Re: #17-060, Fresenius Kidney Care Waukegan Park

Dear Ms. Olson:

My name is Jerome Watson and I am a dialysis patient at Fresenius Kidney Care Waukegan Harbor. This clinic is very full, and I must dialyze on a treatment shift that is very inconvenient for me and my family. This is especially hard because I come to dialysis three days out of each week. I am on a waiting list to be moved to a time-slot that works out better for me, but I do not know how long that will take.

I am not able to get to clinics in other towns that may have a better treatment times available. The Fresenius Kidney Care Waukegan Park facility will open-up room for patients like me who need a better schedule and will allow us to remain in Waukegan for treatment.

If you would approve the new Fresenius clinic in Waukegan it would make having dialysis easier for me and other patients too.

Thank you,

Jerome Watson 5/16/18

Re: #17-060, Fresenius Kidney Care Waukegan Park

Dear Ms. Olson:

My name is CONNELL, KATHRYN _ and I am a dialysis patient at Fresenius Kidney Care Gurnee. All the daytime treatment shifts here are full and I must dialyze on a nighttime treatment shift that is very inconvenient for me and my family. This is especially hard because I come to dialysis three days out of each week. I am on a waiting list to be moved to a time-slot that works out better for me, but I do not know how long that will take.

I am not able to get to clinics in other towns that may have a better treatment times available. The Fresenius Kidney Care Waukegan Park facility will open-up room nearby for patients like me who need a better schedule and will allow us to remain in near our homes for treatment.

If you would approve the new Fresenius clinic in Waukegan it would make having dialysis easier for me and other patients too.

Thank you,

Kathryn Connell
