RE: Project 16-031
Rush Oak Brook Surgery Center

Dear Mr. Constantino:

Please accept this letter on behalf of the above referenced applicant, in response to your September, 2016 request for additional information relating to the above referenced project.

ZIP Codes of Referring Physicians' Patients

Thirty-one physicians provided letters, indicating the number of outpatient surgical procedures they each performed in 2015, as well as the number of outpatient procedures they would have performed at the proposed ASTC, had it been available. Cumulatively, the physicians identified 10,949 patients, 6,174 of which would have been referred to the proposed ASTC.

As you are aware, all of the above-referenced physicians are members of either Rush University Medical Group ("RUMG") or Midwest Orthopaedics at Rush ("MOR") and all are Faculty members of Rush University Medical center ("RUMC"). Attached are 2015 ZIP Code-specific patient origin analyses for RUMG and MOR. In addition, each of the referral letters state that the referring physician estimates that 90+% of his/her referred patients will reside within 45 minutes of the site, the IDPH-designated service area.

Service Area Population

It is estimated that 90+% of the patients to be referred to the proposed ASTC will reside within the IDPH's designated geographic service area, which covers a major portion of the

metropolitan Chicago area. This estimate was made following discussions with representatives of RUMG and MOR familiar with their group's historical patient origin.

Driving Time

The identification of driving time to hospitals and other ASTCs, as well as the identification of the geographic service area ("GSA") use a 1.10 conversion factor to MapQuest estimates rather than the allowed 1.15 factor, to lend conservatism to the estimates. Using even the more conservative factor, the GSA extends north into Lake County, east to the Dan Ryan Expressway, south to Olympia Fields, and west into Kane County.

Surgery Times

Anticipated surgery times, by specialty, were identified based on historical outpatient surgery times at RUMC-affiliated facilities.

Payor Mix

The anticipated payor mix has changed, as a result of further analysis and an agreement reached by the members of Rush Oak Park Surgery Center. The members have agreed that the ASTC will adopt and abide by RUMC's charity care and financial assistance policies. In addition, the ASTC will enroll in Medicaid fee for service and managed care programs. The anticipated payor mix is now:

Commercial Insurance	70-74%
Medicare	20-24%
Medicaid	3-5%
Charity Care	1-2%
Self-Pay/Other	1-2%

Non-Discrimination

The ASTC will operate under RUMC's admissions, financial assistance and charity care policies (attached), and will not discriminate in the admission of patients in regard to race, ethnicity, nation of origin, age, sex, sexual orientation, payor, or ability to pay. In addition, the ASTC will, on an annual basis, evaluate Medicaid-sponsored programs, and participate in programs deemed reasonable by the ASTC, and with enrollees anticipated to seek care from members of the medical staff.

Terms of Debt Financing

Please refer to pages 49-56 of CON application 16-032.

Identification of Charges

A sample of procedure-specific anticipated charges, including some of the more common procedures to be performed in the ASTC was provided, rather than providing the anticipated charges associated with all procedures with the potential to be performed. This was done following consultation with State Agency staff, and due to the large number of procedures (the ASTC will be approved to provide procedures in nine surgical specialties) anticipated to be performed. Should the State Agency desire to review all anticipated charges, a full listing will be provided.

Thank you for the opportunity to address these issues. Should any additional information be required, please do not hesitate to contact me.

Sincerely,

Jacob M. Axel
President
