Re: Opposition to CON Application #20-17 – Metro East Endoscopic Surgery Center (MESC)

Dear Ms. Avery:

I respectfully ask that the Illinois Health Facilities and Services Review Board (IHFSRB) deny CON Application #20-17. As described therein, Project #20-17 relies entirely on shifting outpatient orthopedic surgeries away from our rural surgery department at HSHS St. Joseph's Hospital - Breese. Over the last couple of years, we've seen a decrease in our orthopedic surgical volume due to the opening of two new tertiary hospitals within a 25-mile radius.

Allowing MESC the CON Application would prove to be detrimental to the surgical volume and revenue at HSHS St. Joseph's Breese. MESC represents an unnecessary duplication of services; therefore, adversely affecting our existing surgery volume. This project would undermine having a financially stable, viable hospital in our community.

As a leader at HSHS St. Joseph's Hospital Breese, I am asking you to please oppose CON Application #20-17 requested by MESC to allow us to continue to offer high-quality orthopedic care within our community.

Respectfully,

Serra Morton MSN, RN
Director, Inpatient and Women & Infants
