ILLINOIS HEALTH FACILITIES AND SERVICES REVIEW BOARD
APPLICATION FOR PERMIT

RECEIVED

JUN 21 2016

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

This Section must be completed for all projects.

HEALTH FACILITIES &
SERVICES REVIEW BOARD

Facility/Project Identification

Facility Name: U.S. Renal Care West Chicago Dialysis		
Street Address: 112 W. 87th Street, Suite N (Unit 28)		
City and Zip Code: Chicago 60620-1318		
County: Cook	Health Service Area 6	Health Planning Area: 6

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name: USRC West Chicago, LLC
Address: 112 W. 87th Street, Suite N (Unit 28)
Name of Registered Agent: CT Corporation System
Name of Chief Executive Officer: Stephen Pirri
CEO Address: 2400 Dallas Parkway, Suite 350, Plano, Texas 75093
Telephone Number: 214.736.2700

Type of Ownership of Applicant/Co-Applicant

☐ Non-profit Corporation	☐ Partnership
☐ For-profit Corporation	☐ Governmental
☒ Limited Liability Company	☐ Sole Proprietorship
☐ Other	
- Corporations and limited liability companies must provide an Illinois certificate of good standing. - Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.	
APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.	

Primary Contact

[Person to receive ALL correspondence or inquiries]

Name: Edward Clancy
Title: Attorney
Company Name: Nixon Peabody LLP
Address: 70 W. Madison Suite 3500, Chicago, Illinois 60602
Telephone Number: 312.977.4487
E-mail Address: eclancy@nixonpeabody.com
Fax Number: 844.556.0737

Additional Contact

[Person who is also authorized to discuss the application for permit]

Name: Erica Gnilka
Title: Attorney
Company Name: Nixon Peabody LLP
Address: 70 W. Madison Suite 3500, Chicago, Illinois 60602
Telephone Number: 312.977.4409
E-mail Address: elgnilka@nixonpeabody.com
Fax Number: 855.324.3939

Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name: U.S. Renal Care, Inc.
Address: 2400 Dallas Parkway Suite 350, Plano, Texas 75093
Name of Registered Agent: CT Corporation System
Name of Chief Executive Officer: Stephen Pirri
CEO Address: 2400 Dallas Parkway Suite 350, Plano, Texas 75093
Telephone Number: 214.736.2700

Type of Ownership of Applicant/Co-Applicant

☐ Non-profit Corporation	☐ Partnership	
☒ For-profit Corporation	☐ Governmental	
☐ Limited Liability Company	☐ Sole Proprietorship	☐ Other
- o Corporations and limited liability companies must provide an Illinois certificate of good standing. - o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.		
APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.		

Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name: USRC Alliance, LLC
Address: 2400 Dallas Parkway Suite 350, Plano, Texas 75093
Name of Registered Agent: CT Corporation System
Name of Chief Executive Officer: Stephen Pirri
CEO Address: 2400 Dallas Parkway Suite 350, Plano, Texas 75093
Telephone Number: 214.736.2700

Type of Ownership of Applicant/Co-Applicant

☐ Non-profit Corporation	☐ Partnership	
☐ For-profit Corporation	☐ Governmental	
☒ Limited Liability Company	☐ Sole Proprietorship	☐ Other
- o Corporations and limited liability companies must provide an Illinois certificate of good standing. - o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.		
APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.		

Post Permit Contact

[Person to receive all correspondence subsequent to permit issuance-THIS PERSON MUST BE EMPLOYED BY THE LICENSED HEALTH CARE FACILITY AS DEFINED AT 20 ILCS 3960]

Name: Thomas L. Weinberg
Title: Senior Vice President and General Counsel
Company Name: U.S. Renal Care, Inc.
Address: 2400 Dallas Parkway Suite 350, Plano, Texas 75093
Telephone Number: 214.736.2700
E-mail Address: Tweinberg@usrenalcare.com
Fax Number: 214.736.2701

Site Ownership

[Provide this information for each applicable site]

Exact Legal Name of Site Owner: IN Retail Fund Chatham Ridge, L.L.C.
Address of Site Owner: 2901 Butterfield Road, Oak Brook, Illinois 60523
Street Address or Legal Description of Site: Proof of ownership or control of the site is to be provided as Attachment 2. Examples of proof of ownership are property tax statement, tax assessor's documentation, deed, notarized statement of the corporation attesting to ownership, an option to lease, a letter of intent to lease or a lease.
APPEND DOCUMENTATION AS ATTACHMENT-2, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Operating Identity/Licensee

[Provide this information for each applicable facility, and insert after this page.]

Exact Legal Name: USRC West Chicago, LLC	
Address: 112 W. 87th Street, Suite N (Unit 28), Chicago, IL 60620	
☐ Non-profit Corporation ☐ For-profit Corporation ☒ Limited Liability Company	☐ Partnership ☐ Governmental ☐ Sole Proprietorship
☐ Other	
- o Corporations and limited liability companies must provide an Illinois Certificate of Good Standing. - o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner. - o Persons with 5 percent or greater interest in the licensee must be identified with the % of ownership.	
APPEND DOCUMENTATION AS ATTACHMENT-3, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.	

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Flood Plain Requirements

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS **ATTACHMENT -5**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Historic Resources Preservation Act Requirements

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS **ATTACHMENT-6**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- ☒ Substantive
☐ Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does NOT have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

USRC West Chicago, LLC ("Applicant") proposes to establish a 13 station in-center hemodialysis facility at 112 W. 87th Street, Suite N (Unit 28) in Chicago (the "Facility"), which is in Health Service Area 6. The Facility will utilize leased space, which Applicant will build out. The Facility will provide both in-center hemodialysis and peritoneal dialysis for patients with end stage renal disease.

The Project is categorized as "substantive" under the Illinois Health Planning Act, as it contemplates the establishment of an in-center hemodialysis facility.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation			
Off Site Work			
New Construction Contracts			
Modernization Contracts	781,200	478,800	1,260,000
Contingencies	4,823.60	2,956.40	7,780
Architectural/Engineering Fees	37,200	22,800	60,000
Consulting and Other Fees			
Movable or Other Equipment (not in construction contracts)	266,110.20	163,099.80	429,210
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment	1,627,395.84	997,436.16	2,624,832
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)			
TOTAL USES OF FUNDS	2,716,729.64	1,665,092.36	4,381,822
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities	1,089,333.80	667,656.20	1,756,990
Pledges			
Gifts and Bequests			
Bond Issues (project related)			
Mortgages			
Leases (fair market value)	1,627,395.84	997,436.16	2,624,832
Governmental Appropriations			
Grants			
Other Funds and Sources			
TOTAL SOURCES OF FUNDS	2,716,729.64	1,665,092.36	4,381,822
NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

Related Project Costs

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project ☐ Yes ☒ No Purchase Price: \$ _____ Fair Market Value: \$ _____
The project involves the establishment of a new facility or a new category of service ☒ Yes ☐ No If yes, provide the dollar amount of all non-capitalized operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100. Estimated start-up costs and operating deficit cost is \$ <u>75,820</u>.

Project Status and Completion Schedules

For facilities in which prior permits have been issued please provide the permit numbers.

Indicate the stage of the project's architectural drawings:

- ☐ None or not applicable
 ☒ Preliminary
☐ Schematics
 ☐ Final Working

Anticipated project completion date (refer to Part 1130.140): March 31, 2018

Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):

- ☐ Purchase orders, leases or contracts pertaining to the project have been executed.
☐ Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies
☒ Project obligation will occur after permit issuance.

APPEND DOCUMENTATION AS ATTACHMENT-8, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

State Agency Submittals

Are the following submittals up to date as applicable:

- N/A ☐ Cancer Registry
 N/A ☐ APORS
☒ All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted
 N/A ☐ All reports regarding outstanding permits
Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.

Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
REVIEWABLE							
Medical Surgical							
Intensive Care							
Diagnostic Radiology							
MRI							
Total Clinical	4,381,822		4,550		4,550		
NON REVIEWABLE							
Administrative							
Parking							
Gift Shop							
Total Non-clinical	1,665,092		2,450		2,450		
TOTAL	4,381,822		7,000		7,000		

APPEND DOCUMENTATION AS ATTACHMENT-9, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Facility Bed Capacity and Utilization

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest **Calendar Year for which the data are available**. Include observation days in the patient day totals for each bed service. Any bed capacity discrepancy from the Inventory will result in the application being deemed incomplete.

FACILITY NAME:		CITY:			
REPORTING PERIOD DATES:		From:		to:

CERTIFICATION

The application must be signed by the authorized representative(s) of the applicant entity. The authorized representative(s) are:

- o in the case of a corporation, any two of its officers or members of its Board of Directors;
- o in the case of a limited liability company, any two of its managers or members (or the sole manger or member when two or more managers or members do not exist);
- o in the case of a partnership, two of its general partners (or the sole general partner, when two or more general partners do not exist);
- o in the case of estates and trusts, two of its beneficiaries (or the sole beneficiary when two or more beneficiaries do not exist); and
- o in the case of a sole proprietor, the individual that is the proprietor.

This Application for Permit is filed on the behalf of USRC West Chicago, LLC *
in accordance with the requirements and procedures of the Illinois Health Facilities Planning Act. The undersigned certifies that he or she has the authority to execute and file this application for permit on behalf of the applicant entity. The undersigned further certifies that the data and information provided herein, and appended hereto, are complete and correct to the best of his or her knowledge and belief. The undersigned also certifies that the permit application fee required for this application is sent herewith or will be paid upon request.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate**.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
 - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
 - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
 - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE**Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space**

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following:
 - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
 - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
 - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. **A narrative of the rationale that supports the projections must be provided.**

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UNFINISHED OR SHELL SPACE: NOT APPLICABLE

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF tot be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
 - a. Requirements of governmental or certification agencies; or
 - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
 - a. Historical utilization for the area for the latest five-year period for which data are available; and
 - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

ASSURANCES: NOT APPLICABLE

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

G. Criterion 1110.1430 - In-Center Hemodialysis

1. Applicants proposing to establish, expand and/or modernize In-Center Hemodialysis must submit the following information:
2. Indicate station capacity changes by Service: Indicate # of stations changed by action(s):

Category of Service	# Existing Stations	# Proposed Stations
☒ In-Center Hemodialysis	0	13

3. READ the applicable review criteria outlined below and **submit the required documentation for the criteria:**

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.1430(b)(1) - Planning Area Need - 77 Ill. Adm. Code 1100 (formula calculation)	X		
1110.1430(b)(2) - Planning Area Need - Service to Planning Area Residents	X	X	
1110.1430(b)(3) - Planning Area Need - Service Demand - Establishment of Category of Service	X		
1110.1430(b)(4) - Planning Area Need - Service Demand - Expansion of Existing Category of Service		X	
1110.1430(b)(5) - Planning Area Need - Service Accessibility	X		
1110.1430(c)(1) - Unnecessary Duplication of Services	X		
1110.1430(c)(2) - Maldistribution	X		
1110.1430(c)(3) - Impact of Project on Other Area Providers	X		
1110.1430(d)(1) - Deteriorated Facilities			X
1110.1430(d)(2) - Documentation			X
1110.1430(d)(3) - Documentation Related to Cited Problems			X
1110.1430(e) - Staffing Availability	X	X	
1110.1430(f) - Support Services	X	X	X
1110.1430(g) - Minimum Number of Stations	X		
1110.1430(h) - Continuity of Care	X		
1110.1430(j) - Assurances	X	X	X

APPEND DOCUMENTATION AS ATTACHMENT-26, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

4. Projects for relocation of a facility from one location in a planning area to another in the same planning area must address the requirements listed in subsection (a)(1) for the "Establishment of Services or Facilities", as well as the requirements in Section 1110.130 - "Discontinuation" and subsection 1110.1430(i) - "Relocation of Facilities".

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

VIII. - 1120.120 - Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: **Indicate the dollar amount to be provided from the following sources:**

1,756,990	a)	Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to:
	1)	the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and
	2)	interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
	b)	Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
	c)	Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
2,624,832	d)	Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including:
	1)	For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated;
	2)	For revenue bonds, proof of the feasibility of securing the specified amount and interest rate;
	3)	For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.;
	4)	For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment;
	5)	For any option to lease, a copy of the option, including all terms and conditions.
	e)	Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
	f)	Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
	g)	All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
4,381,822	TOTAL FUNDS AVAILABLE	

APPEND DOCUMENTATION AS ATTACHMENT-36, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. **1120.130 - Financial Viability**

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. "A" Bond rating or better
2. All of the projects capital expenditures are completely funded through internal sources
3. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
4. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS ATTACHMENT-37, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which **audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion.** When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio	NOT APPLICABLE: Applicants meet the financial viability waiver criteria. They are funding all of the Project's capital expenditures completely through internal sources.			
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT 38, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE								
Department (list below)	A	B	C	D	E	F	G	H
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)
Contingency								
TOTALS								
* Include the percentage (%) of space for circulation								

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT -39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)			
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			

Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS ATTACHMENT 40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care

**Re: US Renal Care
Chatham Ridge
Chicago, Illinois
Lease Proposal – Initial
Bldg. 10362 & Unit #28**

Dear Howard,

Pursuant to our conversation, below please find a portion of the preliminary proposed terms for a future lease agreement.

LEASE FORM:	Landlord's Standard Form
TENANT:	Unidentified Medical User
GUARANTY:	Corporate Guaranty (Financials to be provided)
PREMISES:	112 W. 87th Street, Suite N (Unit 28)
BUILDING:	Cook County 112 W 87th Street, Chicago, Illinois 60620-1318 Suite N Built 1990 148,378sf Building
OWNER:	IN Retail Fund Chatham Ridge, L.L.C., an Illinois limited liability company
SIZE:	Approximately 12,096sf square feet
TERM:	Ten (10) years, two (2) months
CONTINGENCY:	Lease is contingent upon tenant acquiring all necessary approvals and permits from applicable government authorities to operate tenant's permitted use, including, but not limited to a Certificate of need from the State of Illinois. Tenant agrees to diligently pursue such permits. In the event, Tenant is unable to obtain the Permits within one hundred eighty (180) days from mutual execution of the Lease, then either Landlord or Tenant shall have the option to terminate this Lease by written notice delivered to the other party within 30 days following expiration of 180 day contingency period. Should

neither Landlord or Tenant elect not to terminate after 180 days then Tenant will be required to pay 50% of base rents until contingency is waived.

Contingent upon Landlord's Management Committee Approval

ANTICIPATED
OCCUPANCY DATE:

TBD

USE:

For the ("Primary Use") of Medical Office / Dialysis Center

MINIMUM RENT:

Years 1-5	\$24.00 per square foot
Years 6-10	\$26.40 per square foot

OPTION TERM:

Years 11 – 15	\$29.05 per square foot
Years 16 – 10	\$31.96 per square foot

Tenant must provide landlord with written notice of its intent to exercise no later than 180 days prior to lease expiration

ADDITIONAL RENT:

In addition to the minimum rent, Tenant shall pay its proportionate share of real estate taxes and common area expenses for the property. The initial estimated payments will be:

Real Estate Taxes	\$5,423.04 per month ... \$5.38 per square foot
Common Area Expenses	\$5,493.60 per month ... \$5.45 per square foot
Totals	\$10,916.64 per month ... \$10.83 per square foot

UTILITIES:

Utility payments shall be the responsibility of the Tenant.

INSURANCE

PROVISIONS: Tenant's insurance shall meet Landlord's current minimum standards as follows:

- General Liability limits minimum of: \$1,000,000 per occurrence.
- General Liability limits minimum of: \$2,000,000 in aggregate.
- General Liability policy must be written on a per location basis.
- General Liability policy must show evidence of Fire Legal Liability.
- Auto Liability limits minimum of: \$1,000,000 (if necessary)
- Umbrella (Excess) Insurance minimum of: \$5,000,000
- Worker's Compensation must have WC Statutory Limits
- Employers Liability policy limits minimum of: \$500,000 for each accident.
- Employers Liability policy limits minimum of: \$500,000 for each disease - employee.
- Employers Liability policy limits minimum of: \$500,000 for each disease - policy limit.
- Additional Insured endorsement of:

IRC Retail Centers, Inc. as managing agent for the owner and IN Retail Fund Chatham Ridge, L.L.C., an Illinois limited liability company are endorsed as additional insured on liability policies and such insurance is primary non-contributory with any other insurance available to owner and property manager.

- Dram Shop/Liquor Liability minimum of: \$1,000,000 per occurrence. (if necessary)
- Physical (a.k.a. Content or Property) Damage Insurance
- Plate Glass Insurance
- Extra Expense & Business Interruption loss of rents for a period of not less than twelve (12) months of Minimum Rent and Additional Rent naming Landlord as loss payee

LEASE

COMMENCEMENT: Upon possession

RENT

COMMENCEMENT: Rent will commence one hundred twenty (120) days after issuance of a Certificate of Need by the State of Illinois, to be defined in lease as construction period.

RENT ABATEMENT: There will be no minimum rent due for the first two (2) months following the Rent Commencement Date.

IMPROVEMENTS: Landlord to deliver space as-is.

PLAN APPROVAL: Tenant shall be required to submit construction/architectural/MEP plans to the Landlord for review and approval prior to Tenant beginning any work in the Premises. A copy of the shopping center design criteria will be provided to Tenant upon lease execution.

LANDLORD'S IMPROVEMENT CONTRIBUTION Landlord will provide Tenant with a space build out contribution of Four Hundred Twenty Three Thousand Three Hundred Sixty (\$423,360.00) Tenant will be required to account for all funds contributed by Landlord for unit improvements and submit to Landlord a written statement requesting such payment, provided that at the time of such request and scheduled payment:

- A. Tenant shall never have been in default under any provision of this Lease, regardless of whether or not such default has been cured;
- B. the Premises have been opened for business to the public in accordance with the requirements of this Lease for at least three (3) consecutive business days;
- C. Tenant shall have paid its full first month's Minimum Rent; and
- D. Tenant certifies that the Shopping Center is free and clear of all mechanics' liens and other encumbrances relating to Tenant's Work and provides to Landlord waivers, affidavits, copies of paid invoices and releases of lien in form and substance satisfactory to Landlord covering Tenant's Work.
- E. Upon the occurrence of an event of default by Tenant under this Lease, the entire Construction Allowance previously paid by Landlord, shall become "Additional Rent" immediately due and payable to Landlord.
- F. Landlord and Tenant agree that the Construction Allowance offsets the costs of Tenant's Work described in Exhibit C-2 of Landlord's lease, including, but not limited to complete Tenant's White Box and site build-out all of which shall become the property of Landlord and remain in the Premises upon termination of the Lease.

SIGNAGE: Tenant will be required to comply with Landlord sign criteria for the Shopping Center as designated in the formal lease. Tenant shall have right to signage where available and subject to rights within existing leases.

PARKING: Tenant will be granted 5 non-exclusive short term designated spaces subject to existing leases.

- MISCELLANEOUS:
- 1. Tenant will require the right to allow a tractor trailer (18 wheeler) to deliver supplies in the delivery area located behind the Building.
 - 2. If an awning doesn't currently exist, Landlord will allow Tenant, at its own expense to install an awning at the front of the Premises for a patient drop off/ pick up area. Subject to landlord review and any municipal approvals
 - 3. Tenant will be allowed to install a satellite dish with a weather head and 20amp dedicated circuit on the roof of the Building, subject to supervision of Landlord's contractor so as not to negate any warranty
 - 4. Tenant will be allowed to install a floor scale in its Premises, subject to supervision of Landlord's contractor so as not to negate any warranty.

HIPPA COMPLIANCE: Landlord acknowledges that Tenant is subject to the provisions of the Health Insurance Portability and Accountability Act of 1996 and related regulations ("HIPAA"), and that HIPAA requires Tenant to ensure the safety and confidentiality of patient medical records. Landlord further acknowledges that, in order for Tenant to comply with HIPAA, Tenant must restrict access to the portions of the Property where patient medical records are kept or stored. Landlord hereby agrees that, notwithstanding the rights

granted to Landlord, except when accompanied by an authorized representative of Tenant, neither Landlord nor its employees, agents, representatives or contractors shall be permitted to enter those areas of the Property designated by Tenant as locations where patient medical records are kept and/or stored or where such entry is prohibited by applicable state or federal health care privacy laws.

GROSS
SALES:

Tenant will be required to provide Landlord with monthly gross sales figures for the premises during the primary term and any subsequent option periods.

BROKERAGE:

IRC Retail Centers, Inc. will pay or cause to be paid a brokerage fee equal to the amount of 3% per a separate agreement and acknowledge that the Tenant is represented by Howard Watkins with Transwestern as procuring cause of this transaction.

DOCUMENTATION:

Tenant to provide Landlord with financial statements for landlord review prior to lease draft.

CONFIDENTIALITY:

Tenant shall hold in strictest confidence all documents, data and information obtained from Landlord in connection with the letter of intent and/or the Lease transaction between the parties, whether obtained before or after the execution and delivery of this letter of intent. In the event of a breach by Tenant of this covenant, Landlord shall be entitled to immediate injunctive relief restraining Tenant from disclosing, in whole or in part, such confidential information, and to any and all remedies available at law or in equity for such breach.

This represents a proposal of financial terms only and is not to be considered a legal and/or binding agreement. All terms are subject to the final approval of ownership. We reserve the right to withdraw this proposal at any time. With the acceptance of this proposal, we authorize IRC Retail Centers, Inc. to make whatever credit inquiries they may deem necessary.

Sincerely,

IRC RETAIL CENTERS, INC.

Matthew J. Cavanagh
Leasing Manager

Dear Mr. Clancy:

This letter is to inform you that we have reviewed the information provided concerning the referenced project.

Our review of the records indicates that no historic, architectural or archaeological sites exist within the project area.

Please retain this letter in your files as evidence of compliance with Section 4 of the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420/1 et. seq.). This clearance remains in effect for two years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the Illinois Human Skeletal Remains Protection Act (20 ILCS 3440).

If you have any further questions, please contact David Halpin, Cultural Resources Manager, at 217/785-4998.

Sincerely,

Rachel Leibowitz, Ph.D.

Deputy State Historic

Preservation Officer

Project Costs/ Sources of Funds

Project Costs and Sources of Funds

The following table lists costs associated with the project. For any component of a project that involves a lease, donation, gift, or other project cost or source of funds, the chart includes the fair market or dollar value of the component in the estimated project cost. The Nonclinical column of the chart contains non-reviewable components, unrelated to the provision of health care. Note, the use and sources of funds equal each other.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation			
Off Site Work			
New Construction Contracts			
Modernization Contracts	781,200	478,800	1,260,000
Contingencies	4,823.60	2,956.40	7,780
Architecture/Engineering Fees	37,200	22,800	60,000
Consulting and Other Fees			
Movable or Other Equipment (not in construction contracts)	266,110.20	163,099.80	429,210
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment	1,627,395.84	997,436.16	2,624,832
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)

NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE IN NUMERIC SEQUENTIAL ORDER.			

Project Status and Completion Schedule

The applicable information is contained on page 6 of the Application. There is no additional information.

Cost Space Requirements

The following chart sets forth the department gross square footage ("DGSF") and the cost of the Project. The sum of the department costs equals the total estimated project costs. Applicant is not reallocating any space for a different purpose. The indicated square footage includes outside wall measurements, plus the department's or area's portion of the surrounding circulation space.

Dept./ Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
REVIEWABLE

In accordance with 77 Ill. Admin. Code § 1110.230, I certify that neither Medicare, Medicaid, nor any State or Federal regulatory authority has taken any adverse action against any facility Applicant owns or operates, during the 3 years before the filing of this Certificate of Need application; and

In accordance with 77 Ill. Admin. Code § 1110.230, I authorize the Illinois Health Facilities and Services Review Board and the Illinois Department of Public Health to access documentation necessary to verify any documentation or information Applicant submitted in this Certificate of Need application.

James D. Shelton, Manager

Subscribed and sworn to before me this 16th day of June 2016.

Purpose of the Project

The purpose of this Project is to keep dialysis services accessible to a growing ESRD population in the Southside of Chicago (HSA 6) and to alleviate the current need for dialysis services within the Health Planning Area (6 C). The Revised Needs Determinations for ESRD Stations, dated May 11, 2016, shows that HSA 6 currently has an unmet need for 54 additional stations. Applicant will help alleviate this need by making 13 ESRD stations (12 general and 1 isolation) available to ESRD patients in the planning area.

The market area that Applicant will serve is primarily within a five-mile radius around the facility.

In addition, as the physicians' referral letter in Appendix 1 indicates, the physicians estimate that they will refer annually an additional 61 patients to Applicant's facility, within 24-months after project completion. By the time Applicant completes the project, additional dialysis stations will be necessary to meet the needs of these patients. The goal of USRC West Chicago, LLC is to keep dialysis access available to this patient population, continue to monitor the growth of the patients needing dialysis, and provide responsible health care planning for this area.

Alternatives

The alternatives to the Project are limited. The State's Revised Needs Determinations for ESRD Stations dated May 11, 2016, shows a need for 54 ESRD stations in HSA 6. This Project will establish 13 ESRD stations (12 general and 1 isolation) to help meet the ESRD needs for HSA 6.

1. A Project of Greater or Lesser Scope and Cost

In the planning stages of this proposed project, Applicant considered a project with both more and fewer of greater and fewer stations. The alternative of a project of fewer stations would not sufficiently meet the ESRD station need in HSA 6. Applicant has identified 637 pre-ESRD patients who it anticipates will require dialysis services in the 24 months following project completion. Applicant bases this increase in ESRD patients on physicians' current patients, which does not include future patients who may present with diagnoses of CKD 4 or CKD 5. Consequently, additional dialysis stations are necessary to meet the needs of these future patients.

2. Pursue a Joint Venture or Similar Arrangement with One or More Providers or Entities To Meet All or a Portion of the Proposed Project's Intended Purposes; Develop Alternative Settings To Meet All or a Portion of the Proposed Project's Intended Purposes

The operating model for this project is consistent with the standard model USRC Renal Care, Inc. has implemented throughout its facilities. This model allows USRC West Chicago, LLC to provide the quality patient-care services its patients require, while controlling costs. Pursuing an alternate arrangement for the provision of these services might negate this operating model or otherwise dilute the benefits to patients of USRC West Chicago, LLC.

3. Utilizing Other Health Care Resources that Are Available To Serve All or a Portion of the Patient Population the Project Proposes To Serve

Patients who require dialysis treatment are limited in their options to utilize other health care resources. Due to the high frequency of required treatment (3 treatments per week) and length of treatment (approximately 4 hours), patients must be able to access conveniently located and effective facilities. For example, an incremental increase in drive time of 10 minutes would result an increase of 52 hours over a year.

[See attached Comparison Chart.]

Comparison of Project to Alternative Options

Proposed Project	Alternative	Cost	Patient Access	Quality	Financial Benefits
Establish U.S. Renal Care West Chicago Dialysis	Project of Smaller Scope / No Project	Cost: \$0 Alternative Option presents less cost to Applicant but would result in additional costs to patients in the form of increased travel time and lack of access to the provider of their choice.	Alternative Option would result in reduction in patient access as ESRD patient population growth exceeds station growth.	Alternative Option results in reduction in quality, since fewer stations would fail to meet projected needs of ESRD patients.	Alternative Option does not result in greater financial benefit to any stakeholder (patient, the state, Applicant).
Establish U.S. Renal Care West Chicago Dialysis	Joint Venture or other Arrangement	Cost: ≈ 4,381,822 Alternative Option would result in the same or similar total cost as the proposed project, but it would distribute such costs among different parties.	Alternative Option would result in the same increased patient access as the proposed project.	Alternative Option would likely result in decreased quality, as the provision of care through such an arrangement would deviate from Applicant's proven model for the delivery of high quality ESRD services.	Alternative Option does not result in greater financial benefit to any stakeholder (patient, the state, Applicant).
Establish U.S. Renal Care West Chicago Dialysis	Use Existing Resources	Cost: \$0 Alternative Option presents lower cost to Applicant but would result in additional costs to patients in the form of increased travel time and lack of access to the provider of their choice.	Alternative Option results in reduction in patient access, as ESRD patient population growth exceeds station growth.	Alternative Option results in reduction in quality as ESRD patient population growth exceeds station growth.	Alternative Option does not result in greater financial benefit to any stakeholder (patient, the state, Applicant).

Empirical Evidence, Including Quantified Outcome Data, Verifying that Applicant Has Improved the Quality of Care of Its Patients

Applicant maintains high levels of clinical quality for dialysis patients. On a corporate level, U.S. Renal Care, Inc. has accomplished three-month average patient outcomes of 96.2% of patients with a URR $\geq$ 65% and 97.6% of patients with Kt/V $\geq$ 1.2 for the period ending May 2016. Applicant anticipates similar patient outcomes for the proposed project.

Size of the Project

Department/Service	Proposed BGSF/DGSF	State Standard	Difference	Met Standard?
In-Center Hemodialysis	350 dgsf/ station	360-520 dgsf/ station	None	Yes
Non-Clinical	2,450	N/A	N/A	N/A

The amount of physical space for the proposed project is necessary, and not excessive, for the provision of hemodialysis services. The 350 dgsf/ station of the proposed project falls well within the state standard.

Project Services Utilization

	Dept/Service	Historical Utilization/Patient Days etc.	Projected Utilization	State Standard	Met Standard?
Year 1	In-Center Hemodialysis	N/A	28 patients / 36%	80%	No
Year 2	In-Center Hemodialysis	N/A	71 patients / 91%	80%	Yes

Applicant has identified 637 patients who the physicians are currently treating with diagnoses of CKD 3, CKD 4, or CKD 5. Of these patients, Applicant estimates that approximately 61 of them will require dialysis services within 24 months of project completion (30 patients annually).

Planning Area Need: Formula Calculation

The most-recently available IDPH Revised Needs Determinations for ESRD Stations, dated May 11, 2016, indicates that HSA 6 has an unmet need for 54 ESRD stations. USRC West Chicago, LLC will help alleviate this need by making 13 (12 general and 1 isolation) stations available to ESRD patients.

Planning Area Need: Service to Planning Area Residents

Applicant proposes to establish a 13-station, in-center hemodialysis and peritoneal dialysis facility at 112 W. 87th Street, Suite N (Unit 28) in Chicago. USRC West Chicago, LLC will utilize leased space, which it will build out. It will provide both in-center hemodialysis and peritoneal dialysis for patients with end stage renal disease. The primary purpose of the Project will be to provide necessary health care to the residents of Cook County and HSA 6, where the Facility will be located. The market area that U.S. Renal Care West Chicago Dialysis will serve is primarily within five-mile radius around the Facility.

Planning Area Need: Service Demand (Historical and Projected Referrals)

Projected Referrals: Appendix 1 contains a physician referral letter attesting to the physicians' total number of patients who have received care at existing facilities in the area; the number of new patients in the area whom the physicians referred for in-center hemodialysis for the most recent year; and an estimate of the number of patients whom the physicians will refer annually to Applicant's facility, within 24-months after project completion, based upon the physicians' practice experience.

Planning Area Need: Service Accessibility

The biggest factor in the planning area that contributes to service restrictions for patients in the area is the unmet need for additional dialysis stations.

Planning Area Need

The most-recently available IDPH Revised Needs Determinations for ESRD Stations, dated May 11, 2016, shows that HSA 6 currently has an unmet need for 54 ESRD stations. U.S. Renal Care West Chicago Dialysis will help alleviate this need by making 13 additional stations available to ESRD patients.

Unnecessary Duplication of Services

The attached tables show the following information:

- A list of zip code areas that are located, in total or in part, within 30 minutes normal travel time of the project's site; and
- The total population of the identified zip code areas (based upon the 2010 population numbers available for the State of Illinois population).

Zip Code	Total Population
60805	19,852
60804	84,573

Unnecessary Duplication of Services

The names and locations of all existing or approved health care facilities located within 30-minutes normal travel from the site that provide the dialysis services that are proposed by the project. This table indicates both facilities within an unadjusted 30-minute drive time and the 1.25 factor adjusted 30-minute drive time. Utilization data for these facilities is from the first quarter of 2016 ESRD utilization.

Mapquest maps of driving times and distances are included in Appendix 2 in the order they appear in the facility table.

Utilization Calculation for Facilities within 30-Minute Drive Time											
Utilization Calculation for Facilities within Adjusted 30-Minute Drive Time											

Maldistribution

This Project will not result in maldistribution, because there is not an excess of stations in HSA 007. On the contrary, this area has a need for 54 additional stations, as published in the IDPH Revised Needs Determinations for ESRD Stations, dated May 11, 2016. A copy of the relevant page of the Long-Term Care Bed Inventory Update is included in this attachment.

A ratio of stations to population that exceeds one and one-half times the State average:

The ratio of stations to population within a 30-minute drive time of the proposed facility does not exceed one and a half times the State average. The State average, calculated from the most-recently available IDPH Revised Needs Determinations for ESRD Stations, dated _____ and _____ census-population statistics results in a state station to population ratio of 1 station per 3,371 persons. The calculated station to population ratio within the 30-minute drive time of the proposed facility is 1 station per _____ persons. Thus, the station to population ratio within the 30-minute drive time of the proposed facility does not exceed one and one-half times the State average; in fact, it is _____ the State average demonstrating that there is not a maldistribution of stations in the 30-minute drive time of the proposed facility.

The associated calculation of station to population ratios is included in this attachment. The calculation for the state station to population ratio utilizes _____ Census data for the State of Illinois and the total station count as found on the IDPH Revised Needs Determinations for ESRD Stations dated _____. The calculation of the station to population ratio for facilities within a 30-minute drive time includes all facilities and zip codes identified in the Unnecessary Duplication of Services attachment.

[Address]

Total Number of Stations for Facilities within a 30 Minute Drive Time

Total Population for Zip Codes within a 30 Minute Drive Time

Ratio of Stations to Population

State of Illinois

Total Number of Stations in the State of Illinois

Total Population in the State of Illinois

Ratio of Stations to Population

Impact of Project on Other Area Providers

The addition of 13 ESRD stations at the Facility Dialysis Facility would only account for ____% of the total shift capacity in the unadjusted 30-minute drive time area and ____% of the total shift capacity in HSA 6. Assuming the Facility achieved immediately 80% utilization (____ shifts per year), the facility would only make a ____% difference in the 30-minute drive time occupancy levels and less than a 1% difference in the total shift capacity of HSA 6. This increase in stations is fractional compared to the number of licensed stations in the area, thus it is unlikely that the addition of these stations will lower the utilization of other area providers, both those who are operating above 80% and those operating below 80%.

Additionally, the HSA 6 has a station need of 54 stations, as published in the IDPH Revised Needs Determinations for ESRD Stations dated May 11, 2016.

*Applicant bases this calculation on the HSA 6 approved stations of ____ as calculated on the IDPH Revised Needs Determinations for ESRD Stations dated _____ and the 30-minute drive time facilities as identified in Attachment 26 Unnecessary Duplication of Services. Shift capacity of each station is 3 shifts per day, 6 days a week, 52 weeks a year.

Staffing Availability

Medical Director

The curriculum vitae of the facility's Medical Director follows this page.

Staff Recruitment

U.S. Renal Care Inc. recruits facility personnel using various job posting websites as well as a recruitment tool maintained on the corporate website (available at http://www.usrenalcare.com/us_renal_care_careers.htm).

Training

Applicant maintains rigorous orientation and training requirements for all staff of dialysis facilities. Clinical staff receive comprehensive orientation training in multiple areas (policies related to orientation and competencies are included in this attachment). Such staff is also required to comply with any federal or state training requirements necessary for certification in their respective fields. In addition, U.S. Renal maintains both corporate and facility level training requirements for facility staff. For example, all staff are subject to corporate requirements for annual competency assessments and quarterly assignments provided through U.S. Renal Care's training tool, Health Streams (a copy of the schedule of assignments, email reminder and completion report are included in this attachment). Furthermore, dialysis staff is also required to comply with any facility required training programs as implemented by the governing body of the dialysis facility. (See attached policy# EO-8002.)

Staffing Plan

Applicant maintains staffing ratios in compliance with state requirements for the state in which Applicant maintains a dialysis facility. Included in this attachment is the U.S. Renal Care policy regarding staffing ratios, which demonstrates the requirement for on-duty RNs when the patients are present and maintenance of direct patient care providers in compliance with state regulations. In the case of Illinois Applicant will maintain a ratio of one direct patient care provider to every four patients.

Staffing Availability

USRC West Chicago, LLC

In accordance with 77 Ill. Admin. Code § 1110.1430(e)(5), Applicant certifies that USRC West Chicago, LLC will maintain an open medical staff. Any board-licensed nephrologist may apply for privileges at this facility.

James D. Shelton, Manager

MEMO: New Hire Compliance Training

Dear New Employee,

Welcome to U.S. Renal Care. As part of the Compliance Program, each new employee must complete Compliance and HIPAA training to fulfill their training requirements. This training must be completed **within 30 days** of hire. Please follow these steps to complete your training.

1. Go to the US Renal Care Intranet Portal. Under the Training and Education section on the right side of the screen, click on the HealthStream link. This will bring you to the HealthStream Learning Center login page.

HealthStream Learning Center: Login

LOGIN SCREEN

U.S. RENAL CARE

Login

User ID:

Password:

Login Instructions
Please enter your User ID and Password to enter the USRC Learning Center

- Your User ID is a letter followed by five numbers (example: A00000).
- Your User ID is the same as your Employee ID found on your paystub and given to you with your online learning Introduction materials.
- Your Employee ID can also be found on your Personal Records Page in Exponent.

Password Reminder
If you have forgotten your password and have a password reminder, enter your user ID and click the link above to view it.

For questions regarding the USRC Learning Center please contact:

NOTE: To drop a class, click Class Schedule. If you drop a class you will remain enrolled in the course - unless you also un-enroll from the course.

3. Under the tab labeled "My Learning" you will find assignments for compliance training.
 - a. You will see the following assignments listed:
 - Corporate Compliance: A Proactive Stance
 - HIPAA
 - b. Click on an assignment. This will bring up that course's assignment page. Click on the assignment to listen to the presentation or read through at your own pace.
4. Once complete with the assignment presentation, take the exam associated with the assignment. You must pass the exam to complete the assignment. **If you do not pass the first time you must retake the exam.**
5. Be aware of the following to complete each assignment.
 - a. **The login page can be accessed through the USRC Intranet Portal.**
 - b. You must complete the course before taking the exam.
 - c. Assignments can be completed in one session or several sessions if desired.
 - d. If you have any questions talk to your supervisor or contact the Compliance Department at Compliance@usrenalcare.com or (214) 736-2737.

Thank you and welcome to US Renal Care!

J. Scot Eibel
Compliance Officer

U.S. RENAL CARE

POLICY : ORGANIZATIONAL CHART		EFFECTIVE DATE: 01/2011
POLICY #: EO-0001	PAGE 1 OF 1	REVISION DATE:

U.S. RENAL CARE

POLICY : Utilization of Supplemental Staff		EFFECTIVE DATE: 01/2012
POLICY #: EO – 0001a	PAGE 1 OF 2	REVISION DATE: 8/2015

Utilization of Supplemental Staff

Responsibility:

Vice President of Operations
Facility Administrators
Charge Nurse

Policy:

Supplemental Staff, with the approval of the Human Resources & Vice President of Operations, can be obtained through an agency to augment the core staffing of the dialysis unit.

Supplemental Staff must be qualified to meet the performance expectations of U.S. Renal Care and follow these guidelines:

1. The Facility Administrator is responsible for coordinating the scheduling and orientation of the supplemental staff to the dialysis unit. Orientation will include:
 - a. Facility orientation
 - b. Location and review of Policy and Procedure Manuals:
 - 4.0 Pre Treatment**
 - 5.0 Treatment Initiation**
 - 6.0 Intradialysis**
 - 7.0 Complications**
 - 9.0 Medication Administration**
 - 11.0 Infection Control**
 - 14.0 Emergency Management**
 - 18.0 OSHA**
 - c. Procedure for obtaining supplies and equipment.
 - d. Location and use of equipment including emergency equipment
2. Preliminary Assessment – completions of USRC Skills Competency Checklist. Agency Nurse's duties and responsibilities permitted if appropriate orientation and/or documentation is presented
3. A file will be kept in the Facility Administrator's Office for recording necessary information.
 1. Resume
 2. Current License Number
 3. Current CPR
 4. Hours/Unit
 5. Name of referring agency and contact information

U.S. RENAL CARE

POLICY : Utilization of Supplemental Staff		EFFECTIVE DATE: 01/2012
POLICY #: EO – 0001a	PAGE 2 OF 2	REVISION DATE: 8/2015

6. Evidence of Clinical Competence
 7. Completed Skills Checklist
 8. Any evaluation done during assignment at USRC.
 9. Any other relevant documentation (i.e. ACLS Certification, EKG and Medication Test Results)
4. Reassignment of agency personnel will be done in collaboration with the respective employment agency.

POLICY : ORIENTATION GUIDE FOR NEW NON-EXPERIENCED HEMODIALYSIS STAFF		EFFECTIVE DATE: 01/2011
POLICY #: EO - 0002	PAGE 1 OF 5	REVISION DATE: 8/2015

ORIENTATION GUIDE FOR NEW NON-EXPERIENCED HEMODIALYSIS STAFF

Also see State Specific

The orientation period is approximately 6 – 8 weeks in length for non dialysis experienced staff. In order to meet the objective of the Orientation Checklist, and to allow for sufficient clinical practice, the following schedule is presented as a **guide**. Mastery of both theory and clinical skills is the responsibility of the student and no student may practice independently without demonstration and documentation of required skills. Until the individual has satisfied the training and competency requirements, the individual during the process of completing training shall be identified as a trainee when present in any patient area of the facility.

Prior to providing dialysis care, all nursing staff shall demonstrate satisfactory completion of either the training program or educational equivalency and the competency skills assessment checklist as required for the dialysis technicians.

Any registered nurse or licensed practical nurse who is employed without previous experience in the dialysis process, and who has not yet successfully completed the skills competency checklist, shall be directly supervised when engaged in dialysis treatment activities with patients by a staff member who has demonstrated skills competency for dialysis treatment as required by the State/Federal Regulations.

In addition to the Amgen and Nephrology Core Curriculums, the Employee Orientation Program Workbook is a good resource tool. Delivery of training material will be accomplished through a combination of lecture, video presentations and independent study.

Note:

USRC definition of 'with experience' – employee has provided 6 months hands on dialysis patient care within the last 18 months.

RECOMMENDED SCHEDULE (Schedule can be altered dependent on the learning progress and competency of the trainee)

WEEK 1:

Day 1: Facility tour and orientation (EO-0005)

- Overview of the services provided by the facility

- Meet preceptor

- Meet the staff and physicians

- Review of Employee Handbook and Job Description

- Staff Roles and Responsibilities

- Overview of US Renal Care Philosophy

- Overview of P & P Manual

- Introduction of dialysis machine and dialysis prescription

- Read/review Module I and II (Today's Dialysis Environment/The Person with Kidney Failure) Reference: Amgen Core Curriculum

U.S. RENAL CARE

POLICY : ORIENTATION GUIDE FOR NEW NON-EXPERIENCED HEMODIALYSIS STAFF		EFFECTIVE DATE: 01/2011
POLICY #: EO - 0002	PAGE 2 OF 5	REVISION DATE: 8/2015

Universal Precautions/OSHA Education
 HIPAA training - Bridgefront
 Professionalism in Dialysis Care (webinar-Portal)
 View state specific training videos (Portal)
 Online Staff Training:
 Bloodborne Pathogen
 Hand Hygiene
 Hazard Communication
 Safe Practices in Dialysis Environment
 Needlestick Safety
 Ergonomics
 Fire Safety
 Electrical Safety
 Disaster and Emergency Management
 Abuse Reporting

Day 2: Scavenger Hunt (EO-000)

Practice set up of dialysis machine with preceptor and removal of lines
 Observation of Hemodialysis procedure and orientation to clinic routines
 Proper cleaning of chairs, machines, clamps, and blood pressure cuffs
 Basic chemistry of body fluids and electrolytes
 History of Dialysis
 Legal and Ethical Issues
 Hygiene and Grooming
 Mobility and Positioning
 Read/review Module III (Principles of Dialysis)

Day 3: Practice set up of dialysis machine with preceptor

Introduction to screen of dialysis machine and machine components: Reference Braun
 Operator's Manual or Fresenius Operator's Manual
 Vital signs
 Overview of the continuous quality improvement program
 Read/review Module IV (Hemodialysis Devices)
 Role of the dialysis technician in a dialysis setting: legal and ethical considerations and concepts of delegating.
 Communication and Team work Skills
 Pre and Post weights
 Machine testing PH/conductivity/temperatures

Day 4: Machine operation and introduction to problem solving with preceptor

Trouble shooting equipment – machine alarms
 Practices set up of the dialysis machine
 Policies and Procedures on Patients rights including Patient Bill of Rights
 Delivery of an adequate dialysis treatment and factors which may result in inadequate treatment

U.S. **RENAL CARE**

POLICY : ORIENTATION GUIDE FOR NEW NON-EXPERIENCED HEMODIALYSIS STAFF		EFFECTIVE DATE: 01/2011
POLICY #: EO - 0002	PAGE 3 OF 5	REVISION DATE: 8/2015

Complications of dialysis and interventions
 Aseptic technique
 Education on the proper use of Safety Needles
 Education on accidental needle sticks (Issues and Prevention Strategies for Healthcare Workers

Day 5: Preparation and use of dialysate baths
 Practices set up of the dialysis machine
 Testing: Module I (Today's Dialysis Environment)
 Identify allergies, patient chart (electronic medical record)
 Identify goal, treatment time, UFR, TMP
 Evaluation: Week 1

WEEK 2:

Continue practice set up and use of dialysis machine
 Residual testing for presence of bleach
 Introduction and education on access placement and taping access
 Review location and use of emergency equipment:
 (Oxygen, suction, crash cart, AED, Emergency box, fire drill & evacuation)
 Introduction to patient monitoring during treatment
 Introduction and education on documentation procedures and the TIME system
 Theory and practice of conventional, high efficiency, and high flux dialysis
 Interpersonal Communication
 Read/review Module II and III (The Person with Kidney Failure/Principles of Dialysis)
 Evaluation: Week 2

WEEK 3:

Emergency Plans and Procedures
 Introduction to dialysis termination procedures
 Review and practice pre and post treatment procedures, patient monitoring
 Review clinic specific responsibilities and documentation
 Education on Transplantation
 Review complication recognition and treatment
 Continue practice with machine set up and operation
 Read/review: Module V (Vascular Access)
 Testing: Module IV (Hemodialysis Devices)
 Evaluation: Week 3

WEEK 4:

Introduction to initiation of dialysis with catheters (as appropriate to job description)
 Review and educate on commonly used dialysis medications
 Medication Administration
 Continue supervised practice of dialysis termination
 Normal and abnormal lab values
 Pre and post dialysis blood draws

U.S. RENAL CARE

POLICY : ORIENTATION GUIDE FOR NEW NON-EXPERIENCED HEMODIALYSIS STAFF		EFFECTIVE DATE: 01/2011
POLICY #: EO - 0002	PAGE 4 OF 5	REVISION DATE: 8/2015

Lab processing duties
 Orientation and competency for blood glucose monitoring equipment
 Supervised practice to incorporate pre and post dialysis procedures and patient
 Monitoring with machine operation, and documentation
 Introduction to initiation of dialysis by cannulation
 Introduction of materials used to create grafts, needle placement for access in a graft, and
 prevention of complications: and identification of signs and symptoms of complications
 when cannulating access
 Education on PD
 Renal Dietitian: Nutritional Considerations
 Read/review Module VI (Hemodialysis Procedures and Complications)
 Evaluation: Week 4

WEEK 5:

Cannulation of a patient with fistula needles
 The orientee will incorporate trouble shooting and patient complications with all
 previously learned and practiced experience
 Continue supervised practice of dialysis initiation via catheter, dialysis termination,
 and treatment procedures and monitoring
 Incorporate machine problem solving and recognition and treatment of complications
 Into practice
 Education on monitoring of arterial and venous pressures
 Renal Social Worker: Psychosocial issues
 Read/review Module VII and VIII (Dialyzer Reprocessing/Water Treatment)
 Testing: Module V (Vascular Access)
 Evaluation: Week 5

WEEK 6:

Continue supervised practice of hemodialysis procedures
 Competently complete a 1 – 2 patient assignment
 Education on the management of adequacy outcomes
 Technical Specialist: Water system, risks to patients of unsafe water, water checks,
 machine maintenance, trouble shooting machines and cleaning of machines
 Evaluation: Week 6 (Preceptor/Orienteer/Administrator)

WEEK 7 & 8:

Competently complete assigned patient assignment
 Testing: Module VII and VIII (Dialyzer reprocessing/Water Treatment)

This orientation program is based on the assumption that the orientee has no previous
 experience. Alterations/Adjustments in the orientation program will be made based on previous
 experience and proven clinical skills. During orientation the orientee will also receive theory
 training provided by the Clinical Services Department.

U.S. RENAL CARE

POLICY: ORIENTATION GUIDE FOR NEW NON-EXPERIENCED HEMODIALYSIS STAFF		EFFECTIVE DATE: 01/2011
POLICY #: EO - 0002	PAGE 5 OF 5	REVISION DATE: 8/2015

REFERENCES TO BE REVIEWED DURING ORIENTATION:

Core Curriculum for Dialysis Technicians
State Specific Educational Videos
Dialysis Training Manual
Dialysis Machine Manual
Dialysis Machine Trouble Shooting Guide

EVALUATION:

All tests in the **Employee Education Manual** are to be passed with a score of 80% including the "Hemodialysis Knowledge Assessment Test". Passing of the "Hemodialysis Knowledge Assessment Test" includes experienced and non-experienced staff. Inexperienced staff must complete theory class and must complete the knowledge assessment prior to being assigned an independent assignment. Experienced staff must complete the knowledge assessment prior to being assigned an independent assignment. If an experienced Care Giver does not pass the "Hemodialysis Knowledge Assessment Test" the first time – the employee needs to attend a theory class and retake the exam.

All employees (experienced and non-experienced) may take the 'Hemodialysis Knowledge Assessment Test' a maximum of three times. Failure by the employee to pass the Hemodialysis Knowledge Assessment Test after the 3rd attempt may result in termination of employment.

Weekly evaluations with the orientation checklist will be filled out throughout the orientation process by the orientee, preceptor, and educator. The Facility Administrator will evaluate all checklists weekly.

If at any time there are difficulties with the learning of the didactic material or inability to complete modules in the specified time period the Facility Administrator will be notified immediately. If at any time there are difficulties with the dialysis machine set-up, treatment monitoring, or termination of the treatment, the Facility Administrator will be notified. The Preceptor and Facility Administrator will assess the training schedule and orientee's progress and if needed will make changes in the orientation program.

POLICY: HEMODIALYSIS KNOWLEDGE ASSESSMENT TEST		EFFECTIVE DATE: 01/2011
POLICY # EO-0007	PAGE 1 OF 1	REVISION DATE: 08/2015

HEMODIALYSIS KNOWLEDGE ASSESSMENT TEST

All tests in the **Employee Education Manual** are to be passed with a score of 80% including the “Hemodialysis Knowledge Assessment Test.” Passing of the “Hemodialysis Knowledge Assessment Test” includes experience and non-experienced staff. Inexperienced staff must complete theory class and must complete the knowledge assessment prior to being assigned an independent assignment. Experienced staff must complete the knowledge assessment prior to being assigned an independent assignment. If an experienced Care Giver does not pass the “Knowledge Assessment Test” the first time – the employee needs to attend a theory class and retake the exam.

All employees (experienced and non-experienced) may take the “Hemodialysis Knowledge Assessment Test” a maximum of three times. Failure by the employee to pass the Hemodialysis Knowledge Assessment Test after the 3rd attempt may result in termination of employment.

Exam is available on IntraLearn (IL). Contact Marlene De Vera at 562-285-5525 or mdevera@usrenalcare.com to have the test assigned.

U.S. RENAL CARE

POLICY : PATIENT CARE TECHNICIAN CERTIFICATION		EFFECTIVE DATE: 01/2011
POLICY #: EO - 2001	PAGE 1 OF 1	REVISION DATE: 8/2015

POLICY:

All Patient Care Technicians (PCT's) shall be certified under a state or a nationally approved certification program as follows:

1. For newly employed patient care technicians, within 18 months of being hired as a dialysis patient care technician or
2. For patient Care technicians employed on October 14, 2008, within 18 months after this date (on or before April 14, 2010).
3. For current employees who transfer in to the patient care technician role from other jobs (reuse or water treatment technicians) certification will be obtained in 18 months from the date he/she started in the new PCT position

Ultimately US Renal Care (USRC) recognizes that certification of the PCT is an individual responsibility and a condition of continued employment in the dialysis industry. USRC will:

1. Offer review classes for voluntary attendance.
2. Offer copies of the "Amgen Care Curriculum for the Dialysis Technician" as a study guide.
3. Assist the employee with the application process to ensure completion and thoroughness of each application.
4. Reimburse the PCT for the initial exam once proof of passing score is provided.
5. Encourage each PCT Trainee to sit for the certification exam no later than the end of 18 months of being hired as a dialysis Patient Care Technician. This is to ensure adequate time to reschedule and retake the exam by the 18-month deadline, if necessary.

Support Services

USRC West Chicago, LLC

In accordance with 77 Ill. Admin. Code § 1110.1430(f), Applicant certifies that:

1. It will utilize the Health Informatics International system for the provision of care to its patients;
2. It will make support services available to its patients consisting of clinical laboratory service, blood bank, nutrition, rehabilitation, psychiatric and social services; and
3. It will provide training for self-care dialysis, self-care instruction, home and home-assisted dialysis, and home training at US Renal Care West Chicago Dialysis.

James D. Shelton, Manager

Subscribed and sworn to before me this 16th day of June 2016.

Signature of Notary

Seal

Minimum Number of Stations

The proposed USRC West Chicago, LLC contemplates the establishment of 13 ESRD stations, which meets the minimum station requirements for a metropolitan statistical area.

Continuity of Care

A copy of a signed, written affiliation agreement with a hospital for the provision of in-patient care and other hospital services follows this page.

Transfer Agreement

USRC West ChicagoWest Chicago, LLC, an Illinois limited liability company doing business as U.S. Renal Care West Chicago Dialysis (the "Center") and _____ (the "Hospital") an Illinois not-for-profit corporation, make and enter into this Transfer Agreement ("Agreement"), effective as of this 16th day of June, 2016. The Center and the Hospital are each a "Party" and are collectively the "Parties."

WHEREAS, the Center has submitted to the Illinois Health Facilities Services and Review Board (the "Board") an application for a certificate of need permit to establish a free-standing renal dialysis center for treatment of patients with end-stage renal disease, which the Center will locate in Chicago, Illinois;

WHEREAS, the Hospital owns and operates a licensed and Medicare-certified acute-care hospital, located at _____, Illinois, in reasonable proximity to the Center;

WHEREAS, patients of the Center ("Patients") may require, from time to time, evaluation, treatment, or admission to the Hospital; and

WHEREAS, the Center and the Hospital desire to enter into this Agreement in order to specify the rights and duties of each of them and to specify the procedure for facilitating the transfer of Patients to the Hospital.

NOW, THEREFORE, to facilitate the transfer of Patients to the Hospital, the Center and the Hospital agree to the terms of this Agreement, as set forth below.

1. TRANSFER OF PATIENTS: If the Center determines that a Patient needs emergency evaluation, treatment, or admission to the Hospital, and a Hospital physician accepts the transfer of the Patient, the Hospital will accept the transfer of the Patient, as promptly as possible, provided such transfer meets the Hospital's transfer requirements, and the Hospital has adequate staff and bed space for the Patient. A designated staff member of the Center shall contact a designated staff member of the Hospital to facilitate such transfer and admission to the Hospital. The Hospital shall receive Patient in accordance with applicable federal and state laws and regulations and the reasonable Hospital policies and procedures. The Hospital's responsibility for Patient's care shall begin when Patient enters the Hospital.

2. RESPONSIBILITIES OF THE CENTER: The Center shall be responsible for performing or ensuring the performance of the following:

a. Transportation: The Center will arrange for transportation of Patient to the Hospital;

b. Designated Coordinator: The Center will designate a staff member who has authority to represent the Center and to coordinate the transfer of the

Patient to the Hospital ("Transfer Coordinator"). The Center will notify the Hospital and keep it apprised of the name and contact information of the Transfer Coordinator;

c. Notice to Hospital: The Center's designated staff person will notify Hospital's Admission Coordinator before the transfer to alert the Hospital of the impending and estimated time of arrival of Patient and to provide information on Patient, to the extent Section 4 of this Agreement allows;

d. Patient Choice: The Center recognizes the right of a Patient to (i) request transfer into the care of a hospital of the Patient's choosing and (ii) refuse to consent to treatment or transfer; and

e. Compliance with Law: The Center will comply with the requirements of applicable state and federal laws relative to the care and transfer of individuals to hospitals.

3. RESPONSIBILITIES OF THE HOSPITAL: The Hospital shall be responsible to perform or ensure the performance of the following:

a. Designated Coordinator: The Hospital will designate a person who has authority to represent the Hospital and to coordinate the transfer and admission of Patients into the Hospital ("Admission Coordinator"). The Hospital will notify the Center and keep it apprised of the name and contact information of the Admission Coordinator; and

b. Compliance with Law: The Hospital will comply with the requirements of applicable state and federal laws relative to individuals admitted to hospitals.

4. PATIENT INFORMATION: In order to meet Patients' needs for hospital care, the Center shall provide relevant Patient information to the Hospital. Such information must include: Patient's name, social security number, date of birth, insurance coverage, Medicare beneficiary information (if applicable), current medical findings, diagnoses, known allergies or medical conditions, treating physician, contact person in case of emergency, and any other relevant information Patient has provided the Center in advance.

5. NON-EXCLUSIVITY: This Agreement shall in no way give the Hospital an exclusive right of transfer of Patients to the Hospital. The Center may enter into similar agreements with other hospitals, and Patients will continue to have complete autonomy with respect to decisions on medical care.

6. FREEDOM OF CHOICE: In entering into this Agreement, the Center in no way endorses or promotes the services of the Hospital. Rather, the Center intends to coordinate timely transfer for medical care. Patients are in no way restricted in their choice of hospitals or medical-care providers.

7. **BILLING AND COLLECTIONS:** Hospital and the Center are each responsible for billing the appropriate payer for the services it provides. Neither Party shall have any liability to the other Party for such charges.

8. **INDEPENDENT RELATIONSHIP:** In performing services pursuant to this Agreement, the Hospital and all employees, agents, or representatives of the Hospital are, at all times, acting and performing as independent contractors, and nothing in this Agreement is intended, and nothing shall be construed, to create an employer/employee, partnership, or joint-venture relationship between them. The Center shall neither have nor exercise any direction or control over the methods, techniques, or procedures by which the Hospital or other employees, agents, or representatives of the Hospital perform their professional responsibilities and functions. The sole interest of the Center is to coordinate timely transfer of Patients for medical care.

9. **INSURANCE:** The Hospital shall maintain, at no cost to the Center, professional-liability insurance in an amount customary for its business practices. The Hospital shall provide evidence of the coverage required herein to the Center on an annual basis.

10. **INDEMNIFICATION:** Each Party shall indemnify, defend, and hold harmless the other Party from and against any and all liability, loss, claim, lawsuit, injury, cost, damage, or expense whatsoever (including reasonable attorneys' fees and court costs), arising out of, incident to, or in any manner occasioned by the Center's or the Hospital's (or any of its employee's, agent's, contractor's, or subcontractor's) performance or nonperformance of any duty or responsibility under this Agreement.

11. **TERM AND TERMINATION**

a. **Term:** The term of this Agreement shall commence on the date of execution and shall continue in effect for one year (the "Initial Term") and shall renew on an annual basis ("Renewal Term"), absent either Party's written notice of non-renewal to the other Party, at least 30 calendar days before the expiration of the Initial Term or any subsequent Renewal Term of this Agreement.

b. **Events of Termination:** Notwithstanding the foregoing, either Party may terminate this Agreement upon the occurrence of any one of the following events:

i. *For No Cause:* At any time upon 30 days prior, written notice to the other Party.

ii. *Insolvency:* Upon 10 business days' prior written notice, in accordance with Section 12.h of this Agreement, if either Party shall: apply for or consent to the appointment of a receiver, trustee, or liquidator of itself or of all or a substantial part of its assets; file a voluntary petition in bankruptcy; admit in writing its inability to pay its debts as they become due; make a general assignment for the benefit of creditors; file a petition or an answer seeking reorganization or arrangement with creditors or take advantage of any insolvency law; or enters a court of competent jurisdiction

order, judgment, or decree or an application of a creditor, adjudicating such Party to be bankrupt or insolvent, approving a petition seeking reorganization of such Party, appointing a receiver, trustee or liquidator of either such Party or of all or a substantial part of such Parties' assets; and such order, judgment, or decree continues in effect and unstayed for a period of 30 consecutive calendar days.

c. Immediate Termination: Notwithstanding anything to the contrary in this Agreement, this Agreement terminates immediately upon the following events: (i) the suspension or revocation of the license, certificate, or other legal credential, authorizing the Hospital to provide hospital and medical care services; (ii) the termination of the Hospital's participation in, or the exclusion from, any federal or state health program, for reasons related to fraud or failure to comply with certification standards in the rendering of health services; or (iii) the cancellation or termination of the Hospital's professional liability insurance that this Agreement requires, and the Hospital has not obtained replacement coverage.

12. MISCELLANEOUS PROVISIONS

a. Counterparts: The Parties may execute this Agreement in any number of counterparts, each of which shall be an original, but all such counterparts together shall constitute the same instrument.

b. Waiver: Any waiver of any terms and conditions hereof must be in writing, and the Parties have signed it. A waiver of any of the terms and conditions hereof shall not waive any other terms and conditions hereof.

c. Severability: The provisions of this Agreement are severable, and, if a court of competent jurisdiction finds any portion invalid, illegal, or unenforceable for any reason, the remainder of this Agreement shall be effective and binding upon the Parties.

d. Headings: All headings herein are only for convenience and ease of reference, and no one may consider them in the construction or interpretation of any provision of this Agreement.

e. Assignment: The Parties may not assign, delegate, or subcontract this Agreement, without the prior written consent of the other Party.

f. Governing Law: The laws of the State of Illinois shall govern the enforcement and interpretation of this Agreement.

g. Jurisdiction and Venue: The Parties agree that in the event that either Party fails to meet the obligations in this Agreement, the Circuit Court of Cook County, Illinois will have exclusive jurisdiction for any dispute arising out of this Agreement and will be the exclusive venue for any such dispute. The Parties and any other obligated persons will consent to the personal jurisdiction of the court.

h. Notices: Any required or permitted notice herein shall be in writing. The notice will be duly given (i) on the date of service, if a Party personally serves it on the other Party, or (ii) on the fourth day after mailing, if a Party mails it to the other Party by certified mail, return receipt requested, postage pre-paid, at the address below:

To Dialysis Provider:

To the Hospital:

With a copy to:

With a copy to:

or at such other place or places as any Party designates in by written notice to the other.

i. Amendment: The Parties may amend this Agreement upon their mutual, written agreement.

j. Regulatory Compliance: The Parties agree that nothing contained in this Agreement shall require the Center to refer residents to the Hospital for hospital or medical-care services or to purchase goods and services. Notwithstanding any unanticipated effect of any provision of this Agreement, neither Party will knowingly and intentionally conduct its behavior in such a manner as to violate the prohibition against fraud and abuse in connection with the Medicare and Medicaid programs.

k. Access to Books and Records: If applicable, upon written request of the Secretary of Health and Human Services or the Comptroller General of the United States, or any of their duly authorized representatives, the Hospital shall make available to the Secretary or to the Comptroller General those contracts, books, documents and records necessary to verify the nature and extent of the costs of providing its services under this Agreement. The Hospital shall make such inspection available for up to four years after the rendering of such service. Public Law 96-499 and applicable regulations governs and requires this Section 12.k. The Parties agree that this Agreement shall not waive any attorney-client, accountant-client, or other legal privileges.

IN WITNESS THEREOF, the Parties, through their duly authorized officers, have executed this Agreement as of the date first written above.

Availability of Funds

Available financial resources, which equal or exceed the estimated total project cost and any related project costs through the following sources, as applicable:

\$1,756,990	a) Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to: 1) the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and 2) interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
\$ _____	b) Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated timetable of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
\$ _____	c) Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
\$2,624,832	d) Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including: 1) For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated. 2) For revenue bonds, proof of the feasibility of securing the specified amount and interest rate; 3) For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.; 4) For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment; 5) For any option to lease, a copy of the option, including all terms and conditions.
\$ _____	e) Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of the resolution or other action of the governmental unit attesting to this intent;
\$ _____	f) Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
\$ _____	g) All Other Funds and Sources – verification of the amount and type of any other funds that Applicant will use for the project.
\$4,381,822	TOTAL FUNDS AVAILABLE

Consolidated Financial Statements

December 31, 2015 and 2014

(With Independent Auditors' Report Thereon)

KPMG LLP
Suite 1400
2323 Ross Avenue
Dallas, TX 75201-2709

Independent Auditors' Report

The Board of Directors
U.S. Renal Care, Inc.:

We have audited the accompanying consolidated financial statements of U.S. Renal Care, Inc. and subsidiaries (the Company), which comprise the consolidated balance sheets as of December 31, 2015 and 2014, and the related consolidated statements of operations, changes in equity, and cash flows for the years then ended and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of U.S. Renal Care, Inc. and subsidiaries as of December 31, 2015 and 2014, and the results of their operations and their cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

(1) Organization and Significant Accounting Policies

(a) *Organization and Business*

U.S. Renal Care, Inc. (the Company) was formed in June 2000 and provides dialysis services to patients who suffer from chronic kidney failure, also known as end-stage renal disease (ESRD). ESRD is the stage of advanced kidney impairment that requires continual dialysis treatments, or a kidney transplant, to sustain life. Patients suffering from ESRD generally require dialysis three times per week for the rest of their lives. The Company primarily provides these services through the operation of outpatient kidney dialysis clinics. As of December 31, 2015, the Company operated 288 outpatient dialysis clinics in 32 states; and the Company provided management services to 8 dialysis programs in 3 states. In addition to its outpatient dialysis center operations, as of December 31, 2015, the Company provides acute dialysis services through contractual relationships with hospitals and dialysis to patients in their homes. The Company also has a noncontrolling interest in 7 outpatient dialysis clinics.

Pursuant to an Agreement and Plan of Merger (the 2012 Transaction), Rangers Renal Intermediate, Inc. (the Parent) acquired U.S. Renal Care, Inc. The Parent is, in turn, wholly owned by Rangers Renal Intermediate Holdings, Inc. (Intermediate Holdings), which is wholly owned by Rangers Renal Holdings, LP (Holdings) with the limited partners primarily comprising of affiliates of Leonard Green & Partners, LP (Leonard Green), Frazier Healthcare Partners, LP (Frazier), New Enterprise Associates, LP (NEA), Cressey and Company, LP (Cressey), SV Life Sciences, LP (SVLS) and members of the Company's management and Board of Directors.

(b) *Principles of Consolidation*

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned and majority-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

(c) *Use of Estimates*

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities, at the date of the consolidated financial statements, as well as the reported amounts of revenue and expenses during the reporting period.

Although actual results in subsequent periods will differ from these estimates, such estimates are developed based upon the best information available to management and management's best judgments at the time made. The most significant estimates and assumptions involve revenue recognition, provisions for uncollectible accounts, determination of the fair value of assets and liabilities acquired, impairments and valuation adjustments, and accounting for income taxes.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

(d) Cash and Cash Equivalents

Cash includes cash and highly liquid investments with a maturity of 90 days or less at date of purchase. Cash and cash equivalents at times may exceed the FDIC limits. The Company believes no significant concentration of credit risk exists with respect to these cash investments.

(e) Accounts Receivable and Allowance for Doubtful Accounts

Substantially all of the Company's accounts receivable are related to providing healthcare services to its patients and are due from the Medicare program, state Medicaid programs, managed care health plans, commercial insurance companies, and individual patients. The estimated provision for doubtful accounts is recorded to the extent it is probable that a portion or all of a patient balance will not be collected. The Company considers a number of factors in evaluating the collectibility of accounts receivable, including the age of the accounts, collection patterns, and any ongoing disputes with payors.

(f) Amounts Due from Third-Party Payors

The amount due from third-party payors, which is included in other receivables, represents balances owed to the Company by the Medicare program for reimbursable bad debts related to Medicare beneficiaries. These reimbursements are part of the Company's annual cost report filings and as such, the actual payments may be delayed or subsequently adjusted pending review and audit by the Medicare program fiscal intermediaries.

(g) Amounts Due from Drug Rebates

The amount due from drug rebates, which is included in other receivables, represents balances owed to the Company by various pharmaceutical vendors. During 2015 and 2014, the Company had incentive contracts that reduced the invoice price based upon volume purchased. This incentive was payable to the Company on a quarterly basis.

(h) Inventories

Inventories consist primarily of pharmaceuticals and dialysis-related supplies and are stated at the lower of cost or market. Cost is determined using the first-in, first-out method. Market is determined on the basis of estimated realizable values.

(i) Property and Equipment

Property and equipment is carried at cost less accumulated depreciation. Property under capital lease agreements is stated at the present value of minimum lease payments less accumulated depreciation.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

Depreciation is computed using the straight-line method over the estimated useful lives of the assets or the term of the lease as appropriate. The general range of useful lives is as follows:

Buildings	39 years
Leasehold improvements	Life of lease
Furniture and equipment	5 years
Computers	3 years

Capital lease assets are amortized over the shorter of the lease term or the estimated useful life of the asset. Property and equipment acquired in acquisitions is recorded at fair value. The cost of improvements that extend asset lives is capitalized. Other repairs and maintenance charges are expensed as incurred.

Fully depreciated assets are retained in property and depreciation accounts until they are removed from service. When sold or otherwise disposed of, assets and related depreciation are removed from the accounts and the net amounts, less proceeds from disposal, are included in income.

(j) Concentration of Credit Risk

The Company's primary concentration of credit risk exists within accounts receivable, which consist of amounts owed by various governmental agencies, insurance companies, and private patients. Receivables from the Medicare program and various state Medicaid programs were approximately 49% and 54% of gross accounts receivable at December 31, 2015 and 2014. Concentration of credit risk relating to remaining accounts receivable is limited to some extent by the diversity of the number of patients and payors.

(k) Amortizable Intangible Assets

Amortizable intangible assets and liabilities include noncompetition and similar agreements, lease agreements, revolving credit facility deferred debt issuance costs, and certain trade names. Noncompetition and similar agreements are amortized over the terms (three to ten years) of the agreements using the straight-line method. Lease agreement intangibles for favorable and unfavorable leases are amortized on a straight-line basis over the term of the lease.

Deferred debt issuance costs related to the revolving credit facility are amortized as an adjustment to interest expense over the term of the related debt.

(l) Goodwill and Indefinite-Lived Intangible Assets

Goodwill is recorded when the consideration paid for an acquisition exceeds the fair value of net tangible assets and identifiable intangible assets acquired. Goodwill and other indefinite-lived intangible assets are not amortized, but are instead tested for impairment at least annually. The annual evaluation for 2015 and 2014 resulted in no impairment charges.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

(m) *Impairment of Long-Lived and Amortizable Intangible Assets*

The Company evaluates long lived-assets and amortizable intangibles for impairment whenever events or changes in circumstances indicate that an asset's carrying amount may not be recoverable or the useful life has changed. When undiscounted future cash flows are not expected to be sufficient to recover an asset's carrying amount, a loss is recognized, and the asset is written down to its fair value.

(n) *Fair Value of Financial Instruments*

U.S. GAAP describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value. The three levels of inputs are as follows:

- Level 1 – Quoted prices in active markets for identical assets and liabilities
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 – Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities

At December 31, 2015 and 2014, the carrying amount of the senior secured credit facility was \$2 billion and \$1.2 billion as compared to fair values of \$2 billion and \$1.2 billion, respectively. The Company refinanced its debt on December 31, 2015, which therefore equals fair value. The estimates of the fair value of the Company's senior secured credit facility in the prior year are based upon a discounted present value analysis of future cash flows and are considered to be Level 3 financial measures. Due to the existing uncertainty in the capital and credit markets, the actual rates that would be obtained to borrow under similar conditions could materially differ from the estimates the Company has used.

For the Company's other financial instruments, including the Company's cash and cash equivalents, accounts receivable, accounts payable, and accrued expenses the Company estimates the carrying amounts approximate fair value due to their short-term maturity.

(o) *Net Operating Revenue and Accounts Receivable*

Net operating revenue before provision for doubtful accounts is recognized in the period services are provided. Revenue consists primarily of reimbursements from Medicare and commercial health plans for dialysis services provided to patients. A usual and customary fee schedule is maintained for the Company's dialysis treatment and other patient services. However, actual collected revenue is normally at a discount to this fee schedule. Contractual adjustments represent the differences between amounts billed for services and amounts paid by third-party payors.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

Under the ESRD prospective payment system (PPS), Centers for Medicare and Medicaid Service (CMS) reimburses dialysis facilities with a single payment for each dialysis treatment, inclusive of: (i) all items and services included in the former composite rate; (ii) certain drugs and biologicals that were previously reimbursed separately under Part B of the Medicare program; (iii) most diagnostic laboratory tests; and (iv) certain other items and services furnished to individuals for the treatment of ESRD. The base ESRD PPS payment is subject to case mix adjustments that take into account individual patient characteristics and certain co-morbidities. The base payment is also adjusted for: (i) certain high cost patient outliers; (ii) disparately high costs incurred by low volume facilities relative to other facilities; (iii) provision of home dialysis training; and (iv) wage-related costs in the geographic area in which a dialysis provider is located.

On October 29, 2015, the CMS issued the final rule regarding the ESRD PPS base rate for 2016. Dialysis providers are subject to a 0.2% increase in payments. The base rate per treatment is \$230.39, which represents an approximate reduction of 4%, net, from the 2015 base rate of \$239.43. The 2016 final rule reflects a net market basket increase of 0.15% (2% less a 1.25% PAMA (*Protecting Access to Medicare Act*) reduction and 0.6% productivity adjustment), application of a wage index budget neutrality adjustment factor of 1.000495, and application of a refinement budget-neutrality adjustment factor of 0.960319. However, the approximate 4% reduction is almost completely offset with CMS case mix adjustments based upon CMS's analysis of the fiscal years 2012 and 2013.

Medicare presently pays 80% of the established payment rates for dialysis treatment furnished to patients. The remaining 20% may be paid by Medicaid if the patient is eligible, from private insurance funds, or from the patient's personal funds. If there is no secondary payor to cover the remaining 20%, and if the Company demonstrates prescribed collection efforts, Medicare may reimburse the Company for part of that balance as part of the Company's annual cost report filings subject to individual center Medicare economics. As a result, billing and collection of Medicare bad debt claims are often delayed significantly, and final payments are subject to audit.

The ESRD PPS's quality incentive program (QIP), affects Medicare payments based on performance of each facility on a set of quality measures. Dialysis facilities that fail to achieve the established quality standards have payments for a particular year reduced by up to 2 percent, based on a prior year's performance. CMS updates the set of quality measures each year, adding, revising, or retiring measures.

Medicaid programs are administered by state governments and are partially funded by the federal government. In addition to providing primary coverage for patients whose income and assets fall below state defined levels and are otherwise insured, Medicaid serves as a supplemental insurance program for the coinsurance portion not paid by Medicare. Medicaid reimbursement varies by state but is typically reimbursed pursuant to a prospective payment system for dialysis services rendered.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

The *Budget Control Act of 2011*, enacted August 2, 2011, requires, among other things, mandatory reductions in federal spending, also known as “sequestration.” Based on that legislation and absent further legislation or regulation, Medicare claims for dates of service on or after April 1, 2013, have been, and will continue to be, reduced by 2%. The claims payment adjustment is applied to all claims after determining coinsurance, any applicable deductible, and any applicable Medicare Secondary Payment adjustments.

On November 9, 2012, CMS finalized a rule affecting ESRD Medicare bad debt beginning in 2012, as required by the *Middle Class Tax Extension and Job Creation Act of 2012*. Medicare bad debt for ESRD facilities was reduced from 100% of allowable Medicare bad debt in Fiscal Year (FY) 2012 to 88% in FY 2013, 76% in FY 2014, and 65% in FY 2015 and subsequent years. (United States fiscal years run from October 1 through September 30.) Beginning with the portion of cost reporting periods beginning on or after January 1, 2013, however, the Agency lifted the prior limit on ESRD facility bad debt payments that capped bad debt recovery by the facility’s reasonable costs.

On April 1, 2014, the President signed P.L. 113-93, the *Protecting Access to Medicare Act* (PAMA), which included several provisions concerning dialysis reimbursement. PAMA: (a) Delays inclusion of oral drugs in the bundle from 2016 until 2024; (b) mitigates the effects of previously promulgated rate reductions by eliminating them after 2015, and substitutes a payment policy in which the market basket adjustments (less productivity adjustments) that would ordinarily be applied to dialysis payments will be reduced by 1.25% in 2016 and 2017, and by 1% in 2018; (c) requires CMS in 2016 to establish a process, through promulgation of annual payment rules, for determining when a product is no longer an oral-only drug, and for including new injectable and intravenous products into the bundled payment; (d) establishes quality measures related to conditions treated by oral-only drugs; and (e) beginning with cost reports for 2012, requires audits of cost reports as required by the Medicare Payment Advisory Commission.

In the October 29, 2015 final rule mentioned above, which updated payment policies and rates under the ESRD PPS for renal dialysis services furnished on or after January 1, 2016, CMS also clarified that once a nonoral version of a previously oral-only drug, such as phosphate binders and calcimimetics, is approved by the Food and Drug Administration (FDA), such drug will cease to be considered oral-only. At such time, CMS will include both the oral and any nonoral version of the drug in the ESRD PPS, subject to a phase-in period: for at least two years after FDA approval, CMS will pay for both oral and nonoral versions of the drug using a transition drug add-on payment adjustment. During this period, CMS will collect data reflecting utilization of both the oral and injectable or intravenous forms of the drugs, as well as payment patterns, in order to determine the appropriate payment rate to be included in the ESRD PPS for these drugs. At the end of this transition period, CMS will add payment for the oral and nonoral versions of the drug into the ESRD PPS through public rulemaking process similar to that used to set annual ESRD PPS rates.

In addition to the statutes described above, which directly addressed rates or the particular items and services described in dialysis providers’ PPS reimbursement, the *Patient Protection and Affordable Care Act*, as amended by the *Health Care and Education Reconciliation Act of 2010* (also known as the Affordable Care Act, or ACA) mandates broad healthcare system reforms. Among these reforms,

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

the ACA requires: (i) provisions to facilitate access to affordable health insurance for all Americans; (ii) expansion of the Medicaid program; (iii) commercial insurance market reforms that protect consumers, such as bans on lifetime and annual limits, coverage of pre-existing conditions, and limits on waiting periods; (iv) provisions encouraging integrated care, efficiency and coordination among providers; and (v) provisions for reduction of healthcare program waste and fraud. These provisions have been and continue to be implemented through federal and state regulations which have the potential to affect the Company's business. Moreover, private organizations such as health plans continue to make changes in their business practices as a result of the ACA, and these changes have the potential to affect the Company's business.

Revenue associated with commercial health plans is estimated based upon patient-specific contractual terms between the Company and health plans for the patients with which the Company has formal agreements, upon commercial health plan coverage terms if known, or otherwise upon historical collection experience adjusted for refund and payment adjustment trends. Commercial revenue recognition involves substantial judgment. With several commercial insurers, the Company has multiple contracts with varying payment arrangements, and these contracts may include only a subset of the Company's dialysis centers. In addition, for services provided by noncontracted centers, final collection may require specific negotiation of a payment amount. Generally, payments for a dialysis treatment from commercial payors are greater than the corresponding amounts received from Medicare and Medicaid.

(p) *Share-Based Compensation*

The Company recognizes and accounts for stock-based compensation in accordance with the fair value recognition of Accounting Standards Codification (ASC) Topic 718, *Stock Compensation*. In conjunction with the 2012 Transaction, the Parent issued Class B Incentive Units to certain members of Company management as incentive compensation.

The Company did not grant any additional Class B Incentive Units during the years ended December 31, 2015 and 2014.

The fair value of each Incentive Unit grant is estimated on the date of grant and is determined from a valuation that used the Monte Carlo Simulation model. The Company currently estimates forfeitures based on the length of service of the employees to the Company and historical termination rates of the employee groups who have been granted Incentive Units.

(q) *Noncontrolling Interest*

Noncontrolling interest is required to be included in the equity section of the balance sheet and disclosed on the face of the consolidated statement of operations for the amounts of consolidated net income attributable to the consolidated parent and the noncontrolling interest.

Consolidated income (loss) is reduced (increased) by the proportionate amount of income or loss accruing to noncontrolling interests. Noncontrolling interest represents the equity interest of third-party owners in consolidated entities that are not wholly owned.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

(r) *Investments in Unconsolidated Affiliates*

The Company has a noncontrolling investment in seven dialysis businesses, all of which are accounted for under the equity method of accounting. The investments in unconsolidated businesses were approximately \$18 million and \$21 million at December 31, 2015 and 2014, respectively.

On December 31, 2015, the Company sold its 20% interest in two noncontrolling investments for \$0.6 million and recognized a loss on the sale of \$1.8 million.

(s) *Income Taxes*

Income taxes are accounted for under the asset-and-liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to the differences between the financial statement carrying amount of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established when it is more likely than not that the deferred tax assets will not be realized.

The Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. There were no unrecognized tax benefits as of December 31, 2015 and 2014.

The Company is subject to income taxes in the U.S. federal jurisdiction and various states. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. The Company is no longer subject to U.S. federal, state, or local income tax examinations by tax authorities for the years before 2012. In 2014, the IRS commenced its examination of the Company's 2011 U.S. Corporation Income Tax Return, which resulted in no additional tax payment. In 2014, the IRS commenced its examination of the 2011 U.S. Return of Partnership Income for the Company's subsidiary USRC of SE Arkansas, LLC and has agreed to a proposed income adjustment of \$0.3 million related to dividend income. In 2015, a payment was made by the Company to settle the audit adjustment and the audit is now closed. In January 2015, the IRS commenced its examination of the 2012 U.S. Return of Partnership Income of the Company's subsidiary Renal Centers of Guam, LLC and the examination resulted in no changes.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

In August 2015, the New York State Department of Taxation and Finance commenced its examination of the Company's 2011–2014 New York State income tax returns along with Rangers Renal Intermediate Holdings, Inc., and the Company's subsidiaries USRC Cheektowaga, Inc., USRC Tonawanda, Inc. and USRC Williamsville, Inc. In October 2015, the IRS commenced its examination of the 2013 U.S. Corporation Income Tax Return of Rangers Renal Intermediate Holdings, Inc. In January 2016, the California Franchise Tax Board commenced its examination of the 2012 and 2013 California LLC tax returns for the Company's subsidiary, Pacific South Bay Dialysis, LLC. All examinations are still ongoing.

The Company recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses for all periods presented.

The Company's consolidated LLC and L.P. subsidiaries do not incur federal income taxes. Instead, their earnings and losses are included in the returns of, and taxed directly to, the members and partners of these subsidiaries.

(t) **Recently Issued Accounting Pronouncements**

The Company elected to early adopt Accounting Standards Update (ASU) No. 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Cost*, retrospectively effective as of January 1, 2014. The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. In August 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-15, *Interest – Imputation of Interest (Subtopic 835-30) – Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements*, which clarifies that the treatment of debt issuance costs related to a line-of-credit may continue to be deferred in an asset position and subsequently amortized over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The Company recorded \$71 million and \$23 million of debt issuance costs as deductions from the carrying value of the debt liability in the accompanying consolidated balance sheets as of December 31, 2015 and 2014, respectively. The Company recorded \$1 million and \$2 million as intangible assets related to debt issuance costs associated with a line-of-credit in the accompanying consolidated balance sheets as of December 31, 2015 and 2014, respectively.

The Company elected to early adopt ASU No. 2015-17, *Income Taxes (ASC 740): Balance Sheet Classification of Deferred Taxes*, retrospectively effective as of January 1, 2014. The amendments in this ASU serve to simplify the presentation of deferred income taxes. The update requires that deferred tax assets and liabilities be classified as noncurrent in a classified statement of financial position. As a result, the Company reclassified \$3.8 million of net deferred tax assets as noncurrent in the accompanying consolidated balance sheet as of December 31, 2014.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. The amendments in this ASU revise the accounting related to lessee accounting. Under the new guidance, lessees will be required to recognize a lease liability and a right-of-use asset for all leases. The new lease guidance also simplified the accounting for sale and leaseback transactions primarily because lessees must recognize lease assets and lease liabilities. The amendments in this ASU are effective for the Company beginning on January 1, 2020 and should be applied through a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. Early adoption is permitted. The Company has not yet determined what the effects of adopting this ASU will be on the consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard was to be effective for the Company on January 1, 2018. In July 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of Effective Date*. This guidance approves a one-year deferral of the effective date of ASU 2014-09. The final ASU now requires the Company to adopt this standard on January 1, 2019. Early application is permitted as of the initial effective date of January 1, 2018, but not prior to that date. The standard permits the use of either the retrospective or cumulative effect transition method. The Company has not yet selected a transition method nor determined the effect of the standard on our ongoing financial reporting.

(u) *Reclassifications*

Certain reclassifications have been made to the 2014 consolidated financial statement balances to conform with the 2015 presentation. Such reclassifications have no effect on earnings or stockholders' equity.

(2) **Fixed Assets**

At December 31, 2015 and 2014, property and equipment consists of the following:

	2015	2014
Facility equipment, furniture, and information systems	\$ 132,722	75,700
Land and buildings	3,443	2,490
Leasehold improvements	142,140	82,254
New center construction in progress	15,361	2,727
	293,666	163,171
Less accumulated depreciation and amortization	(69,305)	(43,302)
	<u>\$ 224,361</u>	<u>119,869</u>

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

	<u>2015</u>	<u>2014</u>
Depreciation and amortization expense on property and equipment	\$ 27,681	22,186

Net book value of equipment under capital leases at December 31, 2015 and 2014 was as follows:

	<u>2015</u>	<u>2014</u>
Equipment	\$ 12,098	11,107
Less accumulated depreciation	(5,866)	(4,764)
	<u>\$ 6,232</u>	<u>6,343</u>

(3) Acquisitions and Dispositions

(a) *Dialysis Holdco, LLC*

On August 21, 2015, Holdings entered into a Contribution Agreement (the DSI Merger) with Dialysis Parent, LLC (Dialysis Parent). Dialysis Parent was the legal and beneficial owner of all of the issued and outstanding membership interests of Dialysis HoldCo, LLC whose sole operating subsidiary was Dialysis Newco, Inc. doing business as DSI Renal (DSI).

DSI owned and operated 103 dialysis facilities providing care to end-stage renal disease patients.

The DSI Merger was completed on December 31, 2015, whereby Dialysis Parent contributed and Holdings acquired all of the outstanding membership interests of DSI in exchange for equity in Holdings valued at \$645.6 million.

In connection with the DSI Merger, the Company repaid in full all long-term debt previously held by DSI (note 6(a)).

The DSI Merger was accounted for under the acquisition method of accounting prescribed in ASC 805. The purchase price was allocated to the assets, liabilities, and noncontrolling interests based on the estimated fair values on the date of acquisition, with the remainder allocated to goodwill. Goodwill in the amount of \$969.6 million was recognized in 2015 for the DSI Merger. The purchase price allocation is preliminary pending final review of the third-party valuation report and certain estimates primarily related to accounts receivable and income taxes.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

A summary of the estimated fair values of the assets and liabilities assumed in the DSI Merger are as follows:

Estimated fair value of net tangible assets acquired:

Cash	\$	73,043
Patient receivables		56,308
Assets held for sale		6,551
Other current assets		19,116
Property and equipment		94,514
Other assets		632
Current liabilities		(42,658)
Long-term debt		(512,709)
Deferred tax liability		(53,730)
Other long-term liabilities		(5,628)
Noncontrolling interests		(71,665)
Net tangible assets acquired		(436,226)
Intangible assets acquired		112,286
Goodwill		969,571
	\$	<u>645,631</u>

(b) Alaska

On September 15, 2014, the Company acquired a 58.5% interest in two joint ventures providing outpatient dialysis services in Alaska: Liberty Dialysis-Alaska, LLC (Liberty) and AD Partners II, LLC (AD Partners) for \$72.1 million, subject to adjustments for working capital. Both Liberty and AD Partners each wholly own one clinic. Additionally, AD Partners owns a noncontrolling interest in four clinics. The acquisition was funded by additional long-term debt borrowings. The results of operations for these entities are included in the Company's financial statements beginning September 15, 2014.

The acquisition of Alaska was accounted for under the acquisition method of accounting prescribed in ASC 805. The purchase price was allocated to the assets, liabilities, and noncontrolling interests based on the estimated fair values on the date of acquisition, with the remainder allocated to goodwill. Goodwill in the amount of \$93.5 million was recognized in 2014 for the acquisition. Approximately \$63.1 million of the goodwill recorded as a result of the acquisition is deductible for tax purposes. The Company's allocation of the purchase price is complete.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

A summary of the estimated fair values of the assets and liabilities assumed in the acquisition are as follows (in thousands):

Estimated fair value of net tangible assets acquired:

Cash	\$	2,334
Patient receivables		6,327
Other current assets		246
Property and equipment		4,677
Other assets		10,577
Current liabilities		(2,788)
Long-term debt		(910)
Other long-term liabilities		(423)
Noncontrolling interests		(46,667)
Net tangible assets acquired		(26,627)
Intangible assets acquired		5,240
Goodwill		93,492
	\$	<u>72,105</u>

(c) ***Innovative Health Services (IHS)***

The Company entered into a Contribution and Asset Purchase Agreement (the IHS Agreement), dated November 12, 2014, with IHS of Georgia, LLC, IHS of Massachusetts, LLC, and IHS of New York, Inc. (collectively, the IHS entities), which are wholly owned subsidiaries of IHS Dialysis, Inc. The IHS entities are engaged in the business of providing hemodialysis, peritoneal dialysis, and related services through the operation of four freestanding dialysis centers in Massachusetts and New York. The closing date of the IHS Agreement is dependent upon the state of New York and Massachusetts approving the Certificate of Need. Upon the closing date of the IHS Agreement, the Company will purchase 70% of the interest in the IHS entities for approximately \$16.8 million, subject to adjustments for working capital. Approximately, \$15.9 million of the purchase price is currently held in escrow and included in other receivables in the accompanying consolidated balance sheet as of December 31, 2015.

On December 1, 2014, the Company entered into management agreements with each of the IHS entities. Management fees earned by the Company of \$1.5 million and \$0.1 million are included in net operating revenue in the accompanying consolidated statement of operations for the years ended December 31, 2015 and 2014, respectively.

On April 6, 2015, an amendment to the IHS Agreement was entered into by the Company and the IHS entities, in which it was agreed that the assets and liabilities of IHS of Georgia, LLC would not be included in the asset purchase.

The IHS Agreement closed on April 13, 2016 (note 14).

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

(4) Noncontrolling Interests

The Company engages in the purchase and sale of equity interests with respect to its consolidated subsidiaries that do not result in a change of control. These transactions are accounted for as equity transactions, as they are undertaken among the Company, its consolidated subsidiaries, and noncontrolling interests, and their cash flow effect is classified within financing activities.

As of December 31, 2015, the Company was the majority owner in 188 joint ventures. Of the noncontrolling interests in those 188 joint ventures, 75 have put rights generally at fair value as defined in the agreement that are either currently exercisable or become exercisable at various future dates. The Company also has a noncontrolling interest in 3 joint ventures with put rights held by the majority owners. The carrying amount of these redeemable noncontrolling interests totaled \$80.0 million and \$152.9 million as compared to redemption values of \$184.6 million and \$255.9 million at December 31, 2015 and 2014, respectively. The redemption value is calculated at the current value of the put payment that would be required to redeem the interest if the put is exercised regardless of whether such interest is currently exercisable. As of December 31, 2015, \$115.7 million of put rights are currently exercisable and the remaining \$68.9 million generally become exercisable over the next three to five years.

(5) Intangible Assets

At December 31, 2015 and 2014, amortizable intangible assets consisted of the following:

	2015	2014
Noncompetition agreements	\$ 180,604	74,905
Lease agreements	3,236	1,117
Deferred debt issuance costs	1,015	2,043
Trade name	2,881	1,582
	<u>187,736</u>	<u>79,647</u>
Less accumulated amortization	<u>(55,778)</u>	<u>(42,960)</u>
Net amortizable intangible assets	\$ <u>131,958</u>	<u>36,687</u>

Amortizable intangible liabilities, which are included in other long-term liabilities, consisted of lease agreements as follows:

	2015	2014
Lease agreements	\$ 6,473	3,753
Less accumulated amortization	<u>(2,246)</u>	<u>(1,569)</u>
Net amortizable intangible liabilities	\$ <u>4,227</u>	<u>2,184</u>

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

Amortization of intangible assets and liabilities over the next five years is as follows:

	Noncompetition agreements	Deferred debt issuance costs	Lease agreements, net	Trade name
2016	\$ 34,978	203	682	576
2017	31,937	203	393	486
2018	26,897	203	231	351
2019	25,940	203	105	260
2020	2,792	203	42	260

The fair value of the identifiable intangibles acquired and the amount of goodwill recorded as a result of acquisitions are determined based upon independent third-party valuations and the Company's estimates. Amortization expense for the Company's intangible assets relates to the value associated with the noncompete agreements, lease agreements, and acquired trade names. The noncompete intangible assets are amortized over the term of the noncompete agreements executed in connection with the acquisition transactions or the medical agreements entered into with certain physicians and the lease agreement intangibles are amortized over the term of the lease. The acquired trade names are amortized over their estimated remaining useful life of five years. Other intangibles of \$15 million consist of the U.S. Renal Care, Inc. trade name valued at \$7.4 million and Medicare licenses valued at \$7.6 million, both of which have indefinite lives.

Changes in the value of goodwill were as follows:

	2015	2014
Balance at January 1	\$ 1,264,143	1,174,683
DSI Merger	969,571	—
The Alaska transaction	—	93,492
Other acquisitions	192	396
Other adjustments	—	(4,428)
Balance at December 31	<u>\$ 2,233,906</u>	<u>1,264,143</u>

The Company paid \$0.2 million and \$0.4 million for other facility acquisitions resulting in \$0.2 million and \$0.4 million and of goodwill recorded as a result of the acquisitions in 2015 and 2014, respectively.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

(6) Long-Term Debt

At December 31, 2015 and 2014, long-term debt and capital lease obligations consisted of the following:

Senior secured credit facility:		
Term Loan 1	\$ 1,750,000	926,355
Term Loan 2	265,000	120,000
Incremental term loan	—	185,000
Other notes payable	3,699	—
Capital lease obligations	6,499	7,086
Total debt principal outstanding	2,025,198	1,238,441
Discount and deferred financing costs	(71,041)	(23,433)
Less current portion	(18,945)	(11,221)
	<u>\$ 1,935,212</u>	<u>1,203,787</u>

(a) Term Loans

On December 31, 2015, in connection with the DSI Merger (note 3(a)), the Company entered into a new \$1.9 billion senior secured term loan, consisting of: (a) a \$1.75 billion first lien Term Loan (Term Loan 1) and (b) a \$150 million first lien Revolving Loan (Revolver). Also on December 31, 2015, the Company entered into a \$265 million senior secured second lien term loan (Term Loan 2). The proceeds obtained under Term Loan 1 and Term Loan 2 were utilized to (a) fund the repayment in full of all prior long-term debt obligations (note 6(e)), (b) pay the original issue discounts and upfront fees associated with Term Loans 1 and 2, (c) fund the repayment in full of all long-term debt previously held by DSI in the amount of \$521 million and a prepayment penalty in the amount of \$1.6 million, and (d) pay transaction expenses related to the DSI Merger.

Term Loan 1 requires quarterly amortization payments of \$4.4 million in each year from 2016 through 2022 with the balance of \$1.6 billion due at maturity on December 31, 2022. Term Loan 2 requires a one-time payment of \$265 million at maturity on December 31, 2023. At December 31, 2015, there were \$146.7 million of commitments unused and available under the Revolver due to Letters of Credit in the amount of \$3.3 million issued in relation to the Company's workers' compensation coverage. The Revolver matures on December 31, 2020.

Borrowings under Term Loan 1 bear interest based upon the Intercontinental Exchange London Interbank Offered Rate (ICE LIBOR), with a floor of 1% plus an applicable rate of 4.25%. The Revolver also provides for an annual unused commitment fee of 0.50% based upon the average revolving credit commitment less outstanding borrowings on the Revolver and letters of credit, as adjusted based upon the Company's leverage ratio. As of December 31, 2015, borrowings under Term Loan 1 and the Revolver bore interest at 5.25% and 3.25%, respectively.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

Borrowings under Term Loan 2 bore interest based upon the ICE LIBOR with a floor of 1% plus an applicable rate of 8%. As of December 31, 2015, borrowings under Term Loan 2 bore interest at 9%.

In connection with Term Loans 1 and 2, the Company paid original issue discounts of \$22.8 million and incurred \$48.2 million of debt issuance costs. These amounts are recognized as direct deductions from long-term debt and are being amortized into interest expense. The Company incurred \$1 million of debt issuance costs related to the Revolver, which are currently recognized as an intangible asset and amortized into interest expense.

(b) Prepayments

Commencing with the fiscal year ending December 31, 2016, the Company is required to prepay its outstanding Term Loan 1 with 50% of excess cash flow in excess of \$15 million as defined in the credit agreement, as adjusted based on the Company's leverage ratio. The Company is also required to prepay Term Loan 1 with: (a) 100% of the proceeds of certain asset sales or the proceeds received from casualty event settlements that are not reinvested or permitted pursuant to the terms of the credit agreement, and (b) 100% of the proceeds of indebtedness that is incurred and not permitted pursuant to the credit agreement. Following satisfaction of any prepayment of Term Loan 1 or if the lenders of Term Loan 1 decline prepayments, the Company is required to prepay Term Loan 2 balance with 100% of the proceeds of asset sales or the proceeds received from a casualty event settlement that are not reinvested or permitted pursuant to the terms of the credit agreement.

At December 31, 2015, the Company had no prepayments required under these provisions.

(c) Guarantors

Term Loan 1, Term Loan 2, and the Revolver are guaranteed, on a joint and several basis, by each of the Company's subsidiaries, subject to certain exceptions. Borrowings under the credit agreements are secured by substantially all of the Company's and its subsidiaries' assets, including accounts receivable, inventory, and fixed assets not subject to permitted capital leases. The lien-securing Term Loan 2 is junior and subordinated to the lien securing Term Loan 1 and the Revolver. The Term Loan 1 and Term Loan 2 credit agreements include various events of default and contain certain restrictions on the operations of the business, including restrictions on certain cash payments, including capital expenditures, investments, and the payment of dividends. These loan agreements also include customary covenants and events of defaults. The Revolver also includes a covenant pertaining to total debt leverage, which is only in effect if the Company has more than \$25 million outstanding pursuant to the Revolver.

The Company believes it is in compliance with all covenants under Term Loans 1 and 2 and has met all debt payment obligations as of December 31, 2015.

(d) Long-Term Debt Extinguished

On December 31, 2015, the Company repaid in full, all outstanding principal and interest amounts on the then outstanding long-term debt obligations of the Company with the proceeds from Term Loan 1 and Term Loan 2 as discussed in note 6(a).

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

The principal amounts repaid and associated prepayment penalty and unamortized debt issuance costs written off were as follows:

	<u>Outstanding principal</u>	<u>Prepayment penalty</u>	<u>Write-off of unamortized debt issuance costs</u>	<u>Interest rate</u>
Term Loan 1	\$ 919,319	—	8,651	5.75%
Term Loan 2	120,000	—	3,392	11.50
Incremental term loan	185,000	1,850	6,145	10.00
Revolver	—	—	1,057	4.50
Total	<u>\$ 1,224,319</u>	<u>1,850</u>	<u>19,245</u>	

The prepayment penalty and write-off of unamortized debt issuance costs were recognized as losses on early retirement of debt.

On August 12, 2013, the Company received a \$165 million capital contribution from Parent. The capital contribution came from the net proceeds of a third-party loan (Holdco Loan) entered into by Intermediate Holdings, the holder of 100% of Parent's equity interests. In 2015 and 2014, the Company paid dividends of approximately \$23 million and \$10 million, respectively, to Parent (and Parent thereafter paid a dividend of approximately \$23 million and \$10 million, respectively, to Intermediate Holdings). The proceeds of this dividend were used by Intermediate Holdings to pay interest on the Holdco Loan. On December 31, 2015, the Company paid a dividend in the amount of approximately \$182 million to Parent (and Parent thereafter paid a dividend of approximately \$182 million to Intermediate Holdings) to repay in full all principal amounts outstanding under the Holdco Loan and a prepayment penalty of \$1.8 million.

(e) Other Notes Payable

At December 31, 2015, the Company's joint ventures held \$3.7 million of notes payable with third party banks.

The Company had one promissory note obligation owed to a noncontrolling interest holder in one of its subsidiaries. The note obligation was in an original amount of \$5 million and bore interest at 3.25%. The principal balance of \$5 million and all accrued interest of \$0.1 million were repaid in full on June 30, 2014.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

Scheduled maturities of long-term debt and capital lease obligations at December 31, 2015 were as follows:

	<u>Long-term debt</u>	<u>Capital lease obligations</u>	<u>Notes payable</u>
2016	\$ 17,500	1,774	963
2017	17,500	1,536	983
2018	17,500	1,228	874
2019	17,500	987	596
2020	17,500	799	283
Thereafter	1,927,500	1,256	—
	<u>\$ 2,015,000</u>	<u>7,580</u>	<u>3,699</u>
Less interest portion at 5.040%–8.561%		(1,081)	
Total		<u>\$ 6,499</u>	

(7) **Income Taxes**

Income tax expense (benefit) consisted of the following:

	<u>2015</u>	<u>2014</u>
Current:		
Federal	\$ 5,249	12,590
State	(384)	8,074
Deferred:		
Federal	12,987	11,163
State	7,387	(1,055)
	<u>\$ 25,239</u>	<u>30,772</u>

The difference between the expected tax expense based on the federal statutory rate of 35% is primarily state income taxes, income attributable to noncontrolling interest, and an increase in the valuation allowance for deferred tax assets related to a foreign tax credit.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

Deferred tax assets and liabilities arising from temporary differences were as follows:

	<u>2015</u>	<u>2014</u>
Deferred tax assets:		
Accrued expenses and other liabilities for financial accounting purposes not currently deductible	\$ 8,087	9,877
Net operating loss carryforwards and contribution limitation	8,514	7,063
Alternative minimum and foreign tax credits	7,057	3,220
Flow through entities	—	670
Capital gain	16,076	18,819
Other	387	55
Total deferred tax assets	<u>40,121</u>	<u>39,704</u>
Valuation allowance	<u>(14,291)</u>	<u>(20,262)</u>
Total deferred tax assets, net	<u>25,830</u>	<u>19,442</u>
Deferred tax liabilities:		
Property and equipment and intangibles, principally due to differences in depreciation and amortization	(91,786)	(19,067)
Flow through entities	(14,342)	—
Goodwill	—	(10,944)
Purchase accounting valuation adjustments	(5,354)	(4,826)
Other	(7,117)	(3,070)
Total deferred tax liabilities	<u>(118,599)</u>	<u>(37,907)</u>
Net deferred tax assets (liabilities)	<u>\$ (92,769)</u>	<u>(18,465)</u>

The Company recorded a valuation allowance of \$14.3 million on deferred tax assets related to capital losses and a foreign tax credit at December 31, 2015 as the Company does not believe it is more likely than not that this deferred tax asset will be realized.

(8) Equity

(a) Partner's Equity

The sole shareholder of the Company is the Parent that holds 100 shares of \$0.01 par value common stock in the Company. The Parent is a wholly owned subsidiary of Intermediate Holdings, which in turn is a wholly owned subsidiary of Holdings.

Prior to December 31, 2015, Holdings equity included Class A Units and Holdings could grant incentive units as compensation to employees of the Company. Incentive unit meant any award of Class B-1, Class B-2, Class B-3, or Class B-4 Units in Holdings granted to an eligible person under the 2012 Incentive Plan (note 8(b)).

The Company did not grant any additional Class B Incentive Units during the years ended December 31, 2015 and 2014.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

On December 31, 2015, in connection with the DSI Merger, Holdings issued the Second Amended and Restated Limited Partnership Agreement of Rangers Renal Holdings LP (the Second Amended Agreement). Among other things, the Second Amended Agreement converted all outstanding Class B-1, Class B-2, Class B-3, and Class B-4 Units (Cancelled Class B Units) immediately prior to the effective date of the DSI Merger, to Class A Units (Converted Class A Units) at a value equivalent to the then outstanding Class A Units. The Converted Class A Units will continue to vest 20% annually from the original issue date of the Cancelled Class B Units, over a five-year period. No additional stock compensation expense was recorded as a result of the conversion.

Conversion rates of the Cancelled Class B Units to Converted Class A Units were as follows:

	Conversion rate
Class B-1	1.000000000
Class B-2	0.948400746
Class B-3	0.814460622
Class B-4	0.680530221

Distributions to Holdings shareholders in the form of cash or other assets shall be distributed in the following order and priority:

First, to each holder of Class A Units outstanding, in proportion to the number of such Class A Units held by each holder, until an aggregate amount equal to \$1.5 billion (the benchmark amount), has been distributed.

Thereafter, to each holder of Class A Units and Class C Units (note 8(b)) in proportion to the number of Class A Units and/or Class C Units held by each holder.

The weighted average fair value of unvested Incentive Units was \$385.16 and \$378.24 for the years ended December 31, 2015 and 2014, respectively.

Compensation expense related to the Incentive Units is being recorded on a straight-line basis over the vesting period and is considered contributed capital from the Parent.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

The following table summarizes the Incentive Unit transactions from years ended December 31, 2015 and 2014, including the Incentive Units that have vested:

	Converted Class A	Class B-1	Class B-2	Class B-3	Class B-4	Total
Unvested at December 31, 2013	—	12,980.102	3,708.597	5,562.900	3,708.597	25,960.196
Granted	—	—	—	—	—	—
Vested	—	(3,162.895)	(903.683)	(1,355.526)	(903.683)	(6,325.787)
Forfeited	—	—	—	—	—	—
Unvested at December 31, 2014	—	9,817.207	2,804.914	4,207.374	2,804.914	19,634.409
Granted	—	—	—	—	—	—
Vested	—	(3,162.895)	(903.683)	(1,355.526)	(903.683)	(6,325.787)
Forfeited	—	—	—	—	—	—
Class B conversion	12,074.001	(6,654.312)	(1,901.231)	(2,851.848)	(1,901.231)	(1,234.621)
Unvested at December 31, 2015	<u>12,074.001</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>12,074.001</u>

The total fair value of outstanding (either vested or unvested) Incentive Units as of December 31, 2015 is approximately \$9 million and is equal to the total compensation expense recorded or to be recorded over the vesting period on the Incentive Units. The Company uses the straight-line method to recognize compensation expense over the vesting term of the Incentive Units. The total fair value of Incentive Units vesting and recognized as stock-based compensation expense within general and administrative expenses in the accompanying consolidated statement of operations was \$1.8 million for the years ended December 31, 2015 and 2014.

The remaining unrecognized stock-based compensation expense for Incentive Unit awards granted as of December 31, 2015 was approximately \$3.1 million, and the weighted average period of time over which this cost will be recognized is approximately 1.62 years.

(b) 2016 Incentive Equity Plan

On January 29, 2016, Holdings issued the 2016 Rangers Renal Holdings Incentive Equity Plan (2016 Incentive Plan). Under the 2016 Incentive Plan, incentive units (Incentive Units) may be granted by Holdings as compensation to employees of the Company and its subsidiaries or others as the Board of Directors of Holdings may determine. The 2016 Incentive Plan is subject to the LP Agreement of Holdings, with applicable terms and provisions of the LP Agreement governing. The 2016 Incentive Plan shall terminate as to future awards ten years after the effective date, or January 29, 2026.

Incentive unit means any award of Class C Units of Holdings granted to an eligible person under the 2016 Incentive Plan. Incentive Units are granted as compensation with the intention to promote the interests of the Company by providing eligible persons with the opportunity to acquire interest, or otherwise increase their interest, in Holdings as an incentive for them to start employment with or continue in such employment or service to the Company. Recipients do not have to pay for the Incentive Units. All Incentive Units vest 20% annually from the date of grant, over a five-year period, and are initially unvested at the date of grant.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

There is no exercise option or price for the recipient and ultimate vesting is based on the holder's employment with the Company or service capacity to the Company. All Incentive Units unvested and outstanding at the time of a change in control, as defined in the LP Agreement of Holdings, shall automatically become vested Incentive Units. Forfeited or canceled Incentive Units (Forfeited Unit) become eligible for reissuance by Holdings and upon reissuance shall no longer constitute a Forfeited Unit. A total of 29,379.6031 Incentive Units were reserved for grant under the 2016 Incentive Plan.

(9) Shareholder Dividend

On March 28, 2014, the board of directors of the General Partner authorized the payment of a dividend (2014 Dividend) by the Company in the amount of \$255 million to the Parent, which then paid a dividend in the amount of \$255 million to Intermediate Holdings, which then paid a dividend in the amount of \$250 million to Holdings. Intermediate Holdings then paid \$5 million for certain fees payable in connection with borrowings under the Holdco Loan (note 6(d)). Holdings then distributed \$250 million in cash to the Holdings' shareholders.

(10) Related-Party Transactions

Participation in the Medicare ESRD program requires that treatment at a dialysis center be under the general supervision of a director who is a physician. The Company has engaged physicians or groups of physicians to serve as medical directors for each of its centers. The Company has contracts with approximately 330 individual physicians and physician groups to provide medical director services. The compensation of medical directors is negotiated individually and depends in general on local factors such as competition, the professional qualifications of the physician, their experience, their tasks, and the workload at the clinic.

An ESRD patient generally seeks treatment at a dialysis center near his or her home and at which his or her treating nephrologist has practice privileges. Additionally, many physicians prefer to have their patients treated at dialysis centers where they or other members of their practice supervise the overall care provided as medical directors to the centers. As a result, and as is typical in the dialysis industry, the primary referral source for most of the Company's centers is often the physician or physician group providing medical director services to the center.

The Company's medical director agreements generally include covenants not to compete. Also, when the Company acquires a center from one or more physicians, or where one or more physicians owns interests in centers as coowners with the Company, these physicians have agreed to refrain from owning interests in competing centers within a defined geographic area for various time periods. These agreements not to compete restrict the physicians from owning or providing medical director services to other dialysis centers. Most of these agreements not to compete continue for a period of time beyond expiration of the corresponding medical director agreements.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

The Company leases space for 57 of its centers in which physicians or employees hold ownership interests, and subleases space to referring physicians at 38 centers. Future minimum lease payments payable under these leases is approximately \$70 million at December 31, 2015, exclusive of maintenance and other costs, and is subject to escalation. Total lease payments under these leases were approximately \$6 million and \$4.9 million for years ended December 31, 2015 and 2014, respectively. On June 21, 2010, the Company entered into a 10-year corporate office lease agreement with an entity owned by two of its employees. The lease commenced on August 1, 2011. The future lease payments payable under this lease are \$2 million. Total lease payments under this lease were \$0.2 million for the years ended December 31, 2015 and 2014.

The Company's York, Pennsylvania dialysis center is leased from a limited liability partnership in which the Company has a 60% ownership interest with the remaining 40% owned by two doctors one of whom serves as the medical director for that facility. These doctors are also affiliated with the entity that owns a 40% minority ownership in the subsidiary that operates the facility.

The Company's Rosemead, California dialysis center is leased from a limited liability company in which the Company has a 40% ownership interest with the remaining 60% owned by two doctors one of whom serves as the medical director for that facility. These doctors are also affiliated with the entity that owns a 20% minority ownership in the subsidiary that operates the facility.

Some referring physicians (including medical directors in some cases) also own equity interests in entities that operate the Company's dialysis centers.

The Company believes that the leases and equity purchases are no less favorable to the Company and no more favorable to such physicians than would have been obtained in arm's-length bargaining between independent parties.

The Company had one promissory note obligation owed a noncontrolling interest holder in one of its subsidiaries that was paid in full during the year ended December 31, 2014 (note 6(e)).

The Company paid a related party affiliated through common ownership \$0.7 million and \$1 million for the years ended December 31, 2015 and 2014, respectively, for the usage of an airplane.

Larry Jones, President of Innovative Dialysis Systems, a Company subsidiary, has equity ownership in three entities operating dialysis centers in Los Angeles County, California, for which the Company provides management services: Canyon Country Dialysis, LLC; Santa Clarita Kidney Center, Inc.; and The Kidney Care Center of the North Valley, Inc.

A member of the Company's board of directors provides consulting services primarily related to regulatory and reimbursement matters. The total expenses incurred by the Company related to these services were \$0.2 million for the years ended December 31, 2015 and 2014.

Included in general and administrative expenses for the years ended December 31, 2015 and 2014 are management fees payable to affiliates of Leonard Green, Cressey, and SVLS, in the amount of \$1.5 million.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

(11) Legislation, Regulations, and Market Conditions

The Company's dialysis operations are subject to extensive federal, state, and local government regulations. These regulations require the Company to meet various standards relating to, among other things, the operation of dialysis clinics, the provision of quality healthcare for patients, maintenance of proper ownership and records, quality assurance programs, and occupational, health, safety, and environmental standards, and the provision of accurate reporting and billing to government and private payment programs. These laws are extremely complex, and in many instances, providers do not have the benefit of significant regulatory or judicial interpretation as to how to interpret and apply these laws and regulations in the normal course of conducting their business. Healthcare providers that do not comply with these laws and regulations may be subject to civil or criminal penalties, the loss of their licenses, or restriction in their ability to participate in various federal and state healthcare programs. The Company endeavors to conduct its business in compliance with applicable laws and regulations.

The Company's dialysis centers are certified (or are pending certification) by the Centers for Medicare and Medicaid Services, as is required for the receipt of Medicare payments, and are licensed and permitted by state authorities.

The Medicare and Medicaid Fraud and Abuse Amendments of 1977, as amended, generally referred to as the "antikickback statute," imposes sanctions on those who, among other things, offer, solicit, make, or receive payments in return for referral of a Medicare or Medicaid patient for treatment. The federal False Claims Act imposes penalties on those who, among other things, knowingly present a false or fraudulent claim for payment to the federal government. Another federal law, commonly referred to as the "Stark Law," prohibits physicians, with certain exceptions, from referring Medicare patients to entities with which the physician has a financial relationship, states have analogous statutes. The Health Insurance Portability and Accountability Act of 1996 (HIPAA), among other things, includes provisions relating to the privacy of medical information and prohibits inducements to patients to select a particular healthcare provider. Congress, states and regulatory agencies continue to consider modifications to federal and state healthcare laws. The Company's dialysis centers are also subject to various state hazardous waste and nonhazardous medical waste disposal laws.

As of December 31, 2015, the Company owned a majority interest in numerous dialysis related joint ventures. In addition to these majority owned joint ventures, the Company also had a noncontrolling ownership in seven dialysis related joint ventures. Many of these joint ventures have physicians or physician groups that provide medical director services to the clinics that are owned by these joint venture entities. Some of these same physicians may have a direct or indirect ownership in the joint ventures. Due to the fact that the Company's relationship with its physicians are governed by federal and state anti-kickback statutes, and other applicable law, every effort is made to structure the joint ventures the Company is involved with to satisfy such laws. Although the Company believes it is in compliance with all relevant statutes as it relates to these joint ventures, they are subject to government scrutiny.

Sanctions for violations of these statutes could result in the imposition of significant fines and penalties, repayments for patient services previously billed, expulsion from government healthcare programs, and other civil or criminal penalties. Management believes that the Company is in material compliance with applicable government laws and regulations.

U.S. RENAL CARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2015 and 2014

(Dollars in thousands, except share information)

(12) Profit-Sharing Plan

The Company has a savings plan for employees who meet certain criteria that have been established pursuant to the provisions of Section 401(k) of the Internal Revenue Code. The plan allows employees to contribute a defined portion of their compensation on a tax-deferred basis. Since January 1, 2005, the plan allows for defined-matching Company contributions for eligible employees. The plan was amended effective January 1, 2006 to allow vesting credit for prior years of service for employees of certain acquired businesses. The Company made matching contributions to the plan of \$2 million and \$1.6 million for the years ended December 31, 2015 and 2014, respectively.

The Company may also make discretionary profit-sharing contributions to the plan if approved by the board of directors. No such contributions were made in 2015 or 2014.

(13) Commitments and Contingencies

The Company may be subject to claims and suits in the ordinary course of business, including contractual disputes and professional and general liability claims. Based on the advice from legal counsel, management does not believe any amount from these claims or suits will be material to the financial statements. The Company has obligations to purchase the third-party interests in several of its joint ventures. These obligations are in the form of put provisions in joint venture agreements, and are exercisable at the third-party owners' discretion with some timing limitations. If these put provisions are exercised, the Company would be required to purchase the third-party owners' interests at fair market value (note 4).

The Company rents office space, medical facilities, and medical equipment under lease agreements that are classified as operating leases for financial reporting purposes. At December 31, 2015, the future minimum rental payments under noncancelable operating leases with terms of one year or more consist of the following:

2016	\$	48,658
2017		43,988
2018		38,119
2019		33,667
2020		29,546
Thereafter		101,267

Rent expense was \$32 million and \$29 million for the years ended December 31, 2015 and 2014, respectively.

(Dollars in thousands, except share information)

(14) Subsequent Events

The Company evaluated events subsequent to December 31, 2015 and through May 2, 2016 the date on which the consolidated financial statements were issued.

On January 1, 2016, the Company acquired a 60% interest in six joint ventures and a noncontrolling interest in four joint ventures providing outpatient dialysis services in Texas for \$52 million, subject to adjustments for working capital. The acquisition was funded with cash on hand and will be accounted for under the acquisition method of accounting prescribed in ASC 805.

On April 13, 2016, the IHS Agreement closed with an effective date of April 1, 2016 for IHS of Massachusetts, LLC and an effective date of April 4, 2016 for IHS of New York, Inc.

Financial Viability Waiver

Applicant need not submit financial viability ratios, because it is funding all project capital expenditures through internal resources.

Reasonableness of Project and Related Costs

USRC West Chicago, LLC

In accordance with 77 Ill. Admin. Code § 1120.140, I attest that there is no debt financing. Applicant will fund the Project completely with internal resources. In addition, entering into a lease is less costly than liquidating existing investments to construct the dialysis facility. If Applicant must pay off the lease in full, it could convert its existing retained investments and capital to cash or use them to retire the outstanding lease obligations, within a 60-day period.

James D. Shelton, Manager

Total Effect of the Project on Capital Costs	549,042	9,107	60.29

Safety Net Impact Statement

1. For the 3 fiscal years before the date of the Application, Applicant provided \$_____ of charity care. [NOTE: Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology the Board has specified.]

2. For the 3 fiscal years before the date of the Application, Applicant provided \$_____ in care to Medicaid patients. [NOTE: Hospital and nonhospital applicants shall provide Medicaid information in a manner consistent with the information they reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payer Source" and "Inpatient and Outpatient Net Revenue by Payer Source," as the Board requires under Section 13 of this Act and published in the Annual Hospital Profile.]

3. [Include any information that is directly relevant to safety net services, including information regarding teaching, research, and any other service.]

Charity Care

1. The chart below indicates the amount of charity care Applicant provided for the latest 3 audited fiscal years, the cost of charity care, and the ratio of that charity care cost to net patient revenue.
2. [NOTE: If the Applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If Applicant reports charity care costs on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.]
3. [NOTE: If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense, and projected ratio of charity care to net patient revenue by the end of its second year of operation.]
4. ["Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Applicant must provide Charity Care at its cost.]

Patient Referral Letters

VIA FEDERAL EXPRESS

Illinois Health Facilities & Services Review Board
525 W. Jefferson St., 2nd Floor
Springfield, IL 62761

To Whom It May Concern:

On behalf of Southwest Nephrology Associates, S.C., comprised of Drs. Obasi, Guglielmi, Thomas, Ahuja, McLaughlin, Patel, Selk, Desai, Raju and Onyenwenyi, and Advanced Practice Nurses Christine Sutich, APN/CNS, CNN, Lilla Wojciechowski, APN/ANP-BC and Latrina Dunn-Lenoir, APN, I am writing this letter in support of the certificate of need application for the proposed U.S. Renal Care West Chicago, LLC Dialysis facility.

Currently, we treat patients who receive their dialysis at the following facilities: Davita Beverly, Davita Mount Greenwood, Davita West Lawn, DSI Scottsdale, Fresenius Medical Care – Alsip, Fresenius Medical Care – Crestwood, Fresenius Medical Care – Marquette Park, Fresenius Medical Care – Mokena, Fresenius Medical Care – Oak Forest, Fresenius Medical Care – South Side, or who receive their dialysis through home modalities. Based on our records, we treated 190 ESRD patients in 2013, 174 ESRD patients in 2014, 171 ESRD patients in 2015, and 175 ESRD patients through first quarter of 2016, as reported to the Renal Network. Included as Table A is the patient count organized by year, patient zip code, and dialysis facility for the years 2013, 2014, 2015, and first quarter 2016. We anticipate that 10% of our existing hemodialysis patients will not require in-center hemodialysis services within 1 year due to a change in health status.

With respect to new patients referred for dialysis, in the year 2015 we referred 52 patients for hemodialysis. Table B is a patient count of newly referred patients, by facility and zip code.

Based upon a review of our 637 Pre-ESRD patients that currently are in Chronic Kidney Disease (CKD) Stages 3, 4 and 5, we anticipate referring 61 patients to the proposed U.S. Renal Care facility for dialysis in the two years following project completion, as demonstrated in Table C. While Applicant bases these estimates on the zip code of the patient's residence, Applicant will continue to respect a patient's choice in his or her dialysis provider.

We respectfully ask the Board to approve the U.S. Renal Care West Chicago, LLC CON application to provide in center hemodialysis services for this growing ESRD population in Cook County. Thank you for your consideration.

CERTIFICATION

To the best of my knowledge, I attest that all the information in this letter is true and correct and that no other applicant used these projected referrals to support its CON application.

Respectfully,

Signature 
Name: Ejikeme Obasi, M.D.

To: O'Neal, Danielle
Subject: FW: map lists for USRC
Attachments: Chatham (Chicago) Maps.pdf

Danielle, I am going to start forwarding USRC e-mails that need to be printed. If you have questions on which attachments/folders they belong to, please let me know! For some of them, we might have to set aside and figure it out together.

Subject: RE: map lists for USRC

Attached is the PDF of all of the maps for the Chatham (Chicago) list. It appears I was off and there were only two addresses(below) which were not found easily, I included the closest one I could find in the PDFs. And I enjoy working on these kind of random projects, it mixes things up and keeps it interesting! I will start working on the other list now.

Point A to 9202 South Chicago Avenue (closest found)
Point A to 95th Street & Colfax Avenue (closest found)

Subject: RE: map lists for USRC

If you wouldn't mind making a note or list the weird addresses for me via e-mail that should suffice. Just for the 3 or 4 that could not be found. It sounds like there's no need to make note on the others. And one pdf is great if it fits! I just saw your next e-mail, I don't need them in any particular order.

You are the best! Thank you so much for working on this strange project on day 1☺

Subject: RE: map lists for USRC

Hi,

For the Chicago list I noticed that while going through these some of the addresses were a little off, either the zip code was wrong or the word East or South were not needed for the search. A couple of them also could not be found, so I used the closest street number I could find (maybe about 3 or 4 on the list). Do you want these maps all combined into one PDF before being sent over?

Thanks!

This is perfect, thank you! I'm thinking now that these should show that facilities are *more* than 15 minutes away for purposes of this application, so it is safe to keep going with these lists. The point is to argue to the agency that we have a need for this facility in this location because there aren't other facilities right next to it. Thanks for being patient with me! Still learning everything☺

Hi,

I am working on the Chicago spreadsheet first and I just wanted to send over some of the first few ones I did to make sure they look ok. I know you said these are supposed to be showing less than 15 minutes but that's not what I have found the case to be for most of these so far. It doesn't look like there is an option to avoid the current traffic conditions either which may be effecting the timing, but most of them show light traffic conditions so I don't know if that is really adding extra minutes.

Subject: FW: map lists for USRC

Hi Lauren,

There are actually 2 separate applications, one for Chatham (Chicago), and another for a facility in Hickory Hills, so we need to create two separate piles of MapQuest printouts (or pdfs). I've attached the Point B addresses for each to this e-mail.

Point A for Chatham (excel named "Chicago") should be:

112 W 87th Street, Chicago, Illinois 60620

Point A for Hickory Hills should be:

9512-9644 S. Roberts Road, Hickory Hills, Illinois 60457

Please let me know if you have questions or want to chat before getting started. I'm available any time!

Thank you so much,
Erica
