Re: Provident Hospital of Cook County - Certificate of Need Application

Dear Ms. Avery:

I submit this letter in strong support of Cook County Health's (CCH) Certificate of Need application to construct a modernized replacement Provident Hospital facility.

The existing Provident Hospital building is outdated and requires significant financial investment to modernize. Building a replacement Provident Hospital facility with expanded inpatient and outpatient services will allow Cook County Health to better invest limited financial resources while continuing to provide patients with comprehensive, high-quality healthcare. In addition, patients will have greater access to care close to where they live, eliminating the need for many existing Cook County Health patients to travel to Stroger Hospital to receive more complex care.

I am encouraged by Cook County Health and the Cook County Bureau of Asset Management's commitment to meeting minority- and woman-owned business participation goals as well as community hiring goals for the project. The surrounding community stands to benefit from the economic development the project will provide. I am also encouraged by Cook County Health's commitment to keep the existing Provident Hospital building open until the modernized Provident Hospital building opens to ensure patients' care is uninterrupted.

I, therefore, respectfully urge your favorable consideration of Cook County Health's Certificate of Need application.

Sincerely,

Bobby L. Rush
Member of Congress
