DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- Substantive
- Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

Neomedica – Round Lake (a 16-station ESRD facility) is currently owned and operated by National Medical Care, Inc., a Delaware corporation that is qualified to do business in Illinois. The facility is located at 401 Nippersink, Round Lake. All of the assets specific to National Medical Care, Inc. d/b/a Neomedica – Round Lake will be transferred to Fresenius Medical Care Lake County, LLC, also a Delaware corporation that is qualified to do business in Illinois.

There is no cost associated with this transaction as it entails the transfer of assets only, between companies wholly owned by Fresenius Medical Care Holdings, Inc.

This project is "non-substantive" under Planning Board rule 1110.10(b) as it entails the change of ownership of an existing in-center hemodialysis facility.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT NOT APPLICABLE – THE PROJECT WILL NOT IMPACT PATIENT CARE, QUALITY OR ACCESS TO SERVICES OFFERED BY THE CLINIC. IT IS SIMPLY A CHANGE TO THE BUSINESS STRUCTURE/OWNERSHIP OF THE ENTITY THAT OWNS/OPERATES THE DIALYSIS FACILITY.

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals as appropriate.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES**NOT APPLICABLE - THERE ARE NO COSTS ASSOCIATED WITH THIS PROJECT/CHANGE OF OWNERSHIP**

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
 - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
 - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
 - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION VI - MERGERS, CONSOLIDATIONS AND ACQUISITIONS/CHANGES OF OWNERSHIP

This Section is applicable to projects involving merger, consolidation or acquisition/change of ownership.

NOTE: For all projects involving a change of ownership THE COMPLETE TRANSACTION DOCUMENT must be submitted with the application for permit. The transaction document must be signed dated and contain the appropriate contingency language.

A. Criterion 1110.240(b), Impact Statement

Read the criterion and provide an impact statement that contains the following information:

1. Any change in the number of beds or services currently offered.
2. Who the operating entity will be.
3. The reason for the transaction.
4. Any anticipated additions or reductions in employees now and for the two years following completion of the transaction.
5. A cost-benefit analysis for the proposed transaction.

B. Criterion 1110.240(c), Access

Read the criterion and provide the following:

1. The current admission policies for the facilities involved in the proposed transaction.
2. The proposed admission policies for the facilities.
3. A letter from the CEO certifying that the admission policies of the facilities involved will not become more restrictive.

C. C. Criterion 1110.240(d), Health Care System NOT APPLICABLE – APPLICANT IS NOT A HEALTH CARE SYSTEM

Read the criterion and address the following:

1. Explain what the impact of the proposed transaction will be on the other area providers.
2. List all of the facilities within the applicant's health care system and provide the following for each facility.
 - a. the location (town and street address);
 - b. the number of beds;
 - c. a list of services; and
 - d. the utilization figures for each of those services for the last 12 month period.
3. Provide copies of all present and proposed referral agreements for the facilities involved in this transaction.
4. Provide time and distance information for the proposed referrals within the system.
5. Explain the organization policy regarding the use of the care system providers over area providers.
6. Explain how duplication of services within the care system will be resolved.
7. Indicate what services the proposed project will make available to the community that are not now available.

APPEND DOCUMENTATION AS ATTACHMENT-19, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

VIII. - 1120.120 - Availability of Funds

X. 1120.140 - Economic Feasibility

A. This section is applicable to all projects subject to Part 1120.

NOT APPLICABLE - THERE ARE NO PROJECT COSTS

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

- 1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE											
Department (list below)	A	B	C		D		E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)			
Contingency											
TOTALS											

* Include the percentage (%) of space for circulation

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 40.

Safety Net Information per PA 96-0031			
CHARITY CARE

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE

Fresenius Medical Care

Fresenius Medical Care is the leading provider of dialysis products and services in the world and as such has a long-standing commitment to adhere to high quality standards, to provide compassionate patient centered care, educate patients to become in charge of their health decisions, implement programs to improve clinical outcomes while reducing mortality & hospitalizations and to stay on the cutting edge of technology in development of dialysis related products.

The size of the company and range of services provides healthcare partners/employees and patients with an expansive range of resources from which to draw experience, knowledge and best practices. It has also allowed it to establish an unrivaled emergency preparedness and disaster relief program that's designed to provide life sustaining dialysis care to dialysis patients whose access to clinics are disrupted in areas of the U.S. that are compromised by disaster (e.g. hurricanes, tornadoes, earthquakes). Through this program we also provide clinics, employees and others with essential supplies such as generators, gasoline and water.

Quality Measures – Fresenius Medical Care continually tracks five quality measures on all patients. These are:

- eKdrt/V – tells us if the patient is getting an adequate treatment
- Hemoglobin – monitors patients for anemia
- Albumin – monitors the patient's nutrition intake
- Phosphorus – monitors patient's bone health and mineral metabolism
- Catheters – tracks patients access for treatment, the goal is no catheters which leads to better outcomes

The above measures as well as other clinic operations are discussed each month with the Medical Directors, Clinic Managers, Social Workers, Dietitians, Area Managers and referring nephrologists at each clinic's Quality Assessment Performance Improvement (QAI) meeting to ensure the provision of high quality care, patient safety, and regulatory compliance.

INITIATIVES that Fresenius has implemented to bring about better outcomes and increase the patient's quality of life are the TOPS program, Right Start Program and The Catheter Reduction Program.

TOPs Program (Treatment Options) – This is a company-wide program designed to reach the pre-ESRD patient (also known as CKD – Chronic Kidney Disease) to educate them about available treatment options when they enter end stage renal disease. TOPs programs are held routinely at local hospitals and physician offices. Treatment options include transplantation, in-center hemodialysis, home hemodialysis, peritoneal dialysis and nocturnal dialysis.

Right Start Program – This is an intensive 90-day intervention program for the new dialysis patient centering on education, anemia management, adequate dialysis dose, nutrition, reduction of catheter use, review of medications and logistical and psychosocial support. The Right Start Program results in improved morbidity and mortality in the long term but also notably in the first 90 days of the start of dialysis.

Catheter Reduction Program – This is a key strategic clinical initiative to support nephrologists and clinical staff with increasing the number of patients dialyzed with a permanent access, preferably a venous fistula (AVF) versus a central venous catheter (CVC) venous fistula). Starting dialysis with or converting patients to an AVF can significantly lower serious complications, hospitalizations and mortality rates. Overall adequacy of dialysis treatment also increases with the use of the AVF.

Diabetes Care Partnership - Fresenius Medical Care and Joslin Diabetes Center, the world's preeminent diabetes research, clinical care and education organization, announced an agreement to jointly develop renal care programs in select Joslin Affiliated Centers for patients with diabetic kidney disease (DKD). Fresenius and Joslin will jointly develop clinical guidelines and effective care delivery systems to manage high blood pressure, glucose, and nutrition in patients with DKD. In addition, the organizations will help educate patients as they prepare for the possibility of end stage renal disease (ESRD) and the necessity for dialysis or kidney transplantation. Fresenius Medical Care and Joslin's multidisciplinary and coordinated approach to chronic disease management will seek to improve patient outcomes while reducing unnecessary or lengthy hospitalizations, drug interactions and overall morbidity and mortality associated with uncoordinated care.

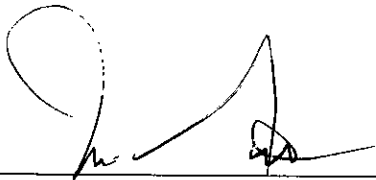

Locally, in Illinois, Fresenius Medical Care is a predominant supporter of the National Kidney Foundation of Illinois (NKFI), Kidney Walk in downtown Chicago. Fresenius Medical Care employees in Chicago alone raised almost \$15,000 for the foundation. The NKFI is an affiliate of the National Kidney Foundation, which funds medical research improving lives of those with kidney disease, prevention screenings and is a leading educator on kidney disease. Fresenius Medical Care also donates another \$25,000 annually to the NKFI and another \$5,000 in downstate Illinois.

*Medicaid percentages are reflected in treatments, not patients. Any patient can have more than one type of coverage in any given year, therefore treatment numbers reflects more accurately the clinic's % of coverage. Only clinics above 10% Medicaid are reported here to show those facilities with significant Medicaid numbers.

All Illinois Clinics are Medicare certified, and do not discriminate against patients based on their ability to pay or payor source.

All clinics are open to all physicians who meet credentialing requirements.

OFFICER CERTIFICATION**

The undersigned, Fresenius Medical Care Holdings, Inc. ("Holdings"), hereby certifies to the Illinois Health Facilities and Services Review Board ("the Board") as follows:

1. Fresenius Medical Care of Illinois, LLC and National Medical Care, Inc. (together the "Subsidiaries") are each wholly owned, direct or indirect subsidiaries of Holdings.
2. Under the transaction for which Board approval is being requested, the Subsidiaries propose to transfer Assets, as defined below, to Fresenius Medical Care Lake County, LLC, another wholly owned indirect subsidiary of Holdings, on or before 12/31, 2015. There is no cost associated with the transfer of assets.
3. The "Assets" comprise the fixed assets, leases and contracts used by the Subsidiaries to operate the dialysis facilities at the following locations:

FACILITY	ADDRESS	CITY/STATE	ZIP
Neomedica – Round Lake	401 Nippersink	Round Lake, IL	60073
Fresenius Medical Care Antioch	311 Depot Street	Antioch, IL	60002
Fresenius Medical Care McHenry	4312 W. Elm Street	McHenry, IL	60050
Fresenius Medical Care Waukegan Harbor	110 N. West Street	Waukegan, IL	60085

The foregoing certifications are made and delivered on February 23, 2015.

National Medical Care, Inc.

IMPACT AND ACCESS STATEMENT PER PART 1110.240

The proposed change of ownership will not result in the reduction or addition of stations at the existing certified dialysis facility. The current owner/operator of the facility is National Medical Care, Inc., (whose ultimate parent entity is Fresenius Medical Care Holdings, Inc.) and will be owned/operated by Fresenius Medical Care Lake County, LLC, (whose ultimate parent entity is also Fresenius Medical Care Holdings, Inc.), after the change of ownership. There will be no reduction in employees at the facility for a period of two years from the date of change of ownership other than in the normal course of business. There is no cost associated with this transaction.

There will be no changes to patient admissions and no reduction in access to dialysis services as a result of the change of ownership. The admission policies of the facility involved will not become more restrictive. Facilities owned and operated by National Medical Care, Inc., accept all patients regardless of ability to pay. They are "open" facilities from the standpoint of granting privileges to any physician who wishes to admit patients to the facility. The facility currently operates under the Fresenius Medical Care Holdings, Inc. Admissions Policies and will remain operating under the Fresenius Medical Care Holdings, Inc. Policies, a copy of which are attached. These policies will not change.

The preferred Fresenius model of ownership is for our facilities to be wholly owned, however we do enter into Joint Ventures on occasion. The Round Lake facility will likely be one of those occasions due to the fact that the physicians desire to serve this community as well as investing in the facility. Changing ownership of the Round Lake facility from National Medical Care, Inc. to Fresenius Medical Care Lake County, LLC will allow for this investment should it occur. Fresenius Medical Care will maintain control of the governance, assets and operations of the facility as if physicians do invest in this facility their investment will be a minority interest only and will not allow them control of the facility.

No health care system is involved in this transaction.

Patient Admission

Purpose To guide facility management on the admission process for all patients being admitted to an FMS dialysis facility.

Responsibility Medical Director, Clinical Manager or Registered Nurse , Master’s Social Worker, Registered Dietitian and Facility Secretary as defined in this policy, Central Admissions Office, Central Verification Office

General Policy This policy applies to In-Center, Home and Transient Patients.

Where medically appropriate and consistent with this policy, facilities shall admit and treat patients needing dialysis without regard to race, creed or religion, color, age, sex, disability, national origin, marital status, diagnosis and/or sexual orientation.

Each patient admitted will be followed by an attending physician on the facility's medical staff or physician who has been granted temporary privileges at the facility.

All services provided by the FMCNA facility are available to all patients:

- For whom they are medically suitable,
- Based on the clinical judgment of the physician, and
- The willingness of the responsible party to pay for such services.

In the case where the Medical Director determines the patient is too acutely ill or not appropriate for outpatient dialysis care, the decision for admission to the facility shall be made by the Governing Body pursuant to the *Documentation Required for Medical Clearance* section of this policy.

The Clinical Manager or designee is responsible for scheduling the patient for dialysis treatments in a manner consistent with the attending physician’s dialysis prescription, patient needs, and available time slots.

The patient and/or his or her family shall designate a person to be notified in

case of emergency.

Patient Referrals

Patients may be referred by their physician, a hospital, another dialysis facility or as a self-referral.

All referrals for permanent admissions are directed to the Central Admissions Office (CAO) which then contacts the dialysis facility for placement. The CAO obtains the minimum necessary information required from the referral source to medically and financially clear the patient for admission.

The CAO forwards this information to the following:

- The facility where the patient is seeking admission for medical clearance and,
- Central Verification Office for financial clearance (see Patient Admissions and Readmissions policy, FMS-AR-040-020A, 122-040-020.)

Patient Change of Modality or Transfer to another FMS Facility

The Clinical Manager or his/her designee must contact the CAO when there is a modality change or the patient transfers to a different FMCNA facility. The CAO will initiate a new admission template packet to be completed with the patient.

Documentation Required for Medical Clearance

A patient shall be medically cleared for treatment when dialysis treatment is deemed indicated and appropriate according to the clinical judgment of the patient's Attending Physician. In the case where the Medical Director determines the patient is too acutely ill or not appropriate for outpatient dialysis care, then the decision for admission to the facility shall be made by the Governing Body.

NOTE: Requests to admit a patient with an external device such as left ventricular assist device (LVAD) or LifeVest Defibrillator requires approval from the corporate medical office.

Patient Admission

**Patients with
Prior
Behavioral
Issues**

A referred patient who has exhibited behavioral issues in the hospital, another facility or during the admission process, such that they reasonably constitute a danger to themselves or to others, may be denied admission to the dialysis facility.

However, a patient who has been involuntarily discharged from another FMS facility or other provider is not automatically excluded from admission. The decision to admit a patient who has exhibited behavioral issues or was previously discharged from another facility due to behavioral issues shall be made by the facility management in collaboration with the patient's attending physician and the Medical Director.

**Patient
Unable to Sign
Admission
Documents
Due to Being
Deemed
Incompetent
or Incapable
of Health
Care Decision
Making**

The Regional Vice President must be contacted by the Central Admissions Office or facility if questions arise regarding the mental capacity or competency of a patient or the legal authority of another party to sign on the patient's behalf. The RVP is responsible for consulting the Law Department for guidance before the admission process can proceed.

The patient cannot be dialyzed if:

- The patient has been deemed by a physician to be incompetent or to lack mental capacity consistent with state law,
 - The patient does not have an appropriate legal guardian or an agent with a valid healthcare power of attorney or healthcare proxy, and
 - The law department determines that state law does not permit family members to give consent.
-

**Who is
Authorized to
Sign
Admission
Documents?**

Patients must have the mental capacity/competency to consent to treatment and sign admission forms in order for treatment to be given in the facility, except as described below.

If a patient has been deemed by a physician to lack the mental capacity/competency to consent to treatment, a Legally Authorized Person may consent to the patient's treatment and may sign the admission forms.

Patient Admission

NOTE: State laws vary on who may consent to treatment on the patient’s behalf if the patient lacks capacity or competency to consent.

In some states, family members or persons permitted by state law may consent to the patient’s treatment and sign the admission forms even if such persons do not hold a power of attorney for healthcare or healthcare proxy as the Law Department will determine.

For purposes of this Policy, a ‘Legally Authorized Person ’ is as follows:

- (a) The patient’s legal guardian or someone who hold a valid power of attorney for healthcare/healthcare proxy or who may sign on behalf of the patient under state law as determine by the Law Department.
- (b) A parent or legal guardian if the patient is a minor.

NOTE: If there is any doubt the person is authorized to sign the consent contact the Law Department.

**Patient
Appears
Unable to
Consent for
Treatment**

If a patient comes for their first treatment and does not appear to have the mental capacity/competency, the nurse:

- must notify the patient’s attending physician of the patient’s perceived incapacity to understand and his/her inability to consent, and
- should seek confirmation whether a medical determination of incompetency or lack of capacity has been made in the medical record consistent with state law, and
- should attempt to contact any emergency contacts listed on the patient’s admission paperwork in an attempt to find a family member who can
 - provide proof of guardianship/power of attorney for healthcare or healthcare proxy (which must be provided at the time of admission, prior to treatment being provided), or
 - assist in providing valid consent to treatment, if permitted under state law, or who can obtain legal authority/guardianship to represent the patient.

Patient Admission

Required Documents that must be Signed Prior to First Dialysis Treatment

The Clinical Manager or designee will conduct an admission interview with all new patients.

The following documents and any state-specific required documents must be reviewed with and signed by the patient and/or their Legally Authorized Person before or at their first scheduled dialysis treatment:

- Informed Consent for Dialysis (appropriate to modality chosen)
- Admission Agreement (appropriate to modality chosen)
- FMCNA Notice of Privacy Practices and Acknowledgment of Receipt of Notice of Privacy Practices Form (or document such efforts consistent with this policy)
- Facility's Assignment of Benefits
- Medicare Secondary Payor Questionnaire (MSPQ)
- Spectra Assignment of Benefits

Consent to Receive, Use and Disclose Health Information for Treatment Payment and Health Care Operations

Note: Patients or their Legally Authorized Persons not be asked to sign consent forms for services that are not being provided (ex. blood transfusion consent) until the actual service is needed. Blank consents forms should never be signed or used.

Copies of all insurance cards, front and back, including prescription drug plans, should be made at the time of admission.

All required Admission forms are filed in the patient's medical record. In addition, the Clinical Manager should refer to the Admission Form Distribution Guide FMS-CS-IC-I-103-009D1 to determine the appropriate distribution for each of the forms.

FMCNA Notice of Privacy Practice

A copy of the "FMCNA Notice of Privacy Practices (NPP)" must be given to each patient that is receiving direct care from an FMCNA provider prior to the patient's first treatment (see Privacy Notice Procedure COR-COMP-PS-0-001-001C1).

Patients have a right to review this Notice of Privacy Practices prior to

signing the “Acknowledgement of Receipt of the NPP” form (See COR-COMP-PS-0-001-001D3). The “Acknowledgement of Receipt of the NPP” form should be signed by the patient or Legally Authorized Person, prior to the patient’s first treatment from an FMCNA direct provider of care. This form serves as an acknowledgement of receipt of the FMCNA Notice of Privacy Practices.

NOTE: This form is **not** a condition for treatment. If the patient refuses to sign the acknowledgement form, the FMCNA staff should document the efforts that were made to obtain their signature and document that the FMCNA Notice of Privacy Practices was provided to the patient. This documentation should be made on the acknowledgement form and should be witnessed by another staff member. The acknowledgement form should be kept as part of the permanent active medical record.

A copy of this notice must also be posted in a clear and prominent location readily visible to patients in each FMCNA physical service delivery site. This notice will also be posted on the FMCNA web site. In addition, whenever the notice is revised, the FMCNA direct provider must make the notice available upon request.

Additional Information Provided During Admission and Orientation Process

All new admissions to the facility will receive the following information:

- Patient Rights and Responsibilities within the first six (6) treatments
- Patient Complaints and Grievances information.
- Information about the members of the healthcare team and contact information for the facility and members of the team
- Specific information contained in the Patient Rights and Responsibilities and Patient Complaints and Grievances information that relate to facility policies that affect patients should be reviewed with the patient or Legally Authorized Person by the RN or Master’s Social Worker during the patient’s subsequent treatments as part of the admission orientation process.
- Facility policy information that should be reviewed includes, but is not limited to: conditions for routine and involuntary discharge, if interruption of treatment to use the restroom is needed, visitor policy, eating and

drinking policy and weapons and firearms policy.

**Advance
Directive/DNR
Status**

All new admissions to the facility will be asked if they have an Advance Directive and/or a valid state specific Do Not Resuscitate Order. If the patient or Legally Authorized Person indicates that these exist, the facility will ask that a copy be provided to be added to the patient's medical record.

All new admissions will be given the "FMCNA Notice of Do Not Resuscitate (DNR) Practices" information sheet and must sign the "Acknowledgement of Receipt of FMCNA Notice of Do Not Resuscitate Practices". A Registered Nurse or Social Worker also must complete and sign the Acknowledgement and retain it in the patient's medical record.

Until a valid state specific Do Not Resuscitate Order is provided or executed by the patient or Legally Authorized Person, the patient will be considered a full code. For additional information, refer to Do Not Resuscitate Order policy and procedure and Advance Directive Policy.

**Information
Regarding
Modalities
and Schedules**

The patient shall be made aware of and afforded access, where available, to all treatment modalities provided by the facility as appropriately certified or licensed by the state:

- In-center Hemodialysis
- Self-care Dialysis
- Nocturnal In-center Hemodialysis
- Home Hemodialysis (Nocturnal and Daytime)
- Continuous Ambulatory Peritoneal Dialysis
- Continuous Cycling Peritoneal Dialysis
- Referral for Renal Transplantation

Additionally, the patient shall be provided with resource information for dialysis modalities not offered by the facility, including information about alternative scheduling options for working patients.

2012 Financial Statements for Fresenius Medical Care Holdings, Inc. were submitted previously to the Board with #13-040, Fresenius Medical Care Lemont.

2013 Financial Statements for Fresenius Medical Care Holdings, Inc. were submitted previously to the Board with #14-029, Fresenius Medical Care Grayslake and are the same financials that pertain to this application. In order to reduce bulk these financials can be referred to if necessary.

Safety Net Impact Statement

The change of ownership of the Neomedica – Round Lake dialysis facility will not have any impact on safety net services in the Round Lake area of Lake County. Outpatient dialysis services are not typically considered "safety net" services, to the best of our knowledge. However, we do provide care for patients in the community who are economically challenged and/or who are undocumented aliens, who do not qualify for Medicare/Medicaid pursuant to an Indigent Waiver policy. We assist patients who do not have insurance in enrolling when possible in Medicaid and/or Medicaid as applicable, and also our social services department assists patients who have issues regarding transportation and/or who are wheel chair bound or have other disabilities which require assistance with respect to dialysis services and transport to and from the unit.

This particular application will not have an impact on any other safety net provider in the area, as no hospital within the area provides dialysis services on an outpatient basis.

Fresenius Medical Care is a for-profit publicly traded company and is not required to provide charity care, nor does it do so according to the Board's definition. However, Fresenius Medical Care provides care to patients who do not qualify for any type of coverage for dialysis services. These patients are considered "self-pay" patients. They are billed for services rendered, and after three statement reminders the charges are written off as bad debt. Collection actions are not initiated unless the applicants are aware that the patient has substantial financial resources available and/or the patient has received reimbursement from an insurer for services we have rendered, and has not submitted the payment for same to the applicants. Fresenius notes that as a for profit entity, it does pay sales, real estate and income taxes. It also does provide community benefit by supporting various medical education activities and associations, such as the Renal Network and National Kidney Foundation.

The table on the following page shows the amount of "self-pay" care and Medicaid services provided for the 3 fiscal years prior to submission of the application for all Fresenius Medical Care facilities in Illinois.

Note:

A new billing procedure was put into place in late 2012 to reduce the amount of voids and rebilling. Previously patients with Medicaid pending were considered only under Medicaid and after the procedure change, Medicaid pending patients are considered under self-pay. This has resulted in the increase in "charity" (self-pay) patients and costs.

Medicaid number of patients appears to be going down, however this is due to the reassignment of the "charity" (self-pay) patients associated with the billing change.

Charity Care Information

The applicant(s) do not provide charity care at any of their facilities per the Board's definition of charity care because self-pay patients are billed and their accounts are written off as bad debt. Fresenius takes Medicaid patients without limitations or exception. The applicant(s) are for profit corporations and do not receive the benefits of not for profit entities, such as sales tax and/or real estate exemptions, or charitable donations. The applicants are not required, by any State or Federal law, including the Illinois Healthcare Facilities Planning Act, to provide charity care. The applicant(s) are prohibited by Federal law from advising patients that they will not be invoiced for care, as this type of representation could be an inducement for patients to seek care prior to qualifying for Medicaid, Medicare or other available benefits. Self-pay patients are invoiced and then the accounts written off as bad debt.

Uncompensated care occurs when a patient is not eligible for any type of insurance coverage (whether private or governmental) and receives treatment at our facilities. It is rare in Illinois for patients to have no coverage as patients who are not Medicare eligible are Medicaid eligible. This represents a small number of patients, as Medicare covers all dialysis services as long as an individual is entitled to receive Medicare benefits (i.e. has worked and paid into the social security system as a result) regardless of age. In addition, in Illinois Medicaid covers patients who are undocumented and/or who do not qualify for Medicare, and who otherwise qualify for public assistance. Also, the American Kidney Fund provides low cost insurance coverage for patients who meet the AKF's financial parameters and who suffer from end stage renal disease (see uncompensated care attachment). The applicants work with patients to procure coverage for them as possible whether it be Medicaid, Medicare and/or coverage through the AKF. The applicants donate to the AKF to support its initiatives.

If a patient has no available insurance coverage, they are billed for services rendered, and after three statement reminders the charges are written off as bad debt. Collection actions are not initiated unless the applicants are aware that the patient has substantial financial resources available and/or the patient has received reimbursement from an insurer for services we have rendered, and has not submitted the payment for same to the applicants

Nearly all dialysis patients in Illinois will qualify for some type of coverage and Fresenius works aggressively to obtain insurance coverage for each patient.

Fresenius Medical Care North America - Community Care

Fresenius Medical Care North America (FMCNA) assists all of our patients in securing and maintaining insurance coverage when possible.

American Kidney Fund

FMCNA works with the American Kidney Fund (AKF) to help patients with insurance premiums at no cost to the patient.

Applicants must be dialyzed in the US or its territories and referred to AKF by a renal professional and/or nephrologist. The Health Insurance Premium Program is a “last resort” program. It is restricted to patients who have no means of paying health insurance premiums and who would forego coverage without the benefit of HIPP. Alternative programs that pay for primary or secondary health coverage, and for which the patient is eligible, such as Medicaid, state renal programs, etc. must be utilized. Applicants must demonstrate to the AKF that they cannot afford health coverage and related expenses (deductible etc.).

Our team of Financial Coordinators and Social Workers connect patients who cannot afford to pay their insurance premiums, with AKF, which provides financial assistance to the patients for this purpose. The benefit of working with the AKF is that the insurance coverage which AKF facilitates applies to all of the patient’s insurance needs, not just coverage for dialysis services.

Indigent Waiver Program

FMCNA has established an indigent waiver program to assist patients who are unable to obtain insurance coverage or who lack the financial resources to pay for medical services. In order to qualify for an indigent waiver, a patient must satisfy eligibility criteria for both annual income and net worth.

Annual Income: A patient (including immediate family members who reside with, or are legally responsible for, the patient) may not have an annual income in excess of two (2) times the Federal Poverty Standard in effect at the time. Patients whose annual income is greater than two (2) times the Federal Poverty Standard may qualify for a partial indigent waiver based upon a sliding scale schedule approved by the Office of Business Practices and Corporate Compliance.

Net Worth: A patient (including immediate family members who reside with, or are legally responsible for, the patient) may not have a net worth in excess of \$75,000 (or such other amount as may be established by the Office of Business Practices and Corporate Compliance based on changes in the Consumer Price Index

The Company recognizes the financial burdens associated with ESRD and wishes to ensure that patients are not denied access to medically necessary care for financial reasons. At the same time, the Company also recognizes the limitations imposed by federal law on offering “free” or “discounted” medical items or services to Medicare and other government supported patients for the purpose of inducing such patients to receive ESRD-related items and services from FMCNA. An indigent waiver excuses a patient’s obligation to pay for items and services furnished by FMCNA. Patients may have dual coverage of AKF assistance and an Indigent Waiver if their financial status qualifies them for both programs.

IL Medicaid and Undocumented patients

FMCNA has a bi-lingual Regional Insurance Coordinator who works directly with Illinois Medicaid to assist patients with Medicaid applications. An immigrant who is unable to produce proper documentation will not be eligible for Medicaid unless there is a medical emergency. ESRD is considered a medical

emergency.

The Regional Insurance Coordinator will petition Medicaid if patients are denied and assist undocumented patients through the application process to get them Illinois Medicaid coverage. This role is actively involved with the Medicaid offices and attends appeals to help patients secure and maintain their Medicaid coverage for all of their healthcare needs, including transportation to their appointments.

FMCNA Collection policy

FMCNA's collection policy is designed to comply with federal law while not penalizing patients who are unable to pay for services.

FMCNA does not use a collection agency for patient collections unless the patient receives direct insurance payment and does not forward the payment to FMCNA.

Medicare and Medicaid Eligibility

Medicare: Patients are eligible for Medicare when they meet the following criteria: age 65 or older, under age 65 with certain disabilities, and people of all ages with End-Stage Renal Disease (permanent kidney failure requiring dialysis or a kidney transplant).

There are three insurance programs offered by Medicare, Part A for hospital coverage, Part B for medical coverage and Part D for pharmacy coverage. Most people don't have to pay a monthly premium, for Part A. This is because they or a spouse paid Medicare taxes while working. If a beneficiary doesn't get premium-free Part A, they may be able to buy it if they (or their spouse) aren't entitled to Social Security, because they didn't work or didn't pay enough Medicare taxes while working, are age 65 or older, or are disabled but no longer get free Part A because they returned to work. Part B and Part D both have monthly premiums. Patients must have Part B coverage for dialysis services.

Medicare does allow members to enroll in Health Plans for supplemental coverage. Supplemental coverage (secondary) is any policy that pays balances after the primary pays reducing any out of pocket expenses incurred by the member.

Medicare will pay 80% of what is allowed by a set fee schedule. The patient would be responsible for the remaining 20% not paid by Medicare. The supplemental (secondary) policy covers the cost of co-pays, deductibles and the remaining 20% of charges.

Medicaid: Low-income Illinois residents who can't afford health insurance may be eligible for Medicaid. In addition to meeting federal guidelines, individuals must also meet the state criteria to qualify for Medicaid coverage in Illinois.

Self-Pay

A self-pay patient would not have any type of insurance coverage (un-insured). They may be un-insured because they do not meet the eligibility requirements for Medicare or Medicaid and can not afford a commercial insurance policy.

In addition, a patient balance becomes self-pay after their primary insurance pays, but the patient does not have a supplemental insurance policy to cover the remaining balance. The AKF assistance referenced earlier may or may not be available to these patients, dependent on whether or not they meet AKF eligibility requirements.
