

3. Service Demand

Attached at Appendix - 1 is a physician referral letter from Dr. Tamizuddin and a schedule of pre-ESRD and current patients by zip code. A summary of CKD patients projected to be referred to the proposed dialysis facility within the first two years after project completion is provided in Table 1110.1430(b)(3)(B) below.

Table 1110.1430(c)(3)(B) Projected Pre- ESRD Patient Referrals by Zip Code	
Zip Code	Total Patients
62009	3
62016	3
62017	2
62033	9
62049	4
62056	18
62075	2
62077	1
62086	2
62091	2
62094	2
62538	1
62560	2
Total	51

4. Service Accessibility

As set forth throughout this application, the proposed facility is needed to maintain access to life-sustaining dialysis for residents of Montgomery County. Currently, there is only one dialysis facility within 30 minutes of the proposed Montgomery County Dialysis. It was operating at 81% as of March 31, 2015 and lacks sufficient capacity to accommodate Dr. Tamizuddin's projected patient referrals.
