PARK COURT LIMITED

May 6, 2016

Mr. George Roate Reviewer, Program Review Section Illinois Health Facilities and Services Review Board 525 West Jefferson Street, 2nd Floor Springfield IL 62761

Re:

Requested information Permit Application #16-017 Griffin Medical Office Building RECEIVED

MAY 0 4 2016

HEALTH FACILITIES & SERVICES REVIEW BOARD

Dear Mr. Roate,

The attached information responds to your verbal request April 25th, 2016 to provide the financial ratios required by Section 1120.130 whose review standards are stated in Section 1120 Appendix A.

As you are aware, our Permit Application (Attachment 38) indicates we believe the viability ratios were not applicable in that Park Court Limited is <u>not</u> a hospital, long term care facility, end state renal dialysis facility, nor ambulatory surgery treatment center as indicated in Appendix A. Park Court Limited is a tax-exempt, not-for-profit real estate development and holding company and is the Griffin MOB developer.

The permit application notes viability ratios are necessary from the applicant or coapplicant (Progressive Health Systems and Park Court Limited) responsible for or
guaranteeing the funding. Park Court is responsible for, and has the funding for, the Griffin
MOB. Funding for the MOB development is assured by a mortgage and cash as
documented in the application.

However, as a subsidiary to Progressive Health Systems, a holding company, Park Court does not have separate audited financial statements. Hence, the attached ratios are based

on Progressive Health Systems audited /consolidated financial statements which were included in the Permit Application. As we understand it, based on the underlying permit application, the respective ratios will be evaluated based on the applicable hospital standards in Section 1120 Appendix A. We would like to reiterate, repayment of the project's mortgage will be through leasing the Griffin MOB space to ProHealth. As you will see, we are meeting all of the projected ratios which are sufficient to meet the financial obligations of this project.

We trust this information responds to your request. Please let us know if you have any questions.

I can be reached at shall@parkcourtltd.com or 309-353-0700 or please contact Marcia Becker at mbecker@pekinhospital.com or 309-353-0989.

Sincerely,

Steven C. Hall, CPA, MBA

Senior Vice President / Chief Financial Officer

Attachments: Financial Viability Ratios

Methodology / Work Sheets

CC: Courtney R. Avery, Administrator

Mike Constantino, Supervisor, Project Review Section

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion. When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

| Provide Data for Projects Classified as: | Category A | Category A or Category B (last three years) | | | | | |
|--|------------|---|------|-------|--|--|--|
| Enter Historical and/or Projected Years: | 2013 | 2014 | 2015 | 2019 | | | |
| Current Ratio | 1.3 | 1.5 | 1.6 | 2.0 | | | |
| Net Margin Percentage | 5 | ٧ & | 2,0 | 2.0 | | | |
| Percent Debt to Total Capitalization | 27% | 210/0 | 16% | 17°60 | | | |
| Projected Debt Service Coverage | 1.2 | 1.5 | 1.7 | 36 | | | |
| Days Cash on Hand | 194 | 183 | 661 | 150 | | | |
| Cushion Ratio | 10 | 10 | 0) | 15 | | | |

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS <u>ATTACHMENT 38,</u> IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Not applicable. The Griffin MOB is being developed by Park Court Limited (Owner / Landlord) and will be leased in its entirety to ProHealth, Inc. d/b/a ProHealth Medial Group (Tenant).

(See also relevant appendices to this Permit Application.)

Assumptions:

- > Starting point for data for Projection was FY 2015 audited financial statements. Assumptions were made to increase/decrease numbers based on known information.
- ➤ Projection was targeted for April 30, 2019 our fiscal year end. One year after completion of the Medical Office Building

Current Ratio

- Current Assets increase primarily due to an increase in cash obtained from net operating income in Year 2019.
- Current Liabilities decreased due to a reduction in current maturities of long-term of \$1,800,000. Balance due on bonds will significantly reduce after the next principle payment due in August 2016. In addition, debt for Capital Lease will be paid off in August 2018. The calculation also takes into consideration an increase in principle due of \$855,000 for New Medical Office building. See Table:

| | 2015 | 2019 | Variance |
|-----------------------------|------------|------------|-------------|
| Bonds | 2,835,000 | 825,000 | (2,010,000) |
| Capital Lease | 676,025 | | (676,025) |
| New Medical Office Building | | 853,759 | 853,759 |
| All Other | 12,229,977 | 11,821,241 | (408,736) |
| Total | 15,741,002 | 13,500,000 | 2,241,002 |

- ➤ Net Margin Percentage Modest increase in Net Revenues per year and Modest increase in Net Operating income per year.
- ▶ Percent Debt to Total Capital 17% which is a slight increase over fiscal year 2015. The change is due primarily to increases in both long-term debt and net assets from the addition of the New Medical Office building.

 Long-term Debt - Reduction in bond principal payment and Capital Lease plus increase debt for the New Medical Office building of \$10,300,000. The net result is an increase in long-term debt of \$4,300,000.

| | 2015 | 2019 | Variance |
|-----------------------------|------------|------------|-------------|
| Bonds | 8,570,000 | 4,020,000 | (4,550,000) |
| Capital Lease | 1,454,947 | | (1,454,947) |
| New Medical Office Building | | 10,292,482 | 10,292,482 |
| | 10,024,947 | 14,312,482 | 4,287,535 |

 Net Assets increased \$15,400,000 due to the purchase of the New Medical Office building, furnishings and equipment less depreciation. Long-term debt increased \$4,300,000 due to change in long-term debt. See note above.

| | 2015 | 2019 | Variance |
|----------------|------------|------------|------------|
| Net Assets | 52,857,566 | 68,250,000 | 15,392,434 |
| Long Term Debt | 10,024,947 | 14,312,482 | 4,287,535 |
| | 62,882,513 | 82,562,482 | 19,679,969 |

- ➤ **Projected Debt Service Coverage** Increased to 3.6 primarily due to the reduction of future Principal payments discussed previously.
 - Cash increased slightly primarily due to net operating income in FY 2019.
 - Depreciation increased due to the medical office building addition along with an increase in furnishings and equipment. An average life of twenty years was used to estimate depreciation.
- ➤ Days Cash on Hand Is projected to be 150 days. While this is a decrease of 40 days from Fiscal Year 2015 it is still well above the 75 days benchmark.

- The increase in expenses per day were projected due to normal healthcare inflationary expenses as well as the expenses associated with opening new Practices in the Community.
- o **Investments** are decreasing primarily due to the Foundation funding the excess spending over the mortgage amount for the New Medical Office building. The excess funding amounted to \$5,610,000. We are projecting an 8% increase in investments per year. This was factored into the calculation reducing investments by \$4,000,000.
- ➤ Cushion Ratio The cushion ratio has increased to 15 based on the reduction in overall debt for the organization. While Total Assets Not Limited to Use were lowered due to the favorable decrease in overall debt and interest payments.

Attachment 38

Supplemental Material Permit Application 16-017

Assumptions:

- > Starting point for data for Projection was FY 2015 audited financial statements. Assumptions were made to increase/decrease numbers based on known information.
- ➤ Projection was targeted for April 30, 2019 our fiscal year end. One year after completion of the Medical Office Building

Current Ratio

- Current Assets increase primarily due to an increase in cash obtained from net operating income in Year 2019.
- Current Liabilities decreased due to a reduction in current maturities of long-term of \$1,800,000. Balance due on bonds will significantly reduce after the next principle payment due in August 2016. In addition, debt for Capital Lease will be paid off in August 2018. The calculation also takes into consideration an increase in principle due of \$855,000 for New Medical Office building. See Table:

| | 2015 | 2019 | Variance |
|-----------------------------|------------|------------|-------------|
| Bonds | 2,835,000 | 825,000 | (2,010,000) |
| Capital Lease | 676,025 | - | (676,025) |
| New Medical Office Building | | 853,759 | 853,759 |
| All Other | 12,229,977 | 11,821,241 | (408,736) |
| Total | 15,741,002 | 13,500,000 | 2,241,002 |

- ➤ Net Margin Percentage Modest increase in Net Revenues per year and Modest increase in Net Operating income per year.
- ▶ Percent Debt to Total Capital 17% which is a slight increase over fiscal year 2015. The change is due primarily to increases in both long-term debt and net assets from the addition of the New Medical Office building.

 Long-term Debt - Reduction in bond principal payment and Capital Lease plus increase debt for the New Medical Office building of \$10,300,000. The net result is an increase in long-term debt of \$4,300,000.

| | 2015 | 2019 | Variance |
|-----------------------------|------------|------------|-------------|
| Bonds | 8,570,000 | 4,020,000 | (4,550,000) |
| Capital Lease | 1,454,947 | - | (1,454,947) |
| New Medical Office Building | | 10,292,482 | 10,292,482 |
| | 10,024,947 | 14,312,482 | 4,287,535 |

 Net Assets increased \$15,400,000 due to the purchase of the New Medical Office building, furnishings and equipment less depreciation. Long-term debt increased \$4,300,000 due to change in long-term debt. See note above.

| | 2015 | 2019 | Variance |
|----------------|------------|------------|------------|
| Net Assets | 52,857,566 | 68,250,000 | 15,392,434 |
| Long Term Debt | 10,024,947 | 14,312,482 | 4,287,535 |
| | 62,882,513 | 82,562,482 | 19,679,969 |

- Projected Debt Service Coverage Increased to 3.3 primarily due to the reduction of future Principal payments discussed previously.
 - Cash increased slightly primarily due to net operating income in FY 2019.
 - Depreciation increased due to the medical office building addition along with an increase in furnishings and equipment. An average life of twenty years was used to estimate depreciation.
- ➤ Days Cash on Hand Is projected to be 150 days. While this is a decrease of 40 days from Fiscal Year 2015 it is still well above the 75 days benchmark.

- The increase in expenses per day was projected due to normal healthcare inflationary expenses as well as the expenses associated with opening new Practices in the Community.
- o **Investments** are decreasing primarily due to the Foundation funding the excess spending over the mortgage amount for the New Medical Office building. The excess funding amounted to \$5,610,000. We are projecting an 8% increase in investments per year. This was factored into the calculation reducing investments by \$4,000,000.
- ➤ Cushion Ratio The cushion ratio has increased to 15 based on the reduction in overall debt for the organization. While Total Assets Not Limited to Use were lowered due to the favorable decrease in overall debt and interest payments.
