Re: Riverside Ambulatory Surgery Center – Certificate of Need
Project No. 19-009
Notice of Permit Alteration

Dear Ms. Avery:

At its June 4, 2019 meeting the Illinois Health Facilities and Services Review Board approved the Certificate of Need to add orthopedics as a specialty at Riverside Ambulatory Surgery Center ("RASC") in Bourbonnais. No new construction nor modernization was associated with the Project. The permit application included \$145,000 for movable equipment which would have been used primarily for purchase of an Arthroscopy Tower and associated equipment. RASC has determined not to acquire the arthroscopic equipment at this time. The decision not to acquire this equipment will not preclude use of the surgery center by credentialed orthopedic surgeons. In accordance with Review Board regulations, 1130.750, we are notifying the Board of this alteration.

Please contact us with any questions.

Sincerely,

Paula M. Jacobi
