Over half of the space to be eliminated from the project is administrative and conference space (9,500sf), with the remainder being physicians' offices. The expensive space...imaging and lab is staying. The imaging and lab space costs \$2,139/sf (project cost), compared to the non-clinical space, at \$398/sf.

Jack Northshore is decreasing the GSF by approximately 50% yet their cost is decreasing by about 22%. Can you get me an explanation for this? Thanks...
