Illinois Health Facilities and Services Review Board
525 W. Jefferson St., **Second Floor**
Springfield, IL 62761

Dear Illinois Health Facilities and Services Review Board members,

I am writing in support of the newly proposed Sarah Bush Lincoln Bonutti Clinic (Effingham Medical Office Building #20-030).

Utz & Associates Architects is honored to be a part of this amazing replacement building. Some people may have thought that Sarah Bush Lincoln would leave town to get the level of expertise required for a project of this size, but Sarah Bush Lincoln leaders knew the expertise was right here in Effingham. Officials believed in the skills of our team right from the start and, together, we developed a sound plan for a medical site and building that will serve the region well for years to come.

The building's contemporary design—well situated on the lot and set-off by beautiful landscaping—will offer easy access and ample parking to all Effingham residents and those who come from adjacent areas. There is no doubt residents will be proud to call Sarah Bush Lincoln a community partner.

Please accept this letter as an indication of my full support of Effingham Medical Office Building #20-030.

Sincerely,

William Utz, President, AIA
