Good Afternoon, Mike

Trust all is well with you...

We are in the process of completing the information you requested a while ago. Based on our conversation at the last Review Board meeting, and the time it is taking to assemble some of the requested information, Board consideration should be deferred until the October 22, 2019 Review Board Meeting.

The permit application is still listed as tentatively being on the September 17th Agenda. Will this e-mail suffice for a deferral, or do you require a more formal request? Please let me know.

Trust you have a great Holiday weekend.

Ed
