

ILLINOIS HEALTH FACILITIES AND SERVICES REVIEW BOARD
APPLICATION FOR PERMIT14-033
ORIGINAL**RECEIVED****SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION****This Section must be completed for all projects.**

JUL 18 2014

Facility/Project IdentificationHEALTH FACILITIES &
SERVICES REVIEW BOARD

Facility Name: Hauser Ross Eye Institute Ambulatory Surgery Center			
Street Address: See attached Property Description – Attachment 1			
City and Zip Code: DeKalb, Illinois			
County: DeKalb	Health Service Area	1	Health Planning Area: B-04

Applicant /Co-Applicant Identification**[Provide for each co-applicant [refer to Part 1130.220].**

Exact Legal Name: DeKalb Surgical Services, LLC d/b/a Hauser Ross Eye Institute Ambulatory Surgery Center	
Address: Hauser Ross Eye Institute, 2240 Gateway Drive, Sycamore, IL 60178	
Name of Registered Agent: Ahmed Abdelsalam, M.D.	
Name of Chief Executive Officer: Ahmed Abdelsalam, M.D.	
CEO Address: Hauser Ross Eye Institute, 2240 Gateway Drive, Sycamore, IL 60178	
Telephone Number: 815-756-8571 X424	

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/> Non-profit Corporation	<input type="checkbox"/> Partnership
<input type="checkbox"/> For-profit Corporation	<input type="checkbox"/> Governmental
<input checked="" type="checkbox"/> Limited Liability Company	<input type="checkbox"/> Sole Proprietorship <input type="checkbox"/> Other
<ul style="list-style-type: none">Corporations and limited liability companies must provide an Illinois certificate of good standing.Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.	
APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.	

Primary Contact**[Person to receive ALL correspondence or inquiries]**

Name: Clare Connor Ranalli
Title: Partner
Company Name: McDermott Will & Emery
Address: 227 West Monroe Street, Chicago, IL 60606
Telephone Number: 312-984-3365
E-mail Address: cranalli@mwe.com
Fax Number: 312-277-2964

Additional Contact**[Person who is also authorized to discuss the application for permit]**

Name: Ahmed Abdelsalam, M.D.
Title: Manager
Company Name: DeKalb Surgical Services, LLC
Address: 2240 Gateway Drive, Sycamore, IL 60178
Telephone Number: 815-756-8571 X424

Fax Number:

Site Ownership

[Provide this information for each applicable site]

Exact Legal Name of Site Owner: SASS Real Property Investments, LLC
Address of Site Owner: 1740 N. Mohawk, Chicago, IL 60614
Street Address or Legal Description of Site: Gateway Drive, Between Dosen Drive and Klein Road, Sycamore, Illinois
Proof of ownership or control of the site is to be provided as Attachment 2. Examples of proof of ownership are property tax statement, tax assessor's documentation, deed, notarized statement of the corporation attesting to ownership, an option to lease, a letter of intent to lease or a lease.
APPEND DOCUMENTATION AS <u>ATTACHMENT-2</u> , IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Operating Identity/Licensee

[Provide this information for each applicable facility, and insert after this page.]

Exact Legal Name:	
Address:	
<input type="checkbox"/> Non-profit Corporation <input type="checkbox"/> For-profit Corporation <input checked="" type="checkbox"/> Limited Liability Company	<input type="checkbox"/> Partnership <input type="checkbox"/> Governmental <input type="checkbox"/> Sole Proprietorship
<input type="checkbox"/> Other	
<ul style="list-style-type: none"> o Corporations and limited liability companies must provide an Illinois Certificate of Good Standing. o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner. o Persons with 5 percent or greater interest in the licensee must be identified with the % of ownership. 	
APPEND DOCUMENTATION AS <u>ATTACHMENT-3</u> , IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.	

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Flood Plain Requirements

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS **ATTACHMENT -5**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Historic Resources Preservation Act Requirements

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS **ATTACHMENT-6**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- ☒ Substantive
☐ Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

The applicant intends to establish a limited specialty surgery center offering ophthalmology and otolaryngology surgical services in four operating rooms, with twelve (12) associated recovery rooms.

Some of the services to be provided (retinal surgery, oculoplastics, advanced laser cataract and advanced blade free refractive laser surgery) are not currently available in the DeKalb/Sycamore area. The applicant will invest in equipment so that these services can be offered to area residents.

The otolaryngology surgery services will be complimentary to the primary practice of the proposed surgery center, which is ophthalmology surgery.

The proposed surgery center will serve all patients regardless of payer source and will place no restrictions on service based on ability to pay.

This is a substantive project pursuant to the rules and regulations of the Illinois Health Facilities and Services Review Board as it proposes the establishment of a health care facility.

Project Costs and Sources of Funds**SURGERY CENTER**

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds		SURGERY CENTER	
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation			
Off Site Work			
New Construction Contracts			
Modernization Contracts			
Contingencies			
Architectural/Engineering Fees	\$43,665.00	\$17,835.00	\$61,500.00
Consulting and Other Fees			
Movable or Other Equipment (not in construction contracts)	\$500,000.00	\$150,000.00	\$650,000.00
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment*	\$5,904,448.38	\$2,530,477.87	\$8,434,926.25
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)			
TOTAL USES OF FUNDS	\$6,072,283.38	\$3,074,142.87	\$9,146,426.25
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities			
Pledges	\$543,665.00	\$167,835.00	\$710,500.00
Gifts and Bequests			
Bond Issues (project related)			
Mortgages			
Leases (fair market value)	\$5,904,448.38	\$2,530,477.00	\$8,434,925.25
Governmental Appropriations			
Grants			
Other Funds and Sources			
TOTAL SOURCES OF FUNDS	\$6,072,283.38	\$3,074,142.87	\$9,146,426.25
NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

*\$5,934,926.25 FMV of Leased Space – Annualized x 15 Year Lease Term
 \$2,500,000.00 FMV of Leased Equipment

Related Project Costs

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project ☐ Yes ☒ No
 Purchase Price: \$ _____
 Fair Market Value: \$ _____

The project involves the establishment of a new facility or a new category of service
☒ Yes ☐ No

If yes, provide the dollar amount of all **non-capitalized** operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.

Estimated start-up costs and operating deficit cost is \$432,153.00.

Project Status and Completion Schedules

For facilities in which prior permits have been issued please provide the permit numbers.

Indicate the stage of the project's architectural drawings:

☐ None or not applicable ☐ Preliminary
☒ Schematics ☐ Final Working

Anticipated project completion date (refer to Part 1130.140): March 31, 2016

Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):

- ☐ Purchase orders, leases or contracts pertaining to the project have been executed.
☐ Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies
☒ Project obligation will occur after permit issuance.

APPEND DOCUMENTATION AS ATTACHMENT-8, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

State Agency Submittals

Are the following submittals up to date as applicable:

NOT APPLICABLE

- ☐ Cancer Registry
☐ APORS
☐ All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted
☐ All reports regarding outstanding permits

Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.

Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
REVIEWABLE							
Medical Surgical							
Intensive Care							
Diagnostic Radiology							
MRI							
Total Clinical							
NON REVIEWABLE							
Administrative							
Parking							
Gift Shop							
Total Non-clinical							
TOTAL							
APPEND DOCUMENTATION AS <u>ATTACHMENT-9</u> , IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.							

Facility Bed Capacity and Utilization**NOT APPLICABLE**

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest **Calendar Year for which the data are available. Include observation days in the patient day totals for each bed service.** Any bed capacity discrepancy from the Inventory will result in the application being deemed **incomplete**.

FACILITY NAME:		CITY:			
REPORTING PERIOD DATES:					
		From:	to:		
Category of Service	Authorized Beds	Admissions	Patient Days	Bed Changes	Proposed Beds
Medical/Surgical					
Obstetrics

TOTALS:					

CERTIFICATION

The application must be signed by the authorized representative(s) of the applicant entity. The authorized representative(s) are:

- in the case of a corporation, any two of its officers or members of its Board of Directors;
- in the case of a limited liability company, any two of its managers or members (or the sole manager or member when two or more managers or members do not exist);
- in the case of a partnership, two of its general partners (or the sole general partner, when two or more general partners do not exist);
- in the case of estates and trusts, two of its beneficiaries (or the sole beneficiary when two or more beneficiaries do not exist); and
- in the case of a sole proprietor, the individual that is the proprietor.

This Application for Permit is filed on the behalf of DeKalb Surgery Center, LLC d/b/a The Hauser Eye Institute Ambulatory Surgery Center* in accordance with the requirements and procedures of the Illinois Health Facilities Planning Act. The undersigned certifies that he or she has the authority to execute and file this application for permit on behalf of the applicant entity. The undersigned further certifies that the data and information provided herein, and appended hereto, are complete and correct to the best of his or her knowledge and belief. The undersigned also certifies that the permit application fee required for this application is sent herewith or will be paid upon request.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate**.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
 - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
 - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
 - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE**Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space**

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::
 - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
 - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
 - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. **A narrative of the rationale that supports the projections must be provided.**

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UNFINISHED OR SHELL SPACE:**NOT APPLICABLE**

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF to be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
 - a. Requirements of governmental or certification agencies; or
 - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
 - a. Historical utilization for the area for the latest five-year period for which data are available; and
 - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**ASSURANCES:**

Submit the following:

NOT APPLICABLE

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

H. Non-Hospital Based Ambulatory Surgery

This section is applicable to all projects proposing to establish or modernize a non-hospital based ambulatory surgical treatment center or to the addition of surgical specialties.

1. Criterion 1110.1540(a), Scope of Services Provided

Read the criterion and complete the following:

- a. Indicate which of the following types of surgery are being proposed:

____ Cardiovascular	____ Obstetrics/Gynecology	____ Pain Management
____ Dermatology	<u> X </u> Ophthalmology	____ Podiatry
____ Gastroenterology	____ Oral/Maxillofacial	____ Thoracic
____ General/Other	____ Orthopedic	<u> X </u> Otolaryngology
____ Neurology	____ Plastic	____ Urology

- b. Indicate if the project will result in a X limited or _____ a multi-specialty ASTC.

2. Criterion 1110.1540(b), Target Population

Read the criterion and provide the following:

- On a map (8 ½" x 11"), outline the intended geographic services area (GSA).
- Indicate the population within the GSA and how this number was obtained.
- Provide the travel time in all directions from the proposed location to the GSA borders and indicate how this travel time was determined.

3. Criterion 1110.1540(c), Projected Patient Volume

Read the criterion and provide signed letters from physicians that contain the following:

- The number of referrals anticipated annually for each specialty.
- For the past 12 months, the name and address of health care facilities to which patients were referred, including the number of patients referred for each surgical specialty by facility.
- A statement that the projected patient volume will come from within the proposed GSA.
- A statement that the information in the referral letter is true and correct to the best of his or her belief.

4. Criterion 1110.1540(d), Treatment Room Need Assessment

Read the criterion and provide:

- The number of procedure rooms proposed.
- The estimated time per procedure including clean-up and set-up time and the methodology used in arriving at this figure.

5. Criterion 1110.1540(e), Impact on Other Facilities

Read the criterion and provide:

- A copy of the letter sent to area surgical facilities regarding the proposed project's impact on their workload. NOTE: This letter must contain: a description of the project including its size, cost, and projected workload; the location of the proposed project; and a request that the facility administrator indicate what the impact of the proposed project will be on the existing facility.

- b. A list of the facilities contacted. **NOTE:** Facilities must be contacted by a service that provides documentation of receipt such as the US. Postal Service, FedEx or UPS. The documentation must be included in the application for permit.

6. Criterion 1110.1540(f), Establishment of New Facilities

Read the criterion and provide:

- a. A list of services that the proposed facility will provide that are not currently available in the GSA; or
- b. Documentation that the existing facilities in the GSA have restrictive admission policies; or
- c. For co-operative ventures,
 - a. Patient origin data that documents the existing hospital is providing outpatient surgery services to the target population of the GSA, and
 - b. The hospital's surgical utilization data for the latest 12 months, and
 - c. Certification that the existing hospital will not increase its operating room capacity until such a time as the proposed project's operating rooms are operating at or above the target utilization rate for a period of twelve full months; and
 - d. Certification that the proposed charges for comparable procedures at the ASTC will be lower than those of the existing hospital.

7. Criterion 1110.1540(g), Charge Commitment

Read the criterion and provide:

- a. A complete list of the procedures to be performed at the proposed facility with the proposed charge shown for each procedure.
- b. A letter from the owner and operator of the proposed facility committing to maintain the above charges for the first two years of operation.

8. Criterion 1110.1540(h), Change in Scope of Service

Read the criterion and, if applicable, document that existing programs do not currently provide the service proposed or are not accessible to the general population of the geographic area in which the facility is located.

APPEND DOCUMENTATION AS ATTACHMENT-27, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

VIII. - 1120.120 - Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: Indicate the dollar amount to be provided from the following sources:

\$710,500.00	a) Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to:
	1) the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and
	2) interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
_____	b) Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
_____	c) Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
\$8,434,926.25	d) Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including:
	1) For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated;
	2) For revenue bonds, proof of the feasibility of securing the specified amount and interest rate;
	3) For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.;
	4) For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment;
	5) For any option to lease, a copy of the option, including all terms and conditions.
_____	e) Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
_____	f) Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
\$9,207,926.25	g) All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
TOTAL FUNDS AVAILABLE	

APPEND DOCUMENTATION AS ATTACHMENT-36, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. 1120.130 - Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

NOT APPLICABLE

The applicant is not required to submit financial viability ratios if:

1. "A" Bond rating or better
2. All of the projects capital expenditures are completely funded through internal sources
3. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
4. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS ATTACHMENT-37, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which **audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion.** When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:	NOT	APPLICABLE		
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT 38, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
Contingency									
TOTALS									
* Include the percentage (%) of space for circulation									

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT -39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)			
Inpatient			
Outpatient

Outpatient			
Total			

Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care

1 E. Wacker Dr. Ste. #3150
Chicago, IL 60601

RE: Letter of Intent – SASS Real Property Investments, LLC and DeKalb Surgical Services, LLC

Dear Dr. Abdelsalam:

This letter of intent ("Letter of Intent") outlines the basic business terms and conditions upon which SASS Real Property Investments, LLC ("Landlord"), the owner of the Building (defined below) would be willing to enter into negotiations of a lease (the "Lease") for a portion of the Building with DeKalb Surgical Services, LLC ("Tenant"), it being understood that additional terms and conditions remain to be negotiated between the parties.

1. BUILDING:

To be constructed on the property (see attached Exhibit A and B), containing approximately 36,509 building square feet, (the "Building").

2. PREMISES:

The Premises shall consist of approximately 7,953 building gross square feet.

3. USE OF PREMISES:

Surgery center, with related administrative space.

4. LEASE COMMENCEMENT:

The "Lease Commencement Date" shall be the first day of the calendar month following the date on which the Tenant obtains approval of its certificate of need ("CON") permit application from the Illinois Health Facilities and Services Review Board (the "State Board"), as further defined in Section 10 of this Letter of Intent. Tenant will construct the improvements for the Premises at Tenant's expense.

5. LEASE TERM:

The lease term shall be for a period of fifteen (15) years commencing on the Lease Commencement Date (the "Lease Term").

6. BASE RENT:

Attachment 2

The fair market rental value of the Premises is approximately \$49.75 per building gross square foot per rent year. Base rent for the Premises, payable monthly in advanced during the Lease Term, shall be Thirty Two Thousand Nine Hundred Seventy One and 81/100ths Dollars (\$32,971.81) per month. The rent per GSF will include build out cost for the space and pass throughs included common area maintenance and taxes pro-rated. Annual rent total is \$395,661.75.

7. **ADDITIONAL RENT:**

Tenant will pay its proportionate share of common area maintenance, operating expenses and real estate taxes for the Building.

8. **OPTION TO RENEW:**

Landlord shall provide Tenant with the option to renew the Lease for two (2) additional five (5) year periods (each a "Renewal Period") on the same terms and conditions as were applicable during the initial Lease Term.

9. **PARKING:**

Tenant, Tenant's employees, visitors and clients shall have the right to use the parking facilities of the Building in common with all other tenants and visitors of the Building.

10. **CERTIFICATE OF NEED CONTINGENCY:**

Landlord and Tenant understand and agree that the establishment of a surgery center in the State of Illinois is subject to the requirements of the Illinois Health Facilities Planning Act, 20 ILCS 3960/1 et seq. and, thus, the Tenant cannot establish a surgery center on the Premises or execute a binding real estate lease in connection therewith unless the Tenant obtains a CON permit from the State Board. Tenant agrees to proceed using its commercially reasonable best efforts to submit an application for a CON permit and to prosecute said application to obtain the CON permit from the State Board. In light of the foregoing facts, the parties agree that they shall promptly proceed with due diligence to negotiate the terms of a definitive lease agreement and execute such agreement prior to the approval of the CON permit; provided, however, that such lease shall not be binding on either party prior to the approval of the CON permit and the lease agreement shall contain a contingency clause indicating that the lease agreement shall contain a contingency clause indicating that the lease agreement is not effective pending CON approval. Assuming the CON permit is granted, the effective date of the lease agreement shall be the Lease Commencement Date. In the event that the State Board does not grant a CON permit to the Tenant, neither party shall have any further obligation to the other party with regard to the negotiations, lease or Premises contemplated by this Letter of Intent.

The terms and conditions set forth above shall not be binding upon Landlord or Tenant until such time as the lease and all related documents have been (i) approved by Tenant and Landlord, and their respective principals and legal counsel, and (ii) fully executed by both Tenant and Landlord and delivered to the other party. Either party may withdraw from negotiations at any time for any reason, without liability to the other.

Attachment 2

and delivered to the other party. Either party may withdraw from negotiations at any time for any reason, without liability to the other.

Please indicate your acceptance of the above terms and conditions by executing below and returning to the undersigned.

Very truly yours,

LANDLORD:

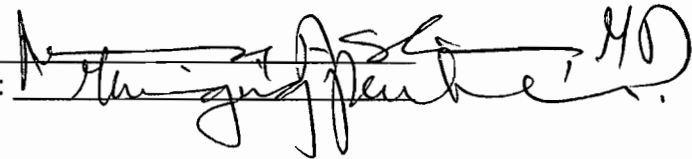

Sass Real Property Investments, LLC

Illinois Historic Preservation Agency
1 Old State Capitol Plaza
Springfield, Illinois 62701-1512
Attention: Director Amy Martin

Re: Illinois Certificate of Need ("CON") Clearance Letter Request

Dear Director Martin:

We represent DeKalb Surgical Services, LLC (the "Applicant") in pursuing a CON from the Health Facilities & Services Review Board to establish an Ambulatory Surgery Treatment Center ("ASTC") at (see attached legal description). The Illinois State Agency Historic Resources Preservation Act, 20 ILCS 34201/1 et seq. (the "Act"), provides that written notice of a proposed undertaking shall be given to the Director of the Illinois Historic Preservation Agency ("HPA") either by a State agency or a recipient of its funds, licenses or permits when the proposed undertaking might affect historic, architectural or archaeological resources. In addition, the CON application process requires a letter from HPA regarding any construction project's impact on possible architecturally significant or historical structure.

Enclosed is the information necessary for the HPA to conduct a review of the Project to determine whether any historic, architectural or archaeological sites might be impacted by the Project. Specifically, we provide the following information to you for review:

1. General project description and address: The project will include an approximate 26,000 GSF building which will include physician office space, a pharmacy, an ambulatory surgery center (if approved) and related services, including associated parking.
2. Topographic or metropolitan map showing the general location of the project: See attached.
3. Photographs of any standing buildings/structure within the project area: None
4. Address for building/structures, if present: None

Upon review of the information provided in this letter, kindly forward confirmation to my attention indicating whether, in the HPA's opinion, the Project will have any impact on a historical or architecturally significant building or structures.

U.S. practice conducted through McDermott Will & Emery LLP.

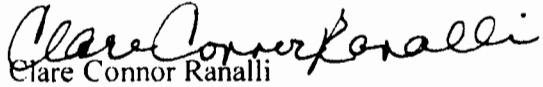

227 West Monroe Street Chicago, Illinois 60606-5096 Telephone: +1 312 372 2000 Facsimile: +1 312 984 7700 www.mwe.com
DM_US 51683365-1 T13706 0010

To our knowledge, there are no historical buildings in the area. Further, there are no state-designed historical sites in the vicinity of the proposed site.

Thank you for your consideration. If you have questions, please contact me at (312) 984-3365.

Sincerely,

McDermott Will & Emery

Clare Connor Ranalli

Enclosures

c: Courtney Avery
Administrator
Health Facilities and Services Review Board

1. The project location does not have an address, but see attached. The project entails the construction of a 36,509 GSF building that will be 2 stories tall. Of this, 7,953 GSF will be leased to the proposed ASC. It will have outdoor parking spaces. The building is intended to house medical office space, a pharmacy, and optical office, a surgery center and related services.

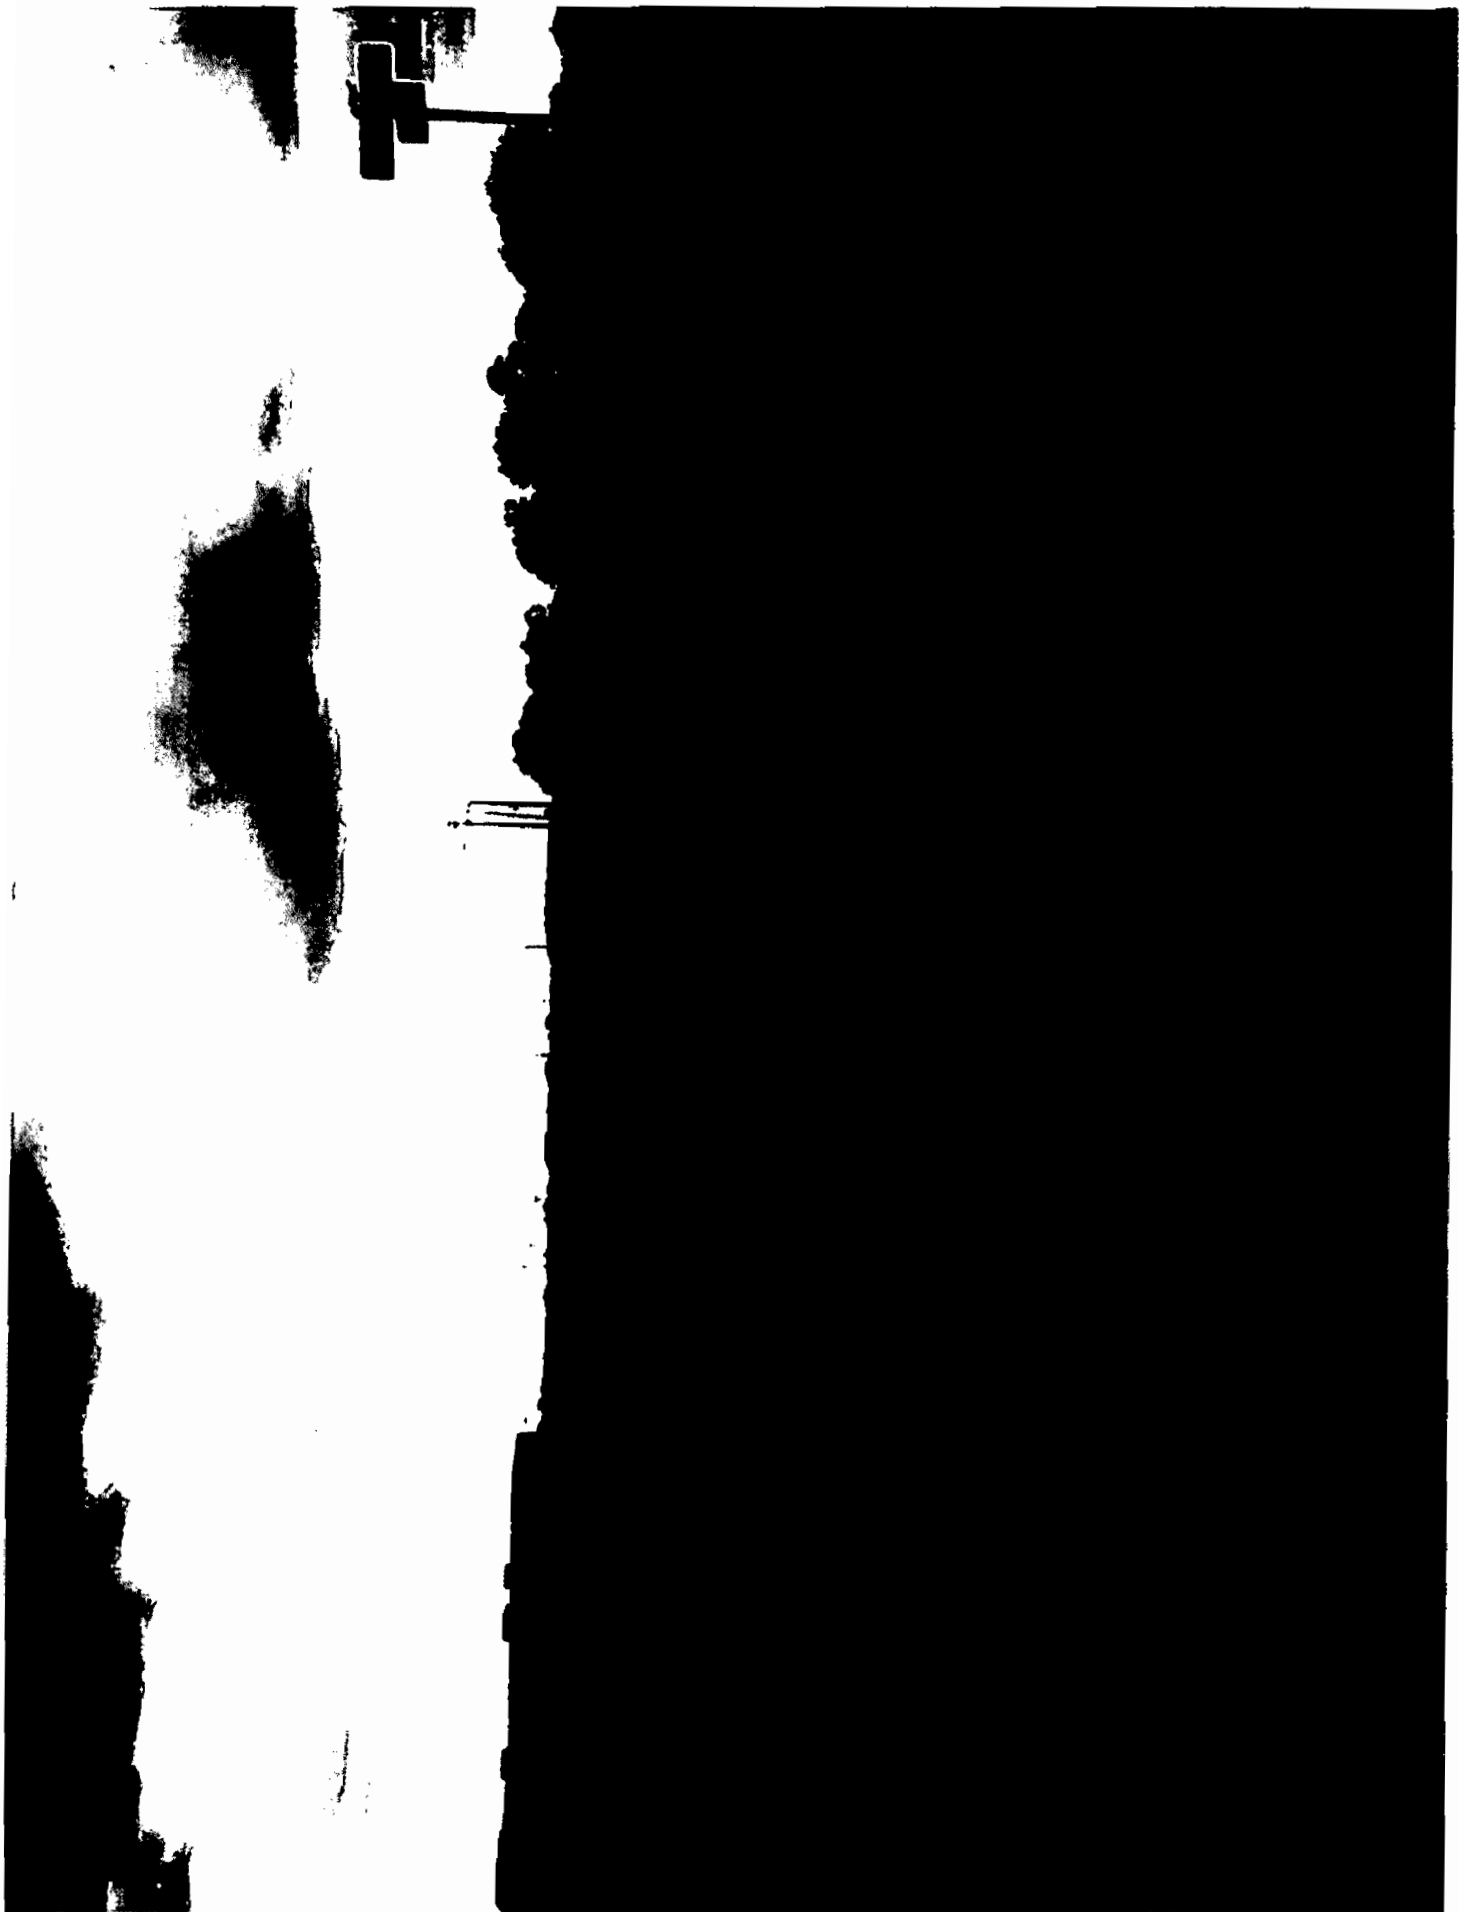

2. See attached map.

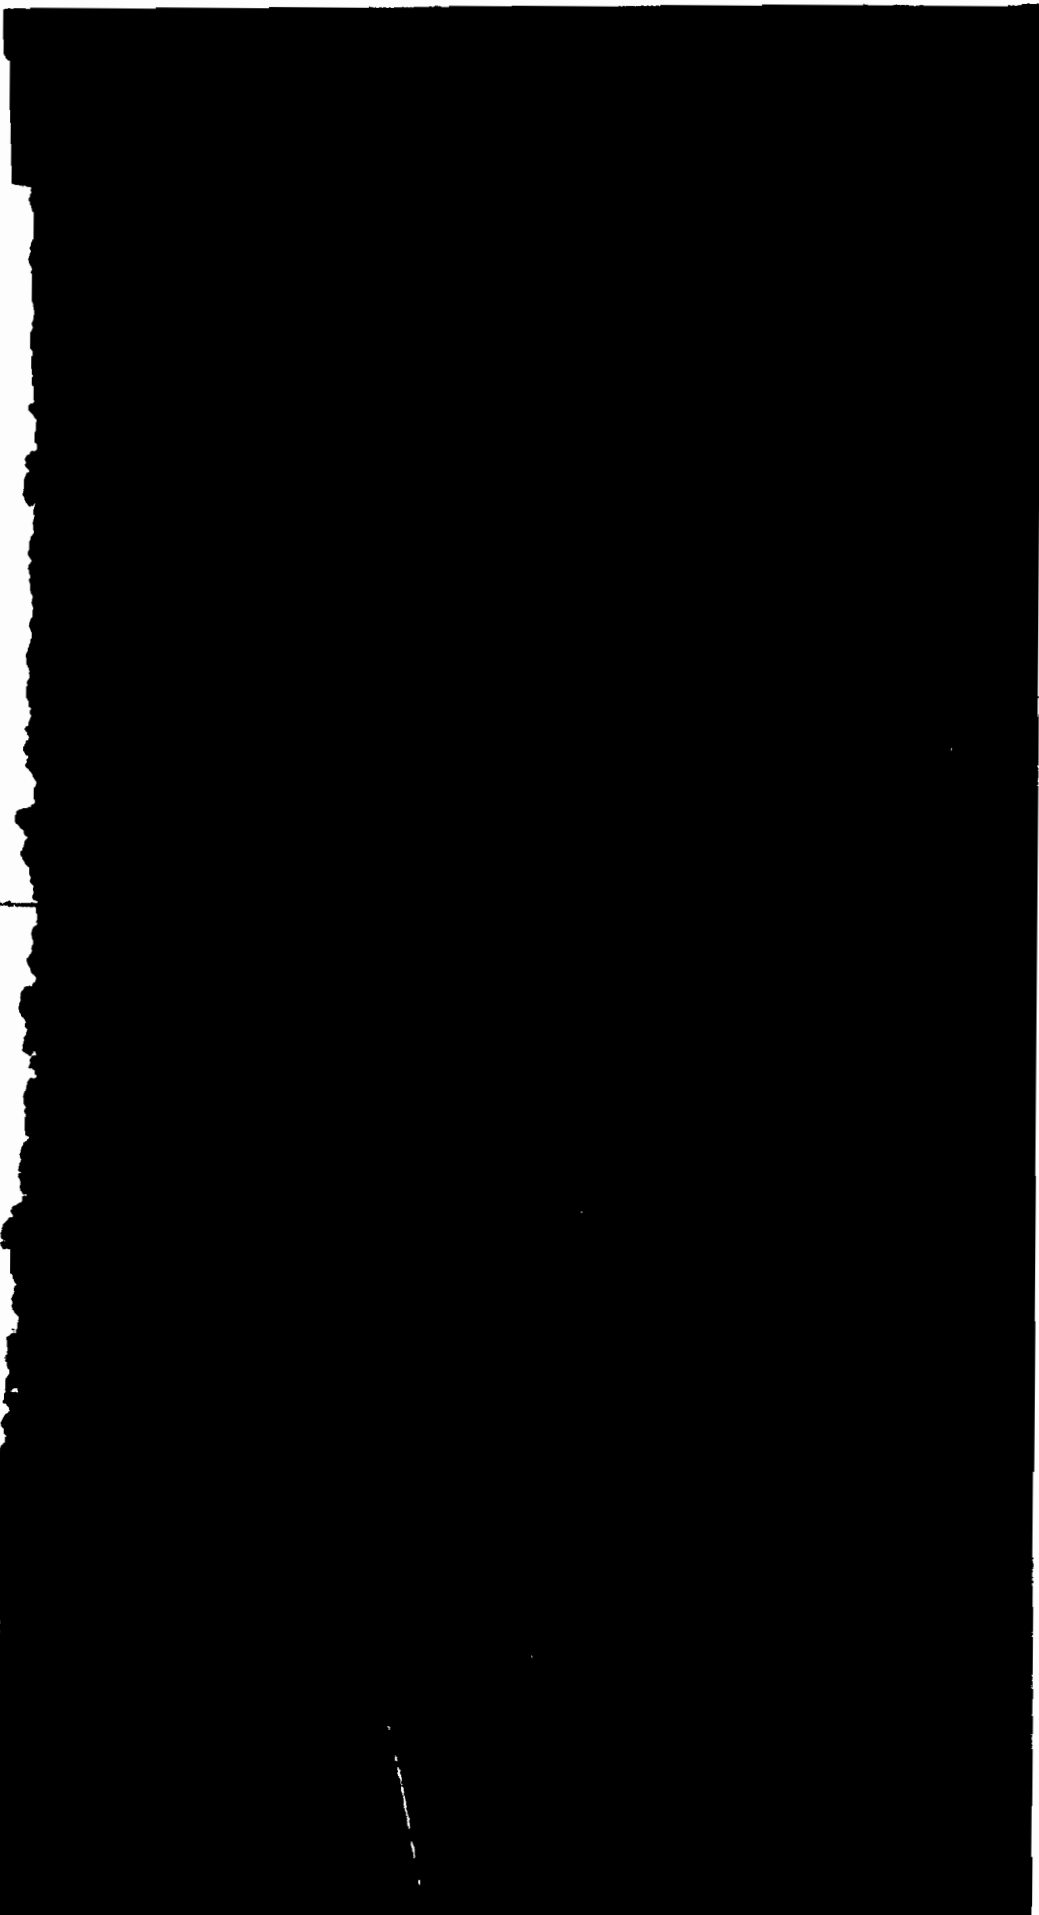

3. There are no structures within the project area.

4. N/A.

Itemization of Project Costs

Construction/Modernization (Internal Build Out of Space): Included in Lease/Rent

FMV of Leased Space: \$5,934,926.25 annualized rent for space over lease term.

FMV of Leased Equipment: \$2.5M – This includes clinical equipment necessary to do state of the art eye procedures as outlined in Attachment 12, Purpose 3 of this application.

Movable Equipment: \$650,000.00. This includes furniture, beds and miscellaneous clinical equipment.

A & E: \$61,500.00

Cost Space Requirements

Reviewable		GSF		Amount of Proposed Total GSF that is:			
<u>Dept.</u>	<u>Cost</u>	<u>Exist.</u>	<u>Prop.</u>	<u>New Cust.</u>	<u>Mod.</u>	<u>As Is</u>	<u>Vacated</u>
Ambulatory Surgery	\$6,072,283.38	0	5,631	0	0	0	0
Non Reviewable		GSF		Amount of Proposed Cost That is:			
<u>Dept.</u>	<u>Cost</u>	<u>Exist.</u>	<u>Prop.</u>	<u>New Cust.</u>	<u>Mod.</u>	<u>As Is</u>	<u>Vacated</u>
Registration/ Waiting/ Admin	\$3,074,142.87	0	2,322	0	0	0	0
Total ASC	\$9,146,426.25		7,953	0	0	0	0

Cost Per GSF for the Reviewable (Clinical) Portion of the Project is \$874.88*.

The costs for this project include the FMV of leased space, the FMV of leased equipment and the purchase price of movable equipment.

*Includes all equipment cost.

Background

See Attached

Attachment 11

Pursuant to 77 Il. Adm. Code § 1110.230: Background of the Applicant, DeKalb Surgical Services, LLC (the "Applicant") hereby certifies:

I. Facilities Owned or Operated by Applicant

The Applicant is a newly formed company and does not own, operate, or manage any other ambulatory surgical treatment centers or any other type of health care facilities or health care provider entities. Accordingly, the Applicant's company did not have any history regarding adverse action taken against the Applicant's facility. The Applicant is managed by Ahmed Abdelsalam, M.D. a physician board-certified in ophthalmology who has been practicing medicine in this specialty for 14 years (see attached curriculum vitae). Throughout his career, Dr. Abdelsalam has maintained a high-level of professionalism in his practice of medicine. He has never been sanctioned by Medicare, Medicaid, or any other governmental health care program. Furthermore, Dr. Abdelsalam has never been subject to disciplinary action by any medical board either in Illinois or in any other jurisdiction. The Applicant will seek accreditation for the surgery center from the Joint commission. Based on the foregoing, the Applicant is fit, willing, and able to have the qualifications, background, and character to adequately provide the proper standard of health care services for the community.

II. No Adverse Action Certification

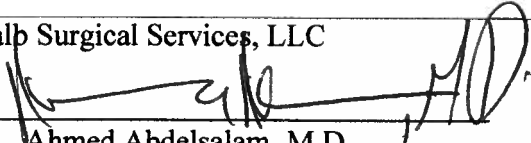

Pursuant to 77 Ill. Adm. Code 1110.230(b), the Applicant hereby certifies that no adverse actions have been taken against any health care facility owned or operated by the Applicant during the three (3) years prior to filing of this certificate of need application.

III. Authorization

Pursuant to 77 Ill. Adm. Code 1110.230(b), the Applicant hereby authorizes the Illinois Health Facilities and Services Review Board and the Illinois Department of Public Health ("IDPH") to access any documents necessary to verify the information submitted, including, but not limited to: (i) official records of IDPH or other State of Illinois agencies; (ii) the licensing or certification of records of other states, where applicable; and (iii) the records of nationally recognized accreditation organizations.

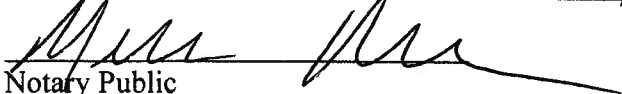

IV. Prior Applications

The Applicant has not submitted a prior application for permit this calendar year.

Purpose (1110.230)

- 1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.*

The services to be provided include general eye surgery, retina, oculoplastics, advanced laser surgery, advanced laser cataract surgery, pediatric ophthalmologic surgery and advanced blade free refractive laser surgery, all of which will improve the health care and/or well-being of the market area population. Many of these services have been provided in the area by Dr. Abdelsalam and his practice for the past few years. Currently, the surgical services performed by the Hauser Ross Eye Institute physicians (the "Services") in the service area would be or are performed at Kishwaukee Hospital located in DeKalb, Illinois and Midland Surgical Center, located in Sycamore, Illinois. **However, some of the procedures are not available in the service area.** These include retina, advanced cataract and advanced bleed free refracture surgery. The attached list reflects 157 retinal cases that had to be referred over a 12 month period outside of the service area. Neither Kishwaukee Hospital nor Midland own the equipment necessary for these procedures and they do not want to invest in it. As a result, Hauser Ross patients have to travel 60 plus miles to have these procedures done by their physicians. Over time, due to area growth, the aging population and other factors, the volume of surgical procedures that are being performed at both the Hospital and Midland have increased, making it difficult for the Hauser Ross Eye Institute physicians to obtain surgical time for their patients. Patients have had to delay surgery, travel long distance to obtain it and/or forego it altogether. By adding some additional operating rooms dedicated solely to ophthalmology and related otolaryngology, the area health and well-being will be improved.

Hauser Ross Eye Institute Retina Cases Referred to Chicago Area Hospitals

To Whom It May Concern:

Recently, I had problem with my eye that required surgery to repair the retina. I was very disappointed to find out that I had to travel into Chicago to have the surgery. I, of course was unable to drive and had to pay MedVac to pick me up in Dekalb to take me to Chicago for the surgery. This was very difficult and expensive to arrange, especially as an emergency. It would be very beneficial to many people to have retina surgery done in the Sycamore/Dekalb area.

Thank you,

Nancy Hicks

June 26, 2014

To Whom It May Concern:

Today, my optometrist referred me to Hauser Ross Eye Institute to have a retinal detachment fixed. While I knew that it could require surgery, I was very disappointed to find that I would have to travel to Chicago for the surgery. I had already traveled over an hour to see the retina specialist only to find that I would then have to travel over an hour to have the surgery. This is very difficult to arrange. It would be so much better if the doctors at Hauser Ross were able to do the surgery locally.

Thank you,

Corinne Fish

Purpose

2. Define the planning area or market area, or other, per the applicant's definition.

In determining the market area the Applicant reviewed the patient demographics by zip code of the Hauser Ross Eye Institute and those patients who were referred for surgery by it. The zip codes of the proposed market area are attached. The total population of the DeKalb/Sycamore area is approximately 118,602 (2012 US Census Estimates) and of the zip codes is 1,581,196 . However, the proposed ASC will only draw from portions of these zip codes, and the primary service area is DeKalb, Sycamore and surrounding areas. Also, attached is a map showing the service area, which is a 45 minute radius from the proposed surgery center.

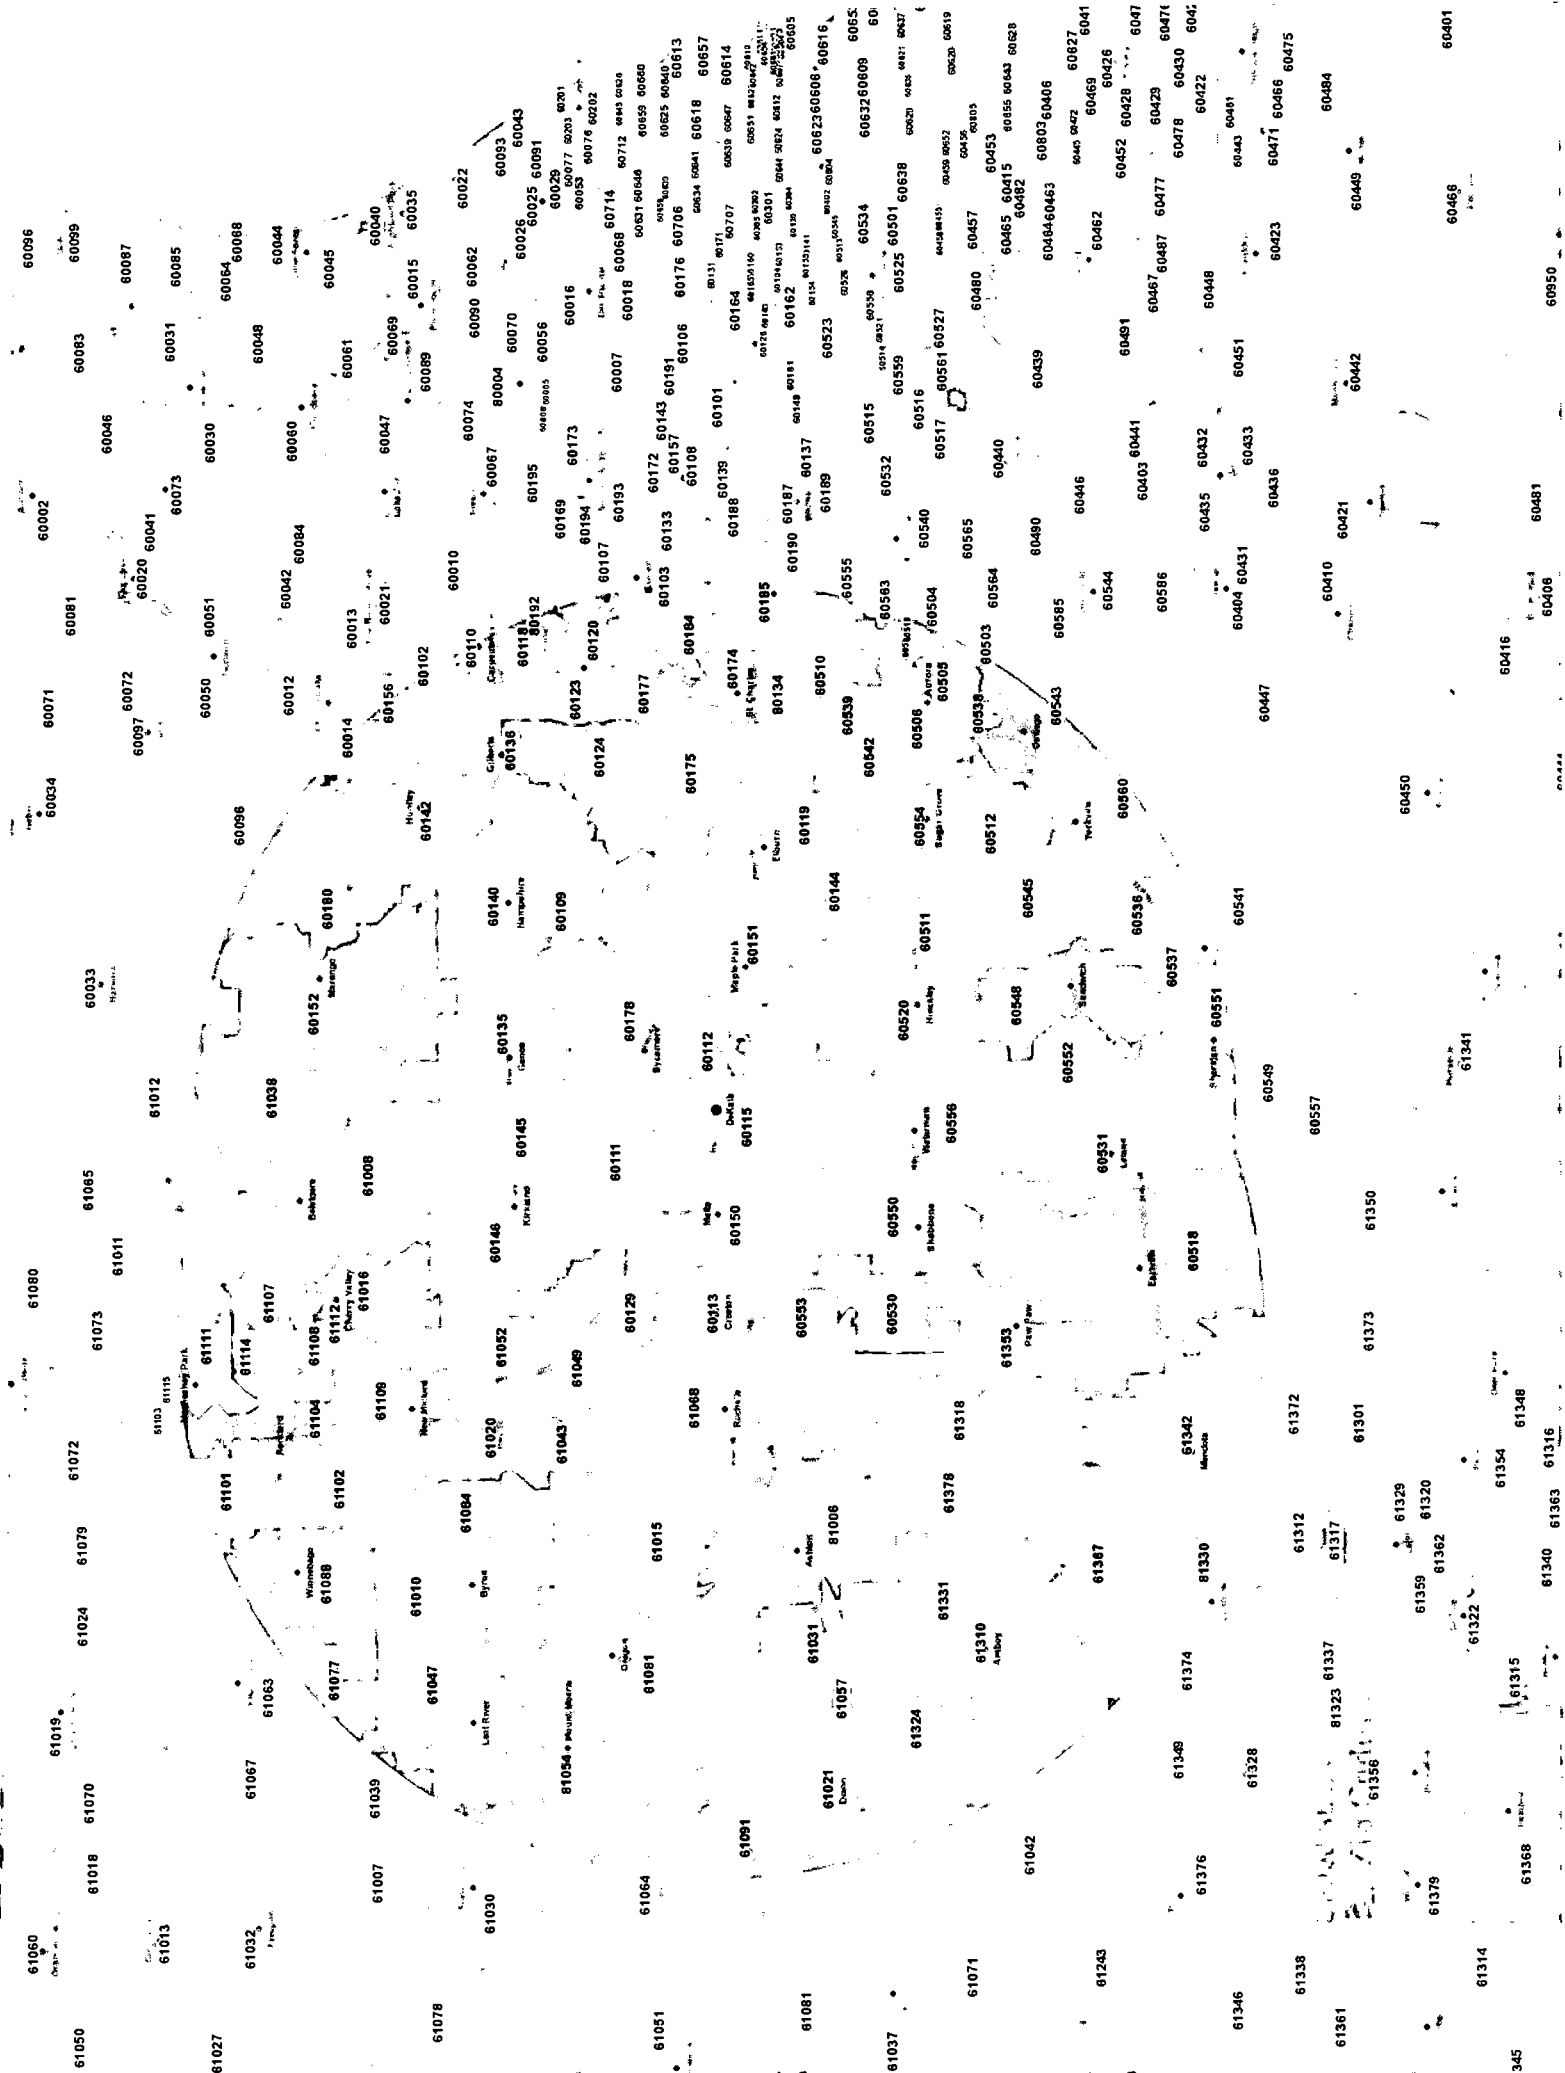

Population Data - Zip Codes within 45 minutes of DeKalb, IL

Purpose

3. *Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]*

The objective of the project is to provide access to patients of the Hauser Ross Eye Institute. A positive result will be to allow both Midland and Kishwaukee Hospital (the "Hospital") more freedom in scheduling their respective operating room slots for patients that either require non-ambulatory surgical procedures (the Hospital) and/or orthopedic procedures (Midland). At this point in time, Midland has limited surgical time slots for ophthalmology. The orthopedic practice that utilizes Midland recently added three surgeons, so its need for time slots will only increase. At the same time Hauser Ross Eye Institute is adding three surgeons. There simply is not enough OR capacity to accommodate the growing practices. Eye surgeries take close to as much time as orthopedic procedures performed at Midland, yet do not generate as much revenue. As a result, the physicians at Hauser Ross Eye Institute have had a difficult time scheduling their patients for surgical procedures.

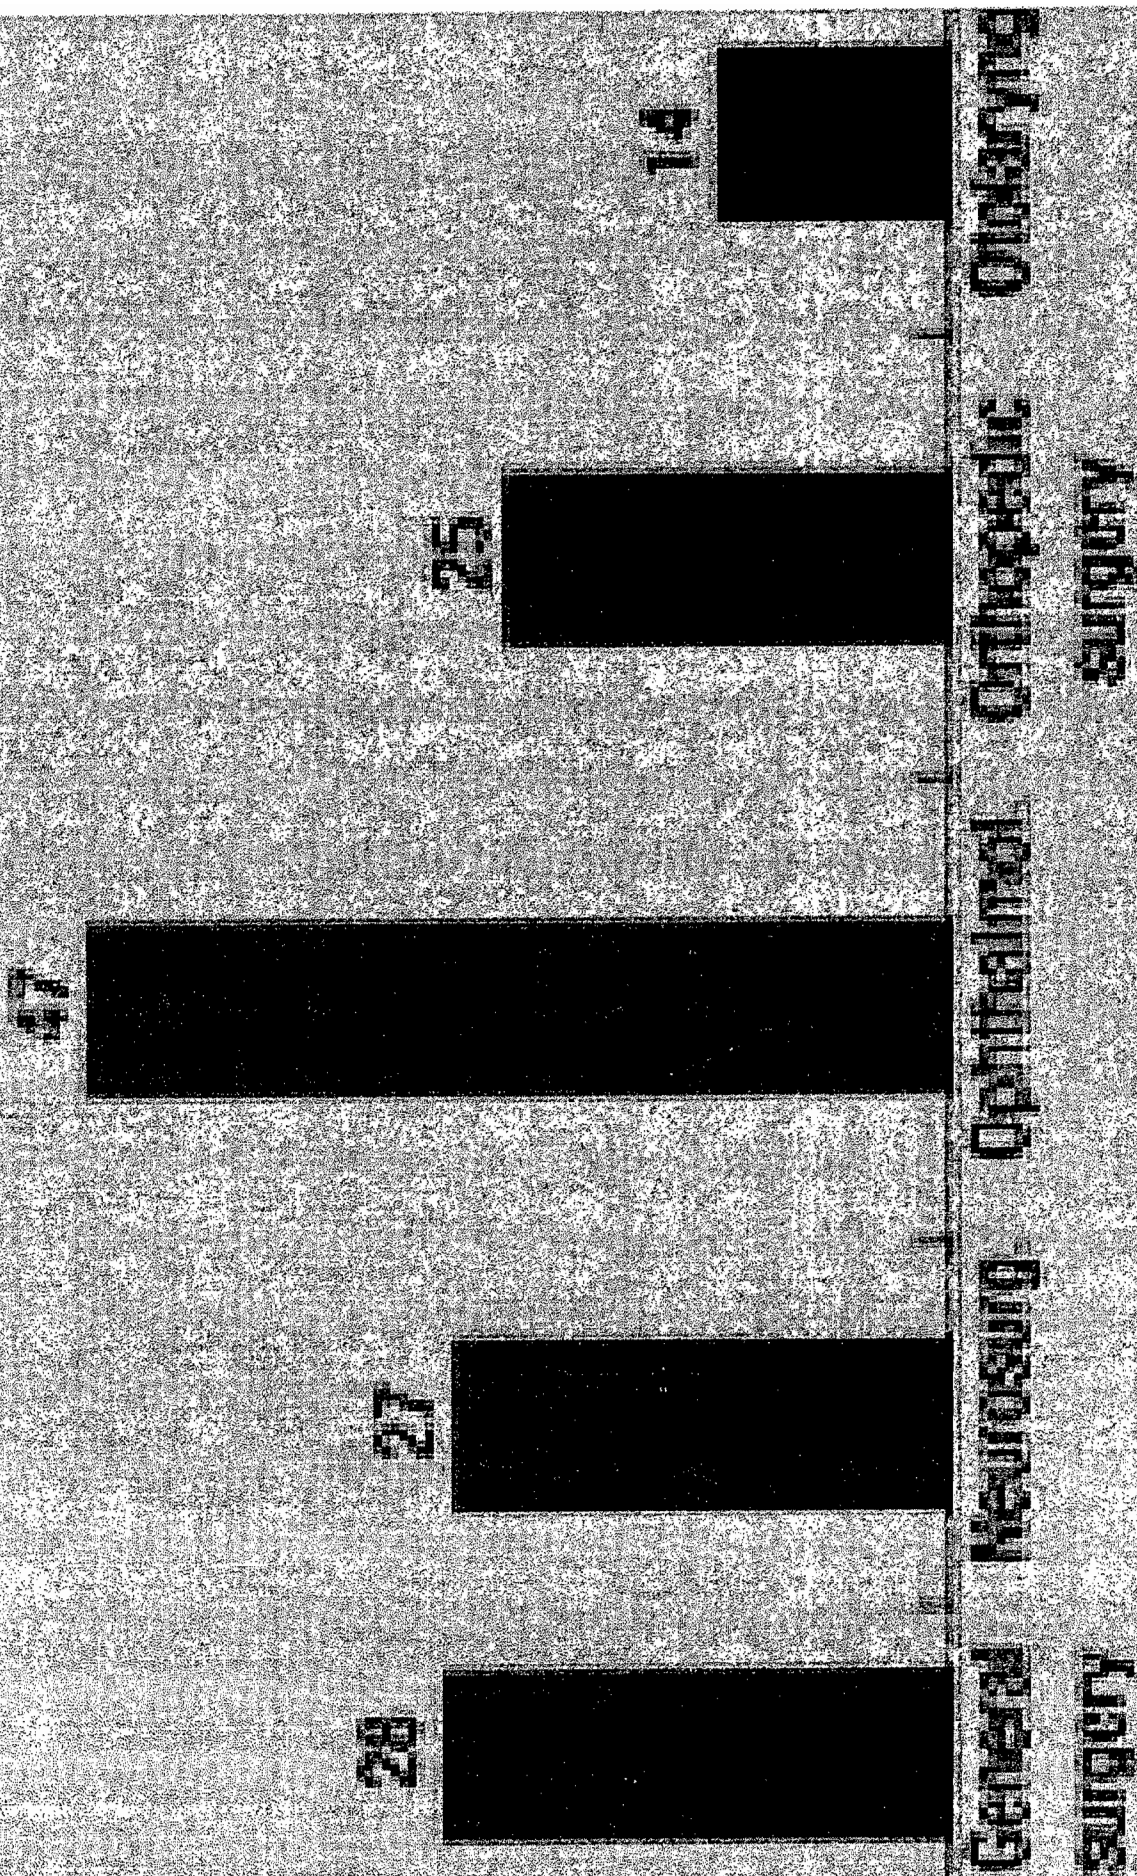

Patients who require surgery for macular degeneration must be operated on as soon as possible to avoid permanent damage. The patients cannot be operated on at either the hospital or Midland due to lack of equipment. The proposed ASC will invest in this equipment and have the capability to perform surgery for macular degeneration.

Kishwaukee Hospital does not accept Care Credit as a payer. Midland accepts Care Credit for only six months. Most patients who utilize Care Credit want to extend payments for 12 to 24 months. Care Credit is used to pay for advanced laser surgery, oculoplastic surgery, co-pays and deductibles. It is also used by patients without insurance and who do not qualify for Medicaid. Hauser Ross will discount certain services to make them available to patients who use Care Credit for the discounted fee. The proposed ASC will welcome Care Credit, making it easier for patients to obtain these procedures in their community, rather than having to travel outside the community or forego them altogether.

There is no reason to expect any decline in the demand for the types of surgical procedures the proposed ASC will offer, and in fact given the latter there is ample reason to expect it to increase. The attached graph shows expected growth in the need for ophthalmologic surgery. Residents of the area should not have to postpone or forego surgery because the other available providers are busy and have to allocate resources, and do so in a way that makes ophthalmologic services a low priority. To be clear, the Applicant is not blaming either the Hospital or Midland. It is expressing the reality of what area residents and its own physicians are facing in trying to obtain reasonable time slots for surgery, as well as reasonable access for procedures that traditional insurance or governmental insurance will not pay for, such as advanced laser surgery. Also, the Applicant will invest in equipment that will provide certain services that are not currently available in the area. The applicant will invest in Alcon LenSx Cataract Surgery Femto Laser, wave light Refractive Suite (2 lasers included Femto Second Flap Maker and Excimer 500), Topolyzer corneal systems; WaveScan Corneal Topography surgery guided system, ORA Intraoperative lens calculator system, Varion Ophthalmic Operative management integrated control system, office component and OR components, 2 Centurion advanced New Cataract Surgery Suite units, 2 Luxor Integrated New Cataract Surgery Suite Units Scope Systems, Alcon Retina Surgery Vitrectomy Constellation System, Carl Zeiss Lumera 700 Advanced optics integrated Retina Surgery scope with built in wide angle viewing system, Fractional Occuloplastic Laser used for occuloplastic surgery and eye and orbital tumors, advanced surgical trays for cataract surgery, refractive surgery, cornea surgery, retina surgery, oculoplastic surgery, glaucoma surgery and ophthalmic pediatric surgery - all representing an approximate \$2.5M investment. The proposed ASC will invest in, maintain and update this equipment to assure its patients receive state of the art care.

The Hauser Eye Institute has grown significantly since Kishwaukee Hospital sold it to Dr. Abdelsalam in 2013. Initially it was a free standing practice, and operated a surgery center dedicated to ophthalmology. Kishwaukee bought Midland ASC and decided to consolidate the two ASCs. The Hospital chose not to invest in the practice, and it lost volume and Midland, as stated, is focused more on orthopedics. Now that the Hauser Ross practice is again independent, its ownership will develop a state of the art eye institute. This will include the practice, a pharmacy dedicated to eye pharmaceuticals, an optometry shop and the surgery center. It will provide access to services currently unavailable in the community.

Increases in Surgery by Specialty in 2020 vs

Source: American Society of Plastic Surgeons, 2020

4. Cite the sources of the information provided as documentation.

The source of the information above includes US Census Data, Hauser Ross Eye Institute practice volume data, surgical referral data and personal knowledge.

Purpose

5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.

The proposed ASC will provide surgical services not currently available including retinal surgery, oculoplastics, advanced laser cataract and advanced blade free refractive laser surgery. It will allow patients who want to use Care Credit the ability to do so. In addition it will accommodate the growing Hauser Ross Eye Institute practice while allowing the area hospital and Midland Surgical Center the ability to expand their services because the ORs will not have to accommodate eye surgeries.

The HREI has for 12 years accepted all patients regardless of ability to pay. It accepts Medicaid. Importantly, it accepts patients requiring retinal surgery even if they are Medicaid recipients or underinsured. Unfortunately there are more patients requiring retinal surgery than there are surgeons and equipment to care for them. As a result those patients with a payer source that is less than optimal are frequently unable to obtain the surgery. HREI has never turned away a patient requiring retinal surgery. It is investing in retinal equipment and will make retinal surgical services available in the area to all patients, regardless of payer source.

6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals as appropriate.

The goal is to provide better access to care and access to services currently not available in the community and it will be achieved on or before March 31, 2016 via the proposed ASC.

Alternatives

The alternatives to the project are minimal. They include either do nothing, proposing a surgery center with less than four operating rooms or offering only ophthalmologic procedures, or proposing a larger multi-specialty surgery center.

Doing nothing is not an option HFSRB accepts. In this case, it would leave the status quo in place, which is restricting access to care to Hauser Ross Eye Institute patients. The cost is zero.

The applicant considered a two OR surgery center, doing only ophthalmologic procedures. However, this was quickly rejected because current procedures support four operating rooms. The applicant believes there will be greater demand for eye surgery given the aging population. The applicant considered not offering otolaryngology surgery at the proposed surgery center, but believes that the otolaryngology surgery services, while limited in scope, will appropriately supplement the ophthalmologic procedures being offered. Thus, it made sense to offer both otolaryngology surgery and ophthalmologic surgery at the proposed four OR ASC. A smaller ASC would cost slightly less, due to the need for less space and equipment. Although the cost was not specifically determined since the alternative was rejected, it would be approximately \$6,000,000.00.

The Applicant considered a larger ASC, offering multi-specialties. This was quickly rejected as unnecessary. The goal is to provide efficient, appropriately staffed ophthalmologic surgery, and associated otolaryngology. The goal is not to build a large surgery center that will compete with other providers, or offer duplicative services. The cost of this alternative was not obtained, but would be higher than the current alternative due to the increased need for leased space and additional equipment. It would be approximately two to three million greater than the proposed project cost, or approximately \$11,500,000.00.

The Applicant attempted to joint venture with the Kishwaukee Hospital and the physician investors in the Midland ASC but its efforts were rejected. The Applicant may be open to a joint venture in the future but in the near future believes its focus on a state of the art eye treatment center requires it alone to develop same and operate same. The estimated project cost for construction of a free standing ASC would be approximately \$8 million dollars to construct same, or similar cost to the proposed project to lease the same GSF in an existing building.

Utilizing other area providers is akin to doing nothing. The area hospital and ASC do not have the OR time to offer. Also, they do not want to invest in equipment necessary for certain procedures to be performed at the proposed ASC.

Size of Project

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?
Clinical*	5,631 BGSF	2075-2750	1407 BSF	Yes
Non Clinical	2,322	N/A		N/A

*Any area where patient is taken and present after leaving patient registration and waiting rooms/area.

The size is necessary and not excessive because the Applicant has documented sufficient surgical volume for four operating rooms. There will be twelve prep and recovery areas (three for each operating room) as required by Illinois regulations. The size per OR per DGSF is 1,407 using solely clinical space and 1,988.25 using total space, both of which meets the state standard. It is actually below the standard because ophthalmologic surgical space is not required to accommodate the room for certain types of equipment associated with as example orthopedic surgery.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1	ASC	3,493	3,378		Yes
YEAR 2	ASC	3,493	4,000*		Yes

See below for calculation on project services utilization.

The surgery center will operate 4 ORs and anticipates 3,493 procedures at a minimum. At a blended rate of one and a half hours per procedure this volume supports the need for four operating rooms at 1500 hours of surgery per OR per year.

*Based on projected demand increase due to (1) physician hired in July 2014 and (2) increased need for ophthalmology procedures.

Re: Physician Referral Letter for Proposed DeKalb Surgical Services, LLC

Dear Ms. Avery:

I am a surgeon who specializes in ophthalmologic surgery ("Specialty"). I own and operate the Hauser Ross Eye Institute ("HREI"). Over the past twelve months (May 2013-April 2014), HREI has referred a total of 3,181 outpatient surgery cases (non-retinal) in this Specialty. HREI performed, through Chicagoland Retinal, over 600 retinal surgeries in the same period, 157 of which were on patients who resided in the service area of the proposed ASC. These 157 patients had to travel to Chicago because retinal procedures are not available in the proposed service area. HREI's surgical caseload will constitute the majority of the surgical work to be referred to the proposed surgery center in the future.

Over a twelve month time frame, I referred my surgical cases in this Specialty to the following health care facilities, which includes hospitals and/or ambulatory surgical treatment centers ("ASTCs"). The average time per surgical case including set up and clean up is one hour. I expect to refer these surgical cases to the limited specialty ASTC that will be operated by DeKalb Surgical Services, LLC (the "CON Permit Applicant"). The referred patients will reside within the CON Permit Applicant's proposed geographic service area.

Name and Address of Healthcare Facility	Type of Healthcare Facility (ASTC, Hospital or Other)	Number of Surgical Cases Referred Period
Midland Surgical Center	ASTC	2,429*
Palos Community Hospital	Hospital	72
Swedish Covenant Hospital	Hospital	85
		30**
	Totals	2,616
Lasers Done in HREI Office	877	
	Total	3,493

In fact, I think the number of referrals will be even higher than the historical referrals due to the anticipated increase in demand for eye surgeries (see attached).

I certify that the aforementioned referrals have not been used to support another pending or approved certificate of need permit application. I further certify that the information provided in this letter is true and correct to the best of my knowledge.

Attachment 15

*This is an average blended figure over 24 months (average of 2012-2013 and 2013-2014). It best reflects referrals as recently they have declined due to inability to schedule time at Midland and loss of physicians, all of whom were replaced this year. In addition to these cases 877 laser procedures were done in the HREI office that will be referred to the proposed ASC.

**ENT Procedures – to be performed by Dr. Kurtzman (see attached) but referred by HREI.

Re: Physician Referral Letter for Proposed DeKalb Surgical Services, LLC

Dear Ms. Avery:

I am a surgeon who specializes in otolaryngology surgery ("Specialty"). Over the past twelve months, I have performed a total of 355 outpatient surgery cases in this Specialty, one of which was in association with ophthalmologic surgery.

I will not change my referral patterns. However, I have committed to spend one day(s) a week at the proposed surgery center. I will perform ENT procedures associated with and complimentary to the eye surgeries performed by the HREI physicians. This is the most convenient and cost effective way to provide such procedures to the area residents. Dr. Abdelsalam has indicated he anticipates approximately 40-50 such procedures will be performed each year.

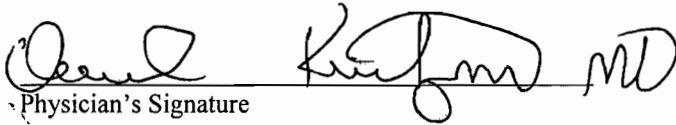

Based on my prior surgical caseload, I anticipate that I will perform 40-50 surgical cases in my Specialty at the proposed ASTC.

I certify that the aforementioned referrals have not been used to support another pending or approved certificate of need permit application. I further certify that the information provided in this letter is true and correct to the best of my knowledge.

In addition to the referral information provided herein, please also note that my support for the proposed ASTC.

1110.1540(b)
Target Population

See attached map of service area.

The primary target population is approximately 120,000 based on US census data for the zip codes within the target service area. The secondary target population using zip codes from the service area is approximately 600,000.

The travel time to the GSA is generally 45 minutes as determined by Mapquest (see Mapquest attachments appended to Attachment 12 – Purpose, 2).

Criterion 1110.1540(d)
Treatment Room Need Assessment

Number of Rooms Proposed

The Applicant is proposing to establish a single specialty ASTC with four (4) operating rooms and twelve (12) recovery areas.

Estimated Time Per Procedure

The Applicant estimates that the average length of time per procedure will be 1.5 hours (this is a blended time frame taking into account both basic and complicated procedures), which includes time for surgery preparation and post-surgery clean up. Total surgical hours based on the projected cases of 3,493 is 5,239.5 surgical hours. This supports the need for 4 operating rooms.

The above time frames are arrived at based on many years of experience in performing the eye procedures at issue.

Criterion 1110.1540(e)
Impact on Other Facilities

The Applicant does not believe the proposed ASC will impact other area facilities. HREI physicians currently utilize Midland Surgical Center, Palos Community Hospital and Swedish Covenant Hospital (the latter two hospitals are over sixty miles from the service area but are the two hospitals with retinal equipment where HREI physician(s) have privileges). Kishwaukee Hospital and Midland have, through practice and communication, shown minimal interest in ophthalmologic procedures performed by Hauser Ross Eye Institute physicians. The Applicant has had conversations with Kishwaukee Hospital (which is a majority owner of Midland) and generally it has little OR time to provide for eye surgery, will not accept Care Credit and does not believe investing its capital in eye surgery equipment is a good use of its resources. The Applicant does not believe either the Hospital or Midland will oppose this application, as, if approved, it allows them to offer their respective ORs in a more efficient and profitable manner. Palos and Swedish are used for retinal surgical services because neither Midland nor Kishwaukee have appropriate equipment. These hospitals are approximately 60 miles away and area residents should not have to travel this far to have surgery done by their physicians at HREI.

Also, if other area facilities say they have capacity it really is irrelevant because the HREI will not change its referral practice if the proposed ASC is not approved. Instead they will continue the current practice of referring to Midland and Chicago area hospitals, which is for the various reasons stated herein less than ideal, and restricts access to care.

Please note the following:

- A copy of the impact letter sent to surgical facilities located within the Applicant's proposed geographic service area, along with a list of the health care facilities receiving the impact letter, are provided with this application. See Appendix 1 for the impact letters.
- The MapQuest sheets calculating the time and distance to each health care facility receiving an impact letter are attached hereto as Appendix 2, which provide evidence that each facility is located within thirty (30) minutes of the Applicant's proposed site for the ASTC.
- Copies of the certified mail return receipts evidencing receipt of the impact letter, and any copies of written responses that the Applicant received prior to the submission of this CON permit application, are attached hereto as Appendix 3.
- Any responses to the impact letter that are received by the Applicant following the submission of this CON permit application will be forwarded to the Health Facilities and Services Review Board staff.

Criterion 1110.1540(f)
Establishment of New Facilities

Services Proposed for New ASTC

1. Ophthalmology
2. Otolaryngology

6.b. The existing facilities in the area have restrictive admission practices.

To the Applicant's knowledge there is no written policy restricting admission at area facilities. However, Midland allocates blocks of OR time to various area physicians. It has routinely provided only limited OR time to the Hauser Ross Eye Institute physicians. Midland is a 3 OR multi-specialty surgery center. The ortho practice that admits there is adding three physicians in July of 2014. It will only get busier. The Hospital and Midland do not have and will not invest in retinal equipment. As a result, retinal surgery is not currently available in the service area. HREI patients requiring retinal surgery are referred to Chicago area hospitals which is more than an inconvenience – it impedes access to care and can result in permanent damage due to delays in obtaining surgical intervention.

Kishwaukee Hospital does not accept Care Credit. While Midland accepts Care Credit it does so only on a six month payment cycle, which most patients cannot use. As a result the Applicant's patients face a situation which has the same impact on them as if area facilities have restrictive admission policies.

Also, there are restrictive practices because the area hospital and ASC will not invest in equipment that will allow for macular degeneration repair, advanced cataract laser surgery and advanced blade free laser refractory surgery. Therefore, these services are unavailable in the community. HREI will invest approximately \$2.5M in equipment to provide access to care.

To be clear, the Applicant understands and supports the allocation of the Hospital's ORs as it deems appropriate. It also does not fault them for allocating capital as they respectively deem appropriate for their capital needs. The majority of the physicians at Midland are orthopods, and therefore these physicians have priority in scheduling patients, particularly since the revenue per procedure is higher. It will be better for Midland patients and Hauser Ross patients to be seen in a surgery center that is dedicated to their unique needs and to provide staff dedicated to same. The proposed limited specialty ASC will be located in a building that is dedicated to eye care.

Lastly, many eye surgeons do not accept retinal cases that have, as a payer source, Medicaid. Nor do they provide retinal surgery to underinsured or self pay patients. Retinal cases are many, but there are a limited number of surgeons who perform them. As a result, surgeons can pick and choose cases and the end result is some fill their schedules with insured patients leaving no slots for underinsured patients. HREI (and the proposed ASC) take (and will take) all retinal patients. HREI has never refused a retinal surgery.

Criterion 1110.154(g)**Charge Commitment**

The following chart provides a list of procedures that will be performed at the proposed ASTC, along with the appropriate CPT/HCPCS code for each procedure and the charge associated with each.

Description	Code	Charge
Corneal transplant	65710	\$ 6,900
Corneal trnspl endothelial	65756	\$ 6,900
Ocular reconst transplant	65780	\$ 6,900
Attach ocular implant	65140	\$ 6,600
Decompress optic nerve	67570	\$ 6,600
Explore/biopsy eye socket	67450	\$ 6,600
Explore/drain eye socket	67440	\$ 6,600

Remove foreign body from eye	65222	\$ 300
Revise eyelashes	67820	\$ 300

Availability of Funds

The non-leased portion of the project costs is to be paid with cash on hand. The remainder is leased space and equipment. This too, although treated as debt, will be paid over the 15 year lease term from available cash on hand.

Financial Viability Waiver

The Applicant is a new entity and has no historical financials operating data. The applicant is entering into a lease for the space and certain equipment and a copy of the letter of intent for the lease and LOC for leased equipment is provided in this application. The leases will be paid via cash although it is considered debt for Board purposes. Dr. Ahmed Abdelsalam is the majority equity holder in the applicant LLC. He will fund the first three years of operating costs of the proposed ASC with cash on hand.

Viability Ratios

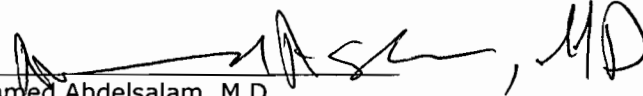

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:	20__	20__	20__	20__
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

NOT APPLICABLE – The Applicant is a newly formed entity and has no historical financials. In addition, the applicant is simply leasing space and equipment. The project is being funded through cash, and long term lease(s).

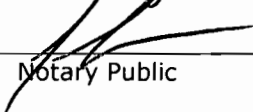

Economic Feasibility

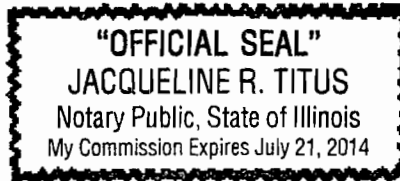

Borrowing is the only alternative for paying for the proposed ASC, and is less costly than liquidating existing current investments.

The selected form of debt* financing is at the lowest cost available.

Ahmed Abdelsalam, M.D.

Subscribed and sworn to before me this
15th day of July, 2014.

Notary Public

NOTE: The lease for ASC space and equipment is considered debt per HFSRB rules, but will be paid via cash on hand.

See below chart reflecting the reasonableness of the costs per the State Board standards.

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
ASC		0							
Contingency	N/A								
TOTALS									

* Include the percentage (%) of space for circulation

*Clinical, with circulation. Includes rent over 15 year lease term.

Economic Feasibility

The direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion: \$614.00 per equivalent patient day. Operating costs will be paid by cash funding through the applicant.

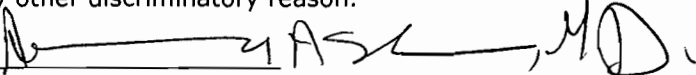

The total projected annual capital costs (in current dollars per equivalent patient day) for the first full year at target utilization (which is anticipated to be within two years following project completion): \$663.00.

Safety Net Impact

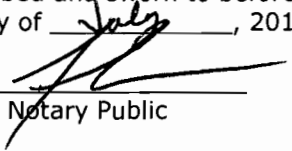

To the applicants knowledge the project will not impact safety net services, as the types of services are not typically considered safety net services. Further, the project will not impact any existing facility to the applicant's knowledge other than Midland Surgical Center. The project will provide certain services not currently available in the service area as previously specified. (Note: Midland as a for profit surgery center is not a safety net provider, but it does provide a variety of surgical services to Medicaid recipients to the best of the applicant's knowledge, and its majority owner is Kishwaukee Hospital.)

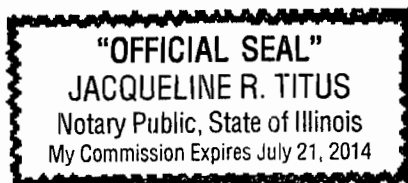

The applicants do not have knowledge regarding cross subsidization of services.

Attached is a chart reflecting the prior three years charity and Medicaid care associated with my medical practice at the Hauser Ross Eye Institute. I hereby certify it is accurate. No information is available for the applicant as it is a newly formed LLC. I also certify that no patient will be turned away due to inability to pay, or any other discriminatory reason.

Ahmed Abdelsalam, M.D.

Subscribed and sworn to before me this
15th day of July, 2014.

Notary Public

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year 2011	Year 2012	Year 2013-2014
Inpatient	N/A	N/A	N/A
Outpatient	N/A	N/A	N/A
Total			
Charity (cost in dollars)			
Inpatient	N/A	N/A	N/A
Outpatient	N/A	N/A	N/A
Total			
MEDICAID			
Medicaid (# of patients)	Year 2011	Year 2012	Year 2013-2014
Inpatient	N/A	N/A	N/A
Outpatient	N/A		
Total		1,771	3,212
Medicaid (revenue)			
Inpatient	N/A	N/A	N/A
Outpatient	N/A	1.67	1.77
Total	N/A	1.67	1.77

This information is provided for the Hauser Ross Eye Institute general practice, as the Applicant is a new entity with no historical data.

In 2011-2012 3.75% of total patients were Medicaid recipients and this has increased to 6% currently.

72% of HREI's current patients are Medicare recipients.

Charity care is noted as "N/A" because HREI bills patients, but will write off as bad debt for those that are unable to pay. It does not engage in extraordinary collection efforts. To the contrary HREI frequently writes off debt and allows extended payment plans. As an example one individual who is 76 years old had retinal surgery costing approximately \$3,000.00. He is paying \$10 a month for the surgery – so the surgery will be paid off in 25 years. HREI is pleased to be able to extend the credit.

Charity Care

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)	N/A	N/A	N/A
Cost of Charity Care	N/A	N/A	N/A

The Applicant is a new entity with no historical information. HREI (the practice supporting the proposed ASC) does not provide charity care because it bills patients, then writes off bad debt. Its payer mix is currently 72% Medicare and 6% Medicaid and it sees little reason the proposed ASC will have a different payer mix. It commits to providing care, regardless of ability to pay. In 12 years it has never turned a retinal patient away. To HREI's knowledge, it is the only practice in the Western suburbs that serves Medicaid recipients.

Re: Request For Impact Statement

Dear Ladies and Gentlemen:

I am writing to inform you of my intent to establish an ambulatory surgery center located at Gateway Drive, between Dosen Drive and Klein Road in Sycamore, Illinois. Our service area will be based upon a 45 minute radius geographically, although as always our patient base will come from the Hauser Ross Eye Institute ophthalmology practice. The surgery center will be a limited-specialty surgery center and will provide ophthalmology and ENT surgery (note the ENT surgical services will be limited to services done in connection with the eye procedures performed at the proposed ASC). It will consist of four (4) operating rooms, within leased space totaling approximately 7,953 BGSF.

We are writing to give you the opportunity to inform us as to whether you believe this facility will have any impact on your services, and if so, why. For your information, our proposed surgery center will provide retinal surgery which is not otherwise available in the area, will be enrolled in the Medicaid program and will take all patients regardless of payer source. Your letter if any in response will be submitted by us, upon receipt to the Illinois Health Facilities and Services Review Board.

Thank you.

Sincerely,

Ahmed Abdelsalam, M.D.

Re: Request For Impact Statement

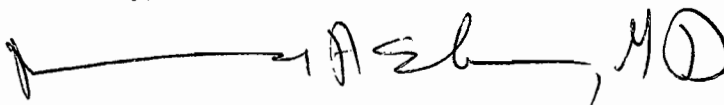

Dear Ladies and Gentlemen:

I am writing to inform you of my intent to establish an ambulatory surgery center located at Gateway Drive, between Dosen Drive and Klein Road in Sycamore, Illinois. Our service area will be based upon a 45 minute radius geographically, although as always our patient base will come from the Hauser Ross Eye Institute ophthalmology practice. The surgery center will be a limited-specialty surgery center and will provide ophthalmology and ENT surgery (note the ENT surgical services will be limited to services done in connection with the eye procedures performed at the proposed ASC). It will consist of four (4) operating rooms, within leased space totaling approximately 7,953 BGSF.

We are writing to give you the opportunity to inform us as to whether you believe this facility will have any impact on your services, and if so, why. For your information, our proposed surgery center will provide retinal surgery which is not otherwise available in the area, will be enrolled in the Medicaid program and will take all patients regardless of payer source. Your letter if any in response will be submitted by us, upon receipt to the Illinois Health Facilities and Services Review Board.

Thank you.

Sincerely,

Ahmed Abdelsalam, M.D.

Re: Request For Impact Statement

Dear Ladies and Gentlemen:

I am writing to inform you of my intent to establish an ambulatory surgery center located at Gateway Drive, between Dosen Drive and Klein Road in Sycamore, Illinois. Our service area will be based upon a 45 minute radius geographically, although as always our patient base will come from the Hauser Ross Eye Institute ophthalmology practice. The surgery center will be a limited-specialty surgery center and will provide ophthalmology and ENT surgery (note the ENT surgical services will be limited to services done in connection with the eye procedures performed at the proposed ASC). It will consist of four (4) operating rooms, within leased space totaling approximately 7,953 BGSF.

We are writing to give you the opportunity to inform us as to whether you believe this facility will have any impact on your services, and if so, why. For your information, our proposed surgery center will provide retinal surgery which is not otherwise available in the area, will be enrolled in the Medicaid program and will take all patients regardless of payer source. Re: Request For Impact Statement

Dear Ladies and Gentlemen:

I am writing to inform you of my intent to establish an ambulatory surgery center located at Gateway Drive, between Dosen Drive and Klein Road in Sycamore, Illinois. Our service area will be based upon a 45 minute radius geographically, although as always our patient base will come from the Hauser Ross Eye Institute ophthalmology practice. The surgery center will be a limited-specialty surgery center and will provide ophthalmology and ENT surgery (note the ENT surgical services will be limited to services done in connection with the eye procedures performed at the proposed ASC). It will consist of four (4) operating rooms, within leased space totaling approximately 7,953 BGSF.

We are writing to give you the opportunity to inform us as to whether you believe this facility will have any impact on your services, and if so, why. For your information, our proposed surgery center will provide retinal surgery which is not otherwise available in the area, will be enrolled in the Medicaid program and will take all patients regardless of payer source. Your letter if any in response will be submitted by us, upon receipt to the Illinois Health Facilities and Services Review Board.

Thank you.

Sincerely,

Ahmed Abdelsalam, MD

Re: Request For Impact Statement

Dear Ladies and Gentlemen:

I am writing to inform you of my intent to establish an ambulatory surgery center located at Gateway Drive, between Dosen Drive and Klein Road in Sycamore, Illinois. Our service area will be based upon a 45 minute radius geographically, although as always our patient base will come from the Hauser Ross Eye Institute ophthalmology practice. The surgery center will be a limited-specialty surgery center and will provide ophthalmology and ENT surgery (note the ENT surgical services will be limited to services done in connection with the eye procedures performed at the proposed ASC). It will consist of four (4) operating rooms, within leased space totaling approximately 7,953 BGSF.

We are writing to give you the opportunity to inform us as to whether you believe this facility will have any impact on your services, and if so, why. For your information, our proposed surgery center will provide retinal surgery which is not otherwise available in the area, will be enrolled in the Medicaid program and will take all patients regardless of payer source. Your letter if any in response will be submitted by us, upon receipt to the Illinois Health Facilities and Services Review Board.

Thank you.

Sincerely,

Ahmed Abdelsalam, M.D.
