Permit Alteration: Project #15-039, Rockford Memorial Hospital, Rockford
Permit Holder: Interstate Alliance, Inc. d/b/a MercyRockford Health System – Rockford Health System – Rockford Memorial Hospital

Dear Mr. Evans:

On October 25, 2016, the Illinois Health Facilities and Services Review Board approved the alteration requested for the above-captioned project. The alteration approved was for the following:

- Increase the permit amount from \$407,195,769 to \$435,145,346
- Increase the total GSF from 450,803 to 472,149 GSF.
- Increase the Neonatal Level III beds by 6 for a total of 52 NICU beds.
- Decrease ultrasound units by 1
- Add 1 mammography unit
- Add 2 recovery stations
- Add 2 labor and delivery room for a total of 6

The permit holder is reminded that for the final realized cost report, any amount that exceeds the altered permit amount will be considered a cost overrun without approval. Also, any increase in size of the project will be considered a change in the scope of the projection without approval. Finally, increases that cumulatively exceed the allowable amounts will invalidate the permit. The penalties for these violations include fines and an permit invalidation.

The permit holder should note that the post-permit requirements contained in "Subpart G" of 77 IAC 1130. Adherence to the post-permit requirements is essential in maintaining a valid permit and is the responsibility of the permit holder.

Should you have any questions please contact Mike Constantino or George Roate at (217) 782-3516.

Sincerely,
