

Dear Governor Pritzger and HFSRB Board Members:

In the middle of a global pandemic that is killing Black Chicagoans at three times the rate of white residents, Trinity Health, a \$10 Billion 'non-profit' health system is choosing to shut down Mercy Hospital. Their reason? They can't find a way to turn a profit treating poor and low-income communities of color.

The COVID-19 pandemic has exacerbated the devastating impacts of already underserved Black and Brown neighborhoods, making it clear that South Side residents need more healthcare facilities and services, not closures and cuts. Closing Mercy Hospital will put the South Side at a deficit of ICU beds and increase time needed to travel to the closest Emergency Room, potentially costing people their lives.

The costs to our community don't stop with patients. The essential workers at Mercy Hospital, also a largely Black and Brown workforce, make major sacrifices—both before and during the current pandemic—to provide life-saving care for their community. Mercy workers and the patients they care for, desperately need support during this critical time—including better staffing ratios, hazard pay, sufficient PPE and more supplies.

Shutting down Mercy Hospital, especially right now, is systemic racial and economic injustice in action.

If you believe Black Lives Matter, please use your authority to stop the closure of Mercy Hospital. Our lives depend on it.

Thank you,

YES! I want to join together with my community and essential healthcare workers to build a powerful movement to hold Chicago's multi-billion-dollar hospital industry accountable. It's long past time for Chicagoans to have a hospital system that puts the health and well-being of our **WHOLE** community ahead of their profits.

Their reason? They can't find a way to turn a profit treating poor and low-income communities of color.

The COVID-19 pandemic has exacerbated the devastating impacts of already underserved Black and Brown neighborhoods, making it clear that South Side residents need more healthcare facilities and services, not closures and cuts. Closing Mercy Hospital will put the South Side at a deficit of ICU beds and increase time needed to travel to the closest Emergency Room, potentially costing people their lives.

The costs to our community don't stop with patients. The essential workers at Mercy Hospital, also a largely Black and Brown workforce, make major sacrifices—both before and during the current pandemic—to provide life-saving care for their community. Mercy workers and the patients they care for, desperately need support during this critical time—including better staffing ratios, hazard pay, sufficient PPE and more supplies.

Shutting down Mercy Hospital, especially right now, is systemic racial and economic injustice in action.

If you believe Black Lives Matter, please use your authority to stop the closure of Mercy Hospital. Our lives depend on it.

Thank you,

YES! I want to join together with my community and essential healthcare workers to build a powerful movement to hold Chicago's multi-billion-dollar hospital industry accountable. It's long past time for Chicagoans to have a hospital system that puts the health and well-being of our **WHOLE** community ahead of their profits.

Dear Governor Pritzker and HFSRB Board Members:

In the middle of a global pandemic that is killing Black Chicagoans at three times the rate of white residents, Trinity Health, a \$10 Billion 'non-profit' health system is choosing to shut down Mercy Hospital. Their reason? They can't find a way to turn a profit treating poor and low-income communities of color.

The COVID-19 pandemic has exacerbated the devastating impacts of already underserved Black and Brown neighborhoods, making it clear that South Side residents need more healthcare facilities and services, not closures and cuts. Dear Governor Pritzker and HFSRB Board Members:

In the middle of a global pandemic that is killing Black Chicagoans at three times the rate of white residents, Trinity Health, a \$10 Billion 'non-profit' health system is choosing to shut down Mercy Hospital. Their reason? They can't find a way to turn a profit treating poor and low-income communities of color.

The COVID-19 pandemic has exacerbated the devastating impacts of already underserved Black and Brown neighborhoods, making it clear that South Side residents need more healthcare facilities and services, not closures and cuts. Closing Mercy Hospital will put the South Side at a deficit of ICU beds and increase time needed to travel to the closest Emergency Room, potentially costing people their lives.

The costs to our community don't stop with patients. The essential workers at Mercy Hospital, also a largely Black and Brown workforce, make major sacrifices—both before and during the current pandemic—to provide life-saving care for their community. Mercy workers and the patients they care for, desperately need support during this critical time—including better staffing ratios, hazard pay, sufficient PPE and more supplies.

Shutting down Mercy Hospital, especially right now, is systemic racial and economic injustice in action.

If you believe Black Lives Matter, please use your authority to stop the closure of Mercy Hospital. Our lives depend on it.

Thank you,

YES! I want to join together with my community and essential healthcare workers to build a powerful movement to hold Chicago's multi-billion-dollar hospital industry accountable. It's long past time for Chicagoans to have a hospital system that puts the health and well-being of our **WHOLE** community ahead of their profits.

Dear Governor Pritzker and HFSRB Board Members:

In the middle of a global pandemic that is killing Black Chicagoans at three times the rate of white residents, Trinity Health, a \$10 Billion 'non-profit' health system is choosing to shut down Mercy Hospital. Their reason? They can't find a way to turn a profit treating poor and low-income communities of color.

The COVID-19 pandemic has exacerbated the devastating impacts of already underserved Black and Brown neighborhoods, making it clear that South Side residents need more healthcare facilities and services, not closures and cuts. Closing Mercy Hospital will put the South Side at a deficit of ICU beds and increase time needed to travel to the closest Emergency Room, potentially costing people their lives.

The costs to our community don't stop with patients. The essential workers at Mercy Hospital, also a largely Black and Brown workforce, make major sacrifices—both before and during the current pandemic—to provide life-saving care for their community. Mercy workers and the patients they care for, desperately need support during this critical time—including better staffing ratios, hazard pay, sufficient PPE and more supplies.

Shutting down Mercy Hospital, especially right now, is systemic racial and economic injustice in action.

If you believe Black Lives Matter, please use your authority to stop the closure of Mercy Hospital. Our lives depend on it.

Thank you,

YES! I want to join together with my community and essential healthcare workers to build a powerful movement to hold Chicago's multi-billion-dollar hospital industry accountable. It's long past time for Chicagoans to have a hospital system that puts the health and well-being of our **WHOLE** community ahead of their profits.
