RECEIVED

AUG 31 2020

HEALTH FACILITIES &
SERVICES REVIEW BOARD

Re: Opposition to CON Project 20-030 – Effingham Medical Office Building

As a colleague of HSHS St. Anthony's Memorial Hospital, I respectfully urge the Review Board to deny this CON application as originally submitted, and only approve a revised CON application for an appropriately-sized building that does not duplicate existing hospital services.

The redundancy of service and redirection of patients will cause job losses and service cuts at St. Anthony's, and significantly reduce the many ways that the hospital supports the greater Effingham community. COVID-19 has already impacted St. Anthony's financially and caused layoffs. This project would cause hardship for our colleagues, organization, and ultimately the communities we serve.

Sincerely,

A handwritten signature in black ink, appearing to read "Danielle Will".

Re: Opposition to CON Project 20-030 – Effingham Medical Office Building

As a colleague of HSHS St. Anthony's Memorial Hospital, I respectfully urge the Review Board to deny this CON application as originally submitted, and only approve a revised CON application for an appropriately-sized building that does not duplicate existing hospital services.

The redundancy of service and redirection of patients will cause job losses and service cuts at St. Anthony's, and significantly reduce the many ways that the hospital supports the greater Effingham community. COVID-19 has already impacted St. Anthony's financially and caused layoffs. This project would cause hardship for our colleagues, organization, and ultimately the communities we serve.

Sincerely,

HSHS St. Anthony's Memorial Hospital Colleague

Re: Opposition to CON Project 20-030 – Effingham Medical Office Building

As a colleague of HSHS St. Anthony's Memorial Hospital, I respectfully urge the Review Board to deny this CON application as originally submitted, and only approve a revised CON application for an appropriately-sized building that does not duplicate existing hospital services.

The redundancy of service and redirection of patients will cause job losses and service cuts at St. Anthony's, and significantly reduce the many ways that the hospital supports the greater Effingham community. COVID-19 has already impacted St. Anthony's financially and caused layoffs. This project would cause hardship for our colleagues, organization, and ultimately the communities we serve.

Sincerely,

A handwritten signature in black ink, appearing to read "Erica Magelitz, PT". The signature is fluid and cursive.

Re: Opposition to CON Project 20-030 – Effingham Medical Office Building

As a colleague of HSHS St. Anthony's Memorial Hospital, I respectfully urge the Review Board to deny this CON application as originally submitted, and only approve a revised CON application for an appropriately-sized building that does not duplicate existing hospital services.

The redundancy of service and redirection of patients will cause job losses and service cuts at St. Anthony's, and significantly reduce the many ways that the hospital supports the greater Effingham community. COVID-19 has already impacted St. Anthony's financially and caused layoffs. This project would cause hardship for our colleagues, organization, and ultimately the communities we serve.

Sincerely,

Julie Zuber

Re: Opposition to CON Project #20-030-Effingham Medical Office Building

Dear Ms. Avery:

I am a practicing physician in Effingham, Illinois and been a proud member of HSHS St. Anthony's Memorial Hospital for over 21 years. St. Anthony's provides many invaluable resources and services to the community. They have been a pillar of excellence in the Effingham and surrounding areas for over 144 years. I am concerned that shifting patient volume and revenue away from our CMS-designated Sole Community Hospital is not in the best interest of rural healthcare or the involved community.

Given the effects on St. Anthony's by the recent pandemic, it is particularly important the impact and the exact nature of this project be understood. Many businesses were greatly impaired by the pandemic, and our vital local hospital is no exception. I feel that the approval of the CON project would significantly diminish St. Anthony's ability to generously provide, care for, and expand necessary services in the Effingham area.

Thank you for your consideration in this matter.

Lana Schmidt, MD

Re: Opposition to CON Project 20-030 – Effingham Medical Office Building

As a colleague of HSHS St. Anthony's Memorial Hospital, I respectfully urge the Review Board to deny this CON application as originally submitted, and only approve a revised CON application for an appropriately-sized building that does not duplicate existing hospital services.

The redundancy of service and redirection of patients will cause job losses and service cuts at St. Anthony's, and significantly reduce the many ways that the hospital supports the greater Effingham community. COVID-19 has already impacted St. Anthony's financially and caused layoffs. This project would cause hardship for our colleagues, organization, and ultimately the communities we serve.

Sincerely,

A handwritten signature in black ink that reads 'Lisa Starwalt'. The signature is fluid and cursive, with the first name 'Lisa' and last name 'Starwalt' clearly legible.

Lisa Starwalt
