**RE: Request for Expedited Review
CON Applications 17-020 and 17-021**

Dear Courtney:

On May 1, 2017 I filed non-substantive Certificate of Need applications on behalf of AMITA Health for the establishment of medical clinics buildings ("MCBs") in Bartlett and Woodridge, Illinois; and the applications have been deemed complete. Each project proposes the conversion of a vacant store into a MCB, with imaging being the only service to be provided and having IDPH-adopted standards. I believe that the imaging departments being proposed are consistent with both applicable size and utilization standards.

With the cancellation of the August 8, 2017 HFSRB meeting, I respectfully request that these two projects be placed on the June 20, 2017 agenda if Public Hearings are not requested. Failure to do so would result in 148 days passing between the filing and hearing of these two very benign projects.

Thank you for your consideration of this request.

Sincerely,

Jacob M. Axel
President
