Re: #15-061 - Request for Additional Information

Kara:

I have a couple of additional questions regarding Project #15-061

1. If the proposed project is approved how long after the facility is licensed will the facility submit an application for Medicare and Medicaid provider number? This information is being requested because of the failure of Permit #11-002 to be Medicare and Medicaid certified within a timely manner.
2. A review of the current number of procedures of 3,076 performed in one year by Zahoor A. Makhdoom, M.D at the stated average time per procedure leads me to believe that the office may be in violation of the ASTC Act [210 ILCS 5/]. When I look at the number of procedures performed in one year at the average time that equals 2,205 hours. With one physician that is in excess of the number of hours in a year. [See Application for Permit pages 73-74 also page 5 of the supplemental information submitted dated April 7, 2016] Please provide an explanation

Historical and Projected Volume for Proposed Facility			
Facility	City	2-Year Current Volume	2-Year Projected Volume
Southern Illinois G. I. Specialists	Carbondale	6,153	6,153

3. We need a letter of intent for the lease between the licensed ASTC and the building owner.

Should you have any questions or concerns please contact Mike Constantino or George Roate of my staff at Mike.Constantino@illinois.gov or George.Roate@illinois.gov or 217.782.3516

Sincerely,

Mike Constantino
