Board's minimum standard for in-center hemodialysis stations. As a result, the space is inadequate to store medical supplies, office supplies, and biohazard waste. The facility has no dedicated conference room. The lobby/patient seating area is too small by DaVita standards to appropriately accommodate patients in a 12-station dialysis unit. The mechanical room and the computer/server room for all of the neighboring medical businesses are housed inside the Existing Facility. There is no way to access the server/computer room without going through the treatment floor, creating a potential infection control concern. Additionally, the patient treatment floor configuration prohibits the viewing of all patients from the nursing station, resulting in an overall concern for patient safety based on inadequate sight-lines. This issue is discussed further in the Purpose of the Project narrative.

The site of the Replacement Facility is in a stand-alone building, approximately 1.29 miles away, with its own parking lot. Patient safety will be enhanced, as the larger patient transport vehicles will be able to get closer to the building during drop off and pick up. Patients who drive will have more overall access to parking spaces and handicapped spaces. The increased size of the Replacement Facility will allow for a conference room, adequate hazardous waste area and restroom facilities, an enhanced water treatment room, proper storage for all medical and office supplies, and sightlines to all patients on the treatment floor from the nursing station. Thus, the Applicants must relocate to a modern facility with enhanced accommodations and improved utilities to better provide for current and future ESRD patient needs.

**Section VII, Service Specific Review Criteria**  
**In-Center Hemodialysis**  
**Criterion 1110.1430(j), Assurances**

Attached at Attachment – 26G is a letter from Arturo Sida, Assistant Corporate Secretary of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. certifying that the proposed facility will achieve target utilization by the second year of operation

Kathryn Olson  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

**Re: In-Center Hemodialysis Assurances**

Dear Chairwoman Olson:

Pursuant to 77 Ill. Admin. Code § 1110.1430(j), I hereby certify the following:

- By the second year after project completion, Stony Creek Dialysis expects to achieve and maintain 80% target utilization; and
- Stony Creek Dialysis also expects hemodialysis outcome measures will be achieved and maintained at the following minimums:
  - ≥ 85% of hemodialysis patient population achieves urea reduction ratio (URR) ≥ 65% and
  - ≥ 85% of hemodialysis patient population achieves Kt/V Daugirdas II .1.2

Sincerely,

  
Arturo Sida  
Assistant Corporate Secretary  
DaVita HealthCare Partners Inc.

**Section VIII, Financial Feasibility**  
**Criterion 1120.120 Availability of Funds**

The project will be funded entirely with cash and cash equivalents, and a lease with EHB Leasing, Inc. (as agent for owner Eva Buziecki Trust). A copy of DaVita's 2013 10-K Statement evidencing sufficient internal resources to fund the project was previously submitted with application 14-016.

**Section IX, Financial Feasibility**  
**Criterion 1120.130 – Financial Viability Waiver**

The project will be funded entirely with cash. A copy of DaVita's 2013 10-K Statement evidencing sufficient internal resources to fund the project was previously submitted with application 14-016.

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.140(a), Reasonableness of Financing Arrangements**

Attached at Attachment – 39A is a letter from Arturo Sida, Assistant Corporate Secretary of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. attesting that the total estimated project costs will be funded entirely with cash and cash equivalents.

Kathryn Olson  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2nd Floor  
Springfield, Illinois 62761

**Re: Reasonableness of Financing Arrangements**

Dear Chairwoman Olson:

I hereby certify under penalty of perjury as provided in § 1-109 of the Illinois Code of Civil Procedure, 735 ILCS 5/1-109 and pursuant to 77 Ill. Admin. Code § 1120.140(a) that the total estimated project costs and related costs will be funded in total with cash and cash equivalents.

Sincerely,

  
Arturo Sida  
Assistant Corporate Secretary  
DaVita HealthCare Partners Inc.

State of California  
County of Los Angeles

On March 28, 2014 before me, Kimberly Ann K. Burgo, Notary Public, personally appeared \*\*\* Arturo Sida \*\*\* who proved to me on the basis of satisfactory evidence to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same in his authorized capacity, and that by his signature on the instrument the person, or the entity upon behalf of which the person acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

Signature 

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.140(b), Conditions of Debt Financing**

This project will be funded in total with cash and cash equivalents. Accordingly, this criterion is not applicable.

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.310(c), Reasonableness of Project and Related Costs**

1. The Cost and Gross Square Feet by Department is provided in the table below.

Table 1120.310(c)									
COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New Mod.		Gross Sq. Ft. New Circ.*		Gross Sq. Ft. Mod. Circ.*		Const. \$ (A x C)	Mod. \$ (B x E)	
ESRD		\$160.00			7,733			\$1,237,280	\$1,237,280
Contingency		\$18.10			7,733			\$140,000	\$140,000
<b>TOTALS</b>		<b>\$178.10</b>			<b>7,733</b>			<b>\$1,377,280</b>	<b>\$1,377,280</b>

\* Include the percentage (%) of space for circulation

2. As shown in Table 1120.310(c) below, the project costs are below the State Standard.

Table 1120.310(c)			
	Proposed Project	State Standard	Above/Below State Standard
Site Preparation	\$68,000	5% of Construction and Contingency Costs = 5% x (\$1,237,280 + \$140,000) = 5% x \$1,377,280 = \$68,864	Below State Standard
Modernization Contracts and Contingencies	\$1,377,280	\$178.33 per gross square foot x 7,733 gross square feet = \$1,379,026	Meets State Standard
Contingencies	\$140,000	10% -15% of Modernization Construction Costs = 10% -15% x \$1,237,280 = \$123,728 - \$185,592	Meets State Standard
Architectural/Engineering Fees	\$138,464	6.76% - 10.16% x (Construction Costs + Contingencies) = 6.76% - 10.16% x (\$1,237,280 + 140,000) = 6.76% - 10.16% x \$1,377,280 = \$93,104 - \$139,931	Meets State Standard
Consulting and Other Fees	\$78,000	No State Standard	No State Standard
Moveable Equipment	\$475,012	\$39,945 per station \$39,945 x 12 = \$479,340	Meets State Standard

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.310(d), Projected Operating Costs**

Operating Expenses: \$2,438,786

Treatments: 10,240

Operating Expense per Treatment: \$238.16

**Section X, Economic Feasibility Review Criteria**  
**Criterion 1120.310(e), Total Effect of Project on Capital Costs**

Capital Costs

Depreciation:	\$161,537
Amortization:	\$9,476
Total Capital Costs:	\$171,013

Treatments: 10,240

Capital Costs per Treatment: \$16.70

**Section XI. Safety Net Impact Statement**

1. This criterion is required for all substantive and discontinuation projects. DaVita HealthCare Partners Inc. and its affiliates are safety net providers of dialysis services to residents of the State of Illinois. DaVita is a leading provider of dialysis services in the United States and is committed to innovation, improving clinical outcomes, compassionate care, education and Kidney Smarting patients, and community outreach. A copy of DaVita's 2013 Community Care report, which details DaVita's commitment to quality, patient centric focus and community outreach, is attached as Attachment – 11A. DaVita has taken on many initiatives to improve the lives of patients suffering from CKD and ESRD. These programs include the Kidney Smart, IMPACT, CathAway, and transplant assistance programs. Furthermore, DaVita is an industry leader in the rate of fistula use and had the lowest day-90 catheter rates among large dialysis providers in 2013. Its commitment to improving clinical outcomes directly translated into 7% reduction in hospitalizations among DaVita patients. DaVita has improved clinical outcomes each year since 2000, generating an estimated \$204M in net savings to the American healthcare system in 2013.

The proposed project will not impact the ability of other health care providers or health care systems to cross-subsidize safety net services. As shown in Table 1110.1430(b), average utilization at existing dialysis facilities within 30 minutes normal travel time of the Replacement Facility is currently 70.94%. However, average 3/31/2014 utilization within 20 minutes normal travel time was 78.69%. Dr. Rydel anticipates all 65 current patients will transfer to the Replacement Facility. Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 90 patients will receive treatment at the Replacement Facility within 24 months of project completion.

2. The Existing Facility already has a 90.3% utilization rate, which is above the State's 80% standard. As such, the proposed facility is necessary to accommodate the growing demand for dialysis services, as it will allow for future expansion. Accordingly, the proposed dialysis facility will not impact other general health care providers' ability to cross-subsidize safety net services.
3. The proposed project is for the relocation of Stony Creek Dialysis just 1.29 miles from its current location. Patients currently treated at Stony Creek Dialysis will receive treatment at the new facility. As such, the discontinuation of service at the current location will not negatively impact the safety net.

<b>Safety Net Information per PA 96-0031</b>			
<b>CHARITY CARE</b>			
	<b>2011</b>	<b>2012</b>	<b>2013</b>
<b>Charity (# of patients)</b>	96	152	187
<b>Charity (cost in dollars)</b>	\$830,580	\$1,199,657	\$2,175,940
<b>MEDICAID</b>			
	<b>2011</b>	<b>2012</b>	<b>2013</b>
<b>Medicaid (# of patients)</b>	729	651	679
<b>Medicaid (revenue)</b>	\$14,585,645	\$11,387,229	\$10,371,416

**Section XII, Charity Care Information**

The table below provides charity care information for all dialysis facilities located in the State of Illinois that are owned or operated by the Applicants.

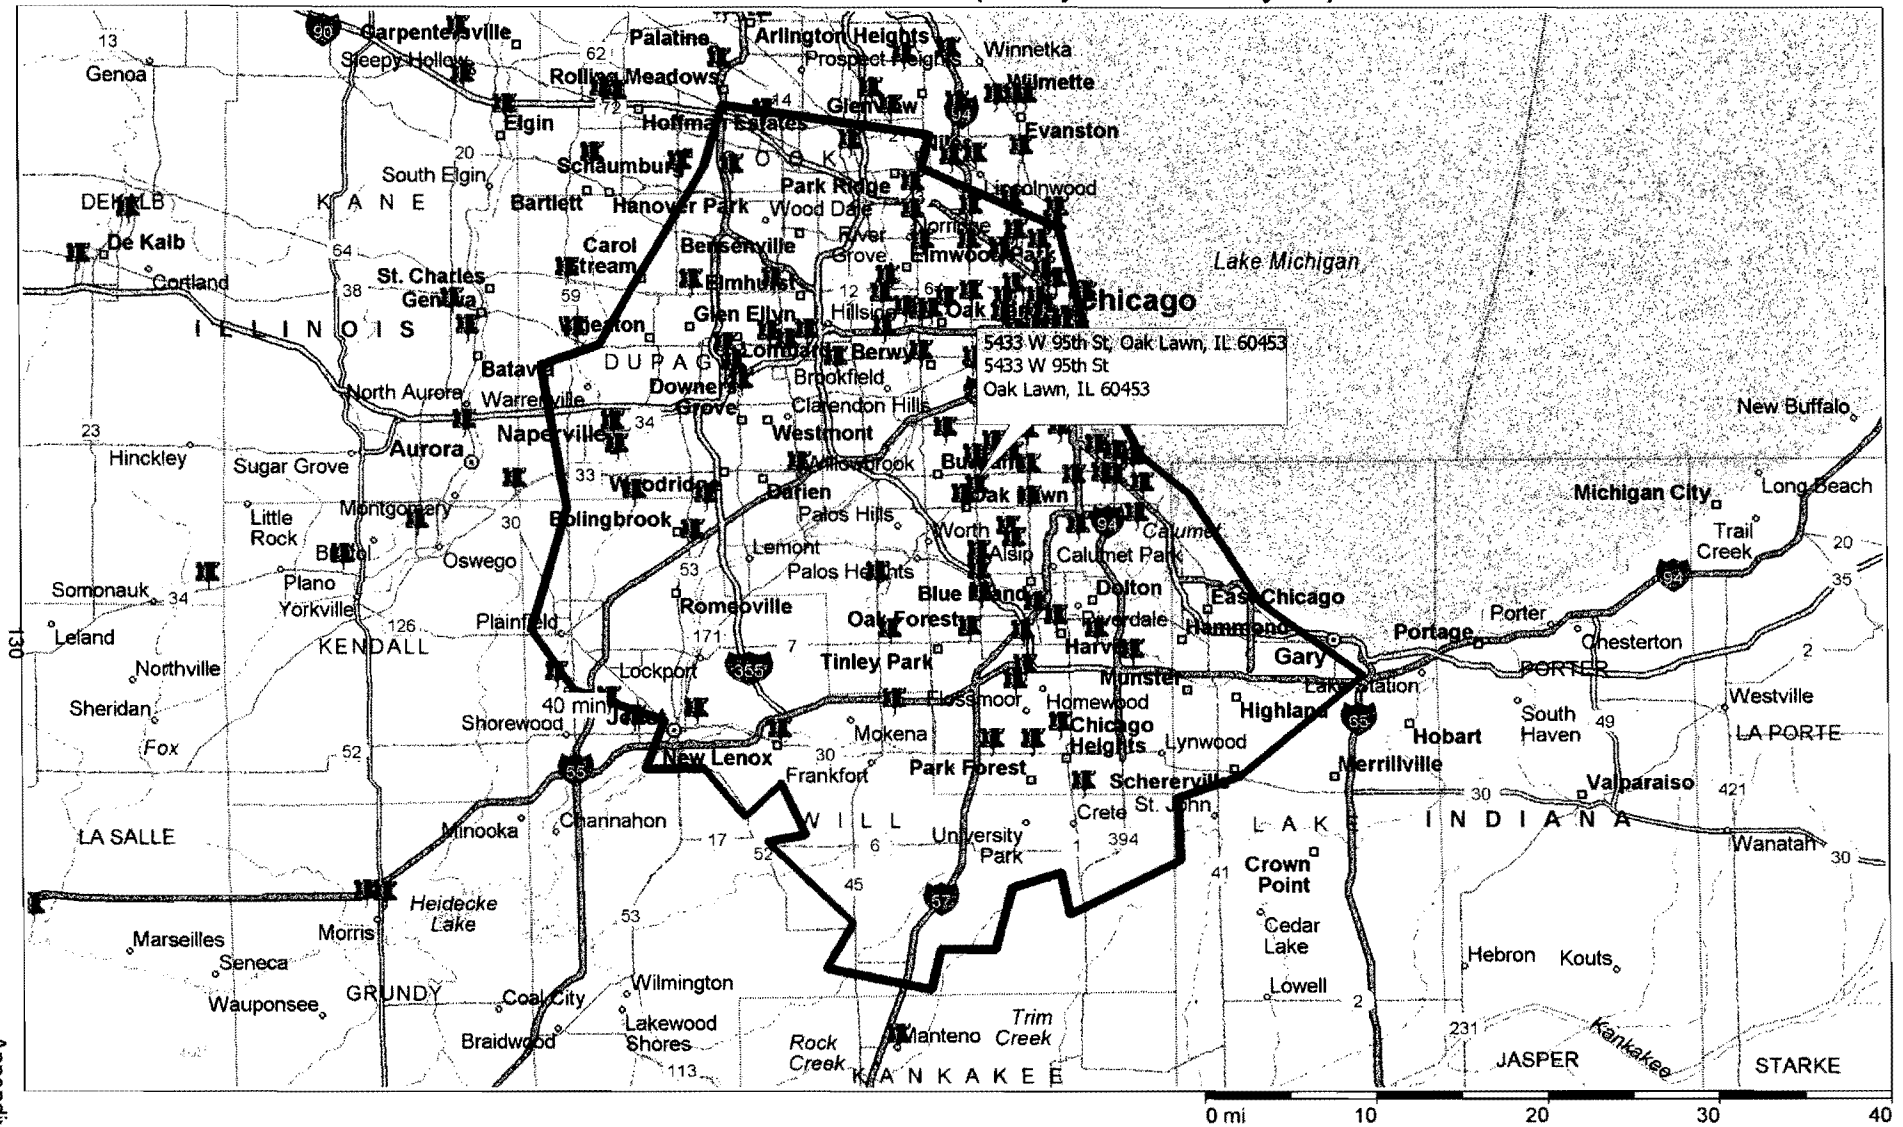

<b>CHARITY CARE</b>			
	<b>2011</b>	<b>2012</b>	<b>2013</b>
<b>Net Patient Revenue</b>	<b>\$219,396,657</b>	<b>\$228,403,979</b>	<b>\$244,115,132</b>
Amount of Charity Care (charges)	\$830,580	\$1,199,657	\$2,175,940
Cost of Charity Care	\$830,580	\$1,199,657	\$2,175,940

**Appendix 1 – Time & Distance Determination: Discontinuation**

Attached as Appendix I is the list of all existing facilities within 45 minutes normal travel time from the Existing Facility as determined by MapQuest.

**FEDERAL EXPRESS**

Ms. Lori Wright  
Senior CON Specialist  
Fresenius Medical Care  
West Division – Midwest Group  
3500 Lacey Road  
Downers Grove, IL 60615

Ms. Wright:

I am writing on behalf of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. to inform you of the proposed relocation of Stony Creek Dialysis, a 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 (the “Existing Facility”). DaVita plans to relocate the Existing Facility to a nearby location. The 59 Fresenius facilities listed in the attached spreadsheet are all within 45 minutes travel time of the Existing Facility.

The estimated date of discontinuation and relocation is approximately February 29, 2016.

Over the past two years, the facility has served between 63 and 72 end-stage renal disease patients at any given time and the census at the end of April 2014 was 65. We expect all existing patients of the Existing Facility will be transferred to the replacement facility.

While we do not anticipate the project will impact access to care for residents of the area or area health care facilities because we will accommodate the Stony Creek Dialysis patient base at another nearby location, the Illinois Health Facilities and Services Review Board requires us to inform you of these plans to provide you an option to provide impact statements from your facilities.

If you choose to provide such a response, please detail whether your individual facility’s admissions policies place any restrictions or limitations on providing service to residents of the market area and your capacity by shift. Please send any such response within fifteen days of receipt of this letter to Tim Tincknell, DaVita HealthCare Partners Inc., 1333 North Kingsbury Street, Suite 305, Chicago, Illinois 60642. If we do not receive a response from you within fifteen days, it will be assumed that you agree that the relocation of the Existing Facility will not affect your facility.

If you have any questions about DaVita's plans to relocate the facility, please feel free to contact me at [timothy.tincknell@davita.com](mailto:timothy.tincknell@davita.com) or 312-649-9289.

---

Sincerely,

A handwritten signature in black ink, appearing to read 'Tim Tincknell', with a stylized, cursive script.

Tim Tincknell

On behalf of

DaVita HealthCare Partners Inc.  
Renal Life Link, Inc.

Bolingbrook, IL 60440

To Whom It May Concern:

I am writing on behalf of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. to inform you of the proposed relocation of Stony Creek Dialysis, a 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility"). DaVita plans to relocate the Existing Facility to a nearby location. Your facility is within 45 minutes travel time of the Existing Facility.

The estimated date of discontinuation and relocation is approximately February 29, 2016.

Over the past two years, the facility has served between 63 and 72 end-stage renal disease patients at any given time and the census at the end of April 2014 was 65. We expect all existing patients of the Existing Facility will be transferred to the replacement facility.

While we do not anticipate the project will impact access to care for residents of the area or area health care facilities because we will accommodate the Stony Creek Dialysis patient base at another nearby location, the Illinois Health Facilities and Services Review Board requires us to inform you of these plans to provide you an option to provide an impact statement from your facility.

If you choose to provide such a response, please detail whether your facility's admissions policies place any restrictions or limitations on providing service to residents of the market area and your capacity by shift. Please send any such response within fifteen days of receipt of this letter to Tim Tincknell, DaVita HealthCare Partners Inc., 1333 North Kingsbury Street, Suite 305, Chicago, Illinois 60642. If we do not receive a response from you within fifteen days, it will be assumed that you agree that the relocation of the Existing Facility will not affect your facility.

If you have any questions about DaVita's plans to relocate the facility, please feel free to contact me at [timothy.tincknell@davita.com](mailto:timothy.tincknell@davita.com) or 312-649-9289.

Sincerely,

---

Tim Tincknell

On behalf of

DaVita HealthCare Partners Inc.  
Renal Life Link, Inc.

**After printing this label:**

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

**Warning:** Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number. Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on [fedex.com](http://fedex.com). FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number. Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

**After printing this label:**

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

**Warning:** Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on [fedex.com](http://fedex.com). FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

**Appendix 3 – Physician Referral Letter**

Attached as Appendix 3 is the physician referral letter from Dr. James Rydel confirming all 65 current ESRD patients with transfer to the Replacement Facility and projecting 25 pre-ESRD patients will be referred to Stony Creek Dialysis within the next 12 to 24 months.

---

James J. Rydel, M.D.  
J.R. Nephrology & Associates, P.C.  
4542 W. 95<sup>th</sup> Street  
Oak Lawn, Illinois 60453

Kathryn J. Olson  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2<sup>nd</sup> Floor  
Springfield, Illinois 62761

Dear Chair Olson:

I am pleased to support DaVita's relocation of Stony Creek Dialysis. The proposed 12-station chronic renal dialysis facility, to be located at 5433 West 95<sup>th</sup> Street, Oak Lawn, IL 60453, will directly benefit my patients.

DaVita's proposed facility will improve access to necessary dialysis services in the Oak Lawn community. DaVita is well-positioned to provide these services, as it delivers life sustaining dialysis for residents of similar communities throughout the country and abroad. It has also invested in many quality initiatives to improve its patients' health and outcomes.

The site of the proposed replacement facility is located approximately 5 minutes from the existing facility and will provide better access to my patients. According to March 31, 2014 reported census data, utilization of facilities within 20 minutes of the proposed facility was 78.7%, which is just below the State Board's utilization standard..

I have identified 39 patients from my practice who are suffering from Stage 4 or 5 CKD, who all reside within an approximate 20 minute commute of the proposed facility. Conservatively, I predict at least 25 of these patients will progress to dialysis within the next 12 to 24 months. My large patient base, the significant utilization at nearby facilities, and the present 86-station need identified in Health Service Area 7 demonstrate considerable demand for this facility.

Stony Creek Dialysis is currently treating 65 ESRD patients as of April 30, 2014 for a utilization rate of 90.3%. All of the patients at the existing facility are expected to transfer to the new facility. A list of patients who have received care at existing facilities in the area over the past 4 years is provided at Attachment – 1. A list of new patients my practice has referred for in-center hemodialysis for the past 2 years is provided at Attachment – 2. The list of zip codes for the 39 pre-ESRD patients previously referenced is provided at Attachment – 3.

These patient referrals have not been used to support another pending or approved certificate of need application. The information in this letter is true and correct to the best of my knowledge.

DaVita is a leading provider of dialysis services in the United States, and I support the proposed relocation of Stony Creek Dialysis.

---

Sincerely,

*James J. Rydel MD*

James J. Rydel, M.D.

Nephrologist

J.R. Nephrology & Associates, P.C.
