re: Certificate of Need Application for Vista Medical Center West

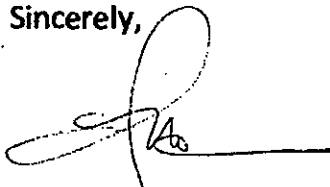

Dear Ms. Avery,

As a resident of Lake County, I am concerned about the lack of quality care available for people experiencing mental illness crisis. We need local services. Currently, families and friends have to travel long distances to get the most basic help. Often, they have to wait hours and even days for any kind of treatment.

My church is a member of Lake County United and is represented on the Mental Health Committee. We support the members of this committee who have attended hearings, visited hospitals, and listened to the desperate stories of church members who come from many different towns.

We request that you approve the above stated application to expand the behavioral health hospital beds from 46 to 146. Reaching out to the marginalized is a justice issue and in line with our values. Please act to save lives and restore health.

Sincerely,

 Ana Draa
