

**ILLINOIS HEALTH FACILITIES AND SERVICES REVIEW BOARD
APPLICATION FOR PERMIT**

ORIGINAL

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

RECEIVED

This Section must be completed for all projects.

JUN 05 2015

Facility/Project Identification

Facility Name: Vista Medical Center East			HEALTH FACILITIES & SERVICES REVIEW BOARD
Street Address: 1324 N. Sheridan Road			
City and Zip Code: Waukegan 60085			
County: Lake	Health Service Area 08	Health Planning Area: A-09	

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name: Waukegan Illinois Hospital Company, LLC d/b/a Vista Medical Center East ("Vista East")
Address: 1324 N. Sheridan Road, Waukegan, IL 60085
Name of Registered Agent: Corporation Service Company - IL
Name of Chief Executive Officer: Barbara J. Martin
CEO Address: 1324 N. Sheridan Road, Waukegan, IL 60085
Telephone Number: 847-360-4001

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/> Non-profit Corporation	<input type="checkbox"/> Partnership	
<input type="checkbox"/> For-profit Corporation	<input type="checkbox"/> Governmental	
<input checked="" type="checkbox"/> Limited Liability Company	<input type="checkbox"/> Sole Proprietorship	<input type="checkbox"/> Other

o Corporations and limited liability companies must provide an **Illinois certificate of good standing**.

o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

APPEND DOCUMENTATION AS <u>ATTACHMENT-3</u> , IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.	

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Flood Plain Requirements**N/A – Modernization of an existing building**

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS ATTACHMENT-5 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Historic Resources Preservation Act Requirements

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS ATTACHMENT-6 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- ☐ Substantive
- ☒ Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does NOT have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

Vista Medical Center East ("Vista East") proposes modernization of its current hospital building to accommodate its 165 medical surgical beds ("MS beds") and 11 pediatric beds in all private rooms. The pediatric beds in use are all in semi-private rooms. Currently the 165 MS beds are located in mostly semi-private rooms with only 37 in private rooms.

In 2012 the hospital surrendered 98 medical surgical and 10 pediatric beds. As a result it has significant space on floors 2 through 4 to expand to all private rooms. In addition Abbott Laboratories leased space from the Hospital on the 3rd and 4th floors, and that lease has ended leaving room on both floors for the expansion.

The modernization will occur on floors 2-4, with minor primarily cosmetic improvement on floor 5. It will impact a total of 65,110 GSF including 6,621 of non-clinical GSF which will be modernized for administrative space to be used for administrative offices, family waiting areas and staff lounges. The medical surgical beds will be in 156 private rooms with the remaining nine beds as reserve beds. There are nine rooms on 5 West that have two headwalls, so they can easily be converted to semi-private if necessary based on census. If this is done, all 165 medical surgical beds could be set up and staffed as necessary. The 11 pediatric beds will be in private rooms in a distinct and separated unit per IDPH requirements. A description of the modernization is attached. The total cost is \$17,810,634. There will be no new beds or categories of service.

The project will allow for enhanced ADA accessibility within the rooms and will include some bariatric bed rooms for larger patients and isolation rooms on every floor. The move to all private rooms will bring Vista East in line with the other hospitals in the service area so that it can remain competitive and offer the best care to its patients.

Vista East is the primary provider of safety net services in Lake County. In 2013, 24.8% of Vista East's inpatients were Medicaid recipients and in 2014 this increased almost 8%, to 32.7%.

This project is non-substantive under the Board's rules as it does not propose a new category of service or discontinue an existing category of service.

Vista All Private Room Conversion at Vista Medical Center East
Scope of Work

2 West (Medical Surgical and Pediatric)

- Typical Patient Room
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Removing existing headwall and replace with a new headwall.
 - Replacing room lighting.
 - Bringing all utilities up to current code. This includes med gas and electrical.
- Typical Patient Toilet Room
 - Updating all room finishes including painting all walls, tiling over existing wall tile, replacing tile flooring, replacing ceiling tile and grid (where present) and replace door.
 - Replacing toilet and sink fixtures.
 - Replacing all toilet accessories.
 - Removing existing tub and create a shower compartment.
 - Replacing room lighting.
- New nurse station
 - Removing an existing central nurse station and 3 offices to create a new enlarged nurse station.
 - Creating a new Medication Room and Nourishment Room.
- Bariatric Patient Rooms (medical surgical rooms equipped for larger patients)
 - Demolish the existing interim nursery, staff lounge and storage room and redeveloping into four (4) accessible bariatric patient rooms.
 - All four rooms will have accessible toilet rooms.
 - All patient rooms will have all new finishes and new headwalls.
- All existing support spaces (Storage Rooms, Utility Rooms, Supply Rooms, Janitor)
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Replacing room lighting.
 - Refacing existing millwork where applicable.
- Family Lounge
 - Creating a new Family Lounge from an existing nurse station for the pediatric area.
 - Providing all new finishes.
- Existing Family Lounge and Sleep Room
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Replacing room lighting.
- Corridors
 - Updating all corridor finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors and replacing all wall protection.
 - Replacing corridor lighting.

3 West (Medical Surgical)

- Typical Patient Room
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Removing existing headwall and replace with a new headwall.
 - Replacing room lighting.
 - Bringing all utilities up to current code. This includes med gas and electrical.
- Typical Patient Toilet Room
 - Updating all room finishes including painting all walls, tiling over existing wall tile, replacing tile flooring, replacing ceiling tile and grid (where present) and replace door.
 - Replacing toilet and sink fixtures.
 - Replacing all toilet accessories.
 - Removing existing tub and create a shower compartment.
 - Replacing room lighting.
- New Nurse Station
 - Removing an existing central nurse, staff room and a patient room to create a new enlarged nurse station.
- All existing support spaces (Storage Rooms, Utility Rooms, Supply Rooms, Janitor, Locker Rooms, Medication, Nourishment)
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Replacing room lighting.
 - Refacing existing millwork where applicable.
- Offices
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Replacing room lighting.
- Corridors
 - Updating all corridor finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors and replacing all wall protection.
 - Replacing corridor lighting.

3 West Center/3 Center (Medical Surgical)

- Typical Patient Room
 - Reconfiguring existing semi-private room into two private rooms.
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Removing existing headwalls and replacing with a new headwall.
 - Replacing room lighting.
 - Bringing all utilities up to current code. This includes med gas and electrical.
- Typical Patient Toilet Room

- Demolish existing tub and toilet rooms and reconstruct a new private toilet room for each new room.
- Providing minimum code required number of ADA accessible toilet rooms (3).
- New Medication Room
 - Converting an existing storage room into a new medication room.
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
- All existing support spaces (Storage Rooms, Utility Rooms, Supply Rooms, Janitor, Locker Rooms, Medication, Nourishment)
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Replacing room lighting.
 - Refacing existing millwork where applicable.
 - Replacing room lighting.
- Corridors
 - Updating all corridor finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors and replacing all wall protection.
 - Replacing corridor lighting.

3 East/ 3 East Center (Medical Surgical)

- This entire area is to be gutted down to the structure and rebuilt with the rooms indicated below.
- Patient Rooms (25)
 - 1 room set up for isolation.
- Patient Toilet Rooms (25)
 - Majority of them are ADA accessible
- Nurse Station (1)
- Support spaces (Storage Rooms, Utility Rooms, Janitor, Medication, Nourishment)
- Family Lounge (1)
- Staff Lounge (1)
- IT/Communications (1)
- Public Toilets (2)
- Corridors

4 West (Medical Surgical dedicated to Orthopedics and Oncology)

- Typical Patient Room
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Removing existing headwall and replace with a new headwall.
 - Replacing room lighting.
 - Bringing all utilities up to current code. This includes med gas and electrical.
- Typical Patient Toilet Room

- Updating all room finishes including painting all walls, tiling over existing wall tile, replacing tile flooring, replacing ceiling tile and grid (where present) and replace door.
 - Replacing toilet and sink fixtures.
 - Replacing all toilet accessories.
 - Removing existing tub and creating a shower compartment.
 - Replacing room lighting.
- Nurse Stations
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Refacing existing millwork where applicable.
 - Installing new solid surface countertops at wet locations.
- All existing support spaces (Storage Rooms, Utility Rooms, Supply Rooms, Janitor, Locker Rooms, Medication, Nourishment)
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Replacing room lighting.
 - Refacing existing millwork where applicable.
- Waiting and Offices
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Replacing room lighting.
- Corridors
 - Updating all corridor finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors and replacing all wall protection.
 - Replacing corridor lighting.

4 West Center/4 Center (Medical Surgical)

- Typical Patient Room
 - Reconfiguring existing semi-private room into two private rooms.
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Removing existing headwalls and replacing with a new headwall.
 - Replacing room lighting.
 - Bringing all utilities up to current code. This includes med gas and electrical.
- Typical Patient Toilet Room
 - Demolish existing tub and toilet rooms and reconstruct a new private toilet room for each new room.
 - Providing minimum code required number of ADA accessible toilet rooms (3).
- Physical Therapy (for inpatient orthopedic patients on floor only)
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.

- Replacing room lighting.
- Refacing existing millwork where applicable.
- Replacing room lighting.
- Nurse Station
 - Splitting existing nurse station to accommodate new patient room.
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Refacing existing millwork where applicable.
 - Installing new solid surface countertops at wet locations.
- Offices
 - Updating all room finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors, replacing all wall protection and replacing window treatments.
 - Replacing room lighting.
- Corridors
 - Updating all corridor finishes including painting all walls, replacing flooring, replacing ceiling tile and grid, replacing doors and replacing all wall protection.
 - Replacing corridor lighting.

4 East/4 East Center (Medical Surgical)

- This entire area is to be gutted down to the structure and rebuilt with the rooms indicated below.
- Patient Rooms (25)
 - 1 is set up for isolation.
- Patient Toilet Rooms (25)
 - Majority of them are ADA accessible
- Nurse Station (1)
- Support spaces (Storage Rooms, Utility Rooms, Janitor, Medication, Nourishment)
- Family Lounge (1)
- Staff Lounge (1)
- IT/Communications (1)
- Public Toilets (2)
- Corridors

5th Floor (Medical Surgical)

- Paint all painted wall surfaces in every room on the floor.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs	0	0	0
Site Survey and Soil Investigation	0	0	0
Site Preparation	0	0	0
Off Site Work	0	0	0
New Construction Contracts	0	0	0
Modernization Contracts	\$12,066,430	\$1,340,714	\$13,407,144
Contingencies	\$320,000	\$80,000	\$400,000.00
Architectural/Engineering Fees	\$674,960.00	\$92,040.00	\$767,000.00
Consulting and Other Fees	0	0	0
Movable or Other Equipment (not in construction contracts)	\$2,180,635	\$855,855	\$3,036,490
Bond Issuance Expense (project related)	0	0	0
Net Interest Expense During Construction (project related)	0	0	0
Fair Market Value of Leased Space or Equipment	0	0	0
Other Costs To Be Capitalized	\$120,000.00	\$80,000.00	\$200,000.00
Acquisition of Building or Other Property (excluding land)	0	0	0
TOTAL USES OF FUNDS	\$14,687,025	\$3,123,609	\$17,810,634
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities	\$14,687,025	\$3,123,609	\$17,810,634
Pledges

Bond Issues (project related)			
Mortgages			
Leases (fair market value)			
Governmental Appropriations			
Grants			
Other Funds and Sources			
TOTAL SOURCES OF FUNDS	\$14,687,025	\$3,123,609	\$17,810,634
NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

Related Project Costs

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project ☐ Yes ☒ No
 Purchase Price: \$ _____
 Fair Market Value: \$ _____

The project involves the establishment of a new facility or a new category of service
☐ Yes ☒ No

If yes, provide the dollar amount of all **non-capitalized** operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.

Estimated start-up costs and operating deficit cost is \$ N/A.

Project Status and Completion Schedules

For facilities in which prior permits have been issued please provide the permit numbers.

Indicate the stage of the project's architectural drawings:

☐ None or not applicable ☐ Preliminary
☒ Schematics ☐ Final Working

Anticipated project completion date (refer to Part 1130.140): December 31, 2017

Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):

- ☐ Purchase orders, leases or contracts pertaining to the project have been executed.
☐ Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies
☒ Project obligation will occur after permit issuance.

APPEND DOCUMENTATION AS **ATTACHMENT-8**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

State Agency Submittals

Are the following submittals up to date as applicable:

- ☒ Cancer Registry
☒ APORS
☒ All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted
☒ All reports regarding outstanding permits

Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.

Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
REVIEWABLE							
Medical Surgical							
Total Clinical							
NON REVIEWABLE							
Administrative							
Circulation							
Office Space							
Total Non-clinical							
TOTAL							

APPEND DOCUMENTATION AS ATTACHMENT-9, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Facility Bed Capacity and Utilization

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest **Calendar Year for which the data are available. Include observation days in the patient day totals for each bed service.** Any bed capacity discrepancy from the Inventory will result in the application being deemed **incomplete**.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate**.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
 - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
 - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
 - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE**Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space**

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::
 - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
 - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
 - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. **A narrative of the rationale that supports the projections must be provided.**

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UNFINISHED OR SHELL SPACE:**N/A**

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF to be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
 - a. Requirements of governmental or certification agencies; or
 - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
 - a. Historical utilization for the area for the latest five-year period for which data are available; and
 - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**ASSURANCES:****N/A**

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION VII - SERVICE SPECIFIC REVIEW CRITERIA

This Section is applicable to all projects proposing establishment, expansion or modernization of categories of service that are subject to CON review, as provided in the Illinois Health Facilities Planning Act [20 ILCS 3960]. It is comprised of information requirements for each category of service, as well as charts for each service, indicating the review criteria that must be addressed for each action (establishment, expansion and modernization). After identifying the applicable review criteria for each category of service involved, read the criteria and provide the required information, AS APPLICABLE TO THE CRITERIA THAT MUST BE ADDRESSED:

A. Criterion 1110.530 - Medical/Surgical, Obstetric, Pediatric and Intensive Care

- Applicants proposing to establish, expand and/or modernize Medical/Surgical, Obstetric, Pediatric and/or Intensive Care categories of service must submit the following information:
- Indicate bed capacity changes by Service: Indicate # of beds changed by action(s):

Category of Service	# Existing Beds	# Proposed Beds
<input checked="" type="checkbox"/> Medical/Surgical	165	165
<input type="checkbox"/> Obstetric		
<input checked="" type="checkbox"/> Pediatric	11	11
<input type="checkbox"/> Intensive Care		

- READ the applicable review criteria outlined below and **submit the required documentation for the criteria:**

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.530(b)(1) - Planning Area Need - 77 Ill. Adm. Code 1100 (formula calculation)	X		
1110.530(b)(2) - Planning Area Need - Service to Planning Area Residents	X	X	
1110.530(b)(3) - Planning Area Need - Service Demand - Establishment of Category of Service	X		
1110.530(b)(4) - Planning Area Need - Service Demand - Expansion of Existing Category of Service		X	
1110.530(b)(5) - Planning Area Need - Service Accessibility	X		
1110.530(c)(1) - Unnecessary Duplication of Services	X		
1110.530(c)(2) - Maldistribution	X	X	
1110.530(c)(3) - Impact of Project on Other Area Providers	X		
1110.530(d)(1) - Deteriorated Facilities			X
1110.530(d)(2) - Documentation			X

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.530(d)(3) - Documentation Related to Cited Problems			X
1110.530(d)(4) - Occupancy			X
110.530(e) - Staffing Availability	X	X	
1110.530(f) - Performance Requirements	X	X	X
1110.530(g) - Assurances	X	X	X
APPEND DOCUMENTATION AS <u>ATTACHMENT-20</u> , IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

VIII. - 1120.120 - Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: **Indicate the dollar amount to be provided from the following sources:**

\$17,810,634.00	a)	Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to:
	1)	the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and
	2)	interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
N/A	b)	Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
N/A	c)	Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
N/A	d)	Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including:
	1)	For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated;
	2)	For revenue bonds, proof of the feasibility of securing the specified amount and interest rate;
	3)	For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.;
	4)	For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment;
	5)	For any option to lease, a copy of the option, including all terms and conditions.
N/A	e)	Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
N/A	f)	Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
N/A	g)	All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
\$17,810,634.00	TOTAL FUNDS AVAILABLE	

APPEND DOCUMENTATION AS ATTACHMENT-36, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. **1120.130 - Financial Viability**

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver**N/A – Waiver Met**

The applicant is not required to submit financial viability ratios if:

1. "A" Bond rating or better
2. All of the projects capital expenditures are completely funded through internal sources
3. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
4. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS **ATTACHMENT-37**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which **audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion.** When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization		N	/	A
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS **ATTACHMENT 38**, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing N/A

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
Contingency									
TOTALS									
* Include the percentage (%) of space for circulation									

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT -39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for **ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS**:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)			
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			

Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS **ATTACHMENT-40**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

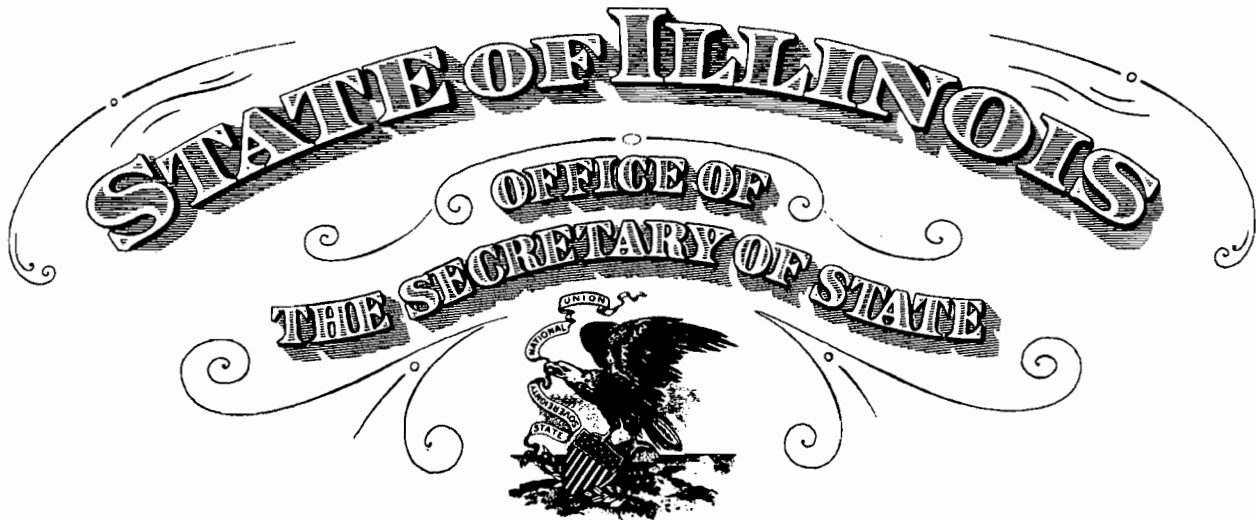

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care			

APPEND DOCUMENTATION AS **ATTACHMENT-41**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

After paginating the entire, completed application, indicate in the chart below, the page numbers for the attachments included as part of the project's application for permit:

HELPFUL INFORMATION

Late Payments & Partial Payments will be accepted with the understanding that any unpaid balance or full payment received after the installment due dates, will incur a state imposed 1.5% penalty per month (starting the day after the due date for the balance of 30 days).

Penalty will then increase to 3% for the next 30 days, etc.

This is the only bill you will receive. This bill includes a separate payment coupon for each installment.

Failure to receive a bill does not relieve the taxpayer of penalty if payment is late.

Payments returned to us by your bank as unpaid for any reason will be subject to a \$25.00 return item fee in addition to late penalties of 1.5% per month.

Personal checks received after 10/30/15 will be returned.

CONVENIENT WAYS TO PAY

Ach Direct Withdrawal: Forms are available on our website and must be completed at least two weeks prior to the due date. Phone: (1-877-690-3729) Jurisdiction code of 7021 is needed for phone payments. **On-Line payments:** Can be made by credit card (Visa, MasterCard, American Express or Discover) as well as online EChecks can be made through 11/02/2015. Additional users fee is added for both credit card and E-Check. **Participating Banks:** Using cash or check, original or duplicate bills are accepted. **By Mail:** Please make checks payable to Lake County Collector and mail using the envelopes provided. **In Person** at the Treasurer's Office using cash, check, Visa Credit & Visa Debit, Master Card, and Discover (Credit & Debit Card fees apply). **Drop Box:** Located outside the Waukegan Courthouse Complex on the northeast side or off Winchester by the Lake County Permit Center in Libertyville. For more payment details visit our website at **www.lakecountyil.gov/treasurer**

Attention: Amy Martin

Re: Illinois Certificate of Need ("CON") Clearance Letter Request

Dear Director Martin:

We represent Vista East (the "Applicant") in pursuing a CON from the Health Facilities & Services Review Board to modernize its existing hospital building located in Waukegan, Illinois. The internal floors of the building will be modernized to accommodate all private medical surgical patient rooms. The Illinois State Agency Historic Resources Preservation Act, 20 ILCS 34201/1 et seq. (the "Act"), provides that written notice of a proposed undertaking shall be given to the Director of the Illinois Historic Preservation Agency ("HPA") either by a State agency or a recipient of its funds, licenses or permits when the proposed undertaking might affect historic, architectural or archaeological resources. In addition, the CON application process requires a letter from HPA regarding any construction project's impact on possible architecturally significant or historical structure.

Enclosed is the information necessary for the HPA to conduct a review of the Project to determine whether any historic, architectural or archaeological sites might be impacted by the Project. Specifically, we provide the following information to you for review:

1. General project description and address: The project will include modernizing an approximate 65,110 GSF within the existing hospital building which will include inpatient beds.
2. Topographic or metropolitan map showing the general location of the project: See attached.
3. Photographs of any standing buildings/structure within the project area: See enclosed.
4. Address for building/structures, if present: 1324 N. Sheridan Road, Waukegan, IL.

U.S. practice conducted through McDermott Will & Emery LLP.

227 West Monroe Street Chicago, Illinois 60606-5096 Telephone: +1 312 372 2000 Facsimile: +1 312 984 7700 www.mwe.com

Illinois Historic Preservation Agency
May 27, 2015
Page 2

Upon review of the information provided in this letter, kindly forward confirmation to my attention indicating whether, in the HPA's opinion, the Project will have any impact on a historical or architecturally significant building or structures.

To our knowledge, there are no historical buildings in the area. Further, there are no state-designed historical sites in the vicinity of the proposed site.

Thank you for your consideration. If you have questions, please contact me at (312) 984-3365.

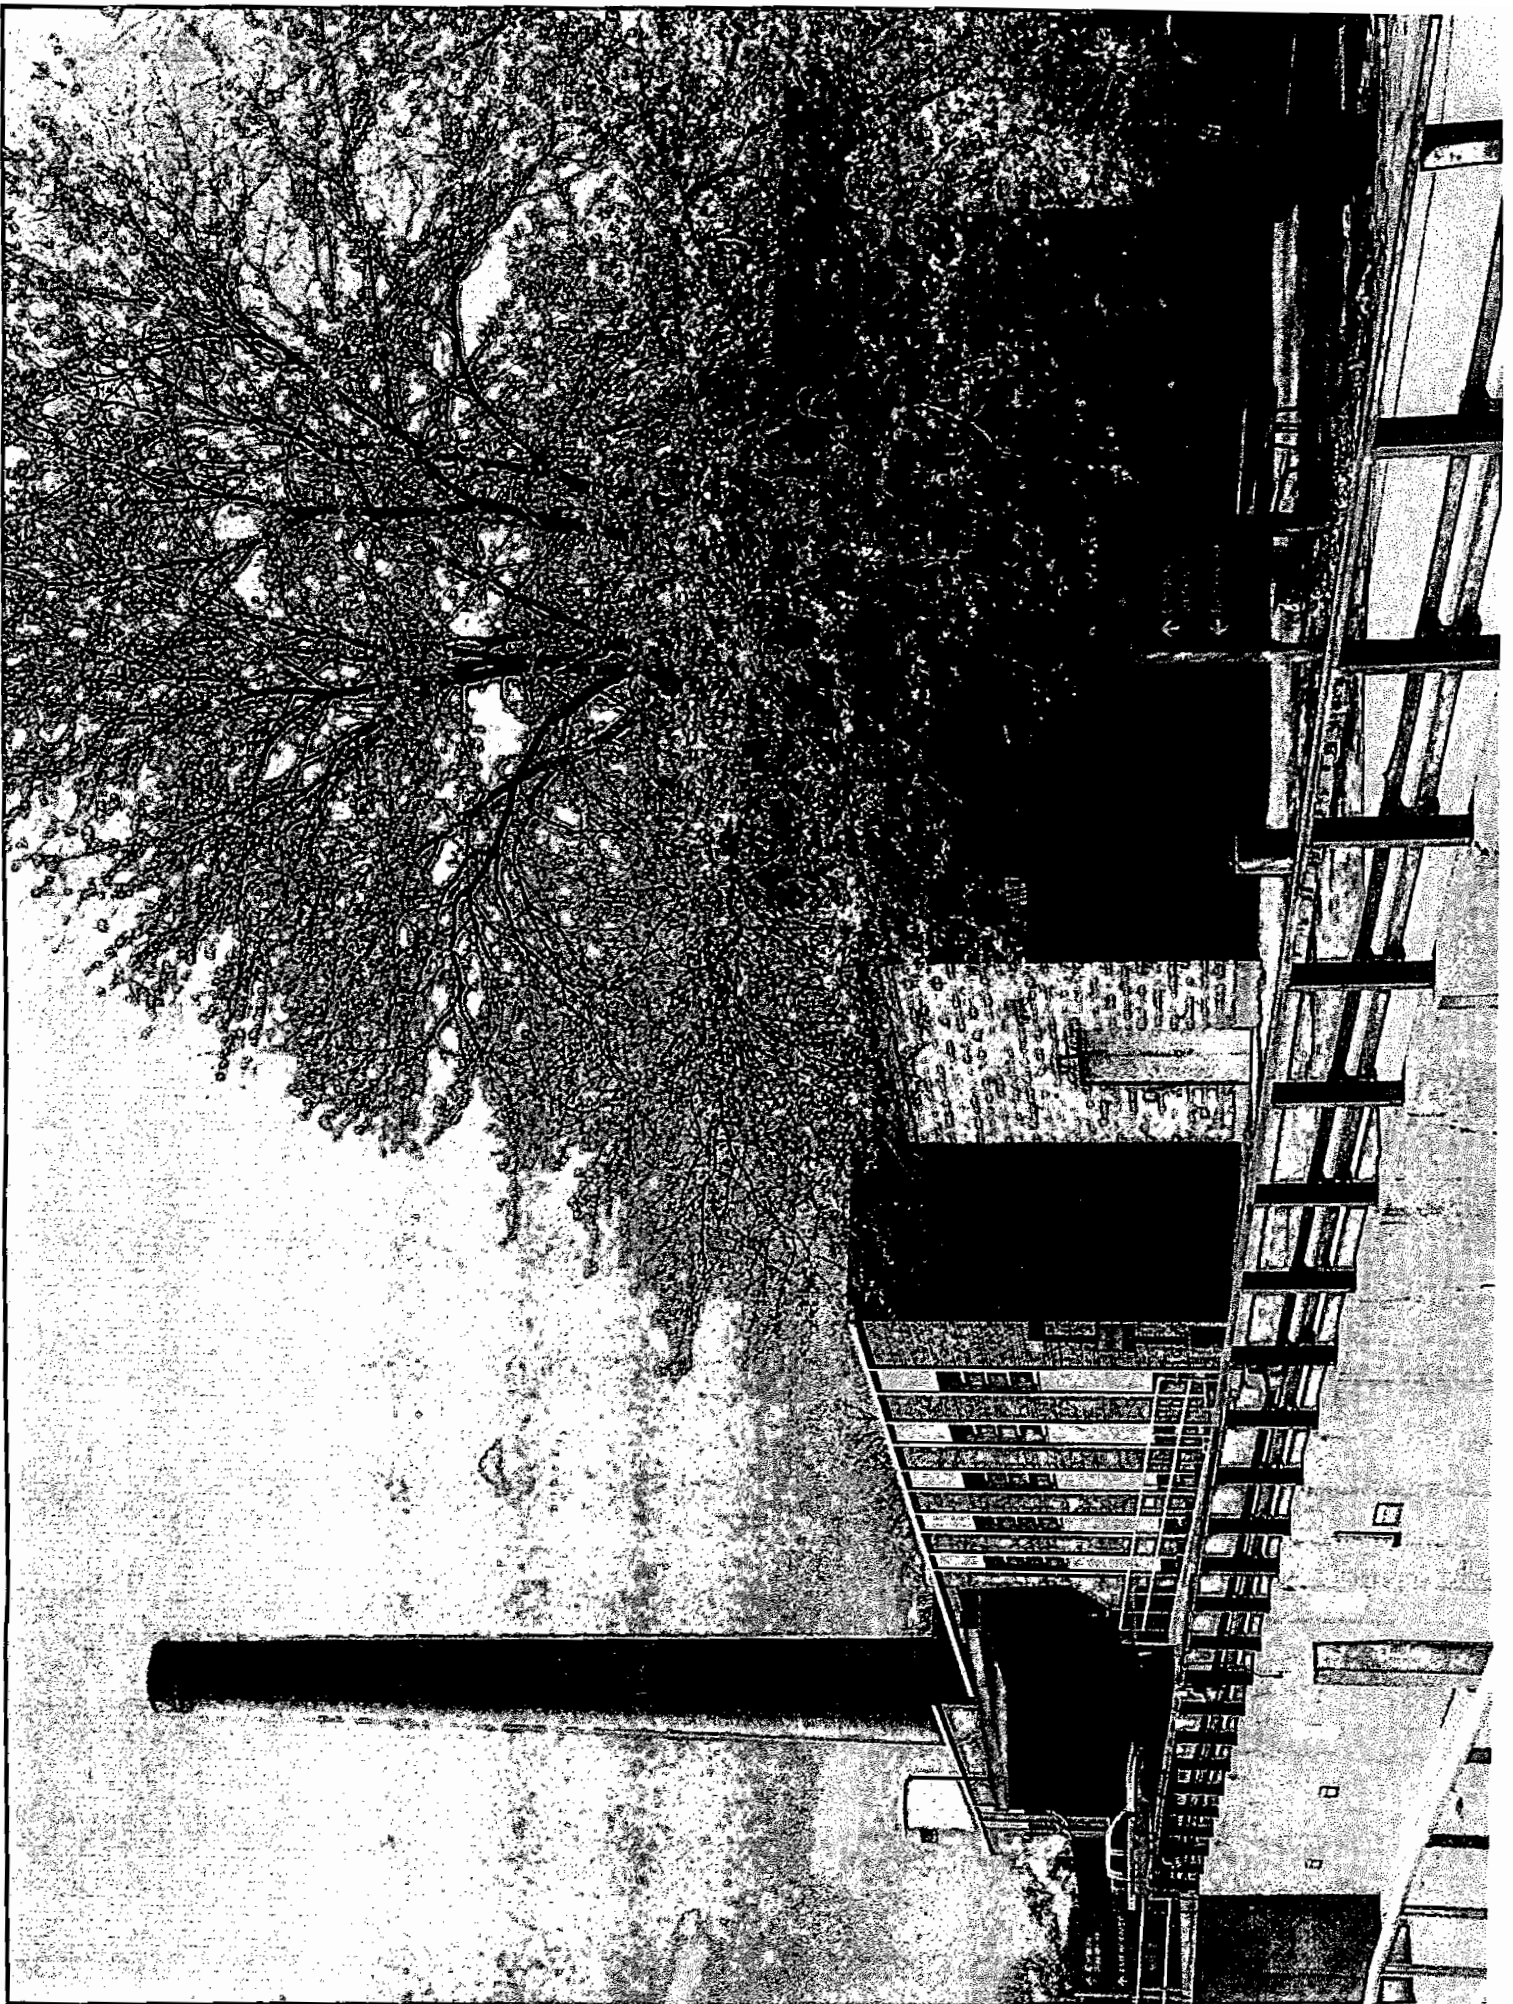

Sincerely,

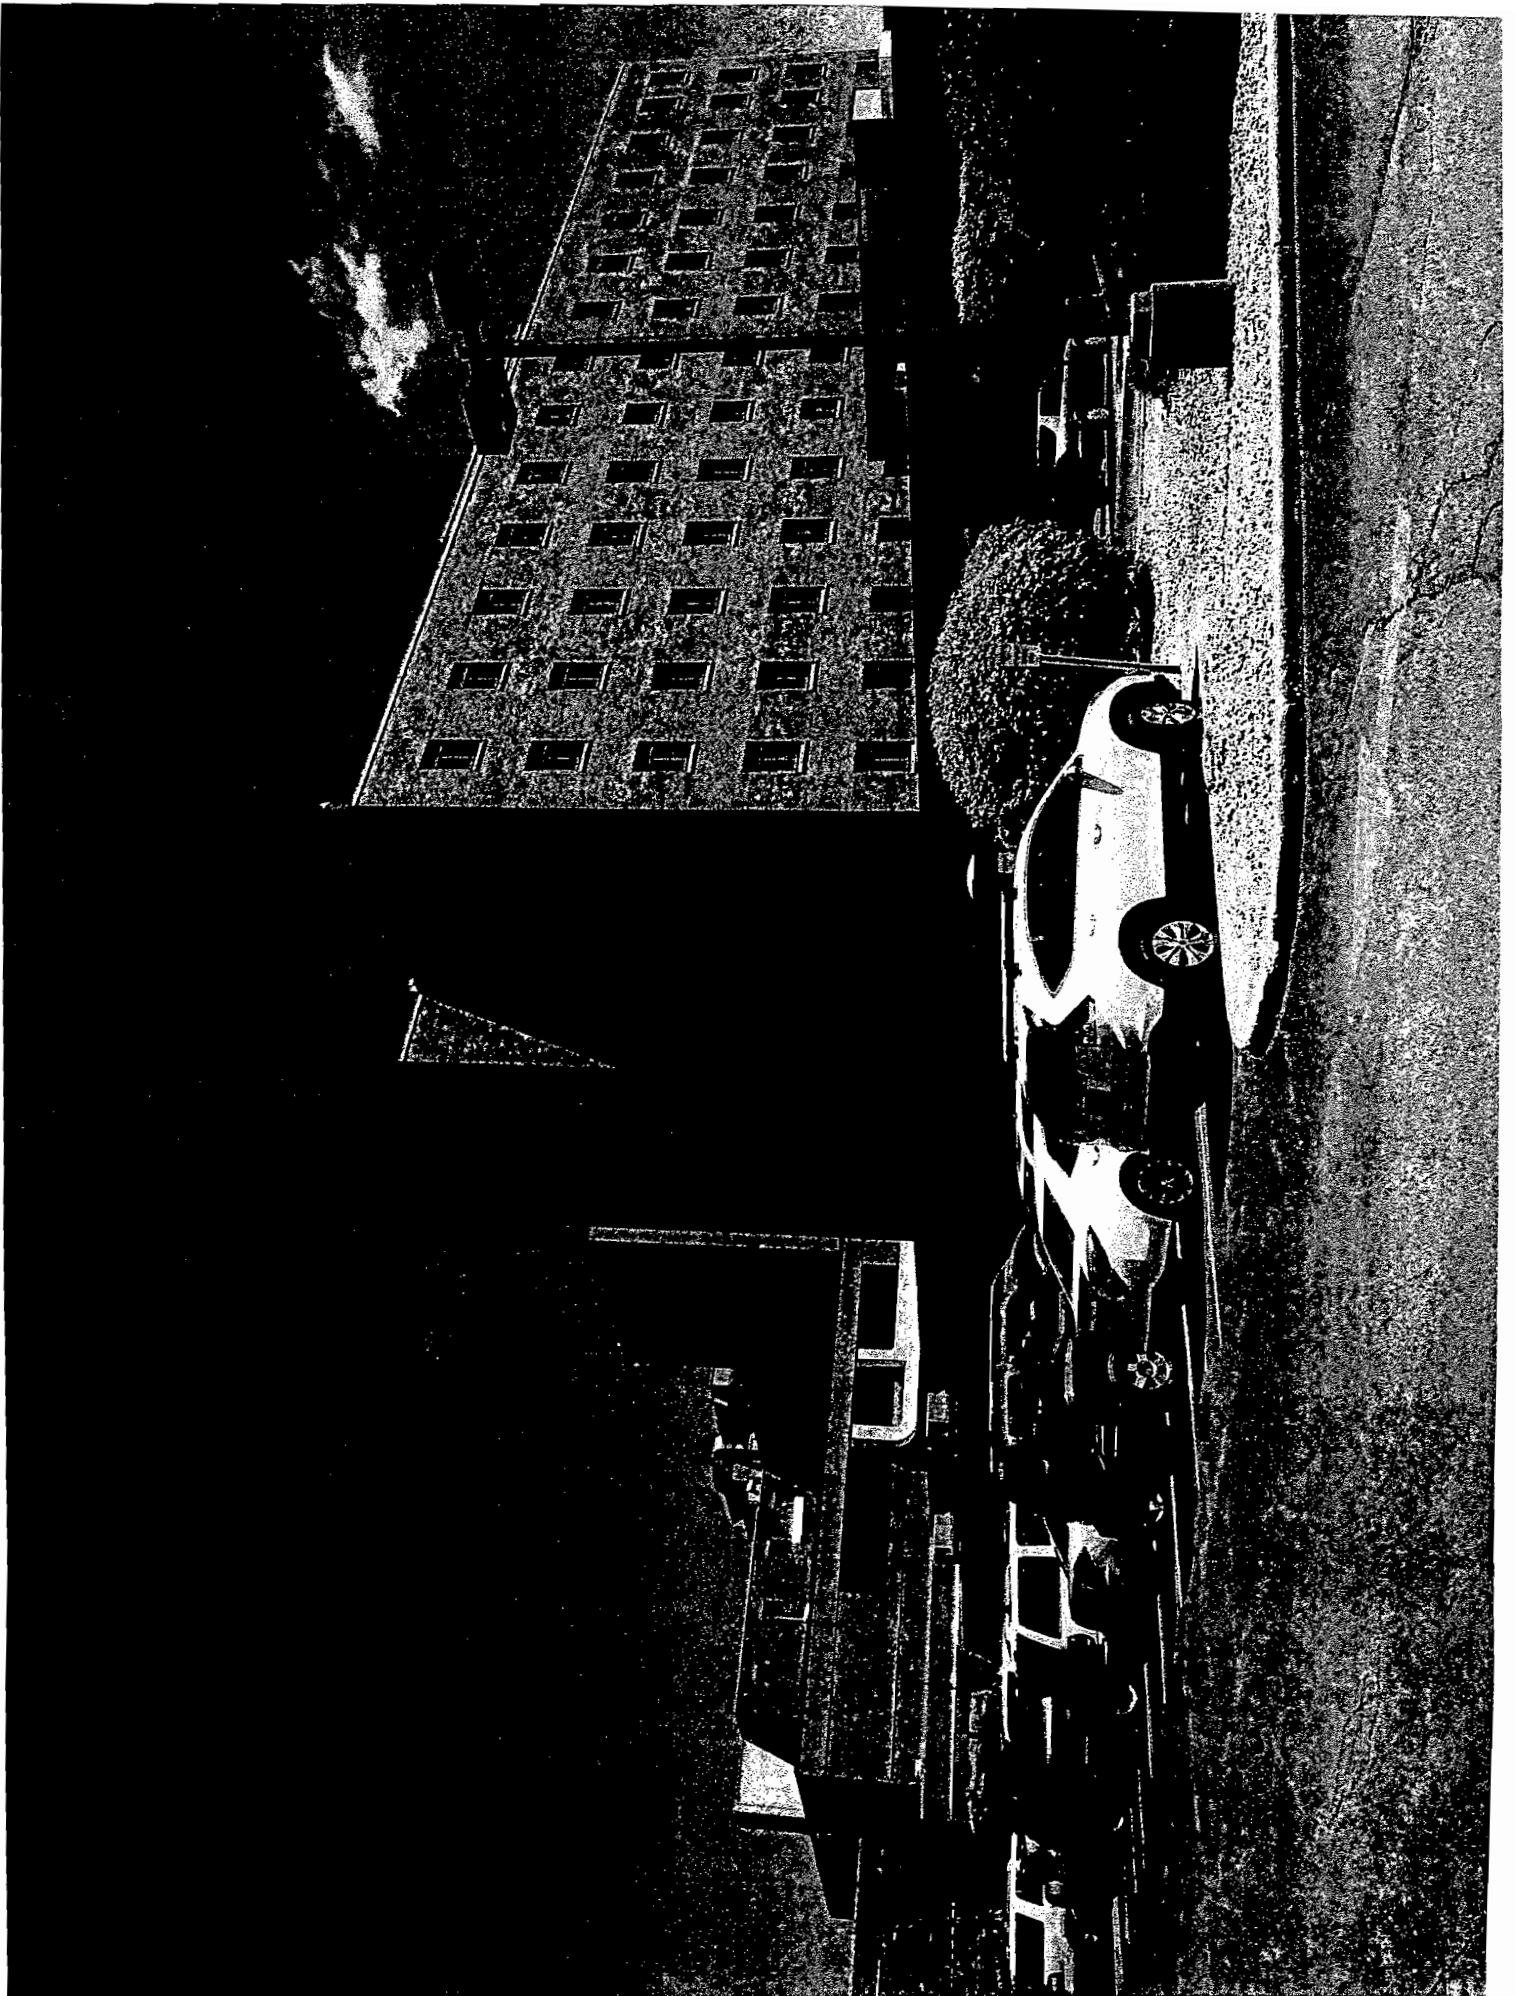

McDermott Will & Emery

Purpose (1110.230)

1. *Document that the project will provide health services that improve the health care or well-being of the market area population to be served.*

The primary purpose of the project is to address the limited space for medical surgical and pediatric rooms and to expand the space to allow for private rooms, versus almost all semi-private rooms, which is the current situation. Semi-private rooms create problems regarding infection control, patient privacy and patient stress. In addition, the current average room size of 200 GSF is small for a private room, let alone a semi-private room. The modernization will allow for 100% private medical surgical and pediatric rooms that will accommodate modern equipment, including beds and related monitoring machines. This will improve overall patient care and well-being. In addition the pediatric bed area will be a locked and walled off unit and will better align with the distinct unit requirements of IDPH. The modernization will take advantage of existing vacant space which is available on floors 2 through 4 of the hospital due to Vista East reducing its medical surgical and pediatric beds by 108 over the past few years, and due to Abbott Labs vacating space it had leased on the 3rd and 4th floors.

Vista East serves a relatively high Medicaid population (25% inpatient and 35% outpatient) and a more modern facility with standard of care private rooms will improve the health and well-being of its overall patient population, regardless of payer mix.

Purpose

2. *Define the planning area or market area, or other, per the applicant's definition.*

The market area is that of the existing hospital, including Waukegan and surrounding areas. Attached is a list of zip codes from the primary and secondary service area of the hospital, and a map of the service area.

Combined Service Area (CSA) **Vista Medical Center East**

- Primary Service Area
- Secondary Service Area

Note: Vista Medical Center East service area. Combined service area represents primary and secondary service areas. Source: Sg2 Analysis, 2014.

Purpose

3. *Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]*

See #1. Generally, the issues to be addressed relate to the need for space for private medical surgical and pediatric bed rooms.

4. *Cite the sources of the information provided as documentation.*

The hospital's data and statistics: U.S. Census Bureau Statistics. IDPH population projections.

Purpose

5. *Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.*

The project will enhance patient care, as follows:

- Private rooms reduce patient stress and hospital acquired infections;
- Private rooms allow for patient privacy. Ensuring privacy and dignity to the patient while under medical care has shown to help reduce patient anxiety during their stay and accelerate their recovery. Individual rooms also encourage family members and friends to be actively involved in the care of their loved ones also contributing to a faster recovery. . . and shorter stays;
- The larger rooms/space allow for family visiting capacity and sleep over, which improves patient care and comfort;
- The modernization will allow for more modern equipment and bed sizes in all medical surgical rooms;
- Patients will no longer have to share a toilet or shower;
- The private and larger rooms will enhance staff's availability to provide modern care. On the delivery of care, physicians, nurses and other clinicians find the private room a safer and more supportive environment in which to provide their services. Statistics show less confusion and fewer mistakes occur when there is only one patient in a room as well as more space in which to work.
- The pediatric rooms will be separated by locked doors and will be better compliant with IDPH concept for a distinct pediatric bed area.

6. *Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals as appropriate.*

A goal of the project is to reduce infection control and privacy issues associated with semi-private rooms. In addition, a goal is to provide a larger room for medical surgical inpatients, with private baths and space for modern beds and related equipment. Also, Vista East would like to improve the patient and patient family (or friend) experience by making its rooms more accommodating for an inpatient hospital stay. Frequently, sharing a room with another patient is uncomfortable and can limit patients from having visitors and overnight guests. Most of the hospitals in the service area have all private rooms, but Vista does not. Vista East is the safety net provider in the area and to remain competitive in the area and offer the best services to its patients it requires private rooms. The time frame for achieving the goal(s) is December 31, 2017 (the completion date for the modernization project).

Alternatives

Option 1: “Do Nothing”

This option would leave the existing hospital and inpatient environment untouched. It has been deemed unacceptable due to the following concerns: The current private/semi-private patient environment presents several concerns related to care inefficiencies, infection control issues, patient privacy and patient satisfaction to name a few. The existing patient units are too small for modern equipment and some do not have showers. For the reasons noted above, this option is not viable. The cost of this alternative is zero.

Option 2: “Modernize Existing” – The Chosen Alternative

This option retains the current private/inpatient bed mix and improves the patient, staff visitor experience in place.

Option 3: “Build New Hospital or New Bed Tower”

This option would replace the entire facility with a new hospital or build all new beds in a new tower to replace the existing inpatient units. This option is not feasible as there is no room to build on within the hospital campus footprint. This option was not priced out because it is not feasible.

Option 4: “Build More Floors For Expansion”

The possibility of building brand new patient floors on top of the hospital was briefly considered but was determined by architects to be structurally not suitable. This option was also not necessary due to excess GSF available to modernize on floors 2-4. While this option was not priced out due to it being an impossibility from a structural standpoint, the cost would undoubtedly exceed the cost of Option 2 (chosen option of modernization of existing space).

Size of Project

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?
Clinical				
Medical surgical	79,190	500-660 DGSF per room	actual size 479	Yes
Pediatric	5,130	500-660 DGSF per room	actual size 466	Yes
Administrative	8,275	N/A	N/A	N/A
Office Space				

Only proposed clinical GSF is indicated. The clinical space consists of inpatient bed space (medical surgical and pediatric).

Modernized MS Space – 53,359
 Modernized Pediatric Space – 5,130
 Modernized Admin – 6,621

PROJECT SERVICES UTILIZATION

UTILIZATION				
DEPARTMENT	HISTORICAL CON UTILIZATION CY14	PROJECTED UTILIZATION CY19	STATE STANDARD	MET STANDARD?
Medical/Surgical	66.4%	85% or higher	85%	Yes
Pediatric	13.8%	65% or higher*	65%	Yes

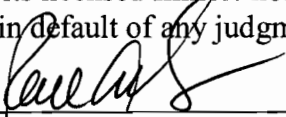

While historical utilization has not met HFSRB utilization requirements, the Hospital believes for reasons provided in Attachment 20 that by 2019 utilization targets will be met. For example, the 2014 utilization is based on 25 authorized pediatric beds. The Hospital now has 11 pediatric beds. This alone allows the target occupancy rate of 65% to be met based on historical utilization. While the medical surgical beds are now at 165, nine will be reserve beds. In addition, population growth in Lake County along with the percentage increase in utilization of the MS beds at Vista East from 2013 to 2014 and the attraction of all private rooms will allow the Hospital to meet target utilization for MS beds by 2019.

Detailed projection rationale is provided in Attachment 20. Projections are provided for CY19, two years after project completion.

(b) Background of applicant

The applicant, Waukegan Illinois Hospital Company, LLC is owned by subsidiaries or affiliates of Community Health Systems, Inc. None of its Board members or officers have been convicted of a crime and its licensed Illinois hospitals have not had any adverse actions taken against them. In addition, it is not in default of any judgment or governmental obligation.

Rachel Seifert

1110.530

(e) Deteriorated Facilities

1) The facilities are functionally obsolete as many medical surgical ("MS") and pediatric rooms at the Hospital are semi-private, and patients are thus required to share a toilet (although the rooms do not share a toilet). The rooms are approximately 300 GSF smaller than the state standard and yet there are two beds in a majority of the rooms. They are not up to standard regarding infection control (patients share a bathroom) or privacy. In addition certain medical equipment is difficult to place at bedside given the size of the rooms and the fact they are semi-private. Generally the rooms are not deteriorated due to age. However, the semi-private nature of the rooms causes the issues the hospital is attempting to address.

There are no IDPH or Joint Commission citations pertaining to the current MS or pediatric rooms.

The project does not involve an increase in beds. The service anticipates it will meet occupancy standards based on recent growth census and IDPH data projecting general population growth and aging population growth.

See attached information regarding historical utilization.

1110.530(d)(4) - Occupancy

Category of Service	Board Occupancy Standard	CY12	CY13	CY14
Medical/Surgical	85%	37.4%	62.2%	66.4%
Pediatrics*	65%	6.6%	7.9%	13.8%

	First Quarter 2015
Medical/Surgical	66.9
Pediatrics	14.0

* based on 25 versus current 11 beds

Vista East's combined medical/surgical admissions has increased slightly or remained level over the last three years. From 2013 to 2014 it increased 4% in medical surgical and 6% in pediatrics. If this increase continues, which the Hospital believes it will based on population growth and aging population numbers the ADC by 2019 will support the medical surgical beds at target occupancy. The pediatric ADC will be at 7 supporting, 11 pediatric beds. The Lake County population is predicted to grow by 4.3% between 2015-2020 and by 3% with respect to those 65+ within the same time frame. This population growth, along with historical census growth as seen from 2013-2015 through April, alone supports the occupancy projections (see attached). In addition, the all private room set up will increase volume due to patient preference and physician referral.

Introduction

This report presents projections of population from 2015 to 2025 by age and sex for Illinois, Chicago and Illinois counties produced for the Certificate of Need (CON) Program.

As actual future population trends are unknown, the projected numbers should not be considered a precise prediction of the future population; rather, these projections, calculated under a specific set of assumptions, indicate the levels of population that would result if our assumptions about each population component (births, deaths and net migration) hold true. The assumptions used in this report, and the details presented below, generally assume a continuation of current trends.

Methodology

These projections were produced using a demographic cohort-component projection model. In this model, each component of population change – birth, death and net migration – is projected separately for each five-year birth cohort and sex. The cohort – component method employs the following basic demographic balancing equation:

$$P_1 = P_0 + B - D + NM$$

Where:

P_1 = Population at the end of the period;

P_0 = Population at the beginning of the period;

B = Resident births during the period;

D = Resident deaths during the period; and

NM = Net migration (Immigration – Outmigration) during the period.

The model roughly works as follows: for every five-year projection period, the base population, disaggregated by five-year age groups and sex, is “survived” to the next five-year period by applying the appropriate survival rates for each age and sex group; next, net migrants by age and sex are added to the survived population. The population under 5 years of age is generated by applying age specific birth rates to the survived females in childbearing age (15 to 49 years).

Base Population

These projections began with the July 1, 2010 population estimates by age and sex produced by the U.S. Census Bureau. The most recent census population of April 1, 2010 was the base for July 1, 2010 population estimates.

Special Populations

In 19 counties, the college dormitory population or adult inmates in correctional facilities accounted for 5 percent or more of the total population of the county; these counties were considered as special counties. There were six college dorm counties (Champaign, Coles, DeKalb, Jackson, McDonough and McLean) and 13 correctional facilities counties (Bond, Brown, Crawford, Fayette, Fulton, Jefferson, Johnson, Lawrence, Lee, Logan, Montgomery, Perry and Randolph) that qualified as special counties. When projecting the population, these special populations were first subtracted from the base populations for each special county; then they were added back to the projected population to produce the total population projections by age and sex. The base special population by age and sex from the 2010 population census was used for this purpose with the assumption that this population will remain the same throughout each projection period.

Mortality

Future deaths were projected by applying age and sex specific survival rates to each age and sex specific base population. The assumptions on survival rates were developed on the basis of trends of mortality rates in the individual life tables constructed for each level of geography for 1989-1991, 1999-2001 and 2009-2011. The application of five-year survival rates provides a projection of the number of persons from the initial population expected to be alive in five years. Resident deaths data by age and sex from 1989 to 2011 were provided by the Illinois Center for Health Statistics (ICHS), Illinois Department of Public Health.

Fertility

Total fertility rates (TFRs) were first computed for each county. For most counties, the projected 2015 TFRs were computed as the average of the 2000 and 2010 TFRs. 2010 or 2015 rates were retained for 2020 projections, depending on the birth trend of each county. The age-specific birth rates (ASBR) were next computed for each county by multiplying the 2010 ASBR by each projected TFR. Total births were then projected for each county by applying age-specific birth rates to the projected female population of reproductive ages (15 to 49 years). The total births were broken down by sex, using an assumed sex-ratio at birth. These births were survived five years applying assumed survival ratios to get the projected population for the age group 0-4. For the special counties, special populations by age and sex were taken out before computing age-specific birth rates. The resident birth data used to compute age-specific birth rates for 1989-1991, 1999-2001 and 2009-2011 came from ICHS. Births to females younger than 15 years of age were added to those of the 15-19 age group and births to women older than 49 years of age were added to the 45-49 age group.

Net Migration

Migration is the major component of population change in Illinois, Chicago and Illinois counties. The state is experiencing a significant loss of population through internal (domestic migration within the U.S.) net migration. Unlike data on births and deaths, migration data based on administrative records

are not available on a regular basis. Most data on migration are collected through surveys or indirectly from administrative records (IRS individual tax returns). For this report, net migration trends have been reviewed using data from different sources and methods (such as residual method) from the University of Wisconsin, Madison, Illinois Department of Public Health, individual exemptions data from the Internal Revenue Service, and survey data from the U.S. Census Bureau. On the basis of knowledge gained through this review and of levels of net migration from different sources, assumptions have been made that Illinois will have annual net migrants of -40,000, -35,000 and -30,000 during 2010-2015, 2015-2020 and 2020-2025, respectively. These figures have been distributed among the counties, using age and sex distribution of net migrants during 1995-2000. The 2000 population census was the last decennial census, which included the question "Where did you live five years ago?" The age and sex distribution of the net migrants was derived, using answers to this question. The net migration for Chicago has been derived independently, using census survival method for 1990-2000 and 2000-2010 under the assumption that the annual net migration for Chicago will be -40,000, -30,000 and -25,000 for 2010-2015, 2015-2020 and 2020-2025, respectively. The age and sex distribution from the 2000-2010 net migration was used to distribute the net migrants for the projection periods.

Conclusion

These projections were prepared for use by the Certificate of Need (CON) Program; they are produced using evidence-based techniques, reasonable assumptions and the best available input data. However, as assumptions of future demographic trends may contain errors, the resulting projections are unlikely to be free of errors. In general, projections of small areas are less reliable than those for larger areas, and the farther in the future projections are made, the less reliable they may become. When possible, these projections should be regularly reviewed and updated, using more recent birth, death and migration data.

(g) Performance Requirements

The MS beds meet the minimum number of 100 required in an MSA.

I, Barbara J. Martin, CEO at Vista East do hereby attest to my good faith belief that by the end of 2019 the modernized medical surgical med category of service will reach target utilization of 85% and the pediatric beds will meet target occupancy of 65%.

Notary Public

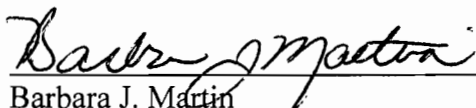

**Availability of Funds
Financial Viability Waiver**

The project will be funded solely through internal resources.

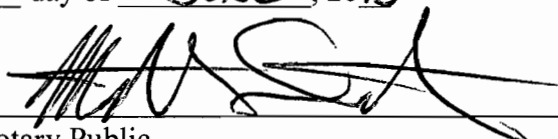

Economic Feasibility

The project will be funded solely through internal resources, which is less costly than borrowing.

Economic Feasibility

The direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion: \$8.087.00 per equivalent patient day (projected 2019).

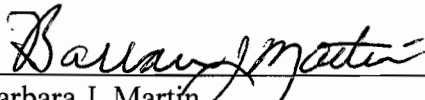

The total projected annual capital costs (in current dollars per equivalent patient day) for the first full year at target utilization (which is anticipated to be within two years following project completion): \$144.00.

Safety Net Impact

To the applicants knowledge the impact on safety net services will be positive in that this project will maintain them.

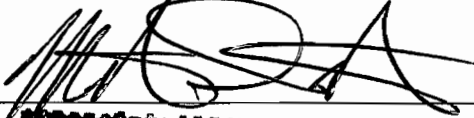

The applicants do not have knowledge regarding cross subsidization of services.

Attached is a chart reflecting the prior three years charity and Medicaid care. I hereby certify it is accurate. I also certify that no patient will be turned away due to inability to pay, or any other discriminatory reason.
