Illinois Health Facilities and Services Review Board  
regarding Effingham Medical Office Building #20-030

I am in TOTAL support of the new Bonutti Medical Building to be built in Effingham, IL. It will consolidate all the services (including MRI, CAT scans, x-rays) that Sarah Bush already provides to Effingham in one new building. HSHS St. Anthony did this when they added on to their medical facility on Evergreen. The new Sarah Bush facility will enhance Effingham community's health care to people from not only the town and the surrounding area but from outside the area, state and country. I believe it is hypocritical for HSHS St. Anthony to oppose additional quality health care for Effingham when they constructed a facility in Mattoon down the road from the Sarah Bush hospital that duplicates services already provided by that community. My husband and I both have in the past and are now using the Bonutti clinic and services. The doctors, therapists and other services are excellent. The building IS outdated and NEEDS replaced and that is why I TOTALLY support the new Sarah Bush Lincoln Bonutti Clinic. Please approve and move this project forward as quickly as possible. Thank you.

Sincerely,  
Mary J. Miller
