RE: PROPOSED DaVITA DIALYSIS FACILITY
Project 15-003 Vermilion County Dialysis (DaVita)

RECEIVED

MAY 07 2015

**HEALTH FACILITIES &
SERVICES REVIEW BOARD**

Dear Board Members:

"If it isn't broke – then there is no need to fix it". I am referring to Danville Dialysis Services (DDS) located in Danville, Illinois. Dr. Brij S. Sodhi has been a dedicated medical provider in this community over 35 years. He established Danville Dialysis Services 13 years ago. He and his staff strive to provide the best possible quality of kidney care to their patients.

Danville Dialysis Services is a real asset to our community. It is a convenient, top-notch, full service location. The patient receives best of care but be assured the family is considered as well. Compassion is foremost in the patient's treatment plan. There is ample room for additional patients; therefore, an additional facility IS NOT NEEDED. In fact, it is possible a DaVita facility could put Danville Dialysis Services out of business or at least diminish the ability to continue serving the Danville, IL area.

I am a former board member of the local hospital. Currently, I serve as President of CRIS Healthy Aging Board. CRIS transportation division provides valuable service to Danville Dialysis Services. I serve on Lakeview College of Nursing located in Danville, IL and also volunteer at Presence United Samaritans Medical Center Foundation, including HALO Health Committee. I am extremely concerned and devoted to quality health care in our community.

Thank you for allowing my voice to be considered. Our community is very important and Danville Dialysis Services is a vital part. Please deny the DaVita application.

Sincerely,

Rachel J. Heron
