DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- Substantive
 Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

Gottlieb Memorial Hospital ("Gottlieb"), Loyola University Health System ("LUHS"), and Trinity Health Corporation ("Trinity," and collectively with Gottlieb and LUHS, the "Applicants"), hereby seek a Certificate of Exemption ("COE") from the Illinois Health Facilities & Services Review Board (the "Board") to discontinue the obstetrics ("OB") category of service, including labor/delivery, postpartum, and neonatal services (collectively, the "OB Program"), at Gottlieb Memorial Hospital ("Gottlieb Memorial Hospital") because the demand for OB services at Gottlieb Memorial Hospital has steadily declined over the years. Following the discontinuation of the OB Program, Gottlieb Memorial Hospital will continue to provide gynecological services, emergency OB services through its Emergency Department, and will continue to meet the OB surgical on-call provisions required of Level II Trauma Centers set forth at 77 Il. Admin. § 515.2040(d)(4).

Gottlieb Memorial Hospital is located at 701 West North Avenue, Melrose Park, Illinois. Gottlieb Memorial Hospital currently has 27 licensed OB beds and 254 total licensed beds. In 2015, Gottlieb Memorial Hospital only served 930 OB patients, representing an average daily census of 5.38 patients in the OB Unit (well below the Board's target occupancy rate of 78% for OB beds).

Gottlieb Memorial Hospital's affiliate, Loyola University Medical Center ("LUMC"), is located just four (4) miles away and serves the same population and geographic region as Gottlieb Memorial Hospital. LUHS (which is the corporate parent of both Gottlieb Memorial Hospital and LUMC) intends to consolidate the OB Program at Gottlieb Memorial Hospital into the OB Program at LUMC.

LUMC is a Level III Perinatal Center with on-site subspecialty coverage, including board-certified maternal-fetal medicine physicians, neonatologists, and pediatric anesthesiologists.

Assuming that the Board approves the discontinuation of the OB Program at Gottlieb Memorial Hospital, the Applicants also seek permission from the Board to "convert" the 27 OB beds at Gottlieb Memorial Hospital into ■ medical/surgical beds.

Assuming that this COE Application is approved by the Board on or before December 6, 2016, the OB Program at Gottlieb Memorial Hospital will be discontinued on December 12, 2016. Assuming the Illinois Department of Public Health does not have to conduct a life-safety survey when OB beds are converted to medical/surgical beds, the converted ■ medical/surgical beds would also come on-line on December 12, 2016.

Pursuant to 77 Il. Admin. §1110.40(c)(1)(B)(ii), this Project is considered "Substantive."

This Project has no project costs.

Project Costs and Sources of Funds (N/A-Discontinuation of Services)

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

SECTION II. DISCONTINUATION

This Section is applicable to any project that involves discontinuation of a health care facility or a category of service. **NOTE:** If the project is solely for discontinuation and if there is no project cost, the remaining Sections of the application are not applicable.

Criterion 1110.130 - Discontinuation

READ THE REVIEW CRITERION and provide the following information:

GENERAL INFORMATION REQUIREMENTS

1. Identify the categories of service and the number of beds, if any, that is to be discontinued.
2. Identify all of the other clinical services that are to be discontinued.
3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.
4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.
5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued, and the length of time the records will be maintained.
6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 60 days following the date of discontinuation.

REASONS FOR DISCONTINUATION

The applicant shall state the reasons for discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

IMPACT ON ACCESS

1. Document that the discontinuation of each service or of the entire facility will not have an adverse effect upon access to care for residents of the facility's market area.
2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.
3. Provide copies of impact statements received from other resources or health care facilities located within 45 minutes travel time, that indicate the extent to which the applicant's workload will be absorbed without conditions, limitations or discrimination.

APPEND DOCUMENTATION AS ATTACHMENT-10, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year

APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three audited fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care must be provided at cost.

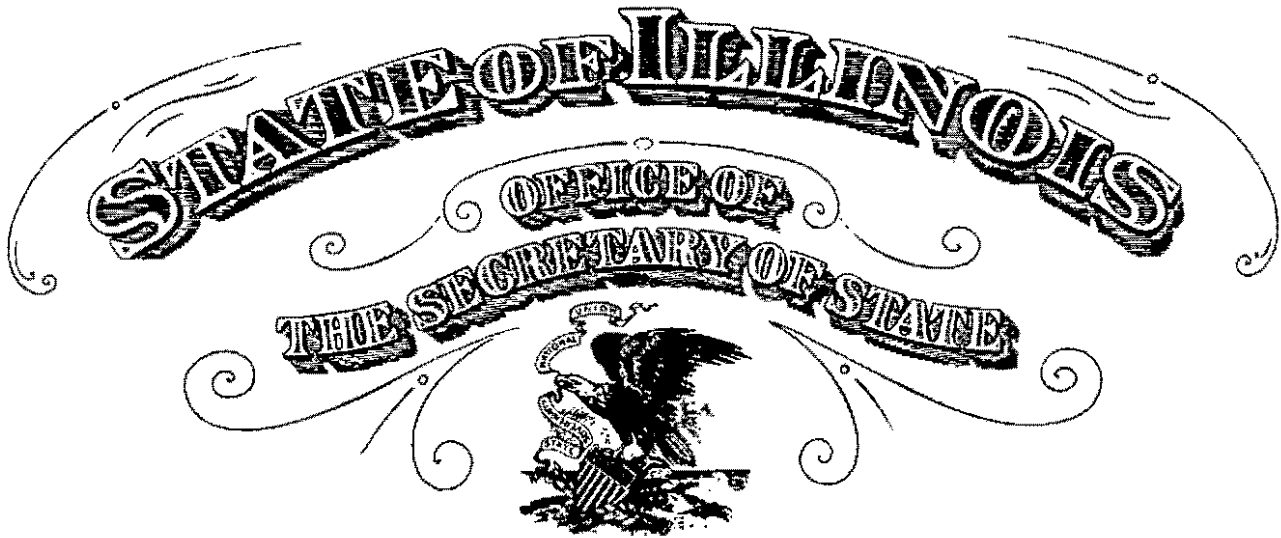

A table in the following format must be provided for all facilities as part of Attachment 44.

Discontinuation
Criterion 1110.130

Criterion 1110.130(a)
General Information

1. The Applicants are seeking a COE to discontinue the obstetrics ("OB") category of service, including labor/delivery, postpartum, and neonatal services (collectively, the "OB Program"), at Gottlieb Memorial Hospital. Gottlieb Memorial Hospital currently has 27 licensed OB beds.
2. No other clinical services will be impacted by this COE Application. Following the discontinuation of the OB Program, Gottlieb Memorial Hospital will continue to provide gynecological services, emergency OB services through its Emergency Department, and will continue to meet the OB surgical on-call provisions required of Level II Trauma Centers set forth at 77 Il. Admin. § 515.2040(d)(4).
3. Assuming that this COE Application is approved by the Board on or before December 6, 2016, the OB Program at Gottlieb Memorial Hospital will be discontinued on December 12, 2016.
4. The Applicants intend to "convert" the 27 OB beds at Gottlieb Memorial Hospital into 27 medical/surgical beds.
5. All medical records related to the OB Program at Gottlieb Memorial Hospital will continue to be maintained at Gottlieb Memorial Hospital and/or maintained in the LUHS electronic medical records system for no less 10 years after discharge or 12 years if there is litigation, as set forth in 210 ILCS § 85/6.17.
6. See the Narrative for additional support for this Criterion.

Criterion 1110.130(b)
Reasons for Discontinuation

1. The Applicants are seeking a COE to discontinue the OB category of service at Gottlieb Memorial Hospital because the demand for OB services at Gottlieb Memorial Hospital has steadily declined over the years. In 2015, Gottlieb Memorial Hospital only served 930 OB patients, representing an average daily census of 5.38 patients in the OB Unit (well below the Board's target occupancy rate of 78% for OB beds).

The following table sets forth the OB volumes at Gottlieb Memorial Hospital for the past five years:

Year	Admissions	Patient Days	Authorized Beds	Peak Census	Average Daily Census	CON Occupancy Rate	State Norm
2015	930	1,966	27	10	5.39	20.0%	78%
2014	1,274	3,023	27	10	8.28	30.7%	78%
2013	1,359	2,961	27	11	8.11	30.0%	78%
2012	775	1,979	27	11	5.42	20.1%	78%
2011	817	2,137	27	12	5.85	22.1%	78%

2. This low level of utilization results in care delivery that, while high quality, is not efficient.

3. In recent years, a greater number of patients seeking care at Gottlieb Memorial Hospital have needed geriatric services. To that end, the leadership of LUHS and Gottlieb Memorial Hospital have been actively implementing a plan to address these changing demographics. Earlier this year, for example, Gottlieb Memorial Hospital received permission from the Board to establish a 21 bed inpatient Comprehensive Physical Rehabilitation Unit. See Project No. 15-060. Gottlieb Memorial Hospital has also established several other post acute care programs at Gottlieb Memorial Hospital, including a 34 bed Transitional Care Unit, home health care, adult day care, and geriatric behavioral health. This collection of programs creates a robust continuum of geriatric clinical services that enhances LUHS's ability for service bundling, consistent with directives of the Affordable Care Act. The conversion of the 27 OB beds to medical/surgical beds will allow Gottlieb Memorial Hospital and LUHS to continue down this path.

4. The consolidation of OB patients at LUMC will also promote a better management of facility and capital resources within the LUHS system. The transfer of the OB patient volume from Gottlieb Memorial Hospital to LUMC should lead to fuller utilization of the existing OB Unit at LUMC.

5. Finally, moving the Gottlieb Memorial Hospital OB Program to LUMC enables the residents at LUMC to see additional OB patients, which benefits the residency training experience.

Criterion 1110.130(c)
Impact on Access

1. The discontinuation of the OB category of service at Gottlieb Memorial Hospital will have no impact on patient care. Gottlieb Memorial Hospital's affiliate, LUMC, is located just four (4) miles away and serves the same population and geographic region as Gottlieb Memorial Hospital. LUMC is a Level III Perinatal Center with on-site subspecialty coverage, including board-certified maternal-fetal medicine physicians, neonatologists, and pediatric anesthesiologists.
2. The OB Unit at LUMC has more than enough capacity to treat the Gottlieb Memorial Hospital OB patients.
3. The State Inventory of Health Care Facilities and Services and Need Determine (August, 2015) shows an excess of 77 OB beds in Planning Area A-06, the planning area for Gottlieb Memorial Hospital and LUMC. The closure of 27 OB beds will not impair access to area health care delivery, especially because these patients can be easily accommodated in the existing OB Unit at LUMC.
4. Adverse impact letters were sent to the following hospitals offering OB services within 45 minutes of Gottlieb Memorial Hospital:

Re: Request for Impact Statement

Dear Rick:

We are in the process of preparing an application to the Illinois Health Facilities & Services Review Board (the "Board") to discontinue the obstetrics ("OB") category of service, including labor/delivery, postpartum, and neonatal services (collectively, the "OB Program"), at Gottlieb Memorial Hospital ("Gottlieb"), effective as of December 12, 2016. Following the discontinuation of the OB Program, Gottlieb will continue to provide gynecological services, emergency OB services through its Emergency Department, and will continue to meet the OB surgical on-call provisions required of Level II Trauma Centers, as set forth at 77 Il. Admin. § 515.2040(d)(4).

For your reference, Gottlieb currently has 27 licensed OB beds. In 2015, Gottlieb had 930 OB admissions with an average daily census of 5.39 OB patients. In 2014, Gottlieb had 1,274 OB admissions with an average daily census of 8.28 OB patients.

Gottlieb's affiliate, Loyola University Medical Center ("LUMC"), is located just four (4) miles away and serves the same population and geographic region as Gottlieb. In accordance with 77 Il. Admin. § 1110.130(c)(3), we are providing you with notice of our application and we are respectfully requesting that you provide us with the following information within fifteen (15) days from the receipt of this letter:

Your hospital's capacity to accommodate all, or a portion of, Gottlieb's OB caseload; and

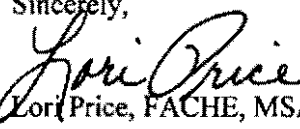

An explanation of any conditions, restrictions or limitations that would prevent your hospital from serving the patient population historically served by Gottlieb's OB Program.

Please direct your response, if any, to Ms. Maria Pekar, MBA, JD, Associate General Counsel, Loyola University Health System, 2160 South First Avenue, Maywood, Illinois 60153. Ms. Pekar can also answer any of your questions. Her phone number is (708) 216-8686.

Re: Request for Impact Statement

Dear Dominica:

We are in the process of preparing an application to the Illinois Health Facilities & Services Review Board (the "Board") to discontinue the obstetrics ("OB") category of service, including labor/delivery, postpartum, and neonatal services (collectively, the "OB Program"), at Gottlieb Memorial Hospital ("Gottlieb"), effective as of December 12, 2016. Following the discontinuation of the OB Program, Gottlieb will continue to provide gynecological services, emergency OB services through its Emergency Department, and will continue to meet the OB surgical on-call provisions required of Level II Trauma Centers, as set forth at 77 Il. Admin. § 515.2040(d)(4).

For your reference, Gottlieb currently has 27 licensed OB beds. In 2015, Gottlieb had 930 OB admissions with an average daily census of 5.39 OB patients. In 2014, Gottlieb had 1,274 OB admissions with an average daily census of 8.28 OB patients.

Gottlieb's affiliate, Loyola University Medical Center ("LUMC"), is located just four (4) miles away and serves the same population and geographic region as Gottlieb. LUMC is a Level III Perinatal Center with on-site subspecialty coverage, including board-certified maternal-fetal medicine physicians, neonatologists, and pediatric anesthesiologists.

In accordance with 77 Il. Admin. § 1110.130(c)(3), we are providing you with notice of our application and we are respectfully requesting that you provide us with the following information within fifteen (15) days from the receipt of this letter:

Your hospital's capacity to accommodate all, or a portion of, Gottlieb's OB caseload; and

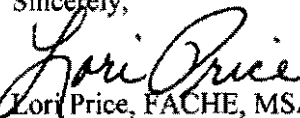

An explanation of any conditions, restrictions or limitations that would prevent your hospital from serving the patient population historically served by Gottlieb's OB Program.

Please direct your response, if any, to Ms. Maria Pekar, MBA, JD, Associate General Counsel, Loyola University Health System, 2160 South First Avenue, Maywood, Illinois 60153. Ms. Pekar can also answer any of your questions. Her phone number is (708) 216-8686.

Re: Request for Impact Statement

Dear Pamela:

We are in the process of preparing an application to the Illinois Health Facilities & Services Review Board (the "Board") to discontinue the obstetrics ("OB") category of service, including labor/delivery, postpartum, and neonatal services (collectively, the "OB Program"), at Gottlieb Memorial Hospital ("Gottlieb"), effective as of December 12, 2016. Following the discontinuation of the OB Program, Gottlieb will continue to provide gynecological services, emergency OB services through its Emergency Department, and will continue to meet the OB surgical on-call provisions required of Level II Trauma Centers, as set forth at 77 Il. Admin. § 515.2040(d)(4).

For your reference, Gottlieb currently has 27 licensed OB beds. In 2015, Gottlieb had 930 OB admissions with an average daily census of 5.39 OB patients. In 2014, Gottlieb had 1,274 OB admissions with an average daily census of 8.28 OB patients.

Gottlieb's affiliate, Loyola University Medical Center ("LUMC"), is located just four (4) miles away and serves the same population and geographic region as Gottlieb. LUMC is a Level III Perinatal Center with on-site subspecialty coverage, including board-certified maternal-fetal medicine physicians, neonatologists, and pediatric anesthesiologists.

In accordance with 77 Il. Admin. § 1110.130(c)(3), we are providing you with notice of our application and we are respectfully requesting that you provide us with the following information within fifteen (15) days from the receipt of this letter:

Your hospital's capacity to accommodate all, or a portion of, Gottlieb's OB caseload; and

Re: Request for Impact Statement

Dear Loren:

We are in the process of preparing an application to the Illinois Health Facilities & Services Review Board (the "Board") to discontinue the obstetrics ("OB") category of service, including labor/delivery, postpartum, and neonatal services (collectively, the "OB Program"), at Gottlieb Memorial Hospital ("Gottlieb"), effective as of December 12, 2016. Following the discontinuation of the OB Program, Gottlieb will continue to provide gynecological services, emergency OB services through its Emergency Department, and will continue to meet the OB surgical on-call provisions required of Level II Trauma Centers, as set forth at 77 Il. Admin. § 515.2040(d)(4).

For your reference, Gottlieb currently has 27 licensed OB beds. In 2015, Gottlieb had 930 OB admissions with an average daily census of 5.39 OB patients. In 2014, Gottlieb had 1,274 OB admissions with an average daily census of 8.28 OB patients.

Gottlieb's affiliate, Loyola University Medical Center ("LUMC"), is located just four (4) miles away and serves the same population and geographic region as Gottlieb. LUMC is a Level III Perinatal Center with on-site subspecialty coverage, including board-certified maternal-fetal medicine physicians, neonatologists, and pediatric anesthesiologists.

In accordance with 77 Il. Admin. § 1110.130(c)(3), we are providing you with notice of our application and we are respectfully requesting that you provide us with the following information within fifteen (15) days from the receipt of this letter:

Your hospital's capacity to accommodate all, or a portion of, Gottlieb's OB caseload; and

An explanation of any conditions, restrictions or limitations that would prevent your hospital from serving the patient population historically served by Gottlieb's OB Program.

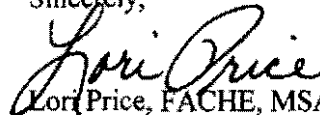

Please direct your response, if any, to Ms. Maria Pekar, MBA, JD, Associate General Counsel, Loyola University Health System, 2160 South First Avenue, Maywood, Illinois 60153. Ms. Pekar can also answer any of your questions. Her phone number is (708) 216-8686.

Re: Request for Impact Statement

Dear Sharon:

We are in the process of preparing an application to the Illinois Health Facilities & Services Review Board (the "Board") to discontinue the obstetrics ("OB") category of service, including labor/delivery, postpartum, and neonatal services (collectively, the "OB Program"), at Gottlieb Memorial Hospital ("Gottlieb"), effective as of December 12, 2016. Following the discontinuation of the OB Program, Gottlieb will continue to provide gynecological services, emergency OB services through its Emergency Department, and will continue to meet the OB surgical on-call provisions required of Level II Trauma Centers, as set forth at 77 Il. Admin. § 515.2040(d)(4).

For your reference, Gottlieb currently has 27 licensed OB beds. In 2015, Gottlieb had 930 OB admissions with an average daily census of 5.39 OB patients. In 2014, Gottlieb had 1,274 OB admissions with an average daily census of 8.28 OB patients.

Section XI
Safety Net Impact Statement

1. In 2015, Gottlieb Memorial Hospital only served 930 OB patients, representing an average daily census of 5.38 patients in the OB Unit. That represents a small percentage of the patients treated by Gottlieb Memorial Hospital on a daily basis.
2. Gottlieb Memorial Hospital's affiliate, LUMC, is located just four (4) miles away and serves the same population and geographic region as Gottlieb Memorial Hospital. LUMC's OB Unit has the capacity to accommodate Gottlieb Memorial Hospital's OB volume.
3. LUMC and Gottlieb Memorial Hospital are both members of LUHS and LUHS is a member of Trinity Health Corporation, which enjoys an "AA" bond rating from Fitch's Rating and an "AA3" bond rating from Moody's. To the extent any OB patient needs charity care, LUMC has more than sufficient financial capacity to provide charity care to that OB patient.
4. Because of the low volume of OB cases at Gottlieb Memorial Hospital, the discontinuation of the OB category of service at Gottlieb Memorial Hospital will not have a material impact on any other health care provider.
5. The following chart sets forth the amount of charity care provided by Gottlieb Memorial Hospital in the last three fiscal years (as reported by Gottlieb Memorial Hospital on its Annual Hospital Questionnaires.)

	2013	2014	2015
Number of Inpatient Charity Care Patients	384	148	73
Number of Outpatient Charity Care Patients	1,895	371	304
Total Number of Charity Care Patients	2,279	519	377
Inpatient Charity Care (Cost in Dollars)	2,341,138	1,484,592	1,386,932
Outpatient Charity Care (Cost in Dollars)	1,456,549	1,524,320	1,134,763
Total Charity Care (Cost in Dollars)	3,797,687	3,008,912	2,521,695

6. The following chart sets forth the amount of care provided to Medicaid patients by Gottlieb Memorial Hospital in the last three fiscal years (as reported by Gottlieb Memorial Hospital on its Annual Hospital Questionnaires).

	2013	2014	2015
Number of Inpatient Medicaid Patients	1,434	1,814	1,875
Number of Outpatient Medicaid Patients	8,437	15,360	10,135
Total Number of Medicaid Patients	9,871	17,174	12,010
