APPEND DOCUMENTATION AS <u>ATTACHMENT-3</u> , IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Flood Plain Requirements

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS **ATTACHMENT -5**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Historic Resources Preservation Act Requirements

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS **ATTACHMENT-6**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- ☒ Substantive
☐ Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

US HealthVest, LLC is proposing through its solely owned entities, **V Covington Realty, LLC** (owner) and **V Covington, LLC** (Operator) are proposing the establishment of an acute mental illness (AMI) facility to be known as Northbrook Behavioral Hospital (NBH). The patient care facility will be developed through the renovation of an existing non-licensed freestanding building.

The specific renovation of the 3-story, 66,635 gross square foot structure includes: Top two floors will be built out to house 100 patient beds in semi-private rooms. There will be 2 secured nursing units per floor with nursing stations, day rooms, group rooms and other support spaces. Patients are permitted to have free movement inside the unit. Access and exit from the units are secured and accompanied by staff. First floor will be built out to provide patient intake, dietary services, additional patient group rooms and activity spaces for therapy, Pharmacy, medical records, business and administration suite, and building support spaces such as housekeeping and medical supply storage. A maintenance shop will also be located on the first floor. Building systems will be upgraded to meet federal and state regulations for hospital design. This will include new HVAC units with fully ducted supply and return system, new electrical distribution with emergency generator and automatic transfer switches. The building structure will be upgraded to meet required fire resistance rating by fireproofing all structural elements: columns, beams and underside of floor decks. The existing building exterior will remain intact including the front two story lobby, elevator shafts and stairwells.

This is a "substantive" project in accordance with the rules of the 77 Illinois Administrative Code, Part 1110 of Subpart A, Section 1110.40 as the project is for the establishment of a health care facility and category of service.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs	\$9,761	\$2,739	\$12,500
Site Survey and Soil Investigation	\$3,904	\$1,096	\$5,000
Site Preparation	\$58,565	\$16,435	\$75,000
Off Site Work	\$0	\$0	\$0
New Construction Contracts	\$0	\$0	\$0
Modernization Contracts	\$10,406,600	\$2,920,400	\$13,327,000
Contingencies	\$520,330	\$146,020	\$666,350
Architectural/Engineering Fees	\$520,330	\$146,020	\$666,350
Consulting and Other Fees	\$370,130	\$103,870	\$474,000
Movable or Other Equipment (not in construction contracts)	\$390,433	\$109,567	\$500,000
Bond Issuance Expense (project related)	\$0	\$0	\$0
Net Interest Expense During Construction (project related)	\$0	\$0	\$0
Fair Market Value of Leased Space or Equipment	\$12,176,440	\$3,417,069	\$15,593,509
Other Costs To Be Capitalized	\$0	\$0	\$0
Acquisition of Building or Other Property (excluding land)	\$0	\$0	\$0
TOTAL USES OF FUNDS	\$24,456,493	\$6,863,216	\$31,319,709
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities	\$10,718,322	\$3,007,878	\$13,726,200
Pledges	\$0	\$0	\$0
Gifts and Bequests	\$0	\$0	\$0
Bond Issues (project related)	\$0	\$0	\$0
Mortgages	\$0	\$0	\$0
Leases (fair market value)	\$12,176,440	\$3,417,069	\$15,593,509
Governmental Appropriations	\$0	\$0	\$0
Grants	\$0	\$0	\$0
Other Funds and Sources	\$1,561,732	\$438,268	\$2,000,000
TOTAL SOURCES OF FUNDS	\$24,456,493	\$6,863,216	\$31,319,709
NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

* Appended as APPENDIX-7A, is a further breakdown of project cost to include FF&E costs specifically.

1	12 Passenger Van

Related Project Costs

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Purchase Price:	\$ _____	
Fair Market Value:	\$ <u>Refer to FMV of leased space provided above</u>	
The project involves the establishment of a new facility or a new category of service		
<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
If yes, provide the dollar amount of all non-capitalized operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.		
Estimated start-up costs and operating deficit cost is \$ <u>6,713,185</u>		

Project Status and Completion Schedules

For facilities in which prior permits have been issued please provide the permit numbers.

Indicate the stage of the project's architectural drawings:

- | | |
|---|--|
| <input type="checkbox"/> None or not applicable | <input type="checkbox"/> Preliminary |
| <input checked="" type="checkbox"/> Schematics | <input type="checkbox"/> Final Working |

Anticipated project completion date (refer to Part 1130.140): December 31, 2017

Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):

- | |
|---|
| <input type="checkbox"/> Purchase orders, leases or contracts pertaining to the project have been executed. |
| <input type="checkbox"/> Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies |
| <input checked="" type="checkbox"/> Project obligation will occur after permit issuance. |

APPEND DOCUMENTATION AS ATTACHMENT-8, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

State Agency Submittals

Are the following submittals up to date as applicable:

- | |
|--|
| <input type="checkbox"/> Cancer Registry |
| <input type="checkbox"/> APORS |
| <input checked="" type="checkbox"/> All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted |
| <input type="checkbox"/> All reports regarding outstanding permits |

Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.

Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Department/Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
CLINICAL

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate**.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
- B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
- C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
- D) Provide the reasons why the chosen alternative was selected.

- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**

- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE**Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space**

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following:
 - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
 - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
 - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?
Clinical	52,033 GSF = 520 GSF/Bed	<560 Gsf/Bed	-40 GSF/Bed	Yes

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110. Appendix B. **A narrative of the rationale that supports the projections must be provided.**

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
CY-2018	AMI	15,165	41.5%	85%	No
CY-2019	AMI	31,297	85.7%	85%	Yes

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UNFINISHED OR SHELL SPACE:**NOT APPLICABLE**

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF tot be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
 - a. Requirements of governmental or certification agencies; or
 - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
 - a. Historical utilization for the area for the latest five-year period for which data are available; and
 - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS **ATTACHMENT-16**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.**ASSURANCES:****NOT APPLICABLE**

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS **ATTACHMENT-17**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION VII - SERVICE SPECIFIC REVIEW CRITERIA**C. Criterion 1110.730 - Acute Mental Illness and Chronic Mental Illness**

- Applicants proposing to establish, expand and/or modernize Acute Mental Illness and Chronic Mental Illness category of service must submit the following information:
- Indicate bed capacity changes by Service: Indicate # of beds changed by action(s):

Category of Service	# Existing Beds	# Proposed Beds
<input checked="" type="checkbox"/> Acute Mental Illness	0	100
<input type="checkbox"/> Chronic Mental Illness		

- READ the applicable review criteria outlined below and **submit the required documentation for the criteria:**

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.730(b)(1) - Planning Area Need - 77 Ill. Adm. Code 1100 (formula calculation)	X		
1110.730(b)(2) - Planning Area Need - Service to Planning Area Residents	X	X	
1110.730(b)(3) - Planning Area Need - Service Demand - Establishment of Category of Service	X		
1110.730(b)(4) - Planning Area Need - Service Demand - Expansion of Existing Category of Service		X	
1110.730(b)(5) - Planning Area Need - Service Accessibility	X		
1110.730(c)(1) - Unnecessary Duplication of Services	X		
1110.730(c)(2) - Maldistribution	X		
1110.730(c)(3) - Impact of Project on Other Area Providers	X		
1110.730(d)(1) - Deteriorated Facilities			X
1110.730(d)(2) - Documentation			X
1110.730(d)(3) - Documentation Related to Cited Problems			X
1110.730(d)(4) - Occupancy			X
1110.730(e)(1) - Staffing Availability	X	X	
1110.730(f) - Performance Requirements	X	X	X
1110.730(g) - Assurances	X	X	X
APPEND DOCUMENTATION AS ATTACHMENT-22, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- **Section 1120.120 Availability of Funds – Review Criteria**
- **Section 1120.130 Financial Viability – Review Criteria**
- **Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)**

VIII. - 1120.120 - Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: **Indicate the dollar amount to be provided from the following sources:**

<p><u>\$13,726,200</u></p>	<p>a) Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to:</p>
	<p>1) the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and</p>
	<p>2) interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;</p>
<p>_____</p>	<p>b) Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.</p>
<p>_____</p>	<p>c) Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;</p>
<p>_____</p>	<p>d) Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including:</p>
	<p>1) For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated;</p>
	<p>2) For revenue bonds, proof of the feasibility of securing the specified amount and interest rate;</p>
	<p>3) For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.;</p>
	<p>4) For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment;</p>
	<p>5) For any option to lease, a copy of the option, including all terms and conditions.</p>
<p>_____</p>	<p>e) Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;</p>
<p>_____</p>	<p>f) Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;</p>
<p><u>\$17,593,509</u></p>	<p>g) All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project. - FMV (Present Value) of the Leased land and building shell \$15,593,509 + \$2,000,000 in Lease Hold Improvements</p>
<p><u>\$31,319,709</u></p>	<p>TOTAL FUNDS AVAILABLE</p>

APPEND DOCUMENTATION AS ATTACHMENT-36, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. **1120.130 - Financial Viability**

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. "A" Bond rating or better
2. All of the projects capital expenditures are completely funded through internal sources
3. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
4. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS **ATTACHMENT-37**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which **audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion.** When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

NOT APPLICABLE DUE TO COMPLIANCE WITH FINANCIAL VIABILITY WAIVER

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS **ATTACHMENT 38**, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE								
Department (list below)	A	B	C	D	E	F	G	H
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)
Clinical	\$0	\$200	0		52,033		\$0	\$10,406,600
Contingency	\$0	\$10	0		52,033		\$0	\$520,330
TOTALS	\$0	\$210	0		52,033		\$0	\$10,926,930
* Include the percentage (%) of space for circulation								

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT -39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)	Year	Year	Year
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			

Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care			

APPEND DOCUMENTATION AS ATTACHMENT-41, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

After paginating the entire, completed application, indicate in the chart below, the page numbers for the attachments included as part of the project's application for permit:

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

- Corporations and limited liability companies must provide an **Illinois certificate of good standing.**
- Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

The Applicants for the proposed project, Northbrook Behavioral Hospital, are **V Covington Realty, LLC** (Owner) and **V Covington, LLC** (Operator/Licensee). The owner of both the ownership and operating entities is **US HealthVest, LLC**. Collectively, these entities are the Applicant. The entities' Illinois Certificates of Good Standing are appended as **ATTACHMENT-1A**.

ATTACHMENT-1

To all to whom these Presents Shall Come, Greeting:

I, Jesse White, Secretary of State of the State of Illinois, do hereby certify that I am the keeper of the records of the Department of Business Services. I certify that

V COVINGTON REALTY, LLC, A DELAWARE LIMITED LIABILITY COMPANY HAVING OBTAINED ADMISSION TO TRANSACT BUSINESS IN ILLINOIS ON JANUARY 12, 2016, APPEARS TO HAVE COMPLIED WITH ALL PROVISIONS OF THE LIMITED LIABILITY COMPANY ACT OF THIS STATE, AND AS OF THIS DATE IS IN GOOD STANDING AS A FOREIGN LIMITED LIABILITY COMPANY ADMITTED TO TRANSACT BUSINESS IN THE STATE OF ILLINOIS.

In Testimony Whereof, I hereto set
my hand and cause to be affixed the Great Seal of
the State of Illinois, this 4TH
day of FEBRUARY A.D. 2016 .

Re: **US HealthVest Letter of Intent – 4201 Lake Cook Road, Northbrook**

Dear Mike:

On behalf of ownership ("Landlord"), I am pleased to submit the following Letter of Intent ("LOI") for your client, US HealthVest ("Tenant"), to lease space at 4201 Lake Cook Road under the following terms and conditions:

- **LESSEE:** V Covington Realty, LLC
- **GUARANTEE:** US HealthVest shall guarantee the full amount of the lease for the entire duration of the lease term except per assignment.
- **BUILDING ADDRESS:** 4201 Lake Cook Road
Northbrook, Illinois 60062
- **LESSOR:** Crossroads Northbrook, LLC
- **PREMISES:** Full building consisting of approximately 66,000 *usable* ~~rentable~~ square feet *MS.*
- **LEASE COMMENCEMENT:** Upon receipt of Lessee's final, non-appealable Certificate of Need from the Illinois Health Facilities and Services Review Board and final zoning approval for Lessee's use
- **RENT COMMENCEMENT:** The earlier of Lessee obtaining a Certificate of Occupancy or one year from the date of zoning approval.
- **TERM:** Thirty (30) years
- **OPTION TO RENEW:** Lessor shall provide Lessee with two (2) options to renew the term of the lease for an additional ten (10) years for each option. Lessee shall provide Lessor written notice of intent to renew their lease no less than twenty four (24) months prior to the expiration of the term
- **INITIAL RENT:** \$1,075,000 annually, paid to Lessors in twelve (12) equal portions monthly
- **ESCALATIONS:** The rent shall escalate two percent (2%) annually on the anniversary of the Rent Commencement date
- **TENANT IMPROVEMENT** Lessor shall provide to Lessee up to Two Million and 00/100 Dollars

- ALLOWANCE:** (\$2,000,000.00) toward leasehold improvements to the Premises. The Initial Rent shall increase Sixty Six Thousand and 00/100 Dollars (\$66,000.00) annually if Lessee elects to utilize the full Tenant Improvement Allowance. Should Lessee elect to utilize only a portion of the Tenant Improvement Allowance, the increase in Initial Rent shall be proportionate to the percentage of the Tenant Improvement Allowance utilized.
- **SECURITY DEPOSIT** A Security Deposit worth six (6) months' rent to be deposited with Landlord upon Lease Commencement. If Lessee is in compliance with lease terms, one half (1/2) of the Security Deposit to be returned to Lessee at the beginning of year 2. *Remaining (1/2) to be returned at the beginning of year 5. M.S.*
- **ZONING:** R1 (Residential). The building will require a change in use. Landlord shall cooperate with Lessee in obtaining use approvals
- **CONFIDENTIALITY:** Lessor and Lessee and their representatives acknowledge that the terms of this Letter of Intent are confidential and are related to matters solely between Lessor and Lessee, and that this Letter of Intent and its terms and conditions have only been, and will only be divulged to the parties' attorneys and others with a genuine need to know to complete the transaction contemplated by this Letter of Intent or otherwise may be required by law or compelled by judicial mandate

The terms of this LOI are subject to Lender approval. This LOI is not intended as, and does not constitute, a binding agreement by any party, nor an agreement by any party to enter into a binding agreement but is merely intended to specify some of proposed terms and conditions of the transaction contemplated herein. Neither party may claim any legal rights against the other by reason of the signing of this letter or by taking any action in reliance thereon. Each party hereto fully understands that no party shall have any legal obligations to the other, or with respect to the proposed transaction, unless and until all of the terms and conditions of the proposed transaction have been negotiated, agreed to by all parties and set forth in a definitive agreement which has been signed and delivered by all parties. The only legal obligations, which any party shall have, shall be those contained in such signed and delivered definitive agreement referred to above. Landlord is free to change or withdraw any of the terms described in this letter and to lease space described in this letter to any other parties and upon any terms as Landlord deems fit. The terms and conditions of this offer shall expire and shall be withdrawn if not accepted within ten (10) days from the date of this LOI.

Lessor and Lessee shall enter into a lease within thirty days ^{M.S.} ~~during which time~~, Landlord shall not sell, contract to sell, lease or otherwise transfer the Land or any part of it or grant an option to any third party to acquire or lease all or any portion of the Building *until the Lease is executed. M.S.*

Please call me if you have any questions regarding this LOI. I look forward to working with you on this transaction.

Sincerely,

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

Appended as **ATTACHMENT-4A**, is the organizational chart for this project. It should be known that the ownership and operating/licensee entities have no history. The Parent will be the sole financial contributor to the proposed project. The only related facility in Illinois in which the Parent has interest is Chicago Behavioral Hospital. Appended as **ATTACHMENT-4B**, is the Illinois Certificate of Good Standing for **US HealthVest, LLC**, who is considered a Co-Applicant.

Flood Plain Requirements

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. This map must be in a readable format. In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

Appended as **ATTACHMENT-5A** is a letter from Miroslav Petrovic, Architect, dated February 2, 2016, as well as a FIRM Map printed from www.FEMA.gov, providing documentation that the proposed project site is not within a special flood hazard area.

Re: **Northbrook Behavioral Health**

Dear Ms. Leibowitz:

The Applicants are proposing (through the Certificate of Need process) to establish an Acute/Chronic Mental Illness facility to be located at 4201 Lake Cook Road, Northbrook, Cook County, Illinois. The proposed A/CMI facility will consist of 100 beds.

The required information is as follows:

- a. General project address: **4201 Lake Cook Road, Northbrook, Cook County, Illinois.**
- b. Map showing the general location of the project: **See Attachment A.**
- c. Photographs of any standing building/structures within the project area: **See Attachment A.**
- d. Addresses for buildings/structures if present: **There are no additional buildings on the property.**
- e. Total acres of project: **4.0**
- f. List of other federal or state agencies which potentially would be involved in funding, licensing permitting or official support/approval: **Medicare, Medicaid, Tricare, Joint Commission, State, Federal.**
- g. Requested HARGIS map: **Upon search of the above general project address, no records were found in the HARGIS map database. See Attachment B.**

According to the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420et.seq) and other applicable Illinois laws, it is my understanding that you will review the attached information and provide evaluation comments, with respect to any historic resources. If you have any questions or need additional information, please do not hesitate to contact myself or John P. Kniery.

Sincerely,

Kathy Harris

**Criterion 1110.230 – Background, Purpose of the Project, and Alternatives
BACKGROUND OF APPLICANT**

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.

The Owner and Operating entities, respectively **V Covington Realty, LLC** and **V Covington, LLC**, do not own or operate any licensed health care facilities. The Co-applicant/parent entity, **US HealthVest, LLC**, has within its organization 1 other freestanding Acute/Chronic Mental Illness facility in the state of Illinois, Chicago Behavioral Hospital. A copy of this related facility license and certifications as applicable are appended under **ATTACHMENT-11A**.

2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.

The required documentation with regards to adverse action, as required under 1125.520, c) 2, is appended as **ATTACHMENT-11B**. It should be noted that the ownership and operating entities of the proposed Northbrook Behavioral Hospital do not have any adverse action taken against them.

3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**

The above requested authorization for the Health Facilities and Services Review Board and the Department of Public Health access to information is appended as **ATTACHMENT-11C**.

ATTACHMENT-11

**SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND
ALTERNATIVES – INFORMATION REQUIREMENTS** Continued viii

4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

This item is not applicable.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES – INFORMATION REQUIREMENTS Continued ix

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.

The purpose of the project is to improve the ability of the area residents to access the acute mental illness (hereafter referred to as AMI) inpatient services that are needed as illustrated by the need for additional beds and services from the State's Inventory of Health Care Facilities and Services and Need Determinations, 2015, Hospital Services for AMI care and treatment in adjacent Planning Areas 7-A-08 and 8-A-09 as well as the overwhelming need experienced by the Applicant's related facility Chicago Behavioral Hospital (hereafter referred to as CBH).

CBH is the closest area provider of AMI services to the proposed project. In the 14-months that CHB has been operating the facility since its purchase, the facility has filled its operating and set-up beds, renovated and modernized the upper two floors, opening them in January of this year. In total since CBH acquired the facility, they have deflected some 672 patient referrals. One hundred and eleven of these referrals are from the qualifying northern suburban geographic area of the proposed NBH, i.e., 45-minute travel time. However, due to the relatively close proximity of CBH to NBH (13.8 adjusted minutes travel time) and the apparent overwhelming demand for inpatient AMI services, conceivably all deflected referrals could be referred to the proposed project. Together with the need for additional services identified by the State in the Applicants' market area (7-A-08 and 8-A-09) and the overwhelming demand for beds and services as experienced by CBH, this project will improve the health care and well-being of the market to be served.

2. Define the planning area or market area, or other, per the applicant's definition.

In accordance with the State's required travel time contour, the proposed market area is the forty-five minute drive time contour adjusted per the 77 Illinois Administrative Code,

ATTACHMENT-12

**SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND
ALTERNATIVES – INFORMATION REQUIREMENTS** Continued x

Chapter II, Subchapter a, Section 1100.510(d). As the site is on Lake Cook Road, the dividing line between Planning Areas HSA 7, A-08 and HSA 8, A-09, both are included and in the Applicant's definition of market area.

3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]

There is an identified need for 29 additional AMI beds in Planning Area HSA 7 - Area A-08 and 24 additional AMI beds in Planning Area HSA 8 – Area A-09. This project addresses that existing identified need and the resultant and overwhelming demand experienced by related facility Chicago Behavioral Hospital as well as that of the area referral sources. This project, in addressing the above seeks to improve accessibility to AMI services within the 45-minute travel time contour.

4. Cite the sources of the information provided as documentation.

Appended as **ATTACHMENT-12A**, is the State's 2015 IDPH Inventory of Health Care Facilities and Need Determinations, Hospital Services summary of Acute Mental Illness category of service, Planning Area HSA 7 - Area A-08 and Planning Area HSA 8 – Area A-09.

Appended as **ATTACHMENT-12B**, is the Update to Inventory dated February 17, 2016 to the 2015 IDPH Inventory of Health Care Facilities and Need Determinations, Hospital Services, Acute Mental Illness category of Service.

Appended as **ATTACHMENT-12C**, is the Microsoft MapPoint North America 2009 map identifying the location of the proposed facility, the 45-minute market contour, location of other Acute/Chronic Mental Illness (A/CMI) facilities, and the zip code areas.

Appended as **ATTACHMENT-12D**, is a summary listing of A/CMI facilities identified as within the adjusted market area contour, their number of licensed beds, and travel times to the proposed site.

ATTACHMENT-12

**SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND
ALTERNATIVES – INFORMATION REQUIREMENTS** *Continued xi*

Appended as **ATTACHMENT-12E** is a list of the 45-minute Travel Time Population & Zip Codes.

Appended as **ATTACHMENT-12F** is a support/referral letter from Chicago Behavioral Hospital.

Appended as **ATTACHMENT-12G**, are 21 referral letters. These letters support the project and serve as an indicator of need to appropriately utilize the facility. The 21-referral letters from Ivy Fishman, Administrator, Abbott House; Alfa Murphy, Practice Manager, Associates in Behavioral Science; Blaise J. Wolfrum, MD, FAPA, Behavioral Health Care Associates; Kenji Oyasu, MD, Brightside Clinic; Tina Cooper, Director of Resident Services, Brookdale Northbrook Senior Living; Kasia Wereszczynska, MA, LCPC, RYT, Clinical Therapist, Counseling Speaks, LLC; David Bawden, MD; Edgar Ramos, PsyD, Licensed Psychologist, Maryville Academy; Savannah Alderink, Executive Director, Harbor House; Mark D. Parisi, PsyD, Licensed Clinical Psychologist, Administrator/Owner; Renee Shopp, RN, CADC, Practice Manager, Mathers Clinic; Nancy Meier Brown, President, Meier Clinics; Bright Fellowes, PsyD, President and Licensed Clinical Psychologist, Mental Health Solutions; Ashley Pasen Shields, Director, Mental Health Solutions; Syed Rahim, MD, ABPN, Board Certified Psychiatrist, Mind Care Clinic; Dr. Anne H. Levin, PsyD, Licensed Clinical Psychologist, North Shore Psychology Specialists, PC; Susan Eckstein, LCSW, Program Director of Clinical Services, The Josselyn Center; Thodur Ranganathan, MD, Psychiatrist; Jill Hollederer, MA, BCBA, Clinical Director, KGH Consultation & Treatment, Inc.; Eugene Kwon, MD, Psychiatrist; Amy Saltzman, Administrator, Rosewood Care Center of Northbrook.

Appended as **ATTACHMENT-12H** are two Chicago mental health needs articles, one from Cranes Chicago Business Journal and the other from the Chicago Tribune,

ATTACHMENT-12

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES – INFORMATION REQUIREMENTS Continued xii

discussing the mental health needs of the City of Chicago. Appended as **ATTACHMENT-12I** are the facility's Program descriptions for Adult Psychiatric, Senior Adult, Child and Adolescents, Women Only, Extra Mile Veteran Care, Faith Based Mental Health and Dual-Diagnosis programs.

5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.

The project will address the AMI needs by working with the area mental health providers to accommodate the unmet need for services as identified by CBH and the 21-area referral sources. These letters document 3,591-3,977.4 annual referrals. This reflects a range for the average length of stay of between 7.8 days to 8.6 days when maintaining the State's target use rate of 85%. This is well within the area use rates documenting that there referrals are more than enough to justify and fill the facility.

The Applicant proposes to offer programs for adult psychiatric, Senior Adult, child and adolescent, women only, veterans, faith based and dual diagnosis patients. Each program will be separate from each other keeping children, women, veterans, and faith based patients apart and individual programming and treatment. Through these referrals and programs, the mental health and well-being for the population will be addressed.

6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals as appropriate.

This project's goal is to serve and provide care and services to the Acute Mental Illness population of those within the 45-minute travel time contour including Planning Areas A-08 and A-09. The goal will be measured by the Applicant's ability to continuously fill its beds and provide the proposed services.

ATTACHMENT-12

**SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND
ALTERNATIVES – INFORMATION REQUIREMENTS** Continued xiii

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

Although this project involves modernization of an existing structure, it is not modernizing an existing service. The modernization will allow for the build-out of existing space for the purpose of establishing the proposed AMI service. Therefore, this item is not applicable.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am the CEO of Chicago Behavioral Hospital in Des Plaines, Illinois and I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook. US HealthVest acquired Chicago Behavioral Hospital ("CBH") on November 3, 2014 from Maryville Academy. Due to renovations that were in process prior to the acquisition, only 78 of the 125 licensed beds were available for use. We expanded services to adults and senior adults and grew from a census in the single digits at the time of the acquisition to full capacity (80%+) in under a year.

In 2015, we deflected 672 patients referred to our hospital in 2015 because we did not have a bed available. While we it is difficult to track where these deflected patients have gone for care, we understand that many have either gone without care or have experienced significant wait times and have had to travel great distances for care. Professional referral sources often verbalize having difficulty with placement because "everyone is full". It has not been unusual for them to note that they have had significant delays finding alternate beds for patients because other hospitals in the area run full. In 2016, we gained access to our newly renovated units and once again see rapid bed occupancy.

Of the 672 deflected patients, 111 patients were from planning areas A-08 and A-09 or zip codes 60016, 60026, 60010, 60030, 60035, 60045, 60046, 60048, 60061, 60085, 60076, 60202 and 60645.

The distribution of beds clearly slights the northern suburbs. Having a relationship with over 50 emergency departments, we know from nurses, crisis workers and physicians in these settings that patients have had to wait long periods in emergency rooms in order to access care. This is something that common and routine problem in many parts of Illinois.

Today, area hospitals that are within a 45 minute drive from CBH and similarly to the Northbrook project, continue to send a significant number of referrals due to their own psychiatric units being full, not treating particular types of patients or not having inpatient psychiatric care. In looking at data from the last ten months since starting adult services, some examples of the numbers of these referrals come from: Evanston Northshore Hospital (52), Advocate Good Shepherd (91), Northwest Community (92), Linden Oaks (82), Community First Hospital (60), Condell Medical Center (32), Northwestern Medicine Central DuPage Hospital (52), Alexian Brothers Behavioral Health Hospital (39), Advocate Lutheran General (115) and Palos Community Hospital (44). The total of referrals coming from hospitals only within 45 minutes travel has been 1,099 for this past ten month period.

WWW.CHICAGOBEH.COM

ATTACHMENT-12F

Our occupancy at CBH has grown to 87%, 86%, 84%, and 81% in September, October, November and December of 2015 respectively, without the aforementioned plans to increase marketing, and we expect even greater growth this spring. Chicago Behavioral Hospital would also need to deflect patients to a Northbrook Hospital. Our growth projections conservatively reach 84% in April and 90% in May of 2016. We expect our growth trajectory to continue beyond our 125 beds at CBH by the mid 2016 and that we will again have the dilemma of deflecting patients due to bed availability. This would be well before the Northbrook facility could conceivably be opened.

With all of the deflections, marketing efforts, new lines of service development and practices that we are attracting, we are projecting significant referrals to Northbrook Behavioral Hospital from CBH. We believe with our experience of 15% deflections from the Northbrook catchment area Zip Codes, as well as our deflections from other underserved geographies, that CBH alone will refer a total of 48-50 patients per month to Northbrook which will be from 576 to 600 annually. We do not see this need reducing and believe it will be very consistent throughout the years to come.

The information I've included here has not been used to support any other pending or approved CON application for a behavioral health hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services in the north suburban areas of Illinois.

Sincerely,

Anthony DeJoseph

Anthony DeJoseph, Psy.D.

RE: US Health Vest's Certificate of Need Application for a behavioral hospital in Northbrook.

Dear Ms. Avery,

I am writing this letter in support of US Health Vest's Certificate of Need application for a behavioral hospital in Northbrook.

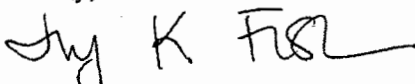

As a mental health professional, administrator of Abbott House Nursing Home, LLC, located in Highland Park, my consumers have experienced frequent delays in accessing local inpatient psychiatric care mainly due to bed shortages for mental health patients. There have also been many occasions when local hospitals have returned patients, our consumers, who were actively psychotic and suicidal to our facility without treatment.

Over the last year our facility has referred 24 consumers for inpatient behavioral healthcare to Chicagoland hospitals. We have not been able to refer consumers to a local hospital for inpatient behavioral healthcare as there is not a facility near the 60035 zip code which accepts psychiatric inpatient behavioral healthcare. Our facility estimates that the number of consumers that would be referred for inpatient behavioral healthcare would be at least 50 consumers in a 24 month period.

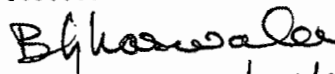

The information I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US Health Vest's application for Northbrook Behavioral Hospital. Approval of US Health Vest's application will increase access to these much needed and important services.

Sincerely,

Ivy Fishman
Administrator

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a large interdisciplinary psychiatric practice that works across five hospitals in the Chicago area, we have found that there is very poor access to psychiatric care in the northern suburbs very near Northbrook, and a project of this nature would be quite helpful for accessibility, and in solving the bed shortage in the northern area of Illinois. Patients from this area often have to wait to access care, and quite frankly it's really not available in Northbrook and its surrounding suburbs. Patients characteristically have to be taken out of that area, either down into Chicago or into the far western suburbs for care. There is simply no options available, and we know this because we receive referrals from this area that we are forced to hospitalize very far from our North suburban referral sources.

We hospitalize well over 2000 patients per year, and the fairly significant portion of them come from the north suburban area of which Northbrook is a part. Zip codes for this total are from across the state and too numerous to list. However, with regard to the number of patients that we've had to hospitalize away from their home from that area, whom would be better served in a hospital in Northbrook, we have had approximately 468 admissions from Zip Codes 60089, 60714, 60202, 60076 and 60026. To put this in perspective, we have had to take patients from these ZIP Codes, all of which either border or are surrounding Northbrook, and treat them as far as 30-35 miles away. It would make more sense to treat people near their own community.

Accordingly, we would estimate being able to refer the majority of those 468 patients at the Northbrook Behavioral Hospital, and given that it is not likely that 100% (39) of this group would end up there, we would approximate some 35 of these patients to be hospitalized at the site per month.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these geographically and gravely needed services.

Sincerely,
Alfa Murphy

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook, Illinois.

I am a psychiatrist in practice on the northwest side of Chicago and suburbs for the past two decades over which time I have seen several psychiatric facilities close their doors leading to patients having to wait longer at a general medical facility for transfer or being turned away at the admissions office due to lack of beds. My patients now experience this delay on a routine basis. The area is now in short supply and we could use an additional facility managed by US Health Vest who has many decades of experience in psychiatric hospital facility construction and development of quality programs.

Our group practice has referred over 400 patients for inpatient admission and over 600 for partial hospitalization in the past year from our practice locations in zip codes 60631, 60194 and 60016. We estimate that this number will increase to 500 inpatients in 2016 and that once the new hospital is open in Northbrook about two hundred of these in need patients would benefit from an admission to this new state of the art facility for mental health and substance abuse care. These patients live primarily in the following zip code areas. 60015, 16, 22, 25, 26, 29, 56, 62, 70, 90, 91, 93, 02, 10, 11, 15, 20, 30, 35, 37, 40, 41, 42, 43, 44, 45, 46, 47, 48, 53, 60, 61, 64, 69, 73, 75, 76, 77, 79, 83, 84, 85, 86, 87, 88, 89, 91, 93, 96, 99, 60201, 02, 03, 04, 08, 09, 60626, 45, 59 60712, 14.

The above information has not been used to support any other facilities pending or approved CON application.

Please register my support for the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will improve the quality of care and increase access to these necessary services.

Sincerely,

Blaise J. Wolfrum, MD, FAPA

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a emergency room physician on staff at multiple sites in the Chicago metro area, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care. Not uncommonly patients wait over 24 hrs further congesting the emergency room for other medical emergencies.

In addition to my emergency medicine practice I have opened an out patient Opiate Addiction Treatment clinic in Northbrook Ill. (333 Skokie Blvd Suite 112 Northbrook Il 60062). Many, if not all of my patients suffer from dual diagnosis situations depression or anxiety in conjunction with substance abuse. We have had to refer a minimum of 5-6 patients per month outside of the local area for inpatient stabilization prior to outpatient treatment. (Zip codes not available as our system does not track them) Given the recent climate in addiction and its comorbid psychiatric illnesses we expect that this metric will continue. As our clinic continues to grow this number will increase.

A new facility will provide a necessary resources and help keep the patients closer to their families. Mental health patients in the northern Chicago suburbs and its surrounding communities will greatly benefit form a new facility.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a healthcare provider at Brookdale Northbrook Senior Living located in Northbrook IL, our patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care, or have been sent many miles away for an available bed.

Over the past year we have had 14 patients all from this facility, area code 60062, that were in need of Behavioral Health Services and they have had to go as far away as Oak Lawn and Elk Grove Village for the needed care. This is very stressful for both patients and families and takes the patients away from their healthcare network here in Northbrook, which does not provide good continuity of care.

We estimate that we would consistently have 12 to 14 patients that we would be referring to Northbrook Behavioral Health annually and more if availability is closer to their home.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

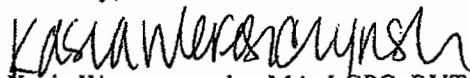

As a mental health professional at counseling speaks, LLC located in Park Ridge, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

counseling speaks, LLC estimates referring a number in the area of 30-40 patients to Northbrook Behavioral Hospital on a monthly basis for hospitalization and would expect to continue to refer this over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care. I do not track my patients by zip code, but the fact that many of them come from suburbs north of our office places them in the service area of the proposed Northbrook Behavioral Hospital.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at Chicago Behavioral hospital located in Des Plaines and Lutheran General Hospital located in Park Ridge, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

Over the past year I have referred approximately 30 inpatients from zip codes 60714, 60047, 61107 & 60062 for inpatient evaluation. I would expect a similar or larger volume equaling about 3 to 4 per month and approximately 60 in 24 months. These could be for an evaluation or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a clinical psychologist and supervisor at Maryville Academy in Des Plaines, which is very close to the proposed location in Northbrook, my patients have not only experienced delays in accessing inpatient psychiatric care due to bed shortages, but have often had to be sent all across the state, far from their home because of this. We clearly need more beds in this north suburban area which Northbrook is a part of, and accessibility there would make far more sense than what we have to work with at present. We have many problems and delays in accessing care because of a lack of an adequate number of beds in this area.

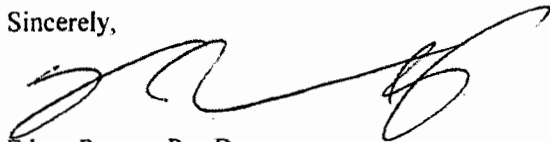

We have sent over 150 children for hospitalization in the past year spread across numerous hospitals and would prefer to be able to keep them closer to Maryville than has been possible. They are all from the 60016 zip code, as we are residential.

I would estimate that we would send between 10-15 referrals monthly for inpatient psychiatric care at a facility in Northbrook whenever we have access to it. Our referrals are consistent and steady in number year after year, due to the nature of our organization.

The information that I have included here has not been used to support any other pending or approved CON application for a behavioral hospital.

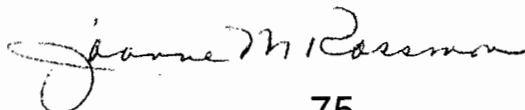

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase the access to these important services that we so desperately need in the northern suburbs surrounding Northbrook...

Sincerely,

Edgar Ramos, Psy.D.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Dementia Care Facility at Harbor House located in Wheeling, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

Over the last year we have had three referrals for behavioral healthcare from our facility in 60090 to local hospitals. We may refer one patient a month, twelve a year, to Northbrook Behavioral Hospital for evaluation, referrals or admission for mental health care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Clinical Psychologist and Administrator / Owner of two large group private practices headquartered in Mount Prospect with satellite offices near Evanston, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

In the past year, we have had occasion to refer, on average, about three clients per month for inpatient or intensive outpatient-based treatment – the type of services that will be offered by Northbrook Behavioral Hospital. While we do not track client zip codes for these referrals, I can tell you that there are few, if any, options for this type of treatment near my office in Chicago located in zip code 60646. My clients often must travel to Chicago Behavioral Hospital in Des Plaines, Alexian Brothers' Behavioral Hospital in Hoffman Estates, or Northwest Community Hospital in Arlington Heights – none of which are especially close to my office. I would expect to channel a majority of these referrals – perhaps as many as 72 over a twenty-four month period – to Northbrook Behavioral Hospital and would expect on-going utilization of their services if they are allowed to build this much-needed behavioral health hospital.

The information included in this Certificate of Need letter has not been included in support of any other pending or approved application for a behavioral healthcare hospital.

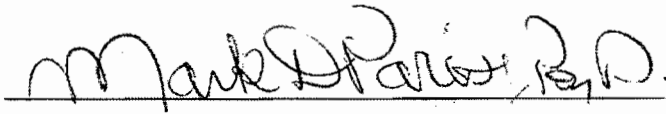

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

Mathers Clinic is a mental health and substance abuse practice in Rockford, Woodstock, Crystal Lake and Elgin. We also provide psychiatric services to 14 Assisted Living/Nursing Homes. Our patients have experienced ongoing delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been multiple times when patients have to wait to access care.

We do not have a report that tracks inpatient referrals or zip codes of inpatients. We do have a list of patient zip codes that would benefit from the new location in Northbrook. Our patients come from Northbrook 60062, Prospect Heights 60070, Wheeling 60090, Barrington Hills 60010 and 60011, Fox Lake 60020, Grayslake 60030, Gurnee 60031, Highland Park 60035, Ingleside 60041, Island Lake 60042, Lake Bluff 60044, Kildeer 60047, Libertyville 60048, Mundelein 60060, Vernon Hills 60061, North Chicago 60064, Round Lake 60073, Waukegan 60079, Buffalo Grove 60089, Zion 60099, and Niles 60714.

As a provider we estimate an average of 35 patients would be referred on a monthly basis to Northbrook Behavioral Hospital and would expect to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

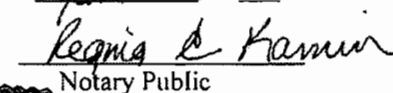

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US Healthvest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery:

I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook.

Meier Clinics provide mental health services in eleven states, including locations in Illinois in Northbrook, Wheaton, Chicago and Geneva. It is not unusual for our patients to experience frequent delays in accessing inpatient psychiatric care, often due to bed shortages or lack of services.

I solicited feedback from the following clinical staff regarding inpatient referrals:

Gary A. Casaccio, M.D., Illinois Medical Director
Steve Lee, M.D., Director of Breakaway
Kim Lurvey, LCSW, Northbrook Clinic Director
Christine Zielinski, LCSW, National Intake Coordinator

They reported that they have referred approximately 66 people to inpatient care over the past 12 months. This is not reflective of the total number we have referred as we have over 50 clinical staff in Illinois, so the above is a very conservative figure. The estimated number of potential referrals over a 24-month period after the project is completed would conservatively be 122 people.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US Health Vest's application will increase access to much needed services.

Sincerely,

Nancy Meier Brown
President
Meier Clinics

RE: US HealthVest Certificate of Need Application, Northbrook Behavioral Hospital

January 26, 2016

Dear Ms. Avery,

This letter comes to you in support of US Healthvest's Certificate of Need application for the inpatient behavioral healthcare facility they have proposed building in Northbrook, IL.

As a Licensed Clinical Psychologist and President of a multidisciplinary private, group, behavioral healthcare practice with offices throughout the northern suburbs of Chicago, I can attest to the shortage of nearby facilities offering immediate inpatient care to area residents, specifically in Lake County and Cook County. We find that many current and potential clients are unable to find open beds at nearby inpatient psychiatric and behavioral health facilities and are forced to wait on prohibitively long wait lists for treatment, or else travel great distances to find openings at out-of-state facilities. Others are simply unable to obtain necessary treatment.

I would estimate that as a practice, Mental Health Solutions' providers have referred upwards of fifty clients within the last year to local hospitals and inpatient facilities. These clients are residents of ZIP codes ranging as far south as Chicago and as far north as the Wisconsin border, reaching from Northshore suburbs such as Northbrook as far west as Rockford, IL.

I would anticipate that an increase in the availability of inpatient mental healthcare in the area would positively impact my own practice's ability to meet the needs of a growing number of clients, such that over the first twenty four months following its opening, we might refer in excess of one hundred clients (about five clients per month, on average) for evaluation and/or admission.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's behavioral hospital, and I thank you for your assistance in providing access to care to the residents of your area.

Sincerely,

Bright Fellowes, PsyD
Mental Health Solutions, President and Licensed Clinical Psychologist

RE: US HealthVest Certificate of Need Application, Northbrook Behavioral Hospital

January 26, 2016

Dear Ms. Avery,

I'm writing you today to support US Healthvest's Certificate of Need application for the inpatient behavioral healthcare facility they have proposed building in Northbrook, IL.

As the Director of a multidisciplinary private, group, behavioral healthcare practice with offices throughout the northern suburbs of Chicago, I can attest to the shortage of nearby facilities offering immediate inpatient care to area residents, specifically in Lake County and Cook County. We find that many current and potential clients are unable to find open beds at nearby inpatient psychiatric and behavioral health facilities and are forced to wait on prohibitively long wait lists for treatment, or else travel great distances to find openings at out-of-state facilities. Others are simply unable to obtain necessary treatment.

Based on the calculations of myself and my partner Dr. Bright Fellowes, Licensed Clinical Psychologist and President of Mental Health Solutions, we estimate that our team of behavioral health professionals have referred upwards of fifty clients within the last year to local hospitals and inpatient facilities. These clients are residents of ZIP codes ranging as far south as Chicago and as far north as the Wisconsin border, reaching from Northshore suburbs such as Northbrook as far west as Rockford, IL.

I believe that an increase in the availability of inpatient mental healthcare in the area would positively impact my own practice's ability to meet the needs of a growing number of clients, such that over the first twenty four months following its opening, we might refer in excess of one hundred clients (about five clients per month, on average) for evaluation and/or admission to the proposed facility.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's behavioral hospital, and I thank you for your assistance to the residents of your area by providing access to care.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at Lincolwood Medical Center located in Lincolnwood-IL, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

- 1) We expect about 20 of referrals for behavioral healthcare from the various zip codes of the northern Cook county including the city of Chicago of Chicago and the northern suburbs where most of my patients reside in those zip codes.
- 2) An estimated number of 20 patients may be refer to Northbrook Behavioral Hospital on a monthly basis and would expect to continue to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE; US Health Vest's Certificate of Need Applications for Northbrook
Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of need for a behavioral hospital in Northbrook, Illinois.

As a Clinical Psychologist at Brookdale Northbrook, in Northbrook, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been a number of instances when patients have had to wait an unreasonable time to access care.

Recently I have had three patients, all residing in the zip code 60092, who experienced significant delays in receiving inpatient psychiatric care due to a significant lack of psychiatric beds in the area. As a result one patient was sent to Oak Lawn, Illinois, effectively causing her to be prevented from receiving out patient follow-up. The long term consequences of her inability to secure follow up care have been quite detrimental

I anticipate, based upon recent history, that three to six patients per month would be referred by me for either admission, medication management/ evaluation. In this area there is a notable shortage of psychiatrists willing to treat residents in long term care facilities, and as a consequence having reasonable proximity to a behavioral health hospital is critical for this population.

My practice focuses on providing psychotherapy, evaluation and consultation to Senior Living facilities in the Chicago NorthShore suburbs.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital

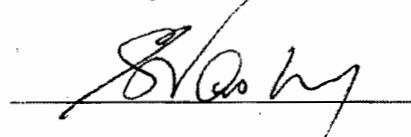

I urge you to support the approval of US Health Vest's application for Northbrook Behavioral Hospital Approval of US HealthVest's application to increase access to these critical services.

Very truly yours,

Dr. Anne H. Levin , Psy D.
Licensed Clinical Psychologist

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Licensed Clinical Social Worker, and Program Director of Clinical Services at The Josselyn Center located at 405 Central Avenue, in Northfield, Illinois our patients have often experienced delays in accessing inpatient psychiatric care while being assessed in a hospital emergency room, mainly due to bed shortages that accept Medicaid clients.

We provide outpatient mental health care to clients from 60 communities. We have referred approximately 10 clients for emergency room assessments in the past year. Client zip codes are not available because our system does not track them.

We as a provider may refer one client per month to the Northbrook Behavioral Hospital, and could expect to continue to refer two a month over a 24-month period; this would be for an evaluation, referral or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Suzan Eckstein, LCSW
Program Director of Clinical Services
The Josselyn Center

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook.

I am an independently practicing psychiatrist working in three different hospitals in Chicago and its suburbs. I am very aware of the need for more psychiatric hospital beds in the greater Chicagoland area and have experienced difficulty finding available beds, and delays for patients in emergency department settings in finding beds for them to be transferred to. Emergency departments in Illinois have seen a great rise in presentation of psychiatric patients but not a corresponding increase in availability of appropriate, accessible care. We need more beds in Illinois as well as a more appropriate distribution of them for better accessibility. For instance, I often treat patients in the west suburban hospital I am on staff at who have come from hours away due to having no care in their areas. The north suburban area seems to be one of those weaknesses, so I believe a hospital in Northbrook would be well received and utilized.

My partner and I hospitalize approximately 100 patients per month at one of our hospitals in the western suburbs and at least 90 at the other in the city. The third hospital does not have psychiatry but I perform all the consults there. We also maintain a very large base of patients from the northern suburbs where this project is proposed, because my partner had built a very large population of patients out of his Des Plaines office, when he was medical director of Forest Hospital; and we have maintained them. These patients come from Des Plaines, Glenview, Niles, Morton Grove, Wilmette, Evanston, Skokie, Mount Prospect and Highland Park to name a few. I am certain that these suburbs are in that catchment area even though I do not know the Zip Codes.

I not only will refer to Northbrook Behavioral Hospital but I have already discussed coming to practice there myself in caring for these patients; should this hospital open. I would easily estimate my referrals to this hospital will be between 70-80 per month on a permanent basis, as our volume remains highly consistent, year after year.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

T. Ranganathan

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a mental health professional at KGH Consultation & Treatment, Inc. located in Northbrook, IL my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

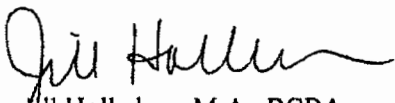

Within the past year, KGH Consultation & Treatment, Inc. has referred 4 patients for behavioral healthcare. Patient zip codes are not available because our system does not track them.

KGH Consultation & Treatment, Inc. estimates that we could refer 1 patient to Northbrook Behavioral Hospital on a monthly basis and would expect to continue to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

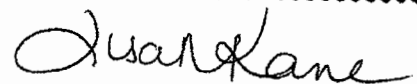

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Jill Hollederer M.A., BCBA
Clinical Director

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Ms. Avery:

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at St. Francis Hospital located in Evanston, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

My service refers about 2-3 patients per week for inpatient psychiatric treatment. Though I do not formally track the zip codes of my patients, the overwhelming majority of my patients reside in the normal catchment area for St. Francis Hospital which serves Evanston, Illinois and the neighboring communities. The ZIP code for the hospital is 60202.

I would anticipate referring about 5 patients per month to Northbrook Behavioral Hospital for a 24 month total of 120 patients.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Eugene Kwon, M.D.
Psychiatrist

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Nursing Home Administrator at Rosewood Care Center of Northbrook, the residents have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

Over the last year, the number of referrals for behavioral healthcare from RCC-NOR was 4 and they were all from 60062 zip code.

An estimated number of patients that RCC-NOR may refer to Northbrook Behavioral Hospital on a monthly basis would be 1 and we would expect to continue to refer 1 to 2 patients over a 24-month period.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

New fight over city mental health clinics

By Greg Hinz February 03, 2016

The city's largest employees union and Chicago aldermen today unveiled a plan they said would expand services at the city's remaining mental health clinics without costing city taxpayers money—potentially steering some troubled youth to treatment rather than street confrontations with police.

But the city says it won't work and, in fact, would be "counterproductive," according to Dr. Julie Morita, the city health commissioner.

Under the plan submitted by Ald. Jason Ervin and 20 colleagues, and backed by the American Federation of State, County and Municipal Employees, treatment options would be expanded in needy, often crime-plagued neighborhoods by expanding community outreach and hiring more staff at the city's six mental health clinics.

"The six mental health clinics have the capacity to serve many more clients," sponsors said in a written summary.

The plan would be funded by requiring the city's Department of Public Health to join three managed-care networks that reimburse mental health care, using the Medicaid program.

But according to Morita, the plan wouldn't pay its own costs, much less get the city new money.

Each psychiatric visit to a city clinic costs about \$450, but Medicaid reimburses only \$75, she said. And the federal system comes with so much red tape that the city's ability to get a better price from vendors would be harmed, leaving the city worse off than it is now.

AFSCME spokesman Anders Lindall termed that response "a red herring," since many of the medical personnel who would be used already are on the city payroll. But the group's own statement said the intent is to "treat more people."

Emanuel set off huge protests earlier in his tenure when he closed six other mental health clinics in a cost-cutting move. That storm never has quieted, and in fact has picked up recently with suggestions that some of those involved in police shootings were unable to get needed mental health treatment.

Lindall denied that AFSCME's intent in today's move is to reopen the clinics.

Aldermen to Emanuel: Step up mental health services

Mayor Rahm Emanuel (Zbigniew Bzdak / Chicago Tribune)

By **Hal Dardick** · **Contact Reporter**
Chicago Tribune

FEBRUARY 3, 2016, 5:26 PM

A group of aldermen on Wednesday urged Mayor Rahm Emanuel to step up services for the mentally ill, saying many patients have fallen through the cracks since the administration closed half of the city's mental health clinics four years ago.

But the mayor's top public health official rejected the plan, saying the administration already is moving forward with its own changes.

The need for the additional services has been highlighted by the controversy surrounding recent police shootings, said Ald. Jason Ervin, 28th. He's the sponsor of an ordinance designed to beef up city mental health services, one that's backed by dozens of aldermen and the American Federation of State, County and Municipal Employees Council 31, the union for workers at the clinics.

ATTACHMENT-12H

"When we look at why we need to do this, it is very clear: The last set of incidents in our city, namely Laquan McDonald and the Quintonio LeGrier incident, were clearly issues where mental health was definitely the reason why these calls were made," Ervin said.

McDonald, a troubled 17-year-old, was carrying a small knife and had PCP in his system when Officer Jason Van Dyke shot him 16 times in October 2014. The disturbing police dashboard-camera video of the shooting death, released 13 months later at the order of a judge, showed the teen walking away from officers when Van Dyke opened fire.

As the controversy raged in December over the Emanuel administration's handling of the shooting, LeGrier, a troubled 19-year-old college student, was shot and killed by an officer responding to a call of domestic trouble at his father's home. Bystander Bettie Jones, a 55-year-old mother of five, also was accidentally shot and killed, police said.

"Our inappropriateness in handling those incidents have led and will lead to multimillion-dollar settlements on behalf of the taxpayers, which are definitely funds we could be using elsewhere to help our communities and better our city," Ervin said.

The West Side alderman's "Mental Health Safety Net" ordinance would require city mental health clinics to join three managed-care networks that fall under the umbrella of the federal Affordable Care Act. That would allow them to accept Medicaid-insured patients.

The group also wants the city's health department to hire more psychiatrists, ensure that the clinics provide adequate services and do a public mental health outreach campaign to let people know the services are available and to help remove the stigma of being treated for mental health problems.

Although he did not put a price tag on the additional services, Ervin said that between Medicaid reimbursements and federal grants, there would be no "direct cost to the city of Chicago."

But Dr. Julie Morita, commissioner of the Chicago Department of Public Health, said that Medicaid reimbursements fall \$375 short of what the city spends for each clinic visit by a mental health patient. So the city would have to spend more.

The Emanuel administration plans to enter into contracts with managed-care networks. But it opposes Ervin's ordinance because it would set a six-month deadline on establishing those contracts, which "takes away our negotiation abilities, because if the insurance companies know we have to have a contract in place by a certain date, we can no longer negotiate terms for our patients," Morita said.

Morita added that the city has hired a consultant to "facilitate" getting contracts but could not commit to a timeline for completing them. She also said the city recently hired a second full-time

psychiatrist and is looking to hire four more but is having difficulty because of "a national shortage of psychiatrists."

As a result, the city is "reluctant" to do more outreach at this time, she added. "Until we have more permanent psychiatrists, we don't want to be too extensive in our outreach, because we don't want to overwhelm our system," she said.

Morita also suggested that people who have obtained insurance under the federal Affordable Care Act might want to look elsewhere for treatment because the city is mostly there to serve as a safety net for the uninsured.

"They can go elsewhere and get more comprehensive care," she said.

Program Descriptions

Adult Psychiatric

The adult program offers treatment for adults who have moderate to severe psychiatric and behavioral problems. Our programs are tailored to the patient's needs enabling them to more effectively cope with their emotions and behaviors. The program purpose is to promote the maximum cognitive, social, physical, behavioral, and emotional development in each of our patients. Methods of treatment include medication management, group and individual therapy and discharge planning.

Senior Adult

Older adults often have unique and complex needs and experience physical and lifestyle changes that can negatively impact their emotional wellbeing. Psychiatric and behavioral concerns, combined with medical issues, complicate the diagnosis, care and treatment of seniors. Age-sensitive treatment and discharge planning is provided to assist our patients to achieve or regain the highest level of independence possible and help preserve their quality of life.

Children and Adolescents

Young people may experience symptoms of mental illness or encounter situations that they respond with behaviors that are a danger to themselves or others. Youth programs are evidence-based and specifically designed to help children/adolescents and their families through difficult circumstances or issues using intensive evaluation, treatment and aftercare planning with a professional multidisciplinary team treatment approach. Treatment includes group, individual, and family therapy.

Women Only

The Women's program addresses the unique mental health and chemical dependency needs of women in crisis through evidence-based therapeutic approaches. The program addresses such issues as trauma, depression related to reproductive issues, loss of pregnancy, post-partum depression, anxiety and obsessive disorders, relationship issues, eating disorders, and other serious disorders women may encounter. Only women attend the specialized therapy and educational groups. This gender specific approach enhances the effectiveness of therapy by providing a safe environment to process sensitive issues.

Extra Mile Veteran Care

Our Extra Mile Veteran Care Program provides treatment for PTSD, substance dependence and mental health issues, such as depression and anxiety in an environment designed with the veteran in mind. We understand teamwork and veterans. Our specially trained therapists and technicians will work together with veterans to help them overcome barriers and restore balance to their lives.

Faith Based Mental Health

Our proposed Faith Based specialty program provides unique inpatient and outpatient care where patients can include personal religious beliefs and their faith in God throughout the treatment process. The program merges sound professional counseling with Biblical principles to provide a

Christian atmosphere for recovery from serious mental health and chemical dependency problems.

Dual-diagnosis

Our dual-diagnosis program is an integrated therapy program that focuses on adults who face multiple mental health disorders or a combination of mental illness and drug or alcohol dependency, also known as co-occurring disorders. Patients receive motivational enhancement therapy, cognitive behavioral therapy, and 12-step facilitation therapy. The program allows patients to recognize and manage the issues related to their mental illness and chemical dependency problems.

**SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND
ALTERNATIVES – INFORMATION REQUIREMENTS** Continued xiv

ALTERNATIVES

1. Identify ALL of the alternatives to the proposed project:

The primary purpose of the proposed project is to increase the access of area residents to the acute mental illness inpatient services. To this end, the Applicant considered the expansion of services to CBH which also addresses consideration of smaller projects and collaboration of an existing provider as an alternative to the proposed project. As CBH is situated on a tight lot and is land locked, this alternative was rejected without further evaluation and cost analysis. Also considered was the alternative of developing two separate smaller AMI hospitals one each in Planning Areas HSA7, A-08 and HSA8, A-09.

- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**

ALTERNATIVE #1 - Expansion of Chicago Behavioral Hospital

Cost

As the current project is leasing the property, the real comparison in costs would be the cost of expansion. CBH's original building is approximately 96 years old and the addition is 46 years old. The facility, since its change of ownership, has undergone significant renovations to its third and fourth floors; the cost of renovating an aged structure to provide the required addition could conceivably exceed the cost of new construction. The raw construction costs plus contingencies for the proposed project equate to \$210 per gross square foot of space. As renovation cost of existing space, this is 70% of the cost of newly constructed space. Thus, merely by virtue of needing newly constructed space this alternative could represent costs that

ATTACHMENT-13

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES – INFORMATION REQUIREMENTS Continued xv

would be at a minimum 30% greater in terms of costs per gross square feet for raw construction. Costs could also be increased due to the limited staging area on the long narrow parcel for the construction. Refer to **ATTACHMENT-13A**. Finally, and the clincher is that the property is bound by the DesPlaines River on the East and the School District property to the West and the Forest Preserve to the South. The property is land locked and additional property is not readily available. Thus, the alternative was considered not viable.

Patient Access

This alternative improves patient accessibility. CBH is located in Planning Area A-07. However, there is a current identified need for additional beds and services in Planning Areas A-08 and A-09 for AMI services (refer to **ATTACHMENT-13B** for the February 16, 2016 Update to the State's Inventory of Health Care Facilities and Services and Need Determinations). These State defined service areas are directly North and East of the A-07 Planning Area (refer to **ATTACHMENT-13C** for a map illustrating the geographical relationship of the projects). Although the existing CBH is turning away a significant number of its referrals, it would appear that a separate location would better address accessibility throughout the area.

Quality

As identified by CBH, it has a referral relationship with many acute care providers (refer to **ATTACHMENT-13D**), even some which have AMI units or are specific AMI facilities. It is the intent of this Applicant to work closely with all providers and to only provide the services that compliment those that are already provided. This is not reflective of an issue of quality as the Applicant has the utmost respect for CBH and the other Acute care providers offering AMI services. Due to the under supply of all AMI services in Chicago and the country, this project is an issue of need and not quality.

ATTACHMENT-13

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES – INFORMATION REQUIREMENTS Continued xvi

Financial Benefits

The financial benefits of this alternative are not known as this is not a viable option due to the CBH site being landlocked.

ALTERNATIVE #2 - Seperate Projects in Planning Areas A-08 and A-09 Respectively

Cost

It has proven difficult to find property in the built up areas that make up Planning Areas A-08 and A-09. Although not impossible, separate projects would require reductions in economies-of-scale of having a single administration and required ancillary service areas such as intake, pharmacy, kitchen/dining, maintenance, laundry, housekeeping/supplies and mechanical/electrical to name a few. These areas could represent upwards of 30% or more of the buildings area. As such, this alternative would be expected to significantly increase the cost of the projects compared to the proposed project.

Patient Access

This alternative improves access; however, all variables being consistent, i.e., number of beds, this alternative would require smaller sites which may not have the presence that a single site could offer. The realistic possibility that two separate smaller sites would be less visible, thus removing the resource from the public's perception effectually limits access to those being referred for care and treatment when we should be removing the stigmatism and making the services more accessible.

Quality

Quality is not of issue as demand for additional services is. It is expected that comparable quality will be provided by the Applicant for related facilities. That being said, additional staffing requirements caused by duplication of facilities could represent negatively on quality.

**SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND
ALTERNATIVES – INFORMATION REQUIREMENTS** Continued xvii

Financial Benefits

It would appear that in having two ground leases, identical build out of space to include all ancillary support space duplicated in each facility and ultimately the lack of economies-of-scale would render two smaller projects not viable on a financial basis. As such, this alternative was rejected

ALTERNATIVE #3 - Proposed Project

The proposed project is considered viable because of costs of a single project that allows for economies-of-scale over a greater number of beds. The single prominent site allows for greatest patient access for both patients and staff, which renders the project financially viable.

- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

The sense of knowledge supporting the project is the experienced reality of the Applicant's parent through its related operations of CBH. Chicago Behavioral Hospital has provided services that best compliments the services offered by the existing facilities. This is not to say that there are no overlaps of treatments and programs but the open referrals between CBH and the Acute care providers coupled with the overwhelming response in offered referrals for the proposed project serves to document this empirical evidence. This in no way implies that the quality of care of the Applicant is better than another provider, but that quality of mental health services can be improved if a project is put in place that compliments the services that the existing providers offer. This is the experience of the Applicant's parent through its related facility CBH, a facility only open for just under a year.

Notes

Existing CBH location in DesPlaines, Illinois

Ms. Courtney Avery, Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street
Springfield, Illinois 62761

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am the CEO of Chicago Behavioral Hospital in Des Plaines, Illinois and I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook. US HealthVest acquired Chicago Behavioral Hospital ("CBH") on November 3, 2014 from Maryville Academy. Due to renovations that were in process prior to the acquisition, only 78 of the 125 licensed beds were available for use. We expanded services to adults and senior adults and grew from a census in the single digits at the time of the acquisition to full capacity (80%+) in under a year.

In 2015, we deflected 672 patients referred to our hospital in 2015 because we did not have a bed available. While we it is difficult to track where these deflected patients have gone for care, we understand that many have either gone without care or have experienced significant wait times and have had to travel great distances for care. Professional referral sources often verbalize having difficulty with placement because "everyone is full". It has not been unusual for them to note that they have had significant delays finding alternate beds for patients because other hospitals in the area run full. In 2016, we gained access to our newly renovated units and once again see rapid bed occupancy.

Of the 672 deflected patients, 111 patients were from planning areas A-08 and A-09 or zip codes 60016, 60026, 60010, 60030, 60035, 60045, 60046, 60048, 60061, 60085, 60076, 60202 and 60645.

The distribution of beds clearly slights the northern suburbs. Having a relationship with over 50 emergency departments, we know from nurses, crisis workers and physicians in these settings that patients have had to wait long periods in emergency rooms in order to access care. This is something that common and routine problem in many parts of Illinois.

Today, area hospitals that are within a 45 minute drive from CBH and similarly to the Northbrook project, continue to send a significant number of referrals due to their own psychiatric units being full, not treating particular types of patients or not having inpatient psychiatric care. In looking at data from the last ten months since starting adult services, some examples of the numbers of these referrals come from: Evanston Northshore Hospital (52), Advocate Good Shepherd (91), Northwest Community (92), Linden Oaks (82), Community First Hospital (60), Condell Medical Center (32), Northwestern Medicine Central DuPage Hospital (52), Alexian Brothers Behavioral Health Hospital (39), Advocate Lutheran General (115) and Palos Community Hospital (44). The total of referrals coming from hospitals only within 45 minutes travel has been 1,099 for this past ten month period.

MENTAL HEALTH & CHEMICAL DEPENDENCY
555 WILSON LANE • DES PLAINES, ILLINOIS 60016
P: 847-768-5430 • F: 847-768-5478
WWW.CHICAGOBRH.COM

ATTACHMENT-13D

Our occupancy at CBH has grown to 87%, 86%, 84%, and 81% in September, October, November and December of 2015 respectively, without the aforementioned plans to increase marketing, and we expect even greater growth this spring. Chicago Behavioral Hospital would also need to deflect patients to a Northbrook Hospital. Our growth projections conservatively reach 84% in April and 90% in May of 2016. We expect our growth trajectory to continue beyond our 125 beds at CBH by the mid 2016 and that we will again have the dilemma of deflecting patients due to bed availability. This would be well before the Northbrook facility could conceivably be opened.

With all of the deflections, marketing efforts, new lines of service development and practices that we are attracting, we are projecting significant referrals to Northbrook Behavioral Hospital from CBH. We believe with our experience of 15% deflections from the Northbrook catchment area Zip Codes, as well as our deflections from other underserved geographies, that CBH alone will refer a total of 48-50 patients per month to Northbrook which will be from 576 to 600 annually. We do not see this need reducing and believe it will be very consistent throughout the years to come.

The information I've included here has not been used to support any other pending or approved CON application for a behavioral health hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services in the north suburban areas of Illinois.

Sincerely,

Anthony DeJoseph

Anthony DeJoseph, Psy.D.

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. This must be a narrative.

The proposed AMI facility will be developed through the renovation of existing space. The State Standard for AMI space is only projected in terms of departmental gross square feet. This standard allows for a range of between 440 to 560 departmental gross square feet per bed. NBH will have 52,033 clinical gross square feet or 520 dgsf/bed. Thus, it is consistent with the HFSRB's standard contained in Appendix B to Part 1110.

2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::

This item is not applicable as the gross square footage does not exceed the DGSF standards in Appendix B.

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued ii

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. A narrative of the rationale that supports the projections must be provided.

The HFSRB has an established utilization standard of 85% for AMI beds and services according the 77 IAC Part 1100. The Applicant has proposed that for the first year of operation, CY 2018, the facility will experience a ramp-up of services resulting in annual patient days of 15,165 (or 41.5%). The second year of operations, CY 2019, the project will have achieved and be able to maintain an adjusted patient days totaling 31,297 days or an 85.7% utilization rate in conformance with this State standard (please note that 31,025 patient days + target rate of 85%).

Support and justification for these assumptions come from two types of sources. First, CBH has had to turn away referrals due to the not having an available bed. Refer to **ATTACHMENT-15A** for CBH's referral/support letter for the proposed project. It should be noted that until January of 2016, 47 beds of its licensed compliment of 125 AMI beds were under renovation; a project that was inherited from the facility's previous operator. Related entity operating CBH ramped up the operations in five months and the available beds have been effectively full (85% or higher since September of 2015). In January the facility completed its third and fourth floor renovations (47-beds) and in the first two months since, have realized peak average daily census well into the 90's. It is expected that by the time this project is heard by the HFSRB, CBH will meet or exceed target utilization of the entire licensed capacity. Based upon this experience it is referring at a minimum between 12-14 monthly referrals. The second and traditional source of referrals are from the mental health provider and agency community.

ATTACHMENT-15

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued iii

Appended as **ATTACHMENT-15B** are 21-letters of referrals/support for the proposed project. Together these resources are making annual referrals over the 24 month period following project completion that range from 3,558 to 3,951 patients. These referrals reflect an average length of stay of 8.72 days down to 7.85 days. This is well less than the 15.2 days experienced by CBH's predecessor in CY 2014 yet consistent with and within the range of 5.2 days to 11.9 days of the existing AMI providers excluding CBH's predecessor. As such, these referrals more than justify the Applicant's ability to fill and maintain utilization of the proposed NBH.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am the CEO of Chicago Behavioral Hospital in Des Plaines, Illinois and I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook. US HealthVest acquired Chicago Behavioral Hospital ("CBH") on November 3, 2014 from Maryville Academy. Due to renovations that were in process prior to the acquisition, only 78 of the 125 licensed beds were available for use. We expanded services to adults and senior adults and grew from a census in the single digits at the time of the acquisition to full capacity (80%+) in under a year.

In 2015, we deflected 672 patients referred to our hospital in 2015 because we did not have a bed available. While we it is difficult to track where these deflected patients have gone for care, we understand that many have either gone without care or have experienced significant wait times and have had to travel great distances for care. Professional referral sources often verbalize having difficulty with placement because "everyone is full". It has not been unusual for them to note that they have had significant delays finding alternate beds for patients because other hospitals in the area run full. In 2016, we gained access to our newly renovated units and once again see rapid bed occupancy.

Of the 672 deflected patients, 111 patients were from planning areas A-08 and A-09 or zip codes 60016, 60026, 60010, 60030, 60035, 60045, 60046, 60048, 60061, 60085, 60076, 60202 and 60645.

The distribution of beds clearly slights the northern suburbs. Having a relationship with over 50 emergency departments, we know from nurses, crisis workers and physicians in these settings that patients have had to wait long periods in emergency rooms in order to access care. This is something that common and routine problem in many parts of Illinois.

Today, area hospitals that are within a 45 minute drive from CBH and similarly to the Northbrook project, continue to send a significant number of referrals due to their own psychiatric units being full, not treating particular types of patients or not having inpatient psychiatric care. In looking at data from the last ten months since starting adult services, some examples of the numbers of these referrals come from: Evanston Northshore Hospital (52), Advocate Good Shepherd (91), Northwest Community (92), Linden Oaks (82), Community First Hospital (60), Condell Medical Center (32), Northwestern Medicine Central DuPage Hospital (52), Alexian Brothers Behavioral Health Hospital (39), Advocate Lutheran General (115) and Palos Community Hospital (44). The total of referrals coming from hospitals only within 45 minutes travel has been 1,099 for this past ten month period.

WWW.CHICAGOBBH.COM

ATTACHMENT-15A

Our occupancy at CBH has grown to 87%, 86%, 84%, and 81% in September, October, November and December of 2015 respectively, without the aforementioned plans to increase marketing, and we expect even greater growth this spring. Chicago Behavioral Hospital would also need to deflect patients to a Northbrook Hospital. Our growth projections conservatively reach 84% in April and 90% in May of 2016. We expect our growth trajectory to continue beyond our 125 beds at CBH by the mid 2016 and that we will again have the dilemma of deflecting patients due to bed availability. This would be well before the Northbrook facility could conceivably be opened.

With all of the deflections, marketing efforts, new lines of service development and practices that we are attracting, we are projecting significant referrals to Northbrook Behavioral Hospital from CBH. We believe with our experience of 15% deflections from the Northbrook catchment area Zip Codes, as well as our deflections from other underserved geographies, that CBH alone will refer a total of 48-50 patients per month to Northbrook which will be from 576 to 600 annually. We do not see this need reducing and believe it will be very consistent throughout the years to come.

The information I've included here has not been used to support any other pending or approved CON application for a behavioral health hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services in the north suburban areas of Illinois.

Sincerely,

Anthony DeJoseph, Psy.D.
CEO
Chicago Behavioral Hospital

RE: US Health Vest's Certificate of Need Application for a behavioral hospital in Northbrook.

Dear Ms. Avery,

I am writing this letter in support of US Health Vest's Certificate of Need application for a behavioral hospital in Northbrook.

As a mental health professional, administrator of Abbott House Nursing Home, LLC, located in Highland Park, my consumers have experienced frequent delays in accessing local inpatient psychiatric care mainly due to bed shortages for mental health patients. There have also been many occasions when local hospitals have returned patients, our consumers, who were actively psychotic and suicidal to our facility without treatment.

Over the last year our facility has referred 24 consumers for inpatient behavioral healthcare to Chicagoland hospitals. We have not been able to refer consumers to a local hospital for inpatient behavioral healthcare as there is not a facility near the 60035 zip code which accepts psychiatric inpatient behavioral healthcare. Our facility estimates that the number of consumers that would be referred for inpatient behavioral healthcare would be at least 50 consumers in a 24 month period.

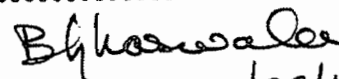

The information I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US Health Vest's application for Northbrook Behavioral Hospital. Approval of US Health Vest's application will increase access to these much needed and important services.

Sincerely,

Ivy Fishman
Administrator

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a large interdisciplinary psychiatric practice that works across five hospitals in the Chicago area, we have found that there is very poor access to psychiatric care in the northern suburbs very near Northbrook, and a project of this nature would be quite helpful for accessibility, and in solving the bed shortage in the northern area of Illinois. Patients from this area often have to wait to access care, and quite frankly it's really not available in Northbrook and its surrounding suburbs. Patients characteristically have to be taken out of that area, either down into Chicago or into the far western suburbs for care. There is simply no options available, and we know this because we receive referrals from this area that we are forced to hospitalize very far from our North suburban referral sources.

We hospitalize well over 2000 patients per year, and the fairly significant portion of them come from the north suburban area of which Northbrook is a part. Zip codes for this total are from across the state and too numerous to list. However, with regard to the number of patients that we've had to hospitalize away from their home from that area, whom would be better served in a hospital in Northbrook, we have had approximately 468 admissions from Zip Codes 60089, 60714, 60202, 60076 and 60026. To put this in perspective, we have had to take patients from these ZIP Codes, all of which either border or are surrounding Northbrook, and treat them as far as 30-35 miles away. It would make more sense to treat people near their own community.

Accordingly, we would estimate being able to refer the majority of those 468 patients at the Northbrook Behavioral Hospital, and given that it is not likely that 100% (39) of this group would end up there, we would approximate some 35 of these patients to be hospitalized at the site per month.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these geographically and gravely needed services.

Sincerely,
Alfa Murphy

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook, Illinois.

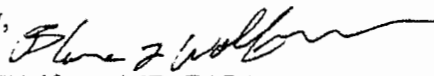

I am a psychiatrist in practice on the northwest side of Chicago and suburbs for the past two decades over which time I have seen several psychiatric facilities close their doors leading to patients having to wait longer at a general medical facility for transfer or being turned away at the admissions office due to lack of beds. My patients now experience this delay on a routine basis. The area is now in short supply and we could use an additional facility managed by US Health Vest who has many decades of experience in psychiatric hospital facility construction and development of quality programs.

Our group practice has referred over 400 patients for inpatient admission and over 600 for partial hospitalization in the past year from our practice locations in zip codes 60631, 60194 and 60016. We estimate that this number will increase to 500 inpatients in 2016 and that once the new hospital is open in Northbrook about two hundred of these in need patients would benefit from an admission to this new state of the art facility for mental health and substance abuse care. These patients live primarily in the following zip code areas. 60015, 16, 22, 25, 26, 29, 56, 62, 70, 90, 91, 93, 02, 10, 11, 15, 20, 30, 35, 37, 40, 41, 42, 43, 44, 45, 46, 47, 48, 53, 60, 61, 64, 69, 73, 75, 76, 77, 79, 83, 84, 85, 86, 87, 88, 89, 91, 93, 96, 99, 60201, 02, 03, 04, 08, 09, 60626, 45, 59 60712, 14.

The above information has not been used to support any other facilities pending or approved CON application.

Please register my support for the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will improve the quality of care and increase access to these necessary services.

Sincerely,

Blaise J. Wolfrum, MD, FAPA

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a emergency room physician on staff at multiple sites in the Chicago metro area, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care. Not uncommonly patients wait over 24 hrs further congesting the emergency room for other medical emergencies.

In addition to my emergency medicine practice I have opened an out patient Opiate Addiction Treatment clinic in Northbrook Ill. (333 Skokie Blvd Suite 112 Northbrook Il 60062). Many, if not all of my patients suffer from dual diagnosis situations depression or anxiety in conjunction with substance abuse. We have had to refer a minimum of 5-6 patients per month outside of the local area for inpatient stabilization prior to outpatient treatment. (Zip codes not available as our system does not track them) Given the recent climate in addiction and its comorbid psychiatric illnesses we expect that this metric will continue. As our clinic continues to grow this number will increase.

A new facility will provide a necessary resources and help keep the patients closer to their families. Mental health patients in the northern Chicago suburbs and its surrounding communities will greatly benefit form a new facility.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a healthcare provider at Brookdale Northbrook Senior Living located in Northbrook IL, our patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care, or have been sent many miles away for an available bed.

Over the past year we have had 14 patients all from this facility, area code 60062, that were in need of Behavioral Health Services and they have had to go as far away as Oak Lawn and Elk Grove Village for the needed care. This is very stressful for both patients and families and takes the patients away from their healthcare network here in Northbrook, which does not provide good continuity of care.

We estimate that we would consistently have 12 to 14 patients that we would be referring to Northbrook Behavioral Health annually and more if availability is closer to their home.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a mental health professional at counseling speaks, LLC located in Park Ridge, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

counseling speaks, LLC estimates referring a number in the area of 30-40 patients to Northbrook Behavioral Hospital on a monthly basis for hospitalization and would expect to continue to refer this over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care. I do not track my patients by zip code, but the fact that many of them come from suburbs north of our office places them in the service area of the proposed Northbrook Behavioral Hospital.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Kasia Wereszczynska, MA, LCPC, RYT

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at Chicago Behavioral hospital located in Des Plains and Lutheran General Hospital located in Park Ridge, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

Over the past year I have referred approximately 30 inpatients from zip codes 60714, 60047, 61107 & 60062 for inpatient evaluation. I would expect a similar or larger volume equaling about 3 to 4 per month and approximately 60 in 24 months. These could be for an evaluation or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a clinical psychologist and supervisor at Maryville Academy in Des Plaines, which is very close to the proposed location in Northbrook, my patients have not only experienced delays in accessing inpatient psychiatric care due to bed shortages, but have often had to be sent all across the state, far from their home because of this. We clearly need more beds in this north suburban area which Northbrook is a part of, and accessibility there would make far more sense than what we have to work with at present. We have many problems and delays in accessing care because of a lack of an adequate number of beds in this area.

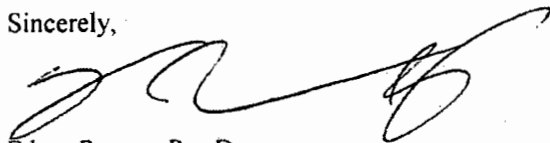

We have sent over 150 children for hospitalization in the past year spread across numerous hospitals and would prefer to be able to keep them closer to Maryville than has been possible. They are all from the 60016 zip code, as we are residential.

I would estimate that we would send between 10-15 referrals monthly for inpatient psychiatric care at a facility in Northbrook whenever we have access to it. Our referrals are consistent and steady in number year after year, due to the nature of our organization.

The information that I have included here has not been used to support any other pending or approved CON application for a behavioral hospital.

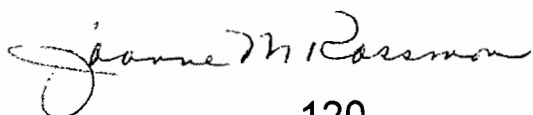

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase the access to these important services that we so desperately need in the northern suburbs surrounding Northbrook...

Sincerely,

Edgar Ramos, Psy.D.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Clinical Psychologist and Administrator / Owner of two large group private practices headquartered in Mount Prospect with satellite offices near Evanston, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

In the past year, we have had occasion to refer, on average, about three clients per month for inpatient or intensive outpatient-based treatment – the type of services that will be offered by Northbrook Behavioral Hospital. While we do not track client zip codes for these referrals, I can tell you that there are few, if any, options for this type of treatment near my office in Chicago located in zip code 60646. My clients often must travel to Chicago Behavioral Hospital in Des Plaines, Alexian Brothers' Behavioral Hospital in Hoffman Estates, or Northwest Community Hospital in Arlington Heights – none of which are especially close to my office. I would expect to channel a majority of these referrals – perhaps as many as 72 over a twenty-four month period – to Northbrook Behavioral Hospital and would expect on-going utilization of their services if they are allowed to build this much-needed behavioral health hospital.

The information included in this Certificate of Need letter has not been included in support of any other pending or approved application for a behavioral healthcare hospital.

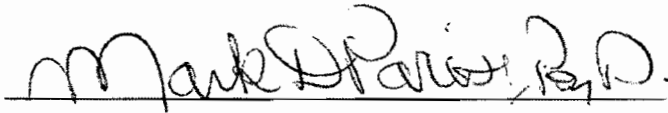

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook.

Mathers Clinic is a mental health and substance abuse practice in Rockford, Woodstock, Crystal Lake and Elgin. We also provide psychiatric services to 14 Assisted Living/Nursing Homes. Our patients have experienced ongoing delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been multiple times when patients have to wait to access care.

We do not have a report that tracks inpatient referrals or zip codes of inpatients. We do have a list of patient zip codes that would benefit from the new location in Northbrook. Our patients come from Northbrook 60062, Prospect Heights 60070, Wheeling 60090, Barrington Hills 60010 and 60011, Fox Lake 60020, Grayslake 60030, Gurnee 60031, Highland Park 60035, Ingleside 60041, Island Lake 60042, Lake Bluff 60044, Kildeer 60047, Libertyville 60048, Mundelein 60060, Vernon Hills 60061, North Chicago 60064, Round Lake 60073, Waukegan 60079, Buffalo Grove 60089, Zion 60099, and Niles 60714.

As a provider we estimate an average of 35 patients would be referred on a monthly basis to Northbrook Behavioral Hospital and would expect to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

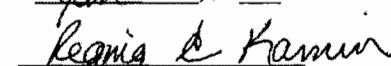

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Renee Shopp RN, CADC
Practice Manager

RE: US Healthvest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery:

I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook.

Meier Clinics provide mental health services in eleven states, including locations in Illinois in Northbrook, Wheaton, Chicago and Geneva. It is not unusual for our patients to experience frequent delays in accessing inpatient psychiatric care, often due to bed shortages or lack of services.

I solicited feedback from the following clinical staff regarding inpatient referrals:

Gary A. Casaccio, M.D., Illinois Medical Director
Steve Lee, M.D., Director of Breakaway
Kim Lurvey, LCSW, Northbrook Clinic Director
Christine Zielinski, LCSW, National Intake Coordinator

They reported that they have referred approximately 66 people to inpatient care over the past 12 months. This is not reflective of the total number we have referred as we have over 50 clinical staff in Illinois, so the above is a very conservative figure. The estimated number of potential referrals over a 24-month period after the project is completed would conservatively be 122 people.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US Health Vest's application will increase access to much needed services.

Sincerely,

Nancy Meier Brown

RE: US HealthVest Certificate of Need Application, Northbrook Behavioral Hospital

January 26, 2016

Dear Ms. Avery,

This letter comes to you in support of US Healthvest's Certificate of Need application for the inpatient behavioral healthcare facility they have proposed building in Northbrook, IL.

As a Licensed Clinical Psychologist and President of a multidisciplinary private, group, behavioral healthcare practice with offices throughout the northern suburbs of Chicago, I can attest to the shortage of nearby facilities offering immediate inpatient care to area residents, specifically in Lake County and Cook County. We find that many current and potential clients are unable to find open beds at nearby inpatient psychiatric and behavioral health facilities and are forced to wait on prohibitively long wait lists for treatment, or else travel great distances to find openings at out-of-state facilities. Others are simply unable to obtain necessary treatment.

I would estimate that as a practice, Mental Health Solutions' providers have referred upwards of fifty clients within the last year to local hospitals and inpatient facilities. These clients are residents of ZIP codes ranging as far south as Chicago and as far north as the Wisconsin boarder, reaching from Norshore suburbs such as Northbrook as far west as Rockford, IL.

I would anticipate that an increase in the availability of inpatient mental healthcare in the area would positively impact my own practice's ability to meet the needs of a growing number of clients, such that over the first twenty four months following its opening, we might refer in excess of one hundred clients (about five clients per month, on average) for evaluation and/or admission.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's behavioral hospital, and I thank you for your assistance in providing access to care to the residents of your area.

Sincerely,

Bright Fellowes, PsyD
Mental Health Solutions, President and Licensed Clinical Psychologist

RE: US HealthVest Certificate of Need Application, Northbrook Behavioral Hospital

January 26, 2016

Dear Ms. Avery,

I'm writing you today to support US Healthvest's Certificate of Need application for the inpatient behavioral healthcare facility they have proposed building in Northbrook, IL.

As the Director of a multidisciplinary private, group, behavioral healthcare practice with offices throughout the northern suburbs of Chicago, I can attest to the shortage of nearby facilities offering immediate inpatient care to area residents, specifically in Lake County and Cook County. We find that many current and potential clients are unable to find open beds at nearby inpatient psychiatric and behavioral health facilities and are forced to wait on prohibitively long wait lists for treatment, or else travel great distances to find openings at out-of-state facilities. Others are simply unable to obtain necessary treatment.

Based on the calculation of myself and my partner Dr. Bright Fellowes, Licensed Clinical Psychologist and President of Mental Health Solutions, we estimate that our team of behavioral health professionals have referred upwards of fifty clients within the last year to local hospitals and inpatient facilities. These clients are residents of ZIP codes ranging as far south as Chicago and as far north as the Wisconsin border, reaching from Northshore suburbs such as Northbrook as far west as Rockford, IL.

I believe that an increase in the availability of inpatient mental healthcare in the area would positively impact my own practice's ability to meet the needs of a growing number of clients, such that over the first twenty four months following its opening, we might refer in excess of one hundred clients (about five clients per month, on average) for evaluation and/or admission to the proposed facility.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's behavioral hospital, and I thank you for your assistance to the residents of your area by providing access to care.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at Lincolwood Medical Center located in Lincolnwood-IL, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

- 1) We expect about 20 of referrals for behavioral healthcare from the various zip codes of the northern Cook county including the city of Chicago of Chicago and the northern suburbs where most of my patients reside in those zip codes.
- 2) An estimated number of 20 patients may be refer to Northbrook Behavioral Hospital on a monthly basis and would expect to continue to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE; US Health Vest's Certificate of Need Applications for Northbrook
Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of need for a behavioral hospital in Northbrook, Illinois.

As a Clinical Psychologist at Brookdale Northbrook, in Northbrook, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been a number of instances when patients have had to wait an unreasonable time to access care.

Recently I have had three patients, all residing in the zip code 60092, who experienced significant delays in receiving inpatient psychiatric care due to a significant lack of psychiatric beds in the area. As a result one patient was sent to Oak Lawn, Illinois, effectively causing her to be prevented from receiving out patient follow-up. The long term consequences of her inability to secure follow up care have been quite detrimental

I anticipate, based upon recent history, that three to six patients per month would be referred by me for either admission, medication management/ evaluation. In this area there is a notable shortage of psychiatrists willing to treat residents in long term care facilities, and as a consequence having reasonable proximity to a behavioral health hospital is critical for this population.

My practice focuses on providing psychotherapy, evaluation and consultation to Senior Living facilities in the Chicago NorthShore suburbs.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital

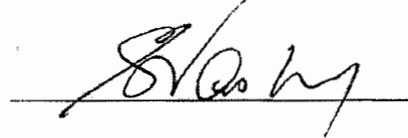

I urge you to support the approval of US Health Vest's application for Northbrook Behavioral Hospital Approval of US HealthVest's application to increase access to these critical services.

Very truly yours,

Dr. Anne H. Levin , Psy D.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Licensed Clinical Social Worker, and Program Director of Clinical Services at The Josselyn Center located at 405 Central Avenue, in Northfield, Illinois our patients have often experienced delays in accessing inpatient psychiatric care while being assessed in a hospital emergency room, mainly due to bed shortages that accept Medicaid clients.

We provide outpatient mental health care to clients from 60 communities. We have referred approximately 10 clients for emergency room assessments in the past year. Client zip codes are not available because our system does not track them.

We as a provider may refer one client per month to the Northbrook Behavioral Hospital, and could expect to continue to refer two a month over a 24-month period; this would be for an evaluation, referral or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook.

I am an independently practicing psychiatrist working in three different hospitals in Chicago and its suburbs. I am very aware of the need for more psychiatric hospital beds in the greater Chicagoland area and have experienced difficulty finding available beds, and delays for patients in emergency department settings in finding beds for them to be transferred to. Emergency departments in Illinois have seen a great rise in presentation of psychiatric patients but not a corresponding increase in availability of appropriate, accessible care. We need more beds in Illinois as well as a more appropriate distribution of them for better accessibility. For instance, I often treat patients in the west suburban hospital I am on staff at who have come from hours away due to having no care in their areas. The north suburban area seems to be one of those weaknesses, so I believe a hospital in Northbrook would be well received and utilized.

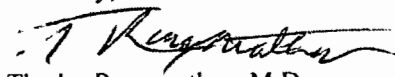

My partner and I hospitalize approximately 100 patients per month at one of our hospitals in the western suburbs and at least 90 at the other in the city. The third hospital does not have psychiatry but I perform all the consults there. We also maintain a very large base of patients from the northern suburbs where this project is proposed, because my partner had built a very large population of patients out of his Des Plaines office, when he was medical director of Forest Hospital; and we have maintained them. These patients come from Des Plaines, Glenview, Niles, Morton Grove, Wilmette, Evanston, Skokie, Mount Prospect and Highland Park to name a few. I am certain that these suburbs are in that catchment area even though I do not know the Zip Codes.

I not only will refer to Northbrook Behavioral Hospital but I have already discussed coming to practice there myself in caring for these patients; should this hospital open. I would easily estimate my referrals to this hospital will be between 70-80 per month on a permanent basis, as our volume remains highly consistent, year after year.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Thodur Ranganathan, M.D.
Psychiatrist

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a mental health professional at KGH Consultation & Treatment, Inc. located in Northbrook, IL my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

Within the past year, KGH Consultation & Treatment, Inc. has referred 4 patients for behavioral healthcare. Patient zip codes are not available because our system does not track them.

KGH Consultation & Treatment, Inc. estimates that we could refer 1 patient to Northbrook Behavioral Hospital on a monthly basis and would expect to continue to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Ms. Avery:

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at St. Francis Hospital located in Evanston, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

My service refers about 2-3 patients per week for inpatient psychiatric treatment. Though I do not formally track the zip codes of my patients, the overwhelming majority of my patients reside in the normal catchment area for St. Francis Hospital which serves Evanston, Illinois and the neighboring communities. The ZIP code for the hospital is 60202.

I would anticipate referring about 5 patients per month to Northbrook Behavioral Hospital for a 24 month total of 120 patients.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Eugene Kwon, M.D.
Psychiatrist

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Nursing Home Administrator at Rosewood Care Center of Northbrook, the residents have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

Over the last year, the number of referrals for behavioral healthcare from RCC-NOR was 4 and they were all from 60062 zip code.

An estimated number of patients that RCC-NOR may refer to Northbrook Behavioral Hospital on a monthly basis would be 1 and we would expect to continue to refer 1 to 2 patients over a 24 -month period.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued iv

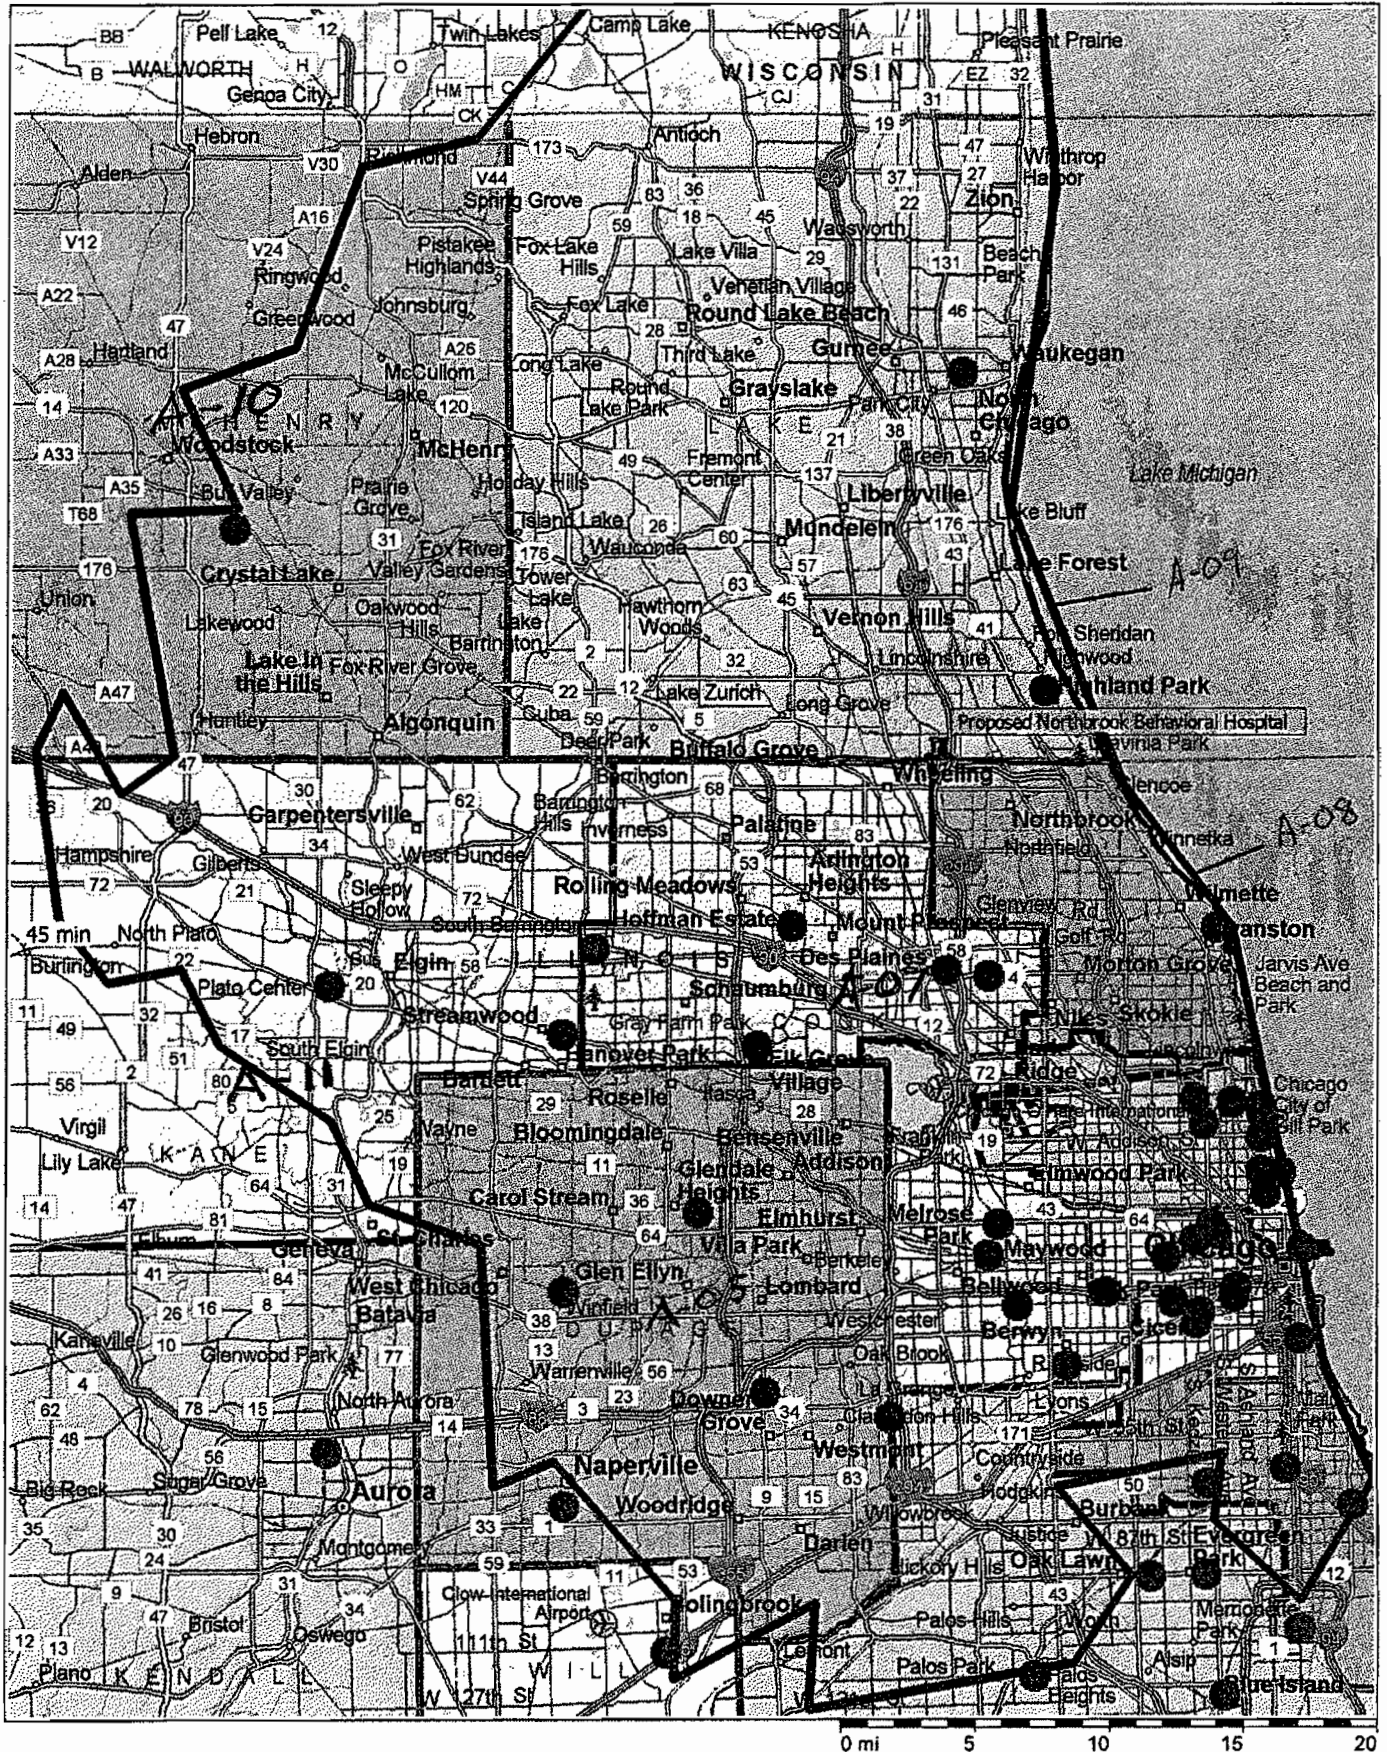

1110.730(b)(1) - Planning Area Need - 77 Ill. Adm. Code 1100 (Formula Calculation)

- A) The number of beds to be established for each category of service is in conformance with the projected bed deficit specified in 77 Ill. Adm. Code 1100, as reflected in the latest updates to the Inventory.

The February 17, 2016 update to the August 25, 2015 Inventory of Health Care Facilities and Services and Need Determinations - Hospitals shows a need for AMI services of 29-beds and 24-beds respectively for Planning Areas A-08 and A-09. The Applicant is proposing 100-beds to address the needs of these two respective Planning Areas and the overwhelming needs as identified by the Mental Health Agencies and providers to include CBH. Moreover, by contrast, the Northern Chicago suburbs appear to be void of AMI services as compared to the City and its southern and western suburbs. Refer to the Microsoft MapPoint map identifying all AMI providers in the greater Chicagoland area appended as **ATTACHMENT-22B1a**.

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued v

1110.730(b)(2) - Planning Area Need - Service to Planning Area Residents

The proposed project will provide AMI services to the residents of the Planning Area residents of both A-08 and A-09 Planning Areas. Additionally, the HFSRB rules require an Applicant's service area to look at a 45-minute travel time contour of the proposed project. As this travel time contour takes in the Southern Chicago Suburbs past the Wisconsin/Illinois border and as far West as DuPage County, the referrals provider for the project focus more narrowly on the Northern Suburbs and, thus, more specifically, to the areas primarily including Planning Areas A-08 and A-09. Refer to **ATTACHMENT-22B2a** for the referral letters identifying where the referrals are coming from. Given the expanse of the geographical service area required by this process (45-minute travel time) compliance to this item is achieved. However, it should be known that the referral sources that track the origin for those they serve and refer have provided the majority of referrals addressing those within Planning Areas A-08 and A-09.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am the CEO of Chicago Behavioral Hospital in Des Plaines, Illinois and I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook. US HealthVest acquired Chicago Behavioral Hospital ("CBH") on November 3, 2014 from Maryville Academy. Due to renovations that were in process prior to the acquisition, only 78 of the 125 licensed beds were available for use. We expanded services to adults and senior adults and grew from a census in the single digits at the time of the acquisition to full capacity (80%+) in under a year.

In 2015, we deflected 672 patients referred to our hospital in 2015 because we did not have a bed available. While we it is difficult to track where these deflected patients have gone for care, we understand that many have either gone without care or have experienced significant wait times and have had to travel great distances for care. Professional referral sources often verbalize having difficulty with placement because "everyone is full". It has not been unusual for them to note that they have had significant delays finding alternate beds for patients because other hospitals in the area run full. In 2016, we gained access to our newly renovated units and once again see rapid bed occupancy.

Of the 672 deflected patients, 111 patients were from planning areas A-08 and A-09 or zip codes 60016, 60026, 60010, 60030, 60035, 60045, 60046, 60048, 60061, 60085, 60076, 60202 and 60645.

The distribution of beds clearly slights the northern suburbs. Having a relationship with over 50 emergency departments, we know from nurses, crisis workers and physicians in these settings that patients have had to wait long periods in emergency rooms in order to access care. This is something that common and routine problem in many parts of Illinois.

Today, area hospitals that are within a 45 minute drive from CBH and similarly to the Northbrook project, continue to send a significant number of referrals due to their own psychiatric units being full, not treating particular types of patients or not having inpatient psychiatric care. In looking at data from the last ten months since starting adult services, some examples of the numbers of these referrals come from: Evanston Northshore Hospital (52), Advocate Good Shepherd (91), Northwest Community (92), Linden Oaks (82), Community First Hospital (60), Condell Medical Center (32), Northwestern Medicine Central DuPage Hospital (52), Alexian Brothers Behavioral Health Hospital (39), Advocate Lutheran General (115) and Palos Community Hospital (44). The total of referrals coming from hospitals only within 45 minutes travel has been 1,099 for this past ten month period.

WWW.CHICAGOBBH.COM

ATTACHMENT-22B2a

Our occupancy at CBH has grown to 87%, 86%, 84%, and 81% in September, October, November and December of 2015 respectively, without the aforementioned plans to increase marketing, and we expect even greater growth this spring. Chicago Behavioral Hospital would also need to deflect patients to a Northbrook Hospital. Our growth projections conservatively reach 84% in April and 90% in May of 2016. We expect our growth trajectory to continue beyond our 125 beds at CBH by the mid 2016 and that we will again have the dilemma of deflecting patients due to bed availability. This would be well before the Northbrook facility could conceivably be opened.

With all of the deflections, marketing efforts, new lines of service development and practices that we are attracting, we are projecting significant referrals to Northbrook Behavioral Hospital from CBH. We believe with our experience of 15% deflections from the Northbrook catchment area Zip Codes, as well as our deflections from other underserved geographies, that CBH alone will refer a total of 48-50 patients per month to Northbrook which will be from 576 to 600 annually. We do not see this need reducing and believe it will be very consistent throughout the years to come.

The information I've included here has not been used to support any other pending or approved CON application for a behavioral health hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services in the north suburban areas of Illinois.

Sincerely,

Anthony DeJoseph

RE: US Health Vest's Certificate of Need Application for a behavioral hospital in Northbrook.

Dear Ms. Avery,

I am writing this letter in support of US Health Vest's Certificate of Need application for a behavioral hospital in Northbrook.

As a mental health professional, administrator of Abbott House Nursing Home, LLC, located in Highland Park, my consumers have experienced frequent delays in accessing local inpatient psychiatric care mainly due to bed shortages for mental health patients. There have also been many occasions when local hospitals have returned patients, our consumers, who were actively psychotic and suicidal to our facility without treatment.

Over the last year our facility has referred 24 consumers for inpatient behavioral healthcare to Chicagoland hospitals. We have not been able to refer consumers to a local hospital for inpatient behavioral healthcare as there is not a facility near the 60035 zip code which accepts psychiatric inpatient behavioral healthcare. Our facility estimates that the number of consumers that would be referred for inpatient behavioral healthcare would be at least 50 consumers in a 24 month period.

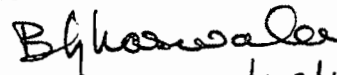

The information I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US Health Vest's application for Northbrook Behavioral Hospital. Approval of US Health Vest's application will increase access to these much needed and important services.

Sincerely,

Ivy Fishman
Administrator
Abbott House Nursing Home, LLC

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a large interdisciplinary psychiatric practice that works across five hospitals in the Chicago area, we have found that there is very poor access to psychiatric care in the northern suburbs very near Northbrook, and a project of this nature would be quite helpful for accessibility, and in solving the bed shortage in the northern area of Illinois. Patients from this area often have to wait to access care, and quite frankly it's really not available in Northbrook and its surrounding suburbs. Patients characteristically have to be taken out of that area, either down into Chicago or into the far western suburbs for care. There is simply no options available, and we know this because we receive referrals from this area that we are forced to hospitalize very far from our North suburban referral sources.

We hospitalize well over 2000 patients per year, and the fairly significant portion of them come from the north suburban area of which Northbrook is a part. Zip codes for this total are from across the state and too numerous to list. However, with regard to the number of patients that we've had to hospitalize away from their home from that area, whom would be better served in a hospital in Northbrook, we have had approximately 468 admissions from Zip Codes 60089, 60714, 60202, 60076 and 60026. To put this in perspective, we have had to take patients from these ZIP Codes, all of which either border or are surrounding Northbrook, and treat them as far as 30-35 miles away. It would make more sense to treat people near their own community.

Accordingly, we would estimate being able to refer the majority of those 468 patients at the Northbrook Behavioral Hospital, and given that it is not likely that 100% (39) of this group would end up there, we would approximate some 35 of these patients to be hospitalized at the site per month.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these geographically and gravely needed services.

Sincerely,
Alfa Murphy

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook, Illinois.

I am a psychiatrist in practice on the northwest side of Chicago and suburbs for the past two decades over which time I have seen several psychiatric facilities close their doors leading to patients having to wait longer at a general medical facility for transfer or being turned away at the admissions office due to lack of beds. My patients now experience this delay on a routine basis. The area is now in short supply and we could use an additional facility managed by US Health Vest who has many decades of experience in psychiatric hospital facility construction and development of quality programs.

Our group practice has referred over 400 patients for inpatient admission and over 600 for partial hospitalization in the past year from our practice locations in zip codes 60631, 60194 and 60016. We estimate that this number will increase to 500 inpatients in 2016 and that once the new hospital is open in Northbrook about two hundred of these in need patients would benefit from an admission to this new state of the art facility for mental health and substance abuse care. These patients live primarily in the following zip code areas. 60015, 16, 22, 25, 26, 29, 56, 62, 70, 90, 91, 93, 02, 10, 11, 15, 20 30, 35, 37, 40, 41, 42, 43, 44, 45, 46, 47, 48, 53, 60, 61, 64, 69, 73, 75, 76, 77, 79, 83, 84, 85, 86, 87, 88, 89, 91, 93, 96, 99, 60201, 02, 03, 04, 08, 09, 60626, 45, 59 60712, 14.

The above information has not been used to support any other facilities pending or approved CON application.

Please register my support for the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will improve the quality of care and increase access to these necessary services.

Sincerely,

Blaise J. Wolfrum

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a emergency room physician on staff at multiple sites in the Chicago metro area, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care. Not uncommonly patients wait over 24 hrs further congesting the emergency room for other medical emergencies.

In addition to my emergency medicine practice I have opened an out patient Opiate Addiction Treatment clinic in Northbrook Ill. (333 Skokie Blvd Suite 112 Northbrook Il 60062). Many, if not all of my patients suffer from dual diagnosis situations depression or anxiety in conjunction with substance abuse. We have had to refer a minimum of 5-6 patients per month outside of the local area for inpatient stabilization prior to outpatient treatment. (Zip codes not available as our system does not track them) Given the recent climate in addiction and its comorbid psychiatric illnesses we expect that this metric will continue. As our clinic continues to grow this number will increase.

A new facility will provide a necessary resources and help keep the patients closer to their families. Mental health patients in the northern Chicago suburbs and its surrounding communities will greatly benefit form a new facility.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a healthcare provider at Brookdale Northbrook Senior Living located in Northbrook IL, our patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care, or have been sent many miles away for an available bed.

Over the past year we have had 14 patients all from this facility, area code 60062, that were in need of Behavioral Health Services and they have had to go as far away as Oak Lawn and Elk Grove Village for the needed care. This is very stressful for both patients and families and takes the patients away from their healthcare network here in Northbrook, which does not provide good continuity of care.

We estimate that we would consistently have 12 to 14 patients that we would be referring to Northbrook Behavioral Health annually and more if availability is closer to their home.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

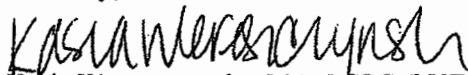

As a mental health professional at counseling speaks, LLC located in Park Ridge, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

counseling speaks, LLC estimates referring a number in the area of 30-40 patients to Northbrook Behavioral Hospital on a monthly basis for hospitalization and would expect to continue to refer this over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care. I do not track my patients by zip code, but the fact that many of them come from suburbs north of our office places them in the service area of the proposed Northbrook Behavioral Hospital.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at Chicago Behavioral hospital located in Des Plaines and Lutheran General Hospital located in Park Ridge, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

Over the past year I have referred approximately 30 inpatients from zip codes 60714, 60047, 61107 & 60062 for inpatient evaluation. I would expect a similar or larger volume equaling about 3 to 4 per month and approximately 60 in 24 months. These could be for an evaluation or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a clinical psychologist and supervisor at Maryville Academy in Des Plaines, which is very close to the proposed location in Northbrook, my patients have not only experienced delays in accessing inpatient psychiatric care due to bed shortages, but have often had to be sent all across the state, far from their home because of this. We clearly need more beds in this north suburban area which Northbrook is a part of, and accessibility there would make far more sense than what we have to work with at present. We have many problems and delays in accessing care because of a lack of an adequate number of beds in this area.

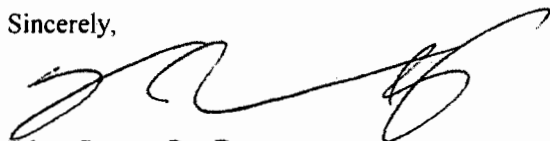

We have sent over 150 children for hospitalization in the past year spread across numerous hospitals and would prefer to be able to keep them closer to Maryville than has been possible. They are all from the 60016 zip code, as we are residential.

I would estimate that we would send between 10-15 referrals monthly for inpatient psychiatric care at a facility in Northbrook whenever we have access to it. Our referrals are consistent and steady in number year after year, due to the nature of our organization.

The information that I have included here has not been used to support any other pending or approved CON application for a behavioral hospital.

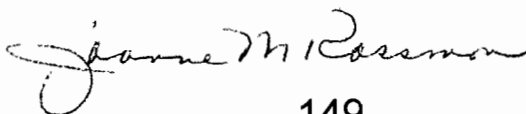

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase the access to these important services that we so desperately need in the northern suburbs surrounding Northbrook...

Sincerely,

Edgar Ramos, Psy.D.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Clinical Psychologist and Administrator / Owner of two large group private practices headquartered in Mount Prospect with satellite offices near Evanston, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

In the past year, we have had occasion to refer, on average, about three clients per month for inpatient or intensive outpatient-based treatment – the type of services that will be offered by Northbrook Behavioral Hospital. While we do not track client zip codes for these referrals, I can tell you that there are few, if any, options for this type of treatment near my office in Chicago located in zip code 60646. My clients often must travel to Chicago Behavioral Hospital in Des Plaines, Alexian Brothers' Behavioral Hospital in Hoffman Estates, or Northwest Community Hospital in Arlington Heights – none of which are especially close to my office. I would expect to channel a majority of these referrals – perhaps as many as 72 over a twenty-four month period – to Northbrook Behavioral Hospital and would expect on-going utilization of their services if they are allowed to build this much-needed behavioral health hospital.

The information included in this Certificate of Need letter has not been included in support of any other pending or approved application for a behavioral healthcare hospital.

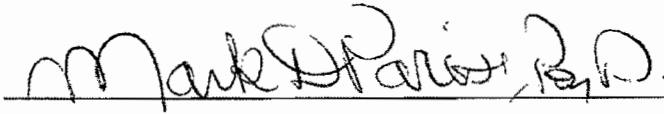

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

Mathers Clinic is a mental health and substance abuse practice in Rockford, Woodstock, Crystal Lake and Elgin. We also provide psychiatric services to 14 Assisted Living/Nursing Homes. Our patients have experienced ongoing delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been multiple times when patients have to wait to access care.

We do not have a report that tracks inpatient referrals or zip codes of inpatients. We do have a list of patient zip codes that would benefit from the new location in Northbrook. Our patients come from Northbrook 60062, Prospect Heights 60070, Wheeling 60090, Barrington Hills 60010 and 60011, Fox Lake 60020, Grayslake 60030, Gurnee 60031, Highland Park 60035, Ingleside 60041, Island Lake 60042, Lake Bluff 60044, Kildeer 60047, Libertyville 60048, Mundelein 60060, Vernon Hills 60061, North Chicago 60064, Round Lake 60073, Waukegan 60079, Buffalo Grove 60089, Zion 60099, and Niles 60714.

As a provider we estimate an average of 35 patients would be referred on a monthly basis to Northbrook Behavioral Hospital and would expect to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

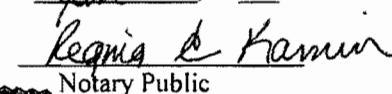

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US Healthvest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery:

I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook.

Meier Clinics provide mental health services in eleven states, including locations in Illinois in Northbrook, Wheaton, Chicago and Geneva. It is not unusual for our patients to experience frequent delays in accessing inpatient psychiatric care, often due to bed shortages or lack of services.

I solicited feedback from the following clinical staff regarding inpatient referrals:

Gary A. Casaccio, M.D., Illinois Medical Director
Steve Lee, M.D., Director of Breakaway
Kim Lurvey, LCSW, Northbrook Clinic Director
Christine Zielinski, LCSW, National Intake Coordinator

They reported that they have referred approximately 66 people to inpatient care over the past 12 months. This is not reflective of the total number we have referred as we have over 50 clinical staff in Illinois, so the above is a very conservative figure. The estimated number of potential referrals over a 24-month period after the project is completed would conservatively be 122 people.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US Health Vest's application will increase access to much needed services.

Sincerely,

Nancy Meier Brown

RE: US HealthVest Certificate of Need Application, Northbrook Behavioral Hospital

January 26, 2016

Dear Ms. Avery,

This letter comes to you in support of US Healthvest's Certificate of Need application for the inpatient behavioral healthcare facility they have proposed building in Northbrook, IL.

As a Licensed Clinical Psychologist and President of a multidisciplinary private, group, behavioral healthcare practice with offices throughout the northern suburbs of Chicago, I can attest to the shortage of nearby facilities offering immediate inpatient care to area residents, specifically in Lake County and Cook County. We find that many current and potential clients are unable to find open beds at nearby inpatient psychiatric and behavioral health facilities and are forced to wait on prohibitively long wait lists for treatment, or else travel great distances to find openings at out-of-state facilities. Others are simply unable to obtain necessary treatment.

I would estimate that as a practice, Mental Health Solutions' providers have referred upwards of fifty clients within the last year to local hospitals and inpatient facilities. These clients are residents of ZIP codes ranging as far south as Chicago and as far north as the Wisconsin border, reaching from Norshore suburbs such as Northbrook as far west as Rockford, IL.

I would anticipate that an increase in the availability of inpatient mental healthcare in the area would positively impact my own practice's ability to meet the needs of a growing number of clients, such that over the first twenty four months following its opening, we might refer in excess of one hundred clients (about five clients per month, on average) for evaluation and/or admission.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's behavioral hospital, and I thank you for your assistance in providing access to care to the residents of your area.

Sincerely,

Bright Fellowes, PsyD

RE: US HealthVest Certificate of Need Application, Northbrook Behavioral Hospital

January 26, 2016

Dear Ms. Avery,

I'm writing you today to support US Healthvest's Certificate of Need application for the inpatient behavioral healthcare facility they have proposed building in Northbrook, IL.

As the Director of a multidisciplinary private, group, behavioral healthcare practice with offices throughout the northern suburbs of Chicago, I can attest to the shortage of nearby facilities offering immediate inpatient care to area residents, specifically in Lake County and Cook County. We find that many current and potential clients are unable to find open beds at nearby inpatient psychiatric and behavioral health facilities and are forced to wait on prohibitively long wait lists for treatment, or else travel great distances to find openings at out-of-state facilities. Others are simply unable to obtain necessary treatment.

Based on the calculations of myself and my partner Dr. Bright Fellowes, Licensed Clinical Psychologist and President of Mental Health Solutions, we estimate that our team of behavioral health professionals have referred upwards of fifty clients within the last year to local hospitals and inpatient facilities. These clients are residents of ZIP codes ranging as far south as Chicago and as far north as the Wisconsin boarder, reaching from Norshore suburbs such as Northbrook as far west as Rockford, IL.

I believe that an increase in the availability of inpatient mental healthcare in the area would positively impact my own practice's ability to meet the needs of a growing number of clients, such that over the first twenty four months following its opening, we might refer in excess of one hundred clients (about five clients per month, on average) for evaluation and/or admission to the proposed facility.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's behavioral hospital, and I thank you for your assistance to the residents of your area by providing access to care.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at Lincolwood Medical Center located in Lincolnwood-IL, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

- 1) We expect about 20 of referrals for behavioral healthcare from the various zip codes of the northern Cook county including the city of Chicago of Chicago and the northern suburbs where most of my patients reside in those zip codes.
- 2) An estimated number of 20 patients may be refer to Northbrook Behavioral Hospital on a monthly basis and would expect to continue to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

RE; US Health Vest's Certificate of Need Applications for Northbrook
Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of need for a behavioral hospital in Northbrook, Illinois.

As a Clinical Psychologist at Brookdale Northbrook, in Northbrook, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been a number of instances when patients have had to wait an unreasonable time to access care.

Recently I have had three patients, all residing in the zip code 60092, who experienced significant delays in receiving inpatient psychiatric care due to a significant lack of psychiatric beds in the area. As a result one patient was sent to Oak Lawn, Illinois, effectively causing her to be prevented from receiving out patient follow-up. The long term consequences of her inability to secure follow up care have been quite detrimental

I anticipate, based upon recent history, that three to six patients per month would be referred by me for either admission, medication management/ evaluation. In this area there is a notable shortage of psychiatrists willing to treat residents in long term care facilities, and as a consequence having reasonable proximity to a behavioral health hospital is critical for this population.

My practice focuses on providing psychotherapy, evaluation and consultation to Senior Living facilities in the Chicago NorthShore suburbs.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital

I urge you to support the approval of US Health Vest's application for Northbrook Behavioral Hospital Approval of US HealthVest's application to increase access to these critical services.

Very truly yours,

Dr. Anne H. Levin , Psy D.
Licensed Clinical Psychologist

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Licensed Clinical Social Worker, and Program Director of Clinical Services at The Josselyn Center located at 405 Central Avenue, in Northfield, Illinois our patients have often experienced delays in accessing inpatient psychiatric care while being assessed in a hospital emergency room, mainly due to bed shortages that accept Medicaid clients.

We provide outpatient mental health care to clients from 60 communities. We have referred approximately 10 clients for emergency room assessments in the past year. Client zip codes are not available because our system does not track them.

We as a provider may refer one client per month to the Northbrook Behavioral Hospital, and could expect to continue to refer two a month over a 24-month period; this would be for an evaluation, referral or admission for mental health or addiction care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Suzan Eckstein, LCSW

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook.

I am an independently practicing psychiatrist working in three different hospitals in Chicago and its suburbs. I am very aware of the need for more psychiatric hospital beds in the greater Chicagoland area and have experienced difficulty finding available beds, and delays for patients in emergency department settings in finding beds for them to be transferred to. Emergency departments in Illinois have seen a great rise in presentation of psychiatric patients but not a corresponding increase in availability of appropriate, accessible care. We need more beds in Illinois as well as a more appropriate distribution of them for better accessibility. For instance, I often treat patients in the west suburban hospital I am on staff at who have come from hours away due to having no care in their areas. The north suburban area seems to be one of those weaknesses, so I believe a hospital in Northbrook would be well received and utilized.

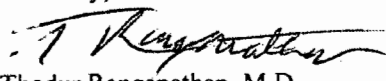

My partner and I hospitalize approximately 100 patients per month at one of our hospitals in the western suburbs and at least 90 at the other in the city. The third hospital does not have psychiatry but I perform all the consults there. We also maintain a very large base of patients from the northern suburbs where this project is proposed, because my partner had built a very large population of patients out of his Des Plaines office, when he was medical director of Forest Hospital; and we have maintained them. These patients come from Des Plaines, Glenview, Niles, Morton Grove, Wilmette, Evanston, Skokie, Mount Prospect and Highland Park to name a few. I am certain that these suburbs are in that catchment area even though I do not know the Zip Codes.

I not only will refer to Northbrook Behavioral Hospital but I have already discussed coming to practice there myself in caring for these patients; should this hospital open. I would easily estimate my referrals to this hospital will be between 70-80 per month on a permanent basis, as our volume remains highly consistent, year after year.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Thodur Ranganathan, M.D.
Psychiatrist

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a mental health professional at KGH Consultation & Treatment, Inc. located in Northbrook, IL my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

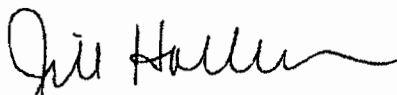

Within the past year, KGH Consultation & Treatment, Inc. has referred 4 patients for behavioral healthcare. Patient zip codes are not available because our system does not track them.

KGH Consultation & Treatment, Inc. estimates that we could refer 1 patient to Northbrook Behavioral Hospital on a monthly basis and would expect to continue to refer over a 24-month period. This could be for an evaluation, referrals or admission for mental health care.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

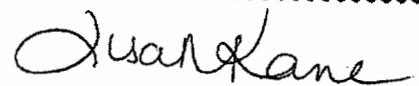

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Ms. Avery:

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a psychiatrist at St. Francis Hospital located in Evanston, Illinois, my patients have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

My service refers about 2-3 patients per week for inpatient psychiatric treatment. Though I do not formally track the zip codes of my patients, the overwhelming majority of my patients reside in the normal catchment area for St. Francis Hospital which serves Evanston, Illinois and the neighboring communities. The ZIP code for the hospital is 60202.

I would anticipate referring about 5 patients per month to Northbrook Behavioral Hospital for a 24 month total of 120 patients.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

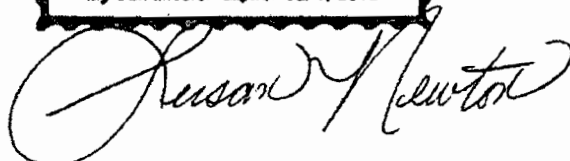

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

Eugene Kwon, M.D.
Psychiatrist

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am writing this letter in support of US Healthvest's Certificate of Need application for a behavioral hospital in Northbrook.

As a Nursing Home Administrator at Rosewood Care Center of Northbrook, the residents have experienced frequent delays in accessing inpatient psychiatric care mainly due to bed shortages. There have been many times patients have had to wait to access care.

Over the last year, the number of referrals for behavioral healthcare from RCC-NOR was 4 and they were all from 60062 zip code.

An estimated number of patients that RCC-NOR may refer to Northbrook Behavioral Hospital on a monthly basis would be 1 and we would expect to continue to refer 1 to 2 patients over a 24 -month period.

The information that I have included has not been used to support another pending or approved CON application for a behavioral hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services.

Sincerely,

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued vi

1110.730(b)(3) - Planning Area Need - Service Demand – Establishment of AMI and/or CMI

The number of beds proposed to establish a new AMI and/or CMI service is necessary to accommodate the service demand experienced by the existing applicant facility over the latest two-year period, as evidenced by historical and projected referrals, or, if the applicant proposes to establish a new hospital, the applicant shall submit projected referrals. The applicant shall document subsection (c)(3)(A) and subsection (c)(3)(B) or (C).

As the proposed project is for the establishment an AMI facility, therefore, there are no historical referrals.

Referral letters from mental health providers attesting to the total number of patients referred to AMI services over the past 12-months; estimating annual referrals to the proposed project for the 24-month period following project completion; signed and notarized; and verifying that the referrals have not been used for another pending or approved CON for AMI beds or services are appended as **ATTACHMENT-22B2a**.

Specifically, there are 22 letters of support that provide referrals for the project (21 traditional referral letters and 1 from CBH). These letters have documented that over the last 12-months these mental health resources have made referrals of between 4,375 - 4,439 patients. Based on those historical referrals and the specific geographic service area of Planning Area's A-08 and A-09, these Mental Health Resources will refer between 296.55 - 329.25 monthly referrals. This equates to an annual range of between 3,558 - 3,951 referrals. This projection is within the range that was historically referred. Due to budget restraints and resultant personnel restraints, not all mental health resources were able to track the patient origin data although many were able to indicate this data. The data shows that with the resultant average length of stays of between 8.72-7.85, target utilization can be achieved and maintained.

This project is not based on rapid population growth so that issue in not applicable to the project's need.

ATTACHMENT-22B3

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued vii

NBH will provider programs for Adult psychiatric, Senior Adult, Child and Adolescents, Women Only, Extra Mile Veteran Care, Faith Based Mental Health and Dual-Diagnosis patients.

Refer to **ATTACHMENT-22B3a** for a more in-depth overview of each program to be offered.

ATTACHMENT-22B3

Program Descriptions

Adult Psychiatric

The adult program offers treatment for adults who have moderate to severe psychiatric and behavioral problems. Our programs are tailored to the patient's needs enabling them to more effectively cope with their emotions and behaviors. The program purpose is to promote the maximum cognitive, social, physical, behavioral, and emotional development in each of our patients. Methods of treatment include medication management, group and individual therapy and discharge planning.

Senior Adult

Older adults often have unique and complex needs and experience physical and lifestyle changes that can negatively impact their emotional wellbeing. Psychiatric and behavioral concerns, combined with medical issues, complicate the diagnosis, care and treatment of seniors. Age-sensitive treatment and discharge planning is provided to assist our patients to achieve or regain the highest level of independence possible and help preserve their quality of life.

Children and Adolescents

Young people may experience symptoms of mental illness or encounter situations that they respond with behaviors that are a danger to themselves or others. Youth programs are evidence-based and specifically designed to help children/adolescents and their families through difficult circumstances or issues using intensive evaluation, treatment and aftercare planning with a professional multidisciplinary team treatment approach. Treatment includes group, individual, and family therapy.

Women Only

The Women's program addresses the unique mental health and chemical dependency needs of women in crisis through evidence-based therapeutic approaches. The program addresses such issues as trauma, depression related to reproductive issues, loss of pregnancy, post-partum depression, anxiety and obsessive disorders, relationship issues, eating disorders, and other serious disorders women may encounter. Only women attend the specialized therapy and educational groups. This gender specific approach enhances the effectiveness of therapy by providing a safe environment to process sensitive issues.

Extra Mile Veteran Care

Our Extra Mile Veteran Care Program provides treatment for PTSD, substance dependence and mental health issues, such as depression and anxiety in an environment designed with the veteran in mind. We understand teamwork and veterans. Our specially trained therapists and technicians will work together with veterans to help them overcome barriers and restore balance to their lives.

Faith Based Mental Health

Our proposed Faith Based specialty program provides unique inpatient and outpatient care where patients can include personal religious beliefs and their faith in God throughout the treatment process. The program merges sound professional counseling with Biblical principles to provide a

Christian atmosphere for recovery from serious mental health and chemical dependency problems.

Dual-diagnosis

Our dual-diagnosis program is an integrated therapy program that focuses on adults who face multiple mental health disorders or a combination of mental illness and drug or alcohol dependency, also known as co-occurring disorders. Patients receive motivational enhancement therapy, cognitive behavioral therapy, and 12-step facilitation therapy. The program allows patients to recognize and manage the issues related to their mental illness and chemical dependency problems.

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued viii

1110.730(b)(5) - Planning Area Need - Service Accessibility

The number of beds being established or added for each category of service is necessary to improve access for planning area residents. The applicant shall document the following:

A) Service Restrictions

The applicant shall document that at least one of the following factors exists in the planning area:

There is not an absence of the proposed service within either Planning Area A-08 or A-09. Specifically, A-08 has a single facility providing the proposed AMI service, Evanston Hospital. This facility meets the utilization standard of 85% and as such exhibits access limitations to additional patients in need of treatment. Planning Area A-09 has two AMI providers, Highland Park Hospital and Vista Medical Center West. Although these two providers do not meet the utilization target of 85% they have only 14 beds potential available or respectively 2 beds and 12 beds potentially available under the target use rate.

There is an interesting issue when examining the ratio of population to beds between all planning areas within HSA's 6, 7, 8 and 9. Specifically, Planning Area's A-08 has the fewest beds for the population with a total of 21,492 people per AMI bed. Planning Area A-09 comes in third lowest with 12,741 people per AMI bed. It is interesting that the average ratio of population to AMI beds is 78% less than that of Planning Area A-09 and 87% less than that of Planning Area A-08. Even adding the proposed 50-AMI beds to each planning area would only reduce the ratios to

Planning Area	Number of Beds	2018 population	Ratio of Pop to Beds
A-01	416	961,240	2,310.7
A-02	729	547,560	751.1

ATTACHMENT-22B5

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued ix

6,357 people per AMI bed in Planning Area A-08 and 6,896 people per AMI bed in Planning Area A-09.

H S A Area	Number of Beds	2018 population	Ratio of Pop to Beds
1	66	699,200	10,593.9 : 1
2	136	667,700	4,909.6 : 1
3	242	569,300	2,352.5 : 1
4	214	843,700	3,942.5 : 1
5	69	608,600	8,820.3 : 1
6,7,8,& 9	3145	8,822,259	2,805.2 : 1
10	54	206,200	3,818.5 : 1
11	<u>150</u>	<u>606,800</u>	<u>4,045.3 : 1</u>
State			
Tot/Ave	4076	13,023,759	3,195.2 : 1

Source: August 4, 2015 Inventory of Health Care Facilities and Services and need Determinations

What is interesting is looking at the overall HSA's ratio of population to beds. HSA 6, 7, 8 and 9 have the second lowest ratio with 2,805 persons per AMI bed. To utilize the State's ratio of population to beds would indicate additional capacity of AMI beds are needed. That being said the resultant combined ratio for

Planning Areas A-08 and A-09 is 2.4 times greater than the HSA 5,6,7 and 8's ratio and two times greater than the overall State's ratio. This supports the Mental Health Referral Resources statements that patients originating from within these Planning Areas and Northern Suburbs must travel significant distances to receive AMI care and treatment.

As indicated, this process requires the Applicant to adopt a geographic service area, i.e., 45-minute adjusted travel time. This expands the existing AMI providers from the three previously identified in Planning Areas A-08 and A-09 to a total of nine. Refer to **ATTACHMENT-22B5a** for a listing of AMI providers and facility use data. Three of the nine are at or over the State's target use rate of 85% for the AMI beds. Highland Park Hospital and Northwest Community Hospital are so near capacity that they only have 4-AMI beds potentially available. The remaining four facilities appear to have capacity. However, their market has experienced significant changes recently.

US HealthVest acquired Maryville Behavioral Health Hospital from Maryville Academy in November of 2014 and renamed it Chicago Behavioral Hospital. Upon acquisition, the facility was essentially empty with only a few remaining patients and a

ATTACHMENT-22B5

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued x

portion of the facility was under renovation that had ceased. The facility was able to optimally utilize the existing available 78-beds within five months and stabilize and maintain optimal use of those beds and services. In the 14-months of operating CBH the facility had to turn away 672 admissions due to beds not being available. In January of this year CBH was able to complete the renovations of the top two floors and since then has seen average daily census (hereafter referred to as ADC) into the 90's. Appended as **ATTACHMENT-22B5b** is a letter from CBH describing this situation, indicating that based upon existing referrals it will be well in excess of the target use rate in May of this year. This letter also describes how existing acute care providers and AMI providers have referral arrangements with CBH illustrating how CBH is providing complimentary services to those existing health care providers and not directly competing with those facilities. This is important as CBH is a related facility to the proposed project who will emulate this approach to continue supporting and augmenting the mental health services needed to complete the mental health continuum. It should be known that CBH has received referrals from Alexian Brothers Behavioral Health Hospital, Evanston Hospital, Northwest Community and three Advocate hospitals including Advocate Lutheran General Hospital and Advocate Condell in Lake County. Condell does not have AMI beds.

In summary, the one facility with what appeared to be extensively under-utilized is now nearing target capacity (85%). With ADC running into the 90's, instead of having 90 potentially available beds it only has less than 16 and by the time this project is considered it is expected that target utilization will be exceeded and maintained.

ATTACHMENT-22B5

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xi

Additionally, Advocate Lutheran General Hospital with what appears to be 17.5 beds potentially available has deflected 115 patients to CBH. This is indicative of the facility effectively being full or providing best practices for its patients in finding care and treatment within the Mental Health continuum that best fits the patients' needs. As such, it would appear that little to no impact would be had on this facility by the proposed project. Alexian Brothers Behavioral Health Hospital also made 39 referrals to CBH. This facility has a history of being at or over target utilization. As such, the system established services at Alexian Brothers Medical Center. In 2014, this facility would have been finishing ramping up its fill-up. The facility's Certificate of Need stated that its sister facility Alexian Brothers Behavioral Health Hospital would refer to that project so it can be inferred that Alexian Brother Medical Center's AMI unit is optimally utilized or it also employed best practices finding services that better fit specific patients mental health needs. Either way, it would appear that this project would have little to no impact on the existing providers.

B) Supporting Documentation

The applicant shall provide the following documentation, as applicable, concerning existing restrictions to service access:

Appended as **ATTACHMENT-22B5a** is a listing of area service providers their locations and utilizations.

Appended as **ATTACHMENT-22B5b** is the referral letter documenting zip code information as available describing patient origin. Appended as **ATTACHMENT-22B5c**, is a listing of all Zip Code areas, in whole or in part, within the 45-minute adjusted travel time with 2010 census data.

ATTACHMENT-22B5

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xii

Refer to **ATTACHMENT-22B5d** for a summary listing of the independent travel-time study. The individual MapQuest travel-time studies are appended as **ATTACHMENT-22B5e**.

As this project is for the establishment of a new facility, this item is not applicable.

There does not appear to be any admission restrictions in this area.

Of the 672 deflected patients, as referenced in the support letter provided by CBH (refer to **ATTACHMENT-22B5b**), 111 patients were from planning areas A-08 and A-09 or zip codes 60016, 60026, 60010, 60030, 60035, 60045, 60046, 60048, 60061, 60085, 60076, 60202 and 60645, documenting that access problems exist.

The most recently published IDPH Hospital questionnaires are appended as **ATTACHMENT-22B5f**.

Springfield, Illinois 62761

RE: US HealthVest's Certificate of Need Application for Northbrook Behavioral Hospital

Dear Ms. Avery,

I am the CEO of Chicago Behavioral Hospital in Des Plaines, Illinois and I am writing this letter in support of US HealthVest's Certificate of Need application for a behavioral hospital in Northbrook. US HealthVest acquired Chicago Behavioral Hospital ("CBH") on November 3, 2014 from Maryville Academy. Due to renovations that were in process prior to the acquisition, only 78 of the 125 licensed beds were available for use. We expanded services to adults and senior adults and grew from a census in the single digits at the time of the acquisition to full capacity (80%+) in under a year.

In 2015, we deflected 672 patients referred to our hospital in 2015 because we did not have a bed available. While we it is difficult to track where these deflected patients have gone for care, we understand that many have either gone without care or have experienced significant wait times and have had to travel great distances for care. Professional referral sources often verbalize having difficulty with placement because "everyone is full". It has not been unusual for them to note that they have had significant delays finding alternate beds for patients because other hospitals in the area run full. In 2016, we gained access to our newly renovated units and once again see rapid bed occupancy.

Of the 672 deflected patients, 111 patients were from planning areas A-08 and A-09 or zip codes 60016, 60026, 60010, 60030, 60035, 60045, 60046, 60048, 60061, 60085, 60076, 60202 and 60645.

The distribution of beds clearly slights the northern suburbs. Having a relationship with over 50 emergency departments, we know from nurses, crisis workers and physicians in these settings that patients have had to wait long periods in emergency rooms in order to access care. This is something that common and routine problem in many parts of Illinois.

Today, area hospitals that are within a 45 minute drive from CBH and similarly to the Northbrook project, continue to send a significant number of referrals due to their own psychiatric units being full, not treating particular types of patients or not having inpatient psychiatric care. In looking at data from the last ten months since starting adult services, some examples of the numbers of these referrals come from: Evanston Northshore Hospital (52), Advocate Good Shepherd (91), Northwest Community (92), Linden Oaks (82), Community First Hospital (60), Condell Medical Center (32), Northwestern Medicine Central DuPage Hospital (52), Alexian Brothers Behavioral Health Hospital (39), Advocate Lutheran General (115) and Palos Community Hospital (44). The total of referrals coming from hospitals only within 45 minutes travel has been 1,099 for this past ten month period.

ATTACHMENT-22B5b

Our occupancy at CBH has grown to 87%, 86%, 84%, and 81% in September, October, November and December of 2015 respectively, without the aforementioned plans to increase marketing, and we expect even greater growth this spring. Chicago Behavioral Hospital would also need to deflect patients to a Northbrook Hospital. Our growth projections conservatively reach 84% in April and 90% in May of 2016. We expect our growth trajectory to continue beyond our 125 beds at CBH by the mid 2016 and that we will again have the dilemma of deflecting patients due to bed availability. This would be well before the Northbrook facility could conceivably be opened.

With all of the deflections, marketing efforts, new lines of service development and practices that we are attracting, we are projecting significant referrals to Northbrook Behavioral Hospital from CBH. We believe with our experience of 15% deflections from the Northbrook catchment area Zip Codes, as well as our deflections from other underserved geographies, that CBH alone will refer a total of 48-50 patients per month to Northbrook which will be from 576 to 600 annually. We do not see this need reducing and believe it will be very consistent throughout the years to come.

The information I've included here has not been used to support any other pending or approved CON application for a behavioral health hospital.

I urge you to support the approval of US HealthVest's application for Northbrook Behavioral Hospital. Approval of US HealthVest's application will increase access to these important services in the north suburban areas of Illinois.

Sincerely,

Anthony DeJoseph

Anthony DeJoseph, Psy.D.

CEO

Chicago Behavioral Hospital

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xiii

1110.730(c)(1) - Unnecessary Duplication of Services

- A) A list of all zip code areas that are located, in total or in part, within 30 minutes normal travel time of the project's site;
- B) The total population of the identified zip code areas (based upon the most recent population numbers available for the State of Illinois population); and

Appended as **ATTACHMENT-22B5c**, is a listing of all Zip Code areas, in whole or in part, within the 45-minute adjusted travel time with 2010 census data.

- C) The names and locations of all existing or approved health care facilities located within 30 minutes normal travel time from the project site that provide the categories of bed service that are proposed by the project.

Appended as **ATTACHMENT-22B5d**, is a summary listing of AMI facilities identified as within the adjusted market area contour, their number of licensed beds, and travel times to the proposed site.

ATTACHMENT-22C1

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xiv

1110.730(c)(2) - Maldistribution

(c)2) The applicant shall document that the project will not result in maldistribution of services. Maldistribution exists when the identified area (within the planning area) has an excess supply of facilities, bed and services characterized by such factors as, but not limited to:

A) A ratio of beds to population that exceeds one and one-half times the State average:

Misdistribution is typified by having too many facilities clustered together within the service area where as the ratio of “beds” to “population” is one and one half times greater than the ratio of the State as a whole. The actual ratio of “beds” to “population” for the combined A-08 and A-09 Planning Areas and that of the 45-minute travel contour as they compare to the State's is as follows:

beds in PA A-08/A-09	180	(80 Existing + 100 Proposed)	= 0.000149623
Population in PA: A-08/A-09	1203020		

Beds in 45-min Adj. Travel Time Contour	587	(487 Existing + 100 Proposed)	= 0.000099303
Population in 45-minutes Adj. Travel Time	5,911,203		

Beds in State	4076		= 0.000312966
Statewide Population	13,023,759		

The State's resultant ratio is the largest without the one and half times allowance. Thus, the ratio is not indicative of the project resulting in a maldistribution. The inverse ratio is easier to understand. The planning area's resultant ratio would be one AMI bed for every 6,683 people. The travel time contour's resultant ratio equates to one AMI bed for every 12,070 people. The State's ratio is AMI bed for every 3,195 people. Both the Planning Area's and the travel time Contour's resultant ratios have many fewer beds per the population they support. This statewide ratio indicates that additional capacity is necessary to ensure accessibility for all. Again, it

ATTACHMENT-22C2

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xv

would appear that a “maldistribution” in accordance with the Board’s definition does not exist.

- B) Historical utilization (for the latest 12-month period prior to submission of the application) for existing facilities and services that is below the occupancy standard established pursuant to 77 Ill. Adm. Code 1100; or

As indicated, this process requires the Applicant to adopt a geographic service area, i.e., 45-minute adjusted travel time. This expands the existing AMI providers from the total of only three previously identified in Planning Areas A-08 and A-09 to a total of nine. Refer to **ATTACHMENT-22B5a** for a listing of AMI providers and facility use data. Three of the nine are at or over the State's target use rate of 85% for the AMI beds. Highland Park Hospital and Northwest Community Hospital are so near capacity that they only have a total of 4-AMI beds potentially available. The remaining four facilities appear to have capacity. However, their market has experienced significant changes recently.

Maryville Behavioral Health Hospital (formerly Maryville Academy and the Applicant’s sister facility) is now Chicago Behavioral Hospital. This change took place in April of 2015 whereupon the 125-bed facility was essentially empty with only a few remaining patients. The top two floors of the building, accounting for 47 AMI beds, were under renovations that had ceased. Upon the change of ownership, the facility was able to optimally utilize the existing available 78-beds within five months and stabilize and maintain optimal use of those beds and services. In the 10-months of operating CBH the facility had to turn away 672 admissions due to beds not being available. In January of this year CBH was able to complete the renovations of the top two floors and since then has seen the average daily census (hereafter referred to as ADC) into the 90's. Appended as **ATTACHMENT-22B5b** is a letter from CBH describing this situation, indicating that based upon existing referrals it will be well in excess of the target use rate in May of this

ATTACHMENT-22C2

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xvi

year. This letter also describes how existing acute care providers and AMI providers have referral arraignments with CBH illustrating how CBH is providing complimentary services to those existing health care providers and not directly competing with those facilities. This is important as CBH is a related facility to the proposed project who will emulate this approach to continue supporting and augmenting the mental health services needed to complete the mental health continuum. It should be noted that CBH has received referrals from Alexian Brothers Behavioral Health Hospital, Evanston Hospital, Northwest Community and three Advocate hospitals including Advocate Lutheran General Hospital and Advocate Condell in Lake County. Condell does not have AMI beds.

In summary, the one facility (the Applicant's sister facility) with what appeared to be extensively under-utilized is now nearing target capacity (85%). With ADC running into the 90's, instead of having 90 potentially available beds it only has less than 16 potentially available beds (currently) and by the time this project is considered it is expected that target utilization will be exceeded and maintained. Additionally, Advocate Lutheran General Hospital with what appears to be 17.5 beds potentially available has deflected 115 patients to CBH. This is indicative of the facility effectively being full or providing best practices for its patients in finding care and treatment within the Mental Health continuum that best fits the patients' needs. As such, it would appear that little to no impact would be had on this facility by the proposed project. Alexian Brothers Behavioral Health Hospital also made 39 referrals to CBH. This facility has a history of being at or over target utilization. As such, the system established services at Alexian Brothers Medical Center. In 2014, this facility would have been finishing ramping up its

ATTACHMENT-22C2

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xvii

fill-up. The facility's Certificate of Need stated that its sister facility Alexian Brothers Behavioral Health Hospital would refer to that project so it can be inferred that Alexian Brother Medical Center's AMI unit is optimally utilized or it also employed best practices finding services that better fit specific patients' mental health needs. Either way, it would appear that this project would have little to no impact on the existing providers.

C) Insufficient population to provide the volume or caseload necessary to utilize the services proposed by the project at or above occupancy standards.

There is an interesting issue when examining the ratio of population to beds between all planning areas within HSA's 6, 7, 8 and 9. Specifically, Planning Area's A-08 has the fewest beds for the population with a total of 21,492 people per AMI bed. Planning Area A-09 comes in third lowest with 12,741 people per AMI bed. It is interesting that the average ratio of population to AMI beds is 78% less than that of Planning Area A-09 and 87% less than that of Planning Area A-08. Even adding the proposed 50-AMI

Planning Area	Number of Beds	2018 population	Ratio of Pop to Beds
A-01	416	961,240	2,310.7
A-02	729	547,560	751.1
A-03	234	744,490	3,181.6
A-04	198	1,182,690	5,973.2
A-05	275	934,270	3,397.3
A-06	334	494,940	1,481.9
A-07	556	631,840	1,136.4
A-08	21	451,330	21,491.9
A-09	59	751,690	12,740.5
A-10	34	337,710	9,932.6
A-11	30	436,360	14,545.3
A-12	95	405,330	4,266.6
A-13	75	826,459	11,019.5
A-14	<u>89</u>	<u>116,350</u>	<u>1,307.3</u>
PA Tot/Ave	3145	8,822,259	2,805.2

Source: August 4, 2015 Inventory of Health Care Facilities and Services and need Determinations

beds to each planning area would only reduce the ratios to 6,357 people per AMI bed in Planning

H S A Area	Number of Beds	2018 population	Ratio of Pop to Beds
1	66	699,200	10,593.9 : 1
2	136	667,700	4,909.6 : 1
3	242	569,300	2,352.5 : 1
4	214	843,700	3,942.5 : 1
5	69	608,600	8,820.3 : 1
6,7,8,& 9	3145	8,822,259	2,805.2 : 1
10	54	206,200	3,818.5 : 1
11	<u>150</u>	<u>606,800</u>	<u>4,045.3 : 1</u>
State Tot/Ave	4076	13,023,759	3,195.2 : 1

Source: August 4, 2015 Inventory of Health Care Facilities and Services and need Determinations

beds would indicate additional

Area A-08 and 6,896 people per AMI bed in Planning Area A-09.

What is interesting is looking at the overall HSA's ratio of population to beds. HSA 6, 7, 8 and 9 have the second lowest ratio with 2,805 persons per AMI bed. To utilize the State's ratio of population to

ATTACHMENT-22C2

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xviii

capacity of AMI beds are needed. That being said the resultant combined ratio for Planning Areas A-08 and A-09 is 2.4 times greater than the HSA 5,6,7 and 8's ratio and two times greater than the overall State's ratio. This supports the Mental Health Referral Resources statements that patients originating from within these Planning Areas and Northern Suburbs must travel significant distances to receive AMI care and treatment. Therefore, there appears to be sufficient population to support the proposed project and that of the existing AMI providers.

ATTACHMENT-22C2

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xix

1110.730(c)(3) - Impact of Project on Other Area Providers

It is not the intent of the Applicant to lower the occupancy rates at other area AMI facilities. The experience of CBH and the planning areas facilities show that this project would not appear to have an impact. The Applicant's related behavioral health hospital (CBH) has proven that the proposed services compliment those of the existing acute care providers and those acute care providers that have AMI beds to the extent that CBH has an active and reciprocal referral arrangement with those identified (refer to **ATTACHMENT-22B5b** for the CBH referral/support letter).

ATTACHMENT-22C3

SECTION VII – SERVICE SPECIFIC REVIEW CRITERIA

C. Criterion 1110.730 – Acute Mental Illness and Chronic Mental Illness Continued xx

1110.730(e)(1) - Staffing Availability

The proposed AMI facility will meet all licensure, JCAHO and industry staffing requirements. The Applicant's will follow the model used by CBH as it proceeded through the change of ownership and ramp up in establishing programs, clinical policies and treatment protocols. A Board Certified psychiatrist will be installed as Medical director. This person will utilize the existing resources of existing staff and the facility's ability to collect job applicants who are direct care and ancillary staff with preferred mental health work background.

With the existing presence of CBH and its experience in recruiting staff, fulfilling the staffing requirements should not be of issue. One indicator of available staff are those who have sought and continue to seek employment at CBH. Appended as **ATTACHMENT-22E1a**, is a staffing pattern for the proposed project. Appended as **ATTACHMENT-22E1b**, listing of job openings and candidates for those openings posted on the "indeed" jobsite for CBH. Employees can be obtained from this site for the project.

RE: US HealthVest's Proposed Behavioral Hospital in Northbrook

Dear Ms. Avery:

Attached are a list of job openings and candidates for those openings posted on the Indeed jobsite. From this pool of candidates, employees can be obtained for the Northbrook Behavioral Hospital.

I urge you to support the approval of US HealthVest's behavioral hospital application and thank you for your assistance in providing access to care.

Sincerely,

A handwritten signature in cursive script that reads "Joanne M. Rossman".

Joanne M. Rossman
Director of Human Resources

Ms. Courtney Avery
Administrator
Health Facilities and Services Review Board
525 West Jefferson Street, 2nd Floor
Springfield, Illinois 62761

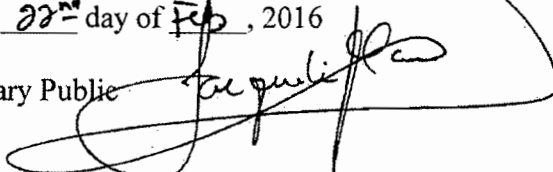

Dear Ms. Avery:

This letter attests to the fact that if this Project is approved by the Illinois Health Facilities and Services Review Board, Northbrook Behavioral Hospital understands that it is expected to achieve and maintain the occupancy specified in §1110.730 (h) by the second year of operation after project completion. Our ability to maintain this occupancy level could be affected by various factors outside of our control, such as natural disasters, regulatory changes in healthcare, interruption of necessary utilities, physical plant problems, or other unexpected issues outside of our control which could have a direct or indirect effect upon our occupancy rate.

Sincerely,

Martina Sze
Executive Vice President

INDEPENDENT AUDITORS' REVIEW REPORT

To the members of:
US HealthVest, LLC
New York, N.Y.

We have reviewed the accompanying consolidated financial statements of US HealthVest, LLC and its subsidiaries, which comprise the consolidated balance sheet as of October 31, 2015, and the related statements of operations, members' equity, and cash flows for the ten months then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the interim financial information in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework.

Auditors' Responsibility

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information as a whole. Accordingly we do not express such an opinion.

Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial information for it to be in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

Note 1 – Summary of Accounting Policies

Organization and Business

US HealthVest, LLC (the Company) was formed under the laws of the State of Delaware on March 1, 2013. The purpose of the Company and its affiliates is to acquire and operate behavioral healthcare facilities throughout the United States. The Company currently operates one facility located in Illinois.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles.

Principles of Consolidation

The consolidated financial statements include the activities of US HealthVest, LLC, and its subsidiaries, collectively referred to as "the Company". All material intercompany accounts and transactions have been eliminated.

The activities of 2014 Health, LLC, 2014 Health Realty, LLC, V Colorado, LLC, and Vest Monroe Realty, LLC, collectively referred to as "affiliates" have been consolidated with the activities of US HealthVest, LLC and are presented in the statements of supplemental information.

Recent Developments

On November 3, 2014 the Company acquired the assets of Maryville Behavioral Health Hospital. The acquisition included a 125 bed hospital as well as the land on which the hospital is located in Des Plaines, Illinois. This hospital provides services to those suffering from mental health illnesses and chemical dependency. The activities of this operation from the date of acquisition through the end of the fiscal year are included in the consolidated financial statements.

In January 2014, US HealthVest received a Certificate of Need to develop a 75 bed hospital in Washington State. The hospital will be located in Marysville, a suburb of Seattle. In September 2014, the Company received a Certificate of Need for an additional 50 beds in Washington State.

In June 2014, US HealthVest received a Certificate of Need to develop a 70 bed hospital in Georgia. In June 2015, the Company acquired property including an existing hospital building and the land on which the hospital is located in Monroe, Georgia.

Accounts Receivable, Net Revenue and Cost Recognition

The Company recognizes revenues in the period in which services are performed. Accounts receivable consist primarily of amounts due from third-party payors. The amounts the Company receives for treatment of patients covered by governmental programs such as Medicare, Medicaid and other third-party payors such as health maintenance organizations, preferred provider organizations and other private insurers are generally less than the Company's established billing rates. Accordingly, the revenues and accounts receivable reported in the Company's consolidated financial statements are recorded at the net amount expected to be received.

 **DRAFT**

Notes to Financial Statements

Note 1 - Summary of Accounting Policies, continuedCash and Equivalents

The Company considers all short term investments with an original maturity of three months or less to be cash equivalents.

Inventory - Supplies

Inventories consist of pharmaceutical and dietary supplies and are stated at the lower of cost or market using the first-in, first-out (FIFO) method.

Property and Equipment

Property and equipment are stated at cost. Maintenance and repairs are expensed in the period incurred; major renewals and betterments are capitalized. When items of property are sold or retired, the related costs are removed from the accounts and any gain or loss is included in income.

Depreciation

Property and Equipment are depreciated using straight-line depreciation methods over their estimated useful lives as follows:

Buildings and Improvements	39 years
Furniture and Equipment	5-7 years
Computer equipment and software	5 years

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Allowance for Doubtful Accounts

The primary risk in patient receivables would be uninsured amounts owed by direct pay patients. The Company estimates the allowance for doubtful accounts primarily based upon the age of the accounts since the patient discharge date. The Company also estimates insurance denials for amounts included in accounts receivable. The Company continually monitors accounts receivable balances and utilizes cash collection data and historical trends to support these positions. The allowance for doubtful accounts and insurance denials as of October 31, 2015 was \$225,218.

Concentration of Credit Risk

Financial instruments that potentially subject the Corporation to concentrations of credit risk consist of cash, cash equivalents and investments held in financial institutions. At times such balances may be in excess of Federal Deposit Insurance Company (FDIC) limits.

The Company's revenues are heavily related to patients participating in Medicaid. Management recognizes that revenues and receivables from government agencies are significant to the Company's operations, but it does not believe that there is significant credit risk associated with this government agency.

 DRAFT
9

Notes to Financial Statements

Note 1 - Summary of Accounting Policies, continued

Advertising Costs

Advertising costs are expensed as incurred. Advertising expenses amounted to \$11,430 for the ten months ended October 31, 2015.

Goodwill

Goodwill represents the amount of purchase price in excess of the fair value assigned to the underlying identifiable net asset in certain acquisitions. In accordance with FASB ASC 350-10, goodwill and indefinite-lived intangible assets are no longer amortized systematically, but subject to impairment annually. Management reviews the carrying value of goodwill on an annual basis in order to determine whether impairment has occurred. Impairments are based on several factors, including the Company's projection of future operating cash flows. As of October 31, 2015 the Company has not recognized impairment of goodwill.

Compensated Absences

The Company's employees earn paid time off hours ("PTO"), which can be used towards vacation, sick time and personal days off. Paid time off is earned depending on the length of service and job position. Employees can carryover no more than 80 PTO hours at year end. Accrued compensated absences as of October 31, 2015 was \$194,634.

Income Taxes

The Company is organized as a Limited Liability Company, in lieu of corporate taxes; the members of a Limited Liability Company are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal or state income taxes has been included in the financial statements. The Company's income tax returns are subject to examination by the appropriate tax jurisdictions for a period of three years from when they are required to be filed.

The Company recognizes the effect of uncertain income tax positions only if those positions are more likely than not to be sustained. Management has determined that the Company had no uncertain tax positions that would require financial statement recognition and/or disclosure.

Acquisitions, Business Combinations

The company accounts for business combinations using the acquisition method and accordingly, the identifiable assets acquired, and the liabilities assumed are recorded at their acquisition date fair values. Goodwill represents the excess of the purchase price over the fair value of net assets, including the amount assigned to identifiable intangible assets.

Note 2 – Investment in Future Facilities

During 2015 the Company was in the process of establishing new psychiatric facilities in Phoenix and Seattle. The Company made deposits of \$150,000 and \$100,000, respectively, during 2015 for the future purchase of these facilities.

 DRAFT

Notes to Financial Statements

Note 3 - Property and Equipment

The major classifications of property and equipment are as follows:

<i>As of October 31,</i>	2015
Land	\$ 2,122,260
Buildings	7,915,460
Furniture and Fixtures	534,123
Computer Equipment and Software	422,203
Construction in progress	2,413,706
Total Land, Property, and Equipment	13,407,752
Less Accumulated Depreciation	(249,533)
Land, Property and Equipment, net	\$ 13,158,219

Note 4 – Closing Costs

Closing costs in connection with the CityBank loan are being amortized over 10 years using the straight line method. Net closing costs as of October 31, 2015 were as follows:

<i>As of October 31,</i>	2015
Closing Costs	\$ 148,881
Less: Accumulated Amortization	(6,203)
Closing Costs, net	\$ 142,678

Note 5 – Note Payable

On May 29, 2015, 2014 Health Realty, LLC entered into a note payable to CityBank. The initial twelve month term has a maximum drawdown of \$7,500,000. The note carries interest at prime plus 75 basis points with a floor of 4.75%. During the drawdown period payments are interest only. After the initial twelve month period the note converts to a nine year term loan, amortized over 20 years. This loan is collateralized by the real estate owned by 2014 Health Realty, LLC. As of October 31, 2015 the outstanding balance on this note was \$5,796,894.

Estimated current maturities based on the October 31, 2015 balance is as follows:

For the year ending December 31, 2016	\$ 87,956
For the year ending December 31, 2017	182,291
For the year ending December 31, 2018	191,141
For the year ending December 31, 2019	200,420
For the year ending December 31, 2020	210,150
Thereafter	4,924,936
Total	\$ 5,796,894

Notes to Financial Statements**Note 6 – Operating Lease of Facilities**

The Company leases through an unrelated third party, an administrative office located in New York. The lease was assigned from a former entity of common ownership with an initial lease term of ten years, expiring October 31, 2019. Rent expense for the ten months ended October 31, 2015 was \$127,072.

Future minimum rental payments under this lease commitment are as follows:

November - December 2015	\$	32,075
For the year ending 12/31/2016		193,414
For the year ending 12/31/2017		199,217
For the year ending 12/31/2018		205,193
For the year ending 12/31/2019		175,248
Total	\$	805,147

In addition, the Company was under an Option Agreement with an unrelated third party to purchase land in Marysville, Washington. Under this agreement, the Company paid the land owner \$5,600 per month through June 2015. During the ten months ended October 31, 2015, these payments have been classified as rent in the amount of \$33,600.

Note 7 – Retirement Plan

The Company maintains a 401(k) retirement plan ("the Plan") for all eligible employees over 21 years of age with at least five months of service. Participants can contribute a percentage of their compensation up to a maximum deferral of 85% and receive a matching employer contribution of 100% of deferrals up to 3% of compensation, and 50% of deferrals for the next 2% of compensation. Participants may also receive a discretionary employer matching contribution at the discretion of the Company's Board of Directors. The Company incurred expenses of \$75,430 for the ten months ended October 31, 2015.

Note 8 – Related Party Transactions

Chicago Behavioral Hospital (2014 Health, LLC) leases its Illinois based facility from its related company, 2014 Health Realty, LLC. The lease is a 15 year operating lease that commenced on November 3, 2014. Base rent is \$92,083 per month. Intercompany rental income and expense is eliminated upon consolidation of the financial statements.

As of October 31, 2015, US HealthVest, LLC was due \$1,342,930 from Chicago Behavioral Hospital (its related entity) for miscellaneous operating expenses. This intercompany receivable is eliminated upon consolidation of the financial statements.

As of October 31, 2015, US HealthVest, LLC was due \$158,745 from 2014 Health Realty, LLC (its related entity) for fees paid in connection with the closing of the CityBank loan. This intercompany receivable is eliminated upon consolidation of the financial statements.

 **DRAFT**

Note 8 – Related Party Transactions, continued

As of October 31, 2015, Chicago Behavioral Hospital was due \$1,501,066 from 2014 Health Realty, LLC (its related entity) for miscellaneous operating expenses. This intercompany receivable is eliminated upon consolidation of the financial statements.

As of October 31, 2015, Vest Monroe Realty, LLC was due \$82,500 from US HealthVest, LLC (its related entity) for fees paid in connection with the acquisition of property. This intercompany receivable is eliminated upon consolidation of the financial statements.

Note 9 – Subsequent Events

Subsequent events were evaluated through December 23, 2015, the date that the financial statements were available to be issued.

Independent Auditors' Review Report on Supplementary Information

To the members of:
US HealthVest, LLC
New York, N.Y.

Our review was made primarily for the purpose of obtaining a basis for reporting whether we are aware of any material modifications that should be made to the interim financial information in order for it to be in conformity with accounting principles generally accepted in the United States of America through performing limited procedures. The accompanying supplementary information, which is the responsibility of management, is presented for purposes of additional analysis and is not a required part of the interim financial information. The supplementary information has been subjected to the limited procedures applied in the review of the interim financial information, and we did not become aware of any material modifications that should be made to such information.

INDEPENDENT AUDITORS' REPORT

To the members of:
US HealthVest, LLC
New York, N.Y.

We have audited the accompanying consolidated financial statements of US HealthVest, LLC and subsidiaries, which comprise the balance sheet as of December 31, 2014 and 2013, and the related statements of operations, members' equity and cash flows for the year ended December 31, 2014 and the period from March 1, 2013 (inception) through December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of US HealthVest, LLC, as of December 31, 2014 and 2013, and the results of their operations and their cash flows for the year ended December 31, 2014 and the period from March 1, 2013 (inception) through December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

Note 1 – Summary of Accounting Policies

Organization and Business

US HealthVest, LLC (the Company) was formed under the laws of the State of Delaware on March 1, 2013. The purpose of the Company and its affiliates is to acquire and operate behavioral healthcare facilities throughout the United States. The Company currently operates one facility located in Illinois.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles.

Principles of Consolidation

The consolidated financial statements include the activities of US HealthVest, LLC, and its subsidiaries, collectively referred to as "the Company". All material intercompany accounts and transactions have been eliminated.

The activities of 2014 Health, LLC, 2014 Health Realty, LLC, and V Colorado, LLC, collectively referred to as "affiliates" have been consolidated with the activities of US HealthVest, LLC and are presented in the statements of supplemental information.

Recent Developments

On November 3, 2014 the Company acquired the assets of Maryville Behavioral Health Hospital. The acquisition included a 125 bed hospital as well as the land on which the hospital is located in Des Plaines, Illinois. This hospital provides services to those suffering from mental health illnesses and chemical dependency. The activities of this operation from the date of acquisition through the end of the fiscal year are included in the consolidated financial statements.

In January 2014, US HealthVest received a Certificate of Need to develop a 75 bed hospital in Washington State. The hospital will be located in Marysville, a suburb of Seattle. In September 2014, the Company received a Certificate of Need for an additional 50 beds in Washington State.

In June 2014, US HealthVest received a Certificate of Need to develop a 70 bed hospital in Georgia.

Accounts Receivable, Net Revenue and Cost Recognition

The Company recognizes revenues in the period in which services are performed. Accounts receivable consist primarily of amounts due from third-party payors. The amounts the Company receives for treatment of patients covered by governmental programs such as Medicare, Medicaid and other third-party payors such as health maintenance organizations, preferred provider organizations and other private insurers are generally less than the Company's established billing rates. Accordingly, the revenues and accounts receivable reported in the Company's consolidated financial statements are recorded at the net amount expected to be received.

Notes to Financial Statements

Note 1 - Summary of Accounting Policies, continued

Cash and Equivalents

The Company considers all short term investments with an original maturity of three months or less to be cash equivalents.

Inventory - Supplies

Inventories consist of pharmaceutical and dietary supplies and are stated at the lower of cost or market using the first-in, first-out (FIFO) method.

Property and Equipment

Property and equipment are stated at cost. Maintenance and repairs are expensed in the period incurred; major renewals and betterments are capitalized. When items of property are sold or retired, the related costs are removed from the accounts and any gain or loss is included in income.

Depreciation

Property and Equipment are depreciated using straight-line depreciation methods over their estimated useful lives as follows:

Buildings and Improvements	39 years
Furniture and Equipment	5-7 years
Computer equipment and software	5 years

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Allowance for Doubtful Accounts

The primary risk in patient receivables would be uninsured amounts owed by direct pay patients. The Company is not currently accepting direct pay patients, and therefore the Company has not established an allowance for doubtful accounts. The Company continually monitors accounts receivable balances and utilizes cash collection data and historical trends to support this position. The Company has however established an allowance for denials from payors in the amount of \$5,270.

Concentration of Credit Risk

Financial instruments that potentially subject the Corporation to concentrations of credit risk consist of cash, cash equivalents and investments held in financial institutions. At times such balances may be in excess of Federal Deposit Insurance Company (FDIC) limits.

The Company's revenues are heavily related to patients participating in Medicaid. Management recognizes that revenues and receivables from government agencies are significant to the Company's operations, but it does not believe that there is significant credit risk associated with this government agency.

Notes to Financial Statements

Note 1 - Summary of Accounting Policies, continuedAdvertising Costs

Advertising costs are expensed as incurred. Advertising expenses amounted to \$8,931 and \$480 for the year ended December 31, 2014 and the period from March 1, 2013 (inception) through December 31, 2013, respectively.

Goodwill

Goodwill represents the amount of purchase price in excess of the fair value assigned to the underlying identifiable net asset in certain acquisitions. In accordance with FASB ASC 350-10, goodwill and indefinite-lived intangible assets are no longer amortized systematically, but subject to impairment annually. Management reviews the carrying value of goodwill on an annual basis in order to determine whether impairment has occurred. Impairments are based on several factors, including the Company's projection of future operating cash flows. As of December 31, 2014 the Company has not recognized impairment of goodwill.

Compensated Absences

The Company's employees earn paid time off hours ("PTO"), which can be used towards vacation, sick time and personal days off. Paid time off is earned depending on the length of service and job position. Employees can carryover no more than 80 PTO hours at year end. Accrued compensated absences as of December 31, 2014 and 2013 were \$18,307 and \$0, respectively.

Income Taxes

The Company is organized as a Limited Liability Company, in lieu of corporate taxes; the members of a Limited Liability Company are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal or state income taxes has been included in the financial statements. The Company's income tax returns are subject to examination by the appropriate tax jurisdictions for a period of three years from when they are required to be filed.

Acquisitions, Business Combinations

The company accounts for business combinations using the acquisition method and accordingly, the identifiable assets acquired, and the liabilities assumed are recorded at their acquisition date fair values. Goodwill represents the excess of the purchase price over the fair value of net assets, including the amount assigned to identifiable intangible assets.

Note 2 - Capital Commitments Receivable

Upon commencement of operations, the Company received capital commitments from its members totaling \$36,250,000. Of this amount, \$17,034,721 was collected as of December 31, 2013. The remaining balance was collected during the year ended December 31, 2014.

Note 3 - Investment in Future Facilities

During 2014 the Company was in the process of establishing a new psychiatric facility in Monroe, Georgia. The Company made a deposit of \$150,000 during 2014 for the future purchase of this facility.

Notes to Financial Statements**Note 4 - Property and Equipment**

The major classifications of property and equipment are as follows:

<i>As of December 31,</i>	2014	2013
Land	\$ 1,300,000	\$ -
Building	5,900,000	-
Furniture and Fixtures	262,850	13,193
Computer Equipment and Software	121,831	-
Construction in progress	19,344	-
Total Land, Property, and Equipment	7,604,025	13,193
Less Accumulated Depreciation	(44,437)	(1,772)
Land, Property and Equipment, net	\$ 7,559,588	\$ 11,421

Note 5 – Financed Insurance

The Company financed its insurance premiums through IPFS Corporation. Total premiums on these policies are \$261,777. Of this amount, \$209,340 was financed and is payable in ten equal monthly installments of \$21,366, including finance charges at 4.48%. As of December 31, 2014 the remaining balance on this agreement was \$167,472.

Note 6 – Operating Lease of Facilities

The Company leases through an unrelated third party, an administrative office located in New York. The lease was assigned from a former entity of common ownership with an initial lease term of ten years, expiring October 31, 2019. Rent expense for the year ended December 31, 2014 and the period from March 1, 2013 (inception) through December 31, 2013 was \$143,245 and \$136,725, respectively.

Future minimum rental payments under this lease commitment are as follows:

December 31, 2015	\$ 187,781
December 31, 2016	193,414
December 31, 2017	199,217
December 31, 2018	205,193
December 31, 2019	175,248
Total	\$ 960,853

In addition, the Company is under an Option Agreement with an unrelated third party to purchase land in Marysville, Washington. Under this agreement, the Company pays the land owner \$5,600 per month for the term of the agreement. During the year ended December 31, 2014, these payments have been classified as rent in the amount of \$67,200.

Notes to Financial Statements

Note 7 – Retirement Plan

The Company maintains a 401(k) retirement plan ("the Plan") for all eligible employees over 21 years of age with at least five months of service. Participants can contribute a percentage of their compensation up to a maximum deferral of 85% and receive a matching employer contribution of 100% of deferrals up to 3% of compensation, and 50% of deferrals for the next 2% of compensation. Participants may also receive a discretionary employer matching contribution at the discretion of the Company's Board of Directors. The Company incurred expenses of \$60,186 in 2014.

Note 8 – Acquisitions

During 2014 the Company acquired the assets of Maryville Behavioral Health Hospital for cash consideration of \$22,600,000. The facility provides behavioral health care to patients in and around the Chicago, Illinois area, with a total of 125 patient beds. The aggregate net purchase price of the business was allocated to assets based on their estimated fair values as follows:

Goodwill	\$ 15,016,697
Building and Improvements	5,900,000
Land	1,300,000
Furniture and Equipment	243,303
Inventory	140,000
Total Purchase Price	\$ 22,600,000

Note 9 – Related Party Transactions

Chicago Behavioral Hospital (2014 Health, LLC) leases its Illinois based facility from its related company, 2014 Health Realty, LLC. The lease is a 15 year operating lease that commenced on November 3, 2014. Base rent is \$92,083 per month. Intercompany rental income and expense is eliminated upon consolidation of the financial statements.

As of December 31, 2014, 2014 Health Realty, LLC was due \$111,194 from Chicago Behavioral Hospital (its related entity) for the November and December 2014 rent. This intercompany receivable is eliminated upon consolidation of the financial statements.

As of December 31, 2014, US HealthVest, LLC was due \$885 from Chicago Behavioral Hospital (its related entity) for miscellaneous operating expenses. This intercompany receivable is eliminated upon consolidation of the financial statements.

Note 10 – Subsequent Event

Subsequent events were evaluated through March 25, 2015, the date that the financial statements were available to be issued.

TOBIN & COMPANY
CERTIFIED PUBLIC ACCOUNTANTS, PC

Independent Auditors' Report on Supplemental Material

To the members of:
US HealthVest, LLC
New York, N.Y.

We have audited the consolidated financial statements of US HealthVest, LLC and subsidiaries as of and for the year ended December 31, 2014, and as of and for the period from March 1, 2013 (inception) through December 31, 2013, which expressed an unmodified opinion on those financial statements, appears on page 3. Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information included in the following section is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies, and it is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

INDEPENDENT AUDITORS' REPORT

To the members of:
US HealthVest, LLC
New York, N.Y.

We have audited the accompanying financial statements of US HealthVest, LLC, which comprise the balance sheet as of December 31, 2013, and the related statements of operations, members' capital and cash flows for the period from March 1, 2013 (inception) through December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of US HealthVest, LLC, as of December 31, 2013, and the results of its operations and its cash flows for the period from March 1, 2013 (inception) through December 31, 2013 in conformity with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements

Note 1 - Nature of Organization

US HealthVest, LLC (the Company) was formed under the State of Delaware, and commenced operations on March 1, 2013 (inception). The purpose of the Company is to acquire and operate behavioral healthcare facilities throughout the United States.

Note 2 - Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the activities of US HealthVest, LLC, and its wholly owned subsidiaries, collectively referred to as "the Company". All material intercompany accounts and transactions have been eliminated.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles.

Property and Equipment

Property and equipment are stated at cost. Maintenance and repairs are expensed in the period incurred; major renewals and betterments are capitalized. When items of property are sold or retired, the related costs are removed from the accounts and any gain or loss is included in income.

Depreciation

Property and Equipment are depreciated using straight-line depreciation methods over their estimated useful lives as follows:

Furniture and Equipment 3-5

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments that potentially subject the Corporation to concentrations of credit risk consist of cash, cash equivalents and investments held in financial institutions. At times such balances may be in excess of Federal Deposit Insurance Company (FDIC) limits.

Notes to Consolidated Financial Statements

Note 2 - Summary of Significant Accounting Policies, continued

Income Taxes

The Company is a limited liability company and is recognized as a partnership for federal and state income tax purposes. All items of income and expense are passed through to the members to report on their individual income tax returns. Therefore the Company pays no income tax itself.

Note 3 - Capital Commitments Receivable

Upon commencement of operations, the Company received capital commitments from its members totaling \$36,250,000. Of this amount, \$17,034,721 has been collected as of December 31, 2013. The Company considers the balance of \$19,215,279 to be fully collectible upon demand.

Note 4 - Property and Equipment

The major classifications of property and equipment are as follows:

<i>As of December 31,</i>	<i>2013</i>
Furniture and Equipment	\$ 13,193
Less Accumulated Depreciation	(1,772)
 Furniture and Equipment, net	 \$ 11,421

Note 5 – Retirement Plan

The Company maintains a 401(k) retirement plan ("the Plan") for eligible employees. The Plan provides for employee deferrals and a discretionary employer match as described in the Plan document.

Note 6 – Subsequent Event

In January 2014, US HealthVest received a Certificate of Need to develop a 75 bed hospital in Washington State. The hospital will be located in Marysville, a suburb of Seattle.

SECTION IX – 1130.140 - FINANCIAL VIABILITY Continued i

Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. “A” Bond rating or better.
2. All of the projects capital expenditures are completely funded through internal sources.
3. The applicant’s current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent.
4. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided.

As the proposed project meets item 2 above it is eligible for the Financial Viability Waiver, as such this item is not applicable.

SECTION X – 1120.140 - ECONOMIC FEASIBILITY Continued

Economic Feasibility

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or

Appended as **ATTACHMENT-39A**, is a letter from the owner addressing reasonableness of financing arrangements.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

As this project is being funded completely with internal resources, this item is not applicable.

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

	2019	
Salaries	\$10,183,244	
Benefits	\$1,934,816	
Supplies	\$1,258,721	
Patient Days @ 85%		31,025
Total/Operating Cost/PT Day		\$431.16

SECTION X – 1120.140 - ECONOMIC FEASIBILITY Continued ii**E. Total Effect of the Project on Capital Costs**

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

	2019	
Depreciation	\$1,009,662	
Interest Expense	\$1,260,151	
Amortization	0	
Real Estate Taxes	\$246,000	
Patient Days @ 85%		31,025
Total/Operating Cost/PT Day		\$81.09

SECTION XI – SAFETY NET IMPACT STATEMENT Continued i

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.

Northbrook Behavioral Hospital will impact essential safety net services in the community by working with healthcare providers and clinicians in the community within existing safety net services and providing a full continuum of psychiatric care. Northbrook Behavioral Hospital will operate 24 hours a day / 7 days a week to respond to crisis situations. NBH will also provide free initial assessments to determine how best to help individuals. We are committed to collaborating with every agency to participate within any agency's safety net protocols. We assist all patients, regardless of ability to pay. As the project unfolds we will commit to meetings that help define our role in working closely with all providers.

2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.

Northbrook Behavioral Hospital will provide services that compliment healthcare providers and clinicians. Through the process of free initial assessments, NBH will be able to match a person's specific mental health needs with community services that match affordability. Traditional outpatient settings do not provide free assessments and do not provide specialized services for specific populations. For Example, NBH may offer a specialized program for women, a specialized program for veterans, a faith based program, and a private crisis stabilization unit. NBH will not duplicate traditional outpatient services. Rather, NBH will integrate into the existing network or providers and only provide inpatient stabilization, PHP, and IOP services for all ages.

SECTION XI – SAFETY NET IMPACT STATEMENT Continued ii

3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

This item is not applicable as this project is not part of a discontinuation. Instead, it is a compliment to existing community services and has the potential to identify and address unmet

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.

This project is for the establishment of a freestanding A/CMI facility. As such, three fiscal years of history is not germane to the project. The Applicant has estimated charity care as part of future operations at 1.5%.

2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.

This project is for the establishment of a freestanding A/CMI facility. As such, three fiscal years of history is not germane to the project. Inpatient / Outpatient net revenue is estimated to be 95.8% and 4.2%. New revenue by Payor Source for both inpatients and outpatient's is as follows:

Tricare -	2.2%
Medicare -	28.8%
Medicaid/County -	27.8%
Managed Care -	38.3%
Charity Care -	1.5%
Self Pay -	1.5%

SECTION XI – SAFETY NET IMPACT STATEMENT Continued iii

3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

Integrating behavioral health with primary care is directly relevant to safety net services and to increasing access to behavioral health services for the insured, uninsured and underinsured patient population. More than 68 percent of adults with a mental disorder have medical conditions, and 29 percent of adults with medical conditions have mental disorders. Persons with comorbid mental and medical conditions are at high risk for receiving poor quality of care. NBH is committed to collaborating with primary care physicians to establish safety net protocols that can deliver services to everyone in need.

Charity Care information MUST be furnished for ALL projects.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue		2018	2019
Amount of Charity Care (charges)		\$407,052	\$840,078
Cost of Charity Care		\$407,052	\$840,078

SECTION XII – CHARITY CARE INFORMATION Continued I

As the Applicant has no history, it felt that it was relevant to convey the charity care data for its related facility CBH. Please refer below to the safety net and the charity care charts:

Safety Net Information per PA 96-0031			
CHARITY CARE			
	2014	2015 (est.)	
Charity (# of patients)			
Inpatient	0	3	
Outpatient	0	1	
Total	0	4	
Charity (cost in dollars)			
Inpatient	-	20,193	
Outpatient	-	245	
Total	-	20,438	
MEDICAID			
Medicaid (# of patients) **	2014	2015	
Inpatient	47	326	
Out Patient Visits	8	155	
Total	55	481	
Medicaid (revenue) **			
Inpatient	1,554,612	10,774,800	
Outpatient	11,352	69,750	
Total	1,565,964	10,844,550	

CHARITY CARE			
	2014	2015	
Net Patient Revenue			
Amount of Charity Care (charges)	-	20,438	
Cost of Charity Care	-	20,438	

2014 is for the period of time November 3, 2014 thru December 31, 2014
