Dear Illinois Health Facilities and Services Review Board members,

I am writing in support of the newly proposed Sarah Bush Lincoln Bonutti Clinic (Effingham Medical Office Building #20-030).

When I saw the plans for this proposed project, I knew it would resonate with our patients and the community. Its design is timeless and the space fully accommodating, especially for our mobility-challenged patients.

With convenient diagnostic services in the same building, our patients will find it convenient and time-saving. This is crucial because many of our patients are older and face their own stamina and mobility issues. They often rely on the support of others to help them to appointments. This is a win-win for everyone.

Please accept this letter as an indication of my full support of Effingham Medical Office Building #20-030. I am confident that you will agree.

Sincerely,

A handwritten signature in black ink, appearing to read "Didi Omiyi", is written over a faint, larger signature.
