Re: Project #15-012: OSF Healthcare System d/b/a OSF Saint Anthony Medical Center, Major
Modernization through construction of a 4-Story Bed Pavilion, Rockford, Illinois
First Request for Permit Renewal

Dear Ms. Avery:

On behalf of OSF Saint Anthony Medical Center (the "Medical Center"), I am submitting a permit renewal request for the above referenced project. The current permit is set to expire on March 31, 2018 and the Medical Center is requesting a six month extension, until September 30, 2018, to allow sufficient time for project completion, including the required Illinois Department of Public Health certification survey. The permit was issued for major modernization through construction of a 4-story bed pavilion. The status of the project is as follows:

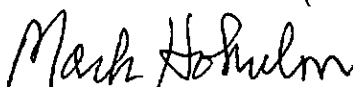

- The project is very close to complete (95% complete).
- To date, approximately \$75,000,000 has been spent on the project.
- The project scope and cost is in compliance with the permit issued on June 2, 2015.

The Medical Center is nearing the completion of the project and it is possible the project will be complete from a construction standpoint by March 31, 2018. However, there may be a possible delay in the installation/completion of the elevator resulting in a delay in completion of the construction. Regardless, it would be impossible for IDPH to conduct a survey and certify the project for occupancy by the 03/31/18 date. As a result, we are requesting an extension of the completion date through September 30, 2018.

I am submitting the required permit renewal fee with this request.

Thank you for your consideration, and should you have any questions do not hesitate to contact me at 309-308-9656.

Sincerely,

Mark Hohulin, Senior Vice President
OSF Healthcare System
