### Narrative Description

University Chicago Medical Center ("UCMC") and Ingalls Health System ("IHS") have entered into a Member Substitution Agreement (the "Agreement") subject to approval by the Illinois Health Facilities Review Board. Under this Agreement, subject to Review Board and other regulatory approvals, IHS would agree to affiliate its systems with UCMC (the "Affiliation").

IHS is a not-for-profit, integrated healthcare delivery system that has long served the Chicago South side by providing a variety of health care services, including one hospital and one ambulatory surgical treatment center within Illinois.

UCMC is a not-for-profit academic medical center whose operations include one hospital in Illinois and additional healthcare services.

Under this transaction, UCMC would become the sole corporate member of IHS and IHS would have representation on UCMC's Board of Directors. This transaction constitutes a "change in control" under the Review Board's regulations. This application is part of a package of two applications seeking Review Board approval for Certificate of Exemption ("COEs") for changes of ownership resulting from this transaction.

No new corporate entity will be formed as part of this transaction, however, after the closing IHS will change its name to "UCM Community Health & Hospital Division, Inc." Upon consummation of this transaction, UCMC will become the sole corporate member of IHS. Following consummation of the transaction, UCMC's Board of Directors will consist of up to fifty (50) members (excluding ex-officio members), with four (4) members to be designated by IHS.

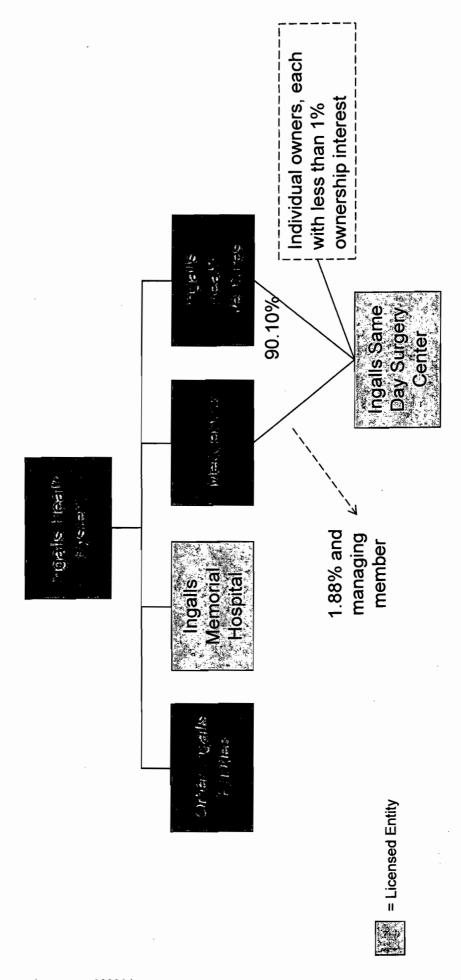

IHS, through its subsidiaries, currently operates the following two licensed health care facilities both of which will experience a change of control as a result of this transaction and require Review Board approval:

- 1. Ingalls Memorial Hospital (an acute care hospital owned and operated by The Ingalls Memorial Hospital, Inc., a direct subsidiary of IHS)
- 2. Ingalls Same Day Surgery Center (a joint venture owned 90.10% by two IHS subsidiaries and 9.90% by individual physicians)

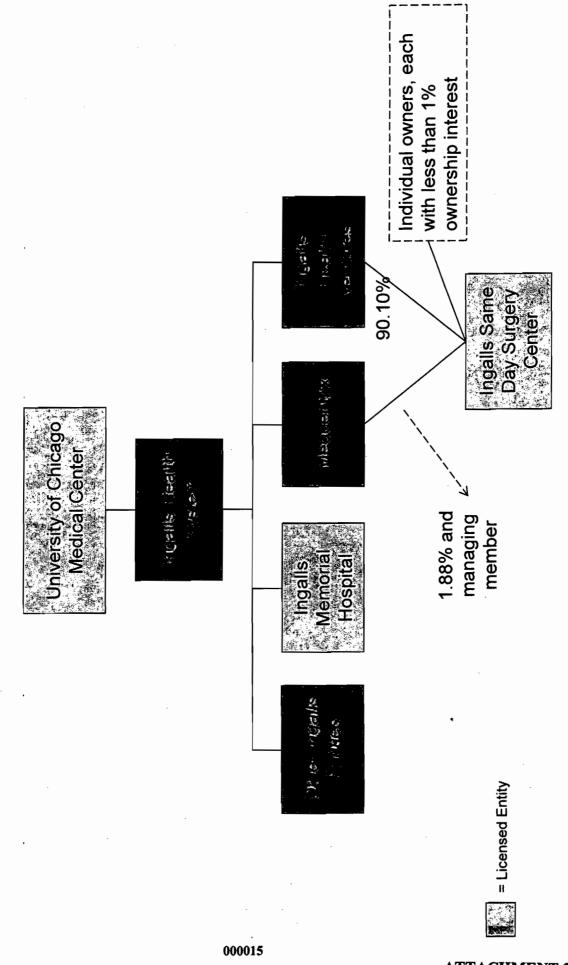

Neither the licensed entity of the health care facilities listed above, nor the legal entity that owns the physical plant of such facilities will change as part of the Affiliation.

There is no monetary consideration being exchanged between the parties as part of the Affiliation. The applicants have scheduled a September 30, 2016 closing, subject to obtaining regulatory approvals.

# Section 1130.520, Information Requirements for Change of Ownership of a Health Care Facility

- 1. <u>Affirmations</u>: In accordance with 77 <u>Ill. Adm. Code</u> §1130.520, the Applicants affirm the following:
  - a. The transaction documents contain a provision that execution is subject to the Review Board's approval.
  - b. No adverse action has been taken against any of the Applicants by the federal government, licensing or certifying bodies, or any other agency of the State of Illinois against any health care facility owned or operated by any of the Applicants, directly or indirectly, within the past three years.
  - c. Any Ingalls ASTC projects for which permits have been issued by the Review Board have been completed or will be completed or altered in accordance with the provisions of 77 Ill. Adm. Code §1130.520. Ingalls ASTC has no permits from the Review Board which have not been completed.
  - d. The Applicants understand that failure to complete the Affiliation in accordance with the applicable provisions of Section 1130.500(d) no later than 24 months from the date of exemption approval and failure to comply with the material change requirements of this Section will invalidate the exemption.

# 2. Statement as to the anticipated benefits of the proposed changes in ownership to the community.

The proposed transaction will create an integrated health care system focused on access, quality and service between two South Side organizations with complementary strengths – UCMC has expertise in complex care and research and Ingalls has expertise in high-quality care in the community hospital setting.

Through a strong combined network of physicians and facilities, the proposed transaction will promote greater access for patients across a continuum of health care, improve coordination and spur clinical innovation. UCMC and IHS will maximize the benefits of their combined scope and scale to jointly provide the highest quality of care to patients, to more effectively coordinate care, to manage population health in their communities and to improve health outcomes.

# 3. Statement as to the anticipated or potential cost savings, if any, that will result for the community and the facility as a result of the change in ownership.

The proposed transaction between UCMC and IHS will improve the value of health care in both service areas through economies of scale and corresponding financial savings, and by enabling the parties to more effectively implement new payment models, such as risk contracting and bundled payments.

Ingalls and UCMC's diverse set of assets, including a strong acute care base complemented by an extensive ambulatory care platform, a geographic spread of healthcare providers, strong interoperable information technology with extensive data acquisition and predictive modeling capabilities, and robust quality and safety programs, will help to facilitate their delivery of integrated health care and to achieve a lower cost platform.

The parties intend that the combined health system will maintain a strong financial operational model to generate the capital required to reinvest in infrastructure, programs and services in furtherance of the respective clinical missions. Additionally, the operational efficiency will be driven by LEAN management principles employed in each organization.

# 4. <u>Description of the facility's quality improvement program mechanism that will be</u> utilized to assure quality control.

UCMC and IHS share a longstanding commitment to a culture of quality, patient safety and service. By aspiring to the highest standards for quality and patient satisfaction, UCMC and IHS continue to advance the commitment to delivering care that is of the highest quality, is evidence based, and eliminates preventable harm.

It is anticipated that IHS will integrate its quality and safety plans with UCMC's quality and safety plans after the closing of the proposed transaction. UCMC's quality and safety plans are designed to align leadership, staff and resources to accomplish defined quality improvement and patient safety goals. UCMC's plans are supported and sustained through a robust data analytics program in order to measure internal performance and to benchmark against national peers. Annual goals are set to maintain UCMC's status as a national leader in quality, safety and experience. The goals consider key components of the national quality agendas, value and input from stakeholders both internal and external to the system including patients and their family members.

# 5. <u>Description of the applicant's organizational structure, including a listing of controlling or subsidiary persons.</u>
