Dear Laurie Craig:

On September 23, 2019 a licensure survey was conducted at Physicians' Surgical Center by staff of the Illinois Department of Public Health to determine compliance with state requirements for licensure under tile 77 Admin. Code 2025 Ambulatory Surgical Treatment Center Licensing Requirements. Health and Life Safety related deficiencies were identified and previously sent.

An acceptable Plan of Correction (PoC) has been since received for healthcare deficiencies. Life Safety Code (K Tags) received an acceptable plan of correction, with the exception of verification of smoke and fire dampers inspection in the past six months which needs to be submitted by 11/30/19. The facility was notified on October 17, 2019, that is could resume the voluntary suspension of services following the submission of an acceptable plan of correction for the deficiencies cited on the 9/23/19 survey.

If you have any questions concerning this notice, please contact my staff at the address above or telephone (312) 793-2222. You may also telephone the Departments' TTY number for the hearing impaired at 1-800-547-0466.

Sincerely,

Karen Senger, RN BSN
