Attachment 37

This project will have a significant impact on the essential safety net services in the community. Our doctors are either currently Medicare and Medicaid certified physicians (or have pending applications) whose existing patient base will utilize the facility to continue treatments to alleviate chronic pain conditions and address back pain through state of the art spinal interventions procedures.

This facility will complement existing health care facilities and relieve pressure on area hospital surgical suites in the area, while providing patients with a facility dedicated to ensuring they can continue receiving life sustaining treatment.
