Re: Provident Hospital of Cook County
Certificate of Need Application

Dear Ms. Avery,

I submit this letter in support of Cook County Health's (CCH) Certificate of Need application to construct a modernized replacement Provident Hospital facility.

The existing Provident Hospital building requires significant financial investment to modernize the dated building. Building a replacement Provident Hospital facility, with expanded inpatient and outpatient services, will allow Cook County Health to better invest limited financial resources while continuing to provide patients with comprehensive, high-quality healthcare, and increasing access to care close to where they live. Additionally, it will eliminate the need for many existing Cook County Health patients to travel to Stroger Hospital for more complex care.

I am encouraged by Cook County Health and the Cook County Bureau of Asset Management's commitment to minority- and woman-owned business participation goals, as well as, community hiring goals for the project which will create economic development opportunities in the surrounding community. Additionally, I am encouraged by Cook County Health's commitment

to keep the existing Provident Hospital building open until the modernized Provident Hospital building opens.

Thank you for your consideration.

Sincerely,

Bill 

Bill Lowry

Cook County Commissioner, 3rd District
