SECTION III. BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Background

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

- 1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
- 2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
- 3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.
- 4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest that the information was previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update end/or clarify data.

APPEND DOCUMENTATION AS <u>ATTACHMENT 11</u>, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

Criterion 1110.230 – Purpose of the Project, and Alternatives (Not applicable to Change of Ownership)

PURPOSE OF PROJECT

- 1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
- 2. Define the planning erea or market area, or other relevant area, per the applicant's definition.
- Identify the existing problems or Issues that need to be addressed as applicable and appropriate for the project.
- 4. Cite the sources of the documentation.
- 5. Detail how the project will addrass or improve the previously referenced issues, as well as the population's health status and well-being.
- 6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to

SECTION V. CHANGE OF OWNERSHIP (CHOW)

1130.520 Requirements for Exemptions Involving the Change of Ownership of a Health Care Facility

- Prior to acquiring or entering into a contract to acquire an existing health care facility, a
 person shall submit an application for exemption to HFSRB, submit the required
 application-processing fee (see Section 1130.230) and receive approval from HFSRB.
- 2. If the transaction is not completed according to the key terms submitted in the exemption application, a new application is required.
- 3. READ the applicable review criteria outlined below and submit the required documentation (key terms) for the criteria:

APPLICABLE REVIEW CRITERIA	CHOW
1130.520(b)(1)(A) - Names of the parties	X
1130.520(b)(1)(B) - Background of the parties, which shall include proof that the applicant is fit, willing, able, and has the qualifications, background and character to adequately provide a proper standard of health service for the community by certifying that no adverse action has been taken against the applicant by the federal government, licensing or certifying bodies, or any other agency of the State of Illinois against any health care facility owned or operated by the applicant, directly or indirectly, within three years preceding the filing of the application.	X
1130.520(b)(1)(C) - Structure of the transaction	Х
1130.520(b)(1)(D) - Name of the person who will be licensed or certified entity after the transaction	
1130.520(b)(1)(E) - List of the ownership or membership interests in such licensed or certified entity both prior to and after the transaction, including a description of the applicant's organizational structure with a listing of controlling or subsidiary persons.	Х
1130.520(b)(1)(F) - Fair market value of assets to be transferred.	Х
1130.520(b)(1)(G) - The purchase price or other forms of consideration to be provided for those assets. [20 ILCS 3960/8.5(a)]	х
1130.520(b)(2) - Affirmation that any projects for which permits have been issued have been completed or will be completed or altered in eccordance with the provisions of this Section	×
1130.520(b)(2) - If the ownership change is for a hospital, affirmation that the facility will not adopt a more restrictive charity care policy than the policy that was in effect one year prior to the transaction. The hospital must provide affirmation that the compliant charity care policy will remain in effect for a two-year period following the change of ownership transaction	NIA
1130.520(b)(2) - A statement as to the anticipated benefits of	Х

the proposed changes in ownership to the community	
1130.520(b)(2) - The anticipated or potential cost savings, if any, that will result for the community and the facility because of the change in ownership;	Х
1130.520(b)(2) - A description of the facility's quality improvement program mechanism that will be utilized to assure quality control;	Х
1130.520(b)(2) - A description of the selection process that the acquiring entity will use to select the facility's governing body;	Х
1130.520(b)(2) - A statement that the applicant has prepared a written response addressing the review criteria contained in 77 III. Adm. Code 1110.240 and that the response is available for public review on the premises of the health care facility	Х
1130.520(b)(2)- A description or summary of any proposed changes to the scope of services or levels of care currently provided at the facility that are anticipated to occur within 24 months after acquisition.	х

Application for Change of Ownership Among Related Persons

When a change of ownership is emong related persons, and there are no other changes being proposed at the health care facility that would otherwise require a permit or exemption under the Act, the applicant shall submit an application consisting of a standard notice in a form set forth by the Board briefly axplaining the reasons for the proposed change of ownership. [20 ILCS 3960/8.5(a)]

APPEND DOCUMENTATION AS $\underline{\text{ATTACHMENT 15.}}$ IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Re: # 504200 CCN: #14C0001154 Program: Ambulatory Surgical Center Accreditation Expiration Date: January 21, 2020

Nikhil Verma President Gold Coast Surgicenter, LLC 845 N. Michigan Avenue, Suite 985W Chicago, Illinois 60611-2218

Dear Dr. Verma:

This letter confirms that your January 18, 2017 - January 20, 2017 unannounced full resurvey was conducted for the purposes of assessing compliance with the Medicare conditions for ambulatory surgical centers through The Joint Commission's deemed status survey process.

Based upon the submission of your evidence of standards compliance on May 19, 2017 and the successful on-site unannounced Medicare Deficiency Follow-up event conducted on March 01, 2017, the areas of deficiency listed below have been removed. The Joint Commission is granting your organization an accreditation decision of Accredited with an effective date of January 21, 2017. We congratulate you on your effective resolution of these deficiencies.

§416.48 Pharmaceutical Services §416.51 Infection Control

The Joint Commission is also recommending your organization for continued Medicare certification effective January 21, 2017. Please note that the Centers for Medicare and Medicaid Services (CMS) Regional Office (RO) makes the final determination regarding your Medicare participation and the effective date of participation in accordance with the regulations at 42 CFR 489.13. Your organization is encouraged to share a copy of this Medicare recommendation letter with your State Survey Agency.

This recommendation applies to the following location(s):

Gold Coast Surgicenter, LLC 845 N. Michigan Avenue, Suite 985W, Chicago, IL, 60611-2218

Please be assured that The Joint Commission will keep the report confidential, except as required by law or court order. To ensure that The Joint Commission's information about your organization is always accurate and current, our policy requires that you inform us of any changes in the name or ownership of your organization or the health care services you provide.

Attachment 15

Section V. - Change of Ownership

- 1. 1130.520(b)(1)(A), Names of Parties: The Applicants are: (1) Aiden Center for Day Surgery, LLC and (2) Addison Surgery Center, LLC.
- 2. 1130.520(b)(1)(B), Background of the Parties: Each of the Applicants, by their signatures to the Certification pages of this application, attest that they are fit, willing, able and have the qualifications, background and character to adequately provide a proper standard of health service for the community
 - By their signatures on the Certification pages to this application, each of the Applicants attest that no adverse action has been taken against any facility owned and/ or operated by them during the three years prior to filing of this application.
- 3. 1130.520(b)(1)(C), Structure of the Transaction: This is a Change of Ownership from Aiden Center for Day Surgery, LLC to Addison Surgery Center, LLC. The entire membership interest and ownership in Aiden Center for Day Surgery, LLC will be transferred from Aiden Center for Day Surgery, LLC to Addison Surgery Center, LLC.
- 4. 1130.520(b)(1)(D), Name of Licensed Entity after Transaction: The name of the licensed entity after the Change of Ownership will be Addison Surgery Center, LLC.
- 5. 1130.520(b)(1)(E), List of the ownership or membership interests in such licensed or certified entity both prior to and after the transaction, including a description of the applicant's organizational structure with a listing of controlling or subsidiary persons: An organizational chart showing the current organizational structure of each applicant, as well as the post-closing structure, is provided in Attachment 4.
- 6. 1130.520(b)(1)(F), Fair market value of assets to be transferred: Not applicable.
- 7. 1130.520(b)(1)(G), Purchase price or other forms of consideration to be provided: Not applicable.
- 8. 1130.520(b)(2), Affirmations: In accordance with 77 Ill. Adm. Code 1130.520, each of the Applicants affirm that any project for which permits have been issued have been completed, or will be completed, or altered in accordance with the provision of this Section.
- 9. 1130.520(b)(2), Ownership Change for a Hospital: Not applicable. The change of ownership is for an Ambulatory Surgical Treatment Center (ASTC).

- 10. 1130.520(b)(2), Statement of anticipated benefits to community: Since 2009, Aiden Center for Day Surgery has seen a steady decline in volume. In 2016, the facility performed, in total 475 surgical cases. The ASTC is vastly underutilized. The anticipated change in ownership will revitalize an existing ASTC and provide area residents access to a facility that is focused on value based care that is both convenient and cost effective.
- 11. 1130.520(b)(2), Anticipated or Potential cost savings: The anticipated or potential cost savings that will result for the community as a result in the change of ownership will be measurable. A review of IDPH surveys indicate that the current facility performed 475 cases in a facility that has 4 operating rooms and 2 procedure rooms. The facility is an underutilized healthcare asset to the community which does not have the current financial capacity in helping physicians better accommodate patients with high deductibles and copays. Patients referred to the surgery center historically would have his, or her, surgery performed in a higher cost, more intensive hospital setting. The growth in population health management and value based payment requires that providers accommodate patient need for convenient cost effective care.
- 12. 1130.520(b)(2), Quality Improvement Program mechanism description: Attached please find a description of the facility's Quality Improvement Program mechanism that will be utilized to assure quality control.
- 13. 1130.520(b)(2), Governing Body selection: The Governing Body selection will be determined by unanimous vote under the current Board of Managers listed in the attachment.
- 14. 1130.520(b)(2), Written response available for public review: The Applicants have or will prepare a written response addressing the review criteria contained in 77 Ill. Adm. Code 1110.240 that will be available for public review at Aiden Center for Day Surgery, LLC.
- 15. 1130.520(b)(2), Summary of proposed changes to the scope of services or levels of care currently provided: As recorded in the State inventory, Aiden Center for Day Surgery (IDPH Project #98 055) is licensed as a multispecialty ASTC and under its license provides a full compendium of surgical services. Addison Surgical Center does not envision the need to add additional specialties beyond the centers current capabilities. As disclosure and given the current physical plant capabilities, the center will concentrate on musculoskeletal disorders moving forward.

Addison Surgery Center, LLC ("Facility") believes that Quality and Patient Safety is everyone's responsibility. This includes delivering care consistent with professional standards; providing and maintaining a safe patient environment; and remaining fiscally responsible. The Facility Board of Managers, Medical Staff, and administrative leadership are dedicated to patient safety and quality improvement. They are charged with the responsibility of overseeing the development and implementation of a quality plan consistent with the organization's mission, vision, and values. The Facility Board of Managers and Leadership will review the effectiveness of the Quality Assessment and Performance Improvement and Patient Safety Plan, at a minimum, annually. The Board of Managers will give final approval of the plan and priorities identified.

The Board of Managers must ensure the Quality Assessment and Performance Improvement Program:

- 1. Is defined, implemented, and maintained
- 2. Addresses the Facility's priorities and that all improvements are evaluated for effectiveness.
- 3. Specifies data collection methods, frequency, and details
- 4. Clearly establishes its expectations for safety
- 5. Sets expectations and priorities regarding performance improvement while adjusting priorities in response to urgent or unusual events
- 6. Allocates adequate resources for improving organizational performance and improving patient safety
- 7. Measures and assesses the effectiveness of performance improvement and safety activities

The Quality Assessment and Performance Improvement and Patient Safety Plan promote the highest quality of patient care and services within the Facility. The scope of the Quality Assessment and Performance Improvement and Patient Safety Plan addresses all areas, including clinical contracted services provided by lab, pharmacy, etc. The Facility will put into operation the plan within its scope of services and population served, utilizing the following guiding principles:

Quality Guiding Principles

- 1. Focus on Quality and Patient Safety it is everyone's responsibility
- 2. Improve all that is undertaken
- 3. Provide service excellence to our customers
- 4. Align Mission, Vision, and Strategy
- 5. Ensure continuous improvement that is process-focused, data-driven, and measures results
- 6. Foster creativity and innovation in an environment that values and encourages employee participation
- 7. Practice teamwork and collaboration, recognizing the unique and valuable contribution each member makes to the team
- 8. Ensure the program is a continuing one, not just a one-time effort
- Ensure the program identifies in a systematic manner what data will be collected to measure various aspects of quality of care, the frequency of data collection, and how the data will be collected and analyzed.
- 10. Ensure the data collected is used to assess quality and stimulate performance improvement.

Prioritization and Accountability of Performance Improvement and Patient Safety

The Board of Managers, in collaboration with Facility Leadership and the Medical Staff, sets priorities for performance improvement and safety.

Performance Improvement Focus

The program is designed to be ongoing and to demonstrate measurable improvement in patient health and outcomes; improve patient safety by using quality indicators or performance measures associated with improved health outcomes; and identify and reduce medical errors.

The Facility strives to achieve optimal clinical outcomes for all its patients while providing care in the safest environment possible. Indicators used to measure quality will be outcome indicators that measure results of care, process of care indicators that measure how often the standard of care is met in various processes across the Facility, and patient perception indicators that measure a patient's perception of their patient experience.

At a minimum, the Facility collects data on the following:

- 1. Operative or other procedures that place patients at risk of disability or death
- 2. All significant discrepancies between pre-operative and post-operative diagnosis, including pathologic diagnoses
- 3. Adverse Events related to using moderate or deep sedation or anesthesia
- 4. Incidence of Resuscitation and its results
- 5. Medication Errors
- 6. Adverse Drug Reactions
- 7. Patient perception of the safety and quality of care, treatment, services, and communication
- 8. Infection Control and Surveillance
- 9. Patient Burns
- 10. Patient Falls
- 11. Prophylactic Antibiotic Timing
- 12. Hospital Transfer/Admissions
- 13. Wrong Site, Wrong, Side, Wrong Patient, Wong Procedure, Wrong Implant
- 14. Unintended Retained Foreign Object

In addition to the above indicators, the Facility will prioritize performance improvement activities to assure that they are focused on high-risk, high-volume, or problem-prone areas. The Facility will focus on issues of known frequency, prevalence or severity, and shall give precedence to issues that affect health outcomes, quality of care, and patient safety.

Components of Performance Improvement Program

Quality Assessment and Performance Improvement (QAPI) is a continuous process. The QAPI program will be proactive, comprehensive, ongoing, and data driven.

The goal of OAPI involves:

- 1. Identification and measurement of variances in current practice and services that can lead to less than optimal performance
- 2. Identification and implementation of changes to enhance existing performance
- 3. Consistent monitoring of changes to ensure sustained gains

The data collected will be used to monitor the effectiveness and safety of services and quality of care provided and to identify opportunities that could lead to improvements and changes in patient care.

Data will be analyzed to monitor the Facility's performance and to determine what the data suggests about the Facility's quality of care and effectiveness of safety of its services. Analysis will take place at regular intervals to enable detection of problem areas in a timely manner. Investigation into root causes for any adverse event will be conducted. Following the analysis of data and identification of opportunities for

improvement, the Facility will develop specific changes in its policies, procedures, equipment, environment, process, etc. to accomplish improvements in the identified areas of weakness. The Facility will implement preventive strategies designed to reduce the likelihood of an adverse event.

Implementation of strategies to ensure the improvements made are sustained over time will be done. Staff will be made aware of strategies adopted for prevention of adverse events.

Combinations of methodologies are used to provide a systematic approach to process improvement. Utilization of the PDCA (Plan, Do, Check, Act) problem-solving framework, throughout the Facility, enables all employees to systematically work through performance improvement initiatives.

At a minimum, the Facility will be required to have two distinct performance improvement initiatives annually that reflect the scope and complexity of service provided. Documentation of the projects will include the reason for implementing the project and a description of the project's results. Records will be kept on the chosen performance improvement projects.

The Quality Indicator Dashboard will be reviewed and updated at least annually by Quality Assessment and Performance Improvement Committee and the Board of Directors.

Performance Improvement initiatives and quality indicators will be prioritized based on the following criteria:

- 1. High risk, high impact, and problem prone areas
- 2. Indicators with performance remaining below benchmark
- 3. Indicators required for reporting by regulatory and accrediting agencies
- 4. Recommendations from the National Quality Forum and the Agency for Healthcare Quality and Research

Indicators will be scored utilizing a red (below benchmark), yellow (approaching benchmark) or green (at or better than benchmark) stoplight scoring system. External benchmarks will be used when available and internal benchmarks will be developed if no external ones are available.

Thresholds for yellow and red scores will be developed by indicator; any indicator performing at or above the indicator will be scored as green. Indicators scoring red for three consecutive months or greater will be required to begin a ninety (90) day performance improvement action plan. The Administrator or leader for the area will oversee the plan and provide necessary resources for the project.

Components of Patient Safety Program

Patient Safety is a priority at the Facility. The Patient Safety Plan is designed to support and promote the Facility's mission to provide safe, quality patient care. The plan engages staff, medical staff, patients, and visitors in activities and practices designed to promote safety and prevent patient injury and harm associated with medical errors and hazardous conditions in the health care setting. An important aspect of Performance Improvement is the identification and management of processes and behaviors leading to potential or actual patient harm. The Facility Patient Safety Program includes the ongoing assessment, tracking, and trending of patient safety events, and determination of further action, should action be deemed necessary.

The authority of the Patient Safety Plan rests with the Board of Managers (BOM). The BOM delegates authority to the QAPI Committee to implement and maintain the activities described in the plan. All staff share responsibility and accountability to employ safe patient practices in alignment with the Facility policies and procedures.

Program Distinguishing Characteristics

Proactive Approaches

The Facility engages in proactive risk reduction approaches to (re)design processes to improve patient safety

before an event occurs with potential or actual harm to patients. The approaches include:

- 1. Performing a criticality analysis or failure mode effects analysis (FMEA)
- 2. Obtaining stakeholder, physician, and staff information about potential safety issues
- 3. Documenting "near miss" events in variance reports
- 4. Formalizing mechanisms to analyze care and revise care processes under the guidance of the QAPI and BOM authority
- 5. Adopting best practices, clinical practice guidelines, and preventive approaches endorsed by regulatory, accreditation, and professional associations
- 6. Prioritizing the annual performance improvement and safety initiatives

Patient/Family Education and Involvement

The Facility encourages the patient and family to become partners and participants in their care. The patient participation strategies include:

- 1. Active participation in correct patient, procedure, site verification procedures
- 2. Notification of patient rights and responsibilities
- 3. Obtaining information about pre-procedure medications
- 4. Enlisting patient and family feedback, perceptions, and concerns for safety and well-being while receiving care and after discharge by way of post-op phone call and patient survey.

Health Care Team Education and Involvement

Each member of the Care Team is considered an advocate for patient safety and error prevention. The Facility approaches include:

- 1. Safety-related orientation and training
- 2. Expectations of reporting potential and actual events which may cause patient harm (variance reporting)
- 3. Safety-oriented communications and partnership with patients evidenced in patient encounters
- 4. Participation in QAPI processes including routine safety-related data collection and analysis (infection surveillance, the Facility safety surveillance)

The Board of Managers and the Facility leadership have the ultimate authority and accountability to conduct a program which positively influences patient safety. The program implementation and oversight is under the leadership of the QAPI Committee with the participation of staff responsible for patient safety, risk management, and quality improvement functions.

The Patient Safety Plan and Program exists in concert with the Quality Assessment and Performance Improvement Plan/Program and the Risk Management Plan. Regular reports and recommendations are submitted to the Board of Managers. The effectiveness of the Plan and Program are evaluated annually by the QAPI Committee and Board of Managers. The overall effectiveness and efficacy of the program is evaluated annually by reviewing the following:

- 1. Improvements in high-risk and core care process selected for risk reduction
- 2. Results of and action on patient perception data
- 3. Impact of Patient Safety Goal compliance
- 4. Results of stakeholder and staff involvement in patient safety and error reduction approaches
- 5. Regular reports and recommendations are submitted to the Board if Managers
- 6. Impact of increased reporting and recognition of patient errors, near misses, or hazardous conditions

Types of patient safety or medical errors included in review and analysis include, but are not limited to: actual or near-miss events; potential and actual adverse drug events; sentinel events (reference: Sentinel Event Management Policy).

Any sentinel event or undesirable outcome will trigger an immediate response from the Director of Nursing as well as other Senior Leadership, as appropriate. A Root Cause Analysis (RCA) is conducted on all sentinel events and an action plan formulated to identify strategies the organization will implement to mitigate the risk of similar occurrences in the future. All other event types are reviewed and action taken as appropriate (reference sentinel event management policy).

Aggregate variance report information will be presented quarterly to the Board of Managers. Should an issue or trend be identified, direction and resources for further investigation or a ninety (90) day action plan, will be provided under the guidance of the committee. In addition to routine patient safety information reporting per the Quality Assessment and Performance Improvement Reporting Calendar, trends or concerns will be reported to the committee as they are identified. However, any member of the Board of Managers or Senior Leadership can request a further drill down of patient safety concerns, at any time.

Performance Improvement and Safety Structure and Results Reporting

Quality information flows through a reporting structure as identified below. Significant findings, actions, and recommendations from quality management activities are reported to the Senior Leadership Team and the Board through the established reporting structure.

Board of Managers

The Board of Managers has the ultimate authority and responsibility for the oversight, approval of, and participation in the Quality Plan. During each meeting of the Board of Managers, a portion of the agenda will be dedicated to updates and reports on patient safety and performance improvement. In addition, the Board of Managers is responsible for the review and approval of the Performance Improvement and Safety plan annually.

Quality Assessment and Performance Improvement (QAPI) Committee

The Quality Assessment and Performance Improvement Committee receives reports from the Safety Committee and Infection Control Committees; facilitates the implementation of the strategic quality direction; oversees ongoing measurement, assessment, and improvement of current performance improvement initiatives; receives reports of each of the Facility's patient safety adverse events; prioritizes improvement activities; receives reports and coordinates accreditation efforts; prioritizes improvement activities; reviews and revises the annual plan; completes an annual review of quality and safety performance; serves as a resource for learning and applying new quality techniques; acts as a liaison among the Facility Board of Managers, Medical Staff and Administration with respect to performance improvement; receives performance improvement information; and provides oversight for the annual Performance Improvement and Safety Plan.

Reports to:

The Facility Board of Managers

Meeting requirements:

The Quality Assessment and Performance Improvement Committee shall meet quarterly.
