Re: Project 17-044
September 11th, 2017

To Whom It May Concern,

We are requesting a Public Hearing on the matter Smith Crossing, Orland Park. Project # 17-044. We believe it is not in the best interests of those who need care to allow for an approval of this project. We do not agree with, or believe the statements made by the applicant that they have had to turn down thousands of patients due to space and that there is no suitable location for the Short Term Rehabilitation need.

Sincerely,

A handwritten signature in dark ink, appearing to read "Natan Weiss", is written over a light-colored background.
